The Honorable Janet D. Howell
Chairman of the Senate Finance Committee

The Honorable Barry D. Knight
Chairman of the House Appropriations Committee

Mr. Michael Maul
Director, Department of Planning and Budget

Pursuant to the 2022 Virginia Appropriation Act, Item 406 H.2; I am respectfully submitting herewith a report on the *Actual Expenditures and Performance Results Achieved by the Northern Virginia – District of Columbia Internet Crimes Against Children Task Force* for the period of July 1, 2021 through June 30, 2022.

Respectfully,

Superintendent

GTS/ACW/jbc

Enclosure

**REPORT ON THE ACTUAL EXPENDITURES AND
PERFORMANCE RESULTS ACHIEVED BY
THE NORTHERN VIRGINIA-DISTRICT OF COLUMBIA
ICAC TASK FORCE
DURING THE ELEVENTH YEAR**

OVERVIEW OF THE TASK FORCE

The Northern Virginia-District of Columbia Internet Crimes Against Children Task Force, otherwise known as NOVA-DC ICAC, is charged with the responsibility of investigating crimes perpetrated against children through the use of technology. Despite our efforts to address these complex and very serious crimes, there are still many who choose to actively prey upon our children and they are in a constant search to stay one step ahead of law enforcement.

The Internet and computers have become so commonplace in American life that all communities are impacted by their use. According to the U.S. Census Bureau, 2020 American Community Survey 5-Year Estimates, 92.9 percent of individuals in Virginia live in a household with computer and internet access; 86.6 percent have smartphones up from approximately 75% in 2011. This translates to increased access by online child sexual predators in the state of Virginia, in the United States, and globally. This dynamic has contributed to an increase in the overall activities of the NOVA-DC ICAC. The task force continues to experience a large number of predators willing to travel great distances and even from other countries to meet children with whom they have developed an online relationship. The NOVA-DC ICAC region is home to over 4.2 million residents, so law enforcement is greatly outnumbered when it comes to investigating these dangerous crimes against children. Many law enforcement agencies are closely evaluating their agency's investigative and personnel priorities; however, NOVA-DC ICAC affiliate law enforcement agencies continue to keep Internet crimes against children investigations a priority. This is in large part due to the financial support provided by the Internet Crimes Against Children Fund.

The NOVA-DC ICAC is comprised of the Virginia State Police (VSP) and 67 partnering local, state, and federal law enforcement agencies, who work to pursue those responsible for these crimes. With the exception of one federal agency not listed, the following are the participating agencies:

NOVA-DC ICAC TASK FORCE AFFILIATE AGENCIES

Agency	Type
Alexandria Police Department	City
Arlington County Police Department	County
Clarke County Sheriff's Office	County
Culpeper County Sheriff's Office	County
Fairfax City Police Department	City

Warren County Sheriff's Office	County
Winchester Police Department	City

In a continuing effort to expand the task force, meetings were held with a number of potential affiliate agencies. The cooperation and collaboration of these agencies has led to many successes. These affiliated agencies work tirelessly to support one another and protect our children from those who seek to exploit their innocence. A few examples of their hard work are as follows:

- On September 23, 2021, Special Agent David Cook was requested by the FBI to assist in an ongoing investigation in Stafford County VA. SA Cook was advised that a Stafford County, VA man was manufacturing child exploitation material and distributing it online. SA Cook obtained a search warrant for the residence of the activity. Members of the NOVA/DC ICAC Task Force processed digital devices at the residence during the execution of the search warrant and identified the manufactured child exploitation material on digital devices. SA Cook interviewed the subject of the investigation and obtained admissions of sexual abuse of his daughter as well as his juvenile sister. The sister was forensically interviewed and disclosed that she was sexually

abused by her brother since she was 9 years old. SA Cook gave all evidence and interviews in this case to the FBI for federal prosecution.

- On September 25, 2021 a report was made referencing child pornography to the Manassas City Police Department. The reporting party advised a year ago she and her friend exchanged log in information on Instagram and she has not logged out ever since. She was receiving message notifications from someone messaging her friend. When she clicked on the messages, she could see messages referencing the exchange of child pornography. Her friend, a juvenile, sent 3 videos of what she believed to be child pornography. The reporting party advised she believes the 1st video had 2 teenage juveniles performing sexual acts with each other, and the 2nd and 3rd video of younger juveniles performing sexual acts on adults. The conversation on Instagram was between the subject, whose account name is "izinvaler" and another individual that we can only identify by their Instagram name "firebal.aumento09". On September 27, 2021, TFO Det. Nicole McCarthy was made aware of this report. After reviewing the facts of the case and consulting with the Internet Crimes Against Children Task Force, it was determined that a search warrant would be conducted the same day due to concern over there being a live victim within the home. A "screen grabbed" child sexual abuse image from the reporting party, appeared to match that of an underage victim. Two cell phones were seized and placed into property at the Manassas City Police Department. Forensic examination of the cell phone of the subject revealed hundreds of images and videos of CSAM.
- From January 1 through June 1, NOVA ICAC Agents in Harrisonburg conducted proactive online investigations resulting in the arrest and prosecution of more than 15 adult male offenders for solicited sex acts from a person they believed to be a minor.
- In February, Special Agent Bullock received a Cybertip stating a user was uploading child pornography to a Discord account. Special Agent Bullock did a search warrant to the Discord account which verified that what appears to be child pornography was being uploaded to the account. In March, Special Agent Bullock obtained a search warrant for the subject's residence in Loudoun County Virginia. The subject was identified as a 17 year old juvenile who admitted to downloading child pornography via the Discord app. Special Agent Bullock seized several of the juvenile's devices and sent them to the Virginia State Police Computer Evidence Recovery Lab. Over three thousand pictures of child pornography were discovered on the devices. Special Agent Bullock is currently in the process of obtaining arrest warrants for the juvenile.
- On March 1, NOVA ICAC Agents conducted a search warrant in Chesterfield County and recovered 9 items related to the ongoing sexual exploitation of minors online. A 55-year-old male was interviewed and

arrested following a two year undercover investigation in which the offender used high level encryption and avoided traditional applications making it difficult to identify him through legal processes. Creative techniques were used to identify and obtain admissions from the computer savvy repeat offender and he was charged with 9 counts of 18.2-374.3 - Use of communications systems to facilitate certain offenses involving children.

- On March 4, SA J. Totten executed a search warrant at a residence in Prince William County, VA. Several electronic devices were analyzed and determined to contain images and videos of Child Sexual Abuse Material. The devices' owner was interviewed and confessed to sexually abusing his juvenile step-sister.
- On March 24, SA Cook responded to Floyd County VA in reference to a father who was sexually abusing his 4 year old daughter on the KIK application. In a joint effort with Homeland Security and the Floyd County Sheriff's Office, the Virginia State Police executed a search warrant on the residence. SA Cook interviewed the subject of the investigation and obtained a confession of his activity with his daughter and received an account takeover from him to continue further. The daughter of the subject was identified and received services for her trauma.
- In April, Fairfax County PD TFO B. Allbritton investigated the potential rape of a juvenile female. It was determined through investigation the juvenile's mother was conspiring to drug and sexually abuse her daughter while surreptitiously recording her in the bedroom and bathroom of their residence. After executing three simultaneous search warrants in May, the mother was arrested and charged with production of child pornography, aggravated sexual battery and conspiracy. The investigation continues.
- On May 4, Arlington PD TFO Hermes Molina arrested a suspect, who was charged with 5 counts possession of Child Pornography. Previously a search warrant was executed at the subject's residence and evidence was located on several smartphones and a tablet.
- On June 1, Arlington PD TFO Hermes Molina executed a search warrant at a residence in Arlington. During the investigation TFO Molina interviewed a male juvenile who admitted to possessing and distributing Child Pornography on Social Media sites and sexually abusing a 5 y/o relative.
- On June 14, NOVA ICAC Agents executed simultaneous search warrants in the person and residence of a 44-year-old convicted sex offender who was just released from Federal Probation. The proactive peer-to-peer investigation resulted in the recovery of 13 items (80+

terabytes of data). Admissions were obtained and the arrest is pending the forensic results.

These brief case summaries are intended to be a very small representation of the volumes of complex and noteworthy criminal investigations being handled by the NOVA-DC ICAC Task Force. The task force is committed to providing highly efficient and professional services across its region, as well as collateral support to the other 60 task forces nationwide. As such, special training and equipment are necessary on an ongoing basis to keep pace with evolving technologies and the complexities associated with these investigations. In addition to evolving technologies, media capacity continues to grow, which demands increasing efficiency for the forensic analysis of digital evidence. Details concerning personnel, training, and equipment purchases are included in the subsequent pages.

Northern Virginia-DC ICAC Task Force
Appropriation Expenditures during July 1, 2021 – June 30, 2022

PERSONNEL

Expended: \$635,853

TRAINING/TRAVEL EXPENSES

Expended: \$15,029

EQUIPMENT EXPENSES

Expended: \$287,822

OTHER

Expended: \$44,416

TOTALS

Revenue Received:	\$ 820,277
Expended:	\$ 983,120
Over-expended:	\$ 162,843

Due to the COVID-19 pandemic and fewer court proceedings, revenue received dropped 8.2% for fiscal year 2022. With payroll costs alone rising 15%, this shortage was offset by General Fund sources to prevent the ICAC Fund from operating in a negative balance.

PERSONNEL

As a result of sustained funding support, the NOVA-DC ICAC is able to employ one supervisor, three special agents, and one agency lead analyst to complement the three special agents, one fiscal technician, and two forensic examiners funded through alternate sources. This funding also provided overtime pay for personnel to work Pro-Active/Undercover investigations.

These additional human resources enhance the task force's capacity to conduct child exploitation investigations, and further support the needs of the various affiliate agencies. Additionally, human resources impact the task force as a whole by increasing the hours dedicated to ICAC investigative work, as well as improving the continuity of administrative functions that ultimately benefits the overall efficiency of the task force. These partnerships provide resources to work cooperatively across the task force region to combat Internet crimes against children. Together, personnel initiate investigations related to technology-facilitated child sexual exploitation and child pornography with a goal to reduce child victimization through the identification, apprehension and prosecution of child sexual predators.

TRAINING

Task force members are required to successfully complete an essential training regimen that includes specified courses encompassing many technical topics of study. Courses normally range in duration from two days to one week depending on the depth and complexity of the subject matter. Minimum standards of training must be achieved to remain in compliance with the ICAC Investigative Guidelines and Operational Standards. The focus of these training endeavors includes:

- Increasing the investigative capabilities of state and local law enforcement officers in the detection, investigation, and apprehension of Internet crimes against children offenders, including technology-facilitated child exploitation offenders.
- Providing advanced capabilities/skills and technical assistance to other ICAC task forces and other federal, state, and local law enforcement agencies in the areas of investigations, forensics, prosecution, community outreach, and capacity-building, using recognized experts to assist in the development and delivery of a wide array of training programs.
- Enhancing a uniform nationwide response to Internet crimes against children offenses, including assisting other ICAC task forces, as well as other federal, state, and local agencies with Internet crimes against children investigations and prosecutions related to the Commonwealth.
- Developing and delivering Internet crimes against children public awareness and prevention programs.

Expenses for training include tuition, transportation, fuel, lodging, parking, and meals. Although the COVID-19 pandemic converted many training classes to virtual platforms such as ZOOM and webinars, the following is a list of courses completed through the appropriated funding:

- Cellebrite Certification & Re-certifications
- Computer Forensic Lab Accreditation and membership
- NW3C Social Networking course
- Reid Interview training
- Virginia Procurement training
- ICAC Supervisor's training
- Various mobile device forensic and investigative trainings
- Various ICAC investigative techniques training

TRAVEL

In order to build a robust investigative foundation, it is essential that the NOVA-DC ICAC support affiliate agencies with authorized travel related expenses. Such expenses involve support for applicable transportation, meals and lodging for personnel attending specialized training and operational meetings. NOVA-DC ICAC personnel also travel to conduct field work and ICAC pro-active/reactive investigations, which often require investigators to work lengthy hours.

Through the appropriated funding, task force personnel participated in Pro-Active Operations, and supervisors worked jointly in support of ICAC field personnel. Several task force members travelled out of their assigned area for follow-up investigative work and court proceedings on child exploitation cases. Travel expenses were supported for the NOVA-DC ICAC regional meetings, human trafficking prevention meetings, and ICAC Operational meetings.

The pandemic restrictions again limited overnight travel, however, travel is essential to promote collaboration and cooperation across the region, as well as to enhance continuity of operations.

EQUIPMENT

The NOVA-DC ICAC investigates technology facilitated criminal activity. These complex investigations are conducted in an evolving environment. While emerging technologies may serve to enhance the capabilities of the investigator, they also serve to advance the criminal element making investigations even more challenging. The NOVA-DC ICAC strives to ensure that each fully participating affiliate has the necessary equipment and software to enable them to conduct thorough and comprehensive investigations. Such expenditures include equipment as well as the ongoing support and maintenance required for software licenses and updates.

The revenue for this fund fell 29% during the pandemic and has not returned to pre-pandemic levels. Purchases to replace end-of-life equipment was put off until such time as revenues improve. However, through the appropriated funding, the NOVA-DC ICAC purchased much needed equipment and renewals for member agencies to include the following:

- Dropbox renewal
- Wasp Inventory Software renewal
- Cellebrite renewal
- FTK renewals
- Snagit renewals
- Parallels Pro
- RECON renewal
- XRY Renewal
- Spokeo renewal
- Battery charger/batteries
- Air Purifier
- Printer fuser kit
- Challenge Coins
- Alienware laptop & accessories
- Cables and peripheral equipment
- Razer laptops
- MacBooks & AirPods
- Digital external storage
- 1TB flashdrives
- Peripheral accessories
- Desktop printer
- Logicube duplicator

OTHER

A recent report by the United States Marshals Service Behavioral Analysis Unit that surveyed 500 Internet Crimes Against Children (ICAC) personnel and 85 spouses or significant others noted specific findings with regards to secondary stress in ICAC personnel. The report seeks to provide an idea of how secondary stress can impact the investigator and their loved ones; communicate which coping skills were related to lower secondary traumatic stress scores; and share the advice offered by significant others of

ICAC personnel. The author was surprised by the number of comments from the significant others stating the need for mandatory mental health check-ins or counseling.

Through the use of appropriated funds, the NOVA-DC ICAC has been proactive in its approach to the issues surrounding secondary stress. Consistent with the report, NOVA-DC ICAC personnel operate in a supportive work environment; meaning one where respondents feel their co-workers can be relied on in difficult situations, are easy to communicate with, and are willing to extend help on challenging cases. Affiliates are invited to take part in peer discussion groups and they are afforded the confidential services of a highly qualified mental health provider. The task force recognizes the value of human resources and the serious nature of secondary stress. The Mental Wellness Program continues to provide support and guidance in an effort to protect the welfare of personnel subjected to disturbing and graphic depiction of child victimization.

In addition to the Mental Wellness Program, other miscellaneous and/or recurring costs are necessary for the support of the ICAC office and personnel. Through the appropriated funding, the ICAC was also able to procure or provide the following:

- Office Supplies
- Ink and Toner Cartridges
- Misc. Vehicle Expenses (Fuel, Insurance, Repair, and Maintenance)
- Meals Reimbursement
- Payroll Service Bureau Yearly Fees
- VITA Service Fees (for air cards, cell phone service, and laptops)
- Line of Duty VRS Fees
- Worker's Compensation Fees
- Liability Insurance Fees

Performance Results and Enforcement Activities

The hard work and dedication of the many NOVA-DC ICAC personnel are documented in numerous reports, media releases, and public presentations. Additionally, the NOVA-DC ICAC is mandated to report monthly to the Department of Justice, Office of Juvenile Justice and Delinquency Prevention (DOJ/OJJDP). The various metrics included in the DOJ/OJJDP Reports have been compiled and incorporated below for the fiscal year July 1, 2021 through June 30, 2022.

Fewer pandemic travel restrictions increased the number of Traveler complaints by 300%. A 73% increase in the number of Enticement complaints, a 222% increase in Obscenity Directed to Minors and a 48% increase in Child Pornography Distribution complaints were also investigated this fiscal year. Additionally, the number of Cybertips received increased from 4,377 to 6,023 this fiscal year; a 38% rise.

The NOVA-DC ICAC personnel routinely support one another in various ways. Such support and collaboration is reflected in the number of task force affiliate members and other professionals sent to ICAC training. The training sessions provided increased 213% this reporting period. Fewer COVID-19 restrictions also helped participation rise again, the task force therefore was able to engage in 236 community outreach events, such as

internet safety presentations for schools, churches, and social organizations and public awareness events reaching 2,692 community members, an increase of 402%.

Documented Complaints

Traveler	Proactive	12
	Reactive	16
Enticement	Proactive	52
	Reactive	121
Obscenity Directed to Minors	Proactive	29
	Reactive	107

Department of Criminal Justice Services Funding for NOVA-DC ICAC Affiliates

The Virginia State Police (VSP) entered into an inter-agency agreement with the Department of Criminal Justice Services (DCJS) to disburse allocated ICAC funds in support of local NOVA-DC ICAC Task Force affiliates. The hard work and dedication of the many NOVA-DC ICAC personnel is documented in numerous reports, media releases, and public presentations. Additionally, the NOVA-DC ICAC is mandated to report monthly to the Department of Justice, Office of Juvenile Justice and Delinquency Prevention (DOJ/OJJDP). The task force's metrics are denoted on page 12 - 14 of this report and are consistent with the time period of this DCJS award.

The NOVA-DC ICAC Task Force actively engaged in training, community outreach, and enforcement to enhance capabilities and encourage increased participation. Additionally, task force staff engaged many non-affiliated agencies in an effort to increase task force membership. Capacity building across the region continues to be a priority for the task force. This is a dynamic goal that is accomplished through proactive and ongoing collaboration with all affiliates that affords them technical support, as well as the ability to fund jurisdiction specific needs.

Each respective jurisdiction is different and their community has unique demands of their law enforcement. Some agencies require support for overtime to conduct ICAC investigations, while others need advanced equipment and training. As such, this funding was distributed across the region directly to NOVA-DC ICAC affiliate agencies via memorandums of agreement. Affiliated agencies expended the funding on their unique ICAC related expenses, which included training, community outreach, equipment, overtime, and salaries. The agencies worked with task force command to identify and prioritize their needs, which enabled each agency to build capacity within their specific area of responsibility. The positive feedback from the ICAC affiliates has been extraordinary and agencies are more prepared to engage in these highly complex investigations. In addition to the areas identified earlier in the report, some additional training and community outreach efforts, although the pandemic resulted in many converting to virtual events, include the following:

- Several investigators attended National White Collar Crime Center (NW3C) trainings
- Personnel attended National Center for Missing and Exploited Children (NCMEC) training
- Many affiliate members participated in a variety of mobile device certification classes
- Numerous task force personnel participated in many unique ICAC specific training courses designed to enhance their investigative capacity
- Task Force personnel conducted 236 presentations and other community outreach events attended by approximately 2,692 persons

Disbursement of Funds

Budget Category	Budget	Total Expenditures	Unexpended Budget
Support Staff	\$55,781	\$55,781	0
Consultants	\$548,429	\$499,696	\$48,733
Grand Totals	\$604,210	\$555,477	\$48,733

Consultants – This category reflects funding provided directly to local affiliate agencies for capacity building. Many affiliates have as in the past utilized their funding to send investigators to the Department of Justice Law Enforcement Training Conference in Atlanta and The Dallas Crimes Against Children Conference.

Support Staff – This category reflects funding provided for the necessary support staff personnel as described in the funding narrative and budget.

To further enhance capacity, NOVA-DC ICAC Task Force affiliates utilized their funding to procure highly technical equipment that enables investigators to conduct these complex investigations in an ever evolving cyber environment. Additionally, the task force thrives on collaboration to enhance effectiveness and efficiency. Affiliates support one another through mobile on-scene response, technical assistance, search warrant execution, and intelligence sharing to enhance awareness and their knowledge base. Further, the funding provides some relief to agencies struggling with limited budgets, and it prevents them from being forced to choose whether or not to investigate these unconscionable crimes.

Affiliate agencies utilized their funding to address their individual needs in a variety of ways to include:

- Purchasing computers, tablets, printers, scanners, and related accessories
- Off-setting salaries to dedicate a full-time investigator to combating child exploitation
- Paying overtime for investigators to complete these complex investigations
- Purchasing software and license renewals
- Off-setting vehicle costs for full-time task force investigators
- Paying travel expenses and registration fees for high quality specialized training
- Procuring specialized equipment to enhance officer safety
- Purchasing enhanced communication devices
- Purchasing on-scene triage equipment and software
- Procuring digital cameras and video equipment
- Purchasing digital storage devices and additional portable hard drives to support investigations

Each agency is staffed and equipped differently, which validates the methodology employed by the NOVA-DC ICAC Task Force. With funding being distributed to the affiliates, they are empowered to make decisions that directly impact their ability to engage in these complex investigations. A number of our valued affiliates traditionally use this allocated fund to pay travel and training expenses for their investigators, however Covid-19 pandemic restrictions cancelled or converted to virtual training events which had been budgeted to expend allocated funds. This contributed to the unexpended amount in the budget summary.

All of these agencies work very closely with the task force to ensure that all expenditures are consistent with the goals and objectives of the state and national ICAC Program. The NOVA-DC ICAC affiliates are highly professional organizations dedicated to protecting the Commonwealth's most vulnerable citizens.

As the coordinating agency, the Virginia State Police respects and appreciates the collaboration of the 67 participating agencies. Collectively, we are proactive in our pursuit of those who prey upon our children, while simultaneously striving to prevent child victimization through collaboration, training, community outreach, and enforcement.
