INTERIM REPORT
OF THE
Medical Facilities Commission

to
The Governor and The General Assembly of Virginia

Richmond, Virginia
January 18, 1973

To: Honorable Linwood Holton, Governor of Virginia
and
The General Assembly of Virginia

The Medical Facilities Commission and the Advisory Committee on Education for Health Professions and Occupations of the State Council of Higher Education have concluded that appropriate utilization of the medical and medical educational facilities in the Commonwealth urgently require adequate assessment of State needs for health manpower. Such an assessment is mandatory for proper expenditures of State appropriations for health professions, education and shall be continued until an adequate data basis is available. Therefore, the Medical Facilities Commission strongly recommends an additional appropriation of \$50,000 to the State Council of Higher Education to work with this Commission in the preparation of a comprehensive study and interim report on the health manpower and education needs of the Commonwealth, to be rendered to the Governor and the General Assembly November nineteen hundred seventy-three.

Respectfully submitted,

THOMAS L. GORSUCH, *Chairman*

CHARLES L. CROCKETT, JR., *Vice Chairman*
