

This bill asked that agencies report on the impact of the aging population on delivery of services, and; it directs agencies to place information in its strategic plan based on this analysis.

This report provided 5 questions requiring response . None of these questions were applicable to the services provided by the Department of Forensic Science. The Department provides services to law enforcement agencies, medical examiners and Commonwealth's Attorneys and as such does not provide its day to day services directly to individual citizens of the Commonwealth.

Paul B. Ferrara, Ph.D.
Director, Virginia Department of Forensic Science
