Dear Esteemed:

Pursuant to the language in the General Assembly's 2020 Chapter 1289 Appropriations Act, please find attached the Virginia Department of Corrections' report on health care service provision. Chapter 1289 required that the Virginia Department of Corrections remit data to the Director of the Department of Planning and Budget and the Chairmen of the House of Appropriations and Senate Finance Committees regarding medical treatment provided to offenders at each facility. Specifically, the data was to include as a proportion, the level of average daily population at each facility who were treated as out-patient, in-patient, prescription drug administration, and other discrete services. For this report, other discrete services were defined by the Virginia Department of Corrections to reflect the level of average daily population at each facility who received on-site telemedicine services, on-site dentistry services, and on-site dialysis services. Please note, all data reported reflects the most robust information available for Fiscal Year 2020.

Due to the lack of an electronic health record system for health management of offenders across the Department of Corrections' facilities, the data reported is reliant upon third party administrator billing claims information and more rudimentary collection techniques, such as tabulating occurrences by hand each month. This significantly limits the ability of VADOC to report more robust information to inform all parties. More so, only out-patient and in-patient measures could be reported as a true proportion of ADP. All other measures are provided as observable counts with calculations that reflect the count as a ratio to offender.

The Department of Corrections is working to improve internal data collection and retention processes with regards to health care services provided to our offenders. A new data collection tool was implemented in Nov 2018 to allow for a more robust collection and analysis. However, this tool is still reliant on tabulating occurrences by hand each month. The Department of Corrections would be open to discussing other variations of the requested measures should the data as requested be found of limited value in addressing the needs of all parties.

Additionally, the COVID-19 pandemic most likely had an impact on the utilization reported herein. This should be noted when comparing this report to past annual reports submitted.

Please contact me if you have questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Harold W. Clarke". The signature is written in a cursive style with a large initial "H" and "C".

Table Notes

- ¹ Out-Patient count defined as number of unique offenders who have seen a physician as recorded in Anthem billing data. Calculation reflects the proportion of unique offenders divided by ADP.
- ² CHANGED: In-Patient count defined as number of unique offenders who have had a hospital visit reported by a DOC institution to HSU to obtain check for Medicaid coverage. Calculation reflects the proportion of unique offenders divided by ADP.
- ³ Prescriptions Filled defined as number of individual prescriptions that were filled. This may include refills of the same prescription for the same offender, therefore, calculation based off number of prescriptions filled per person based on ADP.
- ⁴ Prescription Pills Administered defined as number of individual doses provided across all offenders at that facility. Calculation reflects number of doses administered per person based on ADP. Issuing a monthly supply counts as one administration.
- ⁵ Telemedicine defined as number of telemedicine clinic visits performed at the specified facility across all offenders at that facility. Calculation reflects number of visits per person based on ADP, but reflected as a proportion as requested.
- ⁶ On-Site Dentistry defined as number of visits performed by a dentist at a facility across all offenders at that facility. Calculation reflects number of visits per person based on ADP, but reflected as a proportion as requested.
- ⁷ Data captures January - June 2020 only.
- ⁸ On-Site Dialysis defined as census of patients receiving dialysis at the specified facility. Calculation reflects census as a proportion of ADP at that facility.
