### MEMORANDUM

**TO:** The Honorable Janet Howell  
Chairman, Senate Finance Committee

The Honorable Luke E. Torian  
Chairman, House Appropriations Committee

Mr. Daniel Timberlake  
Director, Department of Planning and Budget

**FROM:** Karen Kimsey  
Director, Virginia Department of Medical Assistance Services

**SUBJECT:** Hospital Supplemental Payment Report, FY19-FY21

This report is submitted in compliance with the Virginia Acts of the Assembly – Item 313 KKK of the 2021 Appropriation Act, which states:

*313. KKK. The Department of Medical Assistance Services shall submit a report annually on all supplemental payments made to hospitals through the Medicaid program. This report shall include information for each hospital and by type of supplemental payment (Disproportionate Share Hospital, Graduate Medical Education, Indirect Medical Education, Upper Payment Limit program, and others). The report shall include total Medicaid payments from all sources and calculate the percent of overall payments that are supplemental payments. Furthermore, it shall include a description of each type of supplemental payment and the methodology used to calculate the payments. Each report shall reflect the data for the prior three fiscal years and shall be submitted to the Chairmen of the House Appropriations and Senate Finance Committees by September 1 each year.*

Should you have any questions or need additional information, please feel free to contact me at (804) 786-8099.

Enclosure

Pc: The Honorable Daniel Carey, M.D., Secretary of Health and Human Resources

# Hospital Supplemental Payment Report, FY19-FY21

A Report to the General Assembly

September 1, 2021

## Report Mandate:

*The 2021 Appropriations Act Item 313.KKK states, "The Department of Medical Assistance Services shall submit a report annually on all supplemental payments made to hospitals through the Medicaid program. This report shall include information for each hospital and by type of supplemental payment (Disproportionate Share Hospital, Graduate Medical Education, Indirect Medical Education, Upper Payment Limit program, and others). The report shall include total Medicaid payments from all sources and calculate the percent of overall payments that are supplemental payments. Furthermore, it shall include a description of each type of supplemental payment and the methodology used to calculate the payments. Each report shall reflect the data for the prior three fiscal years and shall be submitted to the Chairmen of the House Appropriations and Senate Finance Committees by September 1 each year.*

## Background

The Virginia Department of Medical Assistance Services (DMAS) sets Medicaid provider rates for all services that are paid as claims and are paid for directly by DMAS. Managed care organizations (MCOs) use similar rates for payments they make to providers. DMAS targets making Medicaid payment rates at 78 percent of cost statewide for inpatient services (84 percent for psychiatric services) and 69.8 percent of cost for outpatient services for most hospitals.

Supplemental payments are additional amounts paid to targeted providers. Supplemental payments have been used to help fund costs for indigent or charity care and the training of health care professionals. The General Assembly has also authorized Upper Payment Limit (UPL) supplemental payments if there are funding sources other than general funds.

Reimbursement may vary by Type One (state-owned teaching hospitals on January 1, 1996) and Type Two hospitals (all other hospitals). Virginia also enrolls out-of-state hospitals in Tennessee, North Carolina and the District of Columbia who serve Virginia Medicaid individuals who live near these hospitals. For the most part, Virginia reimburses these out-of-state hospitals like Virginia hospitals including paying them supplemental payments.

## About DMAS and Medicaid

**DMAS' mission is to improve the health and well-being of Virginians through access to high-quality health care coverage.**

DMAS administers Virginia's Medicaid and CHIP programs. Through the Medallion 4.0 and Commonwealth Coordinated Care (CCC) Plus managed care programs, more than 1 million Virginians access primary and specialty health services, inpatient care, behavioral health, and addiction and recovery treatment services. In addition, Medicaid long-term services and supports enable thousands of Virginians to remain in their homes or to access residential and nursing home care.

Medicaid members historically have included children, pregnant women, parents and caretakers, older adults, and individuals with disabilities. In 2019, Virginia expanded the Medicaid eligibility rules to make health care coverage available over 580,000 newly eligible, low-income adults.

Medicaid and CHIP (known in Virginia as Family Access to Medical Insurance Security, or FAMIS) are jointly funded by Virginia and the federal government under Title XIX and Title XXI of the Social Security Act. Virginia generally receives a dollar-for-dollar federal spending match in the Medicaid program. Medicaid expansion qualifies the Commonwealth for a federal funding match of no less than 90 percent for newly eligible adults, generating cost savings that benefit the overall state budget.

Historically, DMAS only made hospital supplemental payments as fee-for-service (FFS) payments. The Centers for Medicare and Medicaid Services (CMS) also allows state Medicaid agencies to make supplemental payments through MCOs as “directed payments”. DMAS implemented two hospital supplemental payments in FY 2019 that included both FFS supplemental payments and MCO directed payments. In FY 2021 a FFS supplemental payment was included for the State’s only freestanding children’s hospital and an additional supplemental payment was included for the non-state government owned Chesapeake General Hospital.

## **Types of Hospital Supplemental Payments**

Virginia makes the following supplemental payments:

**Disproportionate Share Hospital (DSH)** supplemental payments are made to hospitals who serve a disproportionate share of Medicaid and uninsured patients and provide obstetrical services (unless they meet an exception). Federal law requires that states make DSH payments to hospitals, but leaves the qualifying criteria and amounts up to the states through the approved State Plan for Medical Assistance. Under the Virginia State Plan, hospitals qualify for DSH payments if they had Medicaid utilization of 14 percent or higher in the most recent available reporting year. DSH payments cannot exceed a hospital’s “uncompensated care costs”, Medicaid losses and uninsured costs. DSH payments statewide also cannot exceed the state’s annual DSH allotment. CMS requires all states to audit uncompensated care costs approximately three years after the end of the State Plan Year and recover any excess DSH payments.

**Medical education payments** are made to hospitals who have medical education programs. There are several medical education supplemental payments.

- Payments for the direct medical education costs for interns and residents.
- Payments for new residency slots.
- Payments for direct medical education costs for nursing schools and training paramedical personnel.
- Payments for the indirect medical education costs for training interns and residents. These payments recognize the increased use of ancillary services associated with the

educational process and higher case-mix intensity of teaching hospitals.

**Upper Payment Limit (UPL) supplemental payments** are made to targeted hospitals based on the maximum allowable by federal Medicaid law and regulation. States have flexibility in designing and targeting these payments. Virginia traditionally has made limited use of UPL supplemental payments but implemented two UPL supplemental payments in FY17. In FY18, these two UPL supplemental payments were replaced by private acute care hospital supplemental payments.

The following table details the various types of hospital supplemental payments in this report as well as the methodology and timing of those payments.

Supplemental Payment	Methodology	Timing
<b>Hospital Disproportionate Share Hospital (DSH) Payments</b>	<p>Multiply the DSH per diem by each hospital's DSH eligible days. DSH eligible days are the number of days above 14 percent Medicaid utilization. The DSH per diem for Type Two hospitals equals the budgeted DSH amount divided by DSH eligible days. Children's Hospital of the King's Daughters (CHKD) per diems are three times the Type Two per diems. <i>Due to Children's Hospital Association of Texas et al v. Azar et al, U.S. District Court, District of Columbia ruling in favor of CMS, CHKD no longer is qualified for DSH resulting in the General Assembly authorizing a supplemental payment in the 2020 Appropriations Act, Item 313.III(2), to CHKD equivalent to its annual DSH amount.</i></p> <p>Type One hospitals are reimbursed up to their Uncompensated Care Costs.</p>	<p>Quarterly.</p> <p><i>Effective July 1, 2020, Non-State Government Owned Chesapeake General Hospital is reimbursed up to the hospital's disproportionate share limit.</i></p>
<b>Hospital Graduate Medical Education (GME) Payments for Interns and Residents</b>	<p>Multiply each Type Two hospital's Medicaid per medical resident amount by the number of medical residents.</p> <p>Type One hospitals are reimbursed the Medicaid share of graduate medical education costs.</p>	<p>Quarterly. Payments finalized during annual cost report settlement.</p>
<b>GME New Resident Payments</b>	<p>\$100,000 annually per new resident for up to four years.</p>	<p>Quarterly.</p>
<b>Hospital Medical Education Payments for Nursing Schools and Paramedical Programs</b>	<p>All hospitals are reimbursed the Medicaid share of costs for these training programs.</p>	<p>Quarterly. Payments finalized during annual cost report settlement.</p>
<b>Hospital Indirect Medical Education (IME) Payments</b>	<p>Multiply each hospital's IME percentage by its operating payments. The formula for the IME percentage is modified from Medicare based on studies of cost differences between teaching and nonteaching hospitals.</p> <p>Payment formula for Type One hospitals and CHKD includes additional reimbursement that total costs.</p>	<p>Quarterly. Payments finalized during annual cost report settlement.</p>

Supplemental Payment	Methodology	Timing
<b>Private Acute Care Hospital Supplemental Payments (excluding Out-of-State, Children's and Critical Access Hospitals)</b>	Calculate Upper Payment Limit (UPL) Gap Percentages based on the private hospital inpatient and outpatient UPLs and multiply these percentages by inpatient and outpatient claims payments in the prior quarter. Includes both FFS payments and directed payments through MCOs.	Quarterly. Effective October 1, 2018.
<b>Non-State Government Owned Supplemental Payments (Chesapeake Hospital)</b>	Calculate Upper Payment Limit (UPL) Gap Percentages based on inpatient and outpatient UPLs for Chesapeake hospital and multiply these percentages by inpatient and outpatient claims payments in the prior quarter. Includes both FFS payments and directed payments through MCOs.	Quarterly.  FFS payments effective July 1, 2018.  MCO directed payments effective January 1, 2019.
<b>Inpatient UPL Supplemental Payments for Private Teaching Hospitals (Sentara Norfolk General &amp; Carilion Medical Center)</b>	Qualifying hospitals are reimbursed their uncompensated care costs.	Effective July 1, 2017.  Payments for Sentara were made in FY19, but no payments were made to Carilion due to the federal two year timely filing limit. Payments sunset for dates of service on or after October 1, 2018.
<b>Inpatient and Outpatient UPL Supplemental Payments for Private Hospital Partners of Type One Hospitals (Culpeper Haymarket and Prince William Hospitals)</b>	The difference between the hospital's inpatient Medicaid billed charges subject to a cap and Medicaid payments.	Quarterly. Payments were sunset for dates of service on or after October 1, 2018.

## Funding the Non-Federal Share of Supplemental Payments

Supplemental payments, like Medicaid claims payments, have both a federal and a non-federal funded portion. There are three sources of the non-federal share (matching state funds) required by CMS for federal Medicaid payments (see 42 CFR 433.51). These include:

- State appropriations directly to the state Medicaid agency (DMAS) - this is the non-federal share for most DMAS Medicaid payments;
- Intergovernmental transfers (IGT) – funds transferred from another governmental entity (state or local) to DMAS; and
- Certified public expenditures (CPE) – public entities certify that they provided Medicaid covered services and expended the total funds; no actual funds are transferred to DMAS and the provider is only paid the federal share.

Revenue from CMS approved provider assessments can also be appropriated for the non-federal share.

The non-federal share of supplemental payments in this report for SFY2019-21 are funded by state general fund appropriations with three exceptions:

- University of Virginia (UVA) and Virginia Commonwealth University (VCU) certify part of their indirect medical education (IME) payments to save the state a targeted amount of general funds.
- The non-federal share of supplemental UPL payments are funded by IGTs, including the supplemental payments to non-state government owned hospitals and to Private Hospital Partners of Type One hospitals.
- The non-federal share of supplemental DSH payment to Chesapeake General, a non-state government owned hospital, is funded by IGT.
- The non-federal share of the supplemental payments to private acute care hospitals is funded by a hospital provider assessment.

## Hospital Supplemental Payment Report Methodology

The three most recent years for which supplemental payment information is available from the Medicaid Management Information Systems (MMIS) includes state fiscal years 2019, 2020 and 2021 (July 1, 2018 – June 30, 2021).

Total hospital payments in Exhibit 1, Tab 1 include both regular and supplemental payments for both FFS and MCO payments.

Note that the payments shown are on a cash basis and include any settlement paid or recovered during the periods shown, even if for a previous fiscal year. Sometimes, such is the case for payments to private teaching hospitals, the payments are delayed until DMAS receives necessary approvals from CMS or until the required intergovernmental transfers to fund the non-federal share are received.

## Hospital Supplemental Payment Report Exhibits

The report includes the following exhibit and tabs:

**Exhibit 1** summarizes all Medicaid and supplemental payments by hospital and calculates supplemental payments as a percent of total FFS and MCO Medicaid payments by hospital. All hospitals are included in this tab, even those not receiving supplemental payments.

**Exhibit 2** details DSH Payments by year by hospital.

**Exhibit 3** details Medical Education Payments by year by hospital.

**Exhibit 4** details UPL Supplemental Payments by year by hospital.

**Exhibit 5** details Private Acute Care Hospital Supplemental Payments for FY2021 by hospital. Payments are also segregated by FFS and MCO.

**Exhibit 6** details supplemental DSH Payments by year for Chesapeake General, a non-state government owned hospital.
