Dear General Assembly Member:

REVENUE STABILIZATION FUND

This Office is providing a report of the required calculations for the Revenue Stabilization Fund. Appendix A provides historical information concerning the establishment of the Revenue Stabilization Fund and the requirements surrounding it.

CALCULATION OF MAXIMUM FUND ALLOWED

<u>Years</u>	<u>Tax Revenues (In Thousands)</u>
2010	\$13,159,414
2011	\$13,957,363
2012	\$14,787,518
Average for three years	\$13,968,098
Maximum fund allowed (15% of average)	\$ 2,095,215

Effective fiscal year 2011, an amendment to the Virginia Constitution, which voters approved on November 2, 2010, increased the maximum fund allowed from ten percent to 15 percent of the Commonwealth's certified average annual tax revenues for the three fiscal years immediately preceding the current year.

CALCULATION OF CONSTITUTIONAL DEPOSIT

Certified tax revenues increased by 5.95 percent between fiscal years 2011 and 2012, and the average revenue growth for the preceding six years was 2.64 percent. Under the provisions of the Revenue Stabilization Fund, the difference between last year's revenue growth and the average growth is 3.31 percent. As a result, the General Assembly must make a mandatory deposit of \$244,645,117 related to fiscal year 2012 tax collections, as required by the Virginia Constitution. Exhibit 1 provides the certified tax revenue amounts used in the calculation.

The Comptroller's General Fund Preliminary Annual Report includes a \$244,645,117 restriction of the General Fund balance for the mandatory deposit in fiscal year 2014. In addition, the General Fund balance included a \$132,688,650 restriction for the mandatory deposit in fiscal year 2013 of fiscal year 2011 tax collections.

Fiscal Year 2012 Activity

There were no required deposits to or withdrawals from the Revenue Stabilization Fund in fiscal year 2012. The only change to the balance was interest earned. Exhibit 2 provides the funding progress of the Fund through June 30, 2012.

CALCULATION OF STATUTORY DEPOSIT

Section 2.2-1829 of the Code of Virginia, as discussed in Appendix A, requires the Governor to include an additional deposit to the Revenue Stabilization Fund in his budget recommendations, if certain conditions occur. As shown in Exhibit 3, the growth of certified tax revenues does not meet any of the required conditions. Therefore, the Governor does not need to include an additional deposit in his budget recommendations.

CALCULATION OF WITHDRAWAL

Article X, Section 8 of the Virginia Constitution, as discussed in Appendix A, establishes the requirements for making a withdrawal from the Revenue Stabilization Fund. There are no pending withdrawals from the Fund. However, we have included the information below to assist the General Assembly in considering future withdrawal requests.

A withdrawal from the Fund can occur only if general fund revenues appropriated exceed the revised general fund forecast by more than two percent of certified tax revenues collected in the most recently ended fiscal year. The two percent threshold based on fiscal year 2012 collections is \$295,750,356. In addition, a withdrawal from the Fund can compensate for no more than one-half of the difference between the total general fund revenues appropriated and a revised general fund revenue forecast during a subsequent regular or special legislative session. Finally, a withdrawal from the Fund cannot exceed more than one-half the balance of the Fund. Half of the balance of the Fund as of June 30, 2012, is \$151,787,047.

All actions withdrawing funds from Revenue Stabilization Fund are subject to review and approval by the General Assembly. Exhibit 4 contains detailed information showing the calculations of the amounts above.

PROJECTED DEPOSITS AND BALANCES

To provide information to the General Assembly on the impact of future revenue increases, we have performed pro forma calculations on projected deposits to the Fund using forecasted revenues for fiscal years 2013 through 2017 as shown in Exhibit 5. There are projected mandatory deposits for forecasted revenues for fiscal years 2013 through 2016. Under certain circumstances, there are statutory requirements for additional deposits; however, none of these conditions occur using the projected revenue forecasts for fiscal years 2013 through 2017.

The Fund will experience growth beginning in fiscal year 2013, when the mandatory deposit calculated for 2011 revenues will occur, but the fund will not reach its maximum allowed level through 2017.

HISTORICAL INFORMATION

Exhibits 6 and 7 provide historical information on the Revenue Stabilization Fund including a graphical illustration of fund balance by fiscal year and a schedule of deposits and withdrawals.

APPENDIX A HISTORICAL INFORMATION

Mandatory Deposit

Article X, Section 8 of the Virginia Constitution and the enabling legislation established the Revenue Stabilization Fund, and require this Office to report to the General Assembly the following:

1. certified tax revenues for the calculation of the Revenue Stabilization Fund;
2. the maximum size allowed of the Revenue Stabilization Fund; and
3. the amount of the mandatory deposit to the fund.

The amount in the Revenue Stabilization Fund is not to exceed fifteen percent of the Commonwealth's average annual tax revenues derived from taxes on income and retail sales as certified by our Office for the three fiscal years immediately preceding. The General Assembly is required to make deposits to the Revenue Stabilization Fund to equal at least 50 percent of the total of: certified tax revenues for the most recently ended fiscal year, multiplied by the difference between the annual percentage increase in certified tax revenues collected for the most recently ended fiscal year, and the average annual percentage increase in certified tax revenues collected for the six fiscal years immediately preceding the most recently ended fiscal year.

Item 266 A of Chapter 3 of the 2012 Acts of Assembly requires this Office to report to the General Assembly on or before November 1st of each year.

Statutory Deposit

Legislation passed during the 2003 General Assembly Session added a requirement for an additional deposit to the Revenue Stabilization Fund under certain conditions. The provisions of this change were effective July 1, 2003. The conditions are as follows:

1. a growth of the certified tax revenues collected in the most recently ended fiscal year of eight percent or greater than the certified tax revenues collected for the immediately preceding fiscal year;
2. a growth of the certified tax revenues for the most recently ended fiscal year greater than 1.5 times the average percentage increase in the certified tax revenues collected in the six fiscal years immediately preceding the most recently ended fiscal year; and
3. the estimate of general fund revenues prepared in accordance with Section 2.2-1503 of the Code of Virginia for the fiscal year in which the deposit is to be made is at least five percent greater than the actual general fund revenues for the immediately preceding fiscal year.

If the above conditions exist, the Governor must include in his budget recommendations, submitted to the General Assembly in the subsequent session, an amount equal to at least 25 percent of the product of the certified tax revenues collected in the most recently ended fiscal year, multiplied by the difference between the annual percentage increase in the certified tax revenues collected for the most recently ended fiscal year

and the average annual increase in the certified tax revenues collected in the six fiscal years immediately preceding the most recently ended fiscal year.

Withdrawals

Per Article X, Section 8 of the Virginia Constitution, the General Assembly may appropriate an amount for transfer from the Fund to compensate for no more than one-half of the difference between the total general fund revenues appropriated and a revised general fund revenue forecast presented to the General Assembly prior to or during a subsequent regular or special legislative session. However, no transfer shall be made unless the general fund revenues appropriated exceed such revised general fund revenue forecast by more than two percent of certified tax revenues collected in the most recently ended fiscal year. Furthermore, no appropriation or transfer from such fund in any fiscal year shall exceed more than one-half of the balance of the Revenue Stabilization Fund.
