

LIBRARY OF VIRGINIA

Sandra Gioia Treadway
Librarian of Virginia

TRANSMITTAL LETTER

TO: The Honorable R. Edward Houck
Chairman, Senate Education and Health Committee

The Honorable Robert Tata
Chairman, House Education Committee

The Honorable Kathy J. Byron
Chairman, House Committee on Science and Technology

FROM: Sandra G. Treadway

SUBJECT: Biennial Report on Acceptable Internet Use Policies Developed by Local Library Boards

Section 42.1-36.1 of the Code of Virginia instructs the Librarian of Virginia to submit a report biennially to the Chairmen of the House Committee on Education, House Committee on Science and Technology, and the Senate Committee on Education and Health on Acceptable Internet Use Policies filed with the Librarian of Virginia. The Library of Virginia has on file Acceptable Internet Use Policies from all 91 public library systems in the Commonwealth of Virginia.

Please accept this report as fulfillment of this responsibility. If you have any questions about this report please let me know.

cc: The Honorable Gerard Robinson

Introduction

The *Code of Virginia* § 42.1-36.1 directs the Librarian of Virginia to submit a report to the Chairmen of the House Committee on Education, the House Committee on Science and Technology, and the Senate Committee on Education and Health that summarizes the acceptable use policies filed with the Librarian.

As indicated in the *Code of Virginia*, each policy shall contain provisions that

- i. are designed to prohibit use by library employees and patrons of the library's computer equipment and communication services for sending, receiving, viewing, or downloading illegal material via the Internet,
- ii. seek to prevent access by library patrons under the age of 18 to material that is harmful to juveniles, and
- iii. establish appropriate measures to be taken against persons who violate the policy. This includes the selection, installation, and activation of a technology protection measure to filter or block child pornography, obscenity, and materials deemed harmful to minors.

Following is the report that has been prepared in response to this directive.

List of Policies on File

The Library of Virginia has on file Acceptable Internet Use Policies from all 91 of the state's public libraries. The list of libraries follows:

Alexandria Library System
Amherst County Public Library
Appomattox Regional Library System

Staunton Public Library
Suffolk Public Library
Tazewell County Public Library
Virginia Beach Public Library
Washington County Public Library System
Waynesboro Public Library
Williamsburg Regional Library
Wythe-Grayson Regional Library
York County Public Library

Summary

All of the Acceptable Internet Use Policies clearly state that the library's computer equipment and communication services must not be used to access illegal materials.

In addition to the use of filtering software, policies seek to prevent access by library patrons under the age of 18 to material that is harmful to juveniles. In the majority of policies, at a minimum, written parental permission is required before a library patron under age 18 may use the library's computers. Many require direct parental supervision for library patrons under the age of 12 or 13. Some libraries have installed privacy screens to reduce the possibility of inadvertent exposure to harmful material.

Violations of the Acceptable Internet Use Policy are handled in several different ways, depending on the severity and the frequency of the infraction. Most

policies deny access to the library's computers and the Internet for a limited time for violating the Acceptable Internet Use Policy. If the infraction is illegal, most policies indicate that the offenders will be open to prosecution. Repeated violations of the Acceptable Internet Use Policy will result in permanent ban from the library's computers, from the library, or from both.

Copies of Acceptable Internet Use Policies can usually be found on the libraries' Web sites. A list of these sites can be found at <http://www.lva.lib.va.us/whoweare/directories/valib/libweb.asp>.
