Dear Sirs:

Chapter 771 of the 2011 Acts of the Assembly directs the State Corporation Commission to provide annual reports on any solar energy distributed generation programs approved pursuant to that legislation. By this letter, we report that we have received no applications filed under this statute seeking approval to construct and operate a distributed solar generation facility or seeking approval of special tariffs to facilitate customer-owned distributed solar generation as an alternative to net metering.

The Commission remains ready to consider any such future applications. As always, we will provide additional information or assistance upon request.

Respectfully submitted,

Judith Williams Jagdmann
