

In accordance with Item 213 of the Appropriations Act, the Virginia Community College System (VCCS) offers the following in-depth summary of workforce development and noncredit instruction during FY 2017.

## **Introduction**

### **Supporting Workforce and Noncredit Instruction**

#### **Institutes of Excellence**

#### **Specialized Workforce Centers**

## **Introduction**

Virginia's Community Colleges provide a variety of activities to support employers, incumbent workers, and the emerging workforce. These activities include career pathway programs that assist individuals in transitioning to employment after training is provided, open enrollment courses (offered to the general public) that allow employees or potential employees to upgrade their skills, and customized training, which provides the opportunity for employers to develop a course of study for employees that meets specific training needs.

Fiscal Year 2017 marked the second year of VCCS's strategic plan, *Complete 2021*, which focuses on tripling the number of credentials earned by community college students. These credentials include degrees, diplomas, and certificates awarded as the result of credit coursework, as well as industry certifications and professional licensures awarded by third-party entities as the result of either credit or noncredit coursework provided by Virginia's Community Colleges.

### **Supporting Workforce and Noncredit Instruction at Community Colleges**

Recognizing the importance of creating and sustaining a demand-driven supply of credentialed workers for high-demand occupations in the Commonwealth, state lawmakers created a new grant program in 2016 to make specific workforce training programs much more affordable for Virginians. The New Economy Workforce Credential Grant program, allocating \$12 million over fiscal years 2017 and 2018, reduces the student cost of specific workforce credential training programs by two-thirds so that more people can access this type of training and the high-demand jobs that stem from it. The grant program covers over 145 different community college training programs for in-demand jobs across the Commonwealth. With the Workforce Credentials Grant, students are eligible for up to \$3,000 in grant money to help pay for the cost of credential training. Most programs take between six and twelve weeks and are built so Virginians can get their education while they work. At Virginia's Community Colleges, students can gain the skills that they need quickly and affordably, while creating more opportunity for their future.

Colleges use funds to design and offer training programs that meet the current workforce needs through delivery of noncredit open enrollment and customized training. During Fiscal Year 2017, colleges provided more than 50,000 individuals with noncredit workforce training. The types of workforce instruction include courses that provide skills upgrades, such as training in information technology, leadership and supervision, and project management. In addition, Workforce Credential Grant funds support training that prepares individuals to earn an industry-recognized credential such as a certification or licensure. These programs focus on a wide variety of high demands fields, such as training for certified nursing assistants, pharmacy technicians, and medical coding and billing specialists; trades-related occupations, such as electricians, HVAC technicians, and welders; advanced manufacturing, such as the manufacturing technician 1; and information technology, including cybersecurity and CompTIA certifications. During Fiscal Year 2017, Virginia's Community Colleges

provided training for over 22,000 industry-recognized credentials like these. More than 52 percent of these were awarded as the result of noncredit instruction.

Employers are another key customer of community college workforce services, whether through direct contracts or through partnerships with economic development and community agencies that assist existing or potential employers. Last year, colleges served over 1,300 employers through noncredit training. In addition, workforce staff partnered with economic development agencies on 202 projects to recruit employers to the region and worked with community agencies on 150 projects to provide training services to dislocated workers.

Workforce coordinators at Virginia's Community Colleges consist of administrative and professional faculty, as well as classified staff. Each coordinator is evaluated annually using established Virginia Community College System and Virginia Department of Human Resources performance plans and procedures.

### **Improving Industry Credential Attainment, Employment Attainment and Services to Employers through Institutes of Excellence, Fiscal Year 2017**

Community colleges received funding through the Institutes of Excellence program to develop and improve workforce training programs targeted at high-demand, high-growth workforce needs as recognized by today's employers. The focus of these projects was on preparing workers for completion of industry certifications and licensures. Community colleges used these state Institute of Excellence general funds and other state and federal funds authorized by the U.S. Congress and the Virginia General Assembly to support noncredit training and credentialing efforts related to high demand industry credentials. Virginia's community colleges responded to a competitive proposal process to use Institute of Excellence funds to support program development and capacity building in a various high demand industry sectors, including advanced manufacturing, health sciences, cyber-security, skilled trades, and information technology. Colleges developed 39 programs and served approximately 2,500 program participants. An additional 23 programs are in development for future enrollments.

Institute of Excellence funding supported program development that resulted in students receiving training and industry certifications or licensures including Backflow Prevention, Certified Nurse Assistant, CompTIA Security, EETC Certified Engine Technician – 2 and 4 stroke, NCCER Core Crafts, Project Management, NIMS Machining Skills, and Siemens Mechatronics.

Lastly, through the Institutes of Excellence showcase at the annual Hire Ed conference, colleges set up display booths and delivered presentations on each of their projects, including curricula developed, recruitment materials, and program outcomes. This provided the opportunity for over 400 attendees representing economic development, workforce, and education to share and learn from their experiences.

### **Expanding Services through Specialized Workforce Centers**

In addition to the Institutes of Excellence, individuals and employers were served in Fiscal Year 2017 by the four specialty workforce centers located at Central Virginia, Danville, Paul D. Camp, and Thomas Nelson Community Colleges. These colleges improved and expanded training and developed new programs through noncredit workforce related instruction. Workforce projects at these centers are described below. The allocation of state funds to these specialized workforce centers requires a 25 percent match from each college. Matching funds were provided by local and county governments,

regional foundations, and federal grants, demonstrating the investment that these groups have in the workforce services provided by the centers.

**Central Virginia Community College (CVCC)** used the funds from this appropriation to enable the college to provide educational and training services to the employers and residents in their service region including: providing over 51,680 contact hours of workforce-related training, offering training to 1,971 individuals in their service region, sponsoring three job fairs that served over fifty employers, awarding 1,333 industry-recognized credentials, and sponsoring 19 career camps for middle and high-school students providing students with career related experiences in science, math, engineering and health careers.

**Danville Community College (DCC)** continues to respond to workforce needs for individuals and business and industry partners in the college service region. The DCC Regional Center for Advanced Training and Technology (RCATT) hosts a majority of workforce services and contributes to economic development by featuring polymers, electronics, and industrial maintenance laboratories in three high-ceiling, open-area classrooms. Halifax County continues to strongly support the technology programs, especially with new and fully operational labs in the county. On-campus programs in Precision Machining and Integrated Systems Technology remain vibrant with enrollment topping 150 students and with strong support from several companies in Pittsylvania County. DCC is currently engaged in an initiative to implement competency-based education into the Welding and Integrated Systems Technology programs to enhance learning.

**Paul D. Camp Community College (PDCCC)** focused on the following noncredit training programs leading to employment and employee promotion: launched the area's first NCCER Industrial Maintenance Electrical & Instrumentation (4-Level) program, implemented several in-demand IT programs (CompTIA A+, Network+, and Security+), delivered a truck driver training program (Class A CDL) at their Suffolk location (Class B is scheduled to start in 2018), transferred two credit programs over to noncredit to make the scheduling more flexible and the courses more accessible for students, doubled the number of Fast Track Welding programs in 2017 to meet demand, developed a partnership with the Virginia Ship Repair Association to offer the Outside Machinist Pre-hire program at their Suffolk location, provided monthly Backflow Prevention and Forklift/Clamp Truck/Reach Truck courses, partnered with Germanna Community College to offer several asphalt courses, offered numerous customized training programs to meet employers' needs, developed 12 soft skills modules for employers and students, and created a new Regional Warehouse and Distribution Training Facility at a local warehouse to provide students hands-on experience in a real-world environment - students get OSHA 10, Career Readiness Certificate, soft skills training, and material handling equipment training before moving to the Global Logistics Associate credential and/or Logistics Management program.

**Thomas Nelson Community College (TNCC)** served 6,725 individuals and 527 companies with customized coursework, industry certification classes, and business workforce services including building hiring pipelines at the Peninsula Workforce Development Center (PWDC).

The Welding Center is one of two VCCS American Welding Society accredited testing facilities (ATF), and the first of any public or private ATF in Hampton Roads. Emerging, transitional and incumbent workers rotate through the welding center, achieving skill levels from basic to advanced in all welding disciplines. In Fiscal Year 2017, the facility housed training programs for 87 students, with 80 percent of them achieving one or more national AWS credentials. The Newport News Shipbuilding used the center to train 55 additional individuals to their specifications.

Increased demand for trades training resulted in the acquisition of a 4,500 square foot satellite extension facility, the Thomas Nelson Center for Building and Construction Trades (CBCT) expanding the HVAC Technician program, adding Apartment Maintenance Technician, and an Electrician program for Fiscal Year 2018. Partnerships were developed for WIRED for Success, a FastForward training and employment partnership for entry-level electricians.

TNCC continues to be the co-operator of the Peninsula Worklink WIOA one-stop in the PWDC in partnership with four other primary state and local agencies sharing staff and facility costs providing free career search services for 5,518 individuals.

The College Career Center at the PWDC served 1,500 credit and noncredit students. The center offers many employer events throughout the year, including: reverse career fairs at which companies stand in line to interview the graduates of certification classes, the Peninsula Executive Leadership Forum, job fairs, a regional SharkTank, and START Peninsula sponsored by six local governments. Seventy-seven individuals attended this entrepreneurship activity over three days in the PWDC conference center.

The TNCC workforce staff developed and hosted three public-private summer camps for middle and high school youth at the PWDC with 12-20 participants each and 5-6 industry and college coaches.

## VIRGINIA COMMUNITY COLLEGE SYSTEM

### Management's Discussion and Analysis

The Virginia Community College System (VCCS) was established by the Virginia General Assembly as an institution of higher education in 1965. The System includes the State Board for Community Colleges, a System Office located in Richmond, and twenty-three community colleges located on forty campuses throughout the Commonwealth. The VCCS mission is to give everyone the opportunity to learn and develop the right skills so lives and communities are strengthened.

The following discussion and analysis provides an overview of the financial position and activities of the VCCS for the year ended June 30, 2017. This discussion has been prepared by management and should be read in conjunction with the financial statements and footnotes.

The community college foundations are included in the accompanying financial statements as a discrete component unit in a separate column. The following discussion and analysis does not include the financial condition and activities of the foundations.

#### ***Financial Highlights***

The significant financial highlights for the VCCS in fiscal year 2017 were:

- Total net position increased by 4.81%. An increase in net position is generally considered indicative of improvement in an organization's overall financial condition.
- Total operating revenues remained relatively constant with a total percentage increase of only 1.16%. Student tuition and fees, net of scholarship discounts and allowances, represented 70.11% of total operating revenues.
- Effective fall 2016, the State Board for Community Colleges approved a tuition increase of \$3.75 per credit hour for all students. In addition, the State Board approved tuition differential rate increases of \$1.25 per credit hour for Northern Virginia Community College (NVCC) and \$0.50 per credit hour for John Tyler Community College (JTCC.) These tuition rate increases accounted for additional tuition revenues of \$14.5 million in fiscal year 2017.
- From fiscal year 2016 to 2017, student full-time equivalent (FTE) enrollment decreased 5.29% from 111,124 FTEs to 105,242 FTEs. This decrease resulted in a decline in tuition and fee collections of approximately \$29.3 million in fiscal year 2017. One FTE represents 30 credit hours of classes taken by a student over an academic year and is calculated on an annual basis by taking the total credit hours taught divided by 30.
- Total state appropriations revenue (non-capital) increased 5.11%, while state capital appropriations revenue decreased by 40.99% due to completion of construction projects at Blue Ridge Community College (BRCC), JTCC, Lord Fairfax Community College (LFCC), NVCC and Tidewater Community College (TCC).
- Total operating expenses remained relatively flat with an overall decrease of 1.64%. Expenses for employee compensation represented 62.91% of the total.

## **Financial Statements**

The three financial statements presented are the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows.

### **Statement of Net Position**

The Statement of Net Position presents the assets, deferred outflows of resources, liabilities, and deferred inflows of resources for the VCCS at the end of the fiscal year. The Statement also provides the net position of the VCCS at the end of the fiscal year. Net position is a residual amount equal to assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position is presented in three categories. The first category, "Net investment in capital assets," consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of any borrowings that are attributable to the acquisition, construction or improvement of those assets. The next category is "Restricted net position" which consists of restricted assets reduced by liabilities related to those assets. Restricted net position balances are further classified as nonexpendable or expendable. Nonexpendable balances consist of loan funds and permanent endowments (available for investment purposes only). Expendable balances are available for expenditure by the VCCS, but must be spent for purposes determined by external entities. Unrestricted net position balances are not subject to externally imposed restrictions and may be designated for specific purposes by management of the VCCS.

Effective fiscal year 2015, the Governmental Accounting Standards Board (GASB) issued Statement 68, *Accounting and Financial Reporting for Pensions*, and Statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date, an amendment of GASB Statement 68*. These reporting changes require the VCCS to record a proportionate share of the pension liabilities, deferred inflows of resources, deferred outflows of resources, and expenses from the Virginia Retirement System (VRS) State Employee Retirement Plan and the Virginia Law Officers' System (VaLORS) Retirement Plan. Prior to implementation of these statements, VRS did not measure assets and pension benefit obligations separately for individual state institutions.

A summarized Statement of Net Position is as follows:

	<b>(in thousands of dollars)</b>			
	<b>As of June 30:</b>			
	<b>2017</b>	<b>2016</b>	<b>Dollar Change</b>	<b>Percentage Change</b>

<b>Total Net Position</b>	<b>\$933,493</b>	<b>\$890,623</b>	<b>\$42,870</b>	<b>4.81%</b>

Current Assets

Current assets consist of \$238.5 million in cash, cash equivalents, and short-term investments, \$14.7 million in accounts, notes, and interest receivable, \$8.1 million in amounts due from the commonwealth, \$31.2 million in prepaid expenses, and \$1.5 million in inventories. The \$10.6 million decrease in current assets was primarily attributable to a decrease of \$26.4 million in cash, cash equivalents, and short-term investments, offset by an increase of \$16.9 million in prepaid expenses.

The decrease of \$26.4 million in cash, cash equivalents, and short-term investments represents a 10% decrease as compared to prior year and was principally attributable to movement of cash and cash equivalents to longer term investments. NVCC accounted for the majority of the transfer to investments with a \$34 million increase in government and corporate bonds and an offsetting decrease in local government investment pools.

The increase in prepaid expenses of \$16.9 million was largely due to increases of \$11.7 million and \$4.6 million at NVCC and the System Office respectively.

Capital Assets, Net of Accumulated Depreciation

The overall decrease of \$2.6 million in net capital assets was due to changes across various capital asset categories. The following table compares fiscal year 2017 to fiscal year 2016 capital asset balances by category:

**Capital Assets, Net (By Asset Category)**  
(in thousands of dollars)

As of June 30:

Capital Asset Category	2017	2016	Dollar Change	Percentage Change
Land	\$70,139	\$69,734	\$405	0.58%
CIP	37,557	53,667	(16,110)	(30.02)%
Land Improvements	37,518	39,264	(1,746)	(4.45)%
Infrastructure	42,312	44,010	(1,698)	(3.86)%
Buildings	1,101,459	1,077,698	23,761	2.16%
Equipment	60,288	64,064	(3,776)	(5.89)%
Intangibles	5,485	7,500	(2,015)	(36.74)%
Library Books	10,649	12,028	(1,379)	(11.46)%
<b>Total</b>	<b>\$1,365,407</b>	<b>\$1,367,965</b>	<b>\$(2,558)</b>	<b>(.19)%</b>

Construction in Progress (CIP) decreased due to projects being moved to applicable depreciable and non-depreciable asset categories at NVCC and LFCC. Depreciable Land Improvements, Infrastructure, Equipment, Library Books and Intangibles all decreased due to current year depreciation being greater than current year additions. The increases in Land and Building is due projects being moved from CIP to a depreciable asset category.

Other Non-Current Assets

The \$37.1 million increase in other non-current assets was predominately due to increases of \$38.5 million in other long-term investments and \$3.2 million in appropriation available, partially offset by decreases of \$2.3 million in cash held with trustees and \$1.5 million in amounts due from the commonwealth.

Cash equivalents held with trustees consists of balances in State Non-Arbitrage Program (SNAP) accounts related to pooled bond capital projects. The overall balance decreased by \$2.3 million in fiscal year 2017 as payments continued on various pooled bond projects.

The balance in appropriation available consists of General and Central Capital Planning funds for capital projects. Danville Community College (DCC) received \$6.2 million in the current year for construction and renovation of their engineering and industrial technology building.

Other long-term investment balances increased significantly at NVCC due to a movement of \$34 from short term local government investment pools to longer term government and corporate bonds.

Deferred Outflows of Resources

The financial statement deferred outflows of resources category is used to report consumption of resources applicable to a future reporting period. The balances reported for fiscal years 2016 and 2017 included amounts for certain pension changes and will be recognized as pension expense in future fiscal years. In addition, the balances for both fiscal years included deferred losses on defeasance of debt related to refinancing of certain pooled bond issuances and will also be recognized as expense in future fiscal years.

### Current Liabilities

Current liabilities consist of accounts and retainage payable of \$53.6 million, accrued payroll expense of \$51.8 million, unearned revenue of \$51.2 million, long-term obligations (current portion) of \$30.7 million, and deposits totaling \$9 million.

Current liabilities increased by \$3.3 million in fiscal year 2017 primarily due to increases of \$3.6 million in accounts and retainage payable, \$1.2 million in accrued payroll expense, and an offsetting decrease of \$2 million in unearned revenue.

The change in accrued payroll represented a 2.3% increase from the prior fiscal year spread across multiple colleges. Such a minimal change is considered normal given personnel changes occurring in the ordinary course of business (e.g. turnover of personnel, pay rate changes).

### Non-Current Liabilities

Non-Current liabilities consist of a net pension obligation of \$570.8 million, capital lease liabilities of \$3.3 million, installment purchases payable of \$2.3 million, pooled bonds of \$112.1 million, accrued leave of \$10.3 million, federal loan program amounts due of \$3.5 million, and unearned revenue of \$0.4 million. The increase of \$32.4 million in non-current liabilities was primarily due to an increase of \$42.1 million in the VCCS' proportionate share of the overall VRS pension liability. Beginning in fiscal year 2015, with implementation of a new accounting standard, VRS began providing information on the measurement of assets and pension benefit obligations separately for individual colleges. The liability amount fluctuates each year based on many factors including rate of return on retirement investments, changes to actuarial assumptions, etc. The impact of the pension liability increase was partially offset by decreases of \$5.4 million and \$1.6 million, respectively, in long-term pooled bond debt and long-term compensated absences. The decrease in pooled bond debt was due to refunding of old debt and reclassification from long-term to short-term. The decrease in long-term compensated absences was mostly due to long-term versus short-term classification differences between fiscal years. The total compensated absences decrease was \$1.4 million, a percentage decrease of less than 4.5%.

### Deferred Inflows of Resources

The financial statement deferred inflows of resources category is used to report acquisition of resources applicable to a future reporting period. The balance in fiscal year 2017 reflects certain amounts related to pensions and will impact pension expense in future fiscal years.

### Net Position

The \$4.3 million increase in net investment in capital assets is explained by a decrease of \$2.6 million in capital assets, net of accumulated depreciation, reduced by a net increase of \$6.9 million in capital asset related debt and deferred outflow balances. The increase of \$38.6 million in the unrestricted net position category represents a percentage increase of 10.74% and was a result of slight increases in unrestricted revenue, coupled with an overall slight decrease in operating expense. The balance in total net position is a residual amount equal to the sum of total assets and deferred outflows of resources less the sum of total liabilities and deferred inflows of resources and is considered one measure of the current financial condition of an organization. The increase of 4.81% is an indication that the overall financial condition of the VCCS improved in fiscal year 2017.

### **Statement of Revenues, Expenses and Changes in Net Position**

The purpose of the Statement of Revenues, Expenses and Changes in Net Position is to present operating and non-operating revenues received by the institution, operating and non-operating expenses incurred and any other revenues, expenses, gains and losses. Changes in net position as presented on the Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses and Changes in Net Position.

A summarized statement of revenues, expenses and changes in net position follows:

	<b>(in thousands of dollars)</b>		<b>Dollar Change</b>	<b>Percentage Change</b>
	<b>For the year ended June 30: 2017</b>	<b>2016</b>

A graphic presentation of fiscal year 2017 revenues by source (per the Statement of Revenues, Expenses and Changes in Net Position) is below.

## Total Revenue - By Source

### Operating Revenues

Total operating revenues remained relatively constant as compared to the prior year with a total percentage increase of only 1.16%. Gross student tuition and fee revenues (before scholarship discounts and allowances) declined by \$1.2 million, a decrease of only 0.02%. Increased revenue from higher tuition and fee rates was offset by decreased revenue due to fewer student FTEs. However, scholarship discounts and allowances decreased slightly in the current year with a percentage decline of 4.39%; therefore, net tuition and fees revenue increased by 1.81% primarily due to a reduction in scholarship discounts and allowances applied against tuition and fees in fiscal year 2017 as compared to fiscal year 2016.

### Non-operating and Other Revenues

Total net non-operating revenue (non-operating and other) decreased by \$23 million or 3.2% primarily as a result of a \$27.1 million decrease in gifts, grants, and contracts (non-operating and capital) driven by a significant reduction in Federal Pell Grant revenue due to reduced student enrollment and a \$28.1 million reduction in state capital appropriation revenue related to decreased VCBA funded activity. These decreases were partially offset by a \$21.3 million increase, approximately 5.11%, in state operating appropriations, and by an increase of \$11.2 million in other non-operating revenue. The increase in non-operating revenue is the result of a special contribution to the Virginia Retirement System paid from the State on behalf of agencies.

The following table is a detailed breakdown of operating expenses by function and a comparison of changes by category for the periods ended June 30, 2017 and 2016:

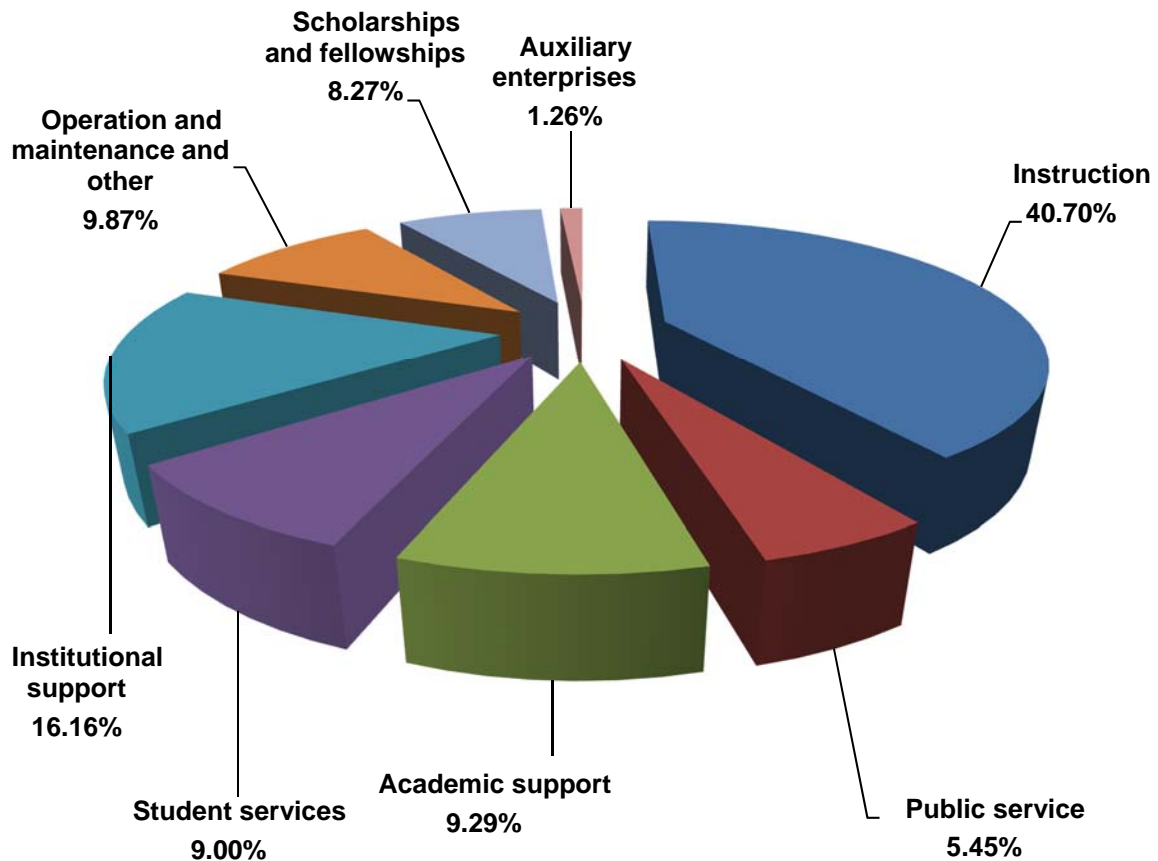

**Summary of Expenses by Function**

## Operating Expenses - By Function

### Operating Expenses

Operating expenses totaled approximately \$1.2 billion for fiscal 2017 and declined by \$20 million. The natural expense category, compensation and benefits, comprised \$748.2 million of total VCCS operating expenses and remained relatively constant. Scholarship expenses declined by \$12.6 million (11.14%) due to decreased enrollment coupled with reduced federal grant funding, and the net change across the other natural expense categories (i.e. utilities, depreciation, and supplies, services, and other expenses) was a decrease of \$7.2 million (2.08%). These changes resulted in fluctuations between functional categories, but the overall effect was a decrease in total operating expenses of 1.64%.

## **Statement of Cash Flows**

The Statement of Cash Flows provides additional information about the financial results of the VCCS by reporting the major sources and uses of cash.

A summary of the cash flows is as follows:

	<b>(in thousands of dollars)</b>			
	<b>For the year ended June 30:</b>			
	<b>2017</b>	<b>2016</b>	<b>Dollar Change</b>	<b>Percentage Change</b>
Cash received from operations	\$521,677	\$521,161	\$516	0.10%
Cash used in operations	1,144,414	1,114,950	29,464	2.64%
Net cash used in operations	<u>\$(622,737)</u>	<u>\$(593,789)</u>	<u>\$(28,948)</u>	<u>(4.88)%</u>
Net cash provided by non-capital financing activities	\$648,645	\$646,599	\$2,046	0.32%
Net cash used in capital and related financing activities	(17,460)	(23,586)	6,126	25.97%
Net cash provided by (used in) investing activities	(36,504)	(15,000)	(21,504)	(143.36)%
Net increase (decrease) in cash and cash equivalents	<u>\$(28,055)</u>	<u>\$14,224</u>	<u>\$(42,280)</u>	<u>(297.24)%</u>
Cash and cash equivalents, beginning of year as adjusted	<u>\$272,766</u>	<u>\$258,542</u>		
Cash and cash equivalents, end of year	<u>\$244,710</u>	<u>\$272,766</u>		

The primary sources of cash for the VCCS included tuition and fees of \$363.8 million, operating grants and contracts of \$112.8 million, and auxiliary revenues of \$26.5 million. The primary uses of operating cash included employee salaries, wages, fringe benefits and pension benefits of \$759.1 million, operating expenses (payments to suppliers/others and utilities) of \$284.1 million and scholarships of \$100.9 million. Net cash used in operations is significantly greater than the cash received from operations on this statement due to the required presentation of state appropriation and grants/gifts as cash flows from non-capital financing activities. Net cash flows from capital and related financing activities increased \$6.1 million due primarily to a decrease in cash disbursements of \$44.3 million for capital asset purchases, a decrease in debt interest payments of \$0.6 million offset by a decrease of \$38.8 million in capital appropriations. Net cash provided by (used in) investing activities decreased \$21.5 million largely due to higher investment purchases. The overall decrease in cash and cash equivalents was \$28.1 million at the end of fiscal year 2017.

## ***Economic Outlook***

In fiscal year 2017, the Commonwealth predicted a 2.9% increase in general fund revenues and actually collected at a rate that was 3.6% above fiscal year 2016. In response to revenue shortfalls in previous years, the Commonwealth permanently reduced the VCCS general fund by approximately \$75.5 million between fiscal years 2008 and 2012; however, as of the fiscal year 2018 budget, \$65.1 million has been added since that time. The fiscal year 2018 general fund budget, though, was reduced by \$11.3 million from fiscal year 2017. The net effect for fiscal year 2018 is that VCCS general funds are \$10.4 million below the level attained in fiscal year 2008.

The State Board for Community Colleges has noted its intention to keep VCCS tuition and mandatory fees at less than half the rates of public four year institutions in Virginia. The VCCS' rate in fiscal year 2018 will be 35.5% of the average of the four-year institutions for total tuition and mandatory fees.

Effective with the fall 2017 session, the State Board for Community Colleges approved a tuition increase of \$4.00 per credit hour applicable to all students. Within the VCCS, eight colleges have tuition differential rates ranging from \$1.00 per credit hour to \$29.05 per credit hour. The VCCS estimates that the tuition rate increases will generate approximately \$4.9 million in additional tuition and deferred revenues in fiscal year 2018, assuming a 2.96% decline in FTEs.

Chapter 836, 2017 Virginia Acts of Assembly, authorized the funding to provide for equipment purchases for five VCCS projects for which construction funding was previously provided.

The VCCS capitalized construction expenses totaling \$33.5 million during fiscal year 2017. These costs primarily included some projects that are still in progress, but also included numerous projects that were completed during fiscal year 2017. Construction costs for projects completed during fiscal year 2017 totaled \$49.2 million.

The VCCS entered into contractual commitments for capital projects totaling \$148 million prior to June 30, 2017. Expenses processed against these commitments during fiscal year 2017 totaled \$116 million, leaving an unpaid commitment balance of \$32 million.

# VIRGINIA COMMUNITY COLLEGE SYSTEM

## NOTES TO FINANCIAL STATEMENTS

As of June 30, 2017

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Reporting Entity

The Virginia Community College System (VCCS) was established as an institution of higher education in 1965. The System includes the State Board for Community Colleges, a System Office located in Richmond, and twenty-three community colleges located on forty campuses throughout the Commonwealth. The State Board for Community Colleges is the governing body and is charged with the responsibility to establish, control, and administer a statewide system of publicly supported comprehensive community colleges. The System therefore functions as a statewide institution of higher learning.

The accompanying financial statements include all of the individual community colleges and the System Office under the control of the State Board for Community Colleges.

The System is a discrete component unit of the Commonwealth of Virginia and is included in the general-purpose financial statements of the Commonwealth. A separate report is prepared for the Commonwealth of Virginia that includes all agencies, boards, commissions, and authorities over which the Commonwealth exercises or has the ability to exercise oversight authority.

#### B. Community College Foundations

The community college foundations are legally separate, tax-exempt organizations formed to promote the achievements and further the aims and purposes of the colleges. The foundations accomplish their purposes through fundraising and funds management efforts that benefit the colleges and their programs. Although the colleges do not control the timing or amount of receipts from the foundations, the majority of resources or income thereon that the foundations hold and invest is restricted to the activities of the colleges by the donors. Because these restricted resources held by the foundations can only be used by, or for the benefit of the colleges, the foundations are considered discrete component units.

During the year ended June 30, 2017, the foundations distributed \$10,528,784 to the colleges for both restricted and unrestricted purposes. Complete financial statements for the foundations can be obtained by writing the VCCS Office of Fiscal Services, 300 Arboretum Place, Suite 200, Richmond, VA 23236.

#### C. Financial Statement Descriptions

The three financial statements presented are the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows.

The Statement of Net Position presents the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the VCCS at the end of the fiscal year and also provides the amount of net position and the availability for expenditure. The Statement of Revenues, Expenses, and Changes in Net Position presents operating and non-operating revenues received by the institution, operating and non-operating expenses incurred and any other revenues, expenses, gains and losses. The Statement of Cash Flows provides additional

information about the financial results of the VCCS by reporting the major sources and uses of cash.

D. Basis of Accounting

For financial reporting purposes, the VCCS is considered a special purpose government engaged in only business-type activities. Business-type activities are those that are financed in whole or in part by fees charged to external parties for goods and services. Accordingly, the financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. All material internal transactions have been eliminated.

Revenues and expenses of the summer academic term occur within two fiscal years, because the term extends from May through August and the fiscal year ends on June 30. Expenses and an equal amount of revenue have been reported in the current period for the portion of the summer academic term from May 16 through June 30, 2017.

The community college foundations are private, nonprofit organizations that report under FASB standards. As such, certain revenue recognition criteria and presentation features are different from GASB.

The financial statements for the community college foundations are for the year ending June 30, 2017 except for Dabney S. Lancaster, Eastern Shore, Germanna, Lord Fairfax, Mountain Empire, New River, Piedmont, Tidewater (Educational and Real Estate Foundations), Virginia Western, and Wytheville (Educational and Scholarship Foundations) which are as of December 31, 2016.

E. Prepaid Assets

Prepaid assets for rent, insurance, and similar items are recognized when purchased and expensed when used.

F. Inventories

Inventories are stated at cost (primarily first-in, first-out method) and consist mainly of goods purchased for resale and expendable supplies.

G. Cash Equivalents and Investments

Cash equivalents maintained by the VCCS are investments with original maturities of less than three months. Investments in money market accounts and in Commonwealth sponsored investment pools are reported at amortized cost. All other investments are reported at fair market value, in accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, as amended by GASB Statement 72, *Fair Value Measurement and Application*. GASB Statement 72 provides guidance for determining fair value measurements using the level of fair value hierarchy and valuation techniques.

H. Capital Assets

Plant assets consisting of land, buildings, infrastructure, equipment, library books, intangible assets, and construction in progress are stated at appraised historical cost or actual cost where determinable. Improvements to buildings, infrastructure and land that significantly increase the usefulness, efficiency or life of the asset are capitalized. Routine maintenance

and repairs are charged to operations when incurred. Interest expense relating to construction is capitalized. Donated assets are recorded at acquisition value at the date of donation. The fixed asset values presented in these financial statements are extracted from the financial data maintained by the System's Administrative Information System (AIS). Expenses for equipment are capitalized when the unit acquisition cost is \$5,000 or greater and the estimated useful life is one year or more. Occupancy permits are used to determine when to reclassify buildings from construction-in-progress. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 20 to 25 years for infrastructure and land improvements, 3 to 25 years for equipment, 10 years for library books, and 5 to 10 years for intangible assets - computer software.

I. Pensions

The Virginia Retirement System (VRS) State Employee Retirement Plan and the Virginia Law Officers' System (VaLORS) Retirement Plan are single employer pension plans that are treated like cost-sharing plans. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the VRS State Employee Retirement Plan and the VaLORS Retirement Plan; and the additions to/deductions from the VRS State Employee Retirement Plan's and the VaLORS Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments held by VRS are reported at fair value.

J. Accrued Compensated Absences

The amount of leave earned but not taken by all classified employees, administrative/professional faculty, teaching faculty, and presidents is recorded as a liability on the balance sheet. The amount reflects, as of June 30, all unused annual leave, compensatory leave, and the amount payable upon termination under the Commonwealth of Virginia's sick leave pay out policy. Also included in the liability is the System's share of the FICA taxes on leave balances for which employees will be compensated.

K. Classification of Revenues and Expenses

The VCCS has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues include activities that have the characteristics of exchange transactions, such as tuition and fees, sales and services of auxiliary enterprises, most federal, state and local grants and contracts, and interest on student loans.

Nonoperating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, state appropriations and investment income.

Nonoperating expenses include interest on debt related to the purchase of capital assets and losses on disposal of capital equipment. All other expenses are classified as operating expenses.

L. Scholarship Discounts and Allowances

Student tuition and fees revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the VCCS, and the amount that is paid by students and/or third parties making payments on the student's behalf. Certain governmental grants and other federal, state or nongovernmental programs are recorded as either operating or nonoperating revenues in the financial statements. To the extent that such revenues are used to satisfy tuition and fees and other student charges, the VCCS has recorded a scholarship discount and allowance.

M. Deferred Inflows and Outflows of Resources

Deferred outflows of resources are defined as the consumption of net assets applicable to a future reporting period. The deferred outflows of resources have a positive effect on net position similar to assets.

Deferred inflows of resources are defined as the acquisition of net assets applicable to a future reporting period. The deferred inflows of resources have a negative effect on net position similar to liabilities.

N. Net Position

Net position balances are classified as follows:

Net investment in capital assets: Consists of capital assets, net of accumulated depreciation reduced by outstanding debt attributable to the acquisition, construction or improvement of those assets.

Restricted-nonexpendable: Restricted nonexpendable balances consist of endowment funds in which donors have stipulated, as a condition of the gifts that the principal is to remain inviolate in perpetuity.

Restricted-expendable: Restricted expendable balances include resources in which the VCCS is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

Unrestricted: Unrestricted balances represent resources that may be used at the discretion of the governing board for any lawful purpose.

When an expense is incurred that can be paid from either restricted or unrestricted resources, it is the policy of the VCCS to first apply the expense towards restricted resources and then towards unrestricted resources.

## 2. CASH AND INVESTMENTS

### Cash and Cash Equivalents

Cash equivalents maintained by the VCCS are investments with original maturities of less than three months.

Pursuant to Section 2.2-1800, et seq., *Code of Virginia*, all state funds of the VCCS are maintained by the Treasurer of Virginia who is responsible for the collection, disbursement, custody, and investment of state funds.

### Deposits

Local cash deposits with banks and savings institutions not with the Treasurer of Virginia are covered by federal depository insurance or collateralized in accordance with the Virginia Security of Public Deposits Act, Section 2.2-4400 et seq., *Code of Virginia*. Deposits covered by the Virginia Security of Public Deposits Act totaled \$50,257,497 at June 30, 2017.

### Investments

Certain deposits and investments are held by the VCCS. Such investments are reported separately from cash and cash equivalents. Investments represent securities with original maturities of more than three months and for which management intends to hold the securities to maturity.

Investments in money market accounts, non-negotiable certificates of deposit, the Virginia State Non-Arbitrage Program (SNAP) and the Local Government Investment Pool (LGIP) are reported at amortized cost. All other investments are reported at fair market value, in accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, as amended by GASB Statement 72, *Fair Value Measurement and Application*. GASB Statement 72 provides guidance for determining fair value measurements using the level of fair value hierarchy and valuation techniques.

Investments of the member colleges of the VCCS are limited to those allowed under Chapter 45, Investments of Public Funds Act, Sections 2.2-4500, 2.2-4501, 2.2-4509 and 2.2-4510 of the *Code of Virginia*. Commonwealth of Virginia law limits investments in stocks, bonds, notes, and other evidences of indebtedness of the Commonwealth and those unconditionally guaranteed as to the payment of principal and interest by the Commonwealth. Investments in United States agencies all carry the explicit guarantee of the United States government. Additionally, Virginia's community colleges may participate in the Local Government Investment Pool as authorized by Chapter 46 of the *Code of Virginia* and managed by the Commonwealth of Virginia Treasury Board. Authorized investments in the Local Government Investment Pool are limited to those set forth for local officials in Chapter 45, Sections 2.2-4500 of the *Code of Virginia*.

### Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. VCCS has no investments exposed to custodial credit risk for 2017.

### Interest Rate Risk

Disclosure of the maturities of investments is required when the fair market value is adversely affected by changes in interest rates. Investments subject to interest rate risk are outlined in the accompanying chart.

### Credit Risk

Disclosure of the credit quality rating is required for investments exposed to the risk that an issuer or other counterparty will not fulfill its obligations. Investments subject to credit rate risk are outlined in the accompanying chart.

### Concentration of Credit Risk

Disclosure of any one issuer is required when it represents 5 percent or more of total investments. VCCS does not have such concentration of credit risk for 2017.

### Foreign Currency Risk

Disclosure is required for investments exposed to changes in exchange rates that will adversely affect the fair value of an investment or a deposit. VCCS has no investments or deposits subject to Foreign Currency Risk for 2017.

#### Fair Value Measurement

The following disclosures are made in accordance with GASB Statement 72 Fair Value Measurement and Application. This standard sets forth the framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of fair value hierarchy under GASB 72 are described as follows:

Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

## 9. LEASE COMMITMENTS AND INSTALLMENT PURCHASES

The System is committed under various capital lease, operating lease, and installment purchase agreements. The cost of assets capitalized under capital lease and installment purchase agreements total \$32,021,622 and \$4,267,506, respectively. Rent expense under operating lease agreements amounted to \$15,137,686 for the year. A summary of future obligations under lease agreements as of June 30, 2017 follows:

Year Ending June 30	Capital Lease Obligations	Installment Purchase Obligations	Operating Lease Obligations

**11. STATE APPROPRIATIONS**

All Commonwealth unrestricted revenues must be appropriated by the Legislature and are provided on an annual basis. Unspent balances of these appropriations at the close of the fiscal year revert to the Commonwealth's General Fund. These reverted funds are eligible for re-appropriation in fiscal year 2017-18 provided that the VCCS meets financial and administrative standards outlined in the *Code of Virginia*.

During the year ended June 30, 2017, the Virginia Community College System received the following general fund appropriations in accordance with Chapter 836, 2017 Virginia Acts of Assembly.

Appropriated – Chapter 836 – approved April 28, 2017	\$392,289,973
Additions:	
Net central accounts distribution	2,819,610
Other:	
Transfer from SCHEV – VIVA	36,334
Carryover fiscal year 2016 year-end balances	15,703,978
Equipment Trust Fund lease payment	(633,657)
Reclassification of apprenticeship related funds	147,689
Capital fee transfers	(3,139,785)
Philpott manufacturing	(372,776)
Reversion	(18,323,022)
Adjusted Unrestricted Appropriations	<u>\$388,528,344</u>

Other restricted appropriations were \$49,508,136 for a total of \$438,036,480.

**12. EQUIPMENT TRUST FUND**

The System participates in the Higher Education Equipment Trust Fund (HEETF) of the Virginia College Building Authority (VCBA). The HEETF provides funds to public colleges and universities for equipment acquisitions using proceeds from revenue bonds issued for this purpose.

**13. DONOR-RESTRICTED ENDOWMENTS**

VCCS has two donor-restricted endowments. The net appreciation on investments of donor-restricted endowments that is available for expenditure by the governing board did not change for the year ended June 30, 2017. These amounts are reported as restricted expendable net position. Total-return policy is followed for authorizing and spending investment income.

**14. CONTINGENCIES ON GRANTS**

The VCCS receives assistance from non-state grantor agencies in the form of grants. Entitlement to these resources is generally conditional upon compliance with the terms and conditions of grant agreements. Substantially all grants are subject to financial and compliance audits by the grantors. All disallowances as a result of these audits become a liability of the VCCS. As of June 30, 2017, the VCCS estimates that no material liabilities will result from such audits.

## 15. RETIREMENT PLANS

### Virginia Retirement System – General Information about the Pension Plans

#### ***Plan Description***

All full-time, salaried permanent employees of state agencies are automatically covered by the VRS State Employee Retirement Plan or the VaLORS Retirement Plan upon employment. These plans are administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. The State Retirement Plan and VaLORS Retirement Plan are single employer plans treated as cost-sharing employer plans for financial reporting purposes. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees in the VRS State Employee Retirement Plan – Plan 1, Plan 2, and, Hybrid and two different benefit structures for covered employees in the VaLORS Retirement Plan – Plan 1 and Plan 2. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

## Retirement Plan Provisions By Plan Structure

Plan 1	Plan 2	Hybrid
<p><b>About Plan 1</b></p> <hr/> <p>Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p>	<p><b>About Plan 2</b></p> <hr/> <p>Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p>	<p><b>About the Hybrid Retirement Plan</b></p> <hr/> <p>The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see "Eligible Members")</p> <p>The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.</p> <p>The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.</p> <p>In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.</p>

<b>Retirement Contributions</b>	<b>Retirement Contributions</b>	<b>Retirement Contributions</b>
<p>State employees, excluding state elected officials and optional retirement plan participants, contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.</p>	<p>State employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction.</p>	<p>A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.</p>
<p><b>Creditable Service</b></p> <p>Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.</p>	<p><b>Creditable Service</b></p> <p>Same as Plan 1.</p>	<p><b>Creditable Service</b></p> <p><b>Defined Benefit Component:</b> Under the defined benefit component of the plan, creditable service includes active service. Vesting	Vesting	Vesting
<p>Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.</p> <p>Members are always 100% vested in the contributions that they make.</p>	<p>Same as Plan 1.</p>	<p><b>Defined Benefit Component:</b> Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. ## ***Contributions***

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, the 5.00% member contribution was paid by the employer. Beginning July 1, 2012, state employees were required to pay the 5.00% member contribution and the employer was required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. Each state agency's contractually required contribution rate for the year ended June 30, 2017 was 13.49% of covered employee compensation for employees in the VRS State Employee Retirement Plan. For employees in the VaLORS Retirement Plan, the contribution rate was 21.05% of covered employee compensation. These rates were based on an actuarially determined rate from an actuarial valuation as of June 30, 2015. The contribution rate for the VRS State Employee Retirement Plan also reflects the transfer in June 2016 of \$162,406,273 as an accelerated payback of the deferred contribution in the 2010-2012 biennium. The contribution rate for the VaLORS Retirement Plan also reflects the transfer in June 2016 of \$16,491,559 as an accelerated payback of the deferred contribution in the 2010-12 biennium. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the VCCS to the VRS State Employee Retirement Plan were \$44 million and \$46.2 million for the years ended June 30, 2017 and June 30, 2016, respectively. Contributions from the VCCS to the VaLORS Retirement Plan were \$1.1 million and \$977 thousand for the years ended June 30, 2017 and June 30, 2016, respectively.

## ***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2017, the VCCS reported a liability of \$559.1 million for its proportionate share of the VRS State Employee Retirement Plan Net Pension Liability and a liability of \$11.6 million for its proportionate share of the VaLORS Retirement Plan Net Pension Liability. The Net Pension Liability was measured as of June 30, 2016 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. At June 30, 2016, The VCCS' proportion of the Net Pension Liability was based on the VCCS' actuarially determined employer contributions to the pension plan for the year ended June 30, 2016 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2016, the VCCS' proportion of the VRS State Employee Retirement Plan was 8.48% as compared to 8.48% at June 30, 2015. At June 30, 2016, the VCCS' proportion of the VaLORS Retirement Plan was 1.50% as compared to 1.38% at June 30, 2015.

For the year ended June 30, 2017, the VCCS recognized pension expense of \$47.4 million for the VRS State Employee Retirement Plan and \$1.8 million for the VaLORS Retirement Plan. Since there was a change in proportionate share between June 30, 2015 and June 30, 2016, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2017, the VCCS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<b>VRS State Employee Retirement Plan</b> (\$ Thousands)	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 2,394	\$ 15,222

**Actuarial Assumptions**

The total pension liability for the VRS State Employee Retirement Plan was based on an actuarial valuation as of June 30, 2015, using the Entry Age Normal actuarial cost method and the below assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Inflation	2.5 percent
Salary increases, including Inflation	3.5 percent – 5.35 percent
Investment rate of return	7.0 percent, net of pension plan investment expense, including inflation*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

**Mortality rates:**

**Pre-Retirement:**

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 2 years and females set back 3 years.

**Post-Retirement:**

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with females set back 1 year.

**Post-Disablement:**

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table

- Decrease in rates of service retirement
- Decrease in rates of withdrawals for less than 10 years of service
- Decrease in rates of male disability retirement
- Reduce rates of salary increase by 0.25% per year

The total pension liability for the VaLORS Retirement Plan was based on an actuarial valuation as of June 30, 2015, using the Entry Age Normal actuarial cost method and the below assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Inflation	2.5 percent
Salary increases, including Inflation	3.5 percent – 4.75 percent
Investment rate of return	7.0 percent, net of pension plan investment expense, including inflation*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 5 years and females set back 3 years.

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with females set back 1 year.

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for females under 10 years of service
- Increase in rates of disability
- Decrease service related disability rate from 60% to 50%

**Net Pension Liability**

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2016, NPL amounts for the VRS

State Employee Retirement Plan and the VaLORS Retirement Plan are as follows (amounts expressed in thousands):

	<b>Employee Retirement Plan</b>	<b>State VaLORS Retirement Plan</b>
Total Pension Liability	\$ 22,958,593	\$ 1,985,618
Plan Fiduciary Net Position	<u>16,367,842</u>	<u>1,211,446</u>
Employers' Net Pension Liability (Asset)	<u>\$ 6,590,751</u>	<u>\$ 774,172</u>
 Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	 71.29%	 61.01%

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

**Long-Term Expected Rate of Return**

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Class (Strategy)</b>	<b>Target Allocation</b>	<b>Arithmetic Long-Term Expected Rate of Return</b>	<b>Weighted Average Long-Term Expected Rate of Return</b>
U.S. Equity	19.50%	6.46%	1.26%
Developed Non U.S Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
 Total	 <u>100.00%</u>		 <u>5.83%</u>
	Inflation		<u>2.50%</u>
	* Expected arithmetic nominal return		<u>8.33%</u>

\* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33%

but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

**Discount Rate**

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the state agency for the VRS State Employee Retirement Plan and the VaLORS Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, all agencies are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the State Agency's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the VCCS' proportionate share of the VRS State Employee Retirement Plan net pension liability using the discount rate of 7.00%, as well as what the VCCS' proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate (amounts expressed in thousands):

	<u>1.00% Decrease (6.00%)</u>	<u>Current Discount Rate (7.00%)</u>	<u>1.00% Increase (8.00%)</u>
VCCS' proportionate share of the VRS State Employee Retirement Plan Net Pension Liability	\$786,899	\$559,144	\$367,932

The following presents the VCCS' proportionate share of the VaLORS Retirement Plan net pension liability using the discount rate of 7.00%, as well as what the VCCS' proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate (amounts expressed in thousands):

	<u>1.00% Decrease (6.00%)</u>	<u>Current Discount Rate (7.00%)</u>	<u>1.00% Increase (8.00%)</u>
VCCS' proportionate share of the VaLORS VaLORS Retirement Plan Net Pension Liability	\$15,551	\$11,618	\$8,381

### ***Pension Plan Fiduciary Net Position***

Detailed information about the VRS State Employee Retirement Plan's Fiduciary Net Position or the VaLORS Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2016 Comprehensive Annual Financial Report (CAFR). A copy of the 2016 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2016-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

### ***Payables to the Pension Plan***

The VCCS recognized \$51,830,280 as Accrued Payroll Expenses as of June 30, 2017 which represents hours worked before June 30 but paid after July 1. The portion payable to the VRS for pension contributions is estimated at \$1.8 million.

### **Optional Retirement Plans**

All qualified salaried employees of the VCCS are required to participate in a retirement benefit plan administered by the Virginia Retirement System (VRS) or in an Optional Retirement Plan (ORP). Classified employees are eligible to participate in the VRS only, while faculty rank employees are eligible to participate in either the VRS or the ORP.

Participants in the ORP may select from one of five plan administrators for the receipt and investment of contributions. This is a fixed-contribution plan where the retirement benefits received are based on the employer's (10.4%) contributions, plus interest and dividends for those employees who became a member prior to July 1, 2010. For those employees who became a member on or after July 1, 2010, the employer's contributions are 8.5% and the employee's contributions are 5%.

Individual contracts issued under the ORP plan provide for full and immediate vesting of the VCCS contributions. Total pension costs under this plan were \$6,105,943 and \$6,289,674 for years ended June 30, 2017 and 2016, respectively. Contributions to the ORP plan were calculated using the base salary amount of \$62,317,329 and \$63,885,355 for fiscal years 2017 and 2016. The VCCS total payroll for fiscal years 2017 and 2016 was \$556,169,856 and \$574,107,862 respectively.

### ***Payables to the Optional Retirement Plan***

The VCCS recognized \$51,830,280 as Accrued Payroll Expenses as of June 30, 2017 which represents hours worked before June 30 but paid after July 1 or after. The portion payable for contributions to the optional retirement plans is estimated at \$467 thousand.

### **Deferred Compensation Plan**

Employees of the VCCS are employees of the Commonwealth of Virginia. State employees may participate in the Commonwealth's Deferred Compensation Plan. Participating employees can contribute to the plan each pay period with the Commonwealth matching up to \$20 per pay period. The dollar amount match can change depending on the funding available in the Commonwealth's budget. The Deferred Compensation Plan is a qualified defined contribution plan under Section 401(a) of the Internal Revenue Code. Employer contributions under the Deferred Compensation Plan were approximately \$1,841,590 for fiscal year 2017.

## **16. RISK MANAGEMENT**

The System is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The System participates in insurance plans maintained by the Commonwealth

of Virginia. The state employee health care and worker's compensation plan are administered by the Department of Human Resource Management, and the risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, faithful performance of duty bonds, automobile, and air and watercraft plans. The System pays premiums to each of these Departments for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report.

A Faithful Performance Duty Bond administered by the Commonwealth of Virginia's Department of Treasury, Division of Risk Management, covers the employees of the VCCS. The Faithful Performance Duty Bond provides coverage with liability limits of \$500,000 for each occurrence.

**17. POST-EMPLOYMENT BENEFITS**

The Commonwealth participates in the VRS-administered statewide group life insurance program which provides post-employment life insurance to eligible retired and terminated employees. The Commonwealth also provides health care credit against the monthly insurance premiums of its retirees who have at least 15 years of state service and participate in the state's health plan. Information related to these plans is available at the statewide level in the Commonwealth's Comprehensive Annual Financial Report.

**18. CAPITAL APPROPRIATIONS-STATE**

Capital appropriations-state is comprised of the following:

General Fund appropriation revenue	\$ 5,709,820
General Fund Reversion	-
Virginia College Building Authority appropriation revenue	33,472,835
General Obligation Bond appropriation revenue	518,727
Tidewater Community College capital lease agreement	<u>739,250</u>
Total	<u>\$40,440,632</u>

**19. COMPONENT UNIT FINANCIAL INFORMATION**

Below is a summary of the foundations.

VCCS has five major component units— Lord Fairfax Community College Educational Foundation, Mountain Empire Community College Foundation, Northern Virginia Community College Educational Foundation, Patrick Henry Community College Foundation, and Southwest Virginia Community College Educational Foundation. Additionally, the System has twenty-two non-major component units—Blue Ridge Community College Educational Foundation, Central Virginia Community College Educational Foundation, Dabney S. Lancaster Community College Educational Foundation, Danville Community College Educational Foundation, Eastern Shore Community College Foundation, Germanna Community College Educational Foundation, J. Sargeant Reynolds Community College Educational Foundation, J. **20. LITIGATION**

A few community colleges have been named as defendants in lawsuits. The final outcome of these lawsuits cannot be determined at this time. However, management is of the opinion that any ultimate liability to which the colleges may be exposed will not have a material effect upon the Virginia Community College System's financial position.

**Notes to Required Supplementary Information  
For the Year Ended June 30, 2017**

**Changes of benefit terms** – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this was a new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2016 is not material.

**Changes of assumptions** – The following changes in actuarial assumptions were made for the VRS - State Employee Retirement Plan effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of withdrawals for less than 10 years of service
- Decrease in rates of male disability retirement
- Reduce rates of salary increase by 0.25% per year

The following changes in actuarial assumptions were made for the VaLORS Retirement Plan effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for females under 10 years of service
- Increase in rates of disability
- Decrease service related disability rate from 60% to 50%
