Roles and Responsibilities of the Board

The Board of Local and Regional Jails is made up of nine members who are appointed by the Governor. The Board is responsible for developing and establishing standards governing the construction and operation of local, regional, and community correctional facilities and for the review of inmate deaths that occur in these facilities. The Board is also responsible for the development of programs to educate citizens and bring about public support for the activities of the Virginia Department of Corrections.

Purpose of Report

In accordance with the below, this report includes a summary of the results of death reviews, trends identified in these reviews, and potential policy and regulatory changes that would reduce the number of inmates that die in jail custody. Additionally, this report summarizes audit and inspection results including violations, trends, remedial measures and corrective actions taken, and recommendations for new or amended standards.

§ 53.1-5. Powers and duties of Board.

The Board shall have the following powers and duties:

7. To report annually on or before December 1 to the General Assembly and the Governor on the results of the inspections and audits of local, regional, or community correctional facilities conducted pursuant to § 53.1-68 and the reviews of the deaths of inmates that occur in any local, regional, or community correctional facility conducted pursuant to § 53.1-69.1. The report shall include (i) a summary of the results of such inspections, audits, and reviews, including any trends identified by such inspections, audits, and reviews and the frequency of violations of each standard established for local, regional, or community correctional facilities, and (ii) any recommendations for changes to the standards established for local, regional, or community correctional facilities or the policies and procedures for conducting reviews of the death of inmates to improve the operations, safety, and security of local, regional, or community correctional facilities.

§ 53.1-69.1. Review of death of inmates in local correctional facilities.

E. The Board shall publish an annual report summarizing the reviews conducted by the Board within that year. Such report shall include any trends or similarities among the deaths of inmates in local correctional facilities and present recommendations on policy changes to reduce the number of deaths in local correctional facilities. The Board shall publish such report on its website and submit the report to the Governor, the Chairmen of the Senate Committee on Rehabilitation and Social Services and the House Committee on Public Safety, the Chair of the House Committee for Courts of Justice, the Speaker of the House of Delegates, and the President pro tempore of the Senate.

Data Sources

The information provided in this report comes from three sources:

- Facility reports
- Investigative Reports
- Audits and inspections

Following the death of an inmate, each facility is responsible for providing to the Board an initial report with preliminary information concerning the circumstances of the death. Thereafter, the Board's Jail Death Investigators begin their investigation by obtaining and reviewing the following:

- Intake Records
- Medical/Mental Health Records
- Inmate Requests, Complaints, Grievances
- Inspection Notes
- Jail Reports, Records, Logs
- Inmate Records
- Video Footage
- Medical Examiner Reports
- Staff Interviews
- Witness Interviews
- Autopsy reports
- Third-party investigations, interviews, documents (locality, federal) when applicable
- Compliance, Certification and Accreditation Certification Audits, Inspections
- Any other documentation the Jail Death Investigator deems relevant to their investigation

After obtaining and reviewing the aforementioned information, the death investigator compiles an investigative report to provide to the Jail Review Committee.

Organization of Report

This report is organized into four parts:

- **Part I** describes the process of the review of inmate deaths in local and regional correctional facilities, which includes, notification and initial review of inmate deaths, death reviews, and Board action.
- **Part II** provides statistical data on inmate deaths in Virginia to include demographics and causes.
- **Part III** presents death review findings, identified trends and proposed changes to policies, and standards.
- **Part IV** summarizes jail audit and inspection results to include violations, frequency of these violations, and recommendations for training or other plans of actions.

PART I: Jail Death Review

The Board of Local and Regional Jails is responsible for reviewing the death of any inmate who was incarcerated in a local or regional jail at the time of their death to determine whether the circumstances surrounding the death violated the Board's minimum standards:

§ 53.1-69.1. Review of death of inmates in local correctional facilities.

A. The Board shall have the power to review the death of any inmate who was incarcerated in a local correctional facility at the time of his death in order to determine (i) the circumstances surrounding the inmate's death, including identifying any act or omission by the facility or any employee or agent thereof that may have directly or indirectly contributed to the inmate's death, and (ii) whether the facility was in compliance with the regulations promulgated by the Board.

B. Any review conducted pursuant to this section shall be conducted in accordance with the policies and procedures for such review developed and implemented by the Board in accordance with subdivision 5 of § 53.1-5. In conducting a review pursuant to this section, the Board may exercise its power under § 53.1-6 to hold and conduct hearings, issue subpoenas, and administer oaths and take testimony thereunder. If the Board determines that it cannot adequately conduct any particular review pursuant to this section because of the conduct by the Board of another ongoing review, the Board may request that the Department assist in the conduct of such review. Department staff conducting a review pursuant to this section shall be considered agents of the Board.

C. If the Board determines during the conduct of any review pursuant to this section that it is necessary to review the operation of an entity other than the local correctional facility in order to complete the review, the Board shall request that the Office of the State Inspector General review the operation of such entity if such entity falls within the authority vested in the Office of the State Inspector General pursuant to Chapter 3.2 (§ 2.2-307 et seq.) of Title 2.2. Nothing in this section shall limit the authority of the Office of the State Inspector General to exercise any of the powers and duties set forth in Chapter 3.2 (§ 2.2-307 et seq.) of Title 2.2.

D. Upon completion of any review conducted pursuant to this section, the Board shall prepare a detailed report of the findings of any review, which shall be submitted to the Governor, the Speaker of the House of Delegates, and the President pro tempore of the Senate. Such report may contain recommendations for changes to the minimum standards for the construction, equipment, administration, and operation of local correctional facilities in order to prevent problems, abuses, and deficiencies in and improve the effectiveness of such facilities. In addition, the Board may issue any order authorized under § 53.1-69 to correct any failure by the facility to comply with the Board's regulations. Except as otherwise required by law, the Board shall maintain the confidentiality of any confidential records or information obtained from a facility during the course of a review in accordance with state and federal law.

E. The Board shall publish an annual report summarizing the reviews conducted by the Board within that year. Such report shall include any trends or similarities among the deaths of inmates in local correctional facilities and present recommendations on policy changes to reduce the number of deaths in local correctional facilities. The Board shall publish such report on its website and submit the report to the Governor, the Chairmen of the Senate Committee on Rehabilitation and Social Services and the House Committee on Public Safety, the Chair of the House Committee for Courts of Justice, the Speaker of the House of Delegates, and the President pro tempore of the Senate.

Review Process

1. The first step in the death review process is notification of the death to the Board's Executive Director within 24 hours of the death. Notifications must be made using the designated *Report of Inmate Death* form.
2. Upon receiving notification of an inmate death, Board Support Staff forwards the report to the Jail Death Investigator who requests an Autopsy Report from the Medical Examiner's Office via the Department of Correction's Special Investigations Unit.
3. The Death Investigator then contacts the facility head to request and review any/all relevant information including:
 - Medical/Mental Health Records
 - Intake Records
 - Inmate Requests, Complaints, Grievances
 - Inspection Notes
 - Jail Reports, Records, Logs
 - Inmate Records
 - Video Footage
 - Medical Examiner Reports
 - Staff Interviews
 - Witness Interviews
 - Autopsy reports
 - Third-party investigations, interviews, documents (locality, federal) when applicable
 - Compliance, Certification and Accreditation Certification Audits, Inspections
 - Any other documentation the Jail Death Investigator deems relevant to their investigation
4. Upon the investigator's completion of a death review, a detailed report of the findings is prepared and submitted to the Executive Director who schedules the review for consideration by the Board's Jail Review Committee.
5. The investigator presents their findings to the Jail Review Committee. Following deliberation, the Committee determines whether the findings and/or the circumstances surrounding the inmate's death violate any of the Board's minimum standards. Based on this determination, the Committee then votes to recommend closure of the case (no violations found) or, when

violations are suspected, to initiate the Board's adjudication procedure (below).

6. If the case is closed, the Executive Director prepares a letter detailing the findings of any review. The letter is then reviewed and signed by the Chairman of the Board and submitted to the Governor, the Speaker of the House of Delegates, and the President pro tempore of the Senate.

Adjudication Process

1. The Jail Review Committee (3 voting members) meets with the Board's Death Investigator (DI) in closed session to discuss investigations. The remaining 6 board members may sit ex officio at this meeting. An ex-officio member shall be appointed as a JRC member in the case of absence of a standing committee member.
 1. During that session, DI presents findings to JRC.
 2. The JRC can then vote to close the investigation or, if the facility is suspected to be noncompliant, to send Notice of Concern Re: Minimum Standards to the facility. This should include:
 1. A template notification that the JRC has concerns regarding the facility's compliance with certain minimum standards.
 2. A request that the facility call the Executive Director to discuss these issues.
 3. The ED's initial conversation with the facility should include:
 1. Preliminary findings of fact related to the specific death
 2. Notice of preliminary concerns regarding the specific minimum standards violated
 3. A request that the facility submit a detailed Plan of Action to correct any identified deficiencies to come into compliance with minimum standards.
 4. An invitation to be present at the next Board meeting where the full Board will meet to discuss the case.
2. Following the Initial conversation with the ED, the facility can do the following:
 1. The facility can accept the request to submit a Plan of Action (POA) and move to the negotiation/consultation process with the ED to ensure an acceptable POA is reached prior to the next full Board meeting.
 2. Alternatively, the facility can decline to write a Plan of Action by submitting a written objection to the facts or allegation of violation of minimum standards.
 1. If they decline to write a POA, the next step will be for the Facility to present their case at the next Board meeting, which shall be an Informal Fact Finding Conference.
 3. Before accepting or denying the Request for POA (or thereafter), the facility is entitled to schedule and attend an Informal Presentation of the Evidence with the ED to get a better understanding of the Board's evidence crediting its preliminary findings.

4. Failure to submit a POA or to deny the Request for a POA via a written objection shall constitute a full or partial admission and acquiescence to the general facts outlined and penalties recommended herein.
 1. An acquiescence to the outlined facts and penalties means there will be no negotiation and the Board may decide its own penalties at the full Board meeting.
 2. Submitting a POA is the only option that would not require a formal objection through written notice.
3. The negotiation/consultation process then begins with the Executive Director and the facility, should the Facility be amenable to writing a POA. The ED should work with the facility and Board Chair to write a Plan of Action that will satisfy the Board and bring the facility into compliance.
4. Should the negotiation process result in a successful POA, it will be presented, discussed, and voted upon at the next full Board meeting (which shall be an IFFC). The facility may be present.
 1. If the Board still has concerns with the submitted POA at this meeting, they may recommend an alternative POA, which the Facility can then appeal through a formal hearing.
5. Should the facility not submit a POA or submit a written notice of objection to the facts, the next full Board meeting will hold an Informal Fact Finding Conference.
 1. At this IFFC, the Death Investigator and the jail present their cases to the Board.
 2. Following the presentation of the cases, the Board may choose to:
 1. Recommend a Plan of Action
 2. Close the case (dismiss.)
6. If the facility is not satisfied with the Plan of Action recommended at the IFFC, they may request a Formal Hearing to be conducted in accordance with the APA.
7. If the jail does not agree with the outcome of the Formal Hearing, they may appeal the final decision in accordance with VA Code § 2.2-4026 et seq.

In cases where supplemental information or corrective action provided by a facility is deemed inadequate to address violations, the Board of Local and Regional Jails may order one or all of the following actions.

1. Pursuant to 6 VAC 15-20-100 (B) (3), a probationary certification for a period of 12 months from the date of the Order.
2. If a facility does not meet the requirements for certification at the conclusion of this period, the Board may issue a letter of decertification.
3. The facility shall provide written updates on measures taken to come into compliance with the Board's regulations at least quarterly during the probationary period.

4. Pursuant to Virginia Code § 53.1-68, the Virginia Department of Corrections Compliance and Accreditation Unit conducts focused inspections quarterly regarding medical pathways and decisions, access to physicians and medical care, protocols and practices for escalating care, and triage protocols.
5. The Board reserves the right to pursue any and all other remedies at its disposal, including but not limited to, filing a complaint to withhold the salary of a facility manager pursuant to Virginia Code § 53.1-125.

Summary

The Board of Local and Regional Jails (the Board) is responsible for creating standards that govern the facilities and the offenders it oversees. There are certain regulations that require all correctional programs and facilities to operate at standards that are designed to guarantee the health, safety, and welfare of staff and offenders within a correctional setting. In 2020, common violations included issues related to food services, sanitation, and fire safety inspections. The Board is dedicated to the safe operation of local, regional, and community correctional facilities and continues to hold facilities accountable for non-compliance with standards.
