Dear General Assembly Member:

## REVENUE STABILIZATION FUND

This Office is providing a report of the required calculations for the Revenue Stabilization Fund. Appendix A provides historical information concerning the establishment of the Fund and the requirements surrounding it.

### CALCULATION OF MAXIMUM FUND ALLOWED (Dollars in Thousands)

<u>Years</u>	<u>Tax Revenues</u>
2019	\$19,718,337
2020	20,476,114
2021	23,444,713
Average for three years	21,213,055
Maximum fund allowed (15% of average)	\$ 3,181,958

### CALCULATION OF CONSTITUTIONAL DEPOSIT

As of June 30, 2021, certified tax revenues increased by 14.50 percent between fiscal years 2020 and 2021, and the average revenue growth for the preceding six years was 4.88 percent. Under the provisions of the Revenue Stabilization Fund, the difference between last year's revenue growth and the average growth is **positive** 9.62 percent. As a result, the General Assembly must make a mandatory deposit of \$1,127,733,028 related to fiscal year 2021 tax collections, as required by the Virginia Constitution. Exhibit 1 provides certified tax revenue amounts used in the calculation. The Comptroller's General Fund Preliminary Annual Report includes a general fund balance restriction of \$1,127,733,028 for the 2023 mandatory deposit.

## **Fiscal Year 2021 Activity**

In June 2021, in accordance with Item 274 B. of Chapter 552 of the 2021 Acts of Assembly, Special Session I, a deposit of \$77,409,780 was made to the Revenue Stabilization Fund. The required deposit was based on actual collections during fiscal year 2019. There were no withdrawals from the Fund during the year. Exhibit 2 provides the funding progress of the Fund through June 30, 2021.

## **CALCULATION OF STATUTORY DEPOSIT**

Section 2.2-1829 of the Code of Virginia, as discussed in Appendix A, requires the Governor to include an additional deposit to the Revenue Stabilization Fund in his budget recommendations, if certain conditions occur. As shown in Exhibit 3, the growth of certified tax revenues meets the requirements of two of the three conditions. However, estimated general fund revenues for fiscal year 2022 are not five percent greater than actual general fund revenues for fiscal year 2021 as required by the third condition. Therefore, the Governor does not need to include an additional deposit in his budget recommendations. Should the Governor revise the revenue forecast above five percent after the date of this letter, this change could lead to the need for an additional deposit. In anticipation of a revised fiscal year 2022 revenue estimate, the Comptroller included an assigned fund balance of \$563,867,000 within the 2021 General Fund Preliminary Annual Report for a potential additional deposit to the Revenue Stabilization Fund.

## **PROJECTED ACTIVITY AND BALANCES**

To provide information to the General Assembly on the impact of future revenue changes, we have performed pro forma calculations on the projected deposit to the Fund using forecasted revenue for fiscal year 2022 as shown in Exhibit 4. Based on the forecasted revenues for fiscal year 2022, there is no projected mandatory deposit for fiscal year 2024. Under certain circumstances, there are statutory requirements for additional deposits; however, none of these conditions occur using the forecasted revenue for fiscal year 2022.

Article X, Section 8 of the Virginia Constitution, as discussed in Appendix A, establishes the requirements for making a withdrawal from the Revenue Stabilization Fund. Pursuant to Item 274 of Chapter 552 of the 2021 Acts of Assembly, Special Session I, there is no planned withdrawal from the Fund for the fiscal year ending June 30, 2022.

## **HISTORICAL INFORMATION**

Exhibits 5 and 6 provide historical information on the Revenue Stabilization Fund including a graphical illustration of fund balance by fiscal year and a schedule of deposits and withdrawals.

## **APPENDIX A HISTORICAL INFORMATION**

### **Mandatory Deposit**

Article X, Section 8 of the Virginia Constitution and the enabling legislation established the Revenue Stabilization Fund, and requires this Office to report to the General Assembly the following:

1. certified tax revenues for the calculation of the Revenue Stabilization Fund;
2. the maximum size allowed of the Revenue Stabilization Fund; and
3. the amount of the mandatory deposit to the fund.

The amount in the Revenue Stabilization Fund is not to exceed 15 percent of the Commonwealth's average annual tax revenues derived from taxes on income and retail sales as certified by our Office for the three fiscal years immediately preceding. The General Assembly is required to make deposits to the Revenue Stabilization Fund to equal at least 50 percent of the total of: certified tax revenues for the most recently ended fiscal year, multiplied by the difference between the annual percentage increase in certified tax revenues collected for the most recently ended fiscal year, and the average annual percentage increase in certified tax revenues collected for the six fiscal years immediately preceding the most recently ended fiscal year.

Item 274 A. of Chapter 552 of the 2021 Acts of Assembly, Special Session I, requires this Office to report to the General Assembly on or before November 1 of each year.

### **Statutory Deposit**

Legislation passed during the 2003 General Assembly Session added a requirement for an additional deposit to the Revenue Stabilization Fund under certain conditions. The provisions of this change were effective July 1, 2003. The conditions are as follows:

1. a growth of the certified tax revenues collected in the most recently ended fiscal year of eight percent or greater than the certified tax revenues collected for the immediately preceding fiscal year;
2. a growth of the certified tax revenues for the most recently ended fiscal year greater than 1.5 times the average percentage increase in the certified tax revenues collected in the six fiscal years immediately preceding the most recently ended fiscal year; and
3. the estimate of general fund revenues prepared in accordance with Section 2.2-1503 of the Code of Virginia for the fiscal year in which the deposit is to be made is

at least five percent greater than the actual general fund revenues for the immediately preceding fiscal year.

If these conditions exist, the Governor must include in his budget recommendations, submitted to the General Assembly in the subsequent session, an amount equal to at least 25 percent of the product of the certified tax revenues collected in the most recently ended fiscal year, multiplied by the difference between the annual percentage increase in the certified tax revenues collected for the most recently ended fiscal year and the average annual increase in the certified tax revenues collected in the six fiscal years immediately preceding the most recently ended fiscal year.

### **Withdrawals**

Per Article X, Section 8 of the Virginia Constitution, the General Assembly may appropriate an amount for transfer from the Fund to compensate for no more than one-half of the difference between the total general fund revenues appropriated and a revised general fund revenue forecast presented to the General Assembly prior to or during a subsequent regular or special legislative session. However, per Article X, Section 8 no transfer shall be made unless the general fund revenues appropriated exceed such revised general fund revenue forecast by more than two percent of certified tax revenues collected in the most recently ended fiscal year. Furthermore, no appropriation or transfer from such fund in any fiscal year shall exceed more than one-half of the balance of the Revenue Stabilization Fund.

Item 267 D.1 – D.4 of Chapter 836 of the 2017 Acts of Assembly contained additional guidelines for determining the amounts to use in the withdrawal calculation. The guidelines are as follows:

1. For purposes of determining a transfer from the Revenue Stabilization Fund to the general fund as a result of a downward revision in general fund revenues, the term “total general fund revenues appropriated” shall mean the general fund operating and capital appropriations for each year of the biennium contained in the Appropriation Act which is in effect at the time when such downward revision in general fund revenues is made.
2. In accordance with Article 10, § 8, Virginia Constitution, and § 2.2-1830, Code of Virginia, the amount of the transfer shall not exceed the lesser of one-half of the balance of the Revenue Stabilization Fund or one-half of the forecasted shortfall in revenues.
3. The anticipated shortfalls in general fund revenues for fiscal years ending June 30, 2017, and June 30, 2018, shall be computed by comparing the revised forecast for “Total General Fund Resources Available for Appropriation” as shown in § 3 of the first enactment to the total general fund revenues appropriated for each year of the biennium as contained in the general appropriation act as it became effective on July 1, 2016 (Chapter 780 of the Acts of Assembly of 2016).

4. For purposes of computing the shortfall in revenues, the revised forecast referenced in paragraph 3 above shall consist of the revised forecast of revenues and transfers presented to the Governor's Advisory Council on Revenue Estimates on November 28, 2016, adjusted for any technical revisions pursuant to current law. Any subsequent policy-based adjustments to revenues or transfers that are dependent upon the passage of legislation or other budgetary action that requires approval by the 2017 General Assembly shall not be considered as part of the adjustments to the forecast for purposes of calculating the revenue shortfall in fiscal year 2017 or fiscal year 2018.
