Dear Delegates Jones and Tyler and Senators Norment, Hanger, and Newman:

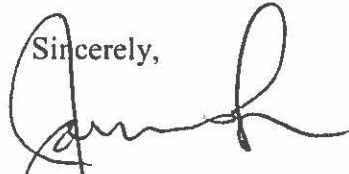

I am pleased to submit the enclosed report summarizing findings from the inaugural administration of a state-wide school personnel survey pursuant to Item 134.H. of Chapter 2, 2019 Virginia Acts of Assembly. The language in the appropriation act states that the Department shall report annually on the results of any school personnel survey.

The Department leveraged its robust partnership with the Center on Education Policy and Workforce Competitiveness (EdPolicyWorks) at the University of Virginia and existing federal grant funds to administer teacher and staff working conditions surveys during the 2018-2019 school year. The Department continues to analyze data from the surveys and provide support to school divisions to interpret survey results and develop action plans.

The Honorable S. Chris Jones
The Honorable Roslyn C. Tyler
The Honorable Thomas K. Norment, Jr.

AUTHORITY FOR THE SURVEY

Item 134.H of the 2019 Appropriation Act requires the Virginia Department of Education (VDOE) to develop and administer biennially a voluntary and anonymous school personnel survey to all individuals holding a license from VDOE in public elementary and secondary schools (see Appendix A for full language). Results of the survey are to be reported annually to the Chairpersons of the House Committees on Appropriations and Education and to the Senate Committees on Finance and Education and Health.

SURVEY DEVELOPMENT AND COLLECTION

For the 2018-2019 school year, VDOE leveraged an existing federal research partnership grant with the University of Virginia (UVA) to develop and administer the working conditions surveys. UVA developed parallel survey instruments for teachers and for other licensed staff based on current research and publicly available survey models. The surveys measured four domains of working conditions, listed in Table 1.

Table 1: Working Conditions Survey Content

Domain	Measures
Professionalism	Teacher Leadership Teacher Autonomy Staff Collegiality
Teaching, Instruction, and Student Support	Instructional Practices Academic Environment Instructional Environment
School and Community Supports	School Leadership Teacher Evaluation Professional Development Demands on Teachers' Time Managing Student Behavior Relationships with Parents/Guardians
Safety	Concerns about Safety Prevalence of Bullying

Given the abbreviated timeline for implementation, VDOE provided school and division personnel a brief opportunity to review the survey items and provide feedback. UVA made edits to the surveys where possible. The final surveys, one for teachers and one for staff, are publicly available on the VDOE website and included in this report as Attachments B and C.

VDOE sent instructions for survey completion to school divisions in November 2018. Schools could select any three-week window between January 7, 2019 and March 15, 2019 to complete the surveys. VDOE later extended the deadline for survey administration until March 31, 2019 to boost response rates. During survey administration, VDOE staff sent weekly emails to schools and divisions with survey reminders and updated response rates to encourage participation.

FINDINGS

Response Rates

Of the 1,804 schools that were invited to participate in the working conditions survey administration, VDOE received responses from 93.0 percent of schools for the teacher survey, and 90.8 percent of schools for the staff survey. In total, 54,207 teachers responded to the working conditions survey, representing approximately 61.9 percent of all licensed teachers in the state. Among schools with responding teachers, the average response rate by school was 68.2 percent. An additional 19,588 individuals responded to the staff survey. VDOE does not collect data on all licensed staff in school buildings, so a response rate could not be calculated for this group. Reliability and validity statistics for the teacher and staff working conditions survey are included in Appendix D.

Statewide Summary

VDOE distributed reports to schools and divisions with local summary data shortly following the completion of survey administration. Table 2 shows the statewide average response and the percent of positive responses for measures in the teacher and staff working conditions surveys. The survey scale ranged from 1 – Strongly Disagree to 6 – Strong Agree, so mean values at or above 3.5 are considered positive. In general, teachers and staff reported positive working conditions, with staff responses slightly more positive than teacher responses on most parallel measures. Teachers were most likely to disagree with items in the Demands’ on Teachers Time measure, which included questions about class size, time for collaboration with peers, and amount of instructional and non-instructional time available. Teachers were most likely to agree with items in the Staff Collegiality measure (e.g., “I feel respected by teachers and other adults at this school”) and in the Instructional Practices measure (e.g., “Teachers and other adults at this school encourage students to share their ideas about what they are studying in class”).

Table 2: Statewide Responses to Teacher and Staff Working Conditions Survey Measures

*Items scored on No (0) or Yes (1) scale

**Lower average scores indicate disagreement with statements about the high prevalence of bullying

NEXT STEPS

UVA continues to analyze data collected from the 2018-2019 Working Conditions Surveys to examine differences across schools defined by student demographics, school type, community characteristics, and division size. In addition, UVA will examine relationships between working conditions, job satisfaction, and intentions to remain in the teaching profession.

As analyses are finalized, VDOE will make reports publicly available on its website. In addition, VDOE and UVA are providing presentations to school divisions throughout the state focused on interpretation of survey data and regional trends.

Per the 2019 Appropriation Act requirement, VDOE intends to administer the Teacher and Staff Working Conditions Surveys again in the 2020-2021 school year. However, federal funds used for the 2018-2019 survey administration are no longer available. VDOE is pursuing multiple funding options, including partnerships and grant opportunities, to continue full-scale administration of the survey. If funds are not available, the scope of the survey will likely be limited based on available VDOE capacity for administration.

APPENDICES

Appendix A

Item 134.H.

Out of the amounts in this item, the Department of Education shall develop and administer biennially to individuals holding a license from the Department in each public elementary and secondary school in the Commonwealth a voluntary and anonymous school personnel survey to evaluate school-level teaching conditions and the impact such conditions have on teacher retention and student achievement. Such survey may include questions regarding school leadership, teacher leadership, teacher autonomy, demands on teachers' time, student conduct management, professional development, instructional practices and support, new teacher support, community engagement and support, and facilities and other resources. The Superintendent of Public Instruction shall report the results of any school personnel survey to the Chairmen of the House Committees on Appropriations and Education and to the Senate Committees on Finance and Education and Health annually before the first day of each General Assembly Regular Session. The appropriation in this item meets the requirements of the second enactment of Senate Bill 456, of the 2018 General Assembly Regular Session.

*This is a review copy, not for circulation or use. The actual survey is online with formatting for easier reading. Questions are grouped around working conditions topics (in **BOLD CAPS** below). These topics do not appear in the online survey.*

Instructions for Teachers:

This survey is being given to teachers whose primary job responsibility is interacting with students in classroom settings. All teachers are asked to complete the survey regardless of the grade level of the students with whom they teach or interact. The purpose of the survey is to help schools create and maintain positive working conditions for professionals working in Virginia's public schools.

Your individual answers to the survey are anonymous, which means that no one will know how you answered. It is important that you submit only one completed survey for each school at which you work.

The survey should take about 15-20 minutes to complete.

In order to access the online survey, you must enter the unique password for the teacher survey which was assigned to your school. Your principal, or your principal's designee, will have this password for you. All teachers at the same school will have the same password, so you will not be identified by this password. It is important that you submit only one completed survey for each school at which you work. The researchers for this survey are obligated to protect your identity.

What is your password for taking this survey? _____

1. Are you a teacher in this school? [NOTE: If "No" is selected, the respondent will be redirected to the staff version of the Virginia Working Conditions Survey.]

Appendix C
2019 Virginia Working Conditions Survey
Staff Version

*This is a review copy, not for circulation or use. The actual survey is online with formatting for easier reading. Questions are grouped around working conditions topics (in **BOLD CAPS** below). These topics do not appear in the online survey.*

Instructions for Staff:

This survey is being given to school staff members (i.e., administrators, counselors, instructional aides and para-educators, subject specialists (e.g., mathematics, reading, etc.), nurses, psychologists, school resource officers, security officers, library media specialists, and social workers) whose primary job responsibility is *not* interacting with students in classroom settings. Teachers should complete the Teacher Working Conditions Survey. All staff are asked to complete the survey regardless of the grade level of the students served at their school. The purpose of the survey is to help schools create and maintain positive working conditions for professionals working in Virginia's public schools.

Your individual answers to the survey are anonymous, which means that no one will know how you answered. It is important that you submit only one completed survey for each school at which you work.

The survey should take about 10-15 minutes to complete.

In order to access the online survey, you must enter the unique password for the staff survey which was assigned to your school. Your principal will have this password for you. All staff members at the same school will have the same password, so you will not be identified by this password. It is important that you submit only one completed survey for each school at which you work. The researchers for this survey are obligated to protect your identity.

What is your password for taking this survey? _____
