

COMMONWEALTH of VIRGINIA

DEPARTMENT OF SOCIAL SERVICES

Office of the Commissioner

Martin D. Brown
COMMISSIONER

October 1, 2012

MEMORANDUM

TO:

Honorable Robert F. McDonnell

Governor of Virginia

Honorable William A. Hazel, Jr.

Secretary of Health and Human Resources

Honorable Walter A. Stosch, Chairman

Senate Finance Committee

Honorable Lacey E. Putney, Chairman House Appropriations Committee

Mr. Daniel Timberlake

Director, Department of Planning and Budget

FROM:

Martin D. Br

Commission

SUBJECT:

Annual Virginia Independence Program Report

I am pleased to submit the Department of Social Services' Annual Virginia Independence Program Report prepared pursuant to § 63.2-619 of the Code of Virginia and Item 337(B) of the 2012 Appropriation Act. If you have questions or need additional information concerning this report, please contact me.

Attachment

A report of the Department of Social Services Commonwealth of Virginia

Virginia Independence Program and Other Projects Funded with the Temporary Assistance for Needy Families Block Grant

For State Fiscal Year 2011

to the Governor and the General Assembly of Virginia

October 2012

Preface

The Code of Virginia (Code) and the 2012 Appropriation Act (Act) require reports on activities for both the Virginia Independence Program (VIP), and on other projects funded with the Temporary Assistance for Needy Families Block (TANF) Grant:

Section 63.2-619 of the Code states:

Evaluation and reporting.

A. In administering the [Virginia Independence] Program, the Commissioner shall develop and use evaluation methods that measure achievement of the goals of the Program as specified in § 63.2-601.

B. The Commissioner shall file an annual report with the Governor and General Assembly regarding the achievement of such goals.

The annual report shall include a full assessment of the Program, including its effectiveness and funding status, statewide and for each locality; and a comparison of the results of the previous annual reports. [Appendix A contains a copy of this legislation.]

Item 337(B) of the Act provides:

The Department of Social Services (DSS) shall report annually on October 1 to the Governor, the Secretary of Health and Human Resources, the Chairmen of the House Appropriations and Senate Finance Committees, and the Director, Department of Planning and Budget regarding spending; program results; clients served; the location, size, implementation status, and nature of projects funded with TANF funds; results of all formal evaluations; and recommendations for continuation, expansion, and redesign of the projects. Such report shall be combined with the report required by § 63.2-619, Code of Virginia. [Appendix A contains a copy of this section of the 2012 Appropriation Act.]

Executive Summary

The federal Temporary Assistance for Needy Families (TANF) block grant funds a host of important and effective programs throughout the Commonwealth including the Virginia Independence Program (VIP). The VIP consists of two related but distinct sets of requirements for TANF participants, eligibility requirements and work requirements. The policies that mandate eligibility requirements became effective statewide on July 1, 1995. The Virginia Initiative for Employment not Welfare Program (VIEW) is the work-related portion of VIP that requires participants to be employed or engaged in a work activity. Implementation of VIEW was phased in over a two-year period beginning in July 1995 and ending in October 1997.

Since VIP was implemented in July of 1995, the TANF caseload has dropped from 70,797 to approximately 38,000 in June 2011, a 46% decrease. Of the 170,759 TANF recipients enrolled in VIEW since 1995, over 120,264 found employment and joined the work force by June of 2011. This caseload decline contributed to a net savings in federal and state funds of over \$886 million.

TANF was originally authorized by Congress through September 30, 2002. Reauthorization of TANF was included in the Deficit Reduction Act of 2005 (Pub. L. No. 109-171) and new regulations took effect on October 1, 2006. The Commonwealth instituted a number of changes aimed at increasing the number of TANF recipients participating in employment and training activities. Changes due to reauthorization were fully implemented and resulted in increasing the Commonwealth's TANF work participation rate from 28% in September of 2006 to 43% by June of 2011. However, the recession that started in December of 2007 has had a negative impact on both the size of the TANF caseload and the number of TANF recipients that are employed. The lingering impacts of the recession continue to present challenges, but in 2011, economic conditions continued to improve and the TANF work participation rate improved, as well.

Report on the Virginia Independence Program and Other Projects

Funded with the Temporary Assistance for Needy Families Block Grant

Virginia Independence Program Implementation

VIP consists of two related but distinct sets of requirements for recipients of TANF, eligibility requirements and work requirements. The policies that mandated the eligibility requirements were effective statewide on July 1, 1995. These eligibility policies encourage participants to take personal responsibility for their families by requiring TANF participants to cooperate in establishing paternity, ensure regular school attendance by their children, and immunize their children. TANF participants who do not meet these requirements are sanctioned. VIP eligibility policies also cap benefits for children born more than 10 months after TANF assistance is authorized.

VIP eligibility policies are instrumental in focusing TANF participants on personal responsibility. The vast majority of participants have complied with VIP policies and have not been sanctioned for failure to cooperate.

VIEW is the work-related portion of VIP. VIEW was phased in over a two-year period beginning in July of 1995 and ending in October of 1997. VIEW policies include:

- A requirement for participants to enter a work activity within 90 days of receipt of TANF;
- A two-year time limit on TANF benefits; and
- A disregard for earned income up to 100% of the federal poverty level.

To implement VIP and VIEW, Virginia had to secure waivers of federal regulations. Key elements of the VIEW program that needed waivers included:

- Changing the work exemption so that parents of children over the age of 18 months had to participate (now changed to 12 months);
- Imposing a two-year time limit on TANF benefits for families participating in VIEW;
- Allowing a full family sanction;
- Eliminating the reconciliation process required for sanctioning;
- Imposing a period of ineligibility; and
- Requiring the signing of an Agreement of Personal Responsibility to continue receiving TANF.

Although the waivers expired on July 1, 2003, Virginia, by using the flexibility in the federal regulations governing the block grant, has continued to operate the program as originally designed with the exception that all adult recipients of TANF, not just those participating in

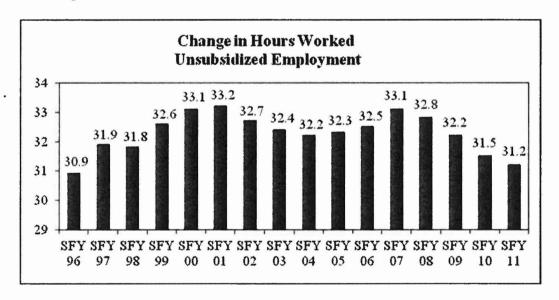

VIEW, are subject to the federal 60-month lifetime limit. In addition, changes were implemented in October of 2006 to help the Commonwealth meet the federal participation rate as required by the Deficit Reduction Act of 2005 (Pub. L. No. 109-171).

Since VIP was implemented in July of 1995, the TANF caseload has dropped from 70,797 to approximately 38,000 in June 2011, a 46% decrease. Of the 170,759 TANF recipients enrolled in VIEW since 1995, over 120,264 found employment and joined the work force by June of 2011. This caseload decline contributed to a net savings in federal and state funds of over \$886 million.

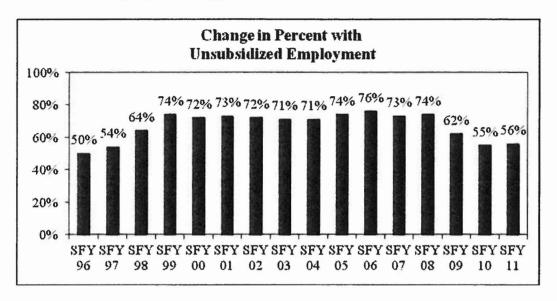

Outcome Measures

The outcome measures cover employment, earnings, program sanctions and supportive services. For SFY 2011, outcome measures show a low rate of eligibility sanctions and a high rate of participants leaving TANF with employment. Outcome measures for the 16 state fiscal years (SFY) show the following changes from 1996 through 2011.

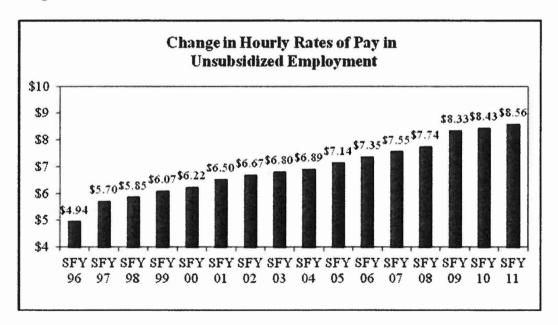

The average number of hours worked per week in unsubsidized employment rose from 30.9 in SFY 96 to a high of 33.2 in SFY 01 before beginning to fall. The average number of hours rose to 33.1 hours in SFY 2007 before falling again. In SFY 11, the hours worked per week were 31.2.

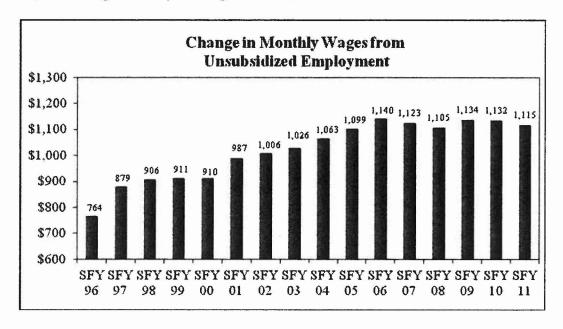

• The percent of VIEW participants who worked in unsubsidized employment rose from 50% in SFY 96 to a high of 76% in 2006. In SFY 11, VIEW participants in unsubsidized employment dropped to 56%.

 Average hourly wages earned by VIEW participants increased from \$4.94 in SFY 96 to a high of \$8.56 in SFY 11.

Average monthly earnings for VIEW participants who left TANF with unsubsidized employment increased from \$764 in SFY 96 to a high of \$1,140 in SFY 2006. In SFY 11, the average monthly earnings were \$1,115.

Key findings for SFY 11 are as follow:

- About 23% of VIEW cases left TANF with unsubsidized employment;
- The average rate of pay rose to \$8.56 per hour;
- Transportation and other supportive services totaling \$13.5 million in expenditures were provided to VIEW participants.

For all 16 program years, SFY 96 to SFY 11, the following are key findings:

- At least 58% of employed VIEW participants retained employment for at least six months beyond the closure of their TANF cases;
- About 86% of the participants who left TANF with employment did not return to TANF within 12 months; and
- Transportation and other supportive services totaling \$169.1 million in expenditures were provided to VIEW participants.

The outcome measures for VIP are reported in tables one through four in Appendix B. Tables one through three cover both statewide and locality specific data for SFY 2011. Table four covers statewide and locality specific data for the full 16 years of program implementation because these variables require elapsed time. A statewide summary of the outcome measures for SFY 11 and the 16 program years are given below. Unless otherwise specified, totals are unduplicated by case for the stated time periods.

 Number of TANF participants that received sanctions or penalties for failure to participate in VIEW. (Table 1, Column A) For SFY 11, 9,577 TANF clients referred to VIEW were sanctioned for failure to participate in VIEW. From SFY 96 through SFY 11, 64,591 TANF clients were sanctioned for failure to participate in VIEW. (The total is based on the number of mandatory VIEW adults who were removed from the TANF grant while their VIEW clock was still active. This includes persons receiving one, two or three sanctions for failure to cooperate with VIEW.)

Number and percent of TANF applicants who received Diversionary Assistance. (Table 1, Column B)

During SFY 11, 3,511 cases received Diversionary Assistance payments. From SFY 96 to SFY 11, 32,552 cases received Diversionary Assistance payments. (Diversionary Assistance is available to persons applying for TANF because they have a temporary loss of income. If they are eligible for TANF, they can opt to receive a one-time Diversionary Assistance payment instead of becoming dependent on TANF.)

Number and percent that did not become TANF recipients after their period of ineligibility for TANF benefits. (Table 1, Column C)

During SFY 11, of the 3,511 cases that received Diversionary Assistance payments, 85% did not become TANF cases after the period of ineligibility. Since SFY 96, 32,552 cases have received Diversionary Assistance payments. Of these cases, 20,561, or 63%, did not become TANF cases after the period of ineligibility.

Number and percent of VIEW enrolled TANF recipients who were employed. (Table 2, Columns A, B, and C)

During SFY 11, 38,305 TANF recipients enrolled in VIEW. Of these, 21,279, or 56%, were employed in unsubsidized jobs. From SFY 96 through SFY 11, 170,759 TANF recipients enrolled in VIEW. Of these, 120,264, or 70%, were employed in unsubsidized jobs.

Average number of hours worked per week in unsubsidized jobs. (Table 2, Column D)

On average, the 21,279 VIEW enrollees employed in unsubsidized jobs during SFY 11 worked 31.2 hours per week. On average, the 120,264 VIEW enrollees employed in unsubsidized jobs from SFY 96 through SFY 11 worked 32.4 hours per week. (In cases where there was more than one employment, the most recent employment was used for the calculation of hours worked.)

Average hourly rate of pay in unsubsidized jobs. (Table 2, Column E)

Hourly rates of pay averaged \$8.56 for the 21,279 VIEW enrollees employed in unsubsidized jobs during SFY 11. Hourly rates of pay averaged \$7.46 for the 120,264 VIEW enrollees employed in unsubsidized jobs from SFY 96 through SFY 11.

(In cases where there was more than one employment, the most recent employment was used for the calculation of hourly rate of pay.)

 Number and percent of VIEW participants who enrolled in the Community Work Experience Program (CWEP) or the Public Service Program (PSP). (Table 3, Columns A, B, and C)

During SFY 11, of the 38,305 TANF recipients who enrolled in VIEW, 8,334, or 22%, participated in CWEP or PSP. From SFY 96 through SFY 11, of the 170,759 TANF recipients who enrolled in VIEW, 38,633, or 22%, participated in CWEP or PSP. (The Public Service Program component was added effective October 2006.)

Number and percent of VIEW employed cases that left TANF with employment.
 (Table 3, Columns D, E, and F)

During SFY 11, 5,145 or 24%, of the 21,279 VIEW employed participants had employment when they closed their case. From SFY 96 through SFY 11, 68,468 or 57%, of the 120,264 VIEW employed participants had employment when their case was closed. (Employment is based on information reported to caseworkers and recorded in the Employment Services Program Automated System (ESPAS). Some participants may leave VIEW and TANF with unreported employment.)

Average monthly earnings for those leaving with employment. (Table 3, Column G)

Monthly wages averaged \$1,115 for VIEW participants who left TANF with employment during SFY 11. Monthly wages averaged \$1,045 for VIEW participants who left TANF with employment from SFY 96 through SFY 11. (Monthly wages are equal to average hours times 4.33 weeks times the hourly rate of pay.)

 Number and percent of employed VIEW participants who retained employment six months after leaving TANF with unsubsidized employment. (Table 4, Columns A, B and C)

In the first 186 months of the VIP/VIEW program, 67,325 VIEW participants left TANF with unsubsidized employment. Of those, 39,047, or 58%, retained employment for at least six months. (This measure requires at least six months elapsed time before the end of the state fiscal year.)

 Number and percent that did not return to TANF within 12 months of leaving TANF with unsubsidized employment. (Table 4, Columns D, E and F)

In the first 180 months of the VIP/VIEW program, 65,383 VIEW participants left TANF with unsubsidized employment. Of those, 56,214, or 86%, did not return to TANF within 12 months. (This measure requires at least twelve months elapsed time after leaving TANF.)

• Number and percent of VIEW participants who received transportation and other support services.

Information on the number and percent of VIEW participants receiving transportation and other services is not collected. However, the total dollars spent for the 16 years following VIEW implementation was \$64.2 million for transportation and \$104.8 million for other supportive services.

Other Projects Funded with the Temporary Assistance for Needy Families (TANF) Block Grant

Item 337 of the Act provides for a spending strategy designed to protect families at risk and facilitate the transition to economic self-sufficiency. Federal TANF funds are being used to finance these strategies. Below are descriptions of TANF block grant projects operated in SFY 11.

Domestic Violence Services

TANF funds in the amount of \$1,357,785 were appropriated for SFY 11 for domestic violence services. No funds were appropriated for administration of the program. The services provided are crisis and core services to victims of domestic violence including 24-hour confidential crisis hotline, shelter, crisis counseling, supportive counseling, information and referral, transportation, coordination of services, legal advocacy, and basic children's services. The target population are victims of domestic violence who are either pregnant or have dependent children.

In SFY 11, the Office of Family Violence renewed 46 Domestic Violence Prevention and Services Program contracts for local domestic violence services throughout the Commonwealth. Each award included TANF funds. The following is a breakdown of services provided by the local programs:

- 14,014 adults received advocacy; 3,722 were TANF eligible (Legal Advocacy accounts for 1,312 and is included in the advocacy total).
- 3,076 adults received shelter; 924 were TANF eligible.
- 4,490 adults' children received advocacy; 1,270 were TANF eligible.

Community Action Agencies

The Community Action Network consists of 30 local agencies that provide an array of services for low-income families and individuals. TANF funds are used in combination with federal Community Services Block Grant (CSBG) funds, other federal, state, local, and private sector resources to provide a wide variety of services to needy families. These services included emergency services, job readiness and employment services, case management services, supportive services including child care and transportation services for employed families, free tax preparation and assistance in securing earned income tax credits, individual development

account programs, housing, community and economic development projects, family development, education, and homeless/domestic violence shelter programs. The appropriation for these programs in SFY 11 totaled \$500,000 in federal TANF funds.

The program is targeted to serve needy families with minor children. The localities served by the community action agencies are listed below:

Accomack County Albemarle County Alleghany County **Amelia County Amherst County Appomattox County Arlington County** Augusta County **Bath County Bedford County Bland County Botetourt County Brunswick County Buchanan County Buckingham County** Campbell County Caroline County Carroll County **Charles City County** Charlotte County Clarke County Craig County **Cumberland County Dickenson County Essex County** Fairfax County **Fauquier County** Floyd County Fluvanna County Franklin County Frederick County Giles County Gloucester County Goochland County **Grayson County** Greene County Greensville County Halifax County

Smyth County

Stafford County

Southampton County

Spotsylvania County

Henry County

Surry County Sussex County Tazewell County Virginia Beach Waynesboro Williamsburg

During SFY 11, the TANF funds were used to expand the services provided by the community action agencies. TANF funds make up only 0.33% (\$500,000) of the \$151,769,817 in federal, state, local, and private resources that Virginia's community action agencies secured and used during SFY 11 to serve a total of 98,081 low-income families and 215,079 individuals.

The following is a list of outcomes achieved by local community action programs and services that were funded in part with TANF:

- 41,513 households consisting of 101,121 individuals had their emergency needs addressed;
- 1,089 children received childcare that enabled their parents to work or attend school/training;
- 1,780 unemployed individuals secured employment while another 401 employed individuals secured better jobs;
- 552 individuals were able to obtain or maintain employment due to transportation services;
- 128 individuals completed a General Educational Development (GED) program and received a certificate or diploma;
- 615 youth secured summer or other temporary jobs through youth employment programs;
- 14,410 children were fed in summer feeding programs;
- 367 youth participated in summer camp programs;
- 8,059 children received Head Start services partially supported with TANF funds;
- 1,857 youth in Project Discovery programs partially supported by TANF participated in activities designed to encourage and prepare them to attend college or other post-secondary educational institutions;
- 2,038 parents improved their parenting skills;
- Six community action agencies operated transitional housing programs partially supported by TANF funds that provided housing and case management services to 136 families consisting of 370 individuals;
- 3,031 homeless families consisting of 5,467 individuals received emergency assistance and counseling;
- 1,018 families consisting of 1,681 individuals suffering from domestic violence received emergency assistance and counseling;
- 53 families obtained home ownership;
- 222 households consisting of 476 individuals secured improved housing through housing rehabilitation/home repair programs;
- 1,861 households consisting of 3,810 individuals had their homes weatherized resulting in improved energy efficiency;
- 946 households consisting of 2,577 individuals were able to preserve or improve their housing after receiving housing counseling;
- 59 families received assistance in repairing their water and wastewater systems;
- 280 families including 474 children increased their access to quality health care resources through the Comprehensive Health Investment Project (CHIP) programs partially funded by TANF;

- 530 at-risk elementary and middle school students received services to improve their academic success;
- 2,816 at-risk high school students participated in programs enabling them to graduate to the next grade level;
- 44 families increased their cash savings by participating in Individual Development Account (IDA) programs;
- 165 mothers participated in a Resource Mother Program;
- 370 families were able to maintain a safe and stable household through intensive case management services;
- 216 absent fathers increased their parental involvement as a result of fatherhood program services.
- 3,615 ex-offenders received emergency assistance and comprehensive case management services designed to reintegrate them into their communities and families.

Continuum of Housing Services

The General Assembly designated \$ 1,227,532 million in federal TANF block grant funds for SFY 11 for non-recurrent, short-term housing services for the TANF eligible population. The appropriation in previous years has been combined with state general funds to expand three existing programs: the State Shelter Grant, the Child Services Coordinator Grant and the Homeless Intervention Program. Due to a major reduction in available funding, the latter two programs did not receive TANF funding for SFY 11. Only the State Shelter Grant received support and outcomes are provided below:

The State Homeless Housing Assistance Resources (SHARE) Shelter Support Grant provides emergency assistance for TANF-eligible families. Supportive services include housing, clothing, food, job training, life skills training, case management, and information and referral. In SFY 11, 3,270 new families received shelter and services through this program. The outcome goals for this program are for 30% of households residing in existing emergency or domestic violence shelters to obtain permanent housing and for 75% of households in existing transitional housing to obtain permanent housing. For SFY 11, 45% of those leaving emergency shelter obtained permanent housing, 36% of those leaving domestic violence shelters obtained permanent housing, and 63% of those leaving transitional housing obtained permanent housing.

Healthy Families

The Healthy Families model is designed to promote positive parenting, improve child health and development, and reduce child abuse and neglect. The model uses home visiting to reach families with young children.

Families become involved with the program during pregnancy or at birth. A Healthy Families Assessment Worker completes a Family Needs Assessment. If a family is identified as being at high risk of child maltreatment and in need of support services, the family is offered the opportunity to voluntarily participate in the Healthy Families program. When families accept

services, comprehensive home visiting is initiated that includes Family Support Workers who monitor and follow up on prenatal, postnatal, and pediatric care. For those parents whose Family Needs Assessments identify the need for support not available through Healthy Families, information and referrals to other community resources are offered.

Healthy Families programs offer voluntary and frequent home visiting services for up to five years. The services include in-home parenting education, child development, preventive health care, and support services. Family needs are assessed and an Individualized Family Support Plan is developed. This plan includes short and long-term family goals and strategies for achieving them. Strategies may include staying in school, finding a job or a better place to live, developing effective parenting techniques, home management skills, and ensuring well baby care. The plan becomes a guide for service provision and involves linking the family with appropriate community resources to help meet all of their identified needs.

For SFY 2011, \$3,557,306 in federal TANF block grant funds was available for the Healthy Families program. This represents a twenty-eight percent (28%) reduction from the previous year's TANF funding although the reduction was partially made up by the state Federal Medical Assistance Program (FMAP) funds totaling \$1,026,146 received in October, 2010. Based on reports from all sites, but recognizing some sites may have reported on all served by the program rather than those served by TANF funding alone, 5,574 adults and 3,822 children were served during SFY 2011.

The program served 83 cities and counties in Virginia in SFY 2011. This number has been reduced from SFY 2010 due to the closing of three programs on June 30, 2010 affecting the following five localities: Accomack, Chesapeake, Halifax, Northampton and South Boston. Localities currently served by Healthy Families are listed below:

Alexandria **Arlington County** Harrisonburg Waynesboro Augusta County Staunton **Highland County Rockingham County** Bath County Bedford **Bedford County** Lynchburg **Amherst County Charles City County Appomattox County New Kent County** Charlottesville Albemarle County Chesterfield County Colonial Heights Culpeper Danville Pittsylvania County **Fairfax County** Falls Church **Fauquier County** Fairfax City Hampton Henrico County Hopewell Prince George County Newport News Loudoun County Frederick County Winchester Clarke County Petersburg **Amelia County Orange County Buckingham County** Charlotte County **Cumberland County** Lunenburg County **Nottoway County** Prince Edward County Manassas Park Prince William County Manassas Fredericksburg Caroline County King George County Richmond City Spotsylvania County **Stafford County** Shenandoah County Warren County Norfolk

Healthy Families Virginia (HFV) contracts with Joseph Galano, Ph.D., of the Applied Social Psychology Research Institute at the College of William and Mary, and Lee Huntington, Ph.D., of Huntington Associates, Ltd., to analyze the Healthy Families data collected from local sites. The College of William & Mary and Huntington Associates, Ltd. have completed 12 annual Healthy Families Virginia evaluation reports for the Healthy Families Virginia Initiative and Prevent Child Abuse Virginia. They have also completed a benchmark study for the Hampton Healthy Families Partnership measuring community-wide impact over a decade.

The SFY 07 - 11 Statewide Evaluation Report provides the results of the outcome evaluation of 33 Healthy Families sites (five stopped providing HF services and/or data in SFY11). The summary is based on outcome evaluations of two groups of sites, those that participate in the HFV statewide evaluation project and collect data using the Program Information Management System (PIMS), and data from the sites that do not use PIMS or participate directly in the statewide evaluation project. The following bullet items are notable outcomes abstracted from the report:

- Child Abuse and Neglect: Among the 2,440 families enrolled in the Healthy Families Program, the rate of identified cases of abuse and neglect among participating families was only 0.7%. This rate is very low, especially considering the high-risk characteristics of the participants. It is especially significant that there are so few perpetrators in a population where over 50% of mothers enrolling in the program report a childhood history of abuse.
- Healthy Birth Weight: Ninety-two percent of the babies born to the 915 prenatal enrollees were within the healthy birth weight range, surpassing the state criterion. The percentage of full birth weight represents a considerable improvement over the SFY 2001 statewide rate of 77%.
- Connection to Medical Care Providers: Approximately 97% of the 4,046 births to mothers enrolled in Healthy Families programs using PIMS had a primary medical care provider within two months of enrollment. In addition, 97% of those children continued with health care providers after six months of participation in the program. These rates far exceed the Healthy Families Virginia criteria.
- Immunizations: Eighty-eight percent of the 2,662 children in both PIMS and non-PIMS sites received 100% of their 16 scheduled immunizations. This level of performance surpassed the statewide objective, exceeds the 2011 Virginia average of 74.4%, and the

VDH immunization rate of 71.0% for comparable high-risk families. This performance is superior not only to the rates for high-risk families, but also to the rates for the Virginia general population. The rate for children in the general population declined from 81.5 in 2006 to 69.9 in 2011, a precipitous decline in an indicator that many scientists view as a proxy for the overall health of our children.

- Child Development: Healthy Families programs succeeded in ensuring the referral of children with suspected delays to early intervention services and followed children to ensure the receipt of services. Approximately 91% of the 2,392 children were appropriately screened for developmental delays in SFY 2011. Ninety-four percent of the children with suspected delays were referred for further developmental assessment and services as warranted. The 6.0% of children with suspected delays who were not referred was a result of parents leaving the program before the process was complete or declining to have their child referred.
- Maternal Health Outcomes: A total of 2,975 mothers (588 teen and 2,387 non-teen) were enrolled long enough to merit inclusion in this evaluation component. After the targeted 24-month interval, 92.9% of the teen mothers had no subsequent births, and 2.6% had a subsequent birth after the 24-month interval for a 95.5% success rate. Ninety-one percent of the non-teen mothers had no subsequent births, and 4.5% had births after the targeted 24-month interval, representing a 95.5% success rate. Delays in subsequent child birth are associated with higher educational attainment, improved children's health, increased future job status, and decreased infant homicide.
- Parent-Child Interaction: In SFY 2011, from the 2,402 parent-child interactions assessed, 94% were within normal limits. This result surpassed the statewide criterion that at least 85% of participants demonstrate acceptable levels of parent-child interaction or experience improvement after one year of participation. Additionally, 2,638 families participated long enough to evaluate their home environment. Ninety-nine percent of these families' assessments were within normal limits, again surpassing the statewide criterion of 85%. Overall, Healthy Families participants displayed greater sensitivity to their children's cues, increased understanding of their children's development, less overall stress, and greater knowledge of alternative methods of discipline.

Employment Advancement for TANF Participants Projects

The Employment Advancement for TANF Participants Projects are designed to provide proven service approaches and strategies that help current and former TANF clients, including those who have received diversionary assistance to keep them off TANF, those with multiple barriers, and sanctioned individuals to prepare to enter, succeed, and advance in the workplace. The intent is to expand and enhance existing service delivery efforts offered through the local departments of social services through the Employment Advancement programs provided by local social service agencies, state agencies, and for-profit and non-profit organizations. The expected outcomes of the project are improved job placement, improved job retention, higher employment wages upon entry, and increased wage gains from job advancement. The program has been operating since December 1, 2004 and the most recent projects began on

October 1, 2010. As this report is for the period July 1, 2010 through June 30, 2011, there is an overlap of Projects funded under two Requests for Proposals. For the period July 1, 2010 through September 30, 2010, forty-two programs operated on a budget of approximately \$1.8 million. Thirty-two programs began on October 1, 2010 for a total period of two years and nine months and operated until June 30, 2011 on a budget of \$6 million. The results presented here represent two sets of outcomes. One is for the period July 1, 2010 through September 30, 2010 and the other is for the period October 1, 2010 through June 30, 2011. The numbers include participants carried-over from the previous grant period where appropriate. Services offered include the following:

- Comprehensive assessments (including utilization of psychologists and clinicians) that help identify strengths, diagnose disabilities and determine treatment and accommodations required;
- Services that stabilize an individual's situation so that he/she can participate in or retain employment and/or seek alternative financial resources such as Social Security Income;
- Intensive work preparation or work adjustment services, including education and skills training, community work experience placement and on-the-job training;
- Job development and placement services including work initiatives, subsidized employment and the development of industry-based career ladders; and
- Supportive services such as transportation assistance that support individuals retaining employment and/or obtaining higher wages, health benefits and/or jobs with a career path.

Employment Advancement Program operators are listed below:

Alexandria Department of Human Services, July 1-September 30, 2010

Arlington County Department of Human Services

Bay Aging/Transit in Urbanna

Brunswick County DSS, July 1-September 30, 2010

Career Support Systems, Inc. in Richmond

Charlotte County DSS

Charlottesville DSS, July 1-September 30, 2010

Crater Workforce Investment Board in Petersburg

Culpeper Human Services

Danville Community College

Fairfax County Department of Family Services

Fauquier County DSS

Frederick County DSS

Goodwill of Central Virginia, Inc.

Harrisonburg/Rockingham Social Services District

Henrico County DSS

Job Assistance Center, Inc. in Shacklefords

Knowledge and Leadership Group in Richmond, July 1, 2010-September 30, 2010

Loudoun County Department of Family Services, July 1, 2010-September 30, 2010

Louisa DSS, July 1, 2010-September 30, 2010

Lynchburg DSS

Norfolk Department of Human Services

Occupational Enterprises, Inc. in Lebanon

Prince William County DSS, July 1, 2010-September 30, 2010

Pulaski County DSS

Rappahannock Area Community Services Board in Fredericksburg, July 1, 2010-September 30, 2010

Rehabilitative Services and Vocational Placement, Inc. in Richmond

Regional Job Support Network in Newport News

Richmond Behavioral Health Authority

Shenandoah Valley DSS

Southwest Virginia Regional Employment Coalition in Roanoke

Spotsylvania County DSS

Suffolk DSS, July 1, 2010-September 30, 2010

Surry County DSS

Tidewater Community College in Norfolk

Vehicles for Change, State-Wide

Virginia Beach Department of Human Services

Virginia Department of Rehabilitative Services, State-Wide

Virginia Polytechnic Institute and State University in Blacksburg, July 1, 2010-September 30, 2010

Way-To-Go in Massanutten

Williamsburg DSS

Worksource Enterprises in Charlottesville

For the quarter ending September 30, 2010, the projects achieved the following:

- Of the 1,946 new participants enrolled in the program from July 1 through September 30, 2010, 1,259 were enrolled with placement goals. Of these, 560 had entered employment or 44% of those enrolled. Those not enrolled with placement goals were provided transportation services, medical case management services, or training in SSI/SSDI Advocacy Services for TANF clients.
- Norfolk Department of Human Services, Surry Department of Social Services, and Tidewater Community College were tied for the highest employment placement rate with 84%.
- The average hourly wage at all project locations for grant participants ranged from \$7.25 to \$13.01; the hourly wage for VIEW participants at these same project locations was between \$7.51 and 9.75.
 - ➤ Thirty of the 37 programs collecting wage data either achieved or surpassed the average wage rate of their corresponding local VIEW program.
 - ➤ Of those projects that surpassed or met the VIEW wage, the wage rates ranged from a high of 150% to 100% of the VIEW wage in the same area.

For the nine months from October 1, 2010 through June 30, 2011, the projects achieved the following:

- Of the 10,044 participants enrolled in the program, 7,525 were enrolled with placement goals. Of these, 2,431 had entered employment or 32% of those enrolled. Those not enrolled with placement goals were provided transportation services or medical case management services.
- Tidewater Community College had the highest employment rate for participants with 83%; Suffolk Department of Social Services was second with 80%. Arlington County Department of Human Services and Crater Regional Workforce Investment Board were tied for third with 58% each.
- The average hourly wage at all project locations for grant participants ranged from \$7.55 to \$11.72; the hourly wage for VIEW participants at these same project locations was between \$7.35 and \$10.02.
 - > Twenty-four of the 29 programs collecting wage data either achieved or surpassed the average wage rate of their corresponding local VIEW program.
 - > Of those projects that surpassed or met the VIEW wage, the wage rates ranged from a high of 125% to 101% of the VIEW wage in the same area.

The majority of the individuals enrolled in the Employment Advancement Program face multiple barriers to employment and are, in many cases, referred from VIEW because of their inability to gain employment.

Conclusion

TANF was originally authorized by Congress through September 30, 2002. Reauthorization of TANF was included in the Deficit Reduction Act of 2005 (Pub. L. No. 109-171) and new regulations took effect on October 1, 2006. The Commonwealth instituted a number of changes aimed at increasing the number of TANF recipients participating in employment and training activities. Changes due to reauthorization were fully implemented and resulted in increasing the Commonwealth's TANF work participation rate from 28% in September of 2006 to 43% by June of 2011. However, the recession that started in December of 2007 has had a negative impact on both the size of the TANF caseload and the number of TANF recipients that are employed. The lingering impacts of the recession continued to present challenges, but in 2011, economic conditions continued to improve and the TANF work participation rate improved, as well.

Appendix A

Study Mandates

Code of Virginia

§ 63.2-619. Evaluation and reporting.

A. In administering the Program, the Commissioner shall develop and use evaluation methods that measure achievement of the goals specified in § 63.2-601.

B. The Commissioner shall file an annual report with the Governor and General Assembly regarding the achievement of such goals.

The annual report shall include a full assessment of the Program, including its effectiveness and funding status, statewide and for each locality; and a comparison of the results of the previous annual reports. The Department shall publish the outcome criteria to be included in the annual report.

2011 Appropriation Act, Item 337

Department of Social Services (765)

337 (language only)

A. It is hereby acknowledged that as of June 30, 2011 there existed with the federal government an unexpended balance of \$25,574,493 in federal Temporary Assistance for Needy Families (TANF) block grant funds which are available to the Commonwealth of Virginia to reimburse expenditures incurred in accordance with the adopted State Plan for the TANF program. Based on projected spending levels and appropriations in this act, the Commonwealth's accumulated balance for authorized federal TANF block grant funds is estimated at \$14,064,514 on June 30, 2012; \$7,577,009 on June 30, 2013; and \$32,835 on June 30, 2014.

B. The Department of Social Services (DSS) shall report annually on October 1 to the Governor, the Secretary of Health and Human Resources, the Chairmen of the House Appropriations and Senate Finance Committees, and the Director, Department of Planning and Budget regarding spending; program results; clients served; the location, size, implementation status, and nature of projects funded with TANF funds; results of all formal evaluations; and recommendations for continuation, expansion, and redesign of the projects. Such report shall be combined with the report required by § 63.2-619, Code of Virginia.
