Subject: Department of Small Business and Supplier Diversity Work Plan: First Quarter

We appreciate the opportunity to share with you the work that has been accomplished in the first quarter of the year in relation to our 2019 Agency Work Plan. We are on track with the majority of our goals and are meeting with our staff monthly to review performance. Many of the goals are cumulative and we expect to reach our targets as the year progresses.

I am pleased to report that we are collaborating with the Secretary of Commerce and Trade, the Secretary of Administration, the Department of General Services, Virginia Department of Transportation, and the Virginia Information Technologies Agency to formulate new strategies and programming to advance equity for Virginia's small, woman-owned, and minority-owned businesses. Work on this effort will continue into the next quarter and the remaining 2019 reporting period.

We are committed to supporting our existing small businesses and providing meaningful training programs to assist with their development. The agency worked directly with the Virginia Industries for the Blind this quarter providing direct training and outreach to the visually impaired. This is a new area of outreach for the agency and we are excited to support this population of individuals and business owners with certification, access to capital, and business development programs.

The agency is focused on data collection and identifying new opportunities to capture economic impact data from the programs we administer. The Virginia Small Business Financing Authority has led the effort in this quarter updating their processes to capture and report this data more effectively. The agency is evaluating Salesforce as a more efficient means of gathering and reporting performance throughout the agency and expects implementation by the end of the second quarter.

We look forward to updating you at the end of July on our progress and performance in the second quarter of the year. We plan to focus on different divisions within the agency each reporting period to give you a holistic perspective on the work we are doing.

Thank you and please let us know if you have any questions on items not addressed in this report.

Overview

Mission: Economic Growth and Development of Virginia's Small Businesses

The mission of the Virginia Department of Small Business and Supplier Diversity (SBSD) is to serve Virginia's small businesses, by enhancing growth opportunities through increased revenue and job creation that raises the standard of living of all Virginians.

Agency Vision:

The Virginia Department of Small Business and Supplier Diversity (SBSD), formerly the Department of Business Assistance, was formed to meet the needs of existing and new small businesses. Over the life of the agency, the mission has expanded so that small, woman, and minority-owned businesses are included in this vision. Then and now, the department separates these important functions from the political process and ensure that all Virginia small businesses receive assistance to grow and prosper in the Commonwealth through education, counseling, certification, and access to financing.

Agency Goals:

Statewide Goals Advanced by SBSD's Strategic Goals, Objectives and Strategies

- Be a national leader in the preservation and enhancement of our economy.
- Engage and inform citizens to ensure we serve their interests.
- Be recognized as the best-managed state in the nation.
- Ensure that Virginia has a transportation system that is safe, enables easy movement of people and goods, enhances the economy and improves our quality of life.

The goals listed above are statewide goals with many contributors in which SBSD plays a role. The agency is committed to customer service, advocacy for small businesses, and support of other Virginia state agencies. SBSD specific goals do not stand alone, but support the broader goals of the entire Commonwealth.

Agency Goal I: Spur economic vitality through strategic investment of resources.

For the Department this means implementing strategies that assist small businesses to be more competitive in a rapidly changing global economy.

Agency Goal II: Enhance the positive business climate in Virginia for small businesses as they move through the business life cycle: formation, stabilization, and growth.

For the Department this means providing services designed to assist with the development and growth of small businesses, as they are the economic engine of the Commonwealth.

Agency's Objectives and Strategies for 2019

Agency Goal #1:

Spur economic vitality through strategic investment of resources.

Objective

Utilize agency resources to maximize the creation and retention of jobs within the Commonwealth as well as growth for wealth maximization of our current small business population.

Overall success toward meeting this objective will be assessed through the following measures:

Discussion Points:

The agency is committed to supporting small businesses by providing access to capital, opportunity through state and federal certification, and growth through comprehensive development programs. Since the merger of the Department of Business Assistance (DBA) and the Department of Minority Business Enterprise (DMBE) to create the Department of Small Business and Supplier Diversity (DSBSD) in FY15 the agency has flourished. Under the direction of new leadership, the two agencies became one and shared goals and vision were established.

The first order of business, once the mission of the agency was solidified, was to develop the infrastructure necessary to allow the agency to be successful. This required the build out of office space so both agencies could work together as one cohesive unit. Next staffing needed to be addressed; attracting new talent, addressing performance issues, and developing high potential employees was a priority. Once infrastructure was in place then current programming and performance of that programming could be evaluated. Strategic planning and SWOT analysis was completed and new performance metrics were established. Through this planning effort new programming opportunities were identified and the agency added the Virginia Scaling 4 Growth program and the Virginia Contractor's Course to our business development offerings.

By the end of FY19, we expect to have graduated sixty-three SWaM businesses from the Virginia Scaling 4 Growth program. Virginia is the first State to offer this nationally renowned program. The program is a six-month MBA style program designed to take businesses through leadership, finance, and business management modules with their final capstone project being the completion of a growth program that they can put into action upon graduation. Based on economic impact data we have captured from our graduates, 94 percent retained or created new jobs. The average revenue growth was 83 percent after completion of the program. Virginia's program results have been so impressive that Interise, the national licensing organization, has used Virginia's results as a model of success for other participants.

The agency has also made tremendous strides as it relates to streamlining the SWaM Certification process and in reducing time to process applications. In FY16, the agency was faced with a backlog of over 2,000 applications and the average processing time for SWaM certification was approximately 120 business days. The agency identified strategies to manage the application volume and instituted new technology to automate the process. As of FY18, the agency was able to clear the backlog and reduce processing times to less than 60 business days. The average number of days to process a certification application in the private sector is 90 business days; we are committed to providing a faster service to our small businesses and at no cost.

In FY19 and FY20, the agency plans to finalize streamlining efforts to reduce the burden of certification to the business owner. We plan to finalize regulatory changes that will reduce the amount of time a business must wait to reapply after being denied certification from 12 months to six months. We plan to allow more time for reapplication increasing the reapplication period from 90 days to 120 days. We plan to implement a streamlined recertification process that allows for an attestation of no change allowing the business to submit less documentation when reapplying. We have held webinars and certification labs statewide to assist applicants with the process. We have conducted outreach and increased the number of certified service disabled veteran owned businesses by 74 percent since FY18.

The agency has also been successful in updating its technology to meet the needs and expectations of the citizens of the Commonwealth. In 2017, the agency launched a new website as well as a new certification application portal. The agency created an enhanced SWaM and DBE directory to assist Commonwealth procurement officials with identification and location of certified vendors. DSBSD, in 2018, worked with nineteen state agencies to provide them with real time data feeds on SWaM certification information. These feeds populate SWaM certification data into DGS’s eVA system, DOA’s Cardinal system, VITA’s subcontractor portal and various institutions of higher education’s ERP systems. The agency is working on upgrading the Expenditure Dashboard system and expects this work to be complete in 2019. The overhaul of this system will allow for reporting across all certification types and be the primary source of data on small business spend for the Governor’s Office, Secretariats, and individual agencies.

The agency has accomplished a great deal and appreciates the opportunity to highlight the work that has been done and the work that will be accomplished in this upcoming reporting period. We stand ready to continue our support of the small businesses of the Commonwealth. There are currently 681,571 businesses in Virginia, of which 97.7 percent are small businesses. Virginia small businesses employed 1.5 million people or 46.9 percent of the private workforce in 2013. Our small businesses are the backbone of Virginia’s economy.
