December 1, 2021

The Honorable Richard L. Saslaw
Chair, Senate Commerce & Labor Committee
Senate of Virginia

The Honorable Jeion A. Ward
Chair, House Labor & Commerce Committee
Virginia House of Delegates

In accordance with subsection C of § 38.2-3445.2 of the Code of Virginia (the Code), the State Corporation Commission's Bureau of Insurance (Bureau) has prepared its first annual notice of (i) required reported claims and provider network information collected by the Bureau; (ii) an assessment of the potential impact of changes in network participation or payment levels for emergency services on health insurance premiums in the time period to which the report applies (the first six months of 2021 compared to 2017 – 2020); and (iii) information related to claims resolved by arbitration. In addition to the submission to your offices, this report will also be posted on the State Corporation Commission's (Commission's) website.

On behalf of the Commission, please find attached the report prepared by the Bureau.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Scott A. White'.

Scott A. White
Commissioner of Insurance

Executive Summary

In 2020, the Virginia General Assembly passed House Bill 1251/Senate Bill 172 (Chapters 1080 and 1081 of the 2020 Virginia Acts of Assembly). The legislation was codified as §§ 38.2-3445-38.2-3445.2 of Chapter 34 of Title 38.2 of the Code of Virginia ("Code") (collectively, "Law"). Effective January 1, 2021, the Law prohibits the balance billing of enrollees by out-of-network health care providers for emergency services, or by out-of-network surgical or ancillary service providers at an in-network facility, for any amount other than the enrollee's applicable cost-sharing requirements.

Under the Law, if a health care provider disputes the amount to be paid by the health carrier for services rendered to an enrollee, the provider and the health carrier shall make a good faith effort to reach a resolution on the amount of the reimbursement. If the health carrier and the provider do not agree on a commercially reasonable payment, either party may seek to resolve the dispute by arbitration.

The Law, among other things, directed the Commission to establish a framework for arbitration of such disputes to include: (i) a timeline for the proceedings; (ii) a method for choosing an arbitrator; (iii) a fixed fee schedule for the costs of arbitration; (iv) required and optional factors for the arbitrator to consider; (v) non-disclosure agreements; (vi) reporting requirements; and (vii) a process for appeals based on specified criteria, including abuse of arbitration proceedings. The Commission was authorized to adopt rules and regulations governing the arbitration process.

In 2020, the Commission promulgated its Rules Governing Balance Billing for Out-of-Network Health Care Services (14 VAC 5-405-10 *et seq.*) ("Rules"). The Rules, effective January 1, 2021, apply to all health benefit and managed care plans issued and delivered in the Commonwealth except as provided for in § 38.2-3445.06 of the Code.

The Commission prepares an annual report summarizing the dispute resolution information provided by arbitrators. The report is posted on the Bureau's website and submitted to the Chairs of the House Committees on Labor and Commerce and Appropriations, and the Senate Committees on Commerce and Labor and Finance and Appropriations annually by July 1.

The Law also directs the Commission to submit an annual report by December 1 of each year. This annual report (i) presents information reported by health carriers to the Bureau as required by § 38.2-3445.2 of the Code on the number of out-of-network claims paid; (ii) studies changes in provider participation in health carrier networks and variances in payment levels if providers are reinstated following termination; (iii) assesses the potential impact of these changes in participation or payment levels for emergency services on premiums; and (iv) presents an update on the number and type of claims resolved by arbitration, including variations between the initial payment and final settled amounts.

For this first annual report, the Commission gathered the following data for calendar

years 2017 – 2020, and from January 1, 2021 through June 30, 2021 in accordance with § 38.2-3445.2 of the Code.

For the comparison period January 1 through June 30, 2021, the Commission reports:

- An increase in the amount of out-of-state emergency claims paid;
- The rate of claims paid for non-emergency surgical and ancillary services at an in-network facility are two to three times higher than the rate of claims paid for emergency services;
- At least 40% of provider contract terminations are noted as voluntary;
- Nearly all providers who were reinstated in the same year in which their contract terminated were reinstated at the same payment level as their previous contract; and
- Given the minimal number of claims that represent out-of-network emergency claims, premiums should not be impacted materially by changes to network participation and payment levels.

For arbitrations decided from January 1, 2021 to October 31, 2021:

- The first request eligible for balance billing arbitration was accepted on March 10, 2021.
- The Commission received a total of 727 arbitration requests through October 31, 2021, of which 660 requests were accepted as eligible.
- Of the 546 arbitration decisions rendered by arbitrators during this period, 356 arbitrations (65.2%) were decided in favor of the health carrier, and 190 arbitrations (34.8%) were decided in favor of the provider.

Introduction and Legislative Overview

In 2020, the Virginia General Assembly passed House Bill 1251/Senate Bill 172 (Chapters 1080 and 1081 of the 2020 Virginia Acts of Assembly). The legislation was codified as §§ 38.2-3445-38.2-3445.2 of Chapter 34 of Title 38.2 of the Code of Virginia ("Code") (collectively, "Law"), and became effective January 1, 2021. The new provisions provide, among other things, that when an enrollee receives emergency services from an out-of-network health care provider or receives out-of-network surgical or ancillary services at an in-network facility, the enrollee is not required to pay the out-of-network provider any amount other than the applicable cost-sharing requirement. Additionally, such cost-sharing requirement cannot exceed the cost-sharing requirement that would apply if the services were provided in-network.

A health carrier's required payment to the out-of-network provider for the services rendered to an enrollee shall be a commercially reasonable amount based on payments for the same or similar services provided in a similar geographic area. If, however, the provider disputes the amount to be paid by the health carrier, the provider and the health carrier are required to make a good faith effort to reach a resolution on the amount of the reimbursement. Should the health carrier and the provider not agree to a commercially reasonable payment and either party wants to take further action to resolve the dispute, the dispute will be resolved by arbitration.

The Commission was directed to establish a framework for arbitration of such disputes to include: (i) a timeline for the proceedings; (ii) a method for choosing an arbitrator; (iii) establishment of a fixed fee schedule for the costs of arbitration; (iv) required and optional factors for the arbitrator to consider; (v) non-disclosure agreements; (vi) reporting requirements; and (vii) a process for appeals based on specified criteria, including abuse of arbitration proceedings. The Commission was authorized to adopt rules and regulations governing the arbitration process.

The Law further directs the Commission to undertake additional responsibilities related to the new balance billing provisions. Pursuant to Code § 38.2-3445.03, the Commission contracted with Virginia Health Information (VHI) to establish a data set and business protocols to provide health carriers, providers, and arbitrators with data to assist in determining commercially reasonable payments and resolving disputes. In consultation with health carriers, providers, and consumers, the Commission developed standard language for a notice of consumer rights regarding balance billing. The Commission, the Board of Medicine, and the Commissioner of Health are authorized to levy fines and take action against a health carrier, health care practitioner, or medical care facility, respectively, for a pattern of violations of the prohibition against balance billing. Carriers or providers are prohibited from initiating arbitration with such frequency as to indicate a general business practice.

The enacted provisions do not apply to an entity that provides or administers self-insured or self-funded plans; however, such entities may elect to be subject to such provisions.

Pursuant to Code § 38.2-3445.07, the Commission adopted rules and regulations to implement and administer the collective provisions of the Law, including rules and regulations governing the arbitration process. See Rules Governing Balance Billing of Out-of-Network Healthcare Services, 14 VAC 5-405-10 *et seq.*

As noted previously, the Law directs the Commission to prepare an annual report summarizing the dispute resolution information provided by arbitrators, including information related to the matters decided through arbitration, and information about the parties and types of services for each dispute resolved through arbitration. The Commission posts the report on the Bureau’s website and submits it to the Chairs of the House Committee on Labor and Commerce and Committee on Appropriations and the Senate Committee on Commerce and Labor and Committee on Finance and Appropriations annually by July 1. The provisions of this subsection expire on July 1, 2025.

The Law also directs the Commission to prepare and submit the instant annual report by December 1.

For this first December annual report, the Commission gathered data for calendar years 2017 – 2020, and from January 1, 2021 through June 30, 2021 in accordance with § 38.2-3445.2 of the Code. Because the balance billing protections and arbitration process became effective January 1, 2021, the current data does not yet support trend analysis for the effect of the new laws. This initial set of data does create a foundation for future reports and analyses.

Report Data

Counts of Out-of-network Claims Paid

- Number of out-of-network emergency services claims paid: Calendar years 2017-2020; January 1, 2021 to June 30, 2021:

Emergency Services Claims Paid			
Year	Out-of-Network, Provider In-State Claim Counts	Out-of-Network, Provider Out-of-State Claim Counts	Total Out-of-Network Claim Counts
2017	17,184	20,550	37,734
2018	21,300	18,667	39,967
2019	21,123	18,159	39,282
2020	20,149	21,673	41,822
Second Half Fiscal 2020 (1-1-2021 to 6-30-2021)	11,041	15,315	26,356

- Number of out-of-network claims paid (surgical and ancillary non-emergency) at an in-network facility: January 1, 2021 – June 30, 2021:

Non-Emergency Services Claims Paid (surgical or ancillary services provided by an out-of-network provider at an in-network facility)			
Year	Out-of-Network, Provider In-State Claim Counts	Out-of-Network, Provider Out-of- State Claim Counts	Total Out-of- Network Claim Counts
Second Half Fiscal 2020 (1-1-2021 to 6-30- 2021)	32,653	36,776	69,429

Health Care Provider Network Contracts Terminated and Reinstated

- Number and identity of providers of emergency and non-emergency surgical and ancillary services whose network participation terminated January 1, 2021 – June 30, 2021, indicating which contracts were reinstated (See Attachments A P1 and P2).
- Summary of the reasons for terminations:

Provider Contract Terminations				
Stated reason for termination	January 1, 2021 to June 30, 2021 Termination Counts	2021 % of Terminations	CY 2020 Termination Counts	CY 2020 % of Terminations
Voluntary	3,924	41.3%	6,485	44.0%
Provider Initiated	1,288	13.6%	2,837	19.3%
Terminated - No Specific Reason	1,207	12.7%	550	3.7%
Involuntary/ Administrative/ Failure to Recredential	1,450	15.3%	1,022	6.9%
Retired/ Deceased/ Closed	792	8.3%	1,604	10.9%
Failure to meet network criteria	378	4.0%	591	4.0%
Relocation/ Move/ Left Group	329	3.5%	1,293	8.8%
Provider resigned from at least one, but not all, networks	126	1.3%	340	2.3%
Total	9,494		14,722	

- Summary of the differences and the extent of differences in payment levels prior to termination and after reinstatement:

Number of Providers Reinstated in the Same Report Year (1-1-2021 to 6-30-2021)			
Specialty Area	Same payment level	Higher payment Level but less than 25% higher	Greater than 25% higher payment level
Anesthesiology	4	0	0
Emergency Medicine	4	0	0
Hospitalist	31	2	0
Surgeons	5	2	0
Other	240	6	0
None Reported	31	0	0

Bureau’s Assessment of the Potential Premium Impact Based on Changes in Network Participation and Payment Levels for Emergency Services

In order to assess the potential premium impact of changes to network participation and payment levels for emergency services, the Bureau used information from a data call to health carriers offering coverage in Virginia’s commercial market in 2020 and the first six months of 2021. The goal was to isolate claims for emergency services delivered by non-participating providers within Virginia since these represent potential arbitration claims, and then determine how changes in these claims could potentially impact premiums.

Since this is the first year of the report, some carriers had challenges providing accurate data in a timely manner. Nevertheless, the Bureau was able to analyze claims data representing roughly 60% of the Virginia commercial market. These results were then compared to those produced by Oliver Wyman in the “Report of the Virginia Balanced Billing Work Group” (December 31, 2019), which represented information from 2017.

The following chart displays report data for 2020 and the first six months of 2021, in addition to the Oliver Wyman data:

Emergency Services						
	2020	% of Total	Jan-Jun 2021	% of Total	Oliver Wyman (2017)	% of Total
Total Allowed Claims	\$ 1,047,907,558	100.0%	\$ 1,295,553,685	100.0%	\$ 13,654,387,985	100.0%
Emergency Services (ES)	\$ 218,144,598	20.8%	\$ 147,405,735	11.4%	\$ 1,507,903,281	11.0%
ES for Non-Par Providers	\$ 8,251,403	0.8%	\$ 5,768,307	0.4%	\$ 88,182,500	0.6%
ES for Non-Par Providers in VA	\$ 4,728,430	0.5%	\$ 2,513,681	0.2%	\$ 37,286,626	0.3%

The results show that emergency claims from non-participating providers in Virginia represent a low of 0.2% of total allowed claims and a high of 0.5%. In order to determine the impact on premiums, allowed claims must be adjusted based on the underlying plan designs of the carriers surveyed, which is not possible. However, the impact on paid claims is expected to be similar to the impact on allowed claims.

Premiums have two major components: paid claims and administrative expenses. Administrative expenses are generally 10% to 30% of premium, leaving 70% to 90% of premium represented by claims. Applying these percentages to the allowed claims impact, the data indicated that emergency claims for non-participating providers in Virginia represent 0.14% to 0.45% of premium.

Given the minimal amount of premium impacted, such emergency claims would have to change substantially relative to other claims in order for premiums to be impacted materially. These percentages will be monitored in future reports.

Arbitration Resolution Information

- The Bureau received its first request for arbitration on March 4, 2021. The request was rejected as ineligible because it was submitted as a bundled request but did not meet the criteria for a bundled request since it was made on behalf of multiple providers. The first eligible request was accepted on March 10, 2021, but settled before it was sent to an arbitrator. The first request that was sent to an arbitrator was accepted as eligible for arbitration on April 6, 2021.
- The Bureau received a total of 727 arbitration requests through October 31, 2021, of which 660 requests were accepted as eligible.
- Of the 545 arbitration decisions rendered by arbitrators during this period, 356 arbitrations (65.2%) were decided in favor of the health carrier, and 190 arbitrations (34.8%) were decided in favor of the provider.

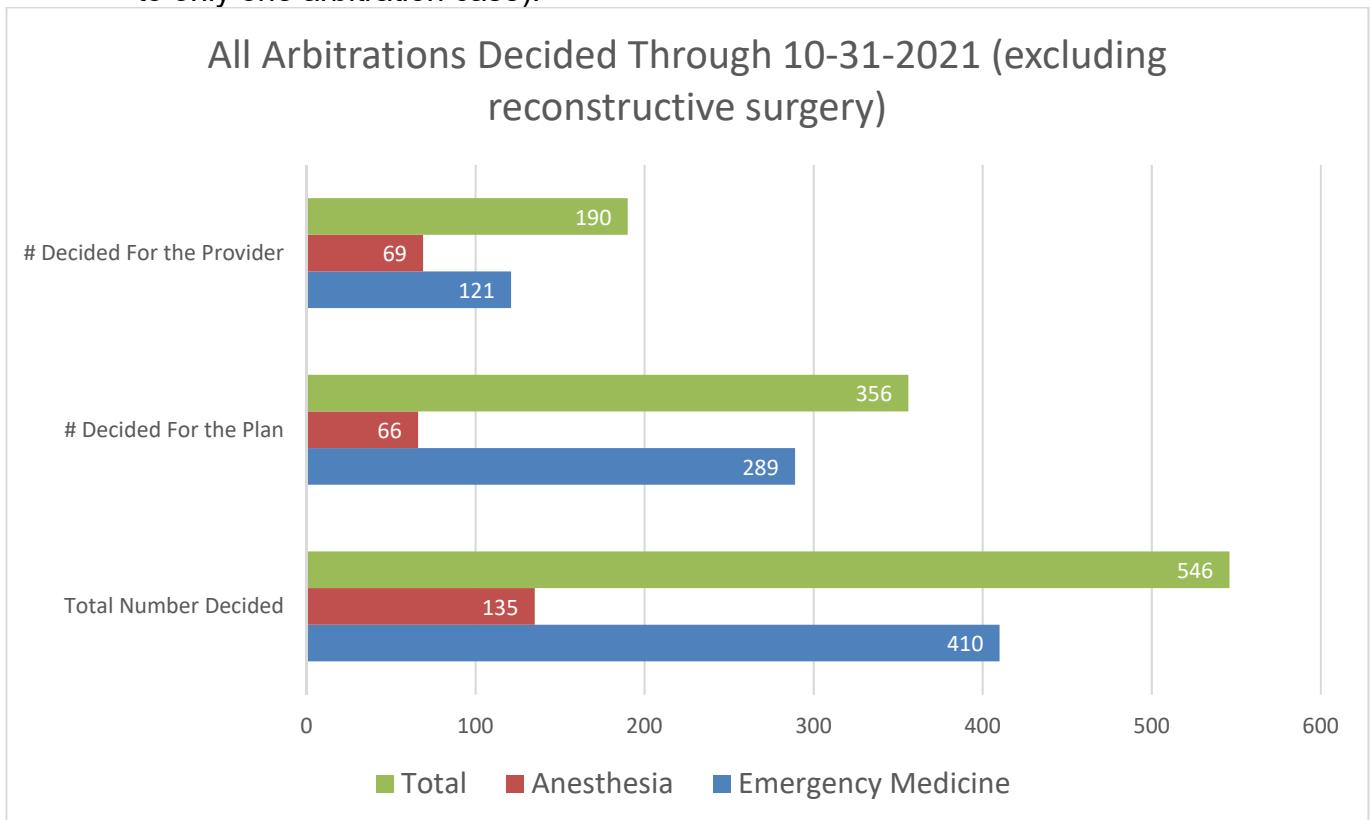

- Arbitration Resolution Information broken down by specialty:

Arbitrations Decided Through 10-31-2021			
Specialty	Total Number Decided	# Decided in Plan's Favor	# Decided in Provider's Favor
Emergency Medicine	410	289	121
Anesthesia	135	66	69
Reconstructive Surgery	1	1	0
Total	546	356	190

Arbitrations Decided Through 10-31-2021			
Specialty	% by Specialty Type	% Decided in Plan's Favor	% Decided in Provider's Favor
Emergency Medicine	75.1%	70.5%	29.5%
Anesthesia	24.7%	48.9%	51.1%
Reconstructive Surgery	0.2%	100%	0%

(Plan = Health insurance carrier or self-funded group health plan that has opted-in)

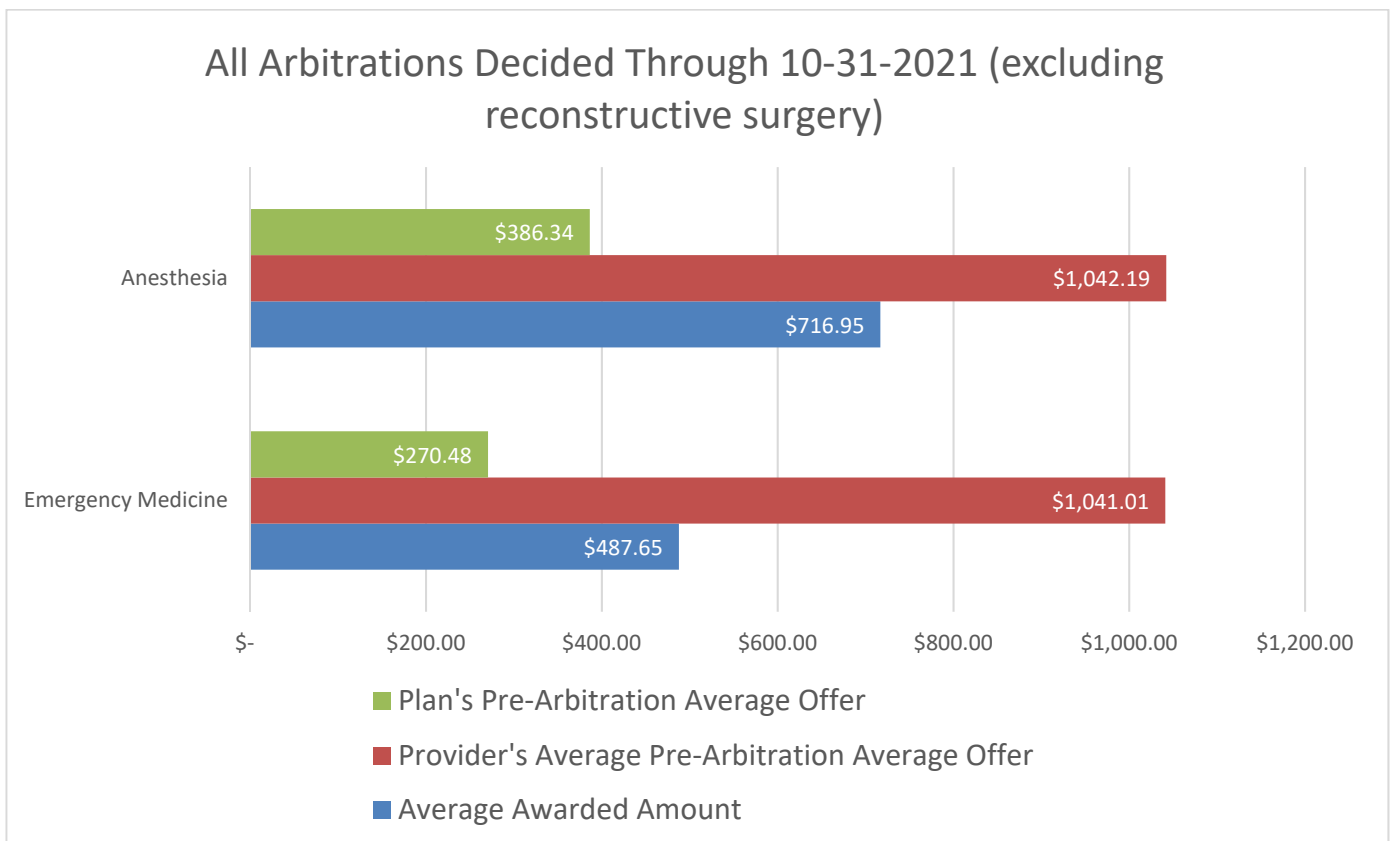

- Arbitration Decision Counts (counts for Reconstructive Surgery not shown due to only one arbitration case):

(Plan = Health insurance carrier or self-funded group health plan that has opted-in)

- Aggregate information on the variation between the initial payment and the final settled amounts (averages for Reconstructive Surgery not shown due to only one arbitration case). The Bureau may not always receive information on the initial carrier/group health plan payment amount. Once a claim is adjusted and additional payment is made, the adjusted payment may be what is submitted for arbitration. Therefore, the information below demonstrates the last carrier/plan payment prior to arbitration:

Arbitrations Decided Through 10-31-2021			
Specialty	Provider's Pre-Arbitration Average Offer	Plan's Pre-Arbitration Average Offer	Average Awarded Amount
Emergency Medicine	\$1,041.01	\$270.48	\$487.65
Anesthesia	\$1,042.19	\$386.34	\$716.95

- See Attachment B for information showing the claims resolved by arbitration, including the name of the provider, carrier, provider's affiliated entity or employer, facility where services were rendered, service type, and which party the decision favored (January 1, 2021 – October 31, 2021).
