Lt. Colonel Tracy S. Russillo
Deputy Superintendent

COMMONWEALTH OF VIRGINIA
DEPARTMENT OF STATE POLICE
P. O. Box 27472, Richmond, VA 23261-7472

October 10, 2019

TO: The Honorable Ralph S. Northam
Governor of the Commonwealth of Virginia

The Commonwealth of Virginia General Assembly

Pursuant to §19.2-388(E) of the Code of Virginia, I am respectfully submitting herewith a report concerning the Department's progress on the status of unapplied criminal history information.

Respectfully,

A handwritten signature in black ink that reads "Gary T. Settle".

Superintendent

GTS/BKL

Enclosure

Preface

The 2019 General Assembly amended §19.2-388 of the Code of Virginia to require the Department of State Police (the Department) to provide a report by November 1 of each year to the Governor and General Assembly “on the status of unapplied criminal history information and any updates to fingerprinting policies and procedures.” Pursuant to this requirement the Department’s Criminal Justice Information Services Division (CJIS) has reviewed its current efforts in applying unapplied criminal history information. These efforts are outlined in the following report.

Executive Summary

The Department, through the Central Criminal Records Exchange (CCRE), electronically receives and processes criminal court disposition information on a weekly basis. This information is transferred electronically through a secure file transfer from the Supreme Court of Virginia, Fairfax County Circuit Court, and Alexandria Circuit Court.¹ Disposition information that is free from errors and omissions, and that corresponds to an arrest booking for an offense found on the criminal history record, is automatically applied to the criminal history record once it is received and validated. Dispositions that are received with errors and omissions are reviewed, researched, resolved, and applied by Department staff daily; however, criminal court dispositions without a corresponding offense are retained in the disposition hold file until the corresponding offense is received and applied to the criminal history record.

In an effort to increase criminal history record information reporting to the CCRE the Department, pursuant to Chapter 783 of the 2019 Acts of Assembly, has developed processes to aid in the reporting of criminal history record information. The processes aim to provide outreach to those involved in reporting criminal record information to ensure reporting requirements are met and sustained. This report examines the steps taken and progress made towards improving criminal history record information reporting.

Background

As previously mentioned, the Department receives criminal court disposition information weekly through a secure electronic file transfer from the Supreme Court of Virginia, Fairfax County Circuit Court, and Alexandria Circuit Court. Criminal court disposition information that is contained in the electronic file is processed by validating the disposition information submitted by the court to ensure errors and omissions do not exist prior to the disposition information being applied to the criminal history record. Furthermore, during this process a search is conducted against the criminal history record database to locate the arrest booking for the offense that corresponds to the criminal court disposition. Dispositions that do not have a corresponding offense in the criminal history database cannot be applied to the criminal history record until the

¹ See § 19.2-390 Code of Virginia.

underlying fingerprint-based booking for the offense is received by the Department.² These dispositions that lack a corresponding offense are retained in the disposition hold file until the fingerprint-based booking for the offense is received.

Over time the number of criminal court dispositions without a matching offense in the criminal history database has increased, necessitating measures for better reporting of criminal history information and steps to acquire fingerprint-based booking and offense information not previously submitted to the Department.

Status of Unapplied Criminal History Information

As part of this report, the Department is required to provide information on the status of dispositions in the disposition hold file. This status includes the total number of unapplied dispositions by year of offense and the year the charge was filed, the number of dispositions submitted to the CCRE without fingerprints or positive identification (including the identity of the submitting law-enforcement agency), and the number of offenses submitted to the CCRE with inconsistencies, errors or omitted information (again including the submitting jurisdiction). Currently, the total number of unapplied dispositions is 1,303,560. The involved offenses with an unapplied disposition occurred between 1958 and 2019, with charge dates ranging from 1976 to 2019. A detailed breakdown of these numbers can be found in Appendix 1. This data is based on disposition information that was transmitted to the CCRE from the courts through September 27, 2019.

Also provided in this report is the number of dispositions submitted to the CCRE without fingerprints or positive identification made. This information is derived from criminal court disposition information received by the CCRE without a corresponding offense located on the criminal history record. The total count of disposition information received without a corresponding offense on the criminal history record is 766,935. This information is tabulated on Appendix 2.

In a review of offenses submitted to the CCRE with inconsistencies, errors or omitted information by submitting jurisdiction, the total number of offenses is 536,625. A list of these offenses broken down by submitting jurisdiction and status is included in Appendix 3.³

Local Community Corrections Reporting

Subsection A 12 of § 9.1-176.1, Code of Virginia, requires probation officers to review the offender's criminal history record at least 60 days prior to an offender being released from local community corrections supervision to verify that the offense for which the offender is being supervised appears on the criminal record, if such offense is

² Virginia criminal history record information is fingerprint based to ensure accurate identification of the correct criminal history record. See § 19.2-390, Code of Virginia.

³ The status information is drawn from the Department's legacy CCH system and replacement CCH system. All disposition hold file information prior to October 10, 2016 is drawn from the legacy CCH system.

required to be reported to the CCRE. If the offense(s) does not appear on the criminal record the probation officer is required to have the offender fingerprinted and photographed for each offense not reflected on the criminal history. The probation officer is required to make electronic or written notification to the CCRE of the offense(s) that do not appear on the criminal record.

Notification to the CCRE is made by completing a form that is provided by the Department. In meeting this requirement, the Department completed modifications to the Computerized Criminal History (CCH) system to allow this data to be consumed and identified as "Delayed Booking" information. Once the Delayed Booking and corresponding offense(s) information is posted in the CCH system the information is displayed on the Virginia rap sheet as a Delayed Booking entry, along with a caveat indicating the information was received in compliance with § 9.1-176.1 (A) (12), § 53.1-145 (13) or (14), § 19.2-305.1 (F) (7) or (8), or § 53.1-23 (B) of the Code of Virginia.

In addition to modifications made to the CCH system and the Virginia rap sheet the Department also developed a reporting form to be used by local community corrections probation officers in reporting to the CCRE the missing booking and offense(s) information. This Notification of Missing Booking Information form is used to gather missing booking and offense(s) information, such as offender identification, missing offense information, original court and booking jurisdiction, and probation officer contact information. In addition, the Notification of Missing Booking Information form provides instructions to the probation officer on how to complete the form and submit to the CCRE.

Once the Notification of Missing Booking Information form and supporting fingerprints are received by the CCRE, the fingerprints are classified by the Automated Fingerprint Identification System (AFIS) section and the corresponding State Identification (SID) number is determined. The SID number identifies the corresponding criminal history record based on the fingerprint information. Once the SID number is identified the Delayed Booking information and associated offense(s) is posted to the criminal history record. After the Delayed Booking information and associated offense(s) are posted to the criminal history record, the corresponding criminal court disposition that is in the disposition hold file is located and applied to the criminal history record. Through this process the Department has received 49 Notification of Missing Booking Information forms and has applied 9 offenses and corresponding hold file dispositions to the criminal history record.⁴ The remaining 40 offenses are awaiting the receipt of fingerprints through the mail from the booking agency. It is anticipated that the number of notifications made to the Department related to missing offense(s) information will increase as this process moves forward.

Subsections F 7 and 8 of § 19.2-305.1, Code of Virginia, require probation officers to submit to the CCRE conviction data when the conviction is not reported on the criminal history. In similar order to the Delayed Booking process, the probation officer is required to submit to the CCRE electronic or written notification related to the

⁴ All delayed booking data is as of September 25, 2019.

missing conviction information. In this process, the missing conviction information that is received by the CCRE is researched in the Court Automated Information System⁵ (CAIS) to locate the court proceeding and original offense information. The original offense information and corresponding Document Control Number (DCN) and Offense Tracking Number (OTN) is used to locate the offense and corresponding disposition in the disposition hold file and apply the corresponding disposition from the disposition hold file. If the criminal court disposition information is not located in the disposition hold file, supporting documentation⁶ from the court of jurisdiction is used to post the disposition information to the criminal history record. Under this process, the Department has applied 70 dispositions to the criminal history record that were not posted to the criminal history record.

Department of Corrections & State Probation

Under subsection B of § 53.1-23 Code of Virginia the Virginia Department of Corrections is required to review an offender's criminal history 60 days prior to release from custody to ensure that the offense(s) information for which the offender is in custody is reflected on the criminal history. If the offense(s) is not reflected on the criminal history the offender is to be fingerprinted and photographed for the missing offense(s) for submission to the CCRE. Notification of the missing offense(s) information is to be made to the CCRE by electronic or written means.

In addition to this requirement, under subsection 13 and 14 of § 53.1-145 Code of Virginia the same missing offense notifications are to be made to the CCRE by the probation officer when the offender is under the supervision of Virginia Department of Corrections, Probation and Parole. The Department worked with the Virginia Department of Corrections to develop an electronic notification that captures offender identifying information, missing booking and offense information, and probation officer location and contact information. The same modifications made to the CCH system for local community corrections notifications were used to consume the Virginia Department of Corrections notifications. Missing offense(s) information that is contained in the electronic notification is linked to the probation intake fingerprint entry⁷ that is associated to the offense(s). Once this link is established, the missing offense(s) and disposition information is applied to the criminal history record as a Delayed Booking. Under this process, the Department has received 723 electronic notifications from the Virginia Department of Corrections. From the initial review of the first 3 batches received, 7 offenses and corresponding hold file dispositions that were not already applied to the criminal history record were added to the criminal history record. A

⁵ The Court Automated Information System is a program that retains court proceedings and case disposition information with offender identifying information, Document Control Number (DCN) and Offense Tracking Number (OTN). The DCN number is assigned to each offense at the time of booking. The OTN number is issued at the magistrate level to track the offense information.

⁶ Supporting documentation includes a printout of the court proceeding information that includes offender identifying information, DCN and OTN and case disposition.

⁷ When an offender reports to their Probation Officer the offender is fingerprinted. This information is transmitted to the CCRE and posted on the criminal history record as an active probation.

majority, however, were not applied as they were already on the criminal history record.⁸ Review of the 723 Department of Corrections notifications is still ongoing and it is anticipated that the number of applied offense(s) and dispositions to the criminal history record will increase.

CCRE Reporting

Subsection C of § 19.2-388 Code of Virginia requires the Department to provide quarterly reports to the Office of the Executive Secretary of the Supreme Court of Virginia, the clerk of each circuit and district court, and Attorneys for the Commonwealth. Contained within the report is a list of unapplied criminal history record information that is relevant to their jurisdiction. As it relates to the Office of the Executive Secretary of the Supreme Court of Virginia, the report will include offenses within the Commonwealth identified by jurisdiction and by court. Currently, the Department is gathering the business requirements related to building the electronic reports. It is anticipated that the reports will be in production by November 2019.

In addition to the reports listed above, the Department is required to send out monthly reports to law-enforcement agencies listing unapplied criminal history record information that is relevant to their agency. In March 2019, the Department began sending out reports to law-enforcement agencies requesting fingerprint based booking information related to criminal court case disposition information received by the CCRE without a corresponding arrest. Under this process, the Department has sent out 1,775 letters to law-enforcement agencies and has received 444 requested fingerprint-based bookings and offense(s) information that were applied to the criminal history record.

Model Policy on Fingerprinting and Reports to the CCRE

§ 19.2-388 Code of Virginia requires the Department to develop a model policy on fingerprinting and reporting of criminal history information to the CCRE. In June 2018, the Department produced its policy on the collection of fingerprint information and reporting of criminal history information to the CCRE. The comprehensive policy reviews the proper arrest forms to be completed during the booking process and associated legal requirements.⁹ Furthermore, the policy provides best practices for the procurement of legible fingerprints. The policy was distributed to law-enforcement agencies in August 2019.

CCRE Orphan Disposition File

In an ongoing effort to make available criminal court disposition information to law-enforcement agencies, firearm related criminal record background checks and noncriminal justice background checks the Department is currently engaged with our Virginia Criminal Information Network (VCIN) vendor to build a hot file¹⁰ that will contain

⁸ The Department intends to work with the Department of Corrections to eliminate these unnecessary notifications.

⁹ See § 19.2-390 and § 16.1-299, Code of Virginia, for reporting requirements.

¹⁰ A hot file is a database that can be queried through the VCIN system.

the orphan disposition file (ODF). The file will contain criminal court disposition information that is currently not posted on the criminal records due to missing corresponding booking information (missing fingerprints) or otherwise has not been posted to the criminal history record. In addition, criminal court disposition information contained in the ODF that is a firearms purchase prohibition will be electronically sent to the Federal Bureau of Investigation (FBI) National Instant Background Check System (NICS) for inclusion in their denied persons file. This process will allow the information to be available nationwide as it relates to firearm criminal record background checks. Currently, the Department is making several system-wide changes to accommodate this new process. It is anticipated that the ODF will be built and tested by the end of 2019.

Additional Measures to Improve Criminal History Reporting

Through a grant with the federal Department of Justice (DOJ) the Department has employed two Office Services Assistants to research and apply criminal court case dispositions that have not been applied to the criminal history record. These employees are also tasked with producing and mailing out to law-enforcement agencies request letters for missing fingerprint booking and offense information. Under this program, the grant funded employees have applied 25,450 criminal court dispositions to the criminal history record.

Furthermore, in an effort to review, research, and apply disposition information from the disposition hold file the Department approved overtime hours for the Program Support Technicians responsible for reviewing, researching and applying dispositions in the disposition hold file that were received from the court with errors and omissions. The overtime hours being worked in this process focuses solely on dispositions received prior to July 1, 2019. The Program Support Technicians have worked a total of 1,193 hours under this dedicated process and have applied an estimated 34,000 dispositions to criminal history records.

The Department is currently building new CCH system functionality that will display probation violations on the Virginia rap sheet as additional criminal history information.¹¹ In this schema, probation violation dispositions that are currently in the disposition hold file will be posted in a separate section of the rap sheet identified as probation information. The probation violation posted in the new section will include the same valuable information that is contained within the disposition itself. This information will include, but is not limited to, the severity of the conviction, charge code cite and descriptor, final case outcome, disposition date, and reporting court. It is anticipated that this process will move several hundred thousand probation violations from the disposition hold file to the criminal history record.

Additional efforts that are being formulated involve the building of an audit process to ensure that Delayed Booking information is being sent to the CCRE. In this process, a report will be produced based on disposition information located in the

¹¹ It was determined that probation violation does not constitute a new fingerprint based booking; therefore, the probation violation will be listed on the criminal history record as additional criminal history information.

disposition hold file where the disposition was not applied due to a missing corresponding offense. This report will provide disposition and probation information that would identify missing Delayed Booking notifications. This information can be segmented by the probation jurisdiction responsible for submitting the Delayed Booking information. This information will provide the Department the ability to identify probation jurisdictions that are not in compliance with submitting Delayed Booking information and provide outreach to those jurisdictions.

The Department has also coordinated with the Department of Forensic Science (DFS) to review disposition hold file information related to DNA samples retained in the DNA databank. In this process DFS provided the Department with offender name and offense information for those offenders in the databank where retention of the DNA had yet to be determined. The Department conducted an exact name, DCN, and OTN match to disposition information retained in the disposition hold file. The matching disposition information produced by this query was provided to DFS for further analysis on DNA retention.

Conclusion

Through the methods described herein, the Department has worked to ensure criminal history information reported to the Department is posted to the criminal history record. Furthermore, efforts continue to be made to acquire fingerprint-based booking and offense information not previously submitted to the Department. As progress continues to be made with receiving booking and offense information from local community corrections, the courts, and the Virginia Department of Corrections, it is envisioned that substantial reductions will be made in the number of criminal court dispositions in the disposition hold file awaiting offense information. Moreover, planned system programming projects and reporting efforts will only aid in achieving the Department's goal of accurate and complete criminal history records.

Appendices

1. Number of offenses that contain unapplied criminal history information by year of offense and year of arrest.
2. Number of offenses without fingerprints or positive identification and submitting law-enforcement agencies.
3. Number of offenses with errors or omissions and submitting jurisdiction.
4. Department of State Police Form SP-331 Notification of Missing Booking Information
5. Virginia Department of Corrections Electronic Delayed Booking Notification
6. Department of State Police Model Policy on Fingerprinting and Reporting

Appendix #1

Legacy CCH system disposition hold file number of offenses that contain corresponding unapplied criminal history information by year of offense and year of arrest. The information below is based on what was transmitted to the CCRE from the courts, which includes omitted or irregular year of offense or year of arrest that was provided by the court.

Appendix #2

Legacy CCH system disposition hold file number of offenses without fingerprints or positive identification and law-enforcement agencies submitting those offenses. The information below is based on what was transmitted to the CCRE from the courts, which includes data that was not provided by the court.

| ORI CODE | ORI NAME | TOTAL |
|----------|---------------------|-------|

Fingerprinting for Missing Booking Information Effective July 1, 2019

INSTRUCTIONS

Part 1 Local Probation Officers:

§ 9.1-176.1 of the Code of Virginia requires that at least 60 days prior to an offender's release, or prior to submitting a request to the court that the offender be released from supervision, Probation Officers shall review the criminal history record of the offender to verify that the offense for which the offender is being supervised appears on the offender's criminal history record, if such offense is required to be reported to the Central Criminal Records Exchange (CCRE).

If the reportable offense does not appear on the criminal record, the Probation Officer must provide written or electronic notification to the CCRE. This may be accomplished by completion of the VSP/CCRE Notification of Missing Booking Information form SP-331, which is available on the State Police website at <http://www.vsp.virginia.gov/FormsPublications.shtm>.

The Probation Officer must give a copy of the completed form SP-331 to the offender with instructions to report to the indicated law enforcement agency to be fingerprinted and photographed.

Part 2 Booking Agencies:

CCRE records indicate that the person presenting this form was arrested, but the booking information required by § 19.2-390 of the Code of Virginia has not been received. Please complete Form **SP-180** or **Live Scan** as outlined below.

When fingerprinting the offender for a Delayed Booking on an **SP-180 Arrest Card**, the Court Case Number (CCN), this is on the accompanying form and is associated with the first missing charge, must be written in the Occupation field located on the card. In addition, the Offense Tracking Number (OTN) and the words Delayed Booking need to be written above the Document Control Number (DCN) located on the card.

When fingerprinting the individual for a Delayed Booking using **Live Scan**, the Court Case Number (CCN) noted on the SP-331 must be entered in the Occupation field. The Offense Tracking Number (OTN) noted may be entered in the OTN field. Once the Delayed Booking is transmitted to the State Police, the card must be printed and the words "Delayed Booking" need to be written on the card prior to mailing.

The Booking Officer shall sign the form SP-331 upon completion and the offender shall return the completed form to the Probation Officer. The Probation Officer will fax the completed form to 804-674-8530.

Mail the Form SP-331 (Notification of Missing Booking Information) along with the SP-220 or the SP-180 (fingerprint card) and a photograph to:

Commonwealth of Virginia
Department of State Police
Central Criminal Records Exchange
Post Office Box 27472
Richmond, Virginia 23261-7472
FAX 804-674-8530

For questions related to the submission of Notification of Missing Booking Information, please contact the Central Criminal Records Exchange Manager at 804-674-6724.

Policy on the Collection of Fingerprints and Reporting of Criminal History Record Information to the Central Criminal Records Exchange

ADULT ARREST FORMS SP-180 & SP-220

REQUIRED REPORT - §19.2-390, Code of Virginia, requires every state official or agency having the power to arrest, the sheriffs of counties, the police officials of cities and towns, and any other local law enforcement officer or conservator of the peace having the power to arrest for a felony shall make a report to the Central Criminal Records Exchange, on forms provided by it (SP-180 or Live Scan SP-220), of any arrest, including arrests involving the taking into custody of, or service of process upon, any person on charges resulting from an indictment, presentment or information, the arrest on capias or warrant for failure to appear, and the service of a warrant for another jurisdiction, for each charge when any person is arrested on any of the following charges:

- a. Treason;
- b. Any felony;
- c. Any offense punishable as a misdemeanor under Title 54.1; or
- d. Any misdemeanor punishable by confinement in jail (i) under Title 18.2 or 19.2, or any similar ordinance of any county, city or town, (ii) under § 20-61, or (iii) under § 16.1-253.2; or
- e. Any offense in violation of § 3.2-6570, 4.1-309.1, 5.1-13, 15.2-1612, 46.2-339, 46.2-341.21, 46.2-341.24, 46.2-341.26:3, 46.2-817.58.1-3141, 58.1-4018.1, 60.2-632, 63.2-1509, or 63.2-1727.

The CCRE arrest form (SP-180 or SP-220) contains information required by the Exchange including the fingerprints of the individual arrested. Verify (don't just ask) information by review of identification documentation such as driver's license, social security card, school identification, military identification, etc.

In instances where individuals are arrested and released on a summons, in accordance with §19.2-74, the arrest form (SP-180 or SP-220) is not required to be submitted to CCRE until after (i) a conviction is entered and no appeal is noted or if an appeal is noted, the conviction is upheld upon appeal or the person convicted withdraws his appeal; (ii) the court defers or dismisses the proceeding pursuant to § 18.2-57.3, 18.2-251, or 19.2-303.2; or (iii) an acquittal by reason of insanity pursuant to § 19.2-182.2 is entered. Upon such conviction or deferral, the COURT shall remand the individual to the custody of the office of the chief law enforcement officer or his designee to complete the arrest form (SP-180 or SP-220) immediately following conviction.

JUVENILE ARREST FORMS SP-180 & SP-220

§16.1-299, Code of Virginia, provides that arresting authorities shall take fingerprints and photograph of any juvenile who is taken into custody and charged with a delinquent act an arrest for which, if committed by an adult, is required to be reported to the Central Criminal Records Exchange pursuant to subsection A of §19.2-390. Whenever fingerprints are taken, they shall be maintained separately from adult records and a copy shall be filed with the juvenile court on forms provided by the Central Criminal Records Exchange.

Criminal Justice Information Services Division

Virginia State Police

FINGERPRINTING BEST PRACTICES

1. The subject's fingers should be clean regardless if the suspect is being printed with ink or on a live scan device. If necessary, have the subject wash hands, then thoroughly wipe hands and fingers dry, using a material that is lint free. Dirt, grease, water or perspiration on the fingers will cause the ink not to adhere properly to the fingers. This will result in uneven or poorly reproduced fingerprint impressions.
2. Fingerprints should be submitted electronically when possible. Up to 15 charges be placed on the Live Scan Card (SP220). Only 1 charge will be recorded per arrest record (SP-180).
3. Rolled impressions: Fingers are inked individually and rolled individually in the appropriate block on the fingerprint card. It is important that the rolling be done carefully to record the entire fingerprint pattern needed for classification. Fingers should be rolled from nail to nail. It is not necessary to record the pattern on the tip of a finger; however, it is necessary that the finger be inked and rolled slightly below the first joint. Impressions must not be too light or too dark, slightly dark impressions are better than light ones, provided they are not blurred.
4. Fingerprints must be legibly recorded in proper sequence on a fingerprint card to be acceptable by the Central Criminal Records Exchange and the FBI. Smudged, lightly inked impressions, and hurriedly taken fingerprints indicate not only careless workmanship, but can cause costly delays, free the guilty, and can be a factor in life or death. If fingerprints are not legibly recorded, they cannot be classified or entered into AFIS to be searched against the database. Poor quality fingerprints will be returned to the contributing agency. This action will mean that the record of the arrest has not been recorded against the record.
5. If using the ink and paper method, roll the finger on the inking plate or pad so the entire fingerprint pattern area is evenly covered with ink. The ink should cover from one edge of the nail to the other and from the crease of the first joint to the tip of the finger. Using the correct amount of ink is vital. Instruct the individual to look away from the fingerprint device, not to assist in the fingerprint process, and to relax. Grasp the individual's right hand at the base of the thumb with your right hand. Cup your hand over the individual's fingers, tucking under those fingers not being printed. Guide the finger being printed with your left hand.
6. Plain impressions: Start with the right hand and place the four fingers lightly on the inking slots at the same time. After inking, place all four fingers flat - do not roll - on the designated space on the fingerprint card. Repeat the same procedure with the right thumb; repeat the same procedure with the left hand. The utmost care should be used in recording the impressions of all fingers. This is essential for classification purposes. Any defective impressions should be remedied by taking a complete new set of prints. No cutting, stapling or any other action that alters the size or thickness of the card is allowed.
7. It is imperative that all amputations, drawn or crippled fingers, those fingers missing from birth, deformities, paralysis, burns, and cuts be noted on the fingerprint card.
