**REPORT ON THE IMPACT OF RENEWAL COST ON
EMPLOYEE AND EMPLOYER PREMIUMS**

This report is submitted as required by Chapter 2, Item 81, G of the 2018 Virginia Acts of Assembly, Special Session I, which states:

The Department of Human Resource Management shall report to the Governor and Chairmen of the House Appropriations and Senate Finance Committees, by October 15 of each year, on the renewal cost of the state employee health insurance program premiums that will go into effect on July 1 of the following year. This report shall include the impact of the renewal cost on employee and employer premiums and a valuation of liabilities as required by Other Post-Employment Benefits reporting standards.

Summaries of Rating Projections

Overview

The following information summarizes the renewal cost of the state employee premiums for Fiscal Year (FY) 2020 that will go into effect on July 1, 2019, and the key drivers of FY 2020 projections compared to the FY 2019 rates. The information package complies with all of prior actuarial methods / procedures endorsed and approved by the APA audit report of October 2011.

The three charts shown in this report provide summaries of rate projections for FY 2019 through FY 2021 and these include:

- Recast FY 2019 Projection
- FY 2020 Projection
- FY 2021 Projection

Each chart includes three scenarios (A, B, and C). Scenario A represents the most aggressive projection, Scenario B the most likely projection, and Scenario C the most conservative projection. It is important to note that each scenario represents a reasonable actuarial outcome. Historically, this range has been utilized in final budget setting based on the Commonwealth's fiscal priorities and internal assessment of the risk to be assumed for the applicable budget cycle.

Each chart shows the baseline rates under the three scenarios. Separate tables at the end of the document provide the underlying claim trend assumptions based on the Incurred But Not Paid (IBNP) valuation completed mid-September and Aon's current outlook for future trends. [Note, the IBNP liability represents the claims for services that have been rendered but for

which the providers have not yet been paid. This liability is added to the incurred claims paid through June 30th in order to have a complete year of claims from which to start the rate projections in subsequent periods.]

- Projected Cost per Contract Unit is synonymous with *actuarial rate* or *per contract unit per month (PCUPM)*. (For these projections, PCUPM represents a per-employee equivalent unit cost and serves as the actuarial baseline for cost projections in the requested three FY iterations). The assumptions inherent in the contract unit measure take into account the relative cost of each dependent class (spouse or child) relative to an employee. The per-employee or contract unit equivalent is the “base” level of exposure for rating purposes. This method was approved by the Auditor of Public Accounts (APA) actuarial methods audit report of October 2011.
- The COVA Care Basic plan is shown because it is the basis for employer contributions. This chart shows rate projections and percentage increases or decreases from each fiscal year’s premium rates per contract unit.
- Claim trend analysis inherent in Aon’s future trend outlook includes detailed claim patterns to forecast future inflationary impact. The latter includes: price inflation; utilization rates of health care providers; government (Medicare/ACA) cost shifting; plan changes; and, other current factors influencing health provider cost. Historical claim experience for the Commonwealth is also considered when establishing the estimated trends.
 - The updated trend analysis is based on review of the most recent 36 months of claims and Aon forward looking trends.
 - The trend tables for Fiscal Years 2019-2020 and 2020-2021 are shown in the “Trend Tables” section of this document. Overall Scenario B health plan trend is +6.7% and +6.8% respectively for these years.

Recast FY 2019 Projection

The recast is the first step in the three fiscal year projection process required by the Commonwealth. It provides an early estimate of how actual current FY costs compare to previously projected costs/rates. The recast is based on claim data through June 2018, consistent with the IBNP valuation completed in mid-September. This analysis also provides an updated important baseline for projecting rates for FY 2020.

- The chart compares the recast actuarial rate projection for FY 2019 with the previous year's FY 2019 rate projection (and the claim data used to establish the FY 2019 rates).
 - This recast projection utilized an additional year of claim experience and the updated trend outlook.
 - The chart shows the recast comparison for each plan component and rolls it up to the total. For Scenario B, Medical is -6.3%, Dental -3.3%, Rx -7.3%, MISA/Behavioral Health +2.6%. The overall total, based on the weighted value of each component's relativity to premium is -6.2%. Factors contributing to this overall reduction in rates are favorable claims experience, increases in pharmacy rebates, and a reduction in trend, particularly for pharmacy.
- The recast vs. FY 2019 rate comparison is shown for each component of the COVA Care Basic rate. However, the Total percentage increase is the critical cost impact factor in the table.

FY 2020 Projection

Developing an estimated cost for the upcoming fiscal year (FY 2020) is the second step in the Commonwealth's requested three year projection cycle. The Exhibit shown below contains the rate projections and expected cost increase for FY 2020, which will be effective on July 1, 2019, for COVA Care under its current plan design and before any changes as a result of the Request for Proposal (RFP). This chart builds on the outcome of the recast step above and blends current experience and trends compared to current rates.

- The FY 2020 rate increase is shown for each component of the COVA Care Basic rate. For budget planning purposes, the total percentage increase is the critical cost impact factor in the table.
- The chart shows the rate change comparison for each plan component and rolls it up to the total. For Scenario B, Medical is -0.8%, Dental -0.4%, Rx +1.3%, MISA/Behavioral Health +12.5%. The overall projected total increase, based on the weighted value of each component's relativity to premium, is +0.04%.

FY 2021 Projection

Development of the FY 2021 rate increase is the third and final step in the Commonwealth's requested three year projection cycle. Similar to the FY 2020 projection, the increase is shown for each component of the COVA Care Basic rate. The total percentage increase is the critical cost impact factor in the table.

The chart shows the rate change comparison for each plan component and rolls it up to the total. For Scenario B, Medical is +5.9%, Dental +3.0%, Rx +9.3%, MISA/Behavioral Health +9.5%. The overall projected total increase, based on the weighted value of each component's relativity to premium, is +6.7%.

Other Post-Employment Benefits

The following actuarial report provides a valuation of liabilities in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* (GASB 45).

Actuarial Valuation Report

Commonwealth of Virginia State Health Benefits Program
for Pre-Medicare Retirees, Survivors and LTD Participants

Public Employees' Postretirement Medical Plan

For the Measurement Period Ending June 30, 2017

Measurement Date June 30, 2017

Introduction

This report documents the results of the actuarial valuation for the measurement period ending June 30, 2017 of the Commonwealth of Virginia State Health Benefits Program for Pre-Medicare Retirees, Survivors and LTD Participants. The plan is a single-employer plan and does not issue a separate financial statement. As a result, all reporting requirements are included in the employer's financial statement. These results are based on a Measurement Date of June 30, 2017. The information provided in this report is intended strictly for documenting information relating to company and plan disclosure and reporting requirements.

Determinations for purposes other than the financial accounting requirements may be significantly different from the results in this report. Thus, the use of this report for purposes other than those expressed here may not be appropriate.

This valuation has been conducted in accordance with generally accepted actuarial principles and practices, including the applicable Actuarial Standards of Practice as issued by the Actuarial Standards Board. In addition, the valuation results are based on our understanding of the financial accounting and reporting requirements under U.S. Generally Accepted Accounting Principles as set forth in Government Accounting Standards Board Statement 75 (GASB 75) including any guidance or interpretations provided by the Company and/or its audit partners prior to the issuance of this report. The information in this report is not intended to supersede or supplant the advice and interpretations of the Commonwealth of Virginia's auditors. Additional disclosures may be required under GASB 74.

Future actuarial measurements may differ significantly from the current measurements presented in this report due (but not limited to) to such factors as the following:

- Plan experience differing from that anticipated by the economic or demographic assumptions;
- Changes in actuarial methods or in economic or demographic assumptions;
- Increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period); and
- Changes in plan provisions or applicable law.

Due to the limited scope of our assignment, we did not perform an analysis of the potential range of such future measurements.

Funded status measurements shown in this report are determined based on various measures of plan assets and liabilities. For entity and plan disclosure and reporting purposes, funded status is determined using plan assets measured at market value. Plan liabilities are measured based on the interest rates and other assumptions summarized in the Actuarial Assumptions and Methods section of this report.

These funded status measurements may not be appropriate for assessing the sufficiency of plan assets to cover the estimated cost of settling the plan's benefit obligations, and funded status measurements for the Commonwealth of Virginia and plan disclosure and reporting purposes may not be appropriate for assessing the need for or the amount of future contributions. In conducting the valuation, we have relied on personnel, plan design, health care claim cost, and asset information supplied by the Commonwealth of Virginia as of the valuation date. While we cannot verify the accuracy of all the information, the supplied information was reviewed for consistency and reasonableness. As a result of this review, we have no reason to doubt the substantial accuracy or completeness of the information and believe that it has produced appropriate results.

The actuarial assumptions and methods used in this valuation are described in the Actuarial Assumptions and Methods section of this report. The Commonwealth of Virginia selected the economic and demographic assumptions and prescribed them for use for purposes of compliance with GASB 75. Aon provided guidance with respect to these assumptions, and it is our belief that the assumptions represent reasonable expectations of anticipated plan experience.

The undersigned are familiar with the near-term and long-term aspects of OPEB valuations and collectively meet the Qualification Standards of the American Academy of Actuaries necessary to render the actuarial opinions contained herein. The information provided in this report is dependent upon various factors as documented throughout this report, which may be subject to change. Each section of this report is considered to be an integral part of the actuarial opinions.

To our knowledge, no colleague of Aon providing services to the Commonwealth of Virginia has any material direct or indirect financial interest in the Commonwealth of Virginia. Thus, we believe there is no relationship existing that might affect our capacity to prepare and certify this actuarial report for the Commonwealth of Virginia.

Plan Fiduciary Net Position

The discount rate is based solely on the Municipal Bond Index because the plan is not pre-funded. As such, a projection of the fiduciary net position is not needed for use in the calculation of the discount rate.

Interest Rate Sensitivity

The following table illustrates the impact of interest rate sensitivity on the Net OPEB Liability for Measurement Period ending June 30, 2016 (\$ millions):

Participant Data

The actuarial valuation was based on personnel information from the Commonwealth of Virginia records as of June 30, 2017. Following are some of the pertinent characteristics from the personnel data as of that date. Prior year characteristics are also provided for comparison purposes. Both age and service have been determined using years and months as of the valuation date.

Health Care Claims Development

Applicability of Health Care Reforms to Valuation

Background

On March 23, 2010, the “Patient Protection and Affordable Care Act” was signed into law, followed by the passage of the “Health Care and Education Affordability Reconciliation Act of 2010” on March 30, 2010 (“Acts”). The health care reforms contained in these Acts have wide-spread impact on corporate health care programs, including those covering retirees. This valuation reflects Aon’s interpretation of the Acts based on information currently available. Future regulations on each aspect of the Acts may be different than Aon’s initial interpretations.

Key issues in Health Care Reform that have an effect on the valuation include:

- Excise tax on high-cost health plans
- Group market reforms
- Early Retiree Reimbursement Program
- Taxation of Retiree Drug Subsidy for Post-65 Coverage

The valuation issues related to each of these topics are discussed below.

Excise Tax on High-Cost Health Plans

The excise tax on high cost plans becomes effective in 2022. However, the expected additional cost needs to be reflected in OPEB valuations and disclosures. Key features of the law include:

- Imposes a non-deductible excise tax of 40% on plans with an aggregate value of health insurance coverage exceeding specified dollar thresholds beginning in 2022
 - Aggregate value includes medical, pharmacy, and employer HSA/HRA contributions (excludes standalone dental and vision plans)
- 2022 thresholds for high-risk professions are:
 - \$10,200 for single coverage and \$27,500 for family coverage for age 55 to 64 retirees
 - 2022 thresholds are adjusted accordingly by the amount that the accumulated 2010-2022 cost increases, observed for the BCBS “standard” plan option under the FEHBP program, exceeds $55\% \times \text{chained CPI}^4$
- Excise tax applies only to portion of cost that exceeds threshold amount
- The law provides for blending of pre-65 and post-65 retirees.

The pre-65 and the post-65 retirees were blended together to determine the overall value of the benefit relative to the excise tax threshold. The values of the benefits were assumed to increase with the valuation trend and the excise tax thresholds were assumed to increase by 2.2% per year.

Group Market Reforms

- **Requirement to Cover Children to Age 26**—The Acts requires that a group health plan that provides dependent coverage of children shall continue to make such coverage available for an adult child until the child turns 26 years of age. Current and future dependent children are valued implicitly in the valuation. Per capita claims costs were developed using claims information for all covered lives and adult headcounts. As such, the impact of child coverage is built into the per capita claims for retirees and spouses.
- **Elimination of Benefit Limitations**—The Acts include a number of other provisions that may increase the cost of retiree health care including the elimination of lifetime maximum benefits and “restrictive” annual benefit limitations. We have made no adjustment for these additional benefits because there are no material limits in the plans.

Medicare Part D reimbursements and the Early Retiree Reinsurance program do not fall under GASB 75.

Actuarial Assumptions and Methods

Discussion of Actuarial Assumptions and Methods

The Commonwealth of Virginia selected the economic, demographic and health care claim cost assumptions and prescribed them for use for purposes of compliance with GASB 75. Aon provided guidance with respect to these assumptions, and it is our belief that the assumptions represent reasonable expectations of anticipated plan experience.

Calculation of Normal Costs and Liabilities

The method used to calculate the service cost and accumulated postretirement benefit obligation for determining OPEB expense is the entry age normal cost method. Under this cost method, the actuarial accrued liability is based on a prorated portion of the present value of all benefits earned to date over expected future working life time as defined by GASB. The proration is determined so that the cost with respect to service accrued from date of hire is recognized as a level percentage of pay each year. The Normal Cost is equal to the prorated cost for the year of the valuation.

Accounting Information Under GASB 75

Benefit obligations and expense/(income) are calculated under U.S. Generally Accepted Accounting Principles as set forth in Government Accounting Standards Board Statement 75.

1. The total OPEB liability represents the actuarial present value of benefits based on the entry age normal cost method as of the measurement date. The service cost represents the actuarial present value of benefits that are attributed to the 2017 Measurement Period, reflecting the effect of assumed future health care claim cost and/or pay increases.

or

2. The total OPEB liability represents the actuarial present value of benefits based on the entry age normal cost method as of the measurement date reflecting all normal costs over the period when benefits were earned.

The OPEB expense is the annual amount to be recognized in the income statement as the cost of OPEB benefits for this plan for the period ending June 30, 2018.

* For purposes of this valuation we have assumed that the current level of retiree cost sharing will continue in the future. This may be accomplished by increasing retiree contributions, co-payments, or out-of-pocket limits so that the level of retiree cost sharing increases at least at the rate of assumed medical trend.

Excise tax The anticipated future impact of the excise tax due to Health Care Reform has been reflected by

applying loads to the medical and prescription drugs trend rates. The effective date of this tax is in 2022.

Participation Rate It was assumed that 70% of future eligible retirees will elect the plan coverage.

Spouse Coverage Fifty percent (50%) of actives are assumed to be married at retirement. It was assumed that males are three years older than females. Actual spousal data was used for current retirees. It was assumed that all surviving spouses retained coverage until their death.

New Entrants The valuation is performed on a closed group of current participants. Future entrants to the plan were not included.

Administrative Expenses No liability for administrative expenses is included in the valuation as both the baseline claims and the retiree contributions valued include expenses, and these expenses are assumed to cancel each other out.

Health Care Claims Cost The actual claims experience for the retiree group and the premium-equivalent rates of the program were collected. This data was used to calculate age-specific claim costs using factors developed by Aon. Representative 2017-2018 annual per capita medical, prescription drug, and dental plan costs at specific ages are shown below. The costs represent claims based on the plan design in effect on June 30, 2017. They are blended for healthy and disabled lives.

Health Care Aging (Morbidity) Factors:

Since health care costs increase with age, and an OPEB valuation is by its nature an analysis of a closed group that will age throughout the measurement, the effect that this aging of the population will have on claims costs must be reflected in the valuation. The claim costs for medical and prescription were assumed to increase with age according to the table below.

Age Band	Composite
40-44	3.3%
45-49	3.8%
50-54	4.3%
55-59	4.4%
60-64	3.8%
65-69	3.1%
70-74	2.1%
75-79	1.4%
80-84	1.3%
85-89	0.6%
90+	0.0%

The aging factor assumptions shown above were based on normative data analyses, along with consideration of the results from the 2013 Society of Actuaries sponsored study “Health Care Costs—From Birth to Death” prepared by Dale H. Yamamoto, reporting on the effect of age on claims costs. In addition to age, this study shows the effect of service type (medical vs. pharmacy) and gender on claims costs.

Baseline Retiree Contributions (2017 Measurement Year)

Spouse Contributions	\$7,441	\$317

Changes in Assumption since Prior Valuation

The following assumptions were updated since the June 30, 2016 valuation:

- Discount rate
- Mortality
- Retirement
- Withdrawal
- Spousal coverage

Summary of Plan Provisions

Plan Eligibility

Plan provisions in effect as of June 30 30, 2017 are shown.

For a retiree to participate in the Plan, the participant must be eligible for a monthly annuity from the Virginia Retirement System (VRS) or a periodic benefit from one of the qualified Optional Retirement Plan (ORP) vendors, and:

- be receiving (not deferring) the annuity or periodic benefit immediately upon retirement*, and
- have his or her last employer before retirement be the state, and
- be eligible for coverage as an active employee in the State Health Benefits Program until his or her retirement date (not including Extended Coverage), and
- Have submitted within 31 days of his or her retirement date an Enrollment Form to his or her Benefits Administrator to enroll.

*For VRS retirees, this means that the employing agency reported a retirement contribution in the month immediately prior to an employee's retirement date.

Surviving spouses of a participating retiree may continue coverage after the death of the retiree.

For this valuation, employees were considered eligible to retire and receive medical, prescription drug and dental benefits if they are (a) age 50 with at least ten years of service for Plan 1 participants, (b) age 55 with 5 years of service for Plan 1 participants, (c) age 60 with 5 years of service for Plan 2 participants or (d) disabled and are eligible for a VRS or ORP benefit. Employees must retire directly from VRS or ORP sponsored employment and they must apply for coverage within 31 days of retirement. If a retiree fails to enroll initially or cancels their coverage subsequent to retirement, then they are not eligible to enroll at a later date.
