Investment return calculations were prepared using a time-weighted return methodology based on market value and net of investment expenses.

Virginia Retirement System

Comprehensive Annual Financial Report

For the Year Ended June 30, 2015

VRS STANDARDS OF CONDUCT

RESPONSIBILITY

We are loyal to members, beneficiaries and participants, discharging our duties for the exclusive purpose of administering benefits and providing customer services.

FAIRNESS

We work for all members, beneficiaries and participants, not for any one individual or group of individuals.

COMPETENCE

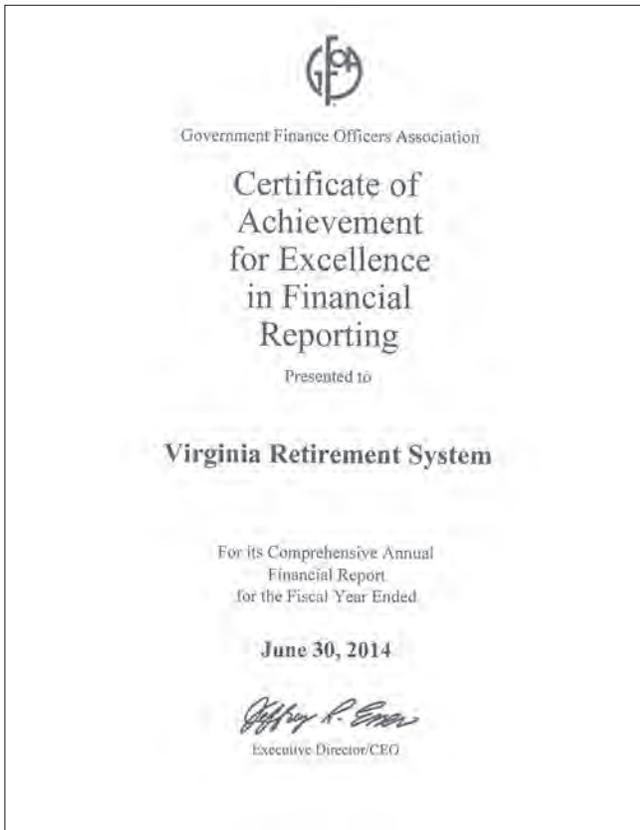

We strive to maintain and improve our skills and knowledge.

INTEGRITY

We conduct ourselves in a professional and ethical manner befitting the high level of trust bestowed upon us by our members, beneficiaries and participants.

AN INDEPENDENT AGENCY OF THE COMMONWEALTH OF VIRGINIA

This report was prepared by the financial, administrative and investment staff of the Virginia Retirement System.

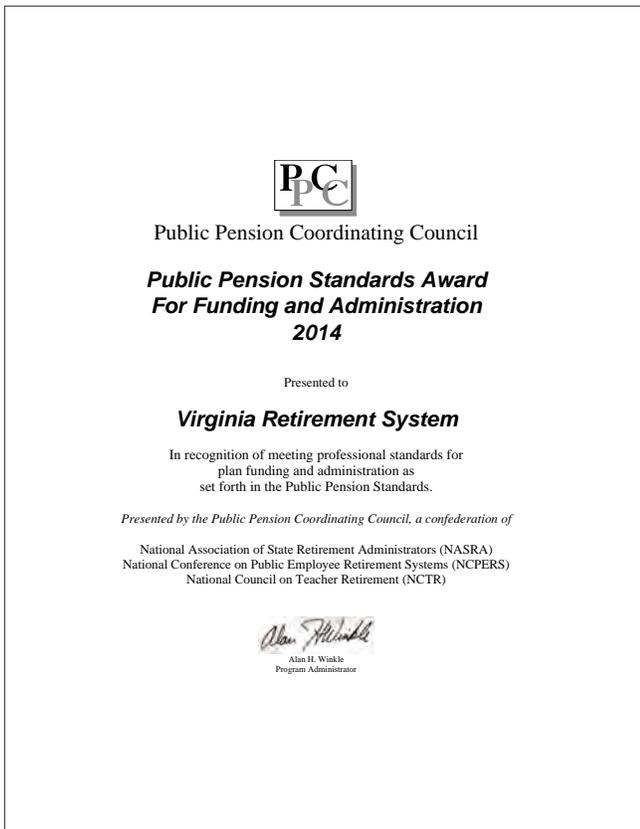

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Virginia Retirement System for its *Comprehensive Annual Financial Report* (CAFR) for the fiscal year ended June 30, 2014. This was the 33rd consecutive year that VRS achieved this prestigious recognition.

To be awarded the certificate, a government unit must publish an easily readable and efficiently organized comprehensive annual report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. The certificate is valid for a period of one year.

The *VRS Comprehensive Annual Financial Report for FY 2015* continues to conform to the Certificate of Achievement Program requirements and will be submitted to GFOA to determine its eligibility for another certificate.

Public Pension Coordinating Council Recognition Award for Administration

VRS received the 2014 Recognition Award for Administration from the Public Pension Coordinating Council (PPCC) in recognition of the agency’s fulfillment of the Public Pension Standards. Developed by PPCC, these standards are the benchmark for measuring excellence in defined benefit plan administration. This is the System’s 11th award from PPCC.

The purpose of the PPCC’s awards program is to promote high professional standards for public employee retirement systems and publicly commend systems that adhere to these standards. The PPCC is a coalition of the National Association of State Retirement Administrators (NASRA), the National Conference on Public Employee Retirement Systems (NCPERS) and the National Council on Teacher Retirement (NCTR).

VRS thanks the participating employers who generously shared photographs of VRS members serving Virginia for this annual report.

SERVING
THOSE WHO
SERVE
VIRGINIA

The Retired Teachers' Fund, established in 1908, initially served about 50 retired teachers with annual pensions ranging from \$50 to \$400. This forerunner of today's Virginia Retirement System (VRS) was the first statewide retirement system in the United States. The fund was discontinued during the Great Depression because of inadequate funding and inability to pay benefits. However, the concept of providing opportunities for retired public servants to have financial stability would resurface and prove more enduring in the decades to come.

December 16, 2015

The Honorable Terence R. McAuliffe, Governor of Virginia, and Members of the General Assembly:

I am pleased to present the Virginia Retirement System (VRS) *Comprehensive Annual Financial Report* for fiscal year 2015. VRS achieved a 4.7% net return on its investment portfolio for fiscal year 2015, allowing the trust fund to end the year with a net position of \$68.2 billion, representing an increase of \$2.0 billion over the previous year.

During fiscal year 2015, the public equity program returned 5.5%; the private equity program returned 8.3%; the real assets program returned 11.8%; the credit strategies program returned 1.1%; and the fixed income program returned 1.9%. The portfolio included \$29.1 billion in public equity; \$12.2 billion in credit strategies; \$12.3 billion in fixed income; \$7.7 billion in real assets; and \$5.1 billion in private equity, as of June 30, 2015. Approximately 35% of the fund is managed internally and 65% of the fund is externally managed under VRS supervision.

VRS is now in the third year of a five-year phase-in to a new asset allocation policy for the trust fund, in which we are increasing assets allocated to private equity and real assets and decreasing assets allocated to fixed income and credit strategies. Our goal is to achieve slightly higher returns at similar risk levels.

VRS' funding levels continued to improve due to investment gains as well as support from you on increasing contributions to the plans. As of June 30, 2014, the last plan valuation, funded ratios stood at 80.6% for local political subdivisions (aggregate); 67.9% for state employees; 66.8% for judges; 65.4% for teachers; 64.3% for state police and 58.1% for Virginia law officers.

Your actions as Governor and General Assembly members accelerated the funding schedule to 90% of the board-certified rates one year ahead of schedule by providing additional funds to four of the state plans. As a result, the state employee plan will recognize long-term savings of approximately \$85 million over the next 20 years, and the Commonwealth has taken an important step toward funding contribution rates at 100% of the board-certified levels by fiscal year 2019.

By approving a special one-time contribution of \$193 million to the teacher retirement plan, you effectively lowered employer contribution rates to the plan, saving employers approximately \$34 million in contributions over the next five years. The contribution rate for fiscal year 2016 was reduced from 14.50% of payroll to 14.06%.

Starting with the Governor's budget proposal and continuing with the actions of the General Assembly, you demonstrated a unified commitment to strengthening the retirement system – a commitment that continues to be viewed positively by the bond-rating agencies. We are grateful that you recognize the importance of our shared goal of fully funding the rates and providing an avenue of support for the system that augments investment returns.

Following the launch of the Hybrid Retirement Plan in 2014, VRS began the fourth phase of its ongoing agency modernization effort in fiscal year 2015. We are replacing the existing mainframe system with a web-based system to efficiently serve members, employers and staff.

With these enhancements to *myVRS*, our members will be able to perform financial-based transactions online and take advantages of other services. The features include a personalized retirement planner, just-in-time counseling and a high degree of self-service, including the ability to make online requests for a refund, and, eventually, apply for retirement benefits online. Education and counseling will be tailored to members based on information in their records, aiding them in making informed decisions. To help ensure accurate identification of each member and manage account access, VRS is deploying a complement of authentication processes, tools and data sources. Updates to provide members with improved functionality begin in spring 2016.

VRS also has implemented the Governmental Accounting Standards Board (GASB) Statement Number 67, *Financial Reporting for Pension Plans*, which addresses financial reporting for state and local pension administrators, and Statement Number 68, *Accounting and Financial Reporting for Pensions*, which establishes new accounting and financial reporting requirements for state and local governments that provide their employees with pensions.

The new standards require the net pension liabilities of cost-sharing plans, such as VRS' teacher retirement plan, to be apportioned to each of the participating local governing bodies. In fiscal year 2015, employers that issued financial statements were required by the new standards to report their net pension liability (NPL) and their proportionate share of pension expense (PE) as participants in VRS. To aid employers in meeting the new standards, VRS created an online resource center that includes financial reporting guidelines and resources, GASB 68 audit opinions and disclosure guidance, contribution rates, valuation reports and GASB guidance documents and presentations.

The past fiscal year also saw implementation of a new Roth 457 retirement savings option for members. The Roth option allows Commonwealth of Virginia 457 Deferred Compensation Plan participants to make contributions on an after-tax basis, rather than the traditional pre-tax contribution. The new Roth option is available to participants at all state agencies and to approximately 60 political subdivisions and school divisions that have adopted the Commonwealth's 457 deferred compensation plan.

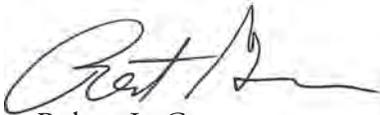

VRS launched a communications campaign to increase voluntary contributions by members in the Hybrid Retirement Plan, which was recognized with awards from the Public Relations Society of America (PRSA) and the National Association of Government Defined Contribution Administrators (NAGDCA). Through this collaborative effort of VRS staff and ICMA-RC, members' voluntary contributions increased from 3.99% to 7.99% at the close of the campaign.

This fiscal year also brought changes in VRS leadership. Robert P. Schultze, VRS Director since 2005, resigned in February 2015 to work in the private sector. Following a nationwide search for his successor, the Board of Trustees appointed Patricia S. Bishop, former VRS Deputy Director for Customer Relationships, as VRS director in June 2015.

In May 2015, I was appointed to a two-year term as VRS Board Chairman, after serving on the board since 2008. I am honored to serve in this leadership role and am grateful for the opportunity to assist our members and retirees in planning today for a financially secure tomorrow.

On behalf of the Board of Trustees and the VRS staff, I would like to thank you for your leadership and continuing support of our efforts. By working together we will ensure that the beneficiaries of the Virginia Retirement System enjoy the financial strength and security they have worked so diligently to earn.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert L. Greene", with a stylized flourish at the end.

Robert L. Greene
Chairman
Virginia Retirement System

Board of Trustees

COMPOSITION OF THE BOARD

Nine members serve on the VRS Board of Trustees. Their appointment is shared between the executive and legislative branches of state government. The Governor appoints five members, including the chairman. The Joint Rules Committee of the Virginia General Assembly appoints four members. The General Assembly confirms all appointments.

Of the nine Board members, four must be investment experts, one must be experienced in employee benefit plans, one must be a local government employee, one must be an employee of a Virginia public institution of higher education, one must be a state employee and one must be a public school teacher. The public employee members may be either active or retired.

December 16, 2015

To the Members of the Board of Trustees:

We are pleased to submit the *Comprehensive Annual Financial Report* (CAFR) of the Virginia Retirement System (the System) for the fiscal year ended June 30, 2015. In addition to the Introductory Section, the System's CAFR contains a Financial Section, Investment Section, Actuarial Section and Statistical Section. VRS' *Comprehensive Annual Financial Report* for fiscal year 2015 has been prepared in accordance with Section 51.1-1003 of the *Code of Virginia* (1950), as amended, which requires every retirement system to publish an annual report, and Section 4-11.00 of Chapter 665 of the 2015 Virginia Acts of Assembly, which requires an annual detailed statement of financial condition. The report has been mailed to the Governor, members of the Cabinet and the members of the Virginia General Assembly. The report also is available on the VRS website at www.varetire.org.

VRS Overview

VRS administers benefits and services for approximately 660,000 members, retirees and beneficiaries covered under the following systems:

- Virginia Retirement System (VRS) for teachers, state employees and employees of participating political subdivisions, including full-time local law enforcement officers, firefighters, emergency medical technicians and jail officers
- State Police Officers' Retirement System (SPORS)
- Virginia Law Officers' Retirement System (VaLORS)
- Judicial Retirement System (JRS)

Benefits administered by the System include:

- Hybrid Retirement Plan for members of VRS and JRS
- Plan 1 and Plan 2 defined benefit plans for members of VRS, SPORS, VaLORS and JRS
- Plan 1 and Plan 2 optional retirement defined contribution plans for political appointees, school superintendents and faculty members at Virginia's public colleges and universities, as elected by the participant
- Commonwealth of Virginia 457 Deferred Compensation and Cash Match Plans
- Group Life Insurance Program
- Retiree Health Insurance Credit Program
- Virginia Sickness and Disability Program (VSDP) and VSDP Long-Term Care Plan
- Virginia Local Disability Program (VLDP) and VLDP Long-Term Care Plan
- Commonwealth of Virginia (COV) Voluntary Group Long-Term Care Insurance Program

More than 800 employers participate in VRS on behalf of their employees. They include state agencies, public colleges and universities, school boards, political subdivisions and special authorities.

Fiduciary Responsibility of the Board

The VRS Board of Trustees (the Board) has full power to invest and reinvest the trust funds of the System.

To fulfill its responsibility, the Board has adopted various investment policies and guidelines. The Board's investment objective for the VRS portfolio is to maximize long-term investment returns while targeting an acceptable level of risk. Primary risk measures are volatility in the plan's assets, funded status and contribution rates. As set forth in Section 11 of Article X of the *Constitution of Virginia*, the funds of the retirement system shall be deemed separate and independent trust funds; shall be segregated from all other funds of the Commonwealth; and shall be invested and administered solely in the interests of members, retirees and beneficiaries. The Board retains a professional investment staff, as well as outside managers, to advise and assist in the implementation of these policies and objectives.

The assets of the System are invested in a prudent manner that is intended to provide for the adequate funding of VRS' pension liability. Section 51.1-124.30(C) of the *Code of Virginia* states that "... the Board shall invest the assets of the Retirement System with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with like aims."

Accordingly, the Board must sufficiently diversify the portfolio to minimize the risk of large losses unless, under the circumstances, it is clearly prudent not to do so.

Accounting System and Internal Control

The financial statements included in the CAFR for fiscal year 2015 are the responsibility of the System's management and have been prepared in accordance with generally accepted accounting principles (GAAP) for government accounting and reporting under the Governmental Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB).

The accrual basis of accounting is used in the preparation of the financial statements. Revenues are taken into account when they are earned and become measurable; expenses are recorded when the liabilities are incurred. Investments are reported at fair value as determined by the System's master custodian. Capital assets are recorded at cost and depreciated over their estimated useful life.

Contributions to the System are based on the principle of level-cost funding and are developed using the entry age normal cost method, with current service financed on a current basis and prior service amortized over a 20-year closed period. Legacy unfunded liability as of June 30, 2013, is being amortized over a 30-year closed period, while deferred contributions from 2010-2012 biennium are being recognized over a 10-year closed period. In management's opinion, the financial statements fairly present the plan net position of the System at June 30, 2015, and the changes in its plan net position for the period then ended.

VRS Milestones (1908-1990)

1908 Retired Teachers Fund created.

1942 Virginia Retirement System (VRS) created for teachers and state employees.

1944 Political subdivisions have the option to join VRS.

1950 State Police Officers' Retirement System (SPORS) created.

1960 Group Life Insurance Program created.

1970 Cost-of-Living Adjustment (COLA) established; Judicial Retirement System (JRS) created.

1990 Health Insurance Credit for state retirees established.

GASB Statement Number 34 requires the System to include additional information in the CAFR. This information is provided in Management’s Discussion and Analysis (MD&A) and includes an introduction as well as an overview and analysis of the System’s financial activities for the current fiscal year and the two preceding years. The Letter of Transmittal is designed to complement and should be read in conjunction with the MD&A, found in the Financial Section immediately following the report of the independent auditor.

GASB Statement Number 67 addressed financial reporting for state and local pension administrators and is addressed in the Financial Section. GASB Statement Number 68 establishes new accounting and financial reporting requirements for state and local governments that provide their employees with pensions and prepare annual financial statements. To assist employers in meeting the new GASB 68 standard, VRS developed a resource center available to employers via the VRS website. The online resources included GASB 68 audit opinions and disclosure guidance, contribution rates, valuation reports and GASB guidance documents.

The System’s management is responsible for maintaining a system of adequate internal accounting controls designed to provide reasonable assurance that transactions are executed in accordance with management’s general or specific authorization, and are recorded as necessary to maintain accountability for assets and to permit preparation of financial statements in accordance with GAAP. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits that are likely to be derived from that control. The internal control system includes the organizational plan; the appropriate segregation of duties and responsibilities and sound practices in the performance of duties; and personnel with capabilities commensurate with their responsibilities. The System also has an internal audit program that reports to the Audit Committee of the Board of Trustees, and the budget for the System’s administrative expenses is approved by the Board and appropriated by the General Assembly of Virginia.

The retirement funds held by the System are constitutionally established as independent trust funds dedicated to the exclusive benefit of its members, retirees and beneficiaries. In management’s opinion, the internal controls in effect during the fiscal year ended June 30, 2015, adequately safeguard the System’s assets and provide reasonable assurance regarding the proper recording of financial transactions.

Funding

PENSION PLANS

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans*, changes were made to the calculations for the System’s defined benefit pension plans for financial reporting purposes. The most recent valuation for this presentation was prepared as of June 30, 2015. The total pension liability was determined based on the actuarial valuation as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

VRS Milestones (1992-2014)

1992 Health Insurance Credit for retired teachers and political subdivision employees established.

1995 Optional Group Life Insurance Program established.

1999 Virginia Sickness and Disability Program (VSDP) for state employees established; Virginia Law Officers’ Retirement System (VaLORS) created.

2002 VSDP Long-Term Care Plan established.

2010 VRS Plan 2 created for members hired or rehired on or after July 1, 2010.

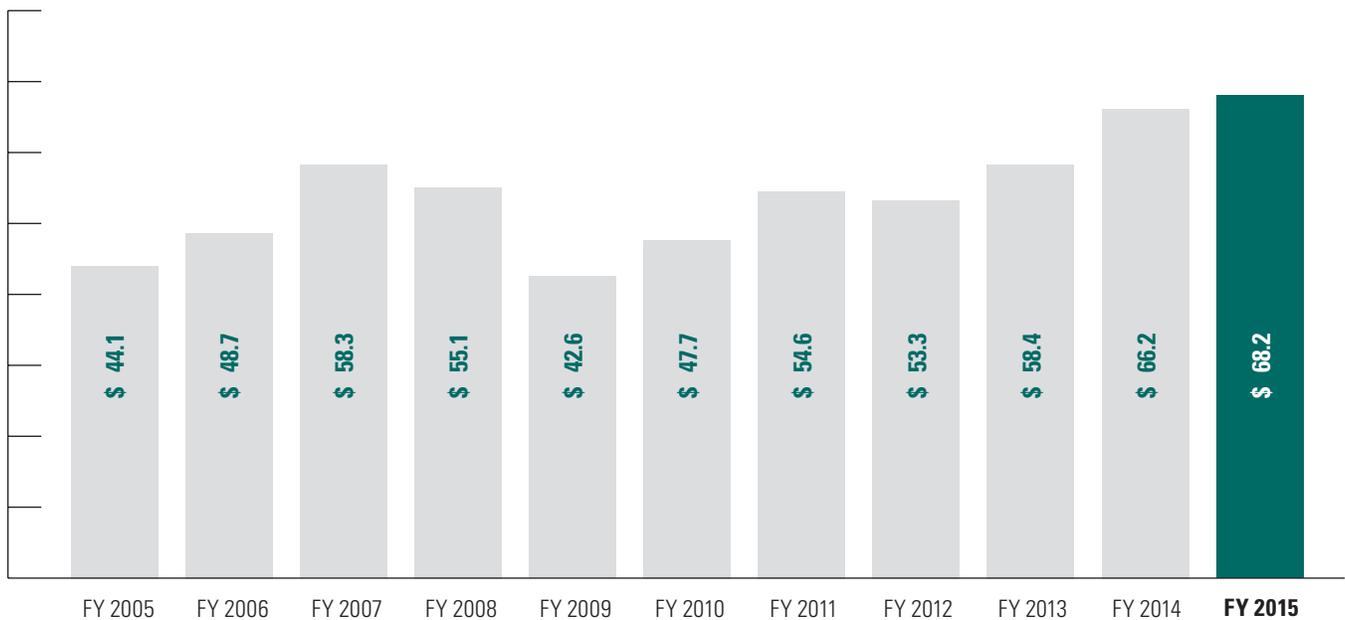

2012 General Assembly passes legislation creating a Hybrid Retirement Plan with implementation in 2014; Virginia Local Disability Program (VLDP) created as a benefit for political subdivisions and schools with implementation in 2014.

2014 VRS Hybrid Retirement Plan, a combined defined benefit and defined compensation plan, becomes the retirement plan for new members (with the exception of hazardous duty members) hired on or after January 1, 2014.

PLAN NET POSITION RESTRICTED FOR BENEFITS

AS OF JUNE 30

(EXPRESSED IN BILLIONS)

Based on these calculations, the Plan Fiduciary Net Position as a percentage of the Total Pension Liability was 72.81% for the VRS State Plan, 70.68% for the VRS Teacher Plan, and 86.70% for the aggregate total of the VRS Political Subdivision Plans. For the SPORS, VaLORS and JRS plans, the Plan Fiduciary Net Position as a percentage of the Total Pension Liability was 68.89%, 72.15% and 62.64%, respectively. For the VRS State Plan, the VRS Teacher Plan and the aggregate total of the VRS Political Subdivision Plans, there was a slight decline from their June 30, 2014, measurement date values of 74.28%, 70.88% and 86.90%, respectively. For SPORS and VaLORS, there was also a decline from their values of 69.87% and 63.05% at June 30, 2014, and for JRS there was a slight increase from their value of 71.71%. The decline in the Plan Fiduciary Net Position as a percentage of the Total Pension Liability is attributable to the lower market value of investments at June 30, 2015.

Contributions for fiscal year 2015 were based on the June 30, 2013, actuarial valuation. The rates certified by the VRS Board of Trustees for all state employee groups and for teachers were not fully funded by the Governor and General Assembly. However, the actual rates paid in fiscal year 2015 for all groups reflected an increase over the fiscal year 2014 levels. Retirement contribution rates are discussed in further detail in the Financial Section.

OTHER POST-EMPLOYMENT BENEFIT PLANS

The System's most recent actuarial valuation for the Other Post-Employment Benefit (OPEB) plans was prepared as of June 30, 2014. As expected, the funded ratios for these plans generally improved. This improvement was driven by the net investment gains recorded in fiscal year 2010, fiscal year 2011, fiscal year 2013 and fiscal year 2014, which were above the assumed rate of return. Because of the "five-year smoothing" asset valuation method used by the VRS actuary; however, this was partially offset by the investment performance recorded in fiscal year 2012, which was lower than the assumed rate of return.

The Group Life Insurance Fund, the Retiree Health Insurance Credit Fund and the Disability Insurance Trust Fund were actuarially funded at 36.7%, 7.0% and 159.0%, respectively, based on the actuarial valuation as of June 30, 2014. For the Group Life Insurance Fund, the Retiree Health Insurance Credit Fund and the Disability Insurance Trust Fund, there was an increase from the June 30, 2013, funded ratios of 32.5%, 6.1% and 157.4%, respectively. There were no changes in the primary actuarial assumptions for salary growth or inflation. Further information on this valuation is included in the Financial Section and the Actuarial Section.

Contributions for fiscal year 2015 were based on the June 30, 2013, actuarial valuation. The rates certified by the VRS Board of Trustees for the OPEB plans were not fully funded by the Governor and General Assembly. Contribution rates for each of these OPEB plans are discussed in further detail in the Financial Section.

Investments

At June 30, 2015, the total value of the VRS investment portfolio was \$68.2 billion, an increase from the investment balance of \$67.2 billion at June 30, 2014. The increase was due to higher contribution rates and positive investment returns; however, these were partially offset by increased expenses for benefit payments. The System's net position restricted for benefits at June 30, 2015, totaled \$68.2 billion, an increase from the net position of \$66.2 billion at June 30, 2014.

Legislative Initiatives

During the 2015 session, the Virginia General Assembly enacted the following bills that affect public employees and retirees covered under VRS.

SENATE BILL 813: VRS TECHNICAL CORRECTIONS. Makes several technical corrections as a result of implementing the Hybrid Retirement Plan and incorporates language required by the Internal Revenue Service. Effective July 1, 2015.

SENATE BILL 942: PURCHASE OF PRIOR SERVICE. Allows members on approved leave for the death of a child to purchase up to one year of service credit upon their return to employment. Effective July 1, 2015.

SENATE BILL 1360 AND HOUSE BILL 2222: COMMONWEALTH'S ATTORNEYS TRAINING FUND. Establishes the Commonwealth's Attorneys Training Fund to support prosecutor training and law-enforcement training. VRS will manage the fund, which consists of proceeds provided from a court case settlement. Effective July 1, 2015.

SENATE BILL 1196 AND HOUSE BILL 1984: MANDATORY JUDICIAL RETIREMENT. Increases the mandatory retirement age from 70 to 73 for Judicial Retirement System members as follows:

- Current Supreme Court, Court of Appeals, Workers' Compensation Commission and State Corporation Commission judges as of July 1, 2015

33 Years of Excellence in Financial Reporting. The *VRS Comprehensive Annual Financial Report* for fiscal year 2014 marked the 33rd year of recognition from the Government Finance Officers Association of the United States and Canada (GFOA) for excellence in financial reporting.

- Circuit, general district and juvenile and domestic relations district judges elected or appointed to an original or subsequent term on or after July 1, 2015

Current judges in these categories who are not reappointed on or after July 1, 2015, will not be eligible for the later retirement. Effective July 1, 2015.

SENATE BILL 1162 AND HOUSE BILL 2178: HYBRID RETIREMENT PLAN; SCHOOL DIVISION DEFERRED COMPENSATION AND CASH MATCH PLANS. Provides school divisions the option to annually elect to allow their employees to use an employer-sponsored hybrid 403(b) plan for Hybrid Retirement Plan voluntary contributions. The first employer election must be made by October 30, 2015. By November 30, hybrid plan employees at participating school division employers must elect to continue making voluntary contributions to the Commonwealth of Virginia Hybrid 457 Deferred Compensation plan, or switch to the employer-sponsored hybrid 403(b) plan. Employers will also contribute their corresponding employer match to the employer-sponsored plan, either in a 403(b) plan or in a 401(a), whichever they choose. Plan participation will begin January 1, 2016, for employees who chose the employer-sponsored hybrid 403(b) plan. This is an annual election for employees. Effective January 1, 2016.

HOUSE BILL 1890: PURCHASE OF PRIOR SERVICE. Makes several changes to the purchase of prior service program to simplify it and ensure the purchase cost more closely reflects the cost of providing the additional benefit in retirement. Examples of changes include:

- The purchase rate for most types of service will be based on approximate normal cost for VRS members in all plans for two years after their membership date.
- After the two-year window, the purchase cost for all VRS plans will be based on an actuarial rate.
- The cost for refunded service will be the amount refunded plus 7% interest, which is the projected rate of return on the fund's investments, compounded from the date of the refund to the date of purchase.
- Members can purchase periods of service in any order; they will no longer have to purchase the most recent service first.

Changes are effective January 1, 2017.

HOUSE BILL 2020: CRITICAL SHORTAGE. Extends the sunset date to July 1, 2020, on provisions permitting retired teachers and administrative employees to elect to continue to receive a retirement benefit while filling an eligible critical shortage teacher position as defined by the Department of Education. Effective July 1, 2015.

HOUSE BILL 2277: LIFE INSURANCE FOR RETIRED EMPLOYEES. Provides that life insurance for retirees with 30 years of creditable service cannot be reduced to less than \$8,000, and will be increased annually using the cost-of-living adjustment calculation for Plan 2 employees. Effective July 1, 2015.

HOUSE BILL 1969: CASH BALANCE STUDY. Directs VRS to study a cash balance retirement plan and provide the findings to the General Assembly no later than November 1, 2015.

HOUSE BILL 1998: CREATES SAVING FOR RETIREMENT WORK GROUP. Directs VRS to develop a work group to examine programs that encourage Virginia citizens to participate in retirement savings plans. Results of the work group are due January 1, 2017.

HOUSE BILL 2204: TRANSFERRING LINE OF DUTY ACT TO VRS. Directs VRS and the Department of Human Resource Management (DHRM) to examine the recommendations in the Joint Audit and Legislative Review Commission report regarding the Line of Duty Act (LODA) and propose ways to simplify and clarify the program and ensure its long-term fiscal viability by October 1, 2015. Moves LODA administration to VRS and health benefit administration to DHRM if the bill is reenacted by the 2016 General Assembly.

VRS STATE BUDGET PROVISIONS:

- The state will appropriate a one-time payment of \$192,884,000 to the Teachers' Retirement Fund. The contribution rate for this plan will be reduced to 14.06% in the second year of the biennium.
- The state contribution rate to VRS increases to 90% of the recommended rates a year earlier than scheduled, contingent on positive revenue forecasts.

MEMBER AND RETIREE HIGHLIGHTS. The total VRS membership increased from 644,868 members, retirees and beneficiaries in fiscal year 2014 to 659,770 in fiscal year 2015, representing an increase of 2.3%. The following are highlights from the fiscal year:

- The number of active VRS members decreased 0.3%, from 341,499 to 340,576.
- The number of retirees and beneficiaries increased 4.3%, from 177,126 to 184,769.
- VRS paid \$4,114.2 million during fiscal year 2015, compared to \$3,878.1 million in retirement benefits in fiscal year 2014.
- The number of inactive and deferred members increased 6.5% from 126,243 to 134,425.
- A total of 77,952 members held accounts through the Commonwealth of Virginia Deferred Compensation Plan at the end of the fiscal year. Of these participants, 73,383 received a cash match through the Virginia Cash Match Plan.

EXCEEDING BENCHMARKS. VRS personnel continued to satisfy or exceed benchmarks for operating standards, as the following highlights show:

OPERATING STANDARDS	BENCHMARK	FY 2015 RESULT
Retiree Payroll <i>(benefits paid each month to retirees and other annuitants)</i>	100% of all monthly retirement payrolls run no later than the first day of the month.	100% of monthly payrolls ran on time.
Customer Counseling Center Abandoned Call Rate <i>(rate of incoming calls going unanswered)</i>	The averaged abandoned call rate is no greater than 10% for the year.	The averaged abandoned call rate was 6%.
Service Retirements	Service retirement applications are processed in an average of 60 days with a 95% accuracy rate.	Service retirement applications were processed in an average of 22 days with a 99% accuracy rate.
Disability Retirements	98% of disability retirement applications are processed within 40 days of approval by the VRS Medical Board.	99% of disability retirement applications were processed within 12 days of approval by the VRS Medical Board.
Refunds	95% of requests for refunds of member contributions are processed within 60 days.	99% of refunds were processed within 7 days.
Benefit Estimates	90% of requests for retirement benefit estimates are completed within 30 days.	99% of estimates were completed within 7 days.
Workflow Imaging	98% of documents VRS receives are imaged and available to customer service and operations personnel within 24 hours (one business day).	99% of documents were imaged and available within 24 hours.
System Availability	99% of planned system availability for all critical systems.	The system was available 99% of the time.

In addition to these achievements, VRS staff provided counseling, education, workshops and training opportunities for members and employers throughout the state:

- The Member Counseling Team assisted 2,757 members in one-on-one counseling sessions and responded to 6,849 emails. Staff also conducted 210 retirement education and group counseling sessions, special presentations, videoconferences, webinars and benefit fairs, reaching 11,249 members around the state.
- In the first full fiscal year for the Hybrid Retirement Plan, VRS staff conducted 27 “hybrid roadshows” (educational sessions and webinars) for participating members.
- In 2015, the Employer Representatives continued to organize employer roundtables and conduct employer site visits, which focus on the full scope of VRS products and services. In total, they conducted 60 employer site visits and 69 roundtables, with 1,058 participants.
- In addition, the Employer Representatives assisted two new state agencies and two political subdivisions joining VRS; two employers added the Virginia Law Officers’ Retirement System; five employers electing the Group Life Insurance Program; nine employers electing the enhanced benefit for hazardous duty employees; five employers electing the enhanced retirement multiplier for hazardous duty employees; four employers electing the health insurance credit; two employers electing the Optional Retirement Plan for School Superintendents; two employers electing to offer tax-deferred purchase of prior service and one employer electing to provide unreduced retirement age eligibility at the age of 50 with 30 years of service credit.
- During the fiscal year, there were approximately 1,453,665 visits to the VRS website at *www.varetire.org*, reflecting an increase of nearly 3.7% over the previous June 30. Except for the *varetire.org* homepage, *myVRS*, the secure online system, led again in page views as a top destination.
- The number of subscribers to the online Employer Update newsletter decreased 5%, from 3,960 in fiscal year 2014 to 3,752 in fiscal year 2015. The average “open rate” was 40%.

Innovations

VRS has initiated an agency-wide focus on project management. The VRS Roadmap is a project tracking tool that reflects the major dates for all agency initiatives, and is supported by an agency staffing plan that identifies resource constraints and availability. The increased focus on project management grew out of VRS’ desire to use a best practice process in managing major initiatives across the Agency and make continuous improvement a key part of the VRS culture.

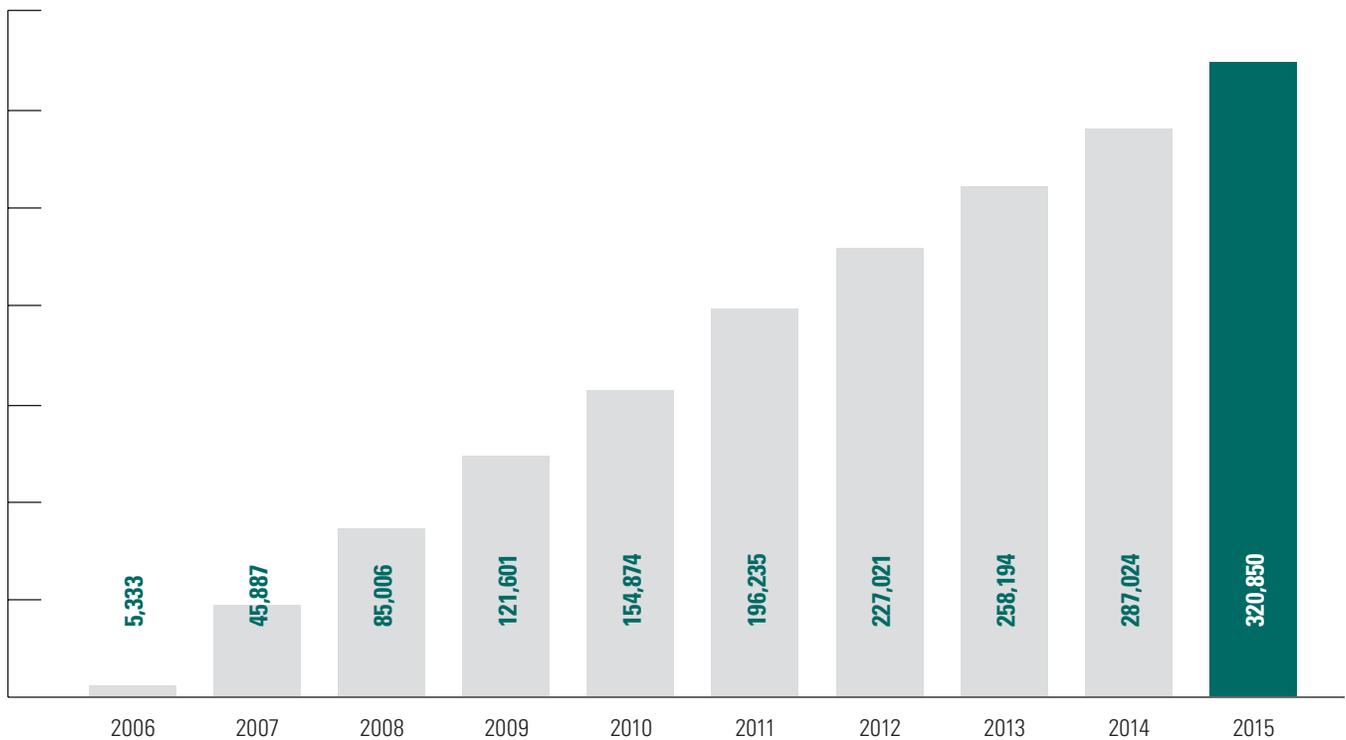

Building on a foundation of ongoing modernization efforts to replace legacy computer systems, VRS is implementing enhancements to the *myVRS* system for members, employers and retirees. During the next two years, *myVRS* will transition from being an information resource to enabling online financial transactions when members leave employment or retire. The enhanced system will include a personalized retirement planner, just-in-time counseling and a high degree of self-service, including the ability to apply online for a refund or retirement benefits. New features under development include embedded education to aid customers in making informed decisions at key decision points.

To help ensure accurate identification of each user and manage their access, VRS is developing a comprehensive set of processes, tools and data sources, collectively known as Identity and Access Management (IAM). New functionality releases will begin in spring 2016 for members, with final implementation scheduled for December 2017.

myVRS CONTINUES TO ATTRACT USERS. During the fiscal year, the secure online *myVRS* system continued to serve as a valuable resource for members, retirees and employers:

- By June 30, 2015, 33,826 members had registered for *myVRS*, bringing the total of registered users to 320,850 in fiscal year 2015, an increase from the 287,024 registered members at June 30, 2014.
- Members put *myVRS* planning tools to good use during the fiscal year, creating more than 387,774 estimates through the *myVRS* Benefit Estimator and 47,277 Quick and Detailed Plans through the *myVRS* Retirement Planner.
- Since 2008, when *myVRS* was opened to retirees, there have been 71,024 retiree registrations. Retirees completed more than 21,763 income tax transactions through the *myVRS* retiree tax tool during the fiscal year.
- By June 30, 2015, more than 6,529 participating employer contacts authorized to access member information had registered for *myVRS* for Employers. During the fiscal year, employers created more than 79,522 benefit estimates to help counsel employees getting ready to retire.

myVRS MEMBER USERS

Acknowledgments

VRS continues to focus on providing effective and efficient service while being accountable stewards of the funds in our care on behalf of our members, retirees and beneficiaries. These responsibilities remain integral to our mission in an era when retirement plans are experiencing a rapidly changing landscape.

Over the last several years, VRS has implemented a variety of pension-reform initiatives. The Hybrid Retirement Plan introduced defined contribution accounts to accompany the defined benefit component provided by VRS. The plan also provides hybrid members with additional opportunity to make voluntary contributions to augment their retirement savings while choosing investment pathways that best meet their individual needs. At the same time, VRS is grateful for the critical support of the Governor and General Assembly to increase contributions to the plans at a more rapid pace than anticipated.

Advancements gained from this multifaceted approach to pension reform are coalescing to improve the overall funded status of the plan and position VRS to serve its members for years to come.

Of course, this progress would not be possible without the high level of commitment and initiative exhibited by the VRS staff, the support of VRS' affiliated employers and business partners and the guidance and perseverance of the Board of Trustees. We express our sincere thanks and appreciation to each of these remarkable individuals and representatives.

Finally, we wish to thank Governor Terence R. McAuliffe and the members of the Virginia General Assembly for their continued commitment to the financial security of the members, retirees and beneficiaries of the Virginia Retirement System.

Respectfully submitted,

Patricia S. Bishop

SERVING
THOSE WHO
SERVE
VIRGINIA

In 1942, the Virginia Retirement System was established for teachers, school administrators and state employees. Ten years later, Virginia became the first state to repeal its retirement system in order to cover its employees under Social Security. The Virginia Supplemental Retirement System (VSRS) was created on March 1, 1952, to reflect the new status of state benefits as supplemental to those provided by Social Security. In 1990, in response to the federal Tax Reform Act of 1986, which reversed the earlier status of state benefits, the system once again became the Virginia Retirement System. Subsequent constitutional and statutory changes in 1995 and 1996 established VRS as an independent state agency, separated VRS funds from other state funds and required that funds be invested and administered solely in the interest of members and beneficiaries.

INDEPENDENT AUDITOR'S REPORT

Report on Financial Statements

We have audited the accompanying financial statements of the Virginia Retirement System as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Virginia Retirement System's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective fiduciary net position of the Virginia Retirement System as of June 30, 2015, and the changes in fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the basic financial statements of the System are intended to present the financial position and the changes in financial position of only that portion of the aggregate remaining fund information of the Commonwealth of Virginia that is attributable to the transactions of the Virginia Retirement System. They do not purport to, and do not, present fairly the Commonwealth of Virginia's overall financial position as of June 30, 2015, and the changes in its financial position and its cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Prior-Year Summarized Comparative Information

We have previously audited the Virginia Retirement System's 2014 financial statements, and we expressed an unmodified audit opinion on the respective financial statements in our report dated December 11, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2014, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, changes in employers' net pension liability schedule, funding progress schedule, and employer contributions schedules on pages 31 through 41 and 101 through 106 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

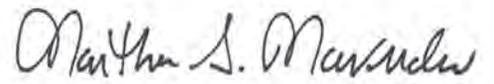

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Virginia Retirement System's basic financial statements. The accompanying supplementary information, such as the schedules of administrative expenses, professional and consulting services, and investment expenses, and other information, such as the introductory, investment, actuarial, and statistical sections, are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The schedules of administrative expenses, professional and consulting services, and investment expenses are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of administrative expenses, professional and consulting services, and investment expenses are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory, investment, actuarial, and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we anticipate our report dated December 15, 2015, on our consideration of the Virginia Retirement System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters to be issued in January 2016. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Virginia Retirement System's internal control over financial reporting and compliance.

AUDITOR OF PUBLIC ACCOUNTS

The Virginia Retirement System (the System) administers pension and other employee benefit plans for approximately 660,000 members, retirees and beneficiaries. The purpose of the Financial Section is to present the plans' net position and changes in net position for the fiscal year through the audited Basic Financial Statements. In support of this information, the Financial Section includes Management's Discussion and Analysis of activity affecting the plans and the operations of the System during the current and previous fiscal years. It also includes the Notes to Financial Statements, providing additional detail about the statements, as well as required schedules regarding historical information and the administration of the plans.

Management's Discussion and Analysis (Unaudited)

Management's Discussion and Analysis provides highlights of the funding of the plans and the performance and operations of the System for the fiscal year ended June 30, 2015. The information provided in the Introductory, Investment, Actuarial and Statistical sections complements this discussion.

The System administers two defined benefit retirement benefit structures, Plan 1 and Plan 2, and a hybrid retirement benefit structure. While all of the following systems have employees with Plan 1 and Plan 2 benefits, only the VRS and JRS systems have employees with hybrid benefits. All of these systems are defined as pension trust funds:

- Virginia Retirement System (VRS) for state employees, teachers, other eligible school division employees, employees of participating political subdivisions and other qualifying employees.
- State Police Officers' Retirement System (SPORS) for state police officers.
- Virginia Law Officers' Retirement System (VaLORS) for Virginia law officers other than state police officers.
- Judicial Retirement System (JRS) for judges of state courts of record, state district courts and other qualifying employees.

The System also administers the Group Life Insurance Fund, Retiree Health Insurance Credit Fund, a Disability Insurance Trust Fund for state employees, a Disability Insurance Trust Fund for local government employees and the funding of the Line of Duty Act Trust Fund. All of these funds are defined as other employee benefit trust funds. Both the pension and other employee benefit trust funds are classified as fiduciary funds.

FINANCIAL HIGHLIGHTS

- The combined total net position of the trust funds restricted for benefits was \$68.2 billion at June 30, 2015, representing an increase of \$2,000 million, or 3.0%, from the net position as of June 30, 2014. The increase was due to higher contribution rates and investment returns; however, these were partially offset by increased expenses for benefit payments.
- The System's rate of return on investments during the fiscal year ended June 30, 2015, was 4.7% compared to a return of 15.7% for the fiscal year ended June 30, 2014. The decrease was due primarily to the poorer performance of the public equity investments in the portfolio.
- The latest valuations of the pension plans were performed by Cavanaugh Macdonald Consulting, LLC, using the new GASB Statement No. 67 calculation processes. Using the June 30, 2014, data, rolled forward to June 30, 2015, the plan fiduciary net position as a

percentage of the total pension liability was 72.81% for the VRS state plan, 70.68% for the VRS teacher plan, 86.70% for the aggregate total of the VRS political subdivision plans, 68.89% for SPORS, 62.64% for VaLORS and 72.15% for JRS. This compares to the June 30, 2013, data, rolled forward to June 30, 2014, when the plan fiduciary net position as a percentage of the total pension liability was 72.81% for the VRS state plan, 70.88% for the VRS teacher plan, 86.90% for the aggregate total of the VRS political subdivision plans, 69.87% for SPORS, 63.05% for VaLORS and 71.71% for JRS.

- The Group Life Insurance Fund, the Retiree Health Insurance Credit Fund and the Disability Insurance Trust Fund were actuarially funded at 36.7%, 7.0% and 159.0%, respectively, based on the actuarial valuation as of June 30, 2014. For the Group Life Insurance Fund, the Retiree Health Insurance Credit Fund and the Disability Insurance Trust Fund, there was an increase from the June 30, 2013, funded ratios of 32.5%, 6.1% and 157.4%, respectively. There were no changes in the primary actuarial assumptions for salary growth or inflation. The funded ratios of all the plans reflect the impact of the net investment gains recorded in fiscal year 2010, fiscal year 2011, fiscal year 2013 and fiscal year 2014 because of the “five-year smoothing” asset valuation method used by the VRS actuary; however, this was partially offset by the poor investment performance recorded in fiscal year 2012.
- The Virginia Sickness and Disability Program was created in January 2014 to provide managed disability for Hybrid Retirement Plan members who were not covered by a local plan. The plan had no assets at June 30, 2014, and no funded ratio.
- The Line of Duty Act Trust Fund was created effective July 1, 2010, as a new trust fund and has actuarial valuations prepared to determine the actuarial accrued liability and to establish the appropriate contribution rates for the program. The fund has a funded ratio of 3.1% at June 30, 2014, a decline from the funded ratio of 4.9% at June 30, 2013.

Overview of the Financial Statements and Accompanying Information

The pension components of the fiscal year 2015 VRS financial statements, notes to the financial statements and required supplementary information were prepared in conformity with GASB Statement No. 67, *Financial Reporting for Pension Plans*. The other employee benefit plan components of the fiscal year 2015 financial statements, notes to the financial statements and required supplemental information were prepared in conformity with GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*.

BASIC FINANCIAL STATEMENTS. The System presents the Basic Financial Statements for the year ended June 30, 2015, with comparative information from the previous fiscal year. In addition, a set of combining statements is now added to show the amounts attributable to the state, teacher and local plans included in the VRS totals. The statements were prepared on the accrual basis of accounting and are used to account for the resources the System administers on behalf of plan members and beneficiaries. These statements include:

- **Statement of Fiduciary Net Position – Pension and Other Employee Benefit Trust Funds.** This statement reflects the balance of the resources available to pay benefits to members, retirees and beneficiaries at the end of the fiscal year.
- **Statement of Changes in Fiduciary Net Position – Pension and Other Employee Benefit Trust Funds.** This statement reflects the changes in the resources available to pay benefits to members, retirees and beneficiaries during the fiscal year.

A summary of the Basic Financial Statements is presented in Figures 2.1 and 2.2. The full statements follow Management’s Discussion and Analysis.

NOTES TO FINANCIAL STATEMENTS. The Notes to Financial Statements provide detailed information and are integral to the Basic Financial Statements.

REQUIRED SUPPLEMENTARY SCHEDULES. These schedules include:

- Required Supplemental Schedule of Changes in Employers' Net Pension Liability
- Required Supplemental Schedule of Employer Contributions – Pension Plans
- Required Supplemental Schedule of Funding Progress – Other Post-Employment Benefit Plans

- Required Supplemental Schedule of Employer Contributions – Other Post-Employment Benefit Plans

ADDITIONAL FINANCIAL INFORMATION. The following schedules provide additional information not included in the Basic Financial Statements:

- Schedule of Administrative Expenses
- Schedule of Professional and Consulting Services
- Schedule of Investment Expenses

Analysis of Financial Activities – Pension Plans

The System’s funding objective is to meet its long-term benefit obligations through investment income and contributions. Accordingly, the collection of contributions and the income from investments provide the reserves needed to finance the benefits provided under the plans.

MEMBERS, RETIREES, BENEFICIARIES AND EMPLOYERS

Approximately 340,576 active members were employed with 827 VRS-participating employers as of June 30, 2015. The number of retirees and other annuitants totaled approximately 184,769 at year-end. The distribution of active members, retirees and beneficiaries and employers is shown in Figures 2.3, 2.4 and 2.5.

FIGURE 2.3: DISTRIBUTION OF ACTIVE MEMBERS

AT JUNE 30

	2015		2014		2013	
	Number	Percent of Total	Number	Percent of Total	Number	Percent of Total
State Employees (VRS)	78,204	23.0%	78,882	23.1%	78,534	23.0%
Teachers (VRS)	145,758	42.7%	145,421	42.5%	145,945	42.9%

Total Employers	827	824	826

* Of the 145 school boards, 133 also provide for coverage for non-professional employees and are treated as political subdivisions. A list of VRS-participating employers and additional employer information is presented in the Statistical Section.

CONTRIBUTIONS AND INVESTMENT EARNINGS

The retirement benefits provided by the plans are funded from pension trust fund revenue. As shown in Figure 2.6, the primary sources of revenue are contributions for active members made by members or their employers, contributions from employers and investment income generated from the investment of plan assets.

Total contributions and investment earnings for the year ended June 30, 2015, amounted to \$6,171.9 million. This was a decrease of \$5,400.6 million when compared with the activity for fiscal year 2014. It was also less than the contributions and investments earnings of \$8,678.5 million recorded in fiscal year 2013.

Total member contributions increased by \$13.1 million. The portion members paid increased by \$55.8 million. This was due primarily to a continuation in implementation of the statutory shift from employer-paid to member-paid contributions. For fiscal year 2015, employer contributions increased

by \$539.5 million due primarily to an increase in the employer contribution rates for all employer groups and the increase in the statutory percentage of the actuarial rate being contributed for state employee groups and teachers. The total of all contributions represented an increase of \$552.6 million from fiscal year 2014. Employer contributions for pensions are discussed further in Notes 2 and 12.

During fiscal year 2014, the System experienced an increase in total member contributions of \$16.4 million and an increase in employer contributions of \$82.0 million. This increase also reflects some payroll growth, the addition of some new local government employers and the election of enhanced hazardous duty or other coverage by some local governments. However, there was no general employer contribution rate increase in fiscal year 2014.

FIGURE 2.6: SUMMARY OF PENSION CONTRIBUTIONS, INVESTMENT EARNINGS AND MISCELLANEOUS REVENUES

FOR THE YEARS ENDED JUNE 30

(EXPRESSED IN MILLIONS)

	2015	Increase (Decrease)	2014	Increase (Decrease)	2013

Employer Contributions	2,414.3	539.5	1,874.8	82.0	1,792.8
Net Investment Income	2,920.6	(5,954.4)	8,875.0	2,796.7	6,078.3
Miscellaneous Revenue and Transfers	1.7	1.2	0.5	(1.1)	1.6
Total Contributions, Investment Earnings and Miscellaneous Revenues	\$ 6,171.9	\$ (5,400.6)	\$ 11,572.5	\$ 2,894.0	\$ 8,678.5

INVESTMENTS

The System holds contributions from members and employers in a commingled pool, which is invested to provide for the payment of current and future benefits to members when they retire. Each plan – VRS-state, VRS-teacher, VRS-political subdivisions, SPORS, VaLORS and JRS – owns an equity position in the pool and receives a proportionate share of the total investment income or loss from the pool on a monthly basis.

As shown in Figure 2.6, net investment income for fiscal year 2015 of \$2,920.6 million represented a decrease of \$5,954.4 million from fiscal year 2014. This compares with the net investment income increase of \$2,796.7 million in fiscal year 2014. Total pension trust fund investments were \$66,364.4 million at fair value at June 30, 2015. This was an increase of \$889.3 million from the fair value of \$65,475.1 million at June 30, 2014. The total pension trust fund investments also increased in fiscal year 2014 by \$7,033.1 million from their fair value of \$58,442.0 million at June 30, 2013. The total return on pension trust fund investments for the year ended June 30, 2015, was 4.7%. This represents an annualized return of 10.6% over the past three years and 10.3% over the past five years. An explanation of investment policies and strategies as well as the portfolio's composition is included in the Investment Section. A review of investment activity and results for fiscal year 2015 also is provided in that section.

EXPENSES – DEDUCTIONS FROM PLAN NET POSITION

As shown in Figure 2.7, the primary expenses of the pension trust funds include annuity benefits for retirees and beneficiaries, refunds of contributions to former members and expenses associated with the administration of the retirement plans. Expenses for fiscal year 2015 totaled \$4,263.2 million, an increase of \$233.8 million, or 5.8%, over the 2014 period.

Benefit payments were \$4,114.2 million in fiscal year 2015. This is an increase of \$236.1 million compared to an increase of \$205.5 million for fiscal year 2014. The increase in fiscal year 2015 was due to continued growth in the number of retirees and beneficiaries receiving benefits. The fiscal year 2015 benefit payments also reflect a 1.46% cost-of-living adjustment (COLA) effective July 1, 2014, for Plan 1 retirees and Plan 2 retirees.

Refunds of contributions to members who terminated employment during fiscal year 2015 amounted to \$106.2 million (10,405 refunds), compared with \$103.4 million refunded (10,729 refunds) during fiscal year 2014 and \$81.5 million refunded (8,530 refunds) during fiscal year 2013. The change during fiscal year 2015 reflects a slight increase in the volume of refunds and in the average refund amount compared to fiscal year 2014.

Administrative and other expenses for fiscal year 2015 were \$42.8 million, compared with \$47.9 million for fiscal year 2014 and \$36.6 million for fiscal year 2013.

FIGURE 2.7: SUMMARY OF PENSION PLAN PRIMARY EXPENSES

FOR THE YEARS ENDED JUNE 30

(EXPRESSED IN MILLIONS)

	2015	Increase (Decrease)	2014	Increase (Decrease)	2013
Benefits	\$ 4,114.2	\$ 236.1	\$ 3,878.1	\$ 205.5	\$ 3,672.6
Refunds	106.2	2.8	103.4	21.9	81.5
Administrative and Other Expenses	42.8	(5.1)	47.9	11.3	36.6
Total Primary Expenses	\$ 4,263.2	\$ 233.8	\$ 4,029.4	\$ 238.7	\$ 3,790.7

Administrative and other expenses decreased by \$5.1 million for fiscal year 2015. This compares to an increase in fiscal year 2014 of \$11.3 million. The decrease for fiscal year 2015 reflects a slight decline in the administrative expenses and a decline in other expenses categories. This decrease in administrative expenses includes additional depreciation of the capitalized software created as part of Modernization and pension reform and an increase in some of the other administrative expense categories offset by an increase in the amount of software development costs that were capitalized in fiscal year 2015. Other expenses decreased because of smaller investment income distributions to other accounts managed by the System. Further details are provided in the Schedule of Administrative Expenses following the Required Supplemental Schedules.

PENSION PLAN ACTIVITY

FISCAL YEAR 2015

(EXPRESSED IN MILLIONS)

RETIREMENT RESERVES

The funds accumulated by the pension plans to meet current and future obligations to retirees and beneficiaries are derived from the excess of revenues over expenses. The higher the level of funding a plan achieves, the larger the accumulation of assets and the greater the investment income potential. As shown in Figure 2.8, revenues exceeded expenses for fiscal year 2015, leading to a net increase of \$1,908.8 million in the retirement reserves held by the plans. This follows an increase of \$7,543.1 million in the retirement reserves in fiscal year 2014. The increase for fiscal year 2015 was related primarily to the increase in employer contribution rates, offset by the decline in net investment income.

ACTUARIAL VALUATIONS AND FUNDING PROGRESS – PENSION PLANS

The System’s actuarial firm performs actuarial valuations of VRS, SPORS, VaLORS and JRS at least every two years to determine funding requirements. The funding policy provides for periodic employer contributions at actuarially determined rates that will remain relatively level over time as a percentage of payroll and will accumulate sufficient assets to meet the costs of all benefits when due.

FIGURE 2.8: SUMMARY OF PENSION PLAN RESERVE BALANCES

AT JUNE 30

(EXPRESSED IN MILLIONS)

	2015	Increase (Decrease)	2014	Increase (Decrease)	2013
Member Reserves	\$ 12,566.0	\$ 383.1	\$ 12,182.9	\$ 411.3	\$ 11,771.6
Employer Reserves	53,865.1	1,525.7	52,339.4	7,131.8	45,207.6
Total	\$ 66,431.1	\$ 1,908.8	\$ 64,522.3	\$ 7,543.1	\$ 56,979.2

These balances also reflect transfers between the Member and Employer Reserves for interest credited to member accounts and member contributions transferred to the Employer Reserve upon a member’s retirement. For fiscal year 2015, the amount of interest credited to member accounts was \$461.8 million, and the amount of member balances transferred to the Employer Reserve for retirements was \$820.8 million. For fiscal year 2014, the interest and retirement transfers were \$447.4 million and \$756.7 million, respectively.

The latest valuations of the pension plans were performed by Cavanaugh Macdonald Consulting, LLC, using the GASB Statement No. 67 calculation processes. Using the June 30, 2014, data, rolled forward to June 30, 2015, the plan fiduciary net position as a percentage of the total pension liability was 72.81% for the VRS state plan, 70.68% for the VRS teacher plan, 86.70% for the aggregate total of the VRS political subdivision plans, 68.89% for SPORS, 62.64% for VaLORS and 72.15% for JRS. The valuations reflect full pre-funding of the statutory cost-of-living adjustment (COLA) for retirees as well as other changes required in GASB Statement No. 67.

Additional information on plan funding is presented in Note 2 and in the Actuarial Section.

Analysis of Financial Activities – Other Employee Benefit Plans

GROUP LIFE INSURANCE PROGRAM

The Group Life Insurance Program provides basic group life insurance coverage for natural death, accidental death, accidental dismemberment and other life insurance benefits to the majority of members covered under the pension plans, as well as to other qualifying employees. Employers and their covered employees pay the premiums for group life insurance coverage; many employers pay the employee's portion.

During fiscal year 2015, the System remitted \$175.8 million to the insurer for claims and administrative costs. This is an increase over the \$159.4 million remitted for fiscal year 2014. Approximately 358,323 active members were covered under the Group Life Insurance Program at June 30, 2015.

The difference between the amounts collected and paid by the System is added to the reserve established to pre-fund group life insurance coverage for retirees. The reserve had a fiduciary net position restricted for benefits of \$1,162.6 million at June 30, 2015.

Investment income, including net securities lending income, was \$52.2 million during the fiscal year. For fiscal year 2014, this reserve had investment income of \$146.9 million and ended the year with a reserve balance of \$1,079.3 million, an increase from the balance of \$887.8 million at June 30, 2013.

For fiscal year 2015, the increase in the reserve balance was primarily the result of an increase in contributions and investment income, which exceeded the program's claims, administrative expenses and other costs. Employer contributions for the Group Life Insurance Program are discussed further in Note 12.

Approximately 163,482 retirees were covered under the Group Life Insurance Program at June 30, 2015.

Members covered under the Basic Group Life Insurance Program are eligible to elect additional coverage through the Optional Group Life Insurance Program. This program provides life insurance, accidental death and accidental dismemberment coverage as a supplement to the basic group plan. Members also may cover their spouses and dependent children. Members pay the premiums through payroll deduction. Approximately 66,882 active members and 2,764 retirees were enrolled in the Optional Group Life Insurance Program at June 30, 2015.

Additional information about the Group Life Insurance Program is provided in Note 3.

RETIREE HEALTH INSURANCE CREDIT PROGRAM

The Retiree Health Insurance Credit Program provides a tax-free reimbursement for the portion of health insurance premiums eligible retirees pay for single coverage under qualifying health insurance plans. During fiscal year 2015, the System collected \$144.8 million in retiree health insurance credit contributions from participating employers and provided reimbursements to retirees of \$148.0 million. During fiscal year 2014, the System collected \$146.7 million in retiree health insurance credit

contributions from participating employers and provided reimbursements of \$142.6 million.

There were slight increases in the contribution rates for the state employee groups and a reduction in the contribution rate for the teacher employees in fiscal year 2015. Employer contributions for the Retiree Health Insurance Credit Program are discussed further in Note 12. The growth in health insurance credit reimbursements reflects an increase in the number of eligible retirees. The Retiree Health Insurance Credit Fund reserve had a fiduciary net position restricted for benefits of \$173.2 million at June 30, 2015. Investment income, including net securities lending income, was \$6.8 million for the fiscal year. The reserve balances at June 30, 2014, and June 30, 2013, were \$170.0 million and \$146.5 million, respectively. Approximately 112,053 retirees were receiving the health insurance credit at June 30, 2015. Additional information is provided in Note 3.

VIRGINIA SICKNESS AND DISABILITY PROGRAM

The Virginia Sickness and Disability Program (VSDP), also known as the Disability Insurance Trust Fund, provides eligible state employees with sick, family and personal leave and short-term and long-term disability benefits for non-work-related and work-related illnesses and injuries. The System is responsible for administering the disability program and the payment of long-term disability benefits. Employers are responsible for administering the leave program and the payment of short-term disability benefits.

During fiscal year 2015, the System collected \$23.7 million in VSDP contributions from participating employers and paid disability premiums and benefits of \$37.1 million. This is an increase from the \$33.7 million in benefits paid in fiscal year 2014. Administrative and other expenses increased from fiscal year 2014. Employer contributions for the Virginia Sickness and Disability Program are discussed further in Note 12.

The benefit costs reflect continued stability in the number of members receiving long-term disability benefits, the amount of these benefits, the costs of the long-term care benefits and the operating costs of the program. The Disability Insurance Trust Fund reserve had a fiduciary net position restricted for benefits of \$414.5 million at June 30, 2015. Investment income, including net securities lending income, was \$18.3 million during the fiscal year. The reserve balances at June 30, 2014, and June 30, 2013, were \$410.1 million and \$370.1 million, respectively. At June 30, 2015, approximately 73,986 active members were participating in the program and approximately 2,860 former members were receiving benefits. Additional information is provided in Note 3.

LINE OF DUTY ACT PROGRAM

The Line of Duty Act Program was a new program for the System in fiscal year 2011. The System is responsible for identifying eligible individuals, having the VRS actuary prepare an actuarial valuation, collecting contributions, reimbursing the Commonwealth of Virginia's Department of Accounts (DOA) for claims and administrative costs and managing the assets of the program. DOA is responsible for the administration of the benefits under the program and the payment of claims for death benefits and health insurance reimbursements for eligible state employees and local government employees, including volunteers, who die or become disabled as the result of the performance of their duties as a public safety officer.

During fiscal year 2015, the cost for the benefits provided by this program was \$8.2 million. This is an increase from the \$7.8 million in benefit costs for fiscal year 2014 and reflects the impact of the stabilization of the program's participation and claims levels. The reserve balance at June 30, 2015, was \$0.7 million. Additional information is provided in Note 3.

VIRGINIA LOCAL DISABILITY PROGRAM

The Virginia Local Disability Program (VLDP) was a new program for the System in fiscal year 2014.

The program provides eligible local government employees who are members of the Hybrid Retirement Plan with sick, family and personal leave and short-term and long-term disability benefits for non-work-related and work-related illnesses and injuries. The System is responsible for administering the disability program and the payment of long-term disability benefits. Employers are responsible for administering the leave program and the payment of short-term disability benefits.

During fiscal year 2015, the cost for the benefits provided by this program was \$645 thousand. This is an increase from the \$139 thousand in benefit costs for fiscal year 2014 and reflects the impact of a full year of benefit payments and an increasing number of participants covered under this program. Additional information is provided in Note 3.

ACTUARIAL VALUATIONS AND FUNDING PROGRESS – OTHER EMPLOYEE BENEFIT PLANS

The System's actuarial firms perform actuarial valuations of other employee benefit plans administered by the System at least every two years to determine funding requirements. The funding policy provides for periodic employer contributions at actuarially determined rates that will remain relatively level over time as a percentage of payroll and will accumulate sufficient assets to meet the costs of all benefits when due.

According to the latest valuations of these plans performed by Milliman, Inc., for the long-term care component of the Disability Insurance Trust Fund and by Cavanaugh Macdonald Consulting, LLC, for all other programs as of June 30, 2014, the ratio of assets accumulated by the plans to their total actuarial accrued liabilities for benefits was 36.7% for the Group Life Insurance Fund, 7.0% for the Retiree Health Insurance Credit Fund, 159.0% for the Disability Insurance Trust Fund and 3.1% for the Line of Duty Act Trust Fund. Since the Virginia Local Disability Program had no assets at

June 30, 2014, its funded ratio was zero. Funding progress for these plans is presented in the Required Supplemental Schedule of Funding Progress – Other Post-Employment Benefit Plans.

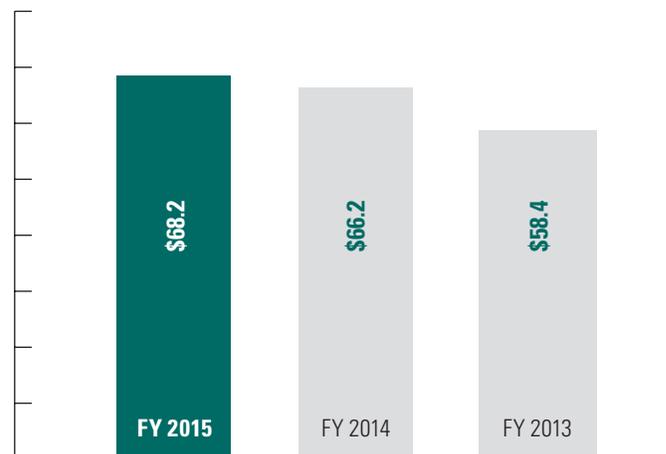

Market Volatility

The System's investment performance for the fiscal year ended June 30, 2015, was 4.7%, and partially contributed to an increase in the net position restricted for benefits. As noted in this section, in the Introductory Section and in the Chief Investment Officer's letter in the Investment Section, the investment markets continue to be extremely volatile. The amount of assets and reserves required to meet future obligations is based, in part, on estimated or expected long-term investment returns. While management cannot predict future market returns, the changes in assets reflect the volatility in the market.

SYSTEM NET ASSETS

AT JUNE 30

(EXPRESSED IN BILLIONS)

REQUEST FOR INFORMATION

This financial report is designed to provide an overview of the System's finances. Questions concerning the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer, Virginia Retirement System, P.O. Box 2500, Richmond, VA 23218-2500.

Notes to Financial Statements

JUNE 30, 2015 AND 2014

1. Summary of Significant Financial Policies, Administration and Management

A. FINANCIAL REPORTING ENTITY

The Virginia Retirement System (the System) is an independent agency of the Commonwealth of Virginia. The System administers two defined benefit retirement benefit structures, Plan 1 and Plan 2, and a hybrid retirement benefit structure. Although all of the following systems have employees with Plan 1 and Plan 2 benefits, only the VRS and JRS systems have employees with hybrid benefits. All of these systems are defined as pension trust funds:

- Virginia Retirement System (VRS) for state employees, teachers, other eligible school division employees, employees of participating political subdivisions and other qualifying employees.
- State Police Officers' Retirement System (SPORS) for state police officers.
- Virginia Law Officers' Retirement System (VaLORS) for non-local government Virginia law officers other than state police officers.
- Judicial Retirement System (JRS) for judges of state courts of record, state district courts and other qualifying employees.

The System also administers the Group Life Insurance Fund, Retiree Health Insurance Credit Fund, a Disability Insurance Trust Fund for state employees, the Virginia Local Disability Program Trust Fund and the funding of the Line of Duty Act Trust Fund. All of these funds are defined as other employee benefit trust funds. Both the pension and other employee benefit trust funds are classified as fiduciary funds and are included in the basic financial statements of the Commonwealth of Virginia. As required by generally accepted accounting principles (GAAP), the System's financial statements include all funds for which financial transactions are recorded in its accounting system and for which the Board of Trustees exercises administrative responsibility.

Effective January 1, 1997, the *Constitution of Virginia* was amended to strengthen the independence of the Virginia Retirement System. As set forth in Section 11 of Article X, the funds of the retirement system shall be deemed separate and independent trust funds, segregated from all other funds of the Commonwealth, and invested and administered solely in the interests of members, retirees and beneficiaries.

B. ADMINISTRATION AND MANAGEMENT

1. Pension Plans and Other Employee Benefit Plans.

The Board of Trustees (the Board) is responsible for the general administration and operation of the pension plans and other employee benefit plans. The Board has full power to invest and reinvest the trust funds of the System through the adoption of investment policies and guidelines that fulfill the Board's investment objective to maximize long-term investment returns while targeting an acceptable level of risk.

The Board consists of five members appointed by the Governor and four members appointed by the Joint Rules Committee of the Virginia General Assembly, all subject to confirmation by the General Assembly. The Board appoints a director to serve as the chief administrative officer of the System and a chief investment officer to direct, manage and administer the investment of the System's funds. The Board also retains outside managers to advise and assist in the implementation of these policies. The Board of Trustees has appointed BNY Mellon as the custodian of designated assets of the System.

The Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), the Virginia Law Officers' Retirement System (VaLORS) and the Judicial Retirement System (JRS) are administered in accordance with Title 51.1, Chapters 1, 2, 2.1, 3 and 4, respectively, of the *Code of Virginia* (1950), as amended. The Group Life Insurance Fund, the Retiree Health Insurance Credit Fund, the Disability Insurance Trust Fund for state employees and the Virginia Local Disability Program

Trust Fund are administered in accordance with Title 51.1, Chapters 5, 14, 11 and 11.1, respectively, of the *Code of Virginia* (1950), as amended. The Line of Duty Act Trust Fund was created by and is administered in accordance with the provisions of the 2010 Appropriation Act (Item 258, Chapter 874, 2010 Virginia Acts of Assembly) and most recently confirmed in the 2015 Appropriation Act (Item 264, Chapter 665, 2015 Virginia Acts of Assembly).

The Optional Life Insurance Fund is administered in accordance with Sections 51.1-512 and 51.1-512.1 of the *Code of Virginia* (1950), as amended. Optional life insurance is an insured product, and the premium collection is handled by the insurer. The Board provides only oversight for the program with limited administrative responsibility.

State statutes governing the plans administered by the System may be amended only by the General Assembly of Virginia. Additional information about the plans is provided in Notes 2 and 3.

2. Other Plans Established by the

Commonwealth of Virginia. The Board has oversight, but limited administrative and no investment responsibility, for several other plans of the Commonwealth. Because of the Board's limited role, the financial transactions of these other plans are not recorded in the System's financial statements.

Therefore, these programs are not included in the System's Basic Financial Statements:

- Commonwealth of Virginia 457 Deferred Compensation Plan and the Virginia Cash Match Plan for state employees and employees of participating political subdivisions. Additional information about the 457 and Cash Match Plans is provided in the Statistical Section.

- Commonwealth of Virginia (COV) Voluntary Group Long-Term Care Insurance Program, an employee-paid program for eligible employees.
- Defined contribution plans, referred to as the Optional Retirement Plans 1 and 2 for political appointees, certain employees of public institutions of higher education and certain employees of public school divisions and teaching hospitals.

Fiduciary Responsibility of the VRS Board of Trustees

– As stated in Section 51.1-124.30(C) of the *Code of Virginia*: "... the Board shall invest the assets of the Retirement System with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with like aims." Accordingly, the Board must sufficiently diversify the portfolio to minimize the risk of large losses unless, under the circumstances, it is clearly prudent not to do so. Primary risk measures are volatility in the plan's assets, funded status and contribution rates.

- Commonwealth Health Research Fund, which provides financial support for human health research on behalf of citizens of the Commonwealth.
- Volunteer Firefighters' and Rescue Squad Workers' Service Award Fund, which provides service awards to eligible volunteer firefighters and rescue squad workers.

C. ACCOUNTING BASIS

The accounting and presentation of the pension plans and other employee benefit plans use the flow of economic resources measurement focus and the accrual basis of accounting.

Under the accrual basis, revenues

are recognized when earned, and expenses are recognized when liabilities are incurred, regardless of the timing of related cash flows. Member and employer contributions are recognized as revenues when due, pursuant to formal commitments as well as statutory or contractual requirements. Investment income is recognized as earned by the plans. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

D. ACTUARIAL BASIS AND CONTRIBUTION RATES

The funding policy for the pension plans provides for periodic employer contributions at actuarially determined rates, which will remain relatively level over time as a percentage of payroll and

will accumulate sufficient assets to meet the cost of all benefits when due. Member and employer contributions are required by Title 51.1 of the *Code of Virginia* (1950), as amended.

Contribution rates are developed using the entry age normal cost method for both normal cost and amortization of the unfunded actuarial accrued liability. Gains and losses are reflected in the unfunded Actuarial Accrued Liability (AAL), which is being amortized as a level percentage of covered payroll within 30 years or less.

In addition to determining contribution requirements, actuarial computations present an estimate of the discounted present value of the prospective accrued liability contributions that employers will have to pay to ensure that such contributions – when combined with the assets on hand, the normal contributions to be made in the future by employers and members and investment income – will be sufficient to pay all benefits due to current members in the future as well as to annuitants and designated beneficiaries. Actuarial valuations estimate the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include future employment, mortality and the use of the benefit. Actuarially determined amounts are subject to revision as actual results are compared with past expectations and new estimates are made about the future. The Required Supplemental Schedules follow the Notes to Financial Statements. For pension plans, the schedules present historical information about the increase or decrease in the employer’s fiduciary net position over time related to the employer’s net pension liability. For other employee benefit plans, the schedules present historical information about the increase or decrease of the actuarial values of the plans’ assets over time relative to the AAL for benefits.

E. GOVERNMENTAL ACCOUNTING STANDARDS BOARD (GASB) STATEMENTS

- Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosures*, requires disclosures related to deposits, authorized investments

and investment risk. Required investment risk disclosures address interest rate risk; credit risk, to include custodial credit risk and concentrations of credit risk; and foreign currency risk. The statement also requires disclosures of custodial credit risk and foreign currency risk for depository accounts. Information about the System’s deposit and investment risk is provided in Note 5.

- GASB Statement No. 43, *Financial Reporting for Post-employment Benefit Plans Other Than Pension Plans*, requires additional reporting and disclosures for other post-employment benefits (OPEBs). The statement became effective for VRS-administered OPEBs beginning with the fiscal year ended June 30, 2007. The Required Supplemental Schedules of funding progress and employer contributions for other employee benefit plans present information about contributions in comparison to the annual required contribution (ARC), which is actuarially determined in accordance with the parameters of GASB Statement 43. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost for each year and amortize any unfunded actuarial liabilities or funding excess over a period not to exceed 30 years.
- GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, establishes a “specific conditions” approach to recognizing intangible assets, specifically computer software. The statement became effective beginning with the fiscal year ended June 30, 2010. Capitalized costs are incurred during the Application Development Stage and consist of design of chosen path, including software configuration and software interfaces; coding; installation of hardware; testing, including the parallel processing phase; and data conversion to the extent that the data are necessary to make the computer software operational. Other costs incurred before or after the Application Development Stage are expensed when incurred. Additional disclosures resulting from the implementation of this statement are presented in Note 6.

- GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, establishes accounting and financial reporting standards for governments that enter into derivative instruments. The statement became effective beginning with the fiscal year ended June 30, 2010. The objective of the statement is to enhance the usefulness and comparability of derivative financial instrument information reported by state and local governments. It provides a comprehensive framework for the measurement, recognition and disclosure of derivative instrument transactions. Additional disclosures resulting from the implementation of this statement are presented in Note 5.
- GASB Statement No. 59, *Financial Instruments Omnibus*, clarifies the definition of items that should be included in the reporting required by Statement No. 53. The statement became effective beginning with the fiscal year ended June 30, 2010. This is reflected in the disclosures in Note 5.
- GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position*, establishes standards for reporting deferred outflows of resources, deferred inflows of resources and net position. The statement became effective beginning with the fiscal year ended June 30, 2013. The financial statement presentations have been updated to reflect the impact of this standard.
- GASB Statement No. 64, *Derivative Instruments: Application of Hedge Accounting Termination Provisions – An Amendment of GASB Statement No. 53*, clarifies the circumstances in which hedge accounting should continue when a swap counterparty, or a swap counterparty's credit support provider, is replaced. The statement became effective beginning with the fiscal year ended June 30, 2012. This is reflected in the disclosures in Note 5.
- GASB Statement No. 67, *Financial Reporting for Pension Plans*, replaces the requirements of Statements No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, and No. 50, *Pension Disclosures*, as they relate to pension plans that are administered through trusts and that meet certain criteria. The statement became effective beginning with the fiscal year ended June 30, 2014, and required changes in the presentation of the financial statements, notes to the financial statements and required supplementary information. Significant changes include an actuarial calculation of total and net pension liability. These are presented in Note 2.C. The changes also include comprehensive footnote disclosure regarding the pension liability, the sensitivity of the net pension liability to the discount rate and increased investment activity disclosures. The implementation of GASB Statement No. 67 did not significantly impact the accounting for accounts receivable and investment balances.
- GASB Statement No. 68, *Accounting and Financial Reporting for Pensions, an amendment of GASB Statement No. 27*. The statement became effective for the fiscal year beginning after June 30, 2014, and required changes in the presentation of the financial statements, notes to the financial statements and required supplementary information for the employers that participate in the VRS-administered pension plans. The information reported by the employers is their share of the information reported by VRS in fiscal year 2014 under GASB Statement No. 67. GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date, an amendment of GASB Statement No. 68*, became effective simultaneously with the provision of GASB Statement No. 68. The statement clarified the adjustments necessary to the beginning deferred outflows of resources and limited that adjustment to contributions made subsequent to the measurement date.

F. INVESTMENTS

1. Investment Valuation. Investments are reported at fair value. Fair value is the amount that one can reasonably expect to receive for an investment in a current sale between a willing buyer and a willing seller, that is, other than a forced or liquidation

sale. The fair value for the System's defined benefit investments is determined by the System's master custodian, BNY Mellon, from its Global Pricing System. This system assigns a price source, based on asset type and the vendor pricing products to which the master custodian subscribes, for every security held immediately following its acquisition. The master custodian monitors prices supplied by these sources daily.

When a pricing source is unable to provide a price, quotes are sought from major investment brokers and market-making dealers; or internal calculations are applied, if feasible. As a last resort, the master custodian will contact investment managers for a price. The master custodian prices commingled funds, partnerships and real estate assets from statements received from the funds, partnerships or investment managers.

The pricing sources used by the master custodian provide daily prices for equity securities; corporate, government and mortgage-backed fixed income securities; private placement securities; futures and options on futures; open-ended funds; and foreign exchange rates. Depending on the vendor, collateralized mortgage obligations (CMOs), adjustable rate mortgages (ARMs) and asset-backed securities are priced daily, weekly or twice a month as well as at month end. Municipal fixed income securities and options on U.S. Treasury/GNMA securities are priced at month end.

Defined contribution plan assets for hybrid plan members are held in self-directed investments for both the member and employer contributions. Contributions must be invested in the investment accounts approved by the VRS Board of Trustees.

2. Investment Transactions and Income. Security transactions and related gains and losses are recorded on a trade-date basis. The cost of investments sold is the average cost of the aggregate holding of the specific investment sold. Dividend income is recorded on the ex-dividend date, and interest income is accrued as earned. Futures contracts are valued daily, with the resulting adjustments recorded as realized

gains or losses arising from the daily settlement of the variation margin. Gains and losses related to forward contracts and options are recognized at the time the contracts are settled. Investments in limited partnerships are accounted for on the equity method of accounting, and their earnings or losses for the period are included in investment income using the equity method.

3. Investment Policy. The System's defined benefit assets are pooled for investment purposes in a Pooled Assets portfolio. The allocation of investment assets within the Pooled Assets portfolio is approved by the Board of Trustees as outlined in the Board's Investment Policy. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit plans.

4. Rate of Return. For the fiscal year ended June 30, 2015, the annual money-weighted rate of return for the Pooled Assets portfolio, net of investment expenses, was 4.72%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. For the VRS Pooled Assets portfolio, the fiscal year 2015 money-weighted rate of return differs only slightly from the dollar-weighted rate of return because the flow of cash for contributions and benefit payments is fairly consistent over the fiscal year.

G. PROPERTY, PLANT, FURNITURE, EQUIPMENT AND INTANGIBLE ASSETS

Tangible capital assets are recorded at cost at the time of acquisition and are reported net of accumulated depreciation. The System capitalizes all property, plant and equipment that have a cost or value greater than \$5,000. Depreciation is computed on the straight-line basis over the estimated useful life of the property, ranging from five years to 40 years. Intangible capital assets for the System include internal and external costs incurred during VRS' current Application Development Stage. These costs are being depreciated over the software's useful life, which is estimated at seven years.

H. ACCUMULATED LEAVE AND DISABILITY CREDITS

Employees of the System participate in the Commonwealth's annual leave program and in its sick leave program or the Virginia Sickness and Disability Program (VSDP), which is administered by the System. Additional information about VSDP is presented in Note 3. Unused annual leave may be accumulated and is paid at the time of permanent separation from service up to the maximum calendar-year limit. For vested employees who are not covered under VSDP, unused sick leave is paid at a rate of 25% of the amount accumulated, not to exceed \$5,000, at the time of permanent separation. VSDP-covered employees with unused disability credits converted from sick leave at the time of enrollment may be paid in the same manner as for non-VSDP employees or may convert these credits to service credit at a rate of 173 disability credits to one month of service.

The accrued liability for unused annual leave, sick leave and disability credits for System employees at June 30, 2015 and 2014, was computed using salary rates in effect at those times and represents annual and sick leave earned up to the allowable ceilings as well as unused, converted disability credits. This information is included in the Statement of Fiduciary Net Position – Pension and Other Employee Benefit Trust Funds.

I. ADMINISTRATIVE EXPENSES AND BUDGET

The Board of Trustees approves expenses related to the administration and management of the trust fund. These expenses are included in a budget prepared in compliance with the Commonwealth's biennial budgetary system (cash basis). Appropriations are controlled at the program level and lapse at the end of the fiscal year. Administrative expenses are funded exclusively from investment income. Expenses for goods and services received but not paid for prior to the System's fiscal year-end are accrued for financial reporting purposes in accordance with generally accepted accounting principles (GAAP). A reconciliation of the difference between the GAAP basis and budgeted basis is presented in the Schedule of Administrative Expenses following the Required Supplemental Schedules.

J. INVESTMENT INCOME ALLOCATION

Income earned on investments is distributed monthly to the VRS, SPORS, VaLORS and JRS retirement plans; the Group Life Insurance Fund; the Retiree Health Insurance Credit Fund; and the Disability Insurance Trust Fund. Distribution of investment income is based on the respective equity of each trust fund in the common investment pool.

The retirement plans distribute their cumulative investment income, net of administrative expenses, in the following manner:

- Investment income is distributed to each individual member contribution account based on a rate of 4.00% applied to each member's cumulative balance as of the close of the preceding fiscal year.
- The remaining portion is allocated monthly to the participating employers' retirement allowance accounts based on the ratio of their member account and employer account balances to the total of all such balances.

K. USE OF ESTIMATES

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of net position restricted for benefits at June 30, 2015. Actual results could differ from those estimates.

L. SUMMARIZED COMPARATIVE DATA/ RECLASSIFICATIONS

The Basic Financial Statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the System's financial statements for the year ended June 30, 2014, from which the summarized information was derived.

2. Pension Plans

A. PLAN DESCRIPTIONS

1. Establishment of the System. The Virginia Retirement System (the System) was established March 1, 1952, as the administrator of governmental retirement plans qualified under Section 401(a) of the Internal Revenue Code. Its mission is to provide retirement benefits for state employees, teachers, other eligible school employees and employees of political subdivisions that elect to participate in the System.

The System is comprised of the following pension trust funds:

- The Virginia Retirement System (VRS), established March 1, 1952, as the Virginia Supplemental Retirement System and renamed VRS in 1990 in response to the Federal Tax Reform Act of 1986, includes a single-employer plan for state employees, a multiple-employer cost-sharing plan for teachers and an agent multiple-employer plan for employees of participating political subdivisions.
- State Police Officers' Retirement System (SPORS), established July 1, 1950, is a single-employer plan for state police officers.

- Virginia Law Officers' Retirement System (VaLORS), established October 1, 1999, is a single-employer plan for non-local government Virginia law officers other than state police.
- Judicial Retirement System (JRS), established July 1, 1970, is a single-employer plan for judges of a court of record or a district court of the state and other eligible judicial employees.

The System is required by law to use the plans' accumulated assets to pay benefits when due to eligible members, retirees and beneficiaries. Full-time permanent, salaried employees of participating employers are covered automatically under VRS, SPORS, VaLORS or JRS upon employment; some part-time permanent, salaried state employees also are covered under VRS. Information regarding the membership is presented in Figure 2.9. Teaching, research and administrative faculty of the state's public colleges and universities who elect an optional retirement plan, as well as permanent, salaried employees of the state's two public teaching hospitals, are not covered under the VRS retirement plans.

2. Pension Plan Provisions and Requirements. Under Plan 1, Plan 2 and the Hybrid Retirement Plan, members are vested in the defined benefit pension after attaining five years of service credit. They become eligible to retire with an unreduced or reduced benefit when they meet the age and service requirements for their plan. The unreduced benefit is actuarially reduced to calculate the reduced benefit amount. A cost-of-living adjustment (COLA), based on changes in the Consumer Price Index for all Urban Consumers, is granted on July 1 of the second calendar year after retirement and is effective each July 1 thereafter, when provided.

Members not covered under the Virginia Sickness and Disability Program (VSDP) for state employees (see Note 3) or the Virginia Local Disability Program (VLDP) for local government employees are eligible to be considered for disability retirement. If a member dies while in active service, his or her beneficiary or survivor may qualify for a death-in-service benefit. Provisions for the retirement plans are presented in Figure 2.10.

FIGURE 2.10: RETIREMENT PLAN PROVISIONS

AS ESTABLISHED BY TITLE 51.1 OF THE *CODE OF VIRGINIA* (1950), AS AMENDED

All full-time, salaried permanent (professional) employees of state agencies, public school divisions and employees of participating employers are automatically covered by a pension plan upon employment. Members qualify for retirement when they become vested and meet the age and service requirements for their plan, as shown in the following table. The System administers three different benefit structures for government employees: Plan 1, Plan 2 and the Hybrid Retirement Plan. Each of these is called a plan in statute and each has different provisions with a specific eligibility and benefit structure. These different benefit structures are set out in the following table:

FIGURE 2.10: RETIREMENT PLAN PROVISIONS, cont.

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p>	<p>About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p>	<p>About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014, are in this plan, as well as Plan 1 and Plan 2 members who were eligible to opt into the plan during a special election window (see "Eligible Members").</p> <ul style="list-style-type: none"> • The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. • The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. • In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses and any required fees.
<p>Eligible Members Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p> <p>Hybrid Opt-In Election VRS non-hazardous duty-covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p> <p>Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.</p>	<p>Eligible Members Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p> <p>Hybrid Opt-In Election Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.</p> <p>Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.</p>	<p>Eligible Members Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:</p> <ul style="list-style-type: none"> • State employees* • School division employees • Political subdivision employees* • Judges appointed or elected to an original term on or after January 1, 2014, regardless if vested to VRS Plan 1 or VRS Plan 2. <p>*Non-Eligible Members Some employees are not eligible to participate in the Hybrid Retirement Plan. They include:</p> <ul style="list-style-type: none"> • Members of the State Police Officers' Retirement System (SPORS) • Members of the Virginia Law Officers' Retirement System (VaLORS) • Political subdivision employees who are covered by enhanced benefits for hazardous duty employees <p>Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.</p>

FIGURE 2.10: RETIREMENT PLAN PROVISIONS, cont.

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Retirement Contributions State employees, excluding state elected officials, judges in Plan 1 or Plan 2 and optional retirement plan participants, contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some school divisions and political subdivisions elected to phase in the required 5% member contribution; all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.</p>	<p>Retirement Contributions State employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some school divisions and political subdivisions elected to phase in the required 5% member contribution; all employees will be paying the full 5% by July 1, 2016.</p>	<p>Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages. Mandatory member contributions and the employer match on the mandatory and voluntary member contributions are recorded in a 401(a) account, along with the accrued net investment income. The voluntary member contributions and accrued net investment income are recorded in a 457(b) account. Members are responsible for investing their accounts using the various investment options that are available.</p>
<p>Creditable Service Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine eligibility for retirement and to calculate the retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.</p>	<p>Creditable Service Same as Plan 1.</p>	<p>Creditable Service <i>Defined Benefit Component:</i> Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine eligibility for retirement and to calculate the retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.</p> <p><i>Defined Contribution Component:</i> Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.</p>
<p>Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund. Members are always 100% vested in the contributions that they make.</p>	<p>Vesting Same as Plan 1.</p>	<p>Vesting <i>Defined Benefit Component:</i> Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. Plan 1 or Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.</p>

FIGURE 2.10: RETIREMENT PLAN PROVISIONS, cont.

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
		<p><i>Vesting, cont.</i></p> <p><i>Defined Contribution Component:</i> Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan. Members are always 100% vested in the contributions that they make.</p> <p>Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.</p> <ul style="list-style-type: none"> • After two years, a member is 50% vested and may withdraw 50% of employer contributions. • After three years, a member is 75% vested and may withdraw 75% of employer contributions. • After four or more years, a member is 100% vested and may withdraw 100% of employer contributions. <p>Distribution is not required by law until age 70½.</p>
<p>Calculating the Benefit The Basic Benefit is calculated based on a formula using the member’s average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement.</p> <p>An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.</p>	<p>Calculating the Benefit See definition under Plan 1.</p>	<p>Calculating the Benefit <i>Defined Benefit Component:</i> See definition under Plan 1.</p> <p><i>Defined Contribution Component:</i> The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.</p>
<p>Average Final Compensation A member’s average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.</p>	<p>Average Final Compensation A member’s average final compensation is the average of the 60 consecutive months of highest compensation as a covered employee.</p>	<p>Average Final Compensation Same as Plan 2. It is used in the retirement formula for the defined benefit component of the plan.</p>
<p>Service Retirement Multiplier VRS and JRS Plan 1: The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.70%.</p> <p>SPORS, sheriffs and regional jail superintendents: The retirement multiplier for sheriffs and regional jail superintendents is 1.85%.</p> <p>VaLORS: The retirement multiplier for VaLORS employees is 1.70% or 2.00%. Members hired before July 1, 2001, have a 1.70% multiplier and are eligible for a hazardous duty supplement. They also had the option to elect the 2.00% multiplier and no supplement. Members hired on or after July 1, 2001, have a 2.00% multiplier and no supplement.</p>	<p>Service Retirement Multiplier VRS and JRS Plan 2: Same as Plan 1 for service earned, purchased or granted prior to January 1, 2013. For non-hazardous duty members, the retirement multiplier is 1.65% for creditable service earned, purchased or granted on or after January 1, 2013.</p> <p>SPORS, sheriffs and regional jail superintendents: Same as Plan 1.</p> <p>VaLORS: The retirement multiplier for VaLORS employees is 2.00%.</p> <p>Political subdivision hazardous duty employees: Same as Plan 1.</p>	<p>Service Retirement Multiplier <i>Defined Benefit Component:</i> VRS and JRS: The retirement multiplier for the defined benefit component is 1.00%.</p> <p>For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.</p> <p>SPORS, sheriffs and regional jail superintendents: Not applicable.</p>

FIGURE 2.10: RETIREMENT PLAN PROVISIONS, cont.

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p><i>Service Retirement Multiplier, cont.</i></p> <p>Political subdivision hazardous duty employees: The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.70% or 1.85% as elected by the employer.</p>		<p><i>Service Retirement Multiplier, cont.</i></p> <p>VaLORS: Not applicable.</p> <p>Political subdivision hazardous duty employees: Not applicable.</p> <p><i>Defined Contribution Component:</i> Not applicable.</p>
<p>Normal Retirement Age VRS: Age 65.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Age 60.</p> <p>JRS: Age 65.</p>	<p>Normal Retirement Age VRS: Normal Social Security retirement age.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Same as Plan 1.</p> <p>JRS: Same as Plan 1</p>	<p>Normal Retirement Age <i>Defined Benefit Component:</i> VRS: Same as Plan 2.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Not applicable.</p> <p>JRS: Same as Plan 1.</p> <p><i>Defined Contribution Component:</i> Members are eligible to receive distributions upon leaving employment, subject to restrictions.</p>
<p>Earliest Unreduced Retirement Eligibility VRS: Age 65 with at least five years (60 months) of creditable service or at age 50 with at least 30 years of creditable service.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.</p> <p>JRS: Age 65 with at least five years of creditable service or at age 60 with at least 30 years of creditable service. Service earned under JRS is weighted. The weighting factors under Plan 1 are:</p> <ul style="list-style-type: none"> • 3.5 for JRS members appointed or elected before January 1, 1995. • 2.5 for JRS members appointed or elected on or after January 1, 1995. 	<p>Earliest Unreduced Retirement Eligibility VRS: Normal Social Security retirement age with at least five years (60 months) of creditable service or when their age and service equal 90.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Same as Plan 1.</p> <p>JRS: Same as Plan 1. Service earned under JRS is weighted. The weighting factors under Plan 2 are:</p> <ul style="list-style-type: none"> • 1.5 for JRS members appointed or elected before age 45. • 2.0 for JRS members appointed or elected between ages 45 and 54. • 2.5 for JRS members appointed or elected at age 55 or older. 	<p>Earliest Unreduced Retirement Eligibility <i>Defined Benefit Component:</i> VRS: Normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Not applicable.</p> <p>JRS: Same as Plan 2. Service earned under JRS is weighted. The weighting factors under Plan 2 are:</p> <ul style="list-style-type: none"> • 1.5 for JRS members appointed or elected before age 45. • 2.0 for JRS members appointed or elected between ages 45 and 54. • 2.5 for JRS members appointed or elected at age 55 or older. <p><i>Defined Contribution Component:</i> Members are eligible to receive distributions upon leaving employment, subject to restrictions.</p>
<p>Earliest Reduced Retirement Eligibility VRS: Age 55 with at least five years (60 months) of creditable service or age 50 with at least 10 years of creditable service.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Age 50 with at least five years of creditable service.</p> <p>JRS: Age 55 with at least five years of creditable service.</p>	<p>Earliest Reduced Retirement Eligibility VRS: Age 60 with at least five years (60 months) of creditable service.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Same as Plan 1.</p> <p>JRS: Same as Plan 1.</p>	<p>Earliest Reduced Retirement Eligibility <i>Defined Benefit Component:</i> VRS: Age 60 with at least five years (60 months) of creditable service.</p> <p>SPORS, VaLORS and political subdivision hazardous duty employees: Not applicable.</p> <p>JRS: Same as Plan 1.</p> <p><i>Defined Contribution Component:</i> Members are eligible to receive distributions upon leaving employment, subject to restrictions.</p>

FIGURE 2.10: RETIREMENT PLAN PROVISIONS, cont.

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Cost-of-Living Adjustment (COLA) in Retirement</p> <p>The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%.</p> <p><i>Eligibility:</i> For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of creditable service, the COLA will go into effect on July 1 after one full calendar year from the retirement date.</p> <p>For members who retire with a reduced benefit and who have fewer than 20 years of creditable service, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.</p> <p><i>Exceptions to COLA Effective Dates:</i> The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:</p> <ul style="list-style-type: none"> • The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013. • The member retires on disability. • The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program. • The member dies in service and the member's survivor or beneficiary is eligible for a monthly death-in-service benefit. The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins. 	<p>Cost-of-Living Adjustment (COLA) in Retirement</p> <p>The Cost-of-Living Adjustment (COLA) matches the first 2% increase in the CPI-U and half of any additional increase (up to 2%), for a maximum COLA of 3%.</p> <p><i>Eligibility:</i> Same as Plan 1.</p> <p><i>Exceptions to COLA Effective Dates:</i> Same as Plan 1.</p>	<p>Cost-of-Living Adjustment (COLA) in Retirement</p> <p><i>Defined Benefit Component:</i> Same as Plan 2.</p> <p><i>Defined Contribution Component:</i> Not applicable.</p> <p><i>Eligibility:</i> Same as Plan 1 and Plan 2.</p>
<p>Disability Coverage</p> <p>For members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.7% on all service, regardless of when it was earned, purchased or granted.</p> <p>Most state employees are covered under the Virginia Sickness and Disability Program (VSDP) and are not eligible for disability retirement.</p>	<p>Disability Coverage</p> <p>For members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted.</p> <p>Most state employees are covered under the Virginia Sickness and Disability Program (VSDP) and are not eligible for disability retirement.</p>	<p>Disability Coverage</p> <p>Employees of political subdivisions and school divisions (including Plan 1 and Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members.</p> <p>State employees (including Plan 1 and Plan 2 opt-ins) participating in the Hybrid Retirement Plan are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.</p>

FIGURE 2.11: MEMBER AND EMPLOYER CONTRIBUTIONS

FOR THE YEARS ENDED JUNE 30

(EXPRESSED IN THOUSANDS)

Fiscal Year	System/Plan	Member Contributions*	Member Contributions Paid By Employer	Employer Contributions*	Total
2015	VRS – State	\$ 199,697	\$ 111	\$ 483,795	\$ 683,603
	VRS – Teacher	347,754	31,127	1,271,816	1,650,697
	VRS – Political Subdivisions	210,904	19,768	536,637	767,309
	Totals VRS	758,355	51,006	2,292,248	3,101,609
	SPORS	5,680	–	28,427	34,107
	VaLORS	17,081	–	62,084	79,165
	JRS	643	2,513	31,560	34,734
2015	Total	\$ 781,759	\$ 53,537	\$2,414,319	\$3,249,615
2014	Total	\$ 725,970	\$ 96,192	\$1,874,806	\$2,696,968

* Member and employer contributions for VRS plans include \$13,194,000 and \$10,464,000, respectively, in Hybrid Defined Contribution Plan contributions. Member and employer contributions for the JRS plan include \$159,000 and \$57,000, respectively, in Hybrid Defined Contribution Plan contributions.

Employer contributions to the VRS cost-sharing pool for teachers represented 14.50% of covered payrolls. Employer contributions for state employees represented 12.33% of covered payrolls. Each political subdivision's contributions ranged from zero (0.00%) to 36.18% of covered payrolls. State employer contributions to SPORS, VaLORS and JRS represented 25.82%, 17.67% and 51.66%, respectively. For state and teacher employers and a small number of political subdivisions, these rates reflected the normal cost and the amortization of a portion of the unfunded actuarial accrued liability of each of the plans based on the June 30, 2013, actuarial valuation and using modified actuarial assumptions. This is discussed further in Note 12. Member contributions for both years represented 5.00% of covered payrolls.

C. EMPLOYERS' NET PENSION LIABILITY – PENSION PLANS

The most recent actuarial valuation to determine the net pension liabilities for the VRS pension plans was prepared as of June 30, 2015. The total pension liability was determined based on an actuarial valuation as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

* Includes inflation at 2.50%.

** Compounded annually.

D. CHANGES IN DISCOUNT RATE

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be based on the actuarially determined rates based on the Board's funding policy, which certifies the required rates under Title 51.1 of the *Code of Virginia* (1950), as amended. Based in those assumptions, the fiduciary net position was projected to be available to make all of the projected future benefit payments of current plan members. Therefore the long-term

expected rate of return on pension plan investments was applied to all periods of the projected benefit payments to determine the total pension liability. In accordance with GASB Statement No. 67, regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the table below presents the employers' net pension liability for each of the plans calculated using the discount rate of 7.00%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is 1.00% lower (6.00%) or 1.00% higher (8.00%) than the current rate.

SCHEDULE OF IMPACT OF CHANGES IN DISCOUNT RATE

AS OF JUNE 30, 2015

(EXPRESSED IN THOUSANDS)

System/Plan	Net Pension Liability		
	1.00% Decrease (6.00%)	Current Discount Rate (7.00%)	1.00% Increase (8.00%)

3. Other Employee and Post-Employment Benefit Plans (OPEBs)

A. PLAN DESCRIPTIONS

The System administers other employee and post-employment benefit plans for active, deferred and retired members of VRS, SPORS, VaLORS and JRS. These plans are the Group Life Insurance Program, the Retiree Health Insurance Credit Program, the Virginia Sickness and Disability Program (VSDP) and the Virginia Local Disability Program (VLDP).

The System also manages the assets of the Line of Duty Act Fund; the Department of Accounts (DOA) administers the benefits and payment of claims under the program.

Contributions and payments for other employee benefit plans for active members occur on a current basis; therefore, the System does not record the net position of these plans and is not required to report their funding progress and employer contributions. However, the System does record

plan net position and reports funding progress and employer contributions for post-employment benefit plans. This information is provided in the Required Supplemental Schedules following the Notes to Financial Statements. Additional information also is presented in the Statistical Section.

1. Group Life Insurance Program. The Group Life Insurance Program is a cost-sharing, multiple-employer plan. Members whose employers participate in the Group Life Insurance Program are covered automatically under the Basic Group Life Insurance Program upon employment. They also are eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program.

Participating employers and covered employees are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute to the cost of group life insurance benefits. Employers may assume employees' contributions. The premium contributions collected during members' active careers, less the amount required to cover current life insurance premiums and claims plus administrative and other expenses, are retained in the Group Life Insurance Advance Premium Deposit Reserve fund the claims for eligible retired and deferred members. Approximately 358,323 active members and 163,482 retirees were covered under the Basic Group Life Insurance Program at June 30, 2015.

For members who elect optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct the premiums from members' paychecks and pay the premiums to the insurer. Premiums are based on members' ages and are approved by the Board of Trustees. Any differences and adjustments are settled between the employer and the insurer. Approximately 66,882 active members and 2,764 retirees were covered under the Optional Group Life Insurance Program at June 30, 2015.

2. Retiree Health Insurance Credit Program. The Retiree Health Insurance Credit Program is an agent, multiple-employer plan. It provides eligible retirees a tax-free reimbursement for health insurance premiums for single coverage under qualifying health plans, including coverage under a spouse's plan, not to exceed the amount of the monthly premium or the maximum credit, whichever is less. Premiums for health plans covering specific conditions are ineligible for reimbursement. Employers are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute to the program. The amount is financed based on employer contribution rates determined by the System's actuary. Approximately 112,053 retirees were covered under the health insurance credit program at June 30, 2015.

3. Virginia Sickness and Disability Program. The Virginia Sickness and Disability Program (VSDP) is a single-employer plan. It provides state employees with sick, family and personal leave and short-term and long-term disability benefits. State agencies are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute to the cost of providing long-term disability benefits and administering the program. Approximately 73,986 members were covered under VSDP at June 30, 2015, and approximately 2,860 former members were receiving benefits from the program during the fiscal year.

4. Virginia Local Disability Program. The Virginia Local Disability Program (VLDP) is composed of two multiple-employer cost-sharing pools, one for teachers and one for employees of political subdivisions. It provides eligible employees with short-term and long-term disability benefits. Local

government employers are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to provide long-term disability benefits for their Hybrid employees, either through a local plan or through VLDP. Approximately 5,666 members were covered under VLDP at June 30, 2015, and there were no former members receiving benefits from the program during the fiscal year.

5. Line of Duty Act Program. A new program in fiscal year 2011, the Line of Duty Act Program is a cost-sharing, multiple-employer plan. It provides death and health insurance reimbursement benefits to eligible state employees and local government employees, including volunteers, who die or become

disabled as a result of the performance of their duties as a public safety officer.

As required by statute, the System is responsible for managing the assets of the program. Participating employers made contributions to the program beginning in fiscal year 2012. The employer contribution rate was determined by the System's actuary using the anticipated program costs and the number of covered individuals associated with all participating employers.

Provisions for other employee benefit and post-employment benefit plans are presented in Figure 2.12.

FIGURE 2.12: OTHER EMPLOYEE BENEFIT AND POST-EMPLOYMENT BENEFIT PLAN PROVISIONS

AS ESTABLISHED BY TITLE 51.1 OF THE *CODE OF VIRGINIA* (1950), AS AMENDED

	Eligible Employees	Coverage
VRS Group Life Insurance Program: Basic Coverage	<p>The VRS Group Life Insurance Program was established July 1, 1960, for state employees, teachers and employees of political subdivisions that elect the program, including the following employers that do not participate in VRS for retirement:</p> <p>City of Richmond, City of Portsmouth, City of Roanoke, City of Norfolk and Roanoke City School Board.</p> <p>Basic group life insurance coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their member contributions and accrued interest.</p>	<ul style="list-style-type: none"> • Natural death benefit equal to the employee's compensation rounded to the next highest thousand and then doubled. • Accidental death benefit, which is double the natural death benefit. • Accidental dismemberment benefit, safety belt benefit, repatriation benefit, felonious assault benefit and accelerated death benefit option. • Continuation of death benefit and accelerated death benefit option for employees who retire or who have met the age and service requirements for retirement upon termination. <p>Coverage begins to reduce by 25% on the January 1 following one calendar year of retirement or termination and reduces by 25% each January 1 until it reaches 25% of its original value.</p> <p>If a member has at least 30 years of creditable service, coverage cannot reduce below \$8,000. This minimum will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation.</p>

FIGURE 2.12: OTHER EMPLOYEE BENEFIT AND POST-EMPLOYMENT BENEFIT PLAN PROVISIONS, cont.

	Eligible Employees	Coverage
<p>Optional Group Life Insurance Program</p>	<p>Employees covered under the VRS Group Life Insurance Program are eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. Employees pay the premiums through payroll deduction.</p> <p>Spousal coverage ends if the employee’s coverage ends or the couple divorce. Coverage for dependent children ends if the employee’s coverage ends or when the children marry, become self-supporting, reach age 21 or reach age 25 as a dependent attending college full time. Coverage continues for dependent unmarried children who are disabled.</p>	<p>The program provides natural death and accidental death or dismemberment coverage:</p> <ul style="list-style-type: none"> • Employees select one, two, three or four times their compensation, not to exceed \$750,000. • Spouses may be covered for up to half the maximum amount of the employees’ coverage, not to exceed \$375,000. Dependent children who are at least 15 days old may be covered for \$10,000, \$20,000 or \$30,000, depending on the option employees select. • Accidental death and dismemberment coverage ends upon retirement. Optional life insurance amounts begin to reduce by 25% based on the retiree’s age, beginning with the retiree’s normal retirement age under his or her plan; coverage ends at age 80. Retirees may elect to continue coverage within 31 days of retirement.
<p>Retiree Health Insurance Credit Program</p>	<p>The Retiree Health Insurance Credit Program was established January 1, 1990, for retired state employees covered under VRS, SPORS, VaLORS and JRS who retire with at least 15 years of service credit. The program was opened to teachers and eligible employees of participating political subdivisions on July 1, 1993. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering a spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree’s death.</p>	

Health Insurance Credit Dollar Amounts at Retirement

	Amount per Year of Service	Maximum Credit per Month*
State employees	\$ 4.00	No Cap
Teachers and other professional school employees	\$ 4.00	No Cap
General registrars and their employees, constitutional officers and their employees and local social service employees	\$ 1.50	\$ 45.00
General registrars and their employees, constitutional officers and their employees and local social service employees, if the political subdivision elects the \$1.00 enhancement	\$ 2.50	\$ 75.00
Other political subdivision employees as elected by the employer	\$ 1.50	\$ 45.00

FIGURE 2.12: OTHER EMPLOYEE BENEFIT AND POST-EMPLOYMENT BENEFIT PLAN PROVISIONS, cont.

**Health Insurance Credit Dollar Amounts at Disability Retirement and for VSDP
Long-Term Disability**

Employees who retire on disability or go on long-term disability under the Virginia Sickness and Disability Program (VSDP) are eligible for the health insurance credit.**

Eligible Employees	Coverage
State employees other than state police officers	\$120 per month or \$4 per year of service credit per month, whichever is higher.
State police officers	Non-work-related disability: \$120 per month or \$4 per year of service credit per month, whichever is higher. Work-related disability: No health insurance credit for premiums qualified under the Virginia Line of Duty Act; may receive the credit for premiums paid for other qualified health plans.
Teachers and other professional school employees	Either (a) \$4 multiplied by twice the amount of service credit per month; or (b) \$4 multiplied by the amount of service earned had the employee been active until age 60 per month, whichever is higher.
Political subdivision employees as elected by the employer	\$45 per month.

* Not to exceed the individual premium amount.

** Not to exceed the individual premium amount. State employees who retire from being on long-term disability under VSDP must have at least 15 years of service credit to qualify for the health insurance credit as a retiree.

FIGURE 2.12: OTHER EMPLOYEE BENEFIT AND POST-EMPLOYMENT BENEFIT PLAN PROVISIONS, cont.

	Eligible Employees	Coverage
<p>Virginia Sickness and Disability Program (VSDP)</p>	<p>VSDP, also known as the Disability Insurance Trust Fund, was established January 1, 1999, to provide short-term and long-term disability benefits for non-work-related and work-related disabilities. Eligible employees are enrolled automatically upon employment. They include:</p> <ul style="list-style-type: none"> • Full-time and part-time permanent, salaried state employees covered under VRS, SPORS and VaLORS (members new to VaLORS following its creation on October 1, 1999, have been enrolled since the inception of VSDP). • State employees hired before January 1, 1999, who elected to transfer to VSDP rather than retain their eligibility to be considered for VRS disability retirement. • Public college and university faculty members who elect the VRS defined benefit plan. They may participate in VSDP or their institution’s disability program, if offered. If the institution does not offer the program or the faculty member does not make an election, he or she is enrolled in VSDP. 	<ul style="list-style-type: none"> • Sick, family and personal leave. • Short-term disability benefit beginning after a seven-calendar day waiting period from the first day of disability. The benefit provides income replacement beginning at 100% of the employee’s pre-disability income, reducing to 80% and then 60%. • Long-term disability benefit beginning after 125 workdays of short-term disability and continuing until the employee reaches his or her normal retirement age. The benefit provides income replacement of 60% of the employee’s pre-disability income. If an employee becomes disabled within five years of his or her normal retirement age, the employee will receive up to five years of VSDP benefits, provided he or she remains medically eligible. • Income replacement adjustment to 80% for catastrophic conditions. • VSDP Long-Term Care Plan, a self-funded program that assists with the cost of covered long-term care services.

Note:

- Employees hired or rehired on or after July 1, 2009, must satisfy eligibility periods before becoming eligible for non-work-related short-term disability coverage and certain income replacement levels.
- A state employee who is approved for VSDP benefits on or after the date that is five years prior to his or her normal retirement date is eligible for five years of VSDP benefits.
- Employees on work-related short-term disability receiving only a workers’ compensation payment may be eligible to purchase service credit for this period if retirement contributions are not being withheld from the workers’ compensation payment. The rate will be based on 5.00% of the employee’s compensation.

FIGURE 2.12: OTHER EMPLOYEE BENEFIT AND POST-EMPLOYMENT BENEFIT PLAN PROVISIONS, cont.

	Eligible Employees	Coverage
<p>Virginia Local Disability Program (VLDP)</p>	<p>VLDP was implemented January 1, 2014, to provide short-term and long-term disability benefits for non-work-related and work-related disabilities. Eligible employees are enrolled automatically upon employment, unless their employer has elected to provide comparable coverage.</p> <p>Eligible employees include:</p> <ul style="list-style-type: none"> • Teacher or other professional employee of a local public school division • General employee of a VRS-participating political subdivision such as a city, county, town, authority or commission • Local law enforcement officer, firefighter or emergency medical technician if the employer does not provide enhanced hazardous duty benefits 	<p>Short-term disability benefit beginning after a seven-calendar day waiting period from the first day of disability. Employees become eligible for non-work-related short-term disability coverage after one year of continuous participation in VLDP with their current employer.</p> <ul style="list-style-type: none"> • Eligibility for work-related short-term disability coverage begins upon employment. • During the first five years of continuous participation in VLDP with their current employer, employees are eligible for 60% of their pre-disability income if they go on non-work-related or work-related short-term disability. Once the eligibility period is satisfied, employees are eligible for higher income replacement levels. • VLDP long-term benefit beginning after 125 workdays of short-term disability. Members are eligible if they are unable to work at all or are working fewer than 20 hours a week. • Members approved for long-term disability will receive 60% of their pre-disability income. If approved for work-related long-term disability, the VLDP benefit will be offset by the workers' compensation benefit. Members will not receive a VLDP benefit if their workers' compensation is greater than the VLDP benefit amount. • Members approved for short-term or long-term disability at age 60 or older will be eligible for a benefit provided they remain medically eligible. • VLDP Long-Term Care Plan, a self-funded program that assists with the cost of covered long-term care services.

FIGURE 2.12: OTHER EMPLOYEE BENEFIT AND POST-EMPLOYMENT BENEFIT PLAN PROVISIONS, cont.

	Eligible Employees	Coverage
Commonwealth of Virginia (COV) Voluntary Group Long-Term Care Insurance Program	<p>The following members between the ages of 18 and 79 are eligible to apply:</p> <ul style="list-style-type: none"> • State employees and public college and university faculty members • Employees of school divisions and political subdivisions whose employers have elected to participate in the program • Vested deferred members and retirees (their employers are not required to have elected the program) • Select family members of eligible members 	<p>The program provides assistance with covered long-term care expenses at group rates. Active members pay the premiums for themselves and any covered family members through payroll deduction or directly to Genworth Life Insurance Company, the insurer, provided the employer has arranged for payroll deductions with Genworth Life. All other participants pay the premiums directly to Genworth.</p>
Line of Duty Act Program	<p>Paid employees and volunteers in hazardous duty positions in Virginia localities, including hazardous duty employees covered under VRS, SPORS and VaLORS.</p>	<p>Coverage provides death and health insurance benefits, which are administered by the Virginia Department of Accounts. The System is responsible for managing the assets of the Line of Duty Act Fund.</p>

SCHEDULE OF FUNDING PROGRESS – OTHER POST-EMPLOYMENT BENEFIT PLANS

AS OF JUNE 30, 2014

(DOLLARS IN MILLIONS)

	Actuarial Value of Assets (a)	Actuarial Liability (AAL) – Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll (b-a)/(c)

* The Virginia Local Disability Program was new effective January 1, 2014, as part of the Hybrid Retirement Plan for eligible non-state employers.

** The Line of Duty Act Program was established and set up as a trust fund effective July 1, 2010. Contributions into the trust fund will be based on the number of participants in the program using a per capita-based contribution versus a payroll-based contribution.

B. FUNDED STATUS AND FUNDING PROGRESS – OTHER POST-EMPLOYMENT BENEFIT PLANS

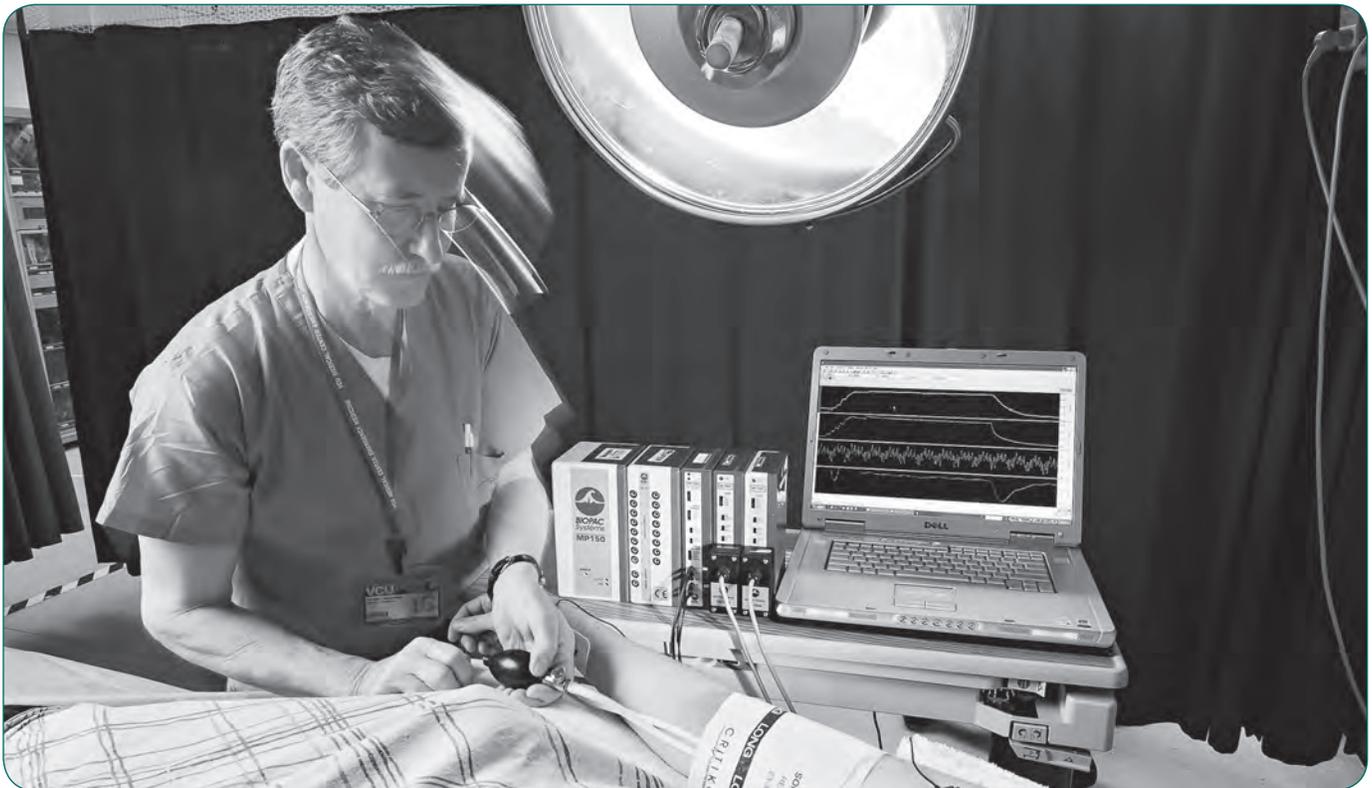

The most recent actuarial valuations prepared for other post-employment benefit plans administered by the System are as of June 30, 2014. Actuarial valuations for these plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The calculations in these actuarial valuations are based on the benefits provided under the terms of the plans as of June 30, 2014, and on the pattern of cost sharing between the employers and plan members at that point. These calculations reflect a long-term perspective. The actuarial methods and assumptions used in these valuations include techniques that are designed to reduce short-term volatility in the actuarial accrued liabilities and the actuarial value of assets.

The Retiree Health Insurance Credit benefit is based on a member's employer eligibility and his or her years of service. The monthly maximum credit amount cannot exceed the member's actual health insurance premium costs. The actuarial valuation for this plan assumes the maximum credit is payable for each eligible member. Because this benefit is a flat dollar amount multiplied by the member's years of service and the maximum benefit is assumed, no assumption relating to health care cost trend rates is needed or applied.

The following schedule presents selected information from that valuation report. Additional information is presented in the Required Supplemental Schedule of Funding Progress – Other Post-Employment Benefit Plans following the Notes to Financial Statements, as well as in the Actuarial Section.

Actuarial methods and assumptions for other post-employment benefit plans are presented in the Actuarial Section. The following schedule presents selected information as of the latest actuarial valuation:

* The amortization period of the Unfunded Actuarial Accrued Liability (UAAL) was a closed 30-year period for the June 30, 2013, balance and closed 20-year period for each subsequent year. The Line of Duty Act Program amortization period is 30 years for the UAAL and two years for the loan.

** Includes inflation at 2.50%. The Line of Duty Act Program uses 4.25% for the investment rate of return and 7.00% for the loan interest.

*** Projected salary increases for the Retiree Health Insurance Credit Fund are used in the application of the actuarial cost method. Projected salary increase factors are not applicable to the Line of Duty Act Program since neither the benefit nor the cost is salary-based.

4. Reserve Accounts

The reserve account balances available for benefits at June 30, 2015 and 2014, are presented in Figure 2.13. These funds are required by Titles 51.1 and 2.2 of the *Code of Virginia* (1950), as amended, to provide for the payment of current and future benefits as follows:

- Member and employer contributions and investment income fund the member and employer reserves. Each member has a member contribution account that accumulates member contributions plus annual interest of 4.00%. Each employer has a retirement allowance account that accumulates employer contributions, transfers of investment income less administrative expenses incurred in operating the retirement plans and transfers of member contributions and accrued interest upon a member's retirement. Benefit payments are charged to employers' retirement allowance accounts.
- The Group Life Insurance Advance Premium Deposit Reserve accumulates a portion of insurance premium contributions collected during members' active careers and their investment earnings, and is charged for life insurance benefits paid and expenses incurred in operating the Group Life Insurance Program.
- Employer contributions and investment income fund the Retiree Health Insurance Credit Reserve. It is charged for credit reimbursements applied to the monthly health insurance premiums of eligible retired members and expenses incurred in operating the Retiree Health Insurance Credit Program.
- Employer contributions and investment income fund the Disability Insurance Trust Fund. It is charged for long-term disability benefits and expenses incurred in operating the Virginia Sickness and Disability Program (VSDP).
- Employer contributions and investment income fund the Line of Duty Act Trust Fund. It is charged for Line of Duty Act death and health insurance benefits and expenses incurred in operating the Line of Duty Act Program.

- Employer contributions and investment income fund the Local Disability Insurance Trust Fund. It is charged for long-term disability benefits and expenses incurred in operating the Virginia Local Disability Program (VLDP). The program was new in fiscal year 2014 and has no net position.

5. Deposits and Investment Risk Disclosures

A. DEPOSITS

Deposits of the System maintained by the Treasurer of Virginia at June 30, 2015 and 2014, as shown in Figure 2.14, were entirely insured under the Virginia Security for Public Deposits Act, Section 2.2-4400 *et seq.* of the *Code of Virginia* (1950), as amended, which provides for an assessable, multiple financial institution collateral pool. Deposits with the System's master custodian, BNY Mellon, were entirely insured by federal depository insurance coverage.

(EXPRESSED IN THOUSANDS)

	2015 Carrying Amount	2014 Carrying Amount
Treasurer of Virginia	\$ –	\$ –
Master Custodian	13,570	444
Total Deposits	\$ 13,570	\$ 444

B. INVESTMENTS

1. Authorized Investments. The Board of Trustees of the System has full power to invest and reinvest the trust funds in accordance with Section 51.1-124.30 of the *Code of Virginia* (1950), as amended. This section requires the Board to discharge its duties solely in the interests of members, retirees and beneficiaries. It also requires the Board to invest the assets with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.

Investment value and earnings of the investment pool are proportionally allocated among the System's trust funds on the basis of each fund's equity interest in the common investment pool. An Investment Summary is included in the Investment Section. The equity interest of each fund as of June 30, 2015 and 2014, is presented in Figure 2.15.

FIGURE 2.15: EQUITY INTERESTS

AT JUNE 30

Fund	2015	2014
Virginia Retirement System	93.88%	93.96%
State Police Officers' Retirement System	1.08%	1.09%

Group Life Insurance Fund	1.77%	1.67%
Retiree Health Insurance Credit Fund	0.25%	0.25%
Disability Insurance Trust Fund (VSDP)	0.60%	0.61%
Virginia Sickness and Disability Program	0.00%	0.00%
Line of Duty Act Trust Fund	0.00%	0.01%
Total Equity Interests	100.00%	100.00%

2. Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The risk is managed within the portfolio using the effective duration or option-adjusted methodology, as shown in Figure 2.16. It is widely used in the management of fixed income portfolios in that it quantifies, to a much greater degree, the risk of interest rate changes. The methodology takes into account optionality on bonds and scales the risk of price changes on bonds depending on the degree of change in rates and the slope of the yield curve. All of the System's fixed-income portfolios are managed in accordance with investment guidelines, most of which are specific as to the degree of interest rate risk that can be taken.

FIGURE 2.16: EFFECTIVE DURATION OF DEBT SECURITIES BY INVESTMENT TYPE

AS OF JUNE 30, 2015

(EXPRESSED IN THOUSANDS)

Cash and Cash Equivalents	745,010	5.90
Total Debt Securities	\$22,064,511	4.75

3. Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the System. As of June 30, 2015, the System’s fixed income assets that are not government guaranteed represented 81% of the fixed income assets.

The System’s policy for credit risk is based on the concept of a risk budget rather than specific limitations related to the rating of an individual security. The System’s risk budget is allocated among the different investment strategies. The System’s fixed income portfolio credit quality and exposure levels as of June 30, 2015, are summarized in Figure 2.17. Credit risk for derivative instruments held by the System results from counterparty risk assumed by the System. This is essentially the risk that the borrower will be unable to meet its obligation. Information regarding the System’s credit risk related to derivatives is provided in Note 5.B.7. Policies related to credit risk pertaining to the System’s securities lending program are provided in Note 5.B.5.

VRS used Moody's ratings for this presentation.

- **Concentration of Credit Risk.** This is the risk of loss that may be attributed to the magnitude of a government's investment in a single issue. The System's investment guidelines for each specific portfolio limits investments in any corporate entity to no more than 5.00% of the market value of the account for both the internally and externally managed portfolios. The System has no investments in any commercial or industrial organization whose market value equals 5.00% or more of the System's net fiduciary position.
- **Custodial Credit Risk.** This is the risk that in the event of the failure of the counterparty, the System will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The System's market value of securities that were uninsured and held by a counterparty at June 30, 2015 and 2014, are presented in Figure 2.18.

Total	\$2,054,294	\$3,007,442

4. Foreign Currency Risk. Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The System's currency risk exposures, or exchange rate risk, primarily exist in the international and global equity investment holdings. From time to time, the System's external managers may hedge their portfolios' foreign currency exposures with currency-forward contracts, depending on their views about a specific foreign currency relative to the U.S. dollar. The System's exposure to foreign currency risk as of June 30, 2015, is highlighted in Figure 2.19.

5. Securities Lending. Under authorization of the Board, the System lends its fixed income and equity securities to various broker-dealers on a temporary basis. This program is administered through an agreement with the System's custodial agent bank. All security loan agreements are collateralized by cash, securities or an irrevocable letter of credit issued by a major bank, and have a market value equal to at least 102% of the market value for domestic securities and 105% for international securities. Securities received as collateral cannot be pledged or sold by the System unless the borrower defaults. Contracts require the lending agents to indemnify the System if the borrowers fail to return the securities lent and related distributions and if the collateral is inadequate to replace the securities lent. All securities loans can be terminated on demand by either the System or the borrowers. The majority of loans are open loans, meaning the rebate is set daily. This results in a maturity of one or two days on average, although securities are often on loan for longer periods. The maturity of loans generally does not match the maturity of collateral investments, which averages 26 days. At year-end, the System had no credit risk exposure to borrowers because the amounts it owes the borrowers exceeded the amounts the borrowers owe the System. All securities are marked to market daily and carried at market value.

The market value of securities on loan at June 30, 2015 and 2014, was \$7,483,719,000 and \$9,233,730,000, respectively. The June 30, 2015 and 2014, balances were composed of U.S. government and agency securities of \$3,074,206,000 and \$3,342,276,000, respectively; corporate and other bonds of \$254,079,000 and \$374,137,000, respectively; and common and preferred stocks of \$4,155,434,000 and \$5,517,317,000, respectively.

The value of collateral (cash and non-cash) at June 30, 2015 and 2014, was \$8,002,941,000 and \$9,734,260,000, respectively. Securities on loan are included with investments on the statement of plan net position. The invested cash collateral is included in the statement of plan net position as an asset and corresponding liability.

At June 30, 2015, the invested cash collateral had a market value of \$3,378,240,000 and was composed of commercial paper of \$375,794,000, certificates of deposit of \$323,022,000, floating rate notes of \$2,103,576,000, asset-backed securities of \$186,000, mutual and money market funds of \$190,181,000 and repurchase agreements of \$385,481,000.

6. Accounts Receivable/Accounts Payable for Security Transactions. In addition to unsettled purchases and sales, accounts receivable and accounts payable for security transactions at June 30, 2015 and 2014, included (1) receivables for deposits with brokers for securities sold short of \$551,183,000 and \$560,665,000, respectively; and (2) payables for securities sold short and not covered with market values of \$478,337,000 and \$518,516,000 respectively.

7. Derivative Financial Instruments. Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates or financial indexes. They include futures, forwards, options and swap contracts. Some traditional securities, such as structured notes, can have derivative-like characteristics. In this case, the return may be linked to one or more indexes and asset-backed securities, such as collateralized mortgage obligations (CMOs), which are sensitive to changes in interest rates and pre-payments. Futures, forwards, options and swaps generally are not recorded on the financial statements, whereas structured notes and asset-backed investments generally are recorded.

The System is a party, directly and indirectly, to various derivative financial investments that may or may not appear on the financial statements and that are used in the normal course of business to enhance returns on investments and manage risk exposure to changes in value resulting from fluctuations in market conditions. These investments may involve, to varying degrees, elements of credit and market risk in excess of amounts recognized on the financial statements.

At June 30, 2015, the System had four types of derivative financial instruments: futures, currency forwards, options and swaps. Futures, currency forwards and options contracts provide the System with the opportunity to build passive benchmark positions, manage portfolio duration in relation to various benchmarks, adjust portfolio yield curve exposure and gain market exposure to various indexes in a more efficient way and at lower transaction costs. Credit risks depend on whether the contracts are exchange-traded or exercised over-the-counter. Market risks arise from adverse changes in market prices, interest rates and foreign exchange rates.

8. Futures. Futures contracts are contracts to deliver or receive securities at a specified future date and at a specified price or yield. Futures contracts are traded on organized exchanges (exchange-traded) and require an initial margin (collateral) in the form of cash or marketable securities. The net change in the futures contract value is settled daily, in cash, with the exchanges. The net gains or losses resulting from the daily settlements are included in the System's financial statements. Holders of futures contracts look to the exchange for performance under the contract and not to the entity holding the offsetting futures position. Accordingly, the amount at risk posed by nonperformance of counterparties to futures contracts is minimal. The notional value of the System's investment in futures contracts at June 30, 2015 and 2014, is shown in Figure 2.20.

FIGURE 2.20: FUTURES

Total Futures	\$ 127,670	\$ (51,051)

9. Currency Forwards. Currency forwards represent foreign exchange contracts and are used by the System to effect settlements and to protect the base currency (\$US) value of portfolio assets denominated in foreign currencies against fluctuations in the exchange rates of those currencies. A forward foreign currency exchange contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated price. The credit risk of currency contracts that are exchange-traded lies with the clearinghouse of the exchange where the contracts are traded. The credit risk of currency contracts traded over the counter lies with the counterparty, and exposure usually is equal to the unrealized profit on in-the-money contracts. The market risk in foreign currency contracts is related to adverse movements in currency exchange rates. Information on the System's currency forwards contracts at June 30, 2015 and 2014, is shown in Figure 2.21.

10. Options. Options may be either exchange-traded or negotiated directly between two counterparties over the counter. Options grant the holder the right, but not the obligation, to purchase (call) or sell (put) a financial instrument at a specified price and within a specified period of time from the writer of the option. As a purchaser of options, the System typically pays a premium at the outset. This premium is reflected as an asset on the financial statements. The System then retains the right, but not the obligation, to exercise the options and purchase the underlying financial instrument. Should the option not be exercised, it expires worthless, and the premium is recorded as a loss.

A writer of options assumes the obligation to deliver or receive the underlying financial instrument on exercise of the option. Certain option contracts may involve cash settlements based on specified indexes such as stock indexes. As a writer of options, the System receives a premium at the outset. This premium is reflected as a liability on the financial statements, and the System bears the risk of an unfavorable change in the price of the financial instrument underlying the option. The notional value of the System's options balances at June 30, 2015 and 2014, is shown in Figure 2.22.

Total Options:	\$ (101)	\$ (303)

11. Swap Agreements. Swaps are negotiated contracts between two counterparties for the exchange of payments at certain intervals over a predetermined timeframe. The payments are based on a notional principal amount and calculated using either fixed or floating interest rates or total returns from certain instruments or indexes. Swaps are used to manage risk and enhance returns. To reduce the risk of counterparty nonperformance, the System generally requires collateral on any material gains from these transactions. During fiscal year 2015, the System had activity in credit defaults, interest rate and total return swaps. Information on the System's swap balances at June 30, 2015 and 2014, is shown in Figure 2.23.

12. Asset Allocation. The long-term expected rate of return on the System's investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target

asset allocation percentage and by adding expected inflation. The target allocations are based on the Strategic Asset Allocation Implementation Schedule and Allowable Ranges document, which was approved by the VRS Board of Trustees on June 20, 2013. Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation for fiscal year 2015 are summarized in Figure 2.24.

FIGURE 2.24: ASSET ALLOCATION

FOR THE YEAR ENDED JUNE 30, 2015

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Average Long-Term Expected Rate of Return
U.S. Equity	19.50%	6.46%	1.26%
Developed Non-U.S Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate-Sensitive Credit	4.50%	3.51%	0.16%
Non-Rate-Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	100.00%		5.83%
	Inflation		2.50%
	* Expected Arithmetic Nominal Return		8.33%

* The above allocation provides a one-year expected return of 8.33%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the pension system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.44%, including expected inflation of 2.50%.

6. Capital Assets

The System's non-depreciable and depreciable capital assets for the year ended June 30, 2015, and the changes by category from the prior fiscal year-end are presented in Figure 2.25.

FIGURE 2.25: PROPERTY, PLANT, FURNITURE, EQUIPMENT AND INTANGIBLE ASSETS

FOR THE YEAR ENDED JUNE 30, 2015

(EXPRESSED IN THOUSANDS)

	Balance June 30, 2014	Increases	Decreases	Balance June 30, 2015
Non-Depreciable Capital Assets:				
Land	\$ 1,368	\$ —	\$ —	\$ 1,368
Construction in progress	534	4,262	—	4,796
Total Non-Depreciable Capital Assets	1,902	4,262	—	6,164
Depreciable Capital and Intangible Assets:				
Building	4,632	—	—	4,632
Furniture and Equipment	6,139	327	—	6,466

Less Accumulated Depreciation:				
Building	1,852	116	—	1,968
Furniture and Equipment	4,566	548	—	5,114
Intangible Assets	6,843	4,463	—	11,306
Total Accumulated Depreciation	13,261	5,127	—	18,388
Total Depreciable Capital Assets – Net	28,525	(4,800)	—	23,725
Total Net Capital Assets	\$ 30,427	\$ (538)	\$ —	\$ 29,889

Depreciation expense amounted to \$5,127,000 and \$5,022,000 in 2015 and 2014, respectively.

7. Operating Leases

The System has commitments under various operating leases for office space and parking. In general, the leases are for a 10-year term. In most cases, the System expects that in the normal course of business, these leases will be replaced by similar leases. Total rental expense for the year ended June 30, 2015, was \$2,574,000. The System's total future minimum rental payments as of June 30, 2015, are presented in Figure 2.26.

8. System Employee Benefit Plan Obligations

All full-time permanent, salaried employees of the System are employees of the Commonwealth of Virginia and included in the Commonwealth's participation as an employer in VRS. The Commonwealth, not the System, has overall responsibility for contributions to the VRS pension trust fund as well as other employee benefit and post-employment benefit trust funds for System employees. The state's pension contribution requirement for general employees was 12.33% for the fiscal year ended June 30, 2015, and 8.76% for the fiscal year ended June 30, 2014.

There were approximately 52,521 state retirees, including System retirees, at June 30, 2015. Note 2.B provides information on the state's contribution toward funding the defined benefit plan for state employees for fiscal year 2015 and fiscal year 2014. The System's contribution requirement for its employees for fiscal year 2015 and fiscal year 2014 was \$3,064,000 and \$2,178,000, respectively.

The System's financial obligations for other employee benefit and post-employment benefit plans were as follows:

- The state's contribution requirement for the Group Life Insurance Program for the years ended June 30, 2015, and June 30, 2014, was 1.19% of covered payroll. There were

FIGURE 2.26: OPERATING LEASES – FUTURE PAYMENTS

AT JUNE 30, 2015	(EXPRESSED IN THOUSANDS)
Year	Amount
2016	\$ 1,308
2017	1,303
2018	1,259
2019	1,301
2020	1,342
2021-2024	5,783
Total Future Minimum Rental Payments	\$12,296

approximately 89,889 active state employees and 49,877 state retirees, including System employees and retirees, eligible for group life insurance coverage at June 30, 2015. The System's contribution requirement for its employees and retirees for fiscal year 2015 and fiscal year 2014 was \$301,000 and \$296,000, respectively.

- The state's contribution requirement for the Retiree Health Insurance Credit Program for the years ended June 30, 2015, and June 30, 2014, was 1.05% and 1.00% of covered payroll, respectively. There were approximately 42,491 state retirees, including System retirees, receiving the health insurance credit at June 30, 2015. The System's contribution requirement for its employees for fiscal year 2015 and fiscal year 2014 was \$265,000 and \$249,000, respectively.
- The state's contribution requirement for the Virginia Sickness and Disability Program (VSDP) for the years ended June 30, 2015, and June 30, 2014, was 0.66% and 0.47% of covered payroll, respectively. There were approximately 73,986 state employees, including System employees, enrolled in VSDP at June 30, 2015. The System's contribution requirement for its employees for fiscal year 2015 and fiscal year 2014 was \$161,000 and \$112,000, respectively. Information regarding the Commonwealth's funding progress is presented in the Commonwealth's Comprehensive Annual

Financial Report. Information about the pension plans is provided in Note 2; information about other employee and post-employment benefit plans is provided in Note 3.

9. Litigation

The System, including its Board of Trustees, officers and employees, is a defendant in claims and lawsuits that are pending, are in progress or have been settled since June 30, 2015. The Attorney General and outside counsel have reviewed the status of these claims, lawsuits and the System's potential liability arising from them. Based on their review, it is the opinion of management that such liability, if any, would have no material adverse effect on the System's financial condition.

10. Risk Management

To cover its exposure to various risks of loss, the System, as an independent agency of the Commonwealth of Virginia, participates in the Commonwealth's self-insurance programs for state employee health care and risk management. The latter program includes property, general (tort) liability, medical malpractice and automobile plans. The System's employees are covered by the Virginia Workers' Compensation Program administered by the Department of Human Resource Management.

In addition, the System is self-insured for fiduciary liability as well as directors' and officers' liability under a program administered by the Commonwealth's Division of Risk Management. There were no claims in excess of coverage and no reductions in coverage during fiscal year 2015 and the three preceding fiscal years.

11. Commitments

The System extends investment commitments in the normal course of business. At June 30, 2015 and 2014, these commitments amounted to \$9,012,604,000 and \$7,251,232,000, respectively.

12. Statutory Contribution Adjustment

For fiscal year 2014, pension contributions due or required were based on the June 30, 2011, actuarial valuation, which used a 10-year funding period for the deferred contributions from fiscal year 2011 and fiscal year 2012 and a 30-year funding period for the balance of the UAAL. The General Assembly, in accordance with Section 51.1-145(K1) of the *Code of Virginia*, funded the employer retirement contribution rates for state employees and teachers at less than the rate determined by the actuary and certified by the VRS Board of Trustees. The percentage of the certified rate funded for fiscal year 2014 was 67.02% for state employees, 69.53% for teachers, 75.84% for SPORS, 75.82% for VaLORS and 83.98% for JRS.

As a result, the fiscal year 2014 employer retirement contribution rate for state employees was reduced from 13.07% to 8.76% and for teachers from 16.77% to 11.66%. Additionally, the employer retirement contribution rates for SPORS, VaLORS and JRS were reduced from 32.62%, 19.52% and 54.11% to 24.74%, 14.80% and 45.44%, respectively. There was no adjustment to the employer contribution rates for political subdivision employers or to the member contribution rate of 5.00%.

For fiscal year 2014, other post-employment benefit plan contributions due or required also were based on the June 30, 2011, actuarial valuation, which used a 30-year funding period for the UAAL. The General Assembly again funded less than the rates determined by the actuary by increasing the investment return assumption from 7.00% to 8.00%. As a result, the fiscal year 2014 rate for the Group Life Insurance Program was reduced from 1.32% to 1.19% and for VSDP from 0.58% to 0.47%. Additionally, for the Retiree Health Insurance Credit Program, the state employer rate was reduced from 1.05% to 1.00% and the teacher employer rate from 1.17% to 1.11%.

There was no adjustment to the Retiree Health Insurance Credit Program employer contribution rates for political subdivision employers.

For fiscal year 2015, pension contributions due or required were based on the June 30, 2013, actuarial valuation, which used an 8-year funding period for the deferred contributions from fiscal year 2011 and fiscal year 2012 and a 30-year funding period for the remaining balance of the UAAL at June 30, 2013. The General Assembly, in accordance with Section 51.1-145(K1) of the *Code of Virginia*, funded the employer retirement contribution rates for state employees and teachers at less than the rate determined by the actuary and certified by the VRS

Board of Trustees. The percentage of the certified rate funded for fiscal year 2015 was 78.02% for state employees, 79.69% for teachers, 83.90% for SPORS, 83.88% for VaLORS and 89.32% for JRS.

As a result, the fiscal year 2015 employer retirement contribution rate for state employees was reduced from 15.80% to 12.33% and for teachers from 18.20% to 14.50%. Additionally, the employer retirement contribution rates for SPORS, VaLORS and JRS were reduced from 30.78%, 21.06% and 57.84% to 25.82%, 17.67% and 51.66%, respectively. There was no adjustment to the employer contribution rates for political subdivision employers or to the member contribution rate of 5.00%.

For fiscal year 2015, other post-employment benefit plan contributions due or required also were based on the June 30, 2013, actuarial valuation, which used a 30-year funding period for the UAAL. The General Assembly again funded less than the rates determined by the actuary by establishing the funding level at 90% of the certified rates. As a result, the fiscal year 2015 rate for the Group Life Insurance Program was reduced from 1.32% to 1.19% and for VSDP from 0.73% to 0.66%. Additionally, for the Retiree Health Insurance Credit Program, the state employer rate was reduced from 1.17% to 1.05% and the teacher employer rate from 1.18% to 1.06%.

There was no adjustment to the Retiree Health Insurance Credit Program employer contribution rates for political subdivision employers or the VLDP employer contribution rates set for teachers and political subdivision employers.

* The June 30, 2006, actuarial valuation was the first prepared using the required parameters of GASB 43.

** Data includes the state-funded Retiree Health Insurance Credit benefit for local employees. Similar information for 2006 is not available so that year has been excluded.

*** Data for 2008 and subsequent years includes the state-funded Long-Term Care (LTC) program. In prior years LTC premiums were paid to an insurance carrier. LTC benefits were paid by the carrier and the program liabilities belonged to the carrier.

**** Fiscal year 2014 was the first actuarial valuation prepared for the Virginia Local Disability Program.

***** Contributions into the Line of Duty Act Trust Fund are based on the number of participants in the program using a per capita-based contribution versus a payroll-based contribution. Fiscal year 2010 was the first actuarial valuation prepared for the Line of Duty Act Trust Fund.

* Contributions made by employers during the fiscal years ended June 30, 2008, through June 30, 2014, were not in all cases in accordance with the actuarially determined Annual Required Contribution (ARC), but they did meet statutory requirements.

** Fiscal year 2011 was the first year for the Line of Duty Act Trust Fund. It was funded by a loan from the Group Life Insurance Trust Fund. As a result, there were not contributions required or paid during the fiscal year. Contributions of \$10,678,000 were recorded for fiscal year 2011; however, VRS did not receive contributions under the program until fiscal year 2012.

***Fiscal year 2014 was the first year for the Virginia Local Disability Program.

1944

YEAR THAT POLITICAL SUBDIVISIONS WERE GIVEN THE OPTION TO JOIN THE VIRGINIA RETIREMENT SYSTEM

105,431

Number of active members in political subdivisions at June 30, 2015

1970

YEAR THAT ENHANCED BENEFITS FOR POLITICAL SUBDIVISION HAZARDOUS DUTY EMPLOYEES WERE ESTABLISHED

22,889

Number of active members at June 30, 2015

Political subdivisions were given the option to join VRS in 1944. In the following years, VRS benefits were expanded to include group life insurance, death-in-service benefits, cost-of-living adjustments, a health insurance credit, severance benefits and a deferred compensation plan. In addition, political subdivision employees in hazardous duty positions became eligible for enhanced coverage in 1970.

In 1999, the Virginia Sickness and Disability Program was established to provide state employees with a managed disability program. The Hybrid Retirement Plan became effective in 2014, as did the Virginia Local Disability Program for political subdivision and school employees covered under the hybrid plan.

December 8, 2015

To: Members of the Board of Trustees and Participants of the Virginia Retirement System

The year ended June 30, 2015, has been a bit of an enigma.

It has been a year of angst in the face of steady albeit not robust growth in Gross Domestic Product (GDP), especially in the U.S. Many have been fearful that the economy has not shown a higher level of growth. My favorite phrase uttered by pundits this past year is that “the economy is moving at stall speed.” Consumers are consuming – but at a modest pace. Capital spending is occurring – but at a pace less robust than normal at this stage of recovery from a severe recession.

With U.S. economic indicators generally positive but at modest readings, the market has also been bi-modal: “a series of panic attacks followed by relief rallies,” to steal a phrase used by Dr. Ed Yardeni, a prominent economist. Last summer, the fiscal year started off on a negative note in the global equity markets. A more benign environment followed during the winter and spring as stocks generated positive but modest returns. Then the fiscal year ended on a flat note. By early September, the slowdown in the Chinese economy had spooked global markets and we saw a 10% correction, followed by a slight recovery in a somewhat weak rally. More thoughts on our economic and market outlook to follow.

PERFORMANCE OVERVIEW

Against the backdrop described above, the VRS total fund generated a return of 4.7% against a benchmark return of 4.2%. This good relative performance has obviously occurred in an environment where investors have seen returns decline from the robust double-digit levels experienced in the previous two years.

Current year returns as well as longer-term performance appear in the table below:

	Annualized Return for Periods Ended June 30, 2015			
	10 Years	5 Years	3 Years	1 Year
VRS Total Fund	6.7%	10.3%	10.6%	4.7%
Benchmark*	6.1%	9.6%	9.9%	4.2%

* The benchmark is an asset class weighted set of indices based on the asset mix policy adopted by the Board of Trustees.

Private market assets were the star performers for the year with real assets (real estate, natural resources and infrastructure) and private equity providing meaningfully higher returns than the traditional stock and bond asset classes. Real assets generated a return for the year of 11.8% – well ahead of its benchmark index return of 9.6%. Within the portfolio, privately held properties and other real assets performed quite well. Returns were hurt slightly by publicly held real estate securities.

Private equity also performed well, generating 8.3% for the year. This return was well ahead of the public equity portfolio return of 5.5%. However, the private equity return did fall short of its target index due to investments in the energy sector and in Europe.

The VRS public equity portfolio generated 5.5% as noted. This level of return was well ahead of the benchmark portfolio return of 3.9%. VRS benefited by strong relative performance in the non-U.S. segment of the portfolio while the U.S. holdings performed well in absolute terms, but lagged the benchmark slightly. A key reason for the overall strong performance was that, unlike private equity, the stock portfolio was underweight in energy exposure compared to the index.

Last year, I commented at some length about the Strategic Opportunities Portfolio (SOP) – a sleeve of the total fund that is earmarked for investments that have a non-traditional focus. The managers in this portfolio manage across multiple asset classes, rather than specialize in a single asset class or investment style. In addition, the SOP seeks managers that tend to look at risk in new and innovative ways. The portfolio is just in the early stages of assembly. But the results for fiscal year 2015 were encouraging. The SOP generated a 2.9% return versus its benchmark index return of 2.4%.

VRS is somewhat unusual compared to its peers in that it has a dedicated credit strategies portfolio, which is separate and distinguishable from the more common “Core Plus” approach in which managers mix investment-grade securities with high-yield bonds and emerging market debt in a single portfolio. Having a dedicated credit portfolio allows VRS to gain exposure to illiquid markets such as direct lending and distressed investments, and also allows the addition of convertible bonds, which are often overlooked in traditional bond portfolios. For fiscal year 2015 the portfolio generated a somewhat meager 1.1% return. This performance equals the benchmark when both returns are rounded to a single decimal point. But the portfolio only narrowly outperformed the index. This past year, many of the same concerns that afflicted the stock market were present in the credit markets, causing the unusual circumstance in which investment-grade credit mandates outperformed the higher-octane credit strategies. Over time, the VRS approach to credit has been quite profitable for the fund as returns have nearly equaled stock investments while outperforming traditional bond investments.

Rounding out the portfolio, fixed income generated a 1.9% return for the fiscal year. This was slightly ahead of the benchmark index, though this outperformance is lost when rounding to the nearest tenth of a percent. It was clearly a difficult time in the bond markets as central bank easing – at least in the U.S. – has come to a halt and most market-watchers are waiting for the Federal Reserve to begin raising interest rates.

In the longer-term (defined as 10 years), all asset classes have outperformed their respective indexes. In most cases, the portfolios also have performed at or above the targeted level of outperformance over the index set by the Board in its policy documents.

A LOOK AHEAD AT MARKETS AND THE ECONOMY

Looking ahead, we see a challenging environment. Europe is in the relatively early stages of its own efforts to deal with the combined economic and credit crisis from a few years ago. China's economic growth is definitely slowing considerably. And in the U.S., Federal Reserve watchers learned that the central bank would not raise interest rates for yet another quarter. All of these factors have the market on edge, as can be seen in the high level of daily volatility experienced in late August and early September.

The recent market sell-off is really, at its core, a reaction to China, the world's second-largest economy. Chinese developments are indeed noteworthy: a stock market bubble has burst and the economy is slowing well beyond what most had predicted. The "known unknowns" (with apologies to Donald Rumsfeld, former secretary of defense) are that China's growth is slowing. But is China facing a slowdown or a hard landing? The resultant pressure on commodity prices is good for consumers on the one hand, but will commodity-producing companies and countries face potential defaults due to revenue declines? This concern, in turn, puts pressure on emerging economies and currencies. Might we experience an emerging markets crisis?

No wonder investors are not in a festive mood. We have had (and may still be having) our panic attack. But is there hope for a relief rally? Consider: China is really a non-factor for U.S. corporate profitability. About 2% of S&P 500 revenues come from China, which leads to this interesting statistic put forth by Goldman Sachs: a 1% drop in the growth of Chinese GDP (a measure of economic health) translates into a .06% drop in U.S. GDP.

The market crashes and credit turmoil in 1998 and 2008, respectively, were really insolvency crises, triggered by enormous piles of debt. Conversely, China is a net creditor, not a debtor. And emerging economies today have sizable U.S. dollar reserves unlike the deficits that were the norm in 1998. The ingredients for a full-blown crisis do not seem to be in place.

Further, optimists will point out the fact that the U.S. economy is moving along nicely, thank you. Forward earnings projections for the S&P 500 rose in the summer. July job openings increased as well. Globally, we look at Europe and see slow growth, yet no serious signs of weakness. The same can be said of Japan, though recent economic releases regarding industrial production have declined a bit, continuing a pattern of economic growth that has come in fits and starts.

September and October are historically bad for the stock market on average. That may be the case again this year. We certainly feel less positive about the environment than we did in our reports to you in recent years. But we do believe that as of this writing, Main Street may be doing better than Wall Street. Therefore, we do not see a reason for panic.

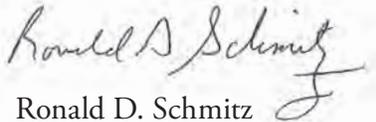

A FINAL THOUGHT

The VRS Board and staff may have what looks to some to be a reasonably aggressive portfolio—given fairly high equity and private market exposure (and correspondingly low investment-grade bond exposure). But we have put together strategies within the asset classes that are somewhat defensive. That is, our goal is to participate in bull-market environments while providing some downside protection in bear markets. That does not mean that we will avoid temporary drawdowns in a negative market. Instead, our market value adjustments should be lower in magnitude than the market, thereby mitigating the impact on funded ratio and future contributions needed to pay for retirement benefits.

Stated another way, the Board has adopted what it believes is the best investment policy that will ensure the long-term health of the retirement system. This means exposure to “risk assets” like stocks. Such assets can and do decline in value in the short term. But in the long run, the return per unit of risk is a good trade-off for employees and employers in the system.

As is normally the case, the Board works with staff and an outside investment consultant and actuary to perform periodic risk-tolerance studies. We last did this in 2012. And we anticipate the start of a new study in late 2015 or early 2016. This effort may or may not alter the Board’s current target investment policy. We will, of course, report to you on that matter in next year’s letter.

Sincerely,

Ronald D. Schmitz
Chief Investment Officer

The Investment Section provides detailed information regarding the structure of the investment portfolio. This information includes performance, asset allocations, portfolio highlights, a list of VRS' money managers and public equity commissions for the fiscal year. The section also presents the System's investment management fees and expenses and an investment summary.

Investment Account

The VRS Board of Trustees has fiduciary responsibility to invest the fund solely in the interest of the beneficiaries of the System. As established by the *Code of Virginia*, "the Board shall invest the assets of the Retirement System with the care, skill, prudence, and due diligence that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with like aims."

Benefit payments are projected to occur over a long period of time, allowing VRS to adopt a long-term investment horizon and asset allocation policy for the management of fund assets. Asset allocation policy is critical because it defines the basic risk and return characteristics of the VRS investment portfolio. Asset allocation targets are established using an asset-liability analysis designed to assist the Board in determining an acceptable volatility target for the fund and an optimal asset allocation policy mix. The asset-liability analysis considers both sides of the VRS balance sheet in order to estimate the potential impact of various asset class mixes on key measures of total plan risk, including the resulting estimated impact on funded status and contribution rates.

The Chief Investment Officer has been delegated authority by the Board to allocate the System's investments within the approved asset allocation policy and within the Board-approved active risk budget. The total fund active risk budget describes the degree of tolerance for yearly variation in the fund's performance relative to the Total Fund VRS Custom Benchmark. The primary risk measure used for this purpose is Total Fund Tracking Error, calculated as the standard deviation of the difference between the fund's return and the return of the Total Fund VRS Custom Benchmark. From this measure, probability estimates can be derived to help the Board estimate the risk of underperforming the benchmark by certain margins.

The investment staff manages the VRS portfolio on a day-to-day basis according to policies and guidelines established by the Board. The staff manages assets on a direct basis and through outside investment managers. Managers employ both active and passive investment strategies. The Board has established various performance benchmarks to serve as tools for measuring progress toward the achievement of long-term investment goals.

The asset allocation mix of the VRS fund as of June 30, 2015, is shown in Figure 3.1:

FIGURE 3.1: ASSET ALLOCATION MIX

AS OF JUNE 30, 2015

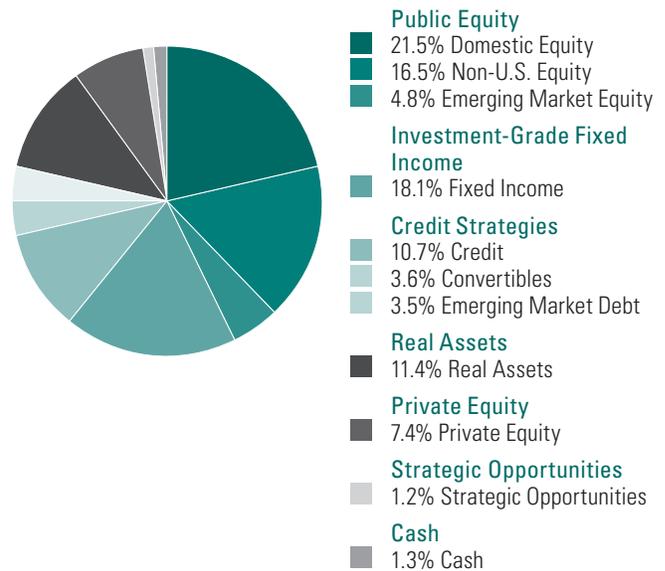

FIGURE 3.2: INVESTMENT PERFORMANCE SUMMARY, cont.

- ¹ The VRS Custom Benchmark is a blend of the Asset Class Benchmarks at policy weights.
- ² Effective July 2009, the Public Equity Custom Benchmark is risk-adjusted. Effective April 2010, the risk-adjusted benchmark is based on the MSCI ACWI IMI Index with the Developed Market Currencies 50% Hedged customized for the VRS dividend withholding tax rates.
- ³ Effective July 2014, the Investment-Grade Fixed Income Custom Benchmark consists of the Barclays Capital U.S. Aggregate Index.
- ⁴ Effective July 2012, the Credit Strategies Custom Benchmark is the weighted average of the Citigroup Broad Investment Grade Index (10%), the Bank of America Merrill Lynch BB-B Constrained Index (20%), the S&P Performing Loan Index (30%), the Emerging Market Debt Custom Benchmark (20%), and the Bank of America Merrill Lynch All U.S. Convertibles Index (20%). For the four years prior to July 2012, the risk-adjusted benchmark is the weighted average of the Bank of America Merrill Lynch U.S. High Yield BB-B Constrained Index and the Bank of America All Convertibles Index.
- ⁵ Effective July 2014, the Real Assets Custom Benchmark is the market value weighted blend of the Total Real Estate Benchmark, of which 85% is the NCREIF Private Real Estate Benchmark (ODCE Index (net) lagged by three months) and 15% is the Total REIT Benchmark (FTSE/EPRA/NAREIT Developed REIT Index) and the Other Real Assets Custom Benchmark (the CPI-U Index plus 400 basis points per annum lagged by three months) with modified benchmarking for Other Real Assets during the increased allocation period.
- ⁶ Effective July 2013, the Private Equity Custom Benchmark is the MSCI ACWI IMI Index with the Developed Market Currencies 50% Hedged customized for the VRS dividend withholding tax rates lagged by three months plus 250 basis points per annum with modified benchmarking during the increased allocation period.
- ⁷ Effective January 2015, the Strategic Opportunities Portfolio Custom Benchmark is the market value weighted average of the benchmarks of the mandates within the program.

Portfolio Highlights

PUBLIC EQUITY

The market value of the Total Public Equity Program, including rebalance equity exposure, as of June 30, 2015, was \$29.1 billion, representing approximately 43% of the total fund. Fifty percent was invested in domestic equity and 50% in international equity. Five percent was invested in passive strategies, and 36% was managed internally. The objective of the portfolio is to exceed the Custom Benchmark over longer-term periods, net of all costs. At fiscal year-end, the Custom Benchmark was comprised of 51.6% of the MSCI U.S. Investible Market Index (IMI), 37.7% of the MSCI World excluding U.S. IMI (50% hedged) and 10.7% in the MSCI Emerging IMI.

The Total Public Equity Program is dominated by traditional, long-only strategies (80.2% of program, or \$23.3 billion). The program also employs traditional long-short strategies (2.0% of program, or \$0.6 billion) and equity-oriented hedge fund strategies (17.7% of program, or \$5.2 billion).

The Total Public Equity portfolio strategic sectors and region weights are as follows:

FIGURE 3.3: CUSTOM BENCHMARK SECTORS AND REGIONS

Strategic Sectors	VRS	Strategic Benchmark	Regions	VRS	Strategic Benchmark
Consumer Discretionary	14.25%	13.10%	North America	55.40%	54.89%
Consumer Staples	8.68%	8.84%	Europe/Middle East/Africa	22.38%	23.98%
Energy	4.59%	6.91%	Asia Pacific	20.60%	19.72%
Financials	21.24%	22.01%	Latin and South America	1.62%	1.41%
Health Care	12.51%	12.08%			
Industrials	12.28%	11.31%		100.00%	100.00%
Information Technology	13.95%	13.78%			
Materials	4.66%	5.59%			
Telecommunication Services	4.33%	3.33%			
Utilities	3.51%	3.05%			
	100.00%	100.00%			

Based on Barra's classification of sectors and regions and excludes cash.

The top 10 holdings in the Total Public Equity Program comprised 6.9% of the program at fiscal year-end.

Four companies, Roche Holdings, Exxon, Samsung Electronics and Hewlett-Packard, were replaced by Comcast Corp., JPMorgan Chase, Valeant Pharmaceuticals and Allergan on this year's schedule.

FIGURE 3.4: PUBLIC EQUITY – TOP 10 EXPOSURES

Aggregated various share classes based on parent company.

FIXED INCOME

VRS invests a portion of its portfolio in fixed income investments to reduce total fund volatility, produce income and provide for some protection in the event of a deflationary environment. The market value of the Fixed Income Program as of June 30, 2015, was \$12.3 billion, representing 18.1% of the total fund.

The Fixed Income Program is internally invested in a diversified portfolio of high-quality assets, such as government securities, corporate securities and mortgage-backed securities. The objective of the program is to exceed the return of the Barclay's U.S. Aggregate Index, while staying in compliance with risk limits. For fiscal year 2015, the return of the program was 1.9% versus a return of 1.9% for the benchmark.

SHORT-TERM INVESTMENTS

Generally, VRS desires to remain fully invested at all times and seeks to minimize its holdings of cash investments. Temporary cash balances are invested in short-term money market instruments with the goal of maintaining high credit quality and liquidity.

PRIVATE EQUITY

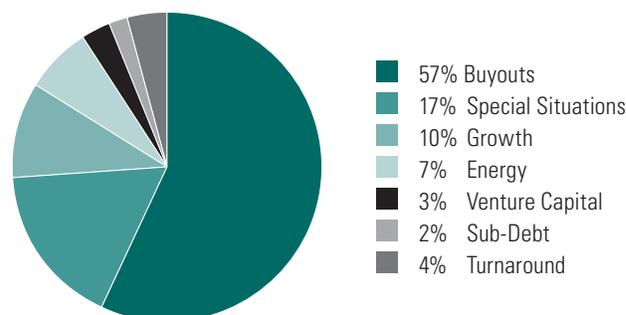

VRS invests in private equity to achieve returns greater than those available in the public equity markets. Specifically, the program seeks to outperform the Morgan Stanley Capital International – All Country World Index (MSCI ACWI) by 2.5% per year. Program returns are calculated on both a time-weighted basis and a dollar-weighted or internal rate-of-return (IRR) basis. On a time-weighted basis, the program return for fiscal year 2015 was 8.3%. On a dollar-weighted or IRR basis, the private equity one-year return was 8.5% as of March 31, 2015.

As of June 30, 2015, the carrying value of the program was approximately \$5.1 billion. Most of the program is invested in limited partnerships. Sectors in which the program invests include leveraged buyouts, venture capital, growth, sub-debt, turnaround, energy and special situations.

The Private Equity Program’s market value by subclass was as follows:

FIGURE 3.8: PRIVATE EQUITY PROGRAM

AS OF JUNE 30, 2015

REAL ASSETS

A portion of the VRS portfolio is invested in real assets to help diversify the total fund by providing exposure to asset classes and sectors that offer low historical correlations with the public markets and with the additional objectives of generating competitive risk-adjusted returns, significant operating cash flows and inflation linkages. The portfolio continued to grow in fiscal year 2015, producing an 11.8% return and outperforming the benchmark by 220 basis points. The private real estate portfolio delivered a 15.6% return while the real estate investment trusts (REITs) produced a

total return of 1.2%. Investments in infrastructure, natural resources and timberland produced a 3.9% return for the fiscal year.

The percentage of the total fund represented by the real assets portfolio increased over the course of the year from 10.5% to 11.4%, due primarily to new fundings as well as asset income and appreciation. At fiscal year-end, the portfolio was composed of approximately 71% private real estate, 10% REITs, 10% infrastructure, 6% timberland, and 3% energy and mining. Portfolio leverage as a percentage of total real assets was 31.6% as of June 30, 2015.

FIGURE 3.9: REAL ASSETS BY SECTOR

AS OF JUNE 30, 2015

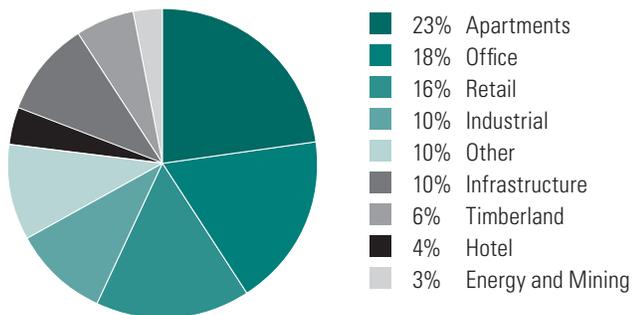

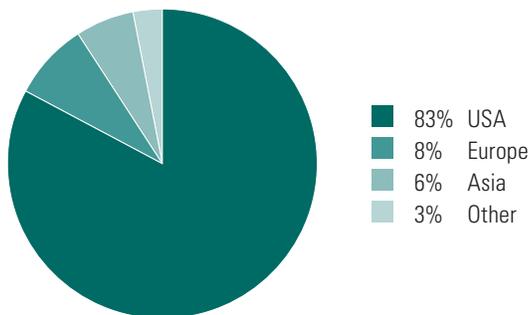

FIGURE 3.10: REAL ASSETS BY GEOGRAPHIC REGION

AS OF JUNE 30, 2015

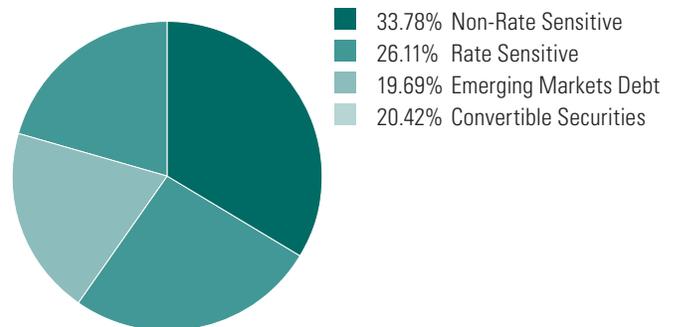

CREDIT STRATEGIES

VRS allocates a portion of the portfolio to credit-related investments. The Credit Strategies program provides an alternative arena for generating attractive returns for the plan. The objectives of the program are to provide attractive returns relative to the Custom Credit Strategies benchmark, to provide higher levels of income and to provide diversification benefits to the plan. For the fiscal year, the program returned 1.1%, while the program's custom benchmark returned 1.1%.

FIGURE 3.11: CREDIT STRATEGIES PROGRAM

AS OF JUNE 30, 2015

STRATEGIC OPPORTUNITIES PORTFOLIO

The Board of Trustees approved the Strategic Opportunities Portfolio on January 1, 2013, to manage strategies that staff believes would add value to the total fund but would otherwise not fit in individual program mandates or benchmarks. As of June 30, 2015, the portfolio had a market value of \$818 million and is invested in two multi-asset class public investments funds, a multi-asset public investments separate account, two multi-asset class private investments funds and a commercial real estate mortgage separate account. During the fiscal year, it returned 2.9% against the program's custom benchmark, which returned 2.4%.

MORE INFORMATION

A complete list of the investment portfolio is available upon request. Address requests to the VRS FOIA Coordinator, Virginia Retirement System, P.O. Box 2500, Richmond, VA 23218-2500.

Description of Hybrid Defined Contribution Plan

Defined contribution plan assets for Hybrid Retirement Plan members are maintained in two separate accounts. The Hybrid 401(a) account contains the hybrid plan member and employer mandatory contributions and the employer match on the voluntary member contributions. The Hybrid Deferred Compensation Plan (457) contains the hybrid plan member's voluntary member contributions. The schedule below shows the assets in each investment option and the accumulated plan assets in each option.

Description of Defined Contribution Plan Investment Options

Participants with the System's Hybrid Retirement Plan benefit structure have access to a number of core investment options for their Hybrid Plan contributions. These options are intended to provide participants with a variety of investment choices while controlling the costs associated with those choices. In addition to the option-specific annual operating expense detailed in the Investment Option Performance Summary, participants pay an annual record-keeping fee of \$30.50 that is deducted from their accounts on a monthly basis (approximately \$2.54 per month). If participants participate in more than one Commonwealth of Virginia plan, then only one annual fee of \$30.50 is applied. At June 30, 2015, the plans provided the following core investment options to plan participants.

DO-IT-FOR-ME FUNDS

Retirement Portfolio: The investment objective of the portfolio is to provide for retirement outcomes consistent with investor preferences throughout the savings and drawdown phase based on quantitatively measured risk that investors, on average, may be willing to accept. In pursuit of that objective, the portfolio will be broadly diversified across global asset classes.

U.S. Bonds—51.3% U.S. Large-Cap Stocks—19.3% International Stocks—10.8%

DO-IT-MYSELF FUNDS

Self-Directed Brokerage Account (SDBA): Allows investors to select from thousands of publicly traded mutual funds, exchange-traded funds (ETFs) and individual securities in addition to the available core investment options. The SDBA option is offered through TD Ameritrade. The SDBA option is for knowledgeable investors who acknowledge and understand the risks and costs associated with the investments contained in this option. In addition to the annual recordkeeping fee and operating expenses, this option is subject to transaction fees charged by TD Ameritrade and investment management related fees and expenses for the funds or investments selected. ICMA-RC charges a \$50 setup fee when a member establishes a SDBA and deducts the fee from the member's ICMA-RC account.

¹ Benchmarks are calculated using blended returns of third-party indices that proportionately reflect the respective weightings of the Portfolios' asset classes. Weightings are adjusted quarterly to reflect the Portfolios' asset allocation shifts over time. Indices currently used to calculate the custom benchmarks are S&P 500 Index, Dow Jones U.S. Completion Total Stock Market Index, MSCI ACWI ex-U.S. IMI Index, Barclays U.S. Aggregate Bond Index, Barclays U.S. Treasury Inflation-Protected Securities Index, FTSE EPRA/NAREIT Developed Index and the Bloomberg Commodity Index Total Return.

² The benchmark represents the hypothetical return generated by the monthly yield of actively traded U.S. Treasuries with a three-year maturity plus an annualized spread of 0.50% and representative of the Fund's expected return profile, given its mandate and book value accounting treatment.

³ Effective July 2012, the performance benchmark is the Russell 2500 Index. Prior to July 2012, the performance benchmark was the Russell Small Cap Completeness Index. The benchmark returns are linked.

⁴ Effective July 2012, the performance benchmark is the MSCI World ex-U.S. Index. Prior to July 2012, the performance benchmark was the MSCI EAFE Index. The benchmark returns are linked.

⁵ Effective July 2012, the performance benchmark is FTSE EPRA/NAREIT Developed Index. Prior to July 2012, the performance benchmark was the Dow Jones U.S. Select REIT Index. The benchmark returns are linked.

⁶ The VRS Custom Benchmark is a blend of the asset class benchmarks at policy weights.

SERVING
THOSE WHO
SERVE
VIRGINIA

The State Police Officers' Retirement System (SPORS) was established in 1950 to provide enhanced hazardous duty coverage to state police officers. The Virginia Law Enforcement Officers' Retirement System (VaLORS) was created in 1999 for state law enforcement officers, other than state police. To serve its growing membership, VRS automated operations, computerized records and expanded communications to include annual benefit statements, counseling, member handbooks and newsletters.

Board of Trustees

Virginia Retirement System
1200 E. Main Street
Richmond, VA 23219

Dear Trustees:

We are pleased to submit the results of the annual actuarial valuation for the following retirement plans administered by the Virginia Retirement System (VRS), prepared as of June 30, 2014:

- State Employees (VRS)
- Teachers (VRS)
- State Police (SPORS)
- Virginia Law Officers (VaLORS)
- Judicial (JRS)

In addition, this report includes information in aggregate on the actuarial valuations of the Political Subdivisions participating in the VRS plan as of June 30, 2014. We have prepared and provided separately, actuarial valuation reports for each of the Political Subdivisions. Please refer to the individual reports for the valuation results, summary of actuarial assumptions and methods, and plan provisions for each of the Political Subdivision plans.

The purpose of this report is to provide a summary of the funded status of the plans administered by VRS as of June 30, 2014, to recommend rates of contribution, and to provide accounting information under Governmental Accounting Standards Board (GASB) Statement No. 27 (GASB 27). While not verifying the data at source, the actuary performed tests for consistency and reasonability.

The valuation results indicate that the employer contribution rates shown in the table on the following page are sufficient to fund the normal cost for all members and finance the unfunded accrued liability of the plans. We also present the expected employer contributions to be actually funded based on the percentage of the full rate adopted by the General Assembly. For comparison, in the table on the following page we present the employer contribution rates based on the June 30, 2014, actuarial valuation, the employer contribution

System	Fiscal Years 2013 & 2014		Fiscal Years 2015 & 2016		Informational Only		
	Board Approved	General Assembly Approved	Board Approved	General Assembly Approved	Full Employer Contribution Rate for Defined Plan	Employer Rate For Hybrid DC Component	Total Employer Contribution Rate Plans
	2011 Valuation		2013 Valuation		2014 Valuation		
State	13.07%	8.76%	15.79%	12.32%	15.14%	0.03%	15.17%
Teachers	16.77%	11.66%	18.19%	14.50%	17.51%	0.01%	17.52%
SPORS	32.62%	24.74%	32.93%	27.63%	29.58%	N/A	29.58%
ValORS	19.52%	14.80%	21.74%	18.24%	20.78%	N/A	20.78%
Judicial	54.11%	45.44%	57.84%	51.66%	53.44%	N/A	53.44%
Political Subdivisions (Average rates)	10.63%	N/A	9.91%	9.91%	8.81%	0.02%	8.83%

rates approved by the General Assembly for fiscal years ending June 30, 2013 and 2014, and the employer contribution rates approved by the General Assembly for the fiscal years ending June 30, 2015 and 2016. Contribution rates for VRS employers are established every two years. The actuarially calculated employer contribution rates based on the June 30, 2014, valuation presented in this report are for informational purposes only. The June 30, 2014, valuation includes Hybrid Retirement Plan members for the first time. In the table on this page we present the employer rate for the defined benefit component of the Hybrid Plan and the average employer rate for the defined contribution component.

The promised benefits of VRS are included in the calculated contribution rates which are developed using the entry age normal cost method. The valuation takes into account the differentiation between Plan 1 vested members, Plan 1 non-vested members as of January 1, 2013, resulting from HB 1130 and SB 498, and Plan 2 members. The June 30, 2014, valuation is the first valuation to reflect the Hybrid Retirement Plan for eligible new hires on or after January 1, 2014, and for members who elected to opt into the Hybrid Plan. Five-year smoothed market value of assets is used for actuarial valuation purposes. Gains and losses are reflected in the unfunded accrued liability. In accordance with the supplemental contribution provision under the 2011 Appropriations Act, Item 469(I)(6), the portion of the unfunded accrued liability with respect to deferred contributions for the 2010-2012 biennium is amortized using a level-dollar, closed, 10-year period beginning June 30, 2011. In accordance with the funding policy adopted by the Board of Trustees in 2013, the balance of the unfunded accrued liability as of June 30, 2013, is being amortized by regular annual contributions as a level percentage of payroll over a closed 29-year period and the change in the unfunded accrued liability for the year ended June 30, 2014, over a closed 20-year period. The amortization of the unfunded liability assumes that payroll will increase by 3% annually and the amortization period will decrease by one year until reaching 0 years. The assumptions recommended by

the actuary and adopted by the Board are in the aggregate reasonably related to the experience under the Fund and to reasonable expectations of anticipated experience under the Fund, and meet the parameters for disclosures under GASB 27.

We have prepared the Schedule of Funding Progress and Trend Information shown in the Financial Section of the Comprehensive Annual Financial Report and all supporting schedules, including the Schedule of Active Member Valuation Data, the Solvency Test and the Analysis of Financial Experience shown in the Actuarial Section of the Comprehensive Annual Financial Report. For completeness, the table of Changes in Unfunded Actuarial Accrued Liabilities in Section VII, the Solvency Test in Schedule A, and the Retiree and Beneficiary Data in Schedule I include the information with respect to the Political Subdivisions participating in VRS.

In addition, the following schedules (or updates to them) were prepared by VRS from information prepared by us during the 2014 and prior actuarial valuations or from supplemental information prepared by us for use in the System's Comprehensive Annual Financial Report. Historical information that references a valuation date prior to June 30, 2008, was prepared by a previous actuarial firm. We have reviewed the following schedules for the periods indicated for inclusion in the System's 2015 Comprehensive Annual Financial Report:

- Schedule of Funding Progress (Fiscal Year 2005)
- Schedule of Employer Contributions (All Years)
- Solvency Test (Fiscal Year 2005-Fiscal Year 2006)
- Schedule of Active Member Valuation Data (Fiscal Year 2005-Fiscal Year 2009)
- Schedule of Retirees and Beneficiaries (All Years)

Our organization has only a contractual relationship with the Virginia Retirement System to provide actuarial consulting services, and we do not provide other services to nor have a financial interest in the Virginia Retirement System. There are no known interests or relationships that our firm has with the Virginia Retirement System that may impair or appear to impair the objectivity of our work.

This is to certify that the independent consulting actuary is a member of the American Academy of Actuaries and has experience in performing valuations for public retirement systems, that the valuation was prepared in accordance with principles of practice prescribed by the Actuarial Standards Board, and that the actuarial calculations were performed by qualified actuaries in accordance with accepted actuarial procedures, based on the current provisions of the System and on actuarial assumptions that are internally consistent and reasonably based on the actual experience of the System.

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

The undersigned are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

The Actuarial Section presents information about the assumptions adopted by the Board of Trustees and used by the VRS actuary to evaluate the funded status of the pension plans. This information includes trend data about retirements, disabilities, terminations and salary increase rates. The section also provides summaries of the provisions of and changes to the pension plans administered by the System.

* Employer-financed portion.

Aggregate Accrued Liabilities are determined under the entry age normal cost method (System-funded method used to determine employer contribution requirements).

The progress of a retirement system in accumulating assets to pay benefits when due can be measured by examining the extent to which assets accumulated for benefits cover 1) active member contributions to the System; 2) liabilities for future benefits to retirees and beneficiaries; and 3) liabilities for the employer-financed portion of service already rendered by active members. In a system receiving actuarially determined employer contributions, the liabilities for member contributions and future benefits to retirees and beneficiaries will generally be fully covered by accumulated assets. In addition, the liabilities for service already rendered will be partially covered by the remainder of the accumulated assets and will increase over time.

* Employer-financed portion.

** Plan-level information is not available for periods prior to 2006.

Aggregate Accrued Liabilities are determined under the entry age normal cost method (System-funded method used to determine employer contribution requirements).

The progress of a retirement system in accumulating assets to pay benefits when due can be measured by examining the extent to which assets accumulated for benefits cover 1) active member contributions to the System; 2) liabilities for future benefits to retirees and beneficiaries; and 3) liabilities for the employer-financed portion of service already rendered by active members. In a system receiving actuarially determined employer contributions, the liabilities for member contributions and future benefits to retirees and beneficiaries will generally be fully covered by accumulated assets. In addition, the liabilities for service already rendered will be partially covered by the remainder of the accumulated assets and will increase over time.

Actuarial Assumptions and Methods

On June 20, 2013, the VRS Board of Trustees adopted most of the actuarial assumptions and methods on the recommendation of its actuary. The assumptions for the pension plans include the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), the Virginia Law Officers' Retirement System (VaLORS) and the Judicial Retirement System (JRS). They were based on an analysis of plan experience for the four-year period July 1, 2008, through June 30, 2012, and were used for the June 30, 2014, valuation.

ACTUARIAL ASSUMPTIONS AND METHODS – PENSION PLANS

FOR THE JUNE 30, 2014, VALUATION

Investment Return Rate: 7.00% per annum, compounded annually, composed of an assumed 2.50% inflation rate and a 4.50% real rate of return. Benefits are assumed to increase annually by 2.50% for Plan 1 retirees and by 2.25% for Plan 2 retirees due to the cost-of-living adjustment (COLA).

Mortality Rates

Pre-Retirement: RP-2000 Employee Mortality Table Projected with Scale AA to 2020:

- State – Males set forward 2 years and females set back 3 years
- Teachers – Males set back 3 years and females set back 5 years
- State Police – Males set forward 5 years and females set back 3 years
- VaLORS – Males set forward 5 years and females set back 3 years
- Judicial – Males set forward 2 years and females set back 3 years
- Political subdivisions, Non-LEOS – Males set forward 4 years and females set back 2 years
- Political subdivisions, LEOS – Males set back 2 years and females set back 2 years

Post-Retirement: RP-2000 Combined Mortality Table Projected with Scale AA to 2020:

- State – Females set back 1 year
- Teachers – Males set back 2 years and females set back 3 years
- State Police – Females set back 1 year
- VaLORS – Females set back 1 year
- Judicial – Females set back 1 year
- Political subdivisions, Non-LEOS – Males set forward 1 year
- Political subdivisions, LEOS – Males set forward 1 year

Post-Disablement: RP-2000 Disability Life Mortality Table:

- State – Males set back 3 years and no provision for future mortality improvement
- Teachers – Males set back 1 year and no provision for future mortality improvement
- State Police – Males set back 3 years and no provision for future mortality improvement
- VaLORS – Males set back 3 years and no provision for future mortality improvement
- Judicial – Males set back 3 years and no provision for future mortality improvement
- Political subdivisions, Non-LEOS – Males set back 3 years and no provision for future mortality improvement
- Political subdivisions, LEOS – Males set back 3 years and no provision for future mortality improvement

FIGURE 4.3: RETIREMENT RATES – PENSION PLANS

Sample rates of retirement for members eligible to retire are shown below.

State Employees

Plan 1

Age	Retirement With Fewer Than 30 Years of Service		Retirement With 30 or More Years of Service	
	Male	Female	Male	Female
50	3.00%	3.20%	10.00%	10.00%
55	5.00%	5.00%	10.00%	10.00%
59	5.00%	5.50%	10.00%	10.00%
60	5.00%	5.50%	10.00%	15.00%
61	10.00%	10.00%	15.00%	20.00%
62	15.00%	15.00%	25.00%	30.00%
64	15.00%	15.00%	20.00%	20.00%
65	30.00%	30.00%	30.00%	40.00%
67	30.00%	30.00%	25.00%	25.00%
>= 70	100.00%	100.00%	100.00%	100.00%

Plan 2 and Hybrid – Males
Years of Service

Age	30	31	33	35	37	39	>= 40
50	0.00%	0.00%	0.00%	0.00%	0.00%	0.00%	35.00%
55	0.00%	0.00%	0.00%	35.00%	10.00%	10.00%	10.00%
59	0.00%	35.00%	10.00%	10.00%	10.00%	10.00%	10.00%
60	35.00%	10.00%	10.00%	10.00%	10.00%	10.00%	10.00%

ADDITIONAL INFORMATION ABOUT ACTUARIAL ASSUMPTIONS AND METHODS – PENSION PLANS

Percent Electing a Refund or Deferred Annuity (excluding JRS Members). Terminating members are assumed to elect a refund of their member contributions and accrued interest or a deferred annuity based on the option any given member would consider most valuable at the time of termination. The deferred annuity, if elected, is assumed to commence at the age at which the member first becomes eligible for an unreduced benefit.

Provision for Expense. The assumed investment return represents the anticipated net rate of return after payment of all administrative expenses.

Asset Valuation Method. The method of valuing assets is intended to recognize a “smoothed” market value of assets. Under this method, the difference between actual return on market value from investment experience and the expected return on market value is recognized over a five-year period. The resulting actuarial value of assets cannot be less than 80% or more than 120% of the market value of assets.

Actuarial Cost Method. The valuation was prepared using the entry age normal actuarial cost method. Under this method, a calculation is made for pension benefits to determine the uniform and constant percentage rate of employer contributions that, if applied to the compensation of the average new member during the entire period of his or her anticipated covered service, would be required in addition to the contributions of the member to meet the cost of all benefits payable on the member’s behalf.

The unfunded actuarial accrued liability is determined by subtracting the current assets and the present value of prospective employer normal contributions and member contributions from the present value of expected benefits to be paid from VRS. The accrued liability contribution amortizes

the balance of the unfunded accrued liability over a period of years from the valuation date.

Actuarial Gains and Losses. Actuarial gains and losses are reflected in the unfunded actuarial accrued liability and are amortized as part of that balance.

Payroll Growth Rates. For state employees, teachers and members of SPORS, VaLORS and JRS, the payroll growth rate is assumed to be 3.00% based on a zero population growth assumption. For political subdivision employees, the payroll growth rate also is assumed to be 3.00% based on a zero population growth assumption.

Funding Period. The legacy unfunded actuarial accrued liability less the deferred contribution as of June 30, 2013, is amortized over a closed 30-year period from June 30, 2013. The amortization period of the unfunded, less the deferred contribution, will decrease by one each year until reaching 0 years. The deferred contribution, as defined under the 2011 Appropriations Act, Item 469(I)(6), is to be amortized using a level-dollar, closed 10-year period beginning June 30, 2011. The actuarial gains and losses and other changes in the unfunded due to benefits and actuarial assumption and method changes for each valuation subsequent to the June 30, 2013, valuation will be amortized over a closed 20-year period.

Cost-of-Living Adjustment (COLA). For Plan 1 employees receiving benefits or vested as of January 1, 2013, the COLA is assumed to be 2.50% per year compounded annually for the Basic Benefit option. The hazardous duty supplement for Plan 1 SPORS members, VaLORS members and political subdivision employees receiving enhanced hazardous duty benefits is assumed to increase at an inflation rate of 2.50% per year compounded annually. For Plan 1 employees who were not vested as of January 1, 2013, Plan 2 employees and Hybrid Plan employees, the COLA is assumed to be 2.25% per year compounded annually.

Summary of Pension Plan Provisions

Retirement Plans

ADMINISTRATION

The Virginia Retirement System (the System) pension Plan 1, Plan 2 and Hybrid Retirement Plan are administered by the Board of Trustees of the System.

TYPE OF PLANS

1. Virginia Retirement System, effective March 1, 1952.

VRS is a qualified governmental pension system that administers two defined benefit structures, Plan 1 and Plan 2, and a Hybrid Plan with a benefit structure that combines both defined benefit and defined contribution features. The Governmental Accounting Standards Board (GASB) defines VRS as an agent multiple-employer public employee retirement system. Covered employees include full-time permanent, salaried state employees; faculty members of the state's public colleges and universities who do not elect to participate in an optional retirement plan; teachers and administrative employees of the state's local public school divisions; and employees of Virginia cities, towns, counties and other political subdivisions that have elected to participate in VRS. Some part-time permanent, salaried state employees also are covered under VRS. VRS has separate cost-sharing pools for state and school employers.

Members are covered under Plan 1, Plan 2 or the Hybrid Plan according to their membership date:

- **Plan 1:** Members hired before July 1, 2010, and who were vested with at least five years of service as of January 1, 2013. These members also include deferred members who have returned to covered employment with service credit in VRS

or an account balance in an optional retirement plan (ORP) authorized or administered by VRS as of June 30, 2010, and members retired under Plan 1 who have returned to covered employment and resumed active membership.

- **Plan 2:** Members hired or rehired between July 1, 2010, and December 31, 2013, and former Plan 1 members who did not have five years of service on January 1, 2013. Members in the State Police and the Virginia Law Officers plans hired on after January 1, 2014.
- **Hybrid Plan:** Members hired on or after January 1, 2014, or Plan 1 and Plan 2 members who elected, during a one-time opt-in period, to be covered under the Hybrid Plan. Employees in positions with hazardous duty benefits are not eligible to participate in the Hybrid Plan and become members of Plan 2.

2. Single-Employer Public Employee Retirement Systems as Defined by GASB. The provisions for the Plan 1 and Plan 2 benefit structures for the following systems are the same as those for VRS:

- State Police Officers' Retirement System (SPORS) established July 1, 1950, for full-time permanent, salaried state police officers.
- Virginia Law Officers' Retirement System (VaLORS) established October 1, 1999, for full-time permanent, salaried Virginia law officers other than state police.
- Judicial Retirement System (JRS) established July 1, 1970, for full-time permanent, salaried state judges and other qualifying employees. Members hired on or after January 1, 2014, are covered under the Hybrid Plan.

MEMBER CONTRIBUTIONS

Member contributions vary by plan.

Defined Benefit: Active members in Plan 1 and Plan 2 contribute 5% of their creditable compensation per year. Active members in the Hybrid Plan contribute 4% of their creditable compensation per year. Contributions paid by employers on behalf of employees are governed by Section 414(h) of the Internal Revenue Code.

Defined Contribution: Active members in the Hybrid Plan are required to contribute 1% of their creditable compensation per year to the defined contribution component of the Hybrid Plan. Active members can make voluntary additional contributions of up to 4% of their creditable compensation.

Members' contribution accounts accrue 4.00% interest each year, calculated on the balance as of the previous June 30.

CREDITABLE COMPENSATION

Creditable compensation is the member's salary reported to VRS by the employer. It does not include payments for overtime, temporary employment, extra duties or other additional payments.

AVERAGE FINAL COMPENSATION

Average final compensation is one of the factors used to calculate the member's retirement benefit.

Plan 1. Average of the member's 36 consecutive months of highest compensation as a covered employee.

Plan 2 and Hybrid Plan. Average of the member's 60 consecutive months of highest compensation as a covered employee.

VESTING

VRS members become vested after accumulating five years of service credit.

SERVICE CREDIT

1. VRS; SPORS and VaLORS Members in Plan 1 and Plan 2; and Hybrid Plan. These members receive one month of service credit for each month they are employed in a covered position and the employer is contributing to the System.

2. JRS Members in Plan 1. Judges appointed or elected before January 1, 1995, receive one month of service credit multiplied by a weighting factor of 3.5 for each month they are employed in a JRS-covered position and the employer is contributing to the System. The weighting factor for judges appointed or elected on or after January 1, 1995, is 2.5.

3. JRS Members in Plan 2 and Hybrid Plan. Judges appointed or elected on or after July 1, 2010, receive one month of service credit multiplied by the following weighting factors for each month they are employed in a JRS-covered position and the employer is contributing to the System: 1.5 for those appointed or elected before age 45; 2.0 for those appointed or elected between the ages 45 and 54; and 2.5 for those appointed or elected at age 55 or older.

PRIOR SERVICE CREDIT

Members may purchase prior service as credit in their plan. Eligible prior service includes active duty military service; full-time salaried federal service; full-time salaried public service with an employer or school system of another state or United States territory, or with a Virginia public employer that does not participate in VRS; non-covered service with a VRS-participating employer; approved leave from a VRS-covered position for the birth or adoption of a child; approved educational leave; unused sick leave at retirement, if the member is eligible; and VRS-refunded service. Members also

can apply for no-cost military leave, provided they are not dishonorably discharged, return to covered employment within one year of discharge and do not take a refund of their member contributions and interest.

Prior service credit counts toward vesting, eligibility for retirement and eligibility for the health insurance credit. Prior service credit for refunded VRS hazardous duty service or for an eligible period of leave while covered under VRS in a hazardous duty position also counts toward the hazardous duty supplement for eligible members, provided they purchase or, in the case of no-cost military leave, are granted this service. Other types of prior service credit, such as active duty military service or hazardous duty service with a non-VRS participating employer, do not count toward the supplement.

Members may arrange to purchase prior service through a lump-sum payment using a personal check, a trustee-to-trustee transfer of funds or a pre-tax rollover of funds; an after-tax payroll deduction contract or a pre-tax salary reduction contract (if the employer offers the pre-tax salary reduction option); or a combination of these methods. Members must be within their eligibility period to use a contract. Other special rules and limits govern the purchase of prior service.

The cost basis and eligibility periods for members are as follows:

VRS Refunded Service, Plan 1 and Plan 2. The cost is 5.00% of compensation or average final compensation at the time of purchase, whichever is higher, multiplied by the number of months to purchase. If the member uses a contract to purchase VRS refunded service, the cost is based on compensation, even if average final compensation is higher. If the member has not purchased VRS refunded service within three years, the cost basis will remain 5.00%, but the member will be required to use a lump-sum payment.

VRS Refunded Service, Hybrid Plan. The cost is 4.00% of compensation or average final compensation at the time of purchase, whichever is higher, multiplied by the number of months to purchase. If the member uses a contract to purchase VRS refunded service, the cost is based on compensation, even if average final compensation is higher. If the member has not purchased VRS refunded service within one year, the cost basis will remain 4.00%, but the member will be required to use a lump-sum payment.

Other Types of Eligible Service, Plan 1. Within the three-year cost window: 5.00% of compensation or average final compensation at the time of purchase, whichever is higher, multiplied by the number of months to purchase. If the member uses a contract to purchase service, the cost is based on compensation, even if average final compensation is higher. After the three-year cost window: Actuarial equivalent rate.

Other Types of Eligible Service, Plan 2 and Hybrid Plan. Within the one-year cost window: Approximate normal cost rate as a percentage of compensation or average final compensation at the time of purchase, whichever is higher, multiplied by the number of months to purchase. If the member uses a contract to purchase service, the cost is based on compensation, even if average final compensation is higher. Normal cost rates vary depending on whether the member is covered under VRS, SPORS, VaLORS or JRS, or employed in a political subdivision position eligible for enhanced hazardous duty coverage. After the one-year cost window: Actuarial equivalent rate.

NORMAL (UNREDUCED) AND REDUCED RETIREMENT ELIGIBILITY AND BENEFIT CALCULATIONS

EARLIEST UNREDUCED RETIREMENT ELIGIBILITY

PLAN 1	PLAN 2 & HYBRID PLAN	BENEFIT CALCULATIONS
VRS: Age 65 with at least five years of service credit, or age 50 with at least 30 years of service credit.	Normal Social Security retirement age with at least five years of service credit or when age and service equal 90. Example: Age 60 with 30 years of service credit.	<ul style="list-style-type: none"> • Plan 1: 1.70% of average final compensation X years of service • Plan 2: 1.65% of average final compensation X years of service • Hybrid Plan: 1.00% of average final compensation X years of service
SPORS, VaLORS and political subdivision hazardous duty employees: Age 60 with at least five years of service credit or age 50 with at least 25 years of service credit.	Plan 2 SPORS, VaLORS and political subdivision hazardous duty employees: Age 60 with at least five years of service credit or age 50 with at least 25 years of service credit. (Hybrid Plan not applicable.)	<ul style="list-style-type: none"> • SPORS, sheriffs and regional jail superintendents: 1.85% of average final compensation for each year of service credit. • VaLORS: 1.70% or 2.00% of average final compensation for each year of service credit as elected by the member. Note: VaLORS members retiring under the 2.00% multiplier are not eligible for the hazardous duty supplement. • Political subdivision hazardous duty employees: 1.70% or 1.85% of average final compensation for each year of service credit, as elected by the employer.
JRS: Age 65 with at least five years of service credit or age 60 with at least 30 years of service credit.	Same as Plan 1.	<ul style="list-style-type: none"> • Plan 1: 1.70% of average final compensation for each year of service credit (if appointed or elected to an original term prior to January 1, 2013. For judges appointed or elected to an original term between January 1, 2013, and December 31, 2013: 1.70% on service prior to January 1, 2013, and 1.65% on service on or after January 1, 2013. • Plan 2: 1.70% of average final compensation for each year of service credit on service prior to January 1, 2013; 1.65% percent on service on or after January 1, 2013. • Hybrid Plan: 1.00% of average final compensation for each year of service credit.

NORMAL (UNREDUCED) AND REDUCED RETIREMENT ELIGIBILITY AND BENEFIT CALCULATIONS

EARLIEST REDUCED RETIREMENT ELIGIBILITY

PLAN 1	PLAN 2 & HYBRID PLAN	BENEFIT CALCULATIONS
VRS: Age 55 with at least five years of service credit or age 50 with at least 10 years of service credit.	Age 60 with at least five years of service credit.	<ul style="list-style-type: none"> Plan 1: For members at least age 55, a reduction of 0.5% per month for the first 60 months of retirement and 0.4% per month for the next 60 months of retirement. The reduction is applied for each month until the member reaches age 65 or, if more favorable to the member, for each month the member's service credit is less than 30 years (less than 25 years for hazardous duty members). For members younger than 55 at retirement, the reduction factor is determined as though the member were 55 is further reduced by multiplying it by a second factor, to reflect a 0.6% reduction for each month retirement precedes age 55.
SPORS, VaLORS and political subdivision hazardous duty employees: Age 50 with at least five years of service credit.	Same as Plan 1.	
JRS: Age 55 with at least five years of weighted service credit.	Same as Plan 1.	<ul style="list-style-type: none"> Plan 2 and Hybrid Plan: Calculated the same as normal retirement benefit, using actual service at retirement and multiplied by an actuarially equivalent reduction factor. No reduction applies if the sum of the member's age and service equals 90.

BENEFIT PAYOUT OPTIONS

VRS members eligible for retirement must elect one of the following benefit payout options when they apply for retirement. This election is irrevocable, except for the Survivor Option under certain circumstances. These options are available on an actuarially equivalent basis:

1. Basic Benefit. Members may choose the Basic Benefit, which is the unreduced benefit amount. An early retirement reduction factor is applied for the reduced benefit. The Basic Benefit does not provide a continuation of a lifetime monthly benefit to a survivor.

2. Survivor Option. Members may choose a whole percentage of their benefit, between 10% and 100%, to continue as a lifetime benefit to a survivor upon their death. The member's benefit is actuarially reduced accordingly.

3. Partial Lump-Sum Option Payment (PLOP). Members who are in active service for one or more years beyond the date they become eligible for an unreduced retirement benefit may elect a partial lump-sum payment of their member contributions and accrued interest equal to one, two or three times their annual retirement benefit, depending on how long they work beyond their unreduced retirement eligibility date. The monthly benefit is actuarially reduced accordingly. This option is available with the Basic Benefit and the Survivor Option.

4. Advance Pension Option. With this option, members elect to receive a temporary higher benefit until at least age 62 up to their normal retirement age under Social Security, as elected by the member. At that point, the monthly benefit is permanently reduced on an actuarially equivalent basis. The benefit can never be reduced by more than 50%.

PAYMENT FORM

The retirement benefit is paid as a lifetime monthly annuity. Upon the member's death in retirement, the member's beneficiary receives a lump-sum payment of any remaining member contributions and accrued interest in the member's account. If the member has elected the Survivor Option, a lifetime monthly benefit is paid to his or her survivor instead of a lump-sum payment.

HAZARDOUS DUTY SUPPLEMENT

An annual supplement is payable to members of SPORS and VRS political subdivision members eligible for enhanced hazardous duty coverage who retire with at least 20 years of eligible hazardous duty service credit. The supplement begins when they retire and continues until they reach their normal retirement age under Social Security. VaLORS members retiring under the 1.70% multiplier who have at least 20 years of eligible hazardous duty service credit receive the supplement beginning when they retire and continuing until age 65; VaLORS members retiring under the 2.00% multiplier are not eligible for the supplement. Vested members hired in eligible hazardous duty positions before July 1, 1974, are not required to have 20 years of hazardous duty service credit to qualify for the supplement, provided they take an immediate annuity.

The supplement is a dollar amount added to the member's monthly retirement benefit payment.

It is adjusted biennially based on increases in Social Security benefits during interim periods, as determined by the VRS actuary.

COST-OF-LIVING ADJUSTMENT (COLA)

The cost-of living adjustment (COLA) is deferred for one full calendar year after the member reaches unreduced retirement age. The deferred COLA does not apply to employees within five years of eligibility for unreduced retirement as of January 1, 2013, and to members who retire with 20 or more years of service. The COLA is effective each July 1 thereafter, when provided. During periods of no inflation or deflation, the COLA is zero (0.00%).

The COLA is calculated based on changes in the Consumer Price Index for all Urban Consumers (CPI-U) as follows:

1. The CPI-U for the most recent calendar year used to determine the VRS COLA is subtracted from the most recent average annual CPI-U to arrive at the index point change.
2. The index point change is divided by the CPI-U for the most recent calendar year in which a COLA was paid.
3. The result is multiplied by 100 to convert it to a percentage.

Under Plan 1, automatic cost-of-living increases are calculated as the first 3.00% of the increase of the CPI-U, plus half of each percentage increase from 3.00% to 7.00%.

Under Plan 2 and the Hybrid Plan, automatic cost-of-living increases are calculated as the first 2.00% of the increase of the CPI-U, plus half of each percentage increase from 2.00% to 4.00%, with a maximum COLA increase of 3.00%.

Refunds and Deferred Membership

1. Refunds. Vested members in Plan 1, Plan 2 and the Hybrid Plan who leave or are involuntarily separated from employment for causes other than job performance or misconduct are eligible for a full refund of their member contribution account balance, including accrued interest. Non-vested members are eligible for a refund of the balance, excluding any employer-paid member contributions made to their accounts after July 1, 2010, and the accrued interest on these contributions.

Hybrid Plan members are also immediately vested to any funds they contribute to the defined contribution component of their plan. They become vested over a four-year period to the funds their employer contributes on their behalf. Members with fewer than two years of creditable service forfeit the employer contributions.

Taking a refund cancels membership and eligibility for any future benefits under the retirement plans. Members who take a refund and return to covered employment will be rehired under the currently applicable plan. They are eligible to purchase their VRS refunded service as credit in their plan.

2. Deferred membership. Members separating from employment have the option to leave their funds with VRS and become deferred members. If they are vested or involuntarily separated from employment, they may be eligible for a future retirement benefit if they meet the age and service requirements for their plan. The benefit is calculated based on the member's service credit and average final compensation at the time of separation. Upon the member's death, the member's beneficiary receives a lump-sum payment of any remaining member contributions and accrued interest. If the member retires and elects the Survivor Option, a lifetime monthly benefit is paid to the survivor upon the member's death.

Deferred members remain eligible to receive a full or partial refund of their member contribution account balance, depending on whether or not they are vested. If a deferred member returns to covered employment, member contributions and the service credit the member earns upon reemployment are added to the member's record.

Death-in-Service Benefit

If a member dies while in active service, his or her named beneficiary or spouse, natural or legally adopted minor child or parent may be eligible for a death-in-service benefit in addition to VRS life insurance benefits, if applicable.

NON-WORK-RELATED CAUSE OF DEATH

If the member dies from a non-work-related cause, the member's named beneficiary will be eligible for a refund of any funds remaining in the member's contribution account. If the member is vested at the time of death and his or her spouse, natural or legally adopted minor child or parent is one of the

member's named beneficiaries or is the beneficiary based on order of precedence, he or she will be eligible for a refund or a monthly benefit to the exclusion of all other primary beneficiaries. Any benefits minor children receive will end when they reach age 18. If the member is not vested at the time of death, his or her spouse, natural or legally adopted minor child or parent will be eligible for a refund only, which will be shared with any other primary beneficiaries the member has designated, if applicable.

The monthly non-work-related benefit is a lifetime monthly annuity based on the 100% Survivor Option. Members covered under Plan 1 who die before age 55 are assumed to be age 55 at the time of death for the purpose of calculating the benefit. The calculation for members covered under Plan 2 and the Hybrid Plan uses age 60. The calculation for Plan 1 and Plan 2 members of SPORS and VaLORS and members of VRS who are eligible for enhanced hazardous duty coverage uses age 50.

WORK-RELATED CAUSE OF DEATH

If the member dies from a work-related cause, the member's named beneficiary will be eligible for a lump-sum payment of any funds remaining in the member's contribution account. In addition, the member's spouse, natural or legally adopted minor child or parent will be eligible for a monthly benefit, whether or not this individual is a named beneficiary.

The monthly work-related benefit is a lifetime monthly annuity based on 33⅓% of the member's average final compensation if the spouse, minor child or parent qualifies for Social Security survivor benefits, or 50% of the member's average final compensation if the spouse, minor child or parent does not qualify for Social Security survivor benefits. The benefit is then adjusted by any workers' compensation survivor benefits.

Disability Benefits

DISABILITY RETIREMENT

Plan 1 and Plan 2 members who are not covered under the Virginia Sickness and Disability Program (VSDP) are eligible to apply for disability retirement from the first day of covered employment if they have a physical or cognitive disability that prevents them from performing their job and is likely to be permanent. Members covered under Plan 1 and Plan 2 who retire on disability before age 60 are credited with the lesser of (1) twice their total service credit at disability retirement; or (2) their total service credit plus the number of years remaining between their age at disability retirement and age 60.

The disability benefit for non-vested members is the minimum guaranteed benefit, which is either (1) 50% of the member's average final compensation (66⅔% if the disability is work-related) if the member does not qualify for primary Social Security benefits; or (2) 33⅓% of average final compensation (50% if the disability is work-related) if the member qualifies for primary Social Security benefits.

Vested members receive the greater of the minimum guaranteed benefit or 1.70% of average final compensation for each year of service credit at the time of disability retirement. The benefit for members retiring on work-related disability is reduced by any workers' compensation benefits. The payout options available to members retiring on disability are the Basic Benefit and Survivor Option.

VIRGINIA SICKNESS AND DISABILITY PROGRAM

The Virginia Sickness and Disability Program (VSDP) was established on January 1, 1999, to provide state employees covered under VRS, SPORS and VaLORS income protection if they

suffer a non-work-related or work-related illness or injury. Enrollment in VSDP is automatic upon employment. State employees hired before January 1, 1999, had the option to elect VSDP or retain their eligibility to be considered for disability retirement. Employees enrolled in VSDP are not eligible to retire on disability. Additional information about VSDP is provided in the "Summary of Other Post-Employment Benefit (OPEB) Plan Provisions" in the next discussion on OPEBs. Additional information also is provided in the Financial Section.

VIRGINIA LOCAL DISABILITY PROGRAM

The Virginia Local Disability Program (VLDP) was implemented January 1, 2014, to provide short-term and long-term disability benefits for non-work-related and work-related disabilities. Eligible employees are enrolled automatically upon employment, unless their employer has elected to provide comparable coverage. Eligible employees include

- Teacher or other professional employee of a local public school division.
- General employee of a VRS-participating political subdivision such as a city, county, town, authority or commission.
- Local law enforcement officer, firefighter or emergency medical technician if the employer does not provide enhanced hazardous duty benefits.

Additional information about VLDP is provided in the "Summary of Other Post-Employment Benefit (OPEB) Plan Provisions" in the next discussion on OPEBs. Additional information also is provided in the Financial Section.

Summary of Pension Plan Changes

The following actuarially material changes have occurred to the pension plan provisions in recent years.

2005 VALUATION: No actuarially material changes are made to the plan provisions. On May 19, 2005, the Board adopts the recommended economic and demographic assumptions proposed by the actuary as a result of the June 2004 actuarial experience study.

2006 VALUATION: No actuarially material changes are made to the plan provisions.

2007 VALUATION: The retirement multiplier for VRS-covered sheriffs and SPORS members changes from 1.70% to 1.85% of average final compensation, effective July 1, 2008.

2008 VALUATION: No actuarially material changes are made to the plan provisions.

2009 VALUATION: No actuarially material changes are made to the plan provisions. There are three changes of note:

1. On April 16, 2009, the Board adopts the recommended economic and demographic assumptions proposed by the actuary as a result of the June 2008 experience study.

2. The temporary retirement supplement for SPORS members, VaLORS members and political subdivision employees eligible for enhanced hazardous duty coverage changes from \$11,508 to \$12,456 annually.

3. For the June 30, 2009, valuation, the Board suspends application of the 80% to 120% market value-of-assets corridor on the actuarial value of assets.

2010 VALUATION: No actuarially material changes are made to the plan provisions. There are two changes of note:

1. For the June 30, 2010, valuation, the application of the 80% to 120% market value-of-assets corridor on the actuarial value of assets is reinstated.

2. The Board reduces the investment rate-of-return assumption from 7.50% to 7.00%.

2011 VALUATION: In 2010, VRS adopts a second retirement plan, Plan 2. All employees hired on or after July 1, 2010, are automatically enrolled in this plan. The differences between Plan 1 and Plan 2 are listed below:

1. Under Plan 2, average final compensation is based on the highest 60 consecutive months of service.

2. The Plan 2 cost-of-living adjustment (COLA) is based on the first 2.00% increase in the Consumer Price Index for all Urban Consumers (CPI-U) plus half of each percent from 2.00% to 10.00%, with a maximum COLA of 6.00%.

3. Under Plan 2, normal retirement age is Social Security normal retirement age with at least five years of service credit. A Plan 2 member is eligible for unreduced early retirement when the sum of his or her age plus service credit is 90 (Rule of 90). Eligibility for reduced early retirement is at age 60 with five years of service credit.

4. Weighted service factors for first-term Plan 2 judges are 1.5 for judges less than age 45; 2.0 for judges age 45-54; and 2.5 for judges age 55 or older.

New general state employees, teachers and general political subdivision employees under VRS are subject to changes 1, 2 and 3 above. New state police officers (SPORS), Virginia law officers (VaLORS) and political

subdivision employees eligible for enhanced hazardous duty coverage (VRS) are subject to changes 1 and 2 above. New employees covered under JRS are subject to changes 1, 2 and 4 above.

2012 VALUATION: In 2012 House Bill 1130/Senate Bill 498 was enacted and was effective on January 1, 2013. The changes resulting from this legislation as listed below:

1. Active non-vested members of Plan 1 have their Average Final Compensation based on the highest 60 consecutive months of service instead of the highest 36 consecutive months of service. This provision applies to all plans.
2. Active non-vested members of Plan 1 and all Plan 2 members accrue benefits at 1.65% as of the effective date. This provision applies to the state and teacher plans and to members in political subdivision plans who are not covered by hazardous duty benefits.
3. Active members in the judicial plan hired after January 1, 2013, accrue benefits at 1.65%.
4. Active non-vested members of Plan 1 have to satisfy the Rule of 90 (sum of age and service at least 90) or reach their Social Security normal retirement age to be eligible for unreduced retirement. These same members must attain age 60 with five years of service to be eligible for early retirement. This provision applies to the state and teacher plans and to members of political subdivision plans who are not covered by hazardous duty benefits.
5. Non-vested members of Plan 1 and all members of Plan 2 have a maximum cost-of-living adjustment (COLA) of 3.00%. This provision applies to all plans.

6. All active employees not within five years of eligibility for an unreduced retirement as of January 1, 2013, and retiring with fewer than 20 years of service have their cost-of-living adjustment (COLA) deferred to one year following their unreduced retirement date after beginning to receive benefits. All active employees within five years of eligibility for unreduced retirement as of January 1, 2013, are grandfathered into the old provisions with no deferral of the COLA.

2013 VALUATION: No actuarially material changes are made to the plan provisions. There are two changes of note:

1. On June 20, 2013, the Board adopts the recommended economic and demographic assumptions proposed by the actuary as a result of the June 2012 experience study.
2. Changes noted in the 2012 valuation information, with effective dates in fiscal year 2013, were implemented.

2014 VALUATION: No actuarially material changes are made to the plan provisions. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The Hybrid Plan covers eligible employees hired on or after January 1, 2014, in the state, teacher and judicial plans or Plan 1 and Plan 2 members who elected, during a one-time opt-in period, to be covered under the Hybrid Plan. The Hybrid Plan does not apply to members in the SPORS and VaLORS plans. The Hybrid Plan consists of defined benefit plan and defined contribution plan components.

October 30, 2015

Board of Trustees

Virginia Retirement System
1200 E. Main Street
Richmond, VA 23219

Dear Trustees:

Governmental Accounting Standards Board Statements No. 43 and 45 (GASB 43 and 45) require actuarial valuations of retiree health care and other post-employment benefit (OPEB) plans. Cavanaugh Macdonald Consulting, LLC (CMC) is submitting the results of the annual actuarial valuation of the Virginia Retirement System (VRS) Group Life Insurance Program, the Health Insurance Credit Program the long-term disability (LTD) benefits payable by the Virginia Sickness and Disability Program (VSDP) and the Virginia Local Disability Program (VLDP) prepared as of June 30, 2014. While not verifying the data at source, the actuary performed tests for consistency and reasonability.

Group Life Insurance Program. This valuation covers only the portion of the Group Life Insurance Program providing benefits for current retirees and active employees upon retirement. This valuation does not value the plan's benefits for members who die while actively employed. Death benefits for active employees are covered under a group life insurance arrangement. The valuation indicates that the Annual Required Contribution (ARC) under GASB 43 and 45 is 0.97% of active covered payroll. Adjusted to include the costs for deaths in active service, the total contribution rate for the plan is 1.31% of active covered payroll. Contribution rates for VRS employers are established every two years. The actuarially calculated employer contribution rates based on the June 30, 2014, results presented in this report are for informational purposes only.

Retiree Health Insurance Credit Program. The valuation indicates that the Annual Required Contribution (ARC) under GASB 43 and 45 is 1.17% of active covered payroll for state employees [including state police (SPORS), judicial employees (JRS), Virginia law officers (VaLORS), Optional Retirement Plan (ORP) participants, and the University of Virginia (UVA) members]; 1.20% of active teachers' payroll; varying percentages of active covered payroll for employees of political subdivisions that have elected to provide this benefit; 0.34% for employees who are eligible for the state-funded benefit for Constitutional Officers and their employees, 0.39% for employees who are eligible for the state-funded benefit for General Registrars and their employees; and 0.40% for employees who are eligible for the state-funded benefit for local Social Services employees. Contribution rates for VRS employers are established every two years. The actuarially

calculated employer contribution rates based on the June 30, 2014, results presented in this report are for informational purposes only.

Virginia Sickness and Disability Program (VSDP). The valuation indicates that the Annual Required Contribution (ARC) under GASB 43 and 45 for long-term disability (LTD) benefits is 0.64% of active covered payroll for members covered by VSDP. Contribution rates for VRS employers are established every two years. The actuarially calculated employer contribution rates based on the June 30, 2014, results presented in this report are for informational purposes only.

Virginia Local Disability Program (VLDP). The valuation indicates that the Annual Required Contribution (ARC) under GASB 43 and 45 for long-term disability (LTD) benefits of applicable members of [participating local public school divisions (teachers) is 0.30% of active covered payroll and 0.59% of active covered payroll for applicable members of participating political subdivisions (Political Subdivisions). Contribution rates for VRS employers are established every two years. The actuarially calculated employer contribution rates based on the June 30, 2014, results presented in this report are for informational purposes only.

The promised post-employment death benefit under the Group Life Insurance Program, the health care benefits under the Retiree Health Insurance Credit Program of VRS, and the long-term disability benefits under VSDP and VLDP are included in the actuarially calculated contribution rates, which were developed using the entry age normal actuarial cost method with projected benefits. The valuation takes into account the differentiation between Plan 1 vested members, Plan 1 non-vested members as of January 1, 2013, resulting from HB 1130 and SB 498, and Plan 2 members. The June 30, 2014, valuation is the first valuation to reflect the Hybrid Retirement Plan for eligible new hires on or after January 1, 2014, and for members who elected to opt into the Hybrid Plan.

Five-year smoothed market value of assets is used for actuarial valuation purposes for the Group Life Insurance Program and the state and teacher components of the Retiree Health Insurance Credit Program. The actual market value of assets is used for actuarial valuation purposes for the political subdivision components of the Retiree Health Insurance Credit Program and for VSDP.

GASB 43 and 45 require that the discount rate used to value a plan be based on the likely return of the assets used to pay benefits. As of June 30, 2014, each of the plans had assets in trust solely to provide benefits to eligible recipients. Therefore, the discount rate has been set at 7.00%. In accordance with the new funding policy adopted by the Board of Trustees, the unfunded accrued liability is being amortized by regular contributions as a level percentage of payroll within a closed 30-year period for the unfunded liability as of June 30, 2013, and gains and losses in subsequent years are amortized within a closed 20-year period, on the assumption that payroll will increase by 3.00% annually and the amortization period will decrease by one year until reaching 0 years. In the event that the funding policy produces an effective amortization period of greater than 30 years, a 30-year amortization period is used in accordance with GASB 43 and 45.

The assumptions recommended by the actuary are in the aggregate reasonably related to the experience under each of the Plans and to reasonable expectations of anticipated experience under each of the Plans, and meet the parameters for the disclosures under GASB 43 and 45.

The liability associated with long-term care (LTC) benefits for VSDP was calculated by Milliman. In addition, all historical information that references a valuation date prior to June 30, 2008, was prepared by a previous actuarial firm.

The following schedules (or updates to them) were prepared by VRS from information prepared by us during the 2014 actuarial valuation or from supplemental information prepared by us for use in the System's Comprehensive Annual Financial Report. We have reviewed them for inclusion in the 2015 Comprehensive Annual Financial Report:

- Schedule of Funding Progress
- Schedule of Actuarial Methods and Significant Assumptions
- Schedule of Employer Contributions
- Schedules of Selected Experience Rates

Our organization has only a contractual relationship with the Virginia Retirement System to provide actuarial consulting services and we do not provide other services to nor have a financial interest in the Virginia Retirement System. There are no known interests or relationships that our firm has with the Virginia Retirement System that may impair or appear to impair the objectivity of our work.

This is to certify that the independent consulting actuary is a member of the American Academy of Actuaries and has experience in performing valuations for public retirement systems; that the valuations were prepared in accordance with principles of practice prescribed by the Actuarial Standards Board; and that the actuarial calculations were performed by qualified actuaries in accordance with accepted actuarial procedures, based on the current provisions of the individual Plans and on actuarial assumptions that are internally consistent and reasonably based on the actual experience of the System and the individual Plans.

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: Plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in Plan provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

Board of Trustees

Virginia Retirement System
1200 E. Main Street
Richmond, VA 23219

Dear Trustees:

Purpose

This report presents the required disclosures to comply with the Government Accounting Standards Board (GASB) No. 43 based on the results of the June 30, 2014, actuarial valuation of the self-funded long-term care (LTC) benefits provided to the Virginia Sickness and Disability Program (VSDP) and Virginia Local Disability Program (VLDP) eligible members. This benefit program is an employer-paid self-funded plan. The funding for this plan is a percent of payroll determined by the Board to sustain both the active and ported group long-term care benefits.

VLDP is a new managed disability program for political subdivision and school division employees who are in the Hybrid Retirement Plan that went into effect on January 1, 2014. Employees had a one-time opportunity to opt out and provide the same managed disability coverage either through self-insurance or from another provider; 201 local employers opted to participate in VLDP. All members of the Hybrid Retirement System employed by participating entities are covered by VLDP, with the exception of hazardous duty employees whose employers have opted for enhanced benefits. As a participant in VLDP, members are covered automatically under the VLDP Long-Term Care Plan. Members pay no cost for this coverage while they are employed in a VLDP-covered position and have the option to continue coverage upon termination from a VRS-covered position. The employers' contributions for VLDP members began to be made as of January 1, 2014, and are accumulated in the same fund as the LTD contributions for VLDP members.

This report determines the funded status of the program under the parameters of GASB Statement No. 43 and calculates the annual required contribution sufficient to fund the program's normal cost, amortize any unfunded legacy liability over a period of 29 years (for valuation years, fiscal years 2010-2013), and amortize new unfunded liability as of June 30, 2014, over a period of 20 years. Please note that the valuations for fiscal years 2007-2009 used amortization periods of 29, 28, and 27 years respectively. We have used this method to amortize the gain/loss over the past year for this valuation. The results of this report apply to the plan's fiscal year ending June 30, 2014.

Liabilities and Costs

Section II of this report provides the results of the calculations of liabilities and annual required contributions of the program under the Unit Credit Cost Method. The Actuarial Liability represents the present value of long-term care benefits allocated to the service of active participants performed up to the valuation date. The unfunded actuarial accrued liability equals the difference between the total actuarial accrued liability and the value of the assets accumulated for the future payment of the benefits. The normal cost represents the annual ongoing cost of the post-retirement benefits accruing to active participants.

The required level of funding for the LTC program is 0.117% of payroll from each participating employer. This contribution funds both current employee and future retiree benefits. This is the seventh valuation to determine the actuarial accrued liabilities and GASB Statement No. 43-compliant required funding necessary to fund the retiree long-term care benefits.

Changes made in this year's valuation were for the following items, which are described in detail in the July 1, 2014, valuation report.

- Update to the fiscal year 2014 census (which now includes VLDP-eligible members),
- Adjustment to termination rates, and
- Adjustment to the claim selection factors.

This work product was prepared solely for VRS for the purposes described herein and may not be appropriate to use for other purposes. Milliman does not intend to benefit and assumes no duty or liability to other parties who receive this work.

Actuarial Methods and Assumptions

The methods and assumptions are those used in the July 1, 2014, actuarial valuation of the self-funded long-term care benefit that is part of the VSDP and VLDP programs. The methods and assumptions used herein comply with the parameters specified by GASB Statement Nos. 43 and 45.

Valuation Results and Supplemental Information

The following schedules (or updates to them) were prepared by VRS from information prepared by us during the 2014 actuarial valuation or from supplemental information prepared by us for use in the System's Comprehensive Annual Financial Report. We have reviewed them for inclusion in the 2015 Comprehensive Annual Financial Report:

- Schedule of Funding Progress
- Schedule of Actuarial Methods and Significant Assumptions
- Schedule of Employer Contributions
- Schedules of Selected Experience Rates

Limitations

In preparing this report, we relied, without audit, on information provided by VRS. This information includes, but is not limited to, benefit provisions, benefit payments, employee data, and financial information. In our examination of these data, we found them to be reasonably consistent and comparable with data used for other purposes. Since the valuation results are dependent on the integrity of the data supplied, the results can be expected to differ to the extent that the underlying data are incomplete or missing. It should be noted that if any data or other information is inaccurate or incomplete, our calculations may need to be revised.

Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions used in this valuation. It is certain that actual experience will not conform exactly to the assumptions used in this valuation. Actual liability amounts will differ from projected amounts to the extent that actual experience deviates from expected experience.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements; and changes in plan provisions or applicable law.

Milliman's work product was prepared exclusively for VRS for a specific and limited purpose. It is a complex technical analysis that assumes a high level of knowledge concerning the plan's operations, and uses data which Milliman has not audited. It is not for the use or benefit of any third party for any purpose. Any third party recipient of Milliman's work product who desires professional guidance should not rely upon Milliman's work product, but should engage qualified professionals for advice appropriate to its own specific needs. Any distribution of this report must be provided in its entirety unless prior written consent is obtained from Milliman.

The consultants who worked on this assignment are pension and health actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

The signing actuaries are independent of the plan sponsor. We are not aware of any relationship that would impair the objectivity of this work.

Certification

On the basis of the foregoing, I certify that, to the best of my knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with Actuarial Standards of Practice, the Code of Professional Conduct and Qualification Standards for Public Statements of Actuarial Opinion of the American Academy of Actuaries. I am a member of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein.

Best regards,

Board of Trustees

Virginia Retirement System
1200 E. Main Street
Richmond, VA 23219

Dear Trustees:

Government Accounting Standards Board Statements No. 43 and 45 (GASB 43 and 45) require the actuarial valuations of retiree health care and other post-employment benefit (OPEB) plans. Cavanaugh Macdonald Consulting, LLC (CMC) is submitting the results of the annual actuarial valuation of the Virginia Retirement System (VRS) Line of Duty Act Fund (the Plan) prepared as of June 30, 2014.

CMC has relied on the plan provisions and eligibility provisions provided by the Commonwealth of Virginia's Line of Duty Act Program (LODA Program) provided by §9.1-400 of the *Code of Virginia* (Code) and Item 264 of the 2014 Appropriations Act (the Act). Additionally, CMC has received active participant data from the Virginia Retirement System (VRS) and inactive data provided by the Commonwealth of Virginia's Department of Accounts (DOA). CMC has reviewed the data for reasonableness only, and has not performed a formal audit of the data used for this valuation. Because the census data was collected from a wide range of sources with varying and, at times, limited content, the data is incomplete. Adjustments have been made to account for this incompleteness. Along with the valuation results, commentary is provided regarding the various aspects of developing the cost structure for LODA Program benefits to be financed through the Plan.

The valuation results are provided on a blended, single group cost basis comprised of two individual segments of the total population: state employees and political subdivision employees. State employees include state employees, Virginia law officers (VaLORS), state police (SPORS), Department of Motor Vehicles (DMV) employees, and members of the National Guard. Political subdivision employees include Emergency Medical Technicians (EMTs), fire personnel and employees performing hazardous duties in political subdivisions within VRS, as well as one retirement system independent of VRS.

Projections estimate annual Full-Time Equivalent (FTE) employee contributions for the fiscal year 2016 to be \$528.40. The estimated contribution rate assumes plan participation of 11,796.20 state FTE employees and 7,423.25 political subdivision FTE employees for a total of 19,219.45 FTE employees. The contribution

3550 Busbee Pkwy, Suite 250, Kennesaw, GA 30144
Phone (678) 388-1700 • Fax (678) 388-1730
www.CavMacConsulting.com

rate represents, in total, the estimated cost of providing benefits payable in fiscal year 2016, including administrative expenses; the cost of benefits incurred and reported to the administrator but awaiting processing (additional reserves); and the final loan installment to repay the LODA Program's costs financed via loans from the Group Life Insurance Program. Contribution rates for participating employer groups are established every two years. Based upon the June 30, 2013, valuation results, the Board approved a rate for fiscal years 2015 and 2016 of \$518.84. The results of the June 30, 2014, valuation are for informational purposes only.

The results provided do not account for the potential, long-term incurred but not reported claims resulting from a lack of employer or beneficiary education about the Plan's benefits. The potential cost and liability for these claims may be considerable. A margin for these costs may need to be considered. Additionally, the State Comptroller may want to consider this potential risk in regards to its authority to waive the five-year statute of limitation on claims.

The promised death benefits and post-employment health care benefits provided through the plan are included in all of the actuarially estimated contribution rates. The Plan is a cost-sharing, multiple-employer plan, and the liability for the Plan is developed and reported, as a whole, under the requirements of GASB Statement No. 43. The measurement of the cost-sharing employers' OPEB expense and liabilities under GASB Statement No. 45 is based upon the employers' contractually required contributions to the Plan. The actuarially calculated contribution rates based upon the requirements of GASB 43 and 45 were developed using the entry age normal cost method with projected benefits. As the Act requires contributions to be determined on a current disbursement basis, the Plan has minimal assets in trust solely to provide benefits, and GASB 43 and 45 requires that the discount rate used to value a plan be based on the likely return of the assets held in trust to pay benefits, the GASB 43 and 45 valuation results provided in this report reflect a discount rate of 4.75%. The assumed annual rate of return of 4.75% is assumed to be consistent with the long-term rate of return for Virginia's Local Government Investment Pool (LGIP). The unfunded accrued liability is being amortized by regular annual contributions as a level percentage of payroll within a 30-year period on the assumption that payroll will increase by 3.00% annually. The assumptions recommended by the actuary are in the aggregate reasonably related to the experience under the Plan and to reasonable expectations of anticipated experience under the Plan, and meet the parameters for disclosures under GASB 43 and 45.

Additionally, assumptions and methods specific to the valuation of the Plan were made, including adjustments to the percentage of death benefit payments made as direct or proximate result of the performance of duty, the assumed per capita health care costs, the assumed rates of health care inflation, and a change in the methodology used to determine additional reserves.

The following schedules (or updates to them) were prepared by VRS from information prepared by us during the 2014 actuarial valuation or from supplemental information prepared by us for use in the System's Comprehensive Annual Financial Report. We have reviewed them for inclusion in the 2015 Comprehensive Annual Financial Report:

- Schedule of Funding Progress
- Schedule of Actuarial Methods and Significant Assumptions
- Schedule of Employer Contributions
- Schedules of Selected Experience Rates

Our organization has only a contractual relationship with the Virginia Retirement System to provide actuarial consulting services and we do not provide other services to nor have a financial interest in the Virginia Retirement System. There are no known interests or relationships that our firm has with the Virginia Retirement System that may impair or appear to impair the objectivity of our work.

This is to certify that the independent consulting actuary is a member of the American Academy of Actuaries and has experience in performing valuations for public retirement systems, that the valuation was prepared in accordance with principles of practice prescribed by the Actuarial Standards Board, and that the actuarial calculations were performed by qualified actuaries in accordance with accepted actuarial procedures, based on the current provisions of the Plan and on actuarial assumptions that are internally consistent and reasonably based on the actuarial experience of the VRS. The aggregate assumptions recommended by the actuary are reasonably related to the experience under the Plan and are reasonable expectations of anticipated experience under the Plan.

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: potential variance in the number and/or type of covered lives; Plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the Plan's funded status); and changes in Plan provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

Respectfully submitted,

Chief Health Actuary

The Actuarial Section for VRS-administered Other Post-Employment Benefit (OPEB) Plans presents information about the assumptions adopted by the Board of Trustees and used by the VRS actuaries to evaluate the funded status of these plans. This information includes assumptions about retirements, disabilities, terminations and salary increase rates. The section also provides a summary of OPEB plan provisions and changes.

Summary of Actuarial Assumptions and Methods

On June 20, 2013, the VRS Board of Trustees adopted most of the actuarial assumptions and methods on the recommendation of its actuary. The following assumptions include the Group Life Insurance Program, the Retiree Health Insurance Credit Program, the Virginia Sickness and Disability Program, the Virginia Local Disability Program and the Line of Duty Act Program. They were based on an analysis of plan experience for the four-year period July 1, 2008, through June 30, 2012, and were used for the June 30, 2014, valuation.

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS – OTHER POST-EMPLOYMENT BENEFIT (OPEB) PLANS

* Employer-financed portion.

** State employees include state, SPORS, JRS, VaLORS, ORP and University of Virginia.

*** Data for prior fiscal years is unavailable.

The progress of a plan in accumulating assets to pay benefits when due can be measured by examining the extent to which assets accumulated for benefits cover 1) any active member contributions to the plan; 2) liabilities for future benefits to retirees and beneficiaries; and 3) liabilities for the employer-financed portion of service already rendered by active members. In a plan receiving actuarially determined employer contributions, the liabilities for future benefits to retirees and beneficiaries will generally be fully covered by accumulated assets. In addition, the liabilities for service already rendered will be partially covered by the remainder of the accumulated assets and will increase over time.

* State employees include state, SPORS, JRS, VaLORS, ORP and University of Virginia.

** Details of retirees added to and removed from the rolls was not available for these periods.

*** Data for prior fiscal years is unavailable.

FIGURE 4.7: RETIREMENT RATES – OPEB PLANS

Sample rates of retirement for members eligible to retire are shown below. For the Retiree Health Insurance Credit, 95% of the state employees, teachers, state police officers, Virginia law officers and judges who retire with 15 or more years of service will utilize the benefit. For all political subdivision employees, 85% of the employees with 15 or more years of service will utilize the benefit.

State Employees

FIGURE 4.11: EMPLOYMENT TERMINATION RATES – LONG-TERM CARE

The termination rates used for the long-term care plan valuation differ from those used for other valuations, particularly at the older ages. For example, whereas other valuations assume a 100% retirement rate by age 70 for all categories of employees, this is not the case for long-term care, which is typically accessed at older ages. Since termination rates are a critical and sensitive set of assumptions for the valuation of the long-term care benefit, a more detailed age by employment duration grid of termination rates appropriate for this purpose was developed.

FIGURE 4.11: EMPLOYMENT TERMINATION RATES – LONG-TERM CARE, cont.

Current Assumption: Selected Employment Turnover Assumptions by Hire Age and Accrued Service

		Employment Duration (years) – Females				
Hire Age	0	10	20	30	40	
20	0.553	0.121	0.030	0.056	0.099	
30	0.289	0.057	0.022	0.085	0.242	
40	0.273	0.043	0.041	0.239	0.333	
50	0.244	0.042	0.215	0.264	0.355	
60	0.253	0.174	0.247	0.362	0.565	
70	0.387	0.204	0.371	0.572	0.800	

		Employment Duration (years) – Males				
Hire Age	0	10	20	30	40

60	0.215	0.160	0.267	0.342	0.316	
70	0.209	0.195	0.244	0.300	0.277	

FIGURE 4.12: PORTING RATES – LONG-TERM CARE

Porting rates represent the probability that an individual will choose to port the coverage upon employment termination. Porting rates are assumed to increase with longevity because the contributions for terminated employees are based upon the age at which they started the program (either 2002 or age at hire, if later).

Current Selected Policy Porting Rate Assumptions by Policy Issue Age and Policy Duration

		Policy Duration (years)				
Issue Age	0	10	20	30	40	
30	0.1000	0.1234	0.2185	0.4537	0.7574

- Political subdivisions, Non-LEOS – Males set back 3 years and no provision for future mortality improvement
- Political subdivisions, LEOS – Males set back 3 years and no provision for future mortality improvement

Provision for Expense. The assumed investment return represents the anticipated net rate of return after payment of all administrative expenses.

Asset Valuation Method. For the Group Life Insurance Program, the state and teacher employer groups for the Retiree Health Insurance Credit Program, VSDP and VLDP, the method of valuing assets is intended to recognize a “smoothed” market value of assets. Under this method, the difference between actual return on market value from investment experience and the expected return on market value is recognized over a five-year period. The resulting actuarial value of assets cannot be less than 80% or more than 120% of the market value of assets. For the Line of Duty Act Program and the political subdivision employer groups in the Retiree Health Insurance Credit Program or employees who are eligible for the state-funded benefit for Constitutional Officers and their employees, General Registrars and their employees and local Social Services employees, the actuarial value of assets is equal to the market value of assets.

Actuarial Cost Method. For the Group Life Insurance, Retiree Health Insurance Credit Programs, VSDP, VLDP and the Line of Duty Act Program, the normal contribution is determined using the entry age normal method. Under this method, a calculation is made for the cost of benefits to determine the uniform and constant percentage rate of the employer contribution which, if applied to the compensation of the average new member during the entire period of the member’s anticipated covered service, would meet the cost of all benefits payable on the member’s behalf. The unfunded accrued liability is determined by subtracting the

current assets and the present value of prospective employer normal contributions from the present value of the expected benefits to be paid. The accrued liability contribution amortizes the balance of the unfunded accrued actuarial liability (UAAL) over a period of years from the valuation date.

Actuarial Gains and Losses. Actuarial gains and losses are reflected in the unfunded actuarial accrued liability and are amortized as part of that balance.

Payroll Growth Rates. The payroll growth rate is assumed to be 3.00% based on a zero population growth assumption.

Funding Period. For all programs, the amortization of the legacy UAAL began at 30 years on June 30, 2013, and this amortization period is to decrease by one year on each subsequent valuation date until the legacy UAAL is fully amortized (amortization period is 0 years). With each subsequent valuation, a new amortization base will be used to amortize that portion of the UAAL not covered by the current balances of the previously established amortization bases. Here, each valuation's newly allocated share of the UAAL will be amortized over a closed 20-year period. In the event this funding policy produces an effective amortization period of greater than 30 years, a 30-year amortization period for the aggregate UAAL is used in accordance with GASB 43 and 45.

Summary of Other Post-Employment Benefit Plan Provisions

Group Life Insurance Program

ADMINISTRATION

The plan is administered by the Board of Trustees of the Virginia Retirement System (the System). Contributions received are held in trust. Payments are made to the Minnesota Life Insurance Company as reimbursement for the payment of life insurance proceeds to the beneficiaries.

An addition to the contribution requirement for the active member benefit provides for the retiree death benefit. The active portion of the contribution is

used to purchase group term life insurance from an insurance company; the retired member portion is held in a trust until required for benefit payments. When a covered retiree dies, the Minnesota Life Insurance Company pays the insurance claim and then collects a premium equal to the cost of the claim.

The retired member contribution is determined actuarially. The Board sets administrative policy and determines the allocation of the assets held for investment.

ELIGIBILITY

The following employees are covered under the Group Life Insurance Program upon employment:

- Full-time permanent, salaried employees of the Commonwealth of Virginia, including state employees, faculty members of the state's public colleges and universities, state police officers (SPORS), Virginia law officers (VaLORS) and judicial employees (JRS);
- Full-time permanent, salaried teachers and other administrative employees of local public school divisions;
- Full-time permanent, salaried sheriffs, deputy sheriffs and other eligible non-hazardous duty and hazardous duty employees of political subdivisions that have elected to participate in the Group Life Insurance Program; and
- Employees of five localities that do not participate in VRS for retirement: City of Richmond, City of Portsmouth, City of Roanoke, City of Norfolk and Roanoke City School Board.

Certain members who were employed at the time of initial coverage under the Group Life Insurance Program had the option to decline coverage.

ACTIVE MEMBER BENEFIT

Active members are covered for the following benefits:

- Natural death benefit equal to the member's compensation rounded to the next highest thousand and then doubled
- Accidental death benefit, which is double the natural death benefit

- Accidental dismemberment benefit, safety belt benefit, repatriation benefit, felonious assault benefit and an accelerated death benefit option

Covered employees may elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. Optional group life benefits are not included in the valuations of the OPEB plans.

RETIREE BENEFIT

1. Service Retirement. A death benefit equal to the active member’s natural death benefit and the accelerated death benefit option continue for retirees and for deferred members who have met the eligibility requirements for retirement upon leaving employment. Coverage begins to reduce by 25% on the January 1 following one calendar year of retirement and by 25% each January 1 thereafter, until it reaches 25% of its original value. If a member has at least 30 years of creditable service, that coverage cannot reduce below \$8,000. The minimum will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation.

2. Disability Retirement. The benefits available to disability retirees are the same as those for service retirees, except that the first 25% annual reduction begins on the January 1 following the first full year from the date the retiree reaches normal retirement age.

Retiree Health Insurance Credit Program

ADMINISTRATION

The plan is administered by the System’s Board of Trustees. Contributions received are held in trust. The Board sets administrative policy and determines the allocation of the assets held for investment.

ELIGIBILITY

The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against the portion of qualified health insurance premiums retirees pay for single coverage. The credit cannot

exceed the amount of the premium and ends upon the retiree’s death.

If a member has worked for more than one employer under VRS, SPORS, VaLORS or JRS, for the purpose of this valuation, the most current (or last) employer assumes the full liability for that employee.

CREDIT AMOUNTS

The dollar amounts vary depending on the employee type, as shown in the following table:

Health Insurance Credit Dollar Amounts at Retirement

ELIGIBLE EMPLOYEES	AMOUNT PER YEAR OF SERVICE	MAXIMUM CREDIT PER MONTH
State employees	\$ 4.00	No Cap
Teachers and other administrative school employees	\$ 4.00	No Cap
General registrars and their employees, constitutional officers and their employees and local social service employees	\$ 1.50	\$45.00
General registrars and their employees, constitutional officers and their employees and local social service employees, if the political subdivision elects the \$1.00 enhancement	\$ 2.50	\$75.00
Other political subdivision employees as elected by the employer	\$ 1.50	\$45.00

Virginia Sickness and Disability Program (VSDP)

ADMINISTRATION

The plan is administered by the System’s Board of Trustees. Contributions received are held in trust. The Board sets administrative policy and determines the allocation of the assets held for investment.

ELIGIBILITY

The following state employees are covered automatically under the Virginia Sickness and Disability Program (VSDP) upon employment:

- Full-time permanent, salaried employees of the Commonwealth of Virginia (VRS) and part-time permanent, salaried state employees who work at least 20 hours a week;
- Public college and university faculty members who elect to participate in VRS instead of an optional retirement plan. These faculty members can elect VSDP or a disability plan offered by their institution;
- Full-time permanent, salaried state police officers (SPORS); and
- Full-time permanent, salaried Virginia law officers other than state police (VaLORS).

State employees hired before January 1, 1999, had the option to elect VSDP or retain their eligibility to be considered for disability retirement.

SHORT-TERM AND LONG-TERM DISABILITY BENEFITS

VSDP coverage provides short-term and long-term disability benefits for non-work-related and work-related illnesses and injuries. Eligible members who become disabled receive short-term disability benefits for up to 125 workdays, following a seven-calendar day waiting period from the first day of disability. Members who are still disabled after 125 workdays are evaluated for long-term disability. Members hired or rehired on or after July 1, 2009, must satisfy eligibility periods for non-work-related disability coverage and certain income replacement levels.

The long-term disability benefit provides income replacement equal to 60% of the member's pre-disability income. While members are on long-term disability, they are not considered employees of the Commonwealth of Virginia. Members who can work at least 20 hours a week but cannot perform their full duties may be eligible for long-term disability benefits while working. They must have returned to work with modified duties while on short-term disability.

The long-term disability benefit is adjusted by any salary, wages, workers' compensation benefits or other disability payments the member receives for the same condition. If a member's condition becomes catastrophic, income replacement will increase to 80% of pre-disability income for as long as the condition is considered catastrophic. A disability is determined to be catastrophic if a member is unable to perform at least two of a specified list of activities of daily living without assistance.

Long-term disability benefits end if the member can perform the full duties of his or her pre-disability position without any restrictions during the first 24 months of disability; can perform the regular duties of any job for which the member is reasonably qualified after 24 months of disability and earning 80% or more of his or her pre-disability income; takes a refund of his or her member contributions and interest; does not cooperate or comply with the requirements of VSDP; or begins receiving a VRS service retirement benefit. Benefits also end in the event of the member's death.

VSDP LONG-TERM CARE PLAN

VSDP plan members are eligible for no-cost long-term care coverage under the VSDP Long-Term Care Plan. The plan provides a two-year maximum coverage period with a maximum \$96-per-day daily benefit for nursing home care and other covered services. The benefit of many of the other services is less than the nursing home benefit, which means those needing these services will take longer to reach their lifetime maximum amount, resulting in longer coverage duration.

Benefits begin after 90 days from the date the member is certified by a licensed healthcare professional as eligible for benefits. The benefit schedule includes the possibility of an increase for inflation every five years in the amount of 5.00% compounded annually since the last inflation increase. Since such increases are not pre-funded, they are accompanied by a corresponding increase in contributions. Upon retirement or termination from employment, VSDP plan members may elect to continue their long-term care coverage by paying the premiums.

Virginia Local Disability Program (VLDP)

ADMINISTRATION

The plan is administered by the System's Board of Trustees. Contributions received are held in trust. The Board sets administrative policy and determines the allocation of the assets held for investment.

ELIGIBILITY

The following state employees are covered automatically under the Virginia Local Disability Program (VLDP) upon employment:

- Full-time permanent, salaried Hybrid Retirement Plan employees of participating local public schools divisions (Teachers); and
- Full-time permanent, salaried Hybrid Retirement Plan employees of participating political subdivisions.

SHORT-TERM AND LONG-TERM DISABILITY BENEFITS

VLDP coverage provides short-term and long-term disability benefits for non-work-related and work-related illnesses and injuries. Eligible members who become disabled receive short-term disability benefits for up to 125 workdays, following a seven-calendar day waiting period from the first day of disability. Members who are still disabled after 125 workdays are evaluated for long-term disability.

The long-term disability benefit provides income replacement equal to 60% of the member's pre-disability income. While members are on long-term disability, they are not considered employees. Members who can work at least 20 hours a week but cannot perform their full duties may be eligible for long-term disability benefits while working. They must have returned to work with modified duties while on short-term disability.

The long-term disability benefit is adjusted by any salary, wages, workers' compensation benefits or other disability payments the member receives for the same condition. If a member's condition becomes catastrophic, income replacement will increase to 80% of pre-disability income for as long as the condition is considered catastrophic. A disability is determined to be catastrophic if a member is unable

to perform at least two of a specified list of activities of daily living without assistance.

Long-term disability benefits end if the member can perform the full duties of his or her pre-disability position without any restrictions during the first 24 months of disability; can perform the regular duties of any job for which the member is reasonably qualified after 24 months of disability and earning 80% or more of his or her pre-disability income; takes a refund of his or her member contributions and interest; does not cooperate or comply with the requirements of VLDP; or begins receiving a VRS service retirement benefit. Benefits also end in the event of the member's death.

VLDP LONG-TERM CARE PLAN

VLDP plan members are eligible for no-cost long-term care coverage under the VSDP Long-Term Care Plan. The plan provides a two-year maximum coverage period with a maximum \$96-per-day daily benefit for nursing home care and other covered services. The benefit of many of the other services is less than the nursing home benefit, which means those needing these services will take longer to reach their lifetime maximum amount, resulting in longer coverage duration.

Benefits begin after 90 days from the date the member is certified by a licensed healthcare professional as eligible for benefits. The benefit schedule includes the possibility of an increase for inflation every five years in the amount of 5.00% compounded annually since the last inflation increase. Since such increases are not pre-funded, they are accompanied by a corresponding increase in contributions. Upon retirement or termination from employment, VLDP plan members may elect to continue their long-term care coverage by paying the premiums.

Line of Duty Act Program

ADMINISTRATION

The plan is administered by the System's Board of Trustees. Contributions received are held in trust. The Board sets administrative policy and determines the allocation of the assets held for investment.

ELIGIBILITY

Members of SPORS and VaLORS as well as members of VRS who are eligible for enhanced hazardous duty coverage are covered under the Line of Duty Act. Paid employees and volunteers in hazardous duty positions in all VRS-participating and non-VRS participating localities also are covered under the act.

BENEFITS

Coverage provides death and health insurance benefits, which are administered by the Virginia Department of Accounts (DOA). The System is responsible for managing the assets of the Line of Duty Act Fund.

Summary of OPEB Plan Changes

The following changes have occurred to the OPEB plan provisions.

2009 VALUATION: No actuarially material changes are made to the plan provisions. There are two changes of note:

1. On April 16, 2009, the Board adopts the recommended economic and demographic assumptions proposed by the actuary as a result of the June 2008 actuarial experience study.
2. For the June 30, 2009, valuation, the Board suspends application of the 80% to 120% market value-of-assets corridor on the actuarial value of assets for the Group Life Insurance Program and the Retiree Health Insurance Credit Program.

2010 VALUATION: No actuarially material changes are made to the plan provisions. There are two changes of note:

1. For the June 30, 2010, valuation, the application of the 80% to 120% market value-of-assets corridor on the actuarial value of assets is reinstated.
2. The Board reduces the investment rate-of-return assumption for the Group Life Insurance Program, the Retiree Health Insurance Credit Program and the Virginia Sickness and Disability Program (VSDP) from 7.50% to 7.00%.

2011 VALUATION: No actuarially material changes are made to the plan provisions.

2012 VALUATION: The changes resulting from recent legislation are listed below:

1. Under House Bill 791, effective July 1, 2012, the life insurance amount reduction start date for disabled retirees

was changed to January 1 following the first full year from the date the retiree reaches normal retirement age.

2. In 2012 House Bill 1130/Senate Bill 498 was enacted and was effective on January 1, 2013, requiring active non-vested members of Plan 1 have to satisfy the Rule of 90 (sum of age and service at least 90) or reach their Social Security normal retirement age to be eligible for unreduced retirement. These same members must attain age 60 with five years of service to be eligible for early retirement. This provision applies to the state and teacher plans and to members of political subdivision plans who are not covered by hazardous duty benefits. In addition, state employees on long-term disability (LTD) are assumed to receive cost-of-living adjustments to their LTD benefits in an amount of 2.25% per year, compounded annually.

3. Benefit offset adjustments for VSDP were adjusted to reflect actual VRS experience.

2013 VALUATION: No actuarially material changes are made to the plan provisions. There are two changes of note:

1. On June 20, 2013, the Board adopts the recommended economic and demographic assumptions proposed by the actuary as a result of the June 2012 experience study.
2. Changes noted in the 2012 valuation information, with effective dates in fiscal year 2013, were implemented.

2014 VALUATION: No actuarially material changes are made to the plan provisions. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The Hybrid Plan covers eligible employees hired on or after January 1, 2014, in the state, teacher and judicial plans or Plan 1 or Plan 2 members who elected during a one-time opt-in period, to be covered under the Hybrid Plan. The Hybrid Plan does not apply to members in the SPORS and VaLORS plans. The Hybrid Plan consists of defined benefit plan and defined contribution plan components.

SERVING THOSE WHO SERVE VIRGINIA

The Judicial Retirement System (JRS) was created in 1970 for Virginia's judges, just as VRS began a decades-long period of growth. As the first public pension system in the United States to create a website, VRS recognized the importance of technology-supported customer service, in addition to personal service through the Customer Call Center. In 2006, the agency began a long-range modernization effort to provide members and retirees secure online access to their accounts through myVRS. Today, VRS continues to enhance its technology and retirement planning offerings in its quest to better serve those who serve Virginia.

The Statistical Section presents detailed historical information regarding the pension and other employee benefit plans administered by the System. This information includes a 10-year analysis of changes in plan net position, plan enrollment, contributions, plan additions and deductions, benefits and refunds. In addition, this section provides information regarding retirees and an analysis of funding, enrollment and investment activity related to the Commonwealth of Virginia 457 Deferred Compensation Plan and the Virginia Cash Match Plan. The Statistical Section also lists the employers as of the end of the fiscal year.

*The General Assembly suspended employer contributions for all state employees, SPORS, VaLORS and JRS for April, May and the first half of June 2010 and for teachers for the entire fourth quarter of fiscal year 2010.

**The General Assembly funded contribution rates for all state employee groups and teachers significantly below those certified by the Board of Trustees for fiscal year 2011. For fiscal year 2012, the funding for all state employee groups remained at low levels for the first three quarters of the year.

Retirement Benefit Payout Options

Basic Benefit. The Basic Benefit is based on the unreduced (normal) retirement benefit calculation. It does not provide for a continuation of a benefit to a survivor. Upon the member's death, any remaining member contributions and accrued interest are paid in a lump sum to the member's beneficiary.

Partial Lump-Sum Option Payment (PLOP). Members who are in active service for one or more years beyond their eligibility for an unreduced retirement benefit are eligible to elect a partial lump-sum payment of their member contributions and accrued interest equal to one, two or three times their annual retirement benefit, depending on how long they work beyond their unreduced retirement eligibility. The monthly benefit is actuarially reduced accordingly. This option is available with the Basic Benefit or Survivor Option.

Survivor Option. Members may choose a whole percentage of their benefit, between 10% and 100%, to continue as a lifetime benefit to a survivor upon their death. The member's benefit is actuarially reduced accordingly.

Advance Pension Option. With this option, members elect to receive a temporary higher benefit until at least age 62 up to their normal retirement age under Social Security, as elected by the member. At that point, the monthly benefit is permanently reduced on an actuarially equivalent basis.

June 2010	2,564	\$ 1,738	\$ 779
June 2009**	2,428	\$ 1,714	\$ 797

*The net monthly benefit reflects adjustments for Social Security, workers' compensation and other offsets.

**Fiscal year 2009 was the first year that this data was available.

Line of Duty*

Line of Duty Death Benefits**			Health Insurance Benefits		
Year Ended June 30	LOD Death	Presumptive LOD Death	Year Ended June 30	Number of Active Claims	Average Annual Health Insurance Benefit
2015	—	3	2015	525	\$ 15,198
2014	3	2	2014	573	\$ 12,725
2013	2	3	2013	552	\$ 10,807
2012	4	4	2012	781	\$ 12,298
2011***	6	11	2011	801	\$ 11,138

*The Line of Duty Program was funded by a trust fund beginning in fiscal year 2011. In that year and fiscal year 2012 employers had the option to opt-out and self-fund the benefits provided by the program. Data for fiscal year 2011 and fiscal year 2012 are not representative of the program's expected activity going forward.

**The Line of Duty Program provides a \$100,000 death benefit for an eligible individual whose death was a direct or proximate result of the performance of duty. The program also provides a \$25,000 death benefit for certain individuals whose death arose out of their employment or was within five years of the date of retirement.

***Fiscal year 2011 was the first year that this data was available.

VRS-Participating Employers

More than 800 employers participate in the Virginia Retirement System (VRS) on behalf of their employees. Employers include state agencies, public colleges and universities, school divisions and political subdivisions.

The following employers were participating in VRS as of June 30, 2015:

PARTICIPATING POLITICAL SUBDIVISIONS: 455

*A: retirement only B: retirement and group life insurance C: retirement, group life insurance and retiree health insurance credit
D: retirement and retiree health insurance credit*

**Commonwealth of Virginia 457 Deferred Compensation and Cash Match Plans
Program With Oversight by VRS**

PLAN OVERVIEW

The Commonwealth of Virginia 457 Deferred Compensation Plan is qualified under Section 457(b) of the Internal Revenue Code and regulated by Title 51.1, Chapter 6, of the *Code of Virginia*. The 457 Deferred Compensation Plan provides eligible

members a way to save for retirement through deferrals of compensation each pay period.

The Cash Match Plan is qualified under Section 401(a) of the Internal Revenue Code and is regulated by Title 51.1, Chapter 6, of the *Code of Virginia*. Employees participating in the Deferred

Compensation Plan are eligible to receive an employer-provided contribution to the Cash Match Plan if they are state employees or employees whose employers have elected the Cash Match Plan.

The Virginia Retirement System (the System) has oversight but no investment responsibility for the Deferred Compensation and Cash Match Plans. These plans' assets, therefore, are not included in the System's Basic Financial Statements.

FIGURE 5.15: STATEMENT OF CHANGES IN PLAN ACCUMULATION ASSETS

FOR THE YEARS ENDED JUNE 30

	Deferred Compensation Plan – 457(b)		Cash Match Plan – 401(a)	
	2015	2014	2015	2014
Plan Assets on July 1	\$ 2,026,875,362	\$ 1,741,845,322	\$ 353,287,941	\$ 302,484,937
Contributions	129,961,846	129,879,195	17,164,370	17,654,309
Distributions	(110,690,633)	(103,153,207)	(21,481,259)	(18,281,127)
Plan Transfers*	8,627,066	2,044,169	10,355,268	10,613,093
Third-Party Administrative Fees**	(2,382,686)	(2,328,590)	(64,692)	(290,504)
Period Earnings	61,960,569	258,588,473	10,564,168	41,107,233
Plan Assets on June 30	\$ 2,114,351,524	\$ 2,026,875,362	\$ 369,825,796	\$ 353,287,941

*For the Deferred Compensation Plan, this represents plan transfers from other eligible Section 457(b) plans into the Commonwealth's Plan. For the Cash Match Plan, this represents transfers from other qualified plans, including Partial Lump-Sum Option Payments (PLOPs) for the VRS pension plans.

**The current third-party administrator, ICMA-RC, is compensated based on an annual record-keeping and communication fee of \$30.50 per participant deducted on a monthly basis (approximately \$2.54 per month). Participants with multiple accounts only pay one annual fee of \$30.50. In addition, administrative costs were incurred by VRS for each of the plans. For the Deferred Compensation Plan, they were \$786,307 and \$676,533 in fiscal year 2015 and fiscal year 2014, respectively. For the Cash Match Plan, they were \$482,115 and \$474,645 in fiscal year 2015 and fiscal year 2014, respectively. These costs are funded by the employers participating in the plans.

ELIGIBILITY

New and re-hired salaried state employees in Plan 1 and Plan 2 are automatically enrolled in the Deferred Compensation Plan upon employment with two opportunities to opt out of the plan. The Deferred Compensation Plan is voluntary to salaried state employees hired before January 1, 2008, and to eligible political subdivision employees whose employers have elected to participate in the plan.

Wage employees of employers that offer the plans may participate in the Deferred Compensation Plan but not the Cash Match Plan. Figure 5.15 presents details of each plan's activity for the years ended June 30, 2015 and 2014.

Contributions to the Deferred Compensation Plan during fiscal year 2015 and fiscal year 2014 were \$129,961,846 and \$129,879,195, respectively.

Contributions to the Cash Match Plan during fiscal year 2015 and fiscal year 2014 were \$17,164,370 and \$17,654,309, respectively.

As shown in Figures 5.16 and 5.17, there were approximately 77,952 employees in the Deferred Compensation Plan and 73,383 employees in the Cash Match Plan as of June 30, 2015.

Current state legislation establishing the Commonwealth of Virginia 457 Deferred Compensation Plan allows participants to use plan funds to purchase eligible prior service credit in their defined benefit plan. Approximately 66 plan participants used the trustee-to-trustee transfer provision to buy VRS service credit.
