

***State Council of Higher Education for Virginia:
Report on Transfers from Community Colleges at Virginia
Public Institutions***

Reporting Mandate: Chapter 650, 2004 (Senate Bill 6) Sect. 23-9.2:3.02

Annual Report on the total number of transfer students each institution of higher education admitted, enrolled, and graduated from institutions within the Virginia Community College System

The attached report describes the total number of Virginia Community College transfer students each institution of higher education enrolled and graduated for the period of 1999-2000 to 2003-2004. The number of transfer students admitted to each higher education institution is not included because the State Council of Higher Education (SCHEV) does not yet at this time require the reporting of this information.

The State Council of Higher Education is undertaking a more analytical study of transfer in the Commonwealth to be completed in Spring 2008. More substantial data, including admitted students, will be gleaned from this study and will be included in future reports.

The following tables and observations are included in this report:

***Table 1: Enrollment and Time to Baccalaureate Degree
VCCS Transfers with Associate Degrees, Baccalaureate Credit***

- The information in Table 1 indicates a general upward trend in numbers of VCCS transfers enrolling in and/or completing baccalaureate degrees within 2, 3, and 4 years.
- The course of the upward trend varied among institutions. Many showed a downward trend in 2000-01 or 2001-02, but demonstrated an upward trend again by 2003-04.
- Further research will be conducted to investigate and compare the population of students still enrolled in a baccalaureate program to those who completed in 2, 3, or 4 years.

***Table 2: Enrollment and Time to Baccalaureate Degree
VCCS Transfers with Associate Degrees, Occ./Tech Credit***

- The information in Table 2 indicates a slight upward trend in numbers of VCCS transfers with occupational and technical associate degrees enrolling in and/or completing baccalaureate degrees in 2, 3, or 4 years.
- It is important to note that occupational and technical associate degrees are not considered transfer degrees. Some four-year institutions are better prepared programmatically to accept credits from occupational or technical degrees. This explains the wide variance among four-year institutions in terms of students enrolled and graduated.
- Further research will be conducted to investigate and compare the population of students still enrolled in a baccalaureate program to those who completed in 2, 3, or 4 years.

***Table 3: Enrollment and Time to Baccalaureate Degree
VCCS Transfers Without Degrees***

- The information in Table 3 indicates that numbers of VCCS transfers without degrees enrolling in and/or completing a baccalaureate degree in 2, 3, or 4 years remained relatively steady from 1999-00 to 2000-04.
- Some institutions showed a downward trend in transfers from 2000-01 or 2001-02, but returned to 1999-00 enrollment levels by 2003-04.
- Further research will be conducted to investigate and compare the population of students still enrolled in a baccalaureate degree program to those who completed in 2, 3, or 4 years.

***Table 4: Enrollment and Time to Baccalaureate Degree
All VCCS Transfers***

- The information in Table 4 indicates a general upward trend in the total number of all VCCS transfers enrolling in and/or completing baccalaureate degrees within 2, 3, or 4 years.
- The majority of VCCS transfers do so without an earned associate degree. The second largest category of transfers have earned transfer associate degrees, followed by occupational technical associate degrees.
