DEPARTMENT OF STATE POLICE
P. O. Box 27472, Richmond, VA 23261-7472

Lt. Colonel Tracy S. Russillo
Deputy Superintendent

September 7, 2021

TO: The Honorable Ralph S. Northam, Governor of Virginia

The Commonwealth of Virginia General Assembly

Pursuant to §19.2-388(E) of the Code of Virginia, I am respectfully submitting herewith a report concerning the Department's progress on the status of unapplied criminal history information.

Respectfully,

A handwritten signature in cursive script that reads "Gary T. Settle".

Superintendent

GTS/JRG

Enclosure

Preface

In 2019, the General Assembly amended §19.2-388 of the Code of Virginia to require the Department of State Police (Department) to provide a report by November 1 of each year to the Governor and the General Assembly “on the status of unapplied criminal history information and any updates to fingerprinting policies and procedures.” As directed under this provision, the Department’s Criminal Justice Information Services Division (CJIS), Central Criminal Records Exchange (CCRE), has reviewed its current efforts to achieve better reporting of criminal history information. The current processes and projects associated with criminal history reporting are described in this report.

Executive Summary

The Department, through the CCRE, receives and processes criminal court disposition information weekly. This information is transferred electronically through secure file transfers from the Supreme Court of Virginia, Fairfax County Circuit Court, and Alexandria Circuit Court.¹ Once received, this information is validated to identify errors or omissions that require human intervention to resolve before applying dispositions to criminal history records. Disposition information that is free from errors and contains a corresponding arrest booking on the criminal history record automatically applies to the criminal history records. Dispositions that do not have a related arrest booking on the criminal history record are stored in the Computerized Criminal History (CCH) hold file until the matching arrest booking is received and applied to the criminal history record.

Pursuant to Chapter 783 of the 2019 Acts of the Assembly, the Department has undertaken efforts to increase the reporting of criminal history information to the CCRE and to improve the quality of the data received. Examples contained in this report include notifications to criminal justice agencies related to unapplied criminal history information, ongoing outreach efforts with the courts to improve disposition data quality submitted to the CCRE, internal progress on resolving unapplied criminal history information, and continued CCH system functionality development. This report will outline the strategies that are currently underway in an effort to resolve unapplied criminal history information.

Background

As previously mentioned, the Department receives criminal court disposition data weekly through a secure electronic file transfer. Once the information is received, a validation process takes place to ensure the criminal court disposition data elements are present and free of exceptions. Disposition information that contains exceptions are moved to a disposition work queue for review, research, and correction by CCRE staff before being applied to the criminal history record. Criminal court dispositions that do not contain exceptions and have corresponding arrest booking information on the criminal history record apply automatically to the record. If a disposition does not have a corresponding arrest booking on a criminal history record, the disposition remains in the

¹ See § 19.2-390 Code of Virginia.

CCH hold file until the corresponding arrest booking is received and applied to the criminal history record.² From the inception of the criminal history system to July 1, 2021, the CCRE has received both mandatory and non-mandatory disposition information.³ Over time, this information has been collected in the CCH hold file awaiting the corresponding fingerprint arrest booking information for application to the criminal history record.

Status of Unapplied Criminal History Information

As part of this report, the Department must provide information on the status of dispositions in the disposition hold file. This status includes the total number of unapplied dispositions by year of the offense, the year the charge was filed, the number of dispositions submitted to the CCRE without fingerprints or positive identification, including the identity of the submitting law enforcement agency, and the number of offenses submitted to the CCRE with inconsistencies, errors, or omitted information, and the submitting jurisdiction. Currently, the total number of unapplied dispositions is 1,343,926. The involved offenses with unapplied dispositions due to errors or omissions occurred between 1958 and 2021, with charge dates ranging from 1976 to 2021. A detailed breakdown of these numbers is listed in Appendix 1. This data is based on disposition information that was transmitted to the CCRE from the courts through June 30, 2021.

Also provided in this report is the number of dispositions submitted to the CCRE without fingerprints or other positive identification. This information was generated from criminal court disposition information received by the CCRE without a corresponding offense located on the criminal history record. Of the 1,343,926 total unapplied dispositions, 812,336 are attributable to missing fingerprints. This information is tabulated in Appendix 2. The remaining 531,590 offenses were submitted to the CCRE with inconsistencies, errors or omitted information.⁴ Appendix 3 tabulates this data by submitting jurisdiction and status.⁵

Local Community Corrections Reporting

§ 9.1-176.1(A)(12) of the Code of Virginia, requires probation officers to review the offender's criminal history record at least 60 days before an offender is released from local community corrections supervision to verify that the offense for which the offender is being supervised appears on the criminal record, if such offense is required to be reported to the CCRE. If the offense does not appear on the criminal record, the probation officer is required to have the offender fingerprinted and photographed for each offense that is not reflected in the criminal history. The probation officer is required to make

² Virginia criminal history record information is fingerprint-based to ensure accurate identification of the correct criminal history record. See § 19.2-390, Code of Virginia.

³ As of July 1, 2021 non-mandatory offense and corresponding disposition information was removed from the CCH hold file.

⁴ The status information is drawn from the Department's legacy and replacement CCH systems. All disposition hold file information prior to October 10, 2016 is drawn from the legacy CCH system.

⁵ The replacement CCH system does not update the status of disposition information migrated from the legacy CCH system. As a result, data retrieved from the legacy CCH system remains unchanged from previous reports.

electronic or written notification to the CCRE of the offense that does not appear on the criminal record. In the same fashion, § 19.2-305.1(F)(7)(8) of the Code of Virginia, requires probation officers to submit conviction data to the CCRE when the conviction is not reported on the criminal history.

Probation officers notify the CCRE by completing a form that is provided by the Department. In 2019 the Department completed modifications to the CCH system to allow this data to be consumed and identified as “Delayed Booking” information. Once the Delayed Booking and corresponding offense information is posted in the CCH system, the information is displayed on the Virginia criminal history as a Delayed Booking entry, along with a caveat indicating that the information was received in compliance with § 9.1-176.1(A)(12), § 53.1-145(13)(14), § 19.2-305.1 (F)(7)(8), or § 53.1-23(B) of the Code of Virginia.

To facilitate reporting, the Department developed the Notification of Missing Booking Information form (SP-331) for reporting. This form gathers the offense, court case number, offense tracking number, probationer demographics, and probation officer reporting information. The form is also used to indicate the agency responsible for acquiring the missing booking fingerprints. Once completed, the SP-331, along with fingerprint booking information, is forwarded to the CCRE for processing. Once received, the fingerprints are classified by the Biometric Records Section (BRS), and the corresponding State Identification (SID) number is determined. The SID identifies the corresponding criminal history record based on the fingerprints. Once the SID is specified, the Delayed Booking information and the associated offense(s) are posted to the criminal history record. After the Delayed Booking information and associated offense(s) are assigned to the criminal history record, CCRE personnel locate any corresponding criminal court disposition(s) that are in the disposition hold file and apply those disposition(s) to the criminal history records. Through this process, the Department has applied 145 offenses and dispositions to Virginia’s criminal history records.⁶

Department of Corrections & State Probation

Under § 53.1-23(B) of the Code of Virginia, the Virginia Department of Corrections (DOC) shall review an offender’s criminal history 60 days before release from custody to ensure that the offense information for which the offender is in custody is reflected on the criminal history. If the offense is not on the criminal history, the offender is to be fingerprinted and photographed for the missing offense. The missing information shall then be forwarded to the CCRE, through either electronic or written means.

In addition to this requirement, under § 53.1-145(13)(14) of the Code of Virginia, the same missing offense notifications are to be made to the CCRE by probation officers when the offender is under the supervision of DOC Probation and Parole. In 2019, the Department consulted with DOC to develop an electronic form that could be sent to the Department, providing notification of missing booking information. Information reported

⁶ Due to the courts’ response to COVID-19, the submission of Community Corrections Delayed Bookings has been reduced.

on the form is researched by the CCRE staff for linkage to DOC correctional booking information or probation booking information. Within this process, CCRE staff members attempt to connect missing fingerprint information to the correctional entry offense information previously submitted with the correctional or probation booking information. The drawback is that correctional and probation booking information received from DOC is challenging to match to an arrest record because it does not state the charge for which they are submitting the information.

The Department has been in regular consultation with DOC to determine a better way to link the missing booking information to criminal history records when a correctional booking without a literal description has been applied to the record. Information developed from the conversations identified that once an inmate or probationer is fingerprinted for a correctional booking, the BRS identifies the corresponding state identification number (SID) based on fingerprint information and applies the correctional booking information to the criminal record. During this process, the BRS electronically returns the verified SID number to DOC. DOC includes verified SID numbers within the Virginia Correctional Information System (CORIS) to link inmates or probationers to corresponding SIDs. Corresponding SIDs from CORIS are then listed on the notification of missing booking information received from DOC.

In 2020, the Department implemented a process using the SID provided by the DOC as the unique identifier to update the criminal history with missing booking information where a correctional booking entry exists on the record. When updating the record, CCRE staff identify the offenses as "Delayed Booking." After the Delayed Booking has been added to the criminal history, the corresponding disposition is applied. Once the arrest booking and corresponding offense information is posted in the CCH system, the information is displayed on the Virginia criminal history as a Delayed Booking entry along with a caveat indicating that the information was received in compliance with § 9.1-176.1(A)(12), § 53.1-145(13)(14), § 19.2-305.1(F)(7)(8), or § 53.1-23(B) of the Code of Virginia.

CCRE staff entered 1,218 Delayed Booking offenses and applied the corresponding dispositions. The new process of updating criminal history records has proven especially helpful in situations where the missing booking information is for probation violations. Prior to 2019, there were inconsistencies in the reporting of probation violations by booking agencies. CCRE staff now have the capability to update records using the Transaction Control Number (TCN) from the existing correctional booking entry. In the same manner as the previously mentioned offenses, the Probation Violation offenses are annotated on the criminal record as Delayed Booking and the disposition information applied.

CCRE Reporting

§ 19.2-388(C) of the Code of Virginia requires the Department to provide quarterly reports to the Office of the Executive Secretary of the Supreme Court of Virginia (OES), the clerk of each circuit, district and juvenile court, as well as Attorneys for the

Commonwealth. Contained within each report is a list of unapplied criminal history record information that is relevant to each jurisdiction. Reports to the OES include offenses within the Commonwealth identified by jurisdiction and by the court. The development of these reports continued through December of 2020. In February 2021 this functionality was deployed into production with the first set of quarterly reports mailed out in early March. These reports were sent out retroactively beginning with the third quarter of 2019.

In addition to the reports listed above, the Department is required to send out monthly reports to law-enforcement agencies listing unapplied criminal history record information that is relevant to their agency. In February 2021 the existing report was updated to match the new reports being sent out to the OES, attorneys for the Commonwealth and all courts within the Commonwealth. The Department began sending these new reports to law-enforcement agencies on a monthly basis, beginning March 2021. Under this process, the Department sent out 7 letters to the OES, as well as 17,243 letters to all other agencies.⁷ As a result, analysts for the CCH Hold File Special Processing & Analytical Support Section (SPASS) received responses that allowed them to correct and/or apply 5,962 records to the criminal history. SPASS continues to receive responses daily and works diligently to accurately update criminal records in a timely manner.

CCRE Orphan Disposition File

In 2020, the Department signed a Statement of Work with the Virginia Criminal Information Network (VCIN) vendor, Computer Projects of Illinois (CPI), to build a hot file⁸ that will contain the Orphan Disposition File (ODF). The ODF will contain disposition information that was received by the CCRE that has not been applied to a criminal history record. The disposition information in this file will contain those dispositions that do not have corresponding arrest booking information on the criminal history record. In addition, disposition information included in the ODF that is a disqualifier for the purchase of a firearm will be electronically sent to the Federal Bureau of Investigation and the National Instant Criminal Background Check System (NICS) for inclusion in their denied persons file.⁹ This process will ensure that firearm purchase disqualification information will be made accessible nationwide for firearm purchase background checks.

In late 2020 CPI began working with the Department to build the ODF. The department has been communicating with the vendor to build, test data and resolve errors to ensure the new ODF will function in the manner required. Test data is transmitted to the NICS to verify information is properly transmitted and any errors or inconsistencies are reported back to the Department. The Department's Information Technology developers and staff then correct these issues, clear the data sent to NICS and send the test data again. This testing will continue until both the vendor and the Department are

⁷ Total includes reports that were sent out to law enforcement beginning May 2019.

⁸ A hot file is a database that can be queried through the VCIN system.

⁹ Based on dissemination requirements under § 19.2-389.3(A) of the Code of Virginia, sealed criminal history information is not reported to NICS.

confident the ODF is functioning in an acceptable manner as required by the Statement of Work.

As stated in § 19.2-389.3(A) of the Code of Virginia, records maintained in the Central Criminal Records Exchange, including any records relating to the arrest, criminal charge, or conviction of a person for a violation of § 18.2-250.1 shall not be open for public inspection or otherwise disseminated unless to be used for determination of eligibility to possess or purchase a firearm as provided in § 18.2-308.2:2 of the Code of Virginia or any significant other purpose as specified under § 19.2-389.3(A) of the Code of Virginia, effective July 1, 2020. With this new legislation surrounding the reporting of marijuana related offenses, the Department has signed a change order with CPI to build the capability to filter unapplied disposition information that contains offenses that pertain to § 18.2-250.1 Misdemeanor Possession of Marijuana and § 18.2-248.1 Misdemeanor Distribute or Possess with Intent to Distribute Marijuana (added effective July 1, 2021). Due to the legislative reporting mandates and the additional work to be completed by CPI, deployment of the ODF has been delayed. It is anticipated that the ODF will be deployed for active use in the fourth quarter of 2021.

Additional Measures to Improve Criminal History Reporting

Through a grant with the Department of Justice, the Department continues to employ two contractors to research and apply unapplied court dispositions. As a part of their duties, contracted staff research dispositions received from incoming mail, the Sex Offender Registry (SOR), the Civil & Applicant Records Exchange (CARE), and the Expungement Section. The disposition hold file is checked for any unapplied dispositions. Once found, errors are resolved and the dispositions are applied to the criminal history. Between January 1, 2019, and June 30, 2021, these grant-funded contractors applied 12,148 criminal court dispositions to criminal history records.

The CCRE staff reviews, on a daily basis, dispositions in the CCH hold file that contain errors or omissions. When errors are found, staff resolve the issue and apply the disposition to the criminal history record. Between January 1, 2019, and June 30, 2021, the CCRE staff reviewed over 67,550 dispositions that were received with errors or missing arrest bookings. Of the dispositions reviewed, the CCRE staff applied 31,425 to the criminal history record, marked 8,013 as already existing on criminal records, marked 1,217 dispositions as never to be applied and identified 26,895 as reviewed, but missing the corresponding arrest booking information. The CCRE staff has made it a priority to resolve felony guilty disposition errors. Between August 15, 2020 and September 25, 2020 CCRE staff focused their efforts to resolve disposition errors with felony convictions. Felony guilty errors were split up and assigned to two-member teams which solely targeted these dispositions. As a result, CCRE staff resolved 5,215 felony guilty disposition errors.

In addition, the Department has continued to approve overtime hours for the CCRE staff responsible for conducting this review. From the start of the overtime assignment in

October 2018 to June 30, 2021, CCRE staff worked 4,080 hours of overtime and processed approximately 147,345 dispositions.

As required under House Bill 2113ER2 and Senate Bill 1339ER2, the Department of State Police deleted all records from the Central Criminal Records Exchange that were not required to be reported under subdivision A1 of §19.2-390 of the Code of Virginia by July 1, 2021. The CCRE worked with the Department's Information Technology Division to develop and deploy the capability to delete any offense and corresponding disposition records that are not mandatory reportable to the CCRE. This deletion of records was to include any disposition in the CCH hold file where the original offense was not mandatory reportable to the CCRE. The removal of the CCH hold file records has reduced the amount of unapplied criminal history information in the database. In addition, any non-mandatory reportable information sent to the CCRE after July 1, 2021 will be excluded from the ODF.¹⁰

SPASS continues to process responses from requests for missing fingerprint-based booking information, which includes applying criminal court dispositions to the criminal history record once the missing fingerprint booking and offense information is received; maintaining and/or processing delayed booking information and serving as a point of contact for agencies needing assistance with requests for fingerprint booking and offense information. With the addition of the new Unapplied Criminal History Reports, which are now sent quarterly, the responses have increased dramatically. The analysts have been receiving more inquiries from agencies needing assistance with resolving the issues reported. This assistance can range from an explanation of the report to research and error resolution. Moreover, the analysts are currently tracking data from responses to address issues that can be resolved through additional training. In the future, SPASS will be using this information to create instructional aides to assist agencies with the proper reporting of criminal history information.

In addition to processing responses to the reports, analysts are tasked with resolving missing criminal history information reported by the Department of Corrections and local Probation & Parole. This information is usually reported via a Notification of Missing Booking Information (SP-331), submitted by local Probation & Parole or a Notification of Missing Arrest, which is uploaded by the DOC to a secure FTP server, and downloaded weekly to be processed by SPASS staff.

In June of 2021, the Department completed the documenting of the project's mid-level requirements, including legislative requirements for implementation of a new CCH system to be known as the Criminal and Rap Back Information System (CRIS). The Department issued a Request for Information (RFI) in August of 2021. The RFI document will allow vendors that have successfully implemented criminal history repository projects to review our mid-level CRIS business requirements and pose questions to the Department as needed. CRIS will provide state-of-the-art criminal history processing, as

¹⁰ Certain non-mandatory reportable probation violations will remain on the criminal history record as well as included in the ODF.

well as integrated Rap Back, civil commitment and civil background check capabilities.¹¹ More importantly, CRIS will provide courts the ability to view disposition information transmitted to the Department that contains errors or does not have a corresponding arrest booking on the criminal history record. Through this interface with the courts, clerks will be able to make corrections to the disposition information and resubmit the information to the Department for re-validation and electronic application to the criminal history record. This process will replace the current manner of the courts correcting disposition information in a hard copy, and then mailing their corrections to the Department so that the CCRE staff can make the appropriate modifications and apply dispositions to the criminal history records.

Furthermore, CRIS will provide an interface with booking agencies where arrest booking information received by the Department can be viewed, corrected, and resubmitted to the CCRE for inclusion on the criminal history record. Also, booking agencies will be able to view the missing booking information when the Department receives disposition information without a matching arrest. This information will be provided in an expedited manner, thus allowing the booking agency to take appropriate measures to obtain an arrest booking for the offense and submit the information to the CCRE for inclusion on the criminal history record.

In July 2020 the Department began working with the OES to improve the quality of data that is electronically transmitted to the CCRE for inclusion on the criminal history record. While under this partnership with the OES, the CCH team developed a total of 12 reports that included data exception examples for the OES to analyze and return their research findings. Based on the research findings, the CCH team developed an overall root cause analysis of the exception, recommendations for future corrective actions and the business value it will promote. The CCH team and CJIS Division stakeholders have scheduled a series of five meetings with the OES to review the findings. It is anticipated that this continued partnership with the OES will help to reduce electronic court data received containing exceptions, and reduce manual intervention.

In July of 2021, an updated Uniform Statute Table (UST) that is consistent with what is maintained in CCH was uploaded to all booking agency's live scan terminals. The new UST, which contains all updated statutes, will assist in reducing the number of arrest booking information that contain errors, which would result in less unapplied criminal history information. At the present, individual live scan terminals are updated separately with the UST, however, the Department has been working with the BRS to implement the capability to push the information to all terminals at one time. By obtaining fingerprints using Live Scan technology and transmitting the arrest to the Automated Fingerprint Identification System (AFIS), agencies can have offenses reported on the criminal history within minutes, as compared to mailing in a traditional inked fingerprint card, which will substantially delay the process. Using Live Scan, arresting agencies can be notified quickly and have errors resolved in an expeditious manner, resulting in less unapplied

¹¹ Rap Back provides a notification to subscribers when an employee has criminal information applied to their criminal history record or when a criminal history record is established. This is a fee based criminal history monitoring system.

offenses. These errors are handled by a team of Live Scan engineers within the BRS that have focused their efforts on resolving errors in arrest booking information. This team researches information received from booking agencies, and communicates with them to resolve any discrepancies. Since the beginning of 2021, when additional positions were added, the Live Scan team has resolved approximately 16,351 arrest booking errors.¹²

The Department is also nearing an agreement with a vendor to move AFIS to a modern cloud solution that has the most up-to-date technology. The current AFIS and criminal history repository utilize older FBI processing standards. As a part of the CRIS project, AFIS, as well as the criminal history repository, will use the latest updated FBI standards, which will improve processing efficiency and data quality. This will result in less errors and reduced unapplied criminal history data. In addition, the UST will be stored in a cloud database, allowing for real time updates to all agencies that use Live Scan. This cloud based solution will prevent expired or outdated offense information from being transmitted to AFIS.

Conclusion

The CCRE staff continues to provide dedicated research and an analytical approach toward resolving the issues and errors with incoming court and arrest information; in attempt to apply all disposition information to the appropriate criminal history records. As illustrated in the initiatives listed in this document, the Department continues to make progress in resolving unapplied criminal history information. Continued efforts are made to keep an open dialog with key stakeholders in exploring ways to improve the reporting of criminal history information. Furthermore, new technology, as well as a continued effort to target the quality of data transmitted to the CCRE, will improve the Department's ability to provide timely and accurate criminal history information to criminal justice and non-criminal justice agencies throughout the Commonwealth and at the national level.

¹² The process to add personnel to the Live Scan team began in late 2020.

Appendices

1. Number of offenses that contain unapplied criminal history information due to errors or omissions by year of offense and year of arrest.
2. Number of offenses without fingerprints or positive identification and the submitting law enforcement agencies.
3. Number of offenses with errors or omissions and the submitting jurisdiction.

Appendix #1

Legacy CCH system disposition hold file number of offenses that contain corresponding unapplied criminal history information by year of offense and year of arrest. The information below is based on what was transmitted to the CCRE from the courts, which includes omitted or irregular year of offense or year of arrest that was provided by the court.
