Department of Small Business and Supplier Diversity Agency Work Plan January 1-December 31, 2021

Overview

Mission: Economic Growth and Development of Virginia's Small Businesses

The mission of the Virginia Department of Small Business and Supplier Diversity (SBSD) is to serve Virginia's small businesses, by enhancing growth opportunities through increased revenue and job creation that raises the standard of living of all Virginians.

Agency Vision:

The Virginia Department of Small Business and Supplier Diversity (SBSD), formerly the Department of Business Assistance, was formed to meet the needs of existing and new small businesses. Over the life of the agency, the mission has expanded so that small, woman, and minority-owned businesses are included in this vision. Then and now, the department separates these important functions from the political process and ensure that all Virginia small businesses receive assistance to grow and prosper in the Commonwealth through education, counseling, certification, and access to financing.

Agency Goals:

Statewide Goals Advanced by SBSD's Strategic Goals, Objectives and Strategies

- Be a national leader in the preservation and enhancement of our economy.
- Engage and inform citizens to ensure we serve their interests.
- Be recognized as the best-managed state in the nation.
- Ensure that Virginia has a transportation system that is safe, enables easy movement of people and goods, enhances the economy and improves our quality of life.

The goals listed above are statewide goals with many contributors in which SBSD plays a role. The agency is committed to customer service, advocacy for small businesses, and support of other Virginia state agencies. SBSD specific goals do not stand alone, but support the broader goals of the entire Commonwealth.

Agency Goal I: Spur economic vitality through strategic investment of resources.

For the Department this means implementing strategies that assist small businesses to be more competitive in a rapidly changing global economy.

Agency Goal II: Enhance the positive business climate in Virginia for small businesses as they move through the business life cycle: formation, stabilization, and growth.

For the Department this means providing services designed to assist with the development and growth of small businesses, as they are the economic engine of the Commonwealth.

Agency's Objectives and Strategies for 2021

Agency Goal #1:

Spur economic vitality through strategic investment of resources.

Objective

Utilize agency resources to maximize the creation and retention of jobs within the Commonwealth as well as growth for wealth maximization of our current small business population.

Overall success toward meeting this objective will be assessed through the following measures:

- Number of jobs created and retained by businesses receiving loans from the VSBFA (Work Plan Measure)
- Number of presentations to financial institutions and economic development partners (Strategic Plan Measure)
- Total number of jobs created and retained by small business borrowers as a result of VSBFA programs (Work Plan Measure)
- Total numbers of jobs created and retained in rural areas for all borrowers (Work Plan Measure)
- Total private investment enabled for all business borrowers under all VSBFA programs (Work Plan Measure)
- Make available a pool of Small, Women, and Minority (SWaM) and Disadvantaged Business Enterprise (DBE) certified vendors for local, state, and corporate/private entities (Strategic Plan Measure)
- Average number of days to process a Small, Women, and Minority (SWaM) certification application (Strategic Plan Measure)
- Support of service disabled veteran businesses through certification (Strategic Plan Measure)

Virginia Small Business Financing Authority (VSBFA)

Discussion Points:

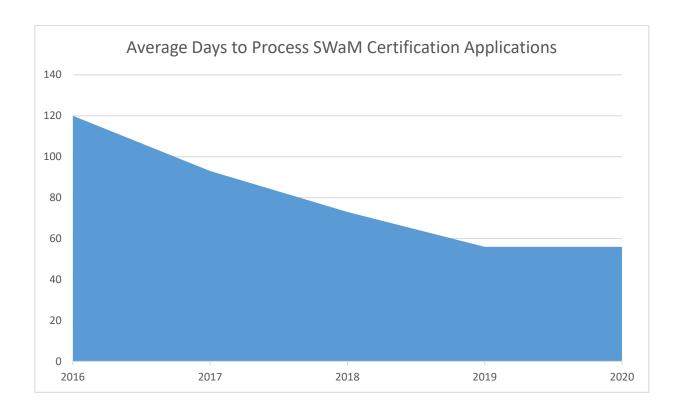

The agency is committed to supporting small businesses by providing access to capital, opportunity through state and federal certification, and growth through comprehensive development programs. Since the merger of the Department of Business Assistance (DBA) and the Department of Minority Business Enterprise (DMBE) to create the Department of Small Business and Supplier Diversity (DSBSD) in FY15 the agency has flourished. Under the direction of new leadership, the two agencies became one and shared goals and vision were established.

The first order of business, once the mission of the agency was solidified, was to develop the infrastructure necessary to allow the agency to be successful. This required the build out of office space so both agencies could work together as one cohesive unit. Next staffing needed to be addressed; attracting new talent, addressing performance issues, and developing high potential employees was a priority. Once infrastructure was in place then current programing and performance of that programing could be evaluated. Strategic planning and SWOT analysis was completed and new performance metrics were established. Through this planning effort new programing opportunities were identified and the agency added the Virginia Scaling 4 Growth program and the Virginia Contractor's Course to our business development offerings.

By the end of FY20, we expect to have graduated ninety-five SWaM businesses from the Virginia Scaling 4 Growth program. Virginia is the first State to offer this nationally renowned program. The program is a six-month MBA style program designed to take businesses through leadership, finance, and business management modules with their final capstone project being the completion of a growth program that they can put into action upon graduation. Based on economic impact data we have captured from our graduates, 80 percent retained or created new jobs. The average revenue growth was 44 percent after completion of the program. Virginia's program results have been so impressive that Interise, the national licensing organization, has used Virginia's results as a model of success for other participants.

The agency has also made tremendous strides as it relates to streamlining the SWaM Certification process and in reducing time to process applications. In FY16, the agency was faced with a backlog of over 2,000 applications and the average processing time for SWaM certification was approximately 120 business days. The agency identified strategies to manage the application volume and instituted new technology to automate the process. As of FY18, the agency was able to clear the backlog and reduce processing times to less than 60 business days. The average number of days to process a certification application in the private sector is 90 business days; we are committed to providing a faster service to our small businesses and at no cost.

In FY20, the agency finalized streamlining efforts to reduce the burden of certification to the business owner. The agency finalized regulatory changes that reduced the amount of time a business must wait to reapply after being denied certification from 12 months to six months. The agency implemented changes that allowed more time for reapplication increasing the reapplication period from 90 days to 120 days. The agency implemented a streamlined recertification process that allows for an attestation of no change allowing the business to submit less documentation when reapplying. We have held webinars and certification labs statewide to assist applicants with the process. We have conducted outreach and increased the number of certified service disabled veteran owned businesses by 121 percent since FY18.

The agency has also been successful in updating its technology to meet the needs and expectations of the citizens of the Commonwealth. In 2017, the agency launched a new website as well as a new certification application portal. The agency created an enhanced SWaM and DBE directory to assist Commonwealth procurement officials with identification and location of certified vendors. DSBSD, in 2018, worked with nineteen state agencies to provide them with real time data feeds on SWaM certification information. These feeds populate SWaM certification data into DGS's eVA system, DOA's Cardinal system, VITA's subcontractor portal and various institutions of higher education's ERP systems. The agency launched a new Expenditure Dashboard application in FY20, which contained enhanced reporting, adjustment submission, and subcontractor submission capabilities. The agency has begun work to enhance the Business One Stop application.

The agency has accomplished a great deal and appreciates the opportunity to highlight the work that has been done and the work that will be accomplished in this upcoming reporting period. We stand ready to continue our support of the small businesses of the Commonwealth. There are currently 745,886 businesses in Virginia, of which 99.5 percent are small businesses. Virginia small businesses employed 1.5 million people or 47.2 percent of the private workforce in 2013. Our small businesses are the backbone of Virginia's economy.
