

COMMONWEALTH OF VIRGINIA

Department of the Treasury

J. BRAXTON POWELL
TREASURER OF VIRGINIA

P. O. BOX 1879
RICHMOND, VA. 23218

November 3, 2008

Ms. Beverly Lewis
Division of Legislative Automated Systems
General Assembly Building
Richmond, VA 23219

Via Email

Dear Ms. Lewis:

In accordance with the provisions of §§ 23-30.36, 22.1-171 C, 2.2-2263, and 3.2-3109, I hereby submit the unaudited annual financial statements for the Virginia College Building Authority, the Virginia Public School Authority, the Virginia Public Building Authority, and the Tobacco Settlement Financing Corporation for the fiscal year ended June 30, 2008.

The financial statements have been prepared by the Department of the Treasury, whose management is responsible for their integrity and objectivity. The financial statements are considered by management to fairly present these public bodies' financial position and results of operations. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to obtain a thorough understanding of the financial statements have been included.

Sincerely,

A handwritten signature in black ink, appearing to read "Evelyn R. Whitley".

Evelyn R. Whitley
Director of Debt Management

**VIRGINIA PUBLIC BUILDING AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
AS OF JUNE 30, 2008**

This section of the Virginia Public Building Authority's ("the Authority") annual financial report presents an analysis of the Authority's financial performance during the fiscal year that ended on June 30, 2008. This information should be considered in conjunction with the information contained in the financial statements.

Authority Activities and Highlights

Upon approval of the General Assembly of the Commonwealth, the Authority is authorized to issue bonds or notes to construct, improve, furnish, maintain, acquire, finance, or refinance certain public facilities for the use of the Commonwealth and its agencies and instrumentalities, and to finance or refinance reimbursements to localities or regional jail authorities for the Commonwealth's share of the costs of certain jail and juvenile detention projects. The Authority serves exclusively as a financing entity with the sole function of issuing and managing debt. Debt service for all bonds issued by the Authority is secured by appropriations from the Commonwealth. During the past fiscal year, the Authority had two bond issuances to meet its purposes. The Authority issued \$242 million in Public Facilities Revenue Bonds, Series 2007A to finance construction of certain public facilities. The Authority also issued \$59 million in Public Facilities Revenue Refunding Bonds, Series 2008A. The issuance of the refunding bonds resulted in a decrease of future debt service payments of \$2,744,136.

Overview of the Financial Statements

This discussion and analysis is an introduction to the Authority's basic financial statements, which are comprised of two components: 1) combined government-wide and fund financial statements, and 2) notes to the financial statements.

Government-wide Financial Statements

The Statement of Net Assets and the Statement of Activities are two basic financial statements that report information about the Authority as a whole. The data is reported using the accrual basis of accounting, and provides insight as to whether or not the Authority's total financial position has improved as a result of the current year's activities.

The Statement of Net Assets presents all of the Authority's assets and liabilities, with the difference between the two reported as "net assets."

Statement of Net Assets (in millions)		
	<u>2008</u>	<u>2007</u>
Current assets	\$ 95	\$ 21
Current liabilities	170	170
Noncurrent liabilities	<u>1,594</u>	<u>1,463</u>
Total liabilities	<u>1,764</u>	<u>1,633</u>
Net assets	<u>\$ (1,669)</u>	<u>\$ (1,612)</u>

The Authority's net assets decreased by 4% or \$57 million in 2008. The decrease is due to the recordation of bonds payable related to the issuance of new bonds during the year. *Net assets consistently maintain a deficit balance because the Authority includes the bonds payable liability in its financial statements without including the future appropriation expected from the Commonwealth because future appropriations are not considered available and do not constitute a legally binding commitment.*

The Statement of Activities presents information showing how the Authority's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g. receipt or payments on long-term debt obligations).

	<u>2008</u>	<u>2007</u>
Revenues:		
Appropriations from the Commonwealth	\$ 183	\$ 146
Other Revenue	11	10
Total Revenues	<u>194</u>	<u>156</u>
Expenses:		
Interest on long-term debt	81	72
Disbursements for state and local projects	170	323
Total Expenses	<u>251</u>	<u>395</u>
Change in net assets	(57)	(239)
Net assets July 1	<u>(1,612)</u>	<u>(1,373)</u>
Net assets June 30	<u>\$ (1,669)</u>	<u>\$ (1,612)</u>

The Authority's revenues increased by 24% or \$38 million compared to last year while expenses decreased by 36% or \$144 million. The increase in revenue is largely due to the increase in the appropriation receipt from the Commonwealth, which resulted from the larger debt service requirement for the year. The increase was also due to slightly higher interest earnings from the proceeds of the revenue bonds issued. The decrease in expenses is mostly attributable to a decrease in distributions for construction projects and reimbursements made to localities for various regional jail projects. In the current year, \$168 million was disbursed for construction and regional jails compared to \$321 million in the prior year. The \$153 million decrease represented a 48% decrease in distribution for construction projects and various regional jail projects. The fluctuations in revenues and expenses are expected due to the nature of the Authority's operations.

Both statements report Governmental Activities backed by appropriations from the Commonwealth.

Fund Financial Statements

The fund financial statements provide detailed information about the Authority's major fund. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the Authority uses to keep track of specific sources of funding and spending for a particular purpose.

All of the Authority's activity is reported in Governmental Funds Financial Statements. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental funds financial statements focus on near-term inflows and outflows of spendable resources. This approach is known as using the flow of current financial resources measurement focus and the modified accrual basis of accounting. These statements provide a detailed short-term view of the Authority's finances that assists in determining whether there will be adequate financial resources available to meet the current needs of the Authority.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between the governmental funds and the governmental activities. These reconciliations are presented in the adjustment column in each of the financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements.

Purpose of the Authority

The primary purpose of the Authority is to provide a vehicle for financing public facilities for the use of the Commonwealth and its agencies and instrumentalities, and to finance reimbursements

of the Commonwealth's share of local or regional jails and juvenile detention facilities costs. The Department of the Treasury provides staff support for the Authority. Consequently, the only operating costs are those attributable to its financing programs, which are paid primarily from bond proceeds.

Debt Administration

As a financing entity, the sole business of the Authority is debt administration. The Authority issues bonds to finance capital projects approved by the General Assembly of the Commonwealth of Virginia. All bonds are secured by amounts to be appropriated by the General Assembly.

The following is a summary of changes in long-term debt of the Authority at June 30, 2008:

Bonds payable at July 1, 2007	\$ 1,503,466,067
Bonds issued	301,475,000
Bonds defeased	(60,775,000)
Bonds retired	(112,690,000)
Amortized discount for fiscal year 2008	2,327,894
Amortized deferral on debt defeasance for fiscal year 2008	1,978,697
Bonds payable at June 30, 2008	<u><u>\$ 1,635,782,658</u></u>

The Authority's outstanding bonds are rated as follows:

Moody's Investors Service (Moody's)	Aa1
Standard and Poor's Rating Service (S&P)	AA+
Fitch Ratings, Inc. (Fitch)	AA+

Since the Authority's bonds are backed by state appropriations, the bond ratings are a direct reflection of the Commonwealth's triple-A rating from each of the three rating agencies.

Future Impact to Financial Position

The Authority anticipates issuing approximately \$275,000,000 Series 2008B (Tax-exempt) and 2008C (Taxable) bonds this fall.

## **Notes to the Financial Statements**

**VIRGINIA PUBLIC BUILDING AUTHORITY**  
**NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED)**  
**AS OF JUNE 30, 2008**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The Virginia Public Building Authority (“the Authority”) was created in 1981 by §2.2-2260 et seq., of the *Code of Virginia* for the purpose of acquiring, constructing and operating public buildings for the use of the Commonwealth of Virginia (“the Commonwealth”) and its political subdivisions. The Authority is authorized to issue bonds or notes to construct, improve, furnish, maintain, acquire, finance, or refinance certain public facilities for the use of the Commonwealth, its agencies and instrumentalities and to finance or refinance reimbursements to localities or regional jail authorities for the Commonwealth’s share of the costs of certain jail projects. The Authority is authorized to undertake a project only upon approval of the General Assembly of the Commonwealth.

In 1997 the Authority created the 1997 Master Indenture of Trust (“the 1997 Indenture”). The 1997 Indenture utilizes a single payment agreement to provide for debt service payments. Debt service payments are subject to General Assembly appropriation. In addition, the 1997 Indenture provides for the issuance of commercial paper bond anticipation notes.

Bonds issued prior to the 1997 indenture were issued under its 1988 Master Indenture of Trust (“the 1988 Indenture”). These bonds were also ultimately supported by an appropriation from the Commonwealth. The Authority no longer issues bonds under the 1988 Indenture.

A separate report is prepared for the Commonwealth of Virginia, which includes all agencies, boards, commissions, and authorities over which the Commonwealth exercises or has the ability to exercise oversight authority. The Authority is a component unit of the Commonwealth of Virginia and is included in the basic financial statements of the Commonwealth.

The accounting and reporting policies of the Authority conform to generally accepted accounting principles (GAAP) applicable to governmental units as prescribed by the Governmental Accounting Standards Board (GASB), the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the Authority’s more significant policies.

## **B. Measurement Focus and Basis of Accounting**

The accompanying financial statements are presented using the accounting principles generally accepted in the United States of America as prescribed by the GASB. The accompanying government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned and expenditures are recognized when the related liability is incurred, regardless of the timing of related cash flows.

The accompanying governmental funds financial statements are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available to fund current operations. Expenditures are recognized when the related fund liability is incurred, except for principal and interest on long-term debt which is recognized when due.

The Authority uses the cash basis of accounting during the year and reports on the accrual and modified accrual basis for financial statement purposes at the end of the fiscal year.

## **C. Fund Accounting**

The Special Revenue Fund accounts for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Special Revenue Fund consists of bond proceeds, bond funds, and issuance expense funds. The fund was established in accordance with the provisions of the Trust Agreement entered into with the trustee for each bond indenture.

## **D. Adjustments**

The adjustments column represents the recording of bonds payable liabilities on the Statement of Net Assets and the related effect of these transactions on the Statement of Activities. Governmental fund statements do not reflect bonds payable. The non-current portion of bonds payable includes those payments that are not due and payable in the current period.

## **E. Bond Issuance Costs, Premiums, and Discounts**

Costs associated with issuing debt are expensed in the year incurred. The original issue premium or discount, for each bond issuance, is also recorded in the year incurred unless it exceeds 1% of the amount of the bonds issued. In that case, the original issue premium or discount is deferred and amortized, on a straight-line basis, over the life of the outstanding debt.

## **2. DETAILED NOTES ON ALL FUNDS**

### **A. Cash and Cash Equivalents**

Cash and cash equivalents of the Authority are held by The Bank of New York, as trustee (successor to Signet Bank), under the 1997 and 1988 Indentures. Cash is defined as demand deposits, time deposits and certificates of deposit in accordance with §2.2-4401 of the *Code of Virginia*. Cash equivalents represent deposits and short-term investments with original maturities of less than three months.

In accordance with the Trust Subsidiary Act, §6.1-32.8 of the *Code of Virginia*, cash held by the trustee while awaiting investment or distribution is not used by an affiliate bank of the trustee in the conduct of its business unless the affiliate bank delivers securities to the trust department as collateral that is at least equal to the market value of the trust funds held on deposit in excess of amounts insured by federal deposit insurance.

The 1988 and 1997 Indentures authorize the trustee, on behalf of the Authority, to invest in legal investments for public sinking funds and other public funds as outlined in §2.2-4500 and §2.2-4501 of the *Code of Virginia* which include repurchase agreements, certificates of deposit, commercial paper, bankers' acceptances, United States Government and agency securities, and money market funds.

Custodial credit risk for cash and cash equivalents is the risk that, in the event of a failure of the counterparty, the Authority will not be able to recover the value of the cash and cash equivalents or collateral securities that are in the possession of an outside party. The Trustee complies with the Trust Subsidiary Act, §6.1-32.8 of the *Code of Virginia* with regard to the Authority's assets. The Authority's investments at June 30, 2008 were held in the Authority's name by the Authority's custodial banks; therefore, the Authority has no custodial credit risk.

The Authority's cash and cash equivalents at June 30, 2008 are presented below.

Summary of Cash and Cash Equivalents  
As of June 30, 2008

|                                                 | Fair<br>Value |
|-------------------------------------------------|---------------|
| Cash and cash equivalents:                      |               |
| Money Market Funds <sup>(1)</sup>               | 59,922        |
| Local Government Investment Pool <sup>(2)</sup> | 94,802,385    |
| Total cash and cash equivalents                 | \$ 94,862,307 |

(1) The Authority invests certain short-term cash balances held within its accounts in Federated Auto Government Money Trust Money Market. This open-ended mutual fund is registered under the Investment Company Act of 1940. This fund maintains a policy of investing all their assets in U.S. Treasury obligations and repurchase agreements backed by those obligations. This money market fund is rated AAA by Standard and Poor's.

(2) The Local Government Investment Pool (LGIP) enables governmental entities to maximize their return on investments by providing for a State administered fund where monies can be commingled for investment purposes in order to realize the economies of large-scale investing and professional funds management. The LGIP is not registered with the SEC as an investment company, but maintains a policy to operate in a manner consistent with the SEC's Rule 2a7. The LGIP is rated AAAM by Standard and Poor's.

**B. Long-Term Debt**

Changes in Long-Term Debt - The following is a summary of changes in long-term debt of the Authority for the year ended June 30, 2008.

|                                       |                  |
|---------------------------------------|------------------|
| Bonds payable at July 1, 2007         | \$ 1,503,466,067 |
| Bonds issued                          | 301,475,000      |
| Bonds defeased                        | (60,775,000)     |
| Bonds retired                         | (112,690,000)    |
| Amortized discount                    | 2,327,894        |
| Amortized deferral on debt defeasance | 1,978,697        |
| Bonds payable at June 30, 2008        | \$ 1,635,782,658 |

Annual Requirements to Amortize Long-Term Debt:

| <u>Year Ending June 30</u> | <u>Principal</u>        | <u>Interest</u>             | <u>Total</u>            |
|----------------------------|-------------------------|-----------------------------|-------------------------|
| 2009                       | \$ 124,745,000          | \$ 78,289,207               | \$ 203,034,207          |
| 2010                       | 132,345,000             | 69,115,310                  | 201,460,310             |
| 2011                       | 132,075,000             | 65,372,079                  | 197,447,079             |

| 2013                       | 131,315,000             | 52,455,653                  | 183,770,653             |
| 2014-2018                  | 536,630,000             | 166,675,245                 | 703,305,245             |
| 2019-2023                  | 272,805,000             | 72,102,957                  | 344,907,957             |
| 2024-2028                  | 203,715,000             | 17,037,575                  | 220,752,575             |
| Less:                      |                         |                             |                         |
| Unamortized discount       | (2,052,886)             | -                           | (2,052,886)             |
| defeasance                 | <u>(26,609,456)</u>     | <u>                    </u> | <u>(26,609,456)</u>     |
| Total                      | <u>\$ 1,635,782,658</u> | <u>\$ 580,648,467</u>       | <u>\$ 2,216,431,125</u> |

**C. Defeasance of Debt**

In May 2008, the Authority issued \$58,995,000 State Building Revenue Refunding Bonds Series 2008A. The proceeds refunded \$60,775,000 of Series 1998A bonds. Bond proceeds of \$62,756,957 were placed with an escrow agent to provide for the redemption of the bonds. The total debt service payments over the life of the bonds have been reduced by \$2,744,136 resulting in an economic gain (savings) of \$2,665,620 discounted at 2.486125%.

In prior years, the Authority defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included on the Authority's financial statements. At June 30, 2008, \$209,990,000 of bonds outstanding is considered defeased for financial reporting purposes. The detail for those balances and the refinancing activities that resulted in the defeasance of the bonds is shown below:

| <u>Refunded State Building Revenue Bonds:</u> | <u>Refunded Amount:</u> | <u>Refunding Series:</u> |
|-----------------------------------------------|-------------------------|--------------------------|
| Series 1998B (partial)                        | \$25,120,000            | 2005B                    |
| Series 1999A (partial)                        | \$45,405,000            | 2005B                    |
| Series 1999B (partial)                        | \$11,605,000            | 2004D                    |
| Series 2000A (partial)                        | \$67,085,000            | 2004D                    |
| Series 1998A (partial)                        | \$60,775,000            | 2008A                    |

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 23, "Accounting and Financial Reporting for Refundings of Debt Reported by Proprietary Activities," the difference between the reacquisition price and the net carrying amount of the bonds defeased with refunding debt is amortized as a component of Interest on Bonds over the remaining life of the refunded debt. Therefore, Bonds Payable, as reflected on the government-wide statements, has been reduced by \$26,609,456 to reflect the remaining deferral on debt defeasance at June 30, 2008.

#### **D. Arbitrage Rebate**

The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt subsequent to August 1986 calculate and rebate arbitrage earnings to the federal government. The U.S. Treasury has issued regulations on calculating the rebate amount and complying with the provisions of the Tax Reform Act of 1986. The Authority must comply with the rebate regulations in order for the Authority's bonds to maintain a tax-exempt status. The regulations require the excess of the aggregate amount earned on investments purchased with bond proceeds over the amount that would have been earned if the investments were invested at a rate equal to the bond yield to be rebated to the federal government.

Income earned on excess earnings is also subject to rebate. Rebate payments, if required, are due at least every five years over the life of the bonds. Some bonds of the Authority may be exempt from the rebate regulations if they meet statutory exceptions per the rebate requirements. The Authority may also elect, on or before the date of the bond issue, to pay a penalty in lieu of rebate if it does not meet certain expenditure tests. The Authority would retain any arbitrage earnings. The Authority, to date, has not elected penalty in lieu of rebate.

Rebate and penalty payments are calculated and paid by the Authority as required by law on bond issues that fall under the regulations and do not qualify for exceptions. As of their 5 year and 10 year installment computation dates, the 1998A, 1998B, and 2003A bonds had no arbitrage rebate liabilities due. Therefore, no payments were made to the Internal Revenue Service.

#### **E. Surplus Fund Balance**

Generally accepted accounting principles direct that governmental funds recognize expenditures when the related liability is incurred while revenues are recognized when they become available. Due to the timing of the Authority's bond issuance, available resources at the close of the current year recognized by the Authority exceeded the expenditures recognized by the Authority at the close of the current period resulting in a surplus fund balance of \$85,622,307.

#### **F. Deficit Net Assets**

Generally accepted accounting principles direct that governmental funds recognize revenues in the accounting period in which they become both measurable and available to finance expenditures of the fiscal period. Authority bonds are secured by General Assembly appropriations. Because future

appropriations are not considered available and do not constitute a legally binding commitment, the Authority ended the year with a net asset deficit of \$1,668,831,627. The General Assembly has never failed to appropriate funds to the Authority for payment of debt service on the Authority's bonds.

#### **G. Subsequent Events**

In the fall of 2008, the Authority plans to issue series 2008B (Tax-exempt) and 2008C (Taxable) bond Virginia Public Building Authority, Public Facilities Revenue Bonds in the amount of \$275,000,000, under the Twenty-Second Supplemental Indenture to fund various capital projects authorized for funding by VPBA. The 2008B (Tax-exempt) bonds will be used to finance the acquisition, construction, improvement, rehabilitation, furnishing, and equipping of various public facilities for use by the Commonwealth of Virginia and its agencies: finance or refinance the Commonwealth's share of the construction of certain regional and local jail and juvenile detention projects; and pay costs of issuing the Series 2008B bonds. The 2008C (Taxable) bonds will be used to help finance several non-public projects in the Commonwealth; and pay costs of issuing the Series 2008C bonds.

#### **H. Risk Management**

The Authority is exposed to various risks of loss related to torts; theft or, damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The Department of the Treasury participates in insurance plans maintained by the Commonwealth of Virginia on behalf of the Authority. The risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, medical malpractice, faithful performance of duty bond, automobile, and air and watercraft plans. The Department of Treasury pays premiums to this Department for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report.
