Annual Executive Summary

2004

The Commission on

**Virginia Alcohol Safety
Action Program**

Introduction

The Virginia Alcohol Safety Action Program traces its roots to Fairfax County. In 1972, it became the site of one of 35 national “Alcohol Safety Action Projects” funded by the National Highway Traffic Safety Administration (NHTSA). On March 24, 1975, legislation passed by the General Assembly expanded this program statewide establishing driver education and rehabilitation programs in an effort to reduce the number of highway tragedies.

There are currently 24 Alcohol Safety Action Programs throughout Virginia. Every jurisdiction in the Commonwealth is covered. They have the responsibility of doing everything they can to lower the number of impaired drivers on our roadways. Efforts have paid off because the number of DUI deaths in Virginia continues to decline each year.

In 1986, the General Assembly formed the Commission on Virginia Alcohol Safety Action Program (Commission on VASAP). This provided for the standardization of ASAP operations, increasing the quality and equity of services to offenders statewide. Section 18.2-271.2 of the *Code of Virginia* requires the Commission on VASAP to submit to the Governor and the General Assembly an annual executive summary of the interim activity and work of the Commission. This report provides an overview of Commission on VASAP activities during 2004.

Mission

To improve highway safety by decreasing the incidence of driving under the influence of alcohol and other drugs, leading to the reduction of alcohol and drug-related fatalities and crashes.

Objectives

1. Deter the motoring public from driving under the influence of alcohol and other drugs.
2. Deter those arrested and convicted of driving under the influence from becoming repeat offenders.
3. Increase awareness to aid in the identification, apprehension and conviction of offenders driving under the influence of alcohol and other drugs.
4. Raise the conviction rate for offenders and the number of appropriate referrals to Alcohol Safety Action Programs.
5. Ensure appropriate probationary control of offenders.
6. Ensure the delivery of proper education and treatment services for offenders.
7. Provide statewide offender tracking services for all ASAPs.
8. Increase public awareness of the civil and legal consequences of DUI arrests, public perception of transportation crash risks and public activities to reduce DUI incidents.
9. Assess and maintain the effectiveness and self-supporting status of both the Commission and local Alcohol Safety Action Programs.

Programs

VASAP has developed many educational programs designed to improve highway safety, providing a credible Alcohol Safety Action Program that responds to the needs of each locality in Virginia. Included among these are:

- Aggressive Driver Program
