Quarterly Report on Construction Procurement (October 1, 2015 – December 31, 2015)

February 29, 2016

The Department of General Services (DGS) was directed by the legislature to perform a Construction Procurement Survey and provide Quarterly and Annual Construction Procurement Reports as indicated in Chapter 760, 2015 Acts of the Assembly, excerpted below:

4. That all public bodies as defined in § [2.2-4301](#) of the Code of Virginia, including public institutions of higher education, shall submit a written report to the Director of the Department of General Services (the Director) for any non-transportation-related construction project in excess of \$2 million that was procured by any method other than competitive sealed bidding. Such report shall be in a form and manner prescribed by the Director after consultation with the contractor community and state and local government procurement officials. The report, at a minimum, shall identify the justification for the procurement method chosen and contain such other information deemed necessary or appropriate by the Director, including whether or not the procurement meets the standards as set forth by the Secretary of Administration guidelines. The Director shall (i) report such information quarterly to the Chairmen of the House Committee on General Laws and the Senate Committee on General Laws and Technology and (ii) post such reports on the Department of General Services' central electronic procurement website. In addition, on or before December 1 of each year, the Director shall submit an annual report to the Governor and the Chairmen of the House Committee on General Laws and Senate Committee on General Laws and Technology that includes (a) the Director's evaluation of and findings regarding the methods of procurement used for such construction procured by design-build or construction management at risk method and (b) any recommendations for the improvement of (1) the method of procuring construction generally and (2) the Virginia Public Procurement Act (§ [2.2-4300](#) et seq. of the Code of Virginia).

This report addresses projects initiated October 1, 2015 – December 31, 2015 (ie, for Construction Management at Risk and Design-Build procurements, a Request for Proposal was issued between October 1, 2015 – December 31, 2015). Please note that this quarterly report is an abbreviated version of the annual report; additional details and recommendations will be provided on the annual report due December 1, 2016.

The overall reporting rates on the survey are:

Entity Type	Current Quarter	Prior Quarter
State Agencies	97%	69%
Cities and Counties	62%	60%
Towns	22%	15 %
State-established Boards, Authorities, and Commissions	35%	35 %
Locally-established Boards, Authorities, and Commissions	25%	19 %
Overall reporting rate, all types	43%	36%

The overall survey registration rates of known public bodies with construction procurement authority for this reporting period is 54% (compared to 51% for prior reporting period).

The overall survey reporting rates of those who registered for this reporting period is 80% (compared to 70% for prior reporting period).

The group which completed the required survey includes the majority of larger state and local entities likely to spend significant amounts on construction. The overall reporting rate for the primary construction procurement entities (state, city, and county) is 72%.

From those entities responding to the survey, the following information can be reported on the use of alternate procurement methods:

Alternate procurement method	# projects reported this quarter	# unique projects all reporting periods
Construction Manager at Risk	10	11
Design Build	2	3
Energy Savings Contracts	3	3
Totals	15	17

Reported Use of Construction Manager at Risk (CM@Risk) Procurement:

Entities reported ten projects using the CM@Risk method of procurement. See attached for distribution of construction cost, justifications provided, and guidelines utilized.

Reported Use of Design-Build (DB) Procurement:

Entities reported two projects using DB procurement. See attached for distribution of construction cost, justifications provided, and guidelines utilized.

Reported Use of Energy Savings Contract (ESCO) Procurement:

Entities reported three projects using ESCO procurement. See attached for distribution of construction cost, justifications provided, and guidelines utilized.

Reported Use of Job Order Contracting (JOC) or Public-Private Enterprise Application (PPEA):

No entities reported the use of JOC or PPEA.

Overall Recommendations:

There is currently insufficient data to make recommendations for the improvement of either the method of procuring construction or the Virginia Public Procurement Act. It is anticipated that information received for the annual report due December 1, 2016 will provide opportunities for recommendations.

Sincerely,

Christopher L. Beschler
