INTRODUCTION

BACKGROUND TO THE CATALOG

In response to increasing interest in the effect of mandates on localities, the 1993 General Assembly enacted legislation directing the Commission on Local Government to compile and annually update a catalog of State and Federal mandates imposed on the Commonwealth's local governments, including, where available, a summary of the fiscal impact of any new mandates.¹ This 2012 edition of the catalog published by the Commission on Local Government includes mandates identified as of August 2012.² The Commission examined all legislation passed by the 2012 General Assembly session, surveyed executive branch agencies, and contacted the local government associations (the Virginia Association of Counties and the Virginia Municipal League) for information on new mandates and mandates not previously identified.

In the development of this document, the Commission adhered to the definition of "mandate" originally adopted by the Joint Legislative Audit and Review Commission (JLARC) and reconfirmed in Executive Order 58 (2007), which defines a mandate as a State or Federal constitutional, statutory, or administrative action that places a requirement on local governments.³ This definition encompasses the four types of mandates classified in Executive Order 58: compulsory orders, conditions of financial aid, regulation of optional activities, and state fiscal preemption. Under this classification scheme, "compulsory orders" require local government compliance regardless of receipt of aid or other circumstances. Mandates termed "conditions of

¹ Sec. 15.2-2903(7), Code of Va.

² As was the case with previous editions, this most recent update is founded upon the prior research of the Joint Legislative Audit and Review Commission published in its two catalogs of mandates: the 1992 study, Catalog of State and Federal Mandates on Local Governments (H. D. 53/1992) and the 1993 Update: Catalog of State and Federal Mandates on Local Governments (H. D. 2/1994; hereinafter referred to as the 1993 Update).

³ 1993 Update. It is important to note that, as a result, this catalog does not include those requirements imposed on local governments by judicial decision nor by burden resulting from a reduction of State or Federal financial assistance without a corresponding decrease in required services, which arguably also constitute mandates that can significantly affect localities.

financial aid” require compliance only if the locality accepts the State or Federal assistance in question. Mandates classified as “regulation of optional activities” result from State or Federal regulation of activities that local governments undertake voluntarily. Finally, mandates termed “state fiscal preemption” involve measures that result in a net reduction of revenues collected by a locality or a restriction on the locality’s authority to collect such revenues. This last type of mandate was introduced by Executive Order 58 and was not considered for inclusion in the catalog prior to the 2008 edition.

ASSOCIATED STATE OVERSIGHT OF MANDATES

In addition to requiring that mandates be cataloged, the General Assembly has taken several other steps to monitor the effects of mandates on Virginia’s local governments.⁴ For example, the legislature has directed the Division of Legislative Services to refer to the Commission any bills introduced in the General Assembly that may require one or more local governments to render a new service or expand an existing service, or require a net reduction in revenues by any county, city, or town.⁵ The Commission must then conduct an investigation of such bills and prepare fiscal impact estimates to be filed with the Clerk of the House of Delegates for distribution to legislators considering those measures. These fiscal impact statements alert legislators to any adverse fiscal impacts that might result from the proposed legislation.

Further, in order to examine the fiscal as well as other impacts of existing mandates on localities, all State executive branch agencies are required to review mandates that they administer on local governments, and to report which, if any, might be altered or eliminated without interruption of local service delivery or undue threat to the health, safety, and welfare of citizens of the Commonwealth.⁶ The Commission is

responsible for coordinating the scheduling of the assessments and for notifying the Governor and the General Assembly when an agency assessment recommends the alteration or elimination of a mandate.

The assessment of mandates by executive agencies is governed by Executive Order 58 that took effect in October 2007, superseding Executive Memorandum 1-98, which had guided the assessment process since October 1998.⁷ Executive Order 58 eliminated the previous requirement to periodically reassess all mandates in the catalog, and limited assessment activities to four types of mandates: (1) new mandates; (2) newly identified mandates; (3) mandates that have been so substantially modified as to create a new mandate; and (4) mandates that the Commission, after duly considering input from local governments, state agencies, interest groups, and the public, has determined should be reassessed. In any case, no such mandate becomes subject to assessment until it has been in effect for at least twenty-four months, and no mandate can be reassessed more than once every four years unless it has been so substantially modified as to create a new mandate. The Commission annually establishes a schedule that state agencies must follow in assessing the types of mandates described above.

ORGANIZATION OF THE CATALOG

Generally

The 2012 edition of the catalog provides an inventory of all the State and Federal mandates on local governments in Virginia that had been identified as of August 2012. The catalog is organized into two parts. Part A contains those mandates administered by the executive agencies of the Commonwealth, and Part B lists the remaining mandates which either are administered by nonexecutive agencies or exist without State

⁷ EM 98-1 required periodic reassessments of every state agency mandate listed in the Catalog, but no more frequently than once every four years. Executive Order 58 (2007) revised the process so that assessment is limited only to mandates that are (1) new or previously unreported, (2) have been so revised that they constitute new mandates, or (3) that the Commission deems to be worthy of reassessment based on input from the public and interested groups.

administrative oversight. In all, 632 mandates are included in the catalog. Of the total, 485 mandates subject to critical review by executive agencies are included, as opposed to 478 mandates listed in the 2011 edition.⁸

Part A

Part A of the catalog lists those mandates administered by executive branch agencies and subject to assessment pursuant to the provisions of EO 58 (2007). They are cataloged according to administering agency. Each mandate has a separate entry containing standardized data, including a short title; a unique code number; a brief description of the mandated action; identification of the type of mandate; the name of the administering agency and the relevant secretariat; the statutory, regulatory, or constitutional authority on which the mandate is based; the mandate assessment period, if applicable; the assessment finding, where available; and additional applicable comments.⁹

Part B

Part B lists those mandates not subject to assessment because they are administered by nonexecutive branch agencies or because there is no State administrative oversight of the required action. Each entry for the mandates listed in Part B includes the same general information as that in Part A, but in this section

⁸ See Appendix C, Changes in Mandates since Issuance of 2011 Catalog of State and Federal Mandates on Local Governments.

⁹ Code numbers for mandates administered by executive agencies and subject to assessment are derived from the official abbreviations for the secretariat, followed by the official abbreviation for the administering agency and a three-digit number. Mandates not subject to review are identified as follows: judicial branch mandates begin with the letters “JUD,” followed by the official abbreviation for the appropriate court, and a three-digit number; legislative branch mandates begin with the letters “LEG,” followed by the official abbreviation of the agency, and a three-digit number; independent agency mandates begin with the letters “IND,” followed by the official abbreviation for the agency, and a three-digit number; mandates without State oversight begin with the letters “NSO,” followed by a three-digit number.

references to the secretariat, assessment period, and assessment finding have been omitted.

Appendices

Detailed supplementary materials are provided in the appendices. Appendix A includes a copy of EO 58 (2007) which governs the mandates assessment process and contains a sample of the standardized format that agencies are required to follow in conducting their assessments. Appendix B offers a complete listing of the current schedule of assessment periods. Appendix C provides a separate listing of the changes in mandates since the publication of the previous edition: (1) new mandates, (2) newly identified mandates, (3) those mandates which have been expanded, (4) mandates which have been eliminated, (5) mandates which have been removed from the catalog, (6) mandates which have been made less burdensome, and (7) other changes.¹⁰ Appendix D provides a separate listing of the principal Federal mandates that affect Virginia's localities, with a brief description of the mandate and a listing of the authorizing measure. Examples of all of these Federal mandates can be found with complete entries in Parts A and B of the catalog. Appendix E provides a table showing the number of mandates by type and by administering agency and secretariat. Finally, Appendix F includes a summary of the provisions of the Code of Virginia that apply to mandates, followed by the precise wording of the statutes.

Subject Index

An index is provided to help the reader find information easily. It lists each mandate by short title and page number.

¹⁰ Expanded mandates are those which, by legislative or regulatory action, have been broadened with respect to the requirements placed on local governments. Eliminated mandates are those which, by legislative or regulatory action, have been repealed. Mandates which have been removed from the catalog are those which have been removed for some non-legislative or non-regulatory reason.

Comment: The 2011 assessment specifically stated that the mandate should be eliminated; however, the rationale provided for its elimination was that this same requirement is imposed on the population at-large, and is not specific to local governments. The Commission is retaining this listing because the mandate applies to a core service of local government. The assessment made no recommendation as to whether the program itself should be retained, altered, or eliminated.

District Courts Deposit of Fines and Fees

SFIN.DOA001

The Auditor of Public Accounts shall annually calculate the amount of total fines and fees collected by the District Courts. The Auditor of Public Accounts will determine those localities in which total local fines and fees collected exceed 50 percent of the total collections. Using the Auditor of Public Accounts' calculation for fiscal year 2011, the State Comptroller shall deduct half of the amount in excess of 50 percent from any current payment of local fines and fees before remitting to the localities their remaining collections. When the State Comptroller has recovered in total, the half of the amount exceeding 50 percent, he shall pay all local collections monthly directly to the locality's treasury.

Local Matching Funds

SHHR.DBHDS012

All cities and counties are required to provide at least 10% of the total amount of state and local matching funds in community services boards and behavioral health authority performance contracts to receive state funds. However, the Department of Behavioral Health and Developmental Services may waive this requirement pursuant to policy adopted by the State Board of Behavioral Health and Developmental Services.

Type: Non-Discretionary Condition of Aid

Agency: **Department of Behavioral Health and Developmental Services**

Secretariat: Health and Human Resources

Authority: Code of Virginia §§ 37.2-509, 37.2-611

Last Assessment Period: 10/1/2001 to 11/30/2001

Last Assessment Finding: Retain

Current Assessment Period

Comment: The local matching funds mandate applies to all cities and counties. Cities and counties are not required to approve the performance contract. § 37.2-508 (B) of the Code of Virginia enables local governments to approve it, but it does not require their approval. In addition, if the local governing body does not approve the proposed contract by September 30 of each year, it shall be deemed approved or renewed.

Dispute Resolution

SHHR.DBHDS013

Community services boards (CSBs) and behavioral health authorities (BHAs) shall institute dispute resolution mechanisms, either singly or in combination with other CSBs or BHAs, which shall be approved by the Department of Behavioral Health and Developmental Services.

Executive Director or Chief Administrative Officer

SHHR.DBHDS014

Operating and administrative policy community services boards (CSBs) must appoint an executive director, and behavioral health authorities (BHAs) must appoint a chief executive officer. Operating CSB executive directors and the BHA chief executive director must be employed under an annually renewable contract that contains performance objectives and evaluation criteria.

Type: Compulsory Order

Agency: **Department of Behavioral Health and Developmental Services**

Secretariat: Health and Human Resources

Authority: Code of Virginia §§ 37.2-504, 37.2-605

Last Assessment Period: 10/1/2006 to 12/31/2006

Last Assessment Finding: Retain

Current Assessment Period

Comment: The only part of this mandate that applies to cities and counties is the requirement to employ an executive director if the CSB established by the local government is an administrative policy CSB or a local government with a policy-advisory CSB. The mandate to employ an operating CSB executive director or a BHA chief executive officer does not apply to cities or counties; it applies to operating CSBs established pursuant to § 37.2-500 of the Code of Virginia and BHAs established by § 37.2-601. The requirement to employ an executive director or a chief executive officer under an annually renewable contract does not apply to cities or counties; it only applies to operating CSBs and BHAs. See SHHR.DBHDS003 for information regarding designating the type of CSB.

Stormwater Management Programs by Localities

SNR.DCR006

Any locality, excluding towns, unless such town operates a regulated municipal separate storm sewer system (MS4), is required to adopt a Virginia Stormwater Management Program (VSMP) for land disturbing activities consistent with the Stormwater Management Law. Such VSMP must be adopted according to a schedule set by the Board but no sooner than 15 months and not more than 21 months following the effective date of the regulation that establishes local program criteria and delegation procedures, unless the Board provides an extension up to an additional 12 months. Any town lying within a county, which has adopted a VSMP, may adopt its own program or shall become subject to the county program. A VSMP authority may enter into agreements or contracts with soil and water conservation districts, adjacent localities, or other public or private entities to carry out or assist with these responsibilities.

When establishing a VSMP, the VSMP authority shall assess the statewide fee schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department of Conservation and Recreation for program oversight responsibilities. A VSMP's portion of the fees shall be used solely to carry out the VSMP's responsibilities under the Stormwater Management Law and its attendant regulations, ordinances, or annual standards and specifications. Localities administering their own programs and operating a stormwater utility must provide full or partial waivers from stormwater utility charges for properties that reduce post-development stormwater flows.

Dam Safety and Flood Prevention Planning

SNR.DCR020

Localities must consider dam break inundation zones and potential impacts to downstream lives and properties when preparing their comprehensive plans, and must include provisions relating to impounding structure failure and impacts within dam break inundation zones in their subdivision ordinances. For any development proposed in such zones, localities must forward the subdivision plan to the Department of Conservation and Recreation (Department) with a request to determine the development's potential impacts on the spillway design flood standards required of the dam. If the Department determines that the subdivision plan would change such standards, the locality shall require the developer to submit an engineering study in conformance with 10.1-604 et seq. and 4 VAC 50-20 to the Department. The locality shall not permit the development unless the developer agrees to either alter the plan to avoid impacts or upgrade the dam. Recycling Program and Annual Recycling Rate Report

SNR.DEQ015

Solid Waste Planning Units (individual local governments or regional authorities) must develop and implement recycling programs to maintain a mandated recycling rate of 15% or 25%. Solid Waste Planning Units with population densities less than 100 persons per square mile or with a civilian unemployment level more than 50% above the statewide average qualify for the 15% level, while all others must meet the 25% mandate. Plans for achieving this rate must be included in the solid waste management plans on file with the Department of Environmental Quality (DEQ). Solid Waste Planning Units with a population greater than 100,000 must document recycling rates for the preceding calendar year and report the data by April 30 of each year to DEQ. Solid Waste Planning Units or localities with a population of 100,000 or less are required to submit their recycling rate for the preceding calendar year every four years.

Electoral Board, Registrar and Officers of Election

SOA.SBE002

Counties and cities are required to have an electoral board to manage elections, a general registrar to administer voter registration and elections, and officers of election trained to administer voting at polling places. General registrars must mail notices required by federal and state laws, enter applications to register and vote absentee, administer absentee voting and maintain accurate records using a federally mandated centralized computer database, the Virginia Election and Registration Information System (VERIS). The general registrar must provide access to information required under election laws and the Virginia Freedom of Information Act. Localities are responsible for the costs of conducting all general and special elections except presidential primaries reimbursed by the Commonwealth. Costs include postage (only military absentee mail is paid) and international email capacity. Virtual Virginia and Multi-Division Online Providers

SOE.DOE078

The Virtual Virginia program creates a statewide delivery of credit courses and staff development programs to address equity and educational disparity problems in schools across Virginia and must be made available to every public high school. This electronic classroom program is a distance-learning program that provides advanced level courses to students in areas of the Commonwealth where a qualified teacher is unavailable, or the number of qualifying students is too few to justify employment of a full-time teacher. State funds are currently provided to four local school divisions to hire teachers, aides, and technicians to operate each electronic classroom studio. Funding covers the costs related to production, broadcasts, and transponders. Additionally, school divisions may offer online instruction to students in multiple school divisions by entering into a contract with any private organization, educational institution, or nonprofit virtual school organization that has been approved by the Superintendent of Public Instruction to operate as a multi-division online provider.

Comment: The agency recommended that the mandate be eliminated from the catalog as part of its assessment in 2011. The assessment did not recommend elimination of the actual program or any requirements upon local governments. The Commission contends that DRPT's justification to eliminate this program from the Catalog is not sufficient, as it continues to impose a requirement upon local governments that are seeking financial aid.

Metropolitan Transportation Planning

STO.VDOT001

Local governments in urbanized areas that receive federal capital or operating financial assistance under Title 23, USC, Chapter 1, Federal Aid Highways and Title 49, USC, Chapter 53, Public Transportation, must have a comprehensive, cooperative, and continuing transportation planning process that results in plans and programs consistent with the comprehensively planned development of the urbanized area. Subdivision Street Development Control

STO.VDOT009

The local governing body of any county that has not withdrawn from the state secondary highway system or any town within which the Virginia Department of Transportation maintains the streets, may, by resolution, request the Commonwealth Transportation Board (CTB) to take any new street into the secondary system of state highways for maintenance if such street has been developed and constructed in accordance with the CTB's secondary street acceptance requirements. The Secondary Street Acceptance Requirements (SSAR) regulation establishes requirements that newly constructed streets will need to meet to be accepted into the secondary system for maintenance and improvement. These regulations ensure that additions to the secondary system enhance the capacity of the overall transportation network and accommodate pedestrians.

The three goals of the legislation underlying the SSAR are: (1) ensuring the connectivity of road and pedestrian networks with the existing and future transportation network; (2) minimizing stormwater runoff and impervious surface area; and (3) addressing performance bonding needs of new secondary streets and associated cost recovery fees.

Traffic Signs, Signals, and Markings

STO.VDOT013

Traffic signs, signals, and markings placed or erected by local governments or placed by others under authority of the local government, to include placement on private roads open to public traffic, must conform in size, design, and color to those erected for the same purpose by the Department of Transportation as guided or required by the national standard, "Manual on Uniform Traffic Control Devices." In addition, local governments may elect to place traffic signs, signals and markings in accordance with the provisions of the "Virginia Supplement to the Manual on Uniform Traffic Control Devices," to further improve on uniformity and consistency with Virginia statutes.

A county or town requesting that VDOT install signs on state maintained roads/streets providing for additional fines up to a maximum of \$200 for exceeding the speed limit must provide supporting data that a speeding problem exists, that the increased penalty has community support, as evidenced by a local government resolution, and that the roadway meets the requirements established by the Commonwealth Transportation Board for installation of such signs.

Comprehensive Plan to be Reviewed by VDOT

STO.VDOT042

Local planning commissions are required to prepare and recommend a comprehensive plan for the governing body to adopt, including a transportation plan. Such plan shall include new and expanded transportation facilities and recognize and differentiate between different levels of roads. The plan is required to be consistent with the statewide multimodal transportation plan (VTrans), Six Year Improvement Program (SYIP), and the location of state routes approved by the Commonwealth Transportation Board (CTB).

Any change to the locality's transportation plan must be submitted to the Virginia Department of Transportation (VDOT), and VDOT is required to verify consistency between the local transportation plan and VTrans, SYIP, and location of routes approved by the CTB.

If the CTB finds the local transportation plan, a Metropolitan Planning Organization (MPO) long range plan, or regional Transportation Improvement Program (TIP) is not consistent with VTrans, SYIP, or the location of routes previously approved by the CTB, the CTB shall notify the locality (or MPO) and request an applicable amendment.

If such an amendment is not made by the locality or MPO, the CTB may reallocate funding from that nonconforming project. Additionally, if the locality requests the project be terminated or the MPO does not allow the project to advance (through inaction with the TIP, for example), the CTB may require reimbursement of all funds expended on the project. Finally, if the locality or MPO requests have increased project costs over 10%, the CTB may require the locality (or localities that make up the MPO) to offset the increased project costs. The project reimbursement provisions for locality-terminated projects and increased project costs do not apply to projects on locally controlled roads in municipalities and the Counties of Arlington and Henrico, unless otherwise authorized by law.

NSO.105

Zoning ordinances shall consider a residential facility or group home, licensed by the Department of Social Services, in which no more than eight aged, infirm, or disabled persons reside, with one or more resident counselors or other staff persons, as residential occupancy by a single family.

Type: Regulation of Optional Activity

Agency: **No State Oversight**

Authority: Code of Virginia § 15.2-2291 (B)

Comment: Not subject to review: No state oversight. Previously applicable to a select group of localities, this mandate was expanded statewide by Chapters 796 and 847, 2010 Virginia Acts of Assembly.

Family Day Homes, Zoning Ordinances

NSO.106

Zoning ordinances shall consider a family day home (in-home child care) for up to five children, exclusive of the provider's own children and any who reside in the home, as residential occupancy by a single family. This is not applicable to Arlington and Fairfax Counties, and the Cities of Alexandria, Fairfax, and Falls Church.

Type: Regulation of Optional Activity

Agency: **No State Oversight**

Authority: Code of Virginia § 15.2-2292

Comment: Not subject to review: No State oversight.

Temporary Family Healthcare Structures, Zoning Ordinances

NSO.107

Zoning ordinances shall consider temporary family healthcare structures (i) for use by a caregiver in providing care for a mentally or physically impaired person and (ii) on property owned or occupied by the caregiver as his residence as a permitted accessory use in any single-family residential zoning district on lots zoned for single-family detached dwellings.

Type: Regulation of Optional Activity

Agency: **No State Oversight**

Authority: Code of Virginia § 15.2-2292.1

Comment: Not subject to review: No State oversight.

Cash Proffers, Temporary Restriction on Collection

NSO.108

Provides that cash proffers for residential construction, on a per-dwelling unit or per-home basis, shall not be collected or accepted by any locality until after completion of the final inspection and prior to the issuance of a certificate of occupancy, regardless of the language included within the proffer. This provision will expire on July 1, 2017.

Type: Regulation of Optional Activity

Agency: **No State Oversight**

Authority: Code of Virginia § 15.2-2303.1:1

Comment: Not subject to review: No State oversight. The expiration of this mandate was extended in 2012 from July 1, 2014 to July 1, 2017.

Transfer of Development Rights

NSO.109

Any locality may establish procedures, methods, and standards for the transfer of development rights. In order to implement the provisions of this act, a locality shall adopt an ordinance that provides for the specific requirements for recordation, monitoring ownership, assessing the appropriate infrastructure needs of the receiving property, and the perpetual preservation of the sending property.

Type: Regulation of Optional Activity

Agency: **No State Oversight**

Authority: Code of Virginia §§ 15.2-2316.1 et seq.

Comment: Not subject to review: No State oversight.

Penalties for Pollutants in Public Sewer Systems

NSO.110

A locality may adopt an ordinance, establishing a uniform schedule of civil penalties for violations of ordinances governing the introduction of pollutants and wastes into the locality's public sewer system. The locality must provide for notice, hearing, and appeal of such penalties. Such civil penalties may not be more than \$100 for the initial summons and not more than \$150 for each additional summons and not more than a total of \$3,000 for a series of specified violations.

COMMONWEALTH OF VIRGINIA

OFFICE OF THE GOVERNOR

EXECUTIVE ORDER 58 (2007)

Establishment of Policies and Procedures for Agency Assessment of Mandates on Local Government

By virtue of the authority vested in me as Governor under Article V of the Constitution of the Commonwealth of Virginia and under the laws of the Commonwealth, including but not limited to Sections 2.2-613 and 15.2-2903(6) of the *Code of Virginia*, and subject to my continuing and ultimate authority and responsibility to act in such matters, I hereby establish policies and procedures by which the executive agencies of the Commonwealth shall critically assess and periodically reassess all mandates imposed on localities administered by such agencies. Unnecessary, redundant and conflicting mandates imposed on localities siphon local governments' limited resources thereby contributing to fiscal stress and hardship and detracting from other needs and priorities. Thus, the purpose of the mandate assessment process is to determine which mandates, if any, may be altered or eliminated without interruption of local service delivery and without undue threat to the health, safety, and welfare of the residents of Virginia.

A. Mandates Defined

1. For purposes of implementing Section 15.2-2903(6) of the *Code of Virginia*, a mandate shall be defined as a constitutional, statutory, or administrative measure or action that places a requirement on local governments.
2. Mandates placing requirements on local governments shall be classified as compulsory orders, non-discretionary conditions of aid, regulation of optional activities, or state fiscal preemption. These classifications shall be defined as follows:

- (a) Compulsory Orders are measures or actions that impose requirements with which localities must comply in the performance of their prescribed responsibilities.
- (b) Non-Discretionary Conditions of Aid are requirements which are imposed as a condition of receiving state and/or federal financial aid for which localities are obligated or encouraged to apply.
- (c) Regulation of Optional Activities are measures imposing state and/or federal government requirements relative to the performance of activities that are not mandated but are subject to such regulation if performed.
- (d) State fiscal preemption is a measure or action that results in a net reduction of revenues collected by a locality or restricts a locality's authority to collect such revenues.

B. Requirements

1. Assessment of Current Mandates

The executive agencies of the Commonwealth shall assess all local government mandates, which they currently administer, as determined by the Commission on Local Government and specified in the most recent edition of the Catalog of State and Federal Mandates on Local Governments, as follows:

- (a) All assessments performed by agencies pursuant to Section 2.2-613 and Section 15.2-2903(6) of the *Code of Virginia* shall be conducted consistent with the standardized assessment form adopted by the Commission on Local Government.
- (b) During the mandate assessment process, agencies should solicit fiscal impact data and evaluative comment from affected local governments and indicate on the assessment form the localities providing the data or that no data was provided.
- (c) Agencies shall initiate, conduct and complete the assessment of all mandates within the scheduled assessment periods established by the Commission on Local Government pursuant to the provisions of this Executive Order.

- (d) Agencies shall submit their assessments, including any recommendations regarding the alteration or elimination of mandates, to the appropriate Cabinet Secretary for endorsement or amendment.
 - (f) Completed assessments, signed by the Agency Head and approved by the Cabinet Secretary, shall be submitted by the agency to the Commission on Local Government no later than five business days after the conclusion of the scheduled assessment period.
 - (g) The Commission on Local Government shall distribute copies of all completed assessments received from state agencies to the Governor, the Secretary of Commerce and Trade, the Clerks of the House of Delegates and Senate, the Virginia Association of Counties (VACo) and the Virginia Municipal League (VML) and to other interested parties upon request.
2. Annual Specification of Scheduled Assessment Periods
- (a) Each year at such time as the Commission on Local Government shall designate, agencies shall submit to the Commission a proposed schedule establishing specific dates for the assessment periods for new or newly identified mandates, as specified in Section 4 of this Executive Order, or for the reassessment of existing mandates as may be appropriate pursuant to Section 5 of this Executive Order.
 - (b) The Commission on Local Government shall adopt the schedule for assessment periods proposed by the agencies, unless, in its judgment, substantial reason exists for modification.
 - (c) The Commission on Local Government shall submit the adopted schedule for assessment periods to the Secretary of Commerce and Trade and the Governor for their review and approval.
 - (d) Subsequent to approval by the Secretary of Commerce and Trade and the Governor, the Commission on Local Government shall forward copies of the schedule for assessment periods to the affected agencies.
 - (e) Subsequent to approval by the Secretary of Commerce and Trade and the Governor, the Commission on Local

Government shall file copies of the schedule for assessment periods and any modifications thereof with the Clerks of the House of Delegates and the Senate. The Commission shall also file copies of the schedule and any modifications with VACo and VML and with the Registrar of Regulations for appropriate publication in The Virginia Register.

3. Modification of Scheduled Assessment Periods

- (a) With due notice and sufficient cause, approved agency assessment periods may be subsequently modified by the Commission on Local Government upon its own initiative or upon the request of the administering agency, affected local governments, VACo or VML.
- (b) All modifications to agency assessment periods approved by the Commission on Local Government shall be subject to the approval of the Secretary of Commerce and Trade.

4. New and Newly Identified Mandates

- (a) The Commission on Local Government shall endeavor to identify for inclusion in the next annual catalog of state and federal mandates, as prescribed by Section 15.2-2903(7) of the *Code of Virginia*, all mandates on local government not previously cataloged.
- (b) Executive agencies are directed to assist the Commission on Local Government in identifying new mandates which they will administer as well as mandates not previously identified which they are currently administering.
- (c) Executive agencies administering such mandates shall be responsible for their assessment consistent with the relevant sections of this Executive Order.
- (d) No mandate shall be subject to assessment by any agency until it has been in effect for a minimum of two years.

5. Reassessment of Mandates

- (a) No mandate that has been assessed or reassessed by any agency through the assessment period concluding in April 2007 shall again be subject to reassessment unless such reassessment is requested by the Commission on Local Government after the Commission has duly considered input

Executive Order 58 (2007)

from local governments, state agencies, interest groups and the public.

- (b) No mandate shall be subject to reassessment more than once every four years unless such mandate has been so substantially modified as to create a new mandate. Any mandate so modified shall not be subject to assessment by any agency until it has been in effect in its modified form for a minimum of two years.
- (c) All reassessments of mandates shall be scheduled and conducted consistent with the relevant sections of this Executive Order.

This Executive Order rescinds Executive Memorandum 1-98 issued on October 29, 1998.

This Executive Order shall be effective upon its signing and shall remain in full force and effect until amended or rescinded by further Executive Order.

Given under my hand and under the Seal of the Commonwealth of Virginia this 11th day of October, 2007.

Schedule for the Assessment of State and Federal Mandates on Local Governments

Pursuant to the provisions of Sections 2.2-613 and 15.2-2903(6) of the Code of Virginia, the following schedule, established by the Commission on Local Government and approved by the Secretary of Commerce and Trade and Governor McDonnell, represents the timetable that the listed executive agencies will follow in conducting their assessments of certain State and federal mandates that they administer on local governments. Such mandates are either new (in effect for at least 24 months) or newly identified. In conducting these assessments, agencies will follow the process established by EXECUTIVE ORDER 58 which became effective October 11, 2007. These mandates are abstracted in the CATALOG OF STATE AND FEDERAL MANDATES ON LOCAL GOVERNMENTS published by the Commission on Local Government.

Appendix D

Principal Federal Mandates Affecting Virginia Localities

Appendix D: Principal Federal Mandates Affecting Virginia Localities

Appendix D provides a separate listing of the principal Federal mandates that affect localities in Virginia. Whereas Parts A and B of this catalog include State mandates, Federal mandates, and mandates based on both State and Federal sources of authority, this section lists only Federal mandates. The source of authority for a particular mandate may seem inconsequential from the standpoint of a locality endeavoring to comply with numerous intergovernmental mandates, but distinguishing between Federal and State mandates is important, since it is the first step in determining accountability. However, Federal mandates on local governments can be difficult to identify.

First, although the Federal government may impose mandates on local governments directly (e.g., the Americans with Disabilities Act), it may also do so indirectly. For example, it may require the State to impose certain mandates on localities, to be administered according to Federal guidelines by State agencies as pass-through mandates (e.g., Temporary Assistance to Needy Families Program). The Federal government may also require the State to administer certain programs according to State regulations, provided the State adopts the Federal standards or more stringent standards of its own (e.g., the Clean Water Act). Similarly, some Federal mandates direct the State to meet the requirements of one program or risk termination or reduction of assistance in another program (e.g., the Urban Mass Transportation Act of 1964). In each of these cases, an essentially Federal mandate is ultimately implemented on the basis of both Federal and State law.

Second, Federal mandates often operate differently from State-imposed actions, and with different effects. For example, unlike State grants, Federal grants to localities often include not only individual program requirements but also a variety of unrelated national policy requirements affecting civil rights, environmental protection, occupational health and safety, fair employment standards, and the like. The merit of such policies aside, compliance with these additional “cross-cutting” mandates may increase a locality’s administrative burdens and costs, as well as the opportunity costs of subordinated local priorities. Yet the Federal nature of these grants-in-aid may not be apparent, if the grant programs or the associated cross-cutting mandates are administered by State agencies.

Examples of all of these types of Federal mandates are found in Parts A and B of this catalog with full entries. The list provided in Appendix D, while not an exhaustive inventory of all Federal mandates that affect localities, serves to identify the principal ones. Entries in this section include a short title, a brief description, and source of authority.

Virginia Statutes Affecting Mandates on Local Governments

Virginia Statutes Affecting Mandates on Local Governments

The Code of Virginia has several provisions relating to State and federal mandates imposed on local governments. Those provisions are summarized below:

AGENCY ASSESSMENT

Each State executive agency is required to assess the mandates it administers to determine which mandates, if any, may be altered or eliminated. The statute also requires that these assessments include an estimate of the fiscal impact on local governments, and a written justification as to why the mandate should or should not be eliminated. (Code of Virginia § 2.2-613)

§ 2.2-613. Agency mandates on localities; assessment.

Pursuant to § [15.2-2903](#), all agencies, as defined in § [2.2-128](#), shall conduct an assessment of all mandates imposed on local governments administered by the agency to determine which mandates, if any, may be altered or eliminated. With respect to state mandates imposed on local governments, such assessments shall include an estimate of the fiscal impact of the mandates on the affected local governments in addition to a written justification as to why the mandate should or should not be eliminated.

GUBERNATORIAL SUSPENSION OF MANDATES

The Governor may suspend for up to one year any administrative mandate imposed on a local government, except for those administered by the Department of Education, if the local government faces fiscal stress and the Governor determines that the suspension of the mandate would help alleviate the fiscal hardship faced by the local government. Before the mandate is suspended, information regarding the request for a suspension must be published in the Virginia Register. The Governor also must report annually to the General Assembly on any local requests for a mandate suspension and his response to the request. (Code of Virginia § 2.2-113)

§ 2.2-113. Temporary suspension of state mandates.

A. The Governor may suspend, temporarily and for a period not to exceed one year, any mandate, or portion thereof, prescribed by any unit of the executive branch of state government on a county, city, town, or other unit of local government upon a finding that it faces fiscal stress and the suspension of the mandate or portion thereof would help alleviate the fiscal hardship.

However, for a period beginning July 1, 2010, and ending July 1, 2012, the Governor may suspend any such mandate for a period not to exceed two years upon proper application by a locality pursuant to this section.

B. No application shall be made by the locality until approved by resolution of the governing body.

C. At the time of application, the following information shall be published in the Virginia Register: (i) the name of the petitioning locality, (ii) the mandate or portion thereof requested to be suspended, (iii) the impact of the suspension of the mandate on the ability of the local government to deliver services, (iv) the estimated reduction in current budget from the suspension, and (v) the time period requested for suspension. Publication in the Virginia Register shall occur at least 20 days in advance of any suspension by the Governor.

D. No later than January 1 of each year, the Governor shall submit to the General Assembly a report that identifies each petitioning locality, the mandate or portion thereof for which suspension was sought, and the response provided to the locality.

E. Nothing in this section shall apply to the Department of Education.

In making a determination of fiscal stress, the Governor may consider, but is not limited to, the following factors: any changes in anticipated revenue, income distribution of residents, revenue effort, revenue capacity, and changes in local population and employment levels.

FEDERAL MANDATES

The Implementation of Federal Mandates Act establishes a procedure by which the Governor and General Assembly will critically review all State agency budgetary requests resulting from federal mandates to ensure that federally mandated programs are properly based on federal constitutional and statutory authority and are implemented in the most cost effective manner possible. State agencies are directed to report to the Department of Planning and Budget any monetary savings and reduced regulatory burdens that could be effected by alternative strategies for implementation of federal mandates designed to meet the intent of federal statutes without having to follow all applicable federal guidelines. (Code of Virginia §§ 2.2-618 and 2.2-619)

§ 2.2-618. State programs to implement federal statutes.

Any agency of the executive branch of state government that is authorized to develop a state program to implement any mandates contained in a federal statute shall develop the state program and adopt any necessary regulations using the following criteria:

1. State programs shall be developed by the agency to meet the requirements of federal statutes in good faith with a critical view toward any federal regulations, guidelines, or policies.

2. *State programs shall be developed with due consideration of the financial restraints of the Commonwealth, local governments, and the citizens of Virginia.*

3. *Any state program that implements the goals of the federal statute shall use the most efficient method possible with careful consideration given to cost of the program and the impact of the program on Virginia citizens and local governments, and the long-range public health, safety, and welfare of citizens of the Commonwealth.*

§ 2.2-619. Governor to report to the General Assembly.

A. *The Governor shall report to the General Assembly regarding the proposed implementation of this section.*

B. *If any state program is authorized or mandated by a federal statute, no state funds for the program shall be appropriated unless:*

1. *The state program is necessary to protect the public health, safety, and welfare;*

2. *The state program is necessary to implement the federal statute;*

3. *The operation of the state program benefits the state by providing a cost-effective implementation of the federal statute by the Commonwealth, local government, and business; or*

4. *The state program benefits the Commonwealth, local government, and business by providing a cost-effective means to meet a higher public health, safety, and welfare standard established under state law.*

C. *Each agency making a budget request for state appropriations for a state program authorized or mandated by federal statute shall include in its budget request citations to the federal constitutional provisions and the state constitutional or statutory provisions that authorize the state program. The Governor shall review the budget request and determine whether additional state statutory authority is required in order to implement the state program and shall make recommendations to the General Assembly.*

D. *The General Assembly, after receiving a recommendation from the Governor, shall determine whether a state program is necessary and whether federal constitutional authority and state constitutional or statutory authority exist. The General Assembly shall review toward the interpretation of the federal statute found in federal regulations, guidelines, or policies. Appropriation of state funds for a state program shall constitute the General Assembly's determination that the state program is necessary and that federal constitutional authority and state constitutional or statutory authority exist. State appropriations may not be based solely on requirements found in regulations, guidelines, or policies of a federal agency.*

E. *Prior to recommending to the General Assembly any budget for an agency that is charged with implementing federal mandates, the Governor shall request that the agency provide information to the Department of Planning and Budget regarding any monetary savings for the state and any reduction in regulatory burdens on the public*

and on local governments that could be or have been achieved through the development of state policies that meet the intent of the federal statute but do not necessarily follow all applicable federal regulations, guidelines, or policies. The agency shall also provide advice to the Department of Planning and Budget regarding any changes in law that are necessary to provide the agency with the authority to implement state policies in such a way as to create additional savings or greater reductions in regulatory burdens. The Department of Planning and Budget shall review and compile the information received from agencies pursuant to this section and shall include recommendations in the executive budget.

F. For purposes of this section, "state program" shall not include any portion of a program that is funded with nontax or nonfee revenue, or both, which state authorities are required to administer in a trusteeship or custodial capacity and that are not subject to appropriation by the General Assembly.

PILOT PROGRAM FOR REGULATIONS

An agency proposing a regulation imposing a statewide mandate shall consider, where appropriate, implementing the mandate on a limited basis with a representative number of localities. Such a pilot program may be used to determine the effectiveness or impact of proposed regulations prior to statewide adoption. (Code of Virginia § 2.2-4010)

§ 2.2-4010. Pilot programs for regulations imposing local government mandates.

Where an agency proposes to consider the exercise of authority to promulgate a regulation that will impose a statewide mandate on the Commonwealth's localities, the agency shall consider, where appropriate, implementing the regulation on a limited basis with a representative number of localities. An agency may use such a pilot program to determine the effectiveness or impact of proposed regulations prior to statewide adoption.

ASSESSMENT SCHEDULE AND CATALOG

The Commission on Local Government is required to coordinate the assessment of mandates which agencies must conduct. The Commission must establish a schedule for the assessment of mandates and advise the Governor and the General Assembly as to which mandates, according to the assessments, can be altered or eliminated without interruption of local service delivery or undue threat to the health, safety, and welfare of residents. No assessment shall be required to be performed more than once every four years. The Commission is also required to prepare, and annually update, a catalog of State and federal mandates imposed on local governments, including, where available, a summary of the fiscal impact of new mandates. Finally, as a result of legislation approved in 2011, the Commission is directed to assist a five-member task force to be appointed by the Governor. The task force's

purpose is to review mandates and recommend appropriate mandates for temporary suspension or permanent repeal. (Code of Virginia § 15.2-2903)

§ 15.2-2903. General powers and duties of Commission.

The Commission shall have the following general powers and duties:

- 1. To make regulations, including rules of procedure for the conducting of hearings;*
- 2. To keep a record of its proceedings and to be responsible for the custody and preservation of its papers and documents;*
- 3. To serve as a mediator between localities;*
- 4. To investigate, analyze, and make findings of fact, as directed by law, as to the probable effect on the people residing in any area of the Commonwealth of any proposed action in that area:*
 - a. To annex territory,*
 - b. To have an area declared immune from annexation,*
 - c. To establish a town or independent city,*
 - d. To settle or adjust boundaries between localities,*
 - e. To make a transition from city status to town status,*
 - f. To make a transition from a county to a city,*
 - g. To consolidate two or more localities, at least one of which is a county, into a city, or*
 - h. To enter into economic growth-sharing agreements among localities;*
- 5. To conduct investigations, analyses and determinations, in the sole discretion of the Commission, for the guidance of localities in the conduct of their affairs upon the request of such localities;*
- 6. To receive from all agencies, as defined in § [2.2-128](#), assessments of all mandates imposed on localities administered by such agencies. The assessments shall be conducted on a schedule to be set by the Commission, with the approval of the Governor and the Secretary of Commerce and Trade, provided that the assessments shall not be required to be performed more than once every four years. The purpose of the assessments shall be to determine which mandates, if any, may be altered or eliminated. If an assessment reveals that such mandates may be altered or eliminated without interruption of local service delivery and without undue threat to the health, safety and welfare of the residents of the Commonwealth, the Commission shall so advise the Governor and the General Assembly;*
- 7. To prepare and annually update a catalog of state and federal mandates imposed on localities including, where available, a summary of the fiscal impact on localities of all new mandates. All departments, agencies of government, and localities are directed to*

make available such information and assistance as the Commission may request in maintaining the catalog;

8. At the direction of the Governor, to assist a five-member task force appointed by the Governor to review state mandates imposed on localities and to recommend temporary suspension or permanent repeal of such mandates, or any other action, as appropriate. The Governor shall have all necessary authority granted under § [2.2-113](#), or any other provision of law, to implement the task force recommendations or may recommend legislation to the General Assembly as needed. The task force shall be appointed by and serve at the pleasure of the Governor and shall serve without compensation. The task force may include city or town managers, county administrators, members of local governing bodies and members of appointed or elected school boards. All agencies of the Commonwealth shall provide assistance to the Commission, upon request. The provisions of this subdivision shall expire July 1, 2014; and

9. To perform such other duties as may be imposed upon it, from time to time, by law.

FISCAL IMPACT STATEMENTS

The Commission on Local Government is required to prepare a fiscal impact statement on legislation which may require local governments to render a new service or expand any existing service, or which may require a net reduction in revenues by any county, city, or town. The Division of Legislative Services is directed to refer any legislation appearing to meet that criterion to the Commission for the preparation of the fiscal impact statement. (Code of Virginia §§ 30-19.03)

§ 30-19.03. Estimates to be prepared for legislation affecting local government expenditures and revenues.

Whenever any bill requiring a net additional expenditure by any county, city, or town, or whenever any bill requiring a net reduction of revenues by any county, city, or town, is filed during any session of the General Assembly, the Commission on Local Government shall investigate and prepare an estimate setting forth, to the extent practicable, the additional expenditures or reduction of revenues, if any, to be required of the affected localities in event of enactment of such legislation.

A bill shall be deemed to require an expenditure if it has the effect of requiring any county, city, or town to (i) perform or administer a new or expanded program or service, (ii) maintain an existing program or service at a specified level of spending or delivery, (iii) assume or incur administrative costs in support of a state or state-related program, or (iv) furnish capital facilities for state or state-related activities.

For purposes of this section, "net additional expenditure" means the cost anticipated to be incurred annually, less any revenues receivable on account of the program or service from fees charged recipients of the program or service, state or federal aid paid specifically and categorically in connection with the program or service, new or increased

local sources of revenue authorized and designated specifically to offset the cost of the program or service, and any offsetting savings resulting from the reduction or elimination of any program or service directly attributable to the performance of the required program or service.

A bill shall be deemed to require a net reduction of revenues if it has the effect of requiring any county, city, or town to (i) relinquish an existing or potential source of local revenue by classification or exclusion or (ii) diminish an existing or potential source of revenue by classification or exclusion.

For the purposes of this section, "net reduction of revenues" means the reduction anticipated in local revenues, including, but not limited to, general levies, special levies, revenues received pursuant to §§ [58.1-605](#) and [58.1-606](#) and administrative and user fees, to be incurred annually, less any new local revenues receivable and any offsetting savings resulting from the reduction of local revenues, caused by the classification or exclusion being proposed.

The provisions of this section shall not apply to a reduction in local revenues that is required or arises from a court order or judgment, nor to a revenue reduction that is adopted at the option of any county, city, or town under a law that is permissive rather than mandatory, nor to a revenue reduction that is the result of a measure providing tax relief on a statewide basis.

The Division of Legislative Services shall examine all bills filed during any legislative session for the purpose of identifying and forwarding to the Commission on Local Government those bills requiring the preparation of fiscal estimates pursuant to this section.

As soon thereafter as may be practicable, the Commission on Local Government shall forward copies of such estimates to the Clerk of the House of Delegates for transmittal to each patron of the legislation and to the chairman of each committee of the General Assembly to consider the same.

All departments, agencies of government, the Division of Legislative Services, and all local governmental units of the Commonwealth are directed to make available such information and assistance as the Commission on Local Government may request in preparing the estimates required by this section.
