Report of Independent Auditors

The Board of Directors
Virginia Commonwealth University Health System Authority

We have audited the accompanying financial statements of the enterprise fund and pension trust fund of Virginia Commonwealth University Health System Authority (the Authority), a component unit of Virginia Commonwealth University, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the enterprise fund and pension trust fund of Virginia Commonwealth University Health System Authority, a component unit of Virginia Commonwealth University, as of June 30, 2017, and the respective changes in financial position and cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

Required Supplementary Information

U.S generally accepted accounting principles require that Management’s Discussion and Analysis on pages 3 through 15, the Schedule of Employer Contributions and the Schedule of Authority’s Share of Net Pension Liability on pages 62 and 63, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the Authority’s basic financial statements as a whole. The accompanying Combining Schedule of Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position – Enterprise Fund, included on pages 64 and 65, and the Combining Schedule of Revenues, Expenses and Changes in Net Position – Enterprise Fund, included on page 66, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Change in Accounting Principle

As discussed in Note 2(v) to the basic financial statements, as of July 1, 2016, the Authority changed its presentation of the basic financial statements through the adoption of GASB 80, *Blending Requirements for Certain Component Units*.

October 19, 2017

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)
Management's Discussion and Analysis (Unaudited)
June 30, 2017

This section of Virginia Commonwealth University Health System Authority's (VCUHSA or the Authority) annual financial report provides management's overview of VCUHSA's financial activities for the fiscal years ended June 30, 2017, 2016 and 2015. Please read it in conjunction with the Authority's basic financial statements, which begin on page 16.

Financial Statement Overview

The financial statements herein are comprised of the statements of net position, statements of revenues, expenses and changes in net position, and statements of cash flows. These financial statements and related notes provide information about the activities of the Authority, including resources held by the Authority but restricted for specific purposes by contributors, grantors, or enabling legislation.

The Authority is the trustee, or fiduciary, for its employees' self-directed pension plans. The Authority's pension plan activities are reported in separate statements of net position and statements of changes in net position on pages 21 and 22, respectively. The Authority excludes these activities from the other financial statements because the Authority cannot use these assets to finance its operations as the funds belong to employees. The Authority is responsible for ensuring that the assets reported in this fund are used for their intended purposes.

The Authority, consisting of MCV Hospitals (MCVH), is an enterprise fund of Virginia Commonwealth University (VCU), a component unit of the Commonwealth of Virginia. VCU incorporates the Authority's statements for the years ended June 30, 2017 and 2016, into its financial statements for the years then ended. The Authority's reporting entity includes MCVH, MCV Associated Physicians (MCVAP), Community Memorial Hospital (CMH), Virginia Premier Health Plan (Virginia Premier), Children's Hospital (Children's), and University Health Services, Inc. and subsidiaries (UHS).

In the current year, the Authority adopted GASB Statement No. 80, *Blending Requirements for Certain Component Units*. The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. This statement was adopted by the Authority in the current year and was adopted retrospectively as of July 1, 2016. As a result of the retrospective adoption, prior year net position has been restated to reflect the adoption of the change. The impact on prior year's net position for the primary enterprise and discretely presented component units is as follows (in thousands):

HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)
Management's Discussion and Analysis (Unaudited)
June 30, 2017

June 30, 2017 Compared to June 30, 2016

Financial Highlights

- The Authority's net position increased by \$309.5 million, or 15.9%, over prior year as a result of this year's results of operations, which increased net position by \$309.5 million.
- Patient service revenue comprises the majority of the Authority's revenues. Net patient service revenue increased by \$183.4 million, or 10.6%, from prior year. Regulatory changes and governmental reduction acts have significant effects on MCVH's reimbursement rates given its high mix of government payers.
- The Authority showed operating income for the year ended June 30, 2017, of \$205.1 million, a \$23.7 million increase from operating income of \$181.4 million for the year ended June 30, 2016.
- The major capital expenditures for the Authority in 2017 related to the purchase of a new medical office building in the City of Richmond, ongoing construction of new inpatient and outpatient buildings in South Hill, Virginia, replacement of medical equipment, office building renovations, and investments in information system infrastructure, business systems and equipment.
- The Authority provides services to the majority of indigent patients in the region. The Authority operates Virginia Coordinated Care, a program that provides health care to the indigent population utilizing cost saving managed care principles.
- Premiums earned by Virginia Premier increased by \$37.9 million, or 3.7%, from prior year primarily due to enrollment and rate increases.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Management's Discussion and Analysis (Unaudited)

June 30, 2017

As indicated in Table 1 below, the Authority's total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$2,257.6 million as of June 30, 2017. Of this net position 23.7% (\$535.6 million) are related to capital assets, 1.1% (\$25.6 million) are restricted funds, and the remaining 75.1% (\$1,696.5 million) are unrestricted funds, which can be used for ongoing operations of the Authority:

Beginning net position as restated	1,948,094	1,817,690
Ending net position	<u>\$ 2,257,626</u>	<u>\$ 1,948,094</u>

The Authority's operating revenues increased by \$215.4 million over the prior year. This increase in revenues resulted from increased inpatient and outpatient volume and Virginia Premier's network expansion. Total operating expenses increased 7.3% (\$191.7 million). Personnel costs are the largest single cost of the Authority, comprising 39.8% of operating costs in 2017. An increase in personnel-related costs of \$81.9 million, or 7.9%, from prior year reflects both the salary adjustments required to meet market demands and the required staff levels to meet both quality and volume initiatives.

(A Component Unit of Virginia Commonwealth University)
Management's Discussion and Analysis (Unaudited)
June 30, 2017

June 30, 2016 Compared to June 30, 2015

Financial Highlights

- The Authority's net position increased by \$130.4 million, or 7.2%, over prior year as a result of this year's results of operations.
- Patient service revenue comprises the majority of the Authority's revenues. Net patient service revenue increased by \$47.1 million, or 2.8%, from prior year. Regulatory changes and governmental reduction acts have significant effects on the Authority's reimbursement rates given its high mix of government payers.
- The Authority showed operating income for the year ended June 30, 2016, of \$181.4 million, a \$21.2 million decrease from operating income of \$202.6 million for the year ended June 30, 2015.
- The major capital expenditures for the Authority in 2016 related to the completion of a new Children's outpatient facility, the purchase of a new medical office building in Henrico County, replacement of medical equipment, office building renovations, and investments in information system infrastructure, business systems and equipment.
- The Authority provides service to the majority of indigent patients in the region. The Authority operates Virginia Coordinated Care, a program that provides health care to the indigent population utilizing cost saving managed care principles.
- Premiums earned by Virginia Premier increased by \$91.6 million, or 9.8%, from prior year primarily due to enrollment and rate increases. Operating loss for the Complete Care program decreased from \$26.6 million in FY15 to \$4.4 million in FY16. The Complete Care program is designed to be Virginia's single program to coordinate delivery of primary, preventative, acute, behavioral, and long-term services and support.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

(1) Reporting Entity

Virginia Commonwealth University Health System Authority (the Authority) is a public corporate body and political subdivision of the Commonwealth of Virginia created and established by an Act of the General Assembly of the Commonwealth of Virginia during 1996. The Authority is tax exempt as an integral part of the Commonwealth of Virginia.

The Authority's principal activity is operation of the Medical College of Virginia Hospitals (MCVH), MCV Associated Physicians (MCVAP), Community Memorial Hospital (CMH), Virginia Premier Health Plan (Virginia Premier), Children's Hospital (Children's), and University Health Services, Inc. (UHS). MCVH is an approximately 800-bed teaching hospital which provides inpatient and outpatient services primarily to patients in the Commonwealth of Virginia. Each of these are considered component units of the Authority as the Authority has the voting majority of the governing body of each entity and has the ability to impose its will on the organizations as defined under generally accepted accounting standards as promulgated by the Governmental Accounting Standards Board. In addition, each component unit is blended into the primary enterprise for purposes of financial statement reporting.

MCVAP, formed in 1991 as a nonstock, not-for-profit charitable educational organization with the Authority as sole corporate member, functions as the group practice plan for those physicians and health care professionals who have faculty appointments in the Virginia Commonwealth University (VCU) School of Medicine (SOM).

CMH, located in South Hill, Virginia, is a not-for-profit healthcare facility. CMH provides inpatient, outpatient, emergency care, and long-term care for residents of Southside Virginia. Effective July 1, 2014, the Authority and CMH entered in to an affiliation agreement. The Authority became the sole member of CMH and, in addition to other contractual obligations, has committed to invest \$75,000,000 in facility replacements and enhancements to assist CMH in carrying out certain strategic projects and initiatives to improve and enhance the delivery of health care services to the communities it serves as an affiliate of the Authority. In accordance with the affiliation agreement, the Authority paid \$25,000,000 of the investment commitment in 2015 and \$35,300,000 in 2017. CMH also operates outpatient clinics in South Hill, Clarksville, and Chase City, Virginia. Community Memorial Foundation (CMH Foundation) was established to solicit, administer, and distribute funds to support the charitable purpose of CMH.

Virginia Premier is a Medicaid health maintenance organization (HMO) whose primary purpose is to provide quality health care within a managed care framework.

Children's was created in 1920 and is a Virginia not-for-profit corporation. The 47-bed hospital provides pediatric specialty care to both inpatients and outpatients.

UHS is a not-for-profit, nonstock, tax-exempt corporation, which was incorporated on January 26, 1995 to support the educational, scientific, and charitable purpose and activities of VCU and, in particular, the activities of the SOM and MCVH. These activities include, but are not limited to, activities undertaken pursuant to Section 23-50.16B of the Code of Virginia.

Notes to Basic Financial Statements

June 30, 2017

(2) Summary of Significant Accounting Policies

(a) Principles of Presentation

The accounts of the Authority are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses, as appropriate. All significant inter-fund balances and transfers have been eliminated in the accompanying basic financial statements.

The enterprise fund is used to account for the Authority's ongoing activities.

The pension trust fund is used to account for assets held in trust for the benefit of the employees of MCVH and includes the assets of the MCVH Authority Defined Contribution Plan and the Virginia Commonwealth University Health System Authority Health Care Providers Defined Contribution Plan (the HCP Plan). These plans are sponsored by the Authority and governed by the Board of Directors of the Authority.

The financial statements of the pension trust fund are prepared using the accrual basis of accounting. Employer contributions to the plan are recognized when due. Benefits are recognized when due and payable in accordance with the terms of the plan.

The Governmental Accounting Standards Board (GASB) establishes standards for external financial reporting for all state and local governmental entities. These standards require a statement of net position, a statement of activities and changes in net position and a statement of cash flows. They also require the classification of net position into three components – net investment in capital assets; amounts that are restricted; and amounts that are unrestricted. These classifications are defined as follows:

- *Net investment in capital assets* – This component consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflows of resources is included in the same component as the unspent amount.
- *Restricted* – This component consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets may be restricted through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. Restricted assets are either expendable or nonexpendable. Nonexpendable assets are those that are required to be retained in perpetuity.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

- *Unrestricted* – This component is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

The accounting policies and practices of the Authority conform to U.S. generally accepted accounting principles applicable to a proprietary fund of a government unit, promulgated by the Governmental Accounting Standards Board. The financial statement presentation and significant accounting policies adopted by the Authority conform to general practice within the governmental healthcare industry, as published by the American Institute of Certified Public Accountants in its audit and accounting guide, *Health Care Organizations*.

(b) *Enterprise Fund Accounting*

The Authority uses enterprise fund accounting. Revenues and expenses are recognized on the accrual basis using economic resources measurement focus.

(c) *Cash Equivalents*

The Authority considers investments in highly liquid debt instruments with a maturity of three months or less when purchased to be cash equivalents.

(d) *Investments and Investment Income*

Investments in marketable debt and equity securities are carried at fair value based on quoted market prices. Investments in nonreadily determinable securities, including investment companies and limited partnerships, are accounted for at fair value using net asset value as a practical expedient based on the underlying net asset value of the investment. Changes in market conditions and the economic environment may significantly impact the investments' net asset value and the carrying value of the Authority's interest. Short-term investments include investments that mature in less than one year.

Investment income, including net realized and unrealized gains or losses, is recorded as nonoperating revenues or expenses. The income earned on nonexpendable restricted funds is restricted primarily for indigent care. Gains and losses from the sale of securities are recorded using specific identification.

(e) *Allowance for Doubtful Accounts*

The Authority records an allowance for doubtful accounts during the period in which collection is considered doubtful. The allowance for doubtful accounts was approximately \$166,560,000 at June 30, 2017.

(f) *Assets Whose Use is Restricted and Assets Whose Use is Designated*

Resources restricted for debt service under bond indenture agreements, by insurance regulations of the Commonwealth of Virginia are reported as assets whose use is restricted; unrestricted resources appropriated or designated by the Board of Directors for quasi-endowment, capital acquisition, medical malpractice program and workers' compensation program are reported as assets whose use is designated; and all are carried at fair value. Quasi-endowment investments have been designated by

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

the Board of Directors to function as an endowment, in that the principal is to be retained and invested, but may be spent at any time at the discretion of the Board of Directors. All assets whose use is restricted or designated, except for the portion required for the payment of current liabilities, are classified as noncurrent assets.

Restricted resources limited by donors to a specific period or purpose are also reported as assets whose use is restricted. These assets consist principally of beneficial interests in perpetual trust funds established by split-interest agreements. Split-interest agreements are trust agreements established by donors under which the Authority receives benefits that are shared with other beneficiaries. The trust agreements established by donors provide for a third party to hold the trust assets. These trusts do not permit donors to revoke their charitable contributions. Trust assets of \$17,620,929 are restricted by donors for MCVH in perpetuity and are included in assets whose use is restricted at June 30, 2017.

(g) *Supplies Inventory*

Supplies inventory is stated at the lower of cost (first-in, first-out method) or market.

(h) *Capital Assets*

Capital assets are stated at cost or, if donated, at fair value at the date of donation. The Authority capitalizes expenditures for equipment when the unit acquisition cost is \$5,000 or greater and the estimated useful life is greater than one year.

Depreciation on capital assets, excluding land and construction in progress, is computed over the estimated useful lives of the assets based on the straight-line method. Assets under capital lease are amortized over the shorter of useful life or lease term. The general range of estimated useful lives is 10 to 40 years for buildings and fixed equipment and 3 to 20 years for moveable equipment. Expenditures for construction in progress are carried as nondepreciable assets, becoming capitalized when the asset is placed in service.

(i) *Derivative Financial Instruments*

MCVH uses interest rate swap agreements to limit exposure to rising interest rates on its variable-rate debt. Interest rate differentials to be paid or received as a result of the swap agreements are accrued and recognized as an adjustment of interest expense related to the associated debts. Derivatives are recognized on the statements of net position at their fair value. Fair value is calculated using the zero-coupon method, which considers known and projected contractual cash flows. MCVH assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are effective in offsetting changes in cash flows of hedged items. Changes in the fair value of a derivative that are effective and are designated and qualify as cash flow hedges are recorded as deferred inflows or outflows on the accompanying statements of net position.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

(j) *Estimated Medical Claims Payable*

Estimated medical claims payable is comprised of billed and unbilled medical obligations for Virginia Premier members that are unpaid at year-end. The estimate of costs incurred for unbilled services is based upon historical experience and actuarial calculations. Although considerable variability is inherent in such estimates, management believes that adequate provision has been made.

(k) *Accrued Leave*

The Authority records a liability for all paid time off and related payroll taxes expected to be paid.

(l) *Estimated Workers' Compensation Claims*

The Authority is self-insured for workers' compensation and provides for the liability on a blended discounted and undiscounted basis, based on the ultimate cost of known claims and claims incurred but not yet reported. The liability includes assumptions and factors related to the frequency and severity of claims, claims development history, and claims settlement practices. The portion of the balance expected to be paid beyond one year is classified as long-term.

(m) *Estimated Losses on Malpractice Claims*

The Authority is self-insured for medical malpractice and provides for the liability on an undiscounted basis, based on the ultimate cost of known claims and claims incurred but not yet reported. The liability includes assumptions and factors related to the frequency and severity of claims, claims development history, and claims settlement practices. The portion of the balance expected to be paid beyond one year is classified as long-term.

(n) *Clinical Earnings Support to VCU School of Medicine*

MCVAP is required by agreement with the VCU SOM to financially support VCU SOM's academic and educational goals. This support is based on a percentage of net patient service revenue, as defined, and may be used for academic, research, clinical or operational costs at the discretion of the Dean of the VCU SOM. The Dean has directed that all unspent support remain a designated unrestricted fund balance of MCVAP until such time as the amounts are needed for a designated purpose. These designated reserves totaled approximately \$34,149,000 at June 30, 2017, and are included in unrestricted net position in the accompanying statements of net position.

(o) *Operating Revenues and Expenses*

The Authority's statement of revenues, expenses and changes in net position distinguishes between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing health care and other core services. Nonexchange revenues, including investment income and contributions received for purposes other than capital asset acquisition, are reported as nonoperating revenues. Operating expenses are all expenses incurred to provide health care services. Donations and gifts represent amounts given to other nonprofit organizations, including MCV Foundation, and are reported as nonoperating expenses.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

(p) *Net Patient Service Revenue*

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under payment agreements with third-party payers, and include estimated retroactive adjustments due to ongoing and future audits, reviews and investigations. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as adjustments and settlements become known or as years are no longer subject to such audits, reviews, appeals, and investigations. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The effect of these settlement adjustments was to increase the Authority's net patient service revenue by approximately \$33,100,000 in 2017. Settlements due to and from third-party payers include amounts that are currently under appeal with various federal and state agencies.

Net patient service revenue includes an estimate of uncollectible charges which is a deduction from gross revenue. The Authority's estimated cost associated with these charges is approximately \$36,035,000 for the year ended June 30, 2017.

The Authority has agreements with third-party payers that provide for payments at amounts different from its established rates. A summary of payment arrangements with major third-party payers follows:

Anthem – Inpatient acute care services rendered to Anthem subscribers are paid at prospectively determined rates per discharge or discounted rates. Outpatient services rendered to Anthem subscribers are paid at discounted rates or applicable fee schedule. The rates can be subject to retroactive adjustments based on quality standards or calculations above a predetermined charge increase percentage.

Medicare – Inpatient acute care services and defined capital costs rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to patient classification systems that are based on clinical, diagnostic, and other factors. Inpatient nonacute services, certain outpatient services and education related to Medicare beneficiaries are paid based on prospectively determined rates and a discounted cost payment methodology. The Authority is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Authority and audits thereof by the Medicare fiscal intermediary. The Authority's Medicare cost reports have been final audited by the Medicare fiscal intermediary through June 30, 2010.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

Medicaid – Inpatient acute care services rendered to Medicaid program beneficiaries are paid at a per diem rate and APDRG (rates per discharge) prospective payment system on an interim basis but eventually settled to a percentage of cost. Outpatient services rendered to Medicaid program beneficiaries are paid on prospectively determined rates and a cost reimbursement methodology. In addition to inpatient and outpatient services provided to Medicaid program beneficiaries, Medicaid reimburses the Authority most of its costs related to services provided to indigent patients and its education mission, which resulted in total Medicaid and indigent reimbursement to the Authority of approximately \$521,402,000 in 2017. The Authority’s Medicaid cost reports have been audited by the Medicaid program representative through June 30, 2014.

(q) *Charity Care*

The Authority provides care to patients who meet certain criteria under its indigent care policy without charge or at amounts less than its established rates. Because the Authority does not pursue collection of charges determined to qualify as uncompensated care from these patients, they are not reported as revenue. The costs of providing these services are included in the Authority’s operating expenses. Medicaid reimburses the Authority for a substantial portion of its costs of providing services to Medicaid and indigent patients. The Authority’s estimated costs for the services provided for uncompensated care, net of reimbursement from the Commonwealth of Virginia, approximated \$17,482,000 for the year ended June 30, 2017.

(r) *Premiums Earned*

Virginia Premier has contracts with the Virginia Department of Medical Assistance Services (DMAS) wherein Virginia Premier provides health care services to the Low Income Families with Children (LIFC), the Family Access to Medical Insurance Security (FAMIS), Aged, Blind and Disabled (ABD), and Health and Acute Care Program (HAP) residents of Virginia on a prepaid basis through a HMO. Virginia Premier recognizes premiums received from DMAS for members in the period to which health care coverage relates.

In 2014, Virginia Premier began participating in the Medicare-Medicaid Coordination program. This is a three year demonstration designed to increase the level and quality of service provided to members who are eligible for both Medicare and Medicaid (Duals). These members carry a higher level of revenues, a higher level of risk, and a higher level of costs than traditional Medicaid members.

(s) *Medical Claims Expense*

Medical claims expense is recognized as services are provided, including estimated amounts for claims incurred but not yet reported. Reinsurance premiums and benefits paid or provided are accounted for on a basis consistent with the accounting for the original policies issued and the terms of the reinsurance contract. Virginia Premier is contingently liable for reinsurance losses to the extent that the reinsurance company cannot meet its obligations.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

(t) *Income Taxes*

The Authority, inclusive of MCVH, is exempt from federal and state income taxes because it is a political subdivision of the Commonwealth of Virginia.

MCVAP, CMH, Children's and UHS are exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code of 1986 (the Code). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Virginia Premier recorded a federal income tax benefit of \$1,082 for the year ended June 30, 2017, in Unrelated Business Income Tax (UBIT) for services performed.

(u) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions affecting the reported amounts of assets, liabilities, revenues and expenses, as well as disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include valuation of patient accounts receivable, medical claims payable, self-insurance liabilities, third-party settlements, and the carrying amount of capital assets, derivative financial instruments and investments.

(v) *Recent Accounting Pronouncements*

As of July 1, 2016, the Authority adopted GASB Statement No. 82, *Pension Issues*. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB 68*, and *Amendments to Certain Provisions of GASB Statements 67 and 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. The Authority has chosen to early implement this standard. The adoption of this standard had an impact on the Authority's required supplementary information only.

Notes to Basic Financial Statements

June 30, 2017

In the current year, the Authority adopted GASB Statement No. 80, *Blending Requirements for Certain Component Units*. The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. This statement was adopted by the Authority in the current year as of July 1, 2016. The impact on prior year's net position for the primary enterprise and discretely presented component units is as follows:

	Primary Enterprise	Discretely Presented Component Units
Net position as of June 30, 2016 (as previously reported)	\$ 1,581,412,084	\$ 366,682,295
Cumulative effect of change in accounting for component units	366,682,295	(366,682,295)
Net position as of July 1, 2016 (as restated)	\$ 1,948,094,379	\$ —

In March 2016, GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets presenting its beneficial interest in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interest. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively. The Authority is in the process of evaluating the impact of this statement on its basic financial statements.

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. An exception to that requirement is provided for

HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

a business-type activity that normally expects to hold custodial assets for three months or less. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged. The Authority is in the process of evaluating the impact of this statement on its basic financial statements.

In June 2017, GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases – which under the current method are not reported in the financial statements – and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement will (1) enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single model and (2) enhance the decision-usefulness of the information by requiring notes to financial statements related to the timing, significance, and purpose of a government's leasing arrangements. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The Authority is in the process of evaluating the impact of this statement on its basic financial statements.

(3) Cash, Cash Equivalents, Deposits, Short-Term and Long-Term Investments and Assets Whose Use is Restricted and Designated

At June 30, 2017, the carrying values of the Authority's cash and cash equivalent deposits totaled \$319,979,421. Deposits are placed with banks and savings and loan institutions and are protected by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act (the Act). In accordance with the Act, the depository institution pledged collateral with a market value equal to 105% of the Authority's deposits with a third-party trustee in the name of the Treasurer of the Commonwealth of Virginia. In the event that the banking institution fails, the Treasurer will take possession of the collateral, liquidate it and reimburse the Authority up to the value of its deposits.

In accordance with the Authority's Investment Policy Statement, adopted by the Board of Directors, MCVH's investment portfolio assets are allocated among the following assets classes: Global Equity, Absolute Strategies, Fixed Income, Real Estate, Real Assets, Private Equity, and Cash.

Interest Rate Risk – Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of a fixed income investment. The Authority's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from changing interest rates. At June 30, 2017, the Authority had \$178,653,722 in fixed income investments, whose value could fluctuate over time due to interest rate fluctuations.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

Credit Risk – Credit risk is the risk that a fixed income issuer or other investment counterparty will not fulfill their obligations as required by the investment security. The investment portfolio is monitored and evaluated on a quarterly basis by the Authority’s investment advisor and Finance Committee of the Board of Directors to ensure credit risk is kept at an appropriately low level.

At June 30, 2017, the credit quality ratings for the Authority’s fixed income investments were 38.0% AAA (U.S. Treasury notes, asset backed securities, municipal bonds, corporate bonds and mortgage backed securities), 19.3% AA (corporate bonds), 34.9% A (corporate bonds), and 7.8% below A (corporate bonds).

Assets whose use is restricted, assets whose use is designated and investments are summarized as follows at June 30, 2017:

Enterprise funds:

Assets whose use is restricted:

Externally restricted:

By donors	\$ 17,719,664
Under bond indenture	10,013,484
By insurance regulations	604,779
Held by Foundation	3,921,929
	32,259,856

Assets whose use is designated:

For medical malpractice	24,317,161
For innovation fund	3,500,000
For Community Partnership fund	3,500,000
For workers’ compensation	15,452,207
For capital acquisition	315,374,210
For quasi endowment	1,053,745,250
	1,415,888,824

\$ 1,448,148,684

Investments	\$ 103,813,534
-------------	----------------

The pension trust funds consist of participant-directed investments, which are primarily invested in publicly traded mutual funds.

Pension trust funds:

Externally restricted under pension plan agreement	\$ 345,138,129

N/A – Investment maturity not applicable to type of investments noted.

(4) Investments and Derivative Instruments Measured at Fair Value

The Authority categorizes its fair value measurements within the fair value hierarchy established by U.S. generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1: Pricing inputs are based on quoted prices, unadjusted, for identical assets or liabilities, in active markets. Examples of financial assets and liabilities in Level 1 include U.S. Treasury notes, commercial paper and equities.
- Level 2: Pricing inputs are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full contractual term of the assets or liabilities. Examples of financial assets and liabilities in Level 2 include agency-backed mortgages, asset-backed securities and corporate bonds.
- Level 3: Pricing inputs are generally unobservable and include situations where there is little, if any, market activity for the instrument. The inputs into the determination of fair value require management's judgment or estimation of assumptions that market participants would use in pricing the assets or liabilities. Level 3 fair values are therefore determined using factors that involve considerable judgment and interpretations, including but not limited to private and public comparable, discounted cash flow models and fund manager estimates.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Authority's assessment of the significance of a particular input to the fair value measurement requires judgement, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Authority has the following recurring fair value measurements as of June 30, 2017:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

Notes to Basic Financial Statements

June 30, 2017

1. Equity long only hedge funds. These investments are comprised of vehicles that invest in publicly traded equity securities with the primary goal of producing capital appreciation. The aforementioned investments may have global, domestic, developed international or emerging market focus. This asset class includes nine investments, each subject to liquidity terms ranging from quarterly to a rolling three-year lock up.

2. Long/short equity hedge funds. These investments are comprised of vehicles that seek opportunities globally without regard for market capitalization, country of domicile or asset class. These managers have broad flexibility to establish long and short positions. This asset class includes fifteen managers.

3. Event driven. Investment managers in this asset class maintain positions in companies currently or prospectively involved in corporate transactions of a wide variety including but not limited to mergers, restructurings, financial distress, tender offers, shareholder buybacks, debt exchanges, security issuance or other capital structure adjustments. Security types can range from most senior in the capital structure to most junior or subordinated, and frequently involve additional derivative securities. Event driven exposure includes a combination of sensitivities to equity markets, credit markets and idiosyncratic, company specific developments. Investments in these are typically predicated on fundamental characteristics (as opposed to quantitative), with the realization of the thesis predicated on a specific development exogenous to the existing capital structure. This asset class includes eight managers.

4. Relative value. Investment managers in this asset class maintain positions in which the investment thesis is predicated on realization of a valuation discrepancy in the relationship between multiple securities. Managers employ a variety of fundamental and quantitative techniques to establish investment theses, and security types. Fixed income strategies are typically quantitatively driven to measure the existing relationship between instruments and, in some cases, identify attractive positions in which the risk adjusted spread between these instruments represents an attractive opportunity for the investment manager. Realization of a pricing discrepancy between related securities, as opposed to the outcome of the corporate transaction generally drives transactions. This class includes four managers.

5. Opportunistic/macro. Investment managers in this asset class trade a broad range of strategies in which the investment process is predicated on movements in underlying economic variables and the impact these have on equity, fixed income, hard currency and commodity markets. These five managers employ a variety of techniques, both discretionary and systematic analysis, combinations of top down and bottom up theses, quantitative and fundamental approaches and long and short term holding periods.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

6. Absolute strategies funds. Investments in this asset class seek to exploit market inefficiencies and generate positive investment returns with reduced volatility and minimal net exposure. These investments may include credit-oriented, market neutral or multi-strategy investments. This asset class includes ten managers, one of which is structured similar to a private investment while the others are outside of their initial lock-up periods.

7. Private investments. The managers in this asset class have the flexibility to invest in private equity, distressed debt and private real estate. These investments are not liquid and generally have a fund life of ten years or greater. The asset class includes seven managers, three of which are focused on private real estate, one on distressed debt and three on private equity.

8. Multi-strategy investment fund. The RAM Fund is a private investment fund structured as a Virginia limited partnership. It invests via a mix of active and passive investment managers and strategies across a diversified group of asset classes including global equity, fixed income (treasuries and credit), real assets and cash. Investments and investment managers included in the fund employ strategies primarily involving marketable securities.

(5) Capital Assets

Capital assets and changes thereto, as of and for the year ended June 30, 2017, consisted of the following:

	<u>Beginning balance</u>	<u>Additions</u>	<u>Transfers</u>	<u>Disposals</u>	<u>Ending balance</u>
Nondepreciable assets:

(6) Long-Term Debt

Long-term debt, and changes thereto, as of and for the year ended June 30, 2017, is summarized below:

	<u>Beginning balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending balance</u>	<u>Amounts due within one year</u>
Series 2014 Bonds	\$ 200,000,000	\$ –	\$ –	\$ 200,000,000	\$ –
Note payable	6,672,823	–	(541,044)	6,131,779	541,044
Series 2013 Bonds	185,900,000	–	(2,845,000)	183,055,000	2,950,000
Series 2011 Bonds	115,150,000	–	(2,525,000)	112,625,000	2,600,000
Premium – Series 2011 Bonds	821,578	–	(52,356)	769,222	–
Capital leases	984,662	–	(562,664)	421,998	421,998
CMH loan agreements	5,592,638	–	(1,413,640)	4,178,998	1,427,962
UHS loan agreements	11,700,000	–	–	11,700,000	–
Total long-term debt	<u>\$ 526,821,701</u>	<u>\$ –</u>	<u>\$ (7,939,704)</u>	<u>\$ 518,881,997</u>	<u>\$ 7,941,004</u>

On February 6, 2014, MCVH issued \$200,000,000 of fixed rate taxable general revenue bonds, Series 2014A, to fund capital projects and improvements to hospital facilities. The Series 2014 Bonds are subject to mandatory sinking fund and optional redemption with principal amounts of \$35,000,000 due January 1, 2024, with an interest rate of 3.86% and \$165,000,000 due January 1, 2044, with an interest rate of 4.96%.

On October 23, 2013, MCVH entered into a note payable to a bank in the amount of \$8,115,600. The note bears an interest rate of LIBOR plus 1.25% (2.30% at June 30, 2017) and matures on October 31, 2020. Interest and principal payments of approximately \$57,000 are paid monthly.

On June 25, 2013, MCVH issued \$190,315,000 of variable rate bonds, consisting of Series 2013A totaling \$69,450,000 and Series 2013B totaling \$120,865,000, to refund existing indebtedness of MCVH. The Series 2013 Bonds were issued at face value with initial interest rates based on the 30-day LIBOR index (1.22% at June 30, 2017). MCVH may elect to use other rates as the base but does not currently expect to do so. The Series 2013 Bonds are subject to mandatory sinking fund, optional and extraordinary redemption with principal amounts varying between \$2,950,000 on July 1, 2017 and \$15,700,000 at maturity on July 1, 2037.

On December 1, 2011, MCVH issued \$120,000,000 of fixed rate General Revenue Bonds at a premium of \$1,069,055 to fund construction of a new outpatient facility and other additions and improvements to MCVH facilities. The Series 2011 Bonds are subject to mandatory sinking fund, optional and extraordinary redemption with principal amount varying between \$2,600,000 on July 1, 2017 and \$7,370,000 at maturity on July 1, 2041. Interest rates range from 2.00% to 5.00% payable semiannually in January and July.

Notes to Basic Financial Statements

June 30, 2017

On January 3, 2008, MCVH issued \$125,000,000 of variable rate demand bonds to finance the costs of a new 11 story Critical Care Hospital to expand MCVH's adult intensive care beds, emergency department, and private room capacity. The Series 2008 Bonds were repaid as of June 25, 2013, from the proceeds of the Series 2013 Bonds issuance. The repayment of the Series 2008 Bonds created a deferred loss on refunding which is being amortized over the life of the original bond. The unamortized balance is \$24,060,171 at June 30, 2017.

In December 2005, MCVH issued \$100,000,000 of General Revenue Bonds Series 2005 to fund a portion of the cost of constructing a new critical care hospital, refund existing indebtedness of MCVH, and pay certain costs of issuance of the Series 2005 Bonds. The Series 2005 Bonds were repaid as of June 25, 2013, from the proceeds of the Series 2013 Bonds issuance. The repayment of the Series 2005 Bonds created a deferred loss on refunding which is being amortized over the life of the original bond. The unamortized balance is \$7,862,040 at June 30, 2017.

In October 2013, UHS entered into loan agreements which total \$11,700,000 with two lenders. The proceeds of the loans are to be used to finance a portion of the cost to develop and construct a condominium unit of the Children's Pavilion. Interest on the loans is accrued and payable quarterly through December 1, 2020. Thereafter, principal and interest payments of approximately \$149,000 are due quarterly through October 23, 2043. Interest rates range from 1.00% to 1.56%.

CMH holds various promissory notes with financial institutions and a revenue bond with the Industrial Development Authority of the Town of South Hill, Virginia. The proceeds of these notes were used to finance building renovations and purchase medical equipment. Principal and interest are paid monthly with the maturities ranging from April 2018 through August 2024. Interest rates range from 1.49% to 4.04%.

A summary of future principal requirements of long-term debt as of June 30, 2017, follows:

	Series 2014 Bonds	Note payable	Series 2013 Bonds	Series 2011 Bonds	Capital leases	CMH loans	UHS loans	Total
2018	\$ -	\$ 541,044	\$ 2,950,000	\$ 2,600,000	\$ 421,998	\$ 1,427,962	\$ -	\$ 7,941,004
2019	-	541,044	2,990,000	2,690,000	-	966,194	-	7,187,238

2043-2044	12,266,100	-	-	-	-	-	11,229	12,277,329
Total	\$ 225,478,050	\$ 866,171	\$ 30,126,679	\$ 75,242,514	\$ -	\$ 273,377	\$ 2,701,671	\$ 334,688,462

MCVH is required to make interest and principal payments to the interest and principal accounts included in assets whose use is restricted for the Series 2013 and 2011 Bonds. For the year ended June 30, 2017, MCVH transferred approximately \$17,249,000 to the bond service accounts.

The Series 2013 and 2011 Bonds agreements place restrictions on future borrowings and require certain minimum insurance coverage. The related agreements also contain certain covenants, including a requirement that charges to patients are maintained at a level which will produce income available for debt service, as defined by the bond resolutions, in each fiscal year equal to or greater than 125% of maximum total annual debt service in each fiscal year.

Interest expense for the year ended June 30, 2017, was \$25,423,007 net of amounts capitalized. For the year ended June 30, 2017, the Authority paid approximately \$22,925,000 for interest.

(7) Derivative Instruments

In June 2007, MCVH entered into two interest rate swap agreements in anticipation of the issuance of the Series 2008 bonds (note 6). The swaps have a combined initial notional amount of \$125,000,000, which declines over time to \$15,700,000 at the termination date of July 1, 2037. The notional amount as of June 30, 2017, was \$117,930,000. MCVH pays a fixed rate of 3.84% and the counterparty pays 67% of 30-day LIBOR (0.82% as of June 30, 2017). The payments are settled monthly at the first of each month. Payments or receipts under the terms of the swap are recorded as interest expense. At June 30, 2017, the fair value of the swaps of \$35,240,652 is included in the accompanying statements of net position. For the year ended June 30, 2017, the change in fair value of the swaps was \$13,911,612, respectively, and is reported as a deferred outflow of resources.

In June 2013, MCVH refunded the Series 2008 Bonds using proceeds of the Series 2013A Bonds. At that time, the hedging relationship between the interest rate swap agreements and the Series 2008 Bonds was terminated, and the accumulated change in fair value of the interest rate swaps of \$30,376,129 was included in the calculation of the deferred loss on refunding. In June 2013, MCVH reestablished hedge accounting by designating the Series 2013A Bonds as the hedged debt.

Notes to Basic Financial Statements

June 30, 2017

In December 2005, MCVH entered into an interest rate swap agreement in conjunction with the issuance of its Series 2005 Bonds (note 6). The swap has an initial notional amount of \$75,000,000, which declines over time to \$8,000,000 at the maturity date of July 1, 2030. The notional amount as of June 30, 2017, was \$65,125,000. MCVH pays a fixed rate of 3.50% and the counterparty pays 67% of 30-day LIBOR (0.82% as of June 30, 2017). The payments are settled monthly at the first of each month. Payments or receipts under the terms of the swap are recorded as interest expense. At June 30, 2017, the fair value of the swap of \$10,646,800 is included in the accompanying statements of net position. For the year ended June 30, 2017, the change in fair value of the swap was \$5,186,036, and is reported as a deferred outflow of resources.

In June 2013, MCVH refunded the Series 2005 Bonds using proceeds of the Series 2013B bonds. At that time, the hedging relationship between the interest rate swap agreement and the Series 2005 Bonds was terminated, and the accumulated change in fair value of the interest rate swap of \$11,676,174 was included in the calculation of the deferred loss on refunding. In June 2013, MCVH reestablished hedge accounting by designating the Series 2013B Bonds as the hedged debt.

(8) Operating Leases

Total expense under operating leases was \$12,350,517 in 2017. Future minimum lease payments for noncancelable operating leases are as follows:

	Carrying value
2018	\$ 9,807,062
2019	7,989,391
2020	6,122,083
2021	4,222,430
2022-2023	6,109,714
	\$ 34,250,680

(9) Commitments

Estimated costs to complete construction in progress for capital assets at June 30, 2017, for the Authority are approximately \$163,842,000. Commitments primarily relate to major renovations of existing facilities, purchase of medical equipment, information system infrastructure, and various other projects.

(10) Contingencies

(a) Professional Liability

MCVH

MCVH is self-insured for professional liability claims. There have been malpractice claims asserted against MCVH by various claimants. The claims are in various stages of processing and some may ultimately be brought to trial. There are also known incidents that have occurred that may result in the assertion of additional claims. In addition, there may be other claims from unreported incidents arising

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

from services provided to patients. Management of MCVH accrues estimated losses on malpractice claims to the extent they fall within the limits of the MCVH's self-insurance program or exceed the limits of the excess insurance coverage in place at the date of the claim. The undiscounted liability is actuarially determined using industry data and MCVH's historical experience.

Changes in MCVH's estimated losses on malpractice claims for the years ended June 30 were as follows:

	2017		2016
Estimated malpractice losses at beginning of year	\$ 3,456,010	\$	2,853,506
Malpractice claims expense, net of actuarial adjustments	171,453		1,137,592
Malpractice claims settled	(129,669)		(535,088)
Estimated malpractice losses at end of year	\$ 3,497,794	\$	3,456,010

Investments have been set aside based on actuarially determined reserves and are included in assets whose use is designated in the accompanying statements of net position – enterprise fund. At June 30, 2017, the funds internally designated for MCVH include \$3,497,794 for claims and related legal expenses for reported and unreported incidents occurring since July 1, 1998.

The Authority believes that its financial position would not be materially affected by the difference between the amounts recorded and the ultimate cost related to asserted or unasserted MCVH claims, if any, at June 30, 2017.

MCVAP

MCVAP is self-insured for all malpractice claims. There have been malpractice claims asserted against MCVAP by various claimants. The claims are in various stages of processing and some may ultimately be brought to trial. There are also known incidents that have occurred that may result in the assertion of additional claims. In addition, there may be other claims from unreported incidents arising from services provided to patients. Management of MCVAP accrues estimated losses on malpractice claims. The undiscounted liability is actuarially determined using industry data and MCVAP's historical experience.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

Changes in MCVAP's estimated losses on malpractice claims for the years ended June 30 were as follows:

	2017	2016
Estimated malpractice losses at beginning of year	\$ 22,209,731	\$ 23,055,224
Malpractice claims expense, net of actuarial adjustments	(114,272)	2,737,138
Malpractice claims settled	(1,276,092)	(3,582,631)
Estimated malpractice losses at end of year	\$ 20,819,367	\$ 22,209,731

Assets whose use is designated of \$20,819,367 have been internally designated as of June 30, 2017, for payment of claims and related legal expenses for reported and unreported incidents.

The Authority believes that its financial position would not be materially affected by the difference between the amounts recorded and the ultimate cost related to asserted and unasserted MCVAP claims, if any, at June 30, 2017.

CMH

CMH is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; business interruptions; errors and omissions; employee injuries and illnesses; natural disasters; malpractice; and employee health, dental and accident benefits. Insurance coverage is purchased for claims arising from such matters.

CMH can be involved in litigation during the ordinary course of business related to professional liability claims. Management and legal counsel believe all claims should be settled within the limits of insurance coverage, less a \$25,000 deductible. The basic level of coverage limit is \$1,000,000 per event and \$3,000,000 aggregate with an Umbrella policy of \$5,900,000 per event and \$5,900,000 aggregate.

Virginia Premier

Virginia Premier maintains general and professional liability policies. The general liability policy in force is occurrence-based. The coverage under the professional liability policy is on a claims-made basis and must be renewed or replaced with the equivalent insurance if claims incurred during its terms, but asserted after its expiration, are to be insured. Coverage limits for the general liability policy are \$1,000,000 per occurrence and \$3,000,000 in the annual aggregate. The coverage limit for the professional liability policy is \$10,000,000 in the annual aggregate. Management does not believe the amount of liability for any claims incurred but unreported as of June 30, 2017, is significant.

**VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY**
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

Children's

Children's maintains professional liability insurance coverage on a claims-made basis. Should Children's not renew its policy or replace it with equivalent insurance, occurrences during its term but asserted after its term will be uninsured, unless Children's obtains tail coverage.

The Authority believes that its financial position would not be materially affected by the ultimate cost related to unasserted Children's claims, if any, at June 30, 2017.

(b) Workers' Compensation

The Authority is self-insured for workers' compensation claims. The claims are in various stages of processing. In addition, there may be other claims from unreported incidents arising from services provided by employees. Management of the Authority accrues estimated losses on workers' compensation claims to the extent they fall within the limits of the Authority's self-insurance program. The liability is actuarially determined using industry data and the Authority's historical experience.

Changes in MCVH's estimated losses on workers' compensation claims for the years ended June 30 were as follows:

	<u>2017</u>	<u>2016</u>
Estimated workers' compensation losses at beginning of year	\$ 21,495,116	\$ 21,520,715
Workers' compensation expense, net of actuarial adjustments	(3,712,937)	2,478,304
Workers' compensation claims settled	<u>(2,329,972)</u>	<u>(2,503,903)</u>
Estimated workers' compensation losses at end of year	<u>\$ 15,452,207</u>	<u>\$ 21,495,116</u>

Investments have been set aside based on actuarially determined reserves and are included in assets whose use is designated in the accompanying statements of net position – enterprise fund. At June 30, 2017, the funds internally designated include \$15,452,207 for claims and related legal expenses for reported and unreported incidents.

The Authority believes that its financial position would not be materially affected by the difference between the amounts recorded and the ultimate cost related to asserted or unasserted claims, if any, at June 30, 2017.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

(11) Net Patient Service Revenue

The Authority's net patient service revenue is summarized as follows for the year ended June 30, 2017:

MCVH gross charges:	
Inpatient	\$ 2,973,435,500
Outpatient	2,208,939,867
Less uncompensated care	<u>(413,841,728)</u>
Total MCVH gross patient service revenue	4,768,533,639
Less contractual allowances, and uncollectible amounts	<u>(3,194,970,235)</u>
Net patient service revenue – MCVH	1,573,563,404
MCVAP net patient service revenue	257,143,617
CMH net patient service revenue	89,072,799
Children's net patient service revenue	30,097,943
Eliminations	<u>(42,701,290)</u>
Total net patient service revenue	<u><u>\$ 1,907,176,473</u></u>

(12) Estimated Medical Claims Payable

Medical claims payable under Virginia Premier's HMO activities represents management's best estimate of ultimate net cost of all reported and unreported claims incurred. The liability for unpaid claims is computed in accordance with generally accepted actuarial practices and is based upon authorized healthcare services and past claims payment experience, together with current factors, which in management's judgment, require recognition in the calculation. Changes in assumptions for medical and hospital costs, as well as changes in actual experience, could cause these estimates to change in the near term. Such changes are reflected in current operations.

Claims expenses and liabilities arising from services rendered to Virginia Premier's HMO members are reported when it is probable that services have been provided and the amount of the claim can be reasonably estimated. The claims payable at June 30, 2017 and 2016, include an estimate of claims that have been incurred but not reported.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

The following table provides a reconciliation of the beginning and ending claims payable balances for the years ended June 30:

	2017	2016
Balance at beginning of year	\$ 84,466,496	\$ 94,963,621
Add provision for claims occurring in:		
Current year	945,144,679	894,429,022
Prior years	1,317,321	(2,512,191)
Claims incurred during the current year	946,462,000	891,916,831
Deduct payments for claims occurring in:		
Current year	(875,392,114)	(830,323,441)
Prior years	(74,102,788)	(72,090,515)
Claims payments during the current year	(949,494,902)	(902,413,956)
Balance at end of year	\$ 81,433,594	\$ 84,466,496

Virginia Premier has a stop-loss arrangement to limit losses on individual claims. These contracts provide stop-loss coverage for all enrollee claims. The Virginia Premier contract provides coverage for 90% of all inpatient and outpatient services, physician services, and drug-related services in excess of \$375,000 subject to certain limitations and a lifetime limit of \$5,000,000 per enrollee. Premiums paid to the reinsurer for the year ended June 30, 2017, were approximately \$5,817,000 and are included in other expenses in the accompanying statements of revenues, expenses and changes in net position. Benefits of approximately \$6,673,000 were provided by the reinsurer for the year ended June 30, 2017, and are netted with medical claims expense in the accompanying statements of revenues, expenses, and changes in net position.

(13) Related Parties

(a) Virginia Commonwealth University

Effective July 1, 1997, MCVH and VCU entered into an affiliation agreement, which provides that each will support the mission of the other. VCU will provide clinical and administrative support to MCVH. MCVH will be the primary teaching hospital for VCU. VCU leased patient care facilities to MCVH under a 99-year lease for \$1 per year. MCVH leases space in other buildings from VCU with varying renewal options.

In connection with VCU's construction of a parking deck at 8th and Duval Streets on MCVH's campus, MCVH funded approximately \$1,804,000 of the construction costs in fiscal year 2006. In addition, MCVH agreed to assume responsibility for 50% of the payments on the associated construction debt. At June 30, 2017, MCVH's remaining commitment through 2027 is approximately \$3,913,000.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

Payments under the affiliation and lease agreements with VCU for the year ended June 30, 2017, which are included in purchased services and other expenses on the accompanying statements of revenues, expenses and changes in net position, were as follows:

Payments by VCU to MCVH:

Operation and maintenance	\$ 471,927
Rent on short-term space	164,892
Total payments by VCU to MCVH	\$ <u><u>636,819</u></u>

Payments by MCVH to VCU:

Graduate education services	\$ 222,438
Nonphysician clinical support	4,809,205
Administrative support	8,353,418
Rent on short-term space	2,144,408
Principal and interest on parking deck debt	431,025
Use of steam plant	—
Total payments by MCVH to VCU	\$ <u><u>15,960,494</u></u>

Included in the accompanying statements of net position are the following amounts due to related parties as of June 30, 2017:

Due to Virginia Commonwealth University	\$ <u><u>(6,181,172)</u></u>
---	------------------------------

(b) Medical College of Virginia Foundation (MCV Foundation)

The MCV Foundation’s mission is to inspire and steward philanthropy throughout the MCV Campus of VCU. The MCV Foundation provided \$473,063 to MCVAP for the year ended June 30, 2017. The gifts from MCV Foundation were unrestricted and will be used to support the clinical departments.

(c) MCVAP

MCVH has entered into purchased service agreements with MCVAP regarding reimbursement for various services performed on behalf of MCVH by MCVAP. Clinical and Operating Services Agreement (COSA) payments are annually determined and made by MCVH to MCVAP in return for clinical support and joint operations funded by MCVAP and payments for indigent care provided by physicians of MCVAP. During 2017, MCVH paid approximately \$62,252,000 in COSA payments.

MCVH provided MCVAP with approximately \$18,935,000 in information system and administrative services in 2017, which are reimbursed to MCVH by MCVAP on a monthly basis.

MCVH leases clinical and administrative facilities to various MCVAP departments. Rental income related to these facilities totaled approximately \$517,000 for the year ended June 30, 2017.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

(d) Virginia Premier

During 2015, Virginia Premier entered into a promissory note agreement with the Authority for \$75 million. Interest to be paid by Virginia Premier to the Authority ranges from 4.67% to 4.88% annually. Both interest and principal payments require written approval from the Virginia Bureau of Insurance. In March 2017, the Bureau approved repayment of \$26,250,000 of principal and \$8,532,000 of accrued interest. Payment was made by Virginia Premier in May 2017. Interest accrued at June 30, 2017, is \$1,611,629.

During 2017, MCVH provided Virginia Premier with approximately \$7,432,000 in information system services and administrative services, which are reimbursed to MCVH by Virginia Premier on a quarterly basis.

During 2017, Virginia Premier provided certain MCVH departments administrative services for which Virginia Premier received reimbursement of approximately \$343,000.

MCVH provided health care services to Virginia Premier members, for which it received reimbursement of approximately \$40,314,000 for the year ended June 30, 2017, which is included in net patient service revenue by MCVH and medical claims expense by Virginia Premier, prior to eliminations.

(e) UHS

MCVH leases clinic office space from UHS under operating leases. Rental expense under these leases was \$2,673,000 during the year ended June 30, 2017.

(14) Litigation

The Authority has been named as defendant in a number of lawsuits regarding matters generally incidental to its core business. The final outcome of any of these lawsuits cannot be determined at this time. However, management is of the opinion that any ultimate liability to which the Authority may be exposed will not have a material effect on the Authority's financial position or results of operations.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY

Notes to Basic Financial Statements

June 30, 2017

(15) Pension Plans

(a) MCVH – Virginia Retirement System Plan (VRS Plan)

1) Plan

Prior to July 1, 1997, employees of MCVH were employees of the Commonwealth of Virginia (the Commonwealth). These employees were eligible to participate in a defined benefit pension plan administered by the Virginia Retirement System (VRS). VRS is an independent agency of the Commonwealth of Virginia. After July 1, 1997, employees could choose to remain in the VRS Plan or enroll in the MCVH Authority Defined Contribution Plan (the Plan). As of June 30, 2017, 355 employees remain enrolled in VRS. Participating MCVH employees are eligible for VRS's Plan 1 benefit structure in which the retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. The Commonwealth, not MCVH, has overall responsibility for these plans. VRS issues a Comprehensive Annual Financial Report (CAFR) containing the financial statements and required supplementary information for all of VRS' pension trust funds. The CAFR is publicly available at www.varetire.org through the About VRS link or a copy may be obtained by submitting a request to the VRS Chief Financial Officer, P.O. Box 2500, Richmond, VA.

2) Contributions

The contribution requirement for active employees is governed by 51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2013, the 5.00% member contribution was paid by MCVH. Beginning July 1, 2013, MCVH employees were required to pay the 5.00% member contribution. Each state agency's (including MCVH) contractually required contribution rate for the year ended June 30, 2017, was 13.49% of covered employee compensation for employees in the Plan. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2015. The contribution rate for the Plan also reflects the transfer in June 2016 of \$162,406,273 as an accelerated payback of the deferred contribution in the 2010-12 biennium. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from MCVH to the Plan were \$3,926,430 and \$4,376,770 for the years ended June 30, 2017 and June 30, 2016, respectively.

**VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY**
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

3) Net Pension Liability

MCVH reported a liability of \$52,121,000 for its proportionate share of the Net Pension Liability for the year ended June 30, 2017. The Net Pension Liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. MCVH's proportion of the Net Pension Liability was based on MCVH's actuarially determined employer contributions to the pension plan for the year ended June 30, 2016, relative to the total of the actuarially determined employer contribution for all participating employers. At June 30, 2016, MCVH's proportion of the Plan was 0.79% as compared to 0.87% at June 30, 2015.

4) Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

MCVH recognized pension income of \$220,000 for the Plan for the year ended June 30, 2017. Since there was a change in proportionate share between June 30, 2015 and June 30, 2016, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2017, MCVH reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred outflows of resources	Deferred inflows of resources
Differences between expected and actual experience	\$ 223,000	\$ 1,418,000
Net difference between projected and actual earnings on pension plan investments	3,322,000	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	7,620,000
Employer contributions subsequent to the measurement date	3,926,430	-
Total	\$ 7,471,430	\$ 9,038,000

Deferred outflows of resources related to employer contributions subsequent to the measurement date totaling \$3,926,430 will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. The net inflows of resources related to pensions will be recognized in pension expense as follows:

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

Year ended June 30:		
2018		\$ 4,580,000
2019		2,844,000
2020		(570,000)
2021		(1,361,000)
		\$ 5,493,000

5) Actuarial Assumptions

The total pension liability for the VRS Plan was based on an actuarial valuation as of June 30, 2015, using the entry age normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Discount rate	7.0%
Inflation	2.5%
Salary increases, including inflation	3.5%–5.35%
Investment rate of return including	7.0%, net of pension plan investment expense, inflation

Mortality rates:

Pre-Retirement: RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 2 years and females were set back 3 years.

Post-Retirement: RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with females set back 1 year.

Post-Disablement: RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement.

The actuarial assumptions used in the June 30, 2015, valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Updated mortality table
- Decrease in rates of service retirement
- Decrease in rates of withdrawals for less than 10 years of service
- Decrease in rates of male disability retirement
- Reduce rates of salary increase by 0.25% per year

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

6) Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset class (strategy)</u>	<u>Target allocation</u>	<u>Arithmetic long-term expected rate of return</u>	<u>Weighted average long-term expected rate of return</u>
U.S. equity	19.50%	6.46%	1.26%
Developed Non U.S. equity	16.50	6.28	1.04
Emerging market equity	6.00	10.00	0.60
Fixed income	15.00	0.09	0.01
Emerging debt	3.00	3.51	0.11
Rate sensitive credit	4.50	3.51	0.16
Non rate sensitive credit	4.50	5.00	0.23
Convertibles	3.00	4.81	0.14
Public real estate	2.25	6.12	0.14
Private real estate	12.75	7.10	0.91
Private equity	12.00	10.41	1.25
Cash	1.00	(1.50)	(0.02)
Total	<u>100.00%</u>		<u>5.83</u>
	Inflation		<u>2.50</u>
	* Expected arithmetic nominal return		<u>8.33%</u>

* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

7) Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made per the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by MCVH for the Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, all agencies are assumed to contribute 100% of the actuarially determined

**VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY**
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

contribution rates. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

8) Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents MCVH's proportionate share of the Plan's net pension liability using the discount rate at 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	<u>1% Decrease</u>	<u>Discount rate</u>	<u>1% Increase</u>
Net pension liability	\$ 73,351,000	\$ 52,121,000	\$ 34,297,000

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued VRS financial report.

(b) VCUHS Retirement Plan (VCUHS 401(a) Plan)

The MCVH Authority Defined Contribution Plan was amended and restated effective January 1, 2002 and is now referred to as the VCUHS Retirement Plan (the VCUHS 401(a) Plan). All employees, excluding house staff, working at least 20 hours a week in a benefit-eligible position are eligible to participate in the VCUHS 401(a) Plan. At June 30, 2017, there were 7,166 participants in the VCUHS 401(a) Plan. Per the VCUHS 401(a) Plan document as approved by the Authority's Board of Directors, MCVH contributes up to 10% of the participant's salary to the VCUHS 401(a) Plan not to exceed the lesser of (a) the amount in accordance with Code 415(d), or (b) one hundred percent (100%) of the Participant's Compensation for such limitation year. Contributions are a function of the employee's age plus years of service per the table below. Total contributions to the VCUHS 401(a) Plan for the year ended June 30, 2017, were approximately \$24,263,000. MCVH shall have the right at any time, and without the consent of any party, to terminate the VCUHS 401(a) Plan in its entirety. Any changes to the provisions of the VCUHS 401(a) Plan, including the contribution requirements, must be approved in writing by the Authority's Board of Directors.

<u>Age plus years of service</u>	<u>Employer contributions 401(a) Plan</u>
65+	10%
55-65	8
45-55	6
35-45	4
<35	2

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

MCVH also sponsors the VCUHS Savings Plan (VCUHS 457(b) Plan), a savings plan that represents employee contributions and employees may also receive a 2% matching contribution in their VCUHS 401(a) Plan based on their 457(b) contribution.

MCVH has also established the HCP Plan. All persons hired as a health care provider on or after July 1, 1993 and prior to July 1, 1997 and working at least 35 hours of service per week are eligible to participate in the HCP Plan. At June 30, 2017, there were 3 participants in the HCP Plan. All significant provisions of the HCP Plan, including the contribution requirements, are similar to the VCUHS 401(a) Plan. Total contributions to the HCP Plan for the year ended June 30, 2017, was approximately \$29,702.

The VCUHS 401(a) Plan and the HCP Plan use the accrual basis of accounting and the VCUHS 401(a) Plan assets, which consist of mutual funds, are carried at fair market value. The fair market values of the mutual funds are based on quoted market prices. Investments with investment managers are as follows at June 30, 2017:

Fidelity Investments	\$ 225,486,754
TIAA/CREF	107,978,541
The Variable Annuity Life Insurance Company (VALIC)	11,672,834
	\$ 345,138,129

(c) **MCVAP**

MCVAP sponsors the MCVAP 401(a) Retirement Plan (the 401(a) Plan), a noncontributory, defined contribution plan, which covers substantially all full-time clinical provider employees of MCVAP and the MCVAP 403(b) Salary Deferral Plan (the 403(b) Plan), a salary deferral plan that represents physician contributions. Contributions to the 401(a) Plan by MCVAP, as determined annually at the discretion of the Board of Directors, was approximately \$20,117,000 for the year ended June 30, 2017.

**VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY**
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

MCVAP also participates in the VCUHS Retirement Plan (VCUHS 401(a) Plan), a defined contribution plan, which covers all benefited nonclinical provider employees of MCVAP; the VCUHS Savings Plan (VCUHS 457(b) Plan), a savings plan that represents employee contribution and the MCVAP 403(b) Supplemental Plan (the 403(b) Highly Compensated Plan), a noncontributory defined contribution plan for highly compensated employees. The VCUHS 401(a) Plan contributions (as a percentage of the employee's salary) are a function of the employee's age plus years of service per the table below. MCVAP employees may contribute to the VCUHS 457(b) Savings Plan. Employees may also receive a 2% matching contribution in their VCUHS 401(a) Plan based on their 457(b) contribution.

Age plus years of service	Employer contribution (VCUHS 401(a) Plan)
65+	10%
55–65	8
45–55	6
35–45	4
<35	2

Contributions to the VCUHS 401(a) Plan for the year ended June 30, 2017, was approximately \$4,113,000.

(d) CMH

CMH participates in the VCUHS 401(a) Plan and retirement plan expense was approximately \$1,443,000 for the year ended June 30, 2017.

(e) Virginia Premier

Effective August 1, 1999, Virginia Premier adopted a 401(k) plan, for which Fidelity Investments is the trustee. Prior to January 1, 2015, employees become eligible to participate after completing one year of service, during which the employee completed 1,000 hours of service. Effective January 1, 2015, employees became eligible to participate following one month of service. There is no minimum service or age requirement to participate in the 401(k) plan. Employees may contribute 1% to 90% of their compensation. Virginia Premier will match 50% of the employee's contributions up to 4% of the employee's compensation. Matching will occur based on the biweekly pay periods.

**VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY**
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

In addition, Virginia Premier contributes 3% of each employee’s compensation (Safe Harbor contribution). Virginia Premier also contributes 2% of each employee’s compensation (Non Elective base contribution). Virginia Premier made the Safe Harbor and Non Elective base contributions in an annual installment at the end of the calendar year through December 2014. Starting January 2015, Safe Harbor and Non Elective base contributions are made on the biweekly pay periods. Also starting January 2015, Virginia Premier may make additional contributions (Non Elective employer contributions) based on age plus years of service as of January 1st of the plan year. This additional Non Elective contribution was made after the end of the calendar years 2016 and 2015.

Age plus years of service	Nonelective employer contributions
65+	5%
55–65	3
45–55	1
<55	–

Employees are fully vested after four years of service in which the employee begins employment. The number of covered employees was 1,190 as of June 30, 2017. Virginia Premier’s expense for its contributions to this plan was approximately \$4,076,000 for the year ended June 30, 2017.

(f) Children’s

Children’s has a noncontributory defined benefit pension plan (Pension Plan) covering substantially all Children’s employees. The Pension Plan provides benefits that are based on the five consecutive years for which an employee’s compensation is highest. Children’s funding policy is to make the minimum annual contribution that is required by applicable regulations, plus such amounts as Children’s may determine to be appropriate from time to time. Effective June 30, 2010, Children’s decided to freeze all future benefit accruals for those who were active plan participants. The Pension Plan is also frozen to new participants as of that date.

The measurement date for determining the Pension Plan’s funded status is June 30. The Pension Plan’s fair value of plan assets of \$9,833,684 as of June 30, 2017, is recorded in other assets on the accompanying statements of net position. The Pension Plan’s liability of \$11,390,181 as of June 30, 2017, is included in net pension liability on the accompanying statements of net position.

Children’s participates in the VCUHS 401(a) Plan and retirement plan expense was approximately \$1,238,000 for the year ended June 30, 2017.

VIRGINIA COMMONWEALTH UNIVERSITY
HEALTH SYSTEM AUTHORITY
(A Component Unit of Virginia Commonwealth University)

Notes to Basic Financial Statements

June 30, 2017

(16) Concentration of Credit Risk

The Authority grants credit without collateral to its patients, most of whom are area residents insured under third-party payer agreements. The composition of net receivables from patients and third-party payers as of June 30, 2017 follows:

Anthem	31%
Medicaid	12
Medicare	13
Other	44
	<hr/>
	100%
	<hr/> <hr/>

Revenue from the Medicare and Medicaid/Indigent programs accounted for approximately 22% and 26%, respectively, of the Authority's net patient service revenue for the year ended June 30, 2017. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates may change by a material amount in the near term.

About EY

EY is a global leader in assurance, tax, transaction and advisory services. The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders. In so doing, we play a critical role in building a better working world for our people, for our clients and for our communities.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. For more information about our organization, please visit ey.com.
