Section 15.2-2903(6) directs the Commission on Local Government to bring to your attention those assessments that carry recommendations from the administering agency for altering or eliminating the mandate in question. In that regard, please note catalog number SOA.ELECT005 marked with a dagger (†) indicating that the agency recommends altering the mandate.

The Department of Elections recommends altering SOA.ELECT005 because the agency suggests that the process could be made more efficient by mandating reporting lists of adjudications of incapacity electronically. Further, the agency contends that court orders are not always clear regarding particular orders on an individual's voting rights; leading to additional review and interpretation by general registrars and Commonwealth Attorneys. As such, the Department of Elections recommends that the requirement to cancel voter registration for persons with felony convictions should be removed since it is prone to misinterpretation of a court order. Commission on Local Government staff informed the Department of Elections that a recommendation to alter or eliminate the mandate would warrant legislative action by the agency to achieve their recommendation. A copy of the assessment is included at the end of the attachment.

Please also be advised that the following assessment has been postponed by the corresponding agency until FY2018 due to a change in the Code of Virginia. The agency opted to hold on the assessment process until the code change was initiated in order to properly asses the mandate. The Commission on Local Government has been made aware as to the status of the assessment and will continue to work with the agency to ensure that the assessment is completed in FY2018.
