Lt. Colonel Kirk S. Marlowe
Deputy Superintendent

October 1, 2022

TO: The Honorable Glenn A. Youngkin
Governor of the Commonwealth of Virginia

The Commonwealth of Virginia General Assembly

Pursuant to §19.2-388(E) of the Code of Virginia, I am respectfully submitting herewith a report concerning the Department's progress on the status of unapplied criminal history information.

Respectfully,

A handwritten signature in cursive script that reads "Gary T. Settle".

Superintendent

GTS/JRG

Enclosure

Preface

In 2019, the General Assembly amended §19.2-388 of the Code of Virginia to require the Department of State Police (Department) to provide a report by November 1 of each year to the Governor and the General Assembly “on the status of unapplied criminal history information and any updates to fingerprinting policies and procedures.” As directed under this provision, the Department’s Criminal Justice Information Services Division (CJIS), Central Criminal Records Exchange (CCRE), has reviewed its current efforts to achieve better reporting of criminal history information. The current processes and projects associated with criminal history reporting are described in this report.

Executive Summary

The Department, through the CCRE, receives and processes criminal court disposition information weekly. This information is transferred electronically through secure file transfers from the Supreme Court of Virginia, Fairfax County Circuit Court, and Alexandria Circuit Court.¹ Once received, this information is validated to identify errors or omissions that require human intervention to resolve before applying dispositions to criminal history records. Disposition information that is free from errors and contains a corresponding fingerprint-based arrest booking on the criminal history record automatically applies to the criminal history records. Dispositions that do not have a related fingerprint-based arrest booking on the criminal history record are stored in the Computerized Criminal History (CCH) hold file until the matching fingerprint-based arrest booking is received and applied to the criminal history record.

Pursuant to Chapter 783 of the 2019 Acts of the Assembly, the Department has undertaken efforts to increase the reporting of criminal history information to the CCRE and to improve the quality of the data received. Examples contained in this report include notifications to criminal justice agencies related to unapplied criminal history information, ongoing outreach efforts with the courts to improve disposition data quality submitted to the CCRE, internal progress on resolving unapplied criminal history information, and continued CCH system functionality development. This report will outline the strategies that are currently underway in an effort to resolve unapplied criminal history information.

Background

As previously mentioned, the Department receives criminal court disposition data weekly through a secure electronic file transfer. Once the information is received, a validation process takes place to ensure the criminal court disposition data elements are present and free of exceptions. Disposition information that contains exceptions are moved to a disposition work queue for review, research, and correction by CCRE staff before being applied to the criminal history record. Criminal court dispositions that do not contain exceptions and have corresponding fingerprint-based arrest booking information on the criminal history record apply automatically to the record. If a disposition does not

¹ See § 19.2-390 Code of Virginia.

have a corresponding fingerprint-based arrest booking on a criminal history record, the disposition remains in the CCH hold file until the fingerprint-based arrest booking is received and applied to the criminal history record.² From the inception of the criminal history system to July 1, 2021, the CCRE has received both mandatory and non-mandatory disposition information.³ Over time, this information has been collected in the CCH hold file awaiting the corresponding fingerprint-based arrest booking information for application to the criminal history record.

Status of Unapplied Criminal History Information

As part of this report, the Department must provide information on the status of dispositions in the disposition hold file. This status includes the total number of unapplied dispositions by year of the offense, the year the charge was filed, the number of dispositions submitted to the CCRE without fingerprints or positive identification, including the identity of the submitting law enforcement agency, and the number of offenses submitted to the CCRE with inconsistencies, errors, or omitted information, and the submitting jurisdiction. Currently, the total number of unapplied dispositions is 834,584. The involved offenses with unapplied dispositions due to errors or omissions occurred between 1981 and 2022, with arrest dates ranging from 1986 to 2022. A detailed breakdown of these numbers is listed in Appendix 1. This data is based on disposition information that was transmitted to the CCRE from the courts through August 24, 2022.

Also provided in this report is the number of dispositions submitted to the CCRE without fingerprints or other positive identification. This information was generated from criminal court disposition information received by the CCRE without a corresponding offense located on the criminal history record. Of the 834,584 total unapplied dispositions, 829,378 are attributable to missing fingerprints. This information is tabulated in Appendix 2. The remaining 5,206 offenses were submitted to the CCRE with inconsistencies, errors or omitted information. Appendix 3 tabulates this data by submitting jurisdiction and status.

In late 2021, the Department's Information Technology Division, in collaboration with the CCRE, performed maintenance on disposition data that existed in the CCH Legacy system. This maintenance included reprocessing and updating disposition statuses of disposition data that was migrated for the former CCH legacy system. By reprocessing this disposition data, a significant amount of dispositions no longer qualified to be reported as unapplied criminal history due to the correct identifying disposition status being assigned. By making these changes, the Department now has the capability to report more accurate information in regards to unapplied dispositions. In addition, a purge of CCH hold file data that contained non-mandatory offenses and their corresponding dispositions was performed in July of 2021. These factors, along with continued conversations with the Supreme Court of Virginia, Office of the Executive

² Virginia criminal history record information is fingerprint-based to ensure accurate identification of the correct criminal history record. See § 19.2-390, Code of Virginia.

³ As of July 1, 2021 non-mandatory offense and corresponding disposition information was removed from the CCH hold file.

Secretary (OES) and court representatives, to improve the quality of data transmitted to the Department, have greatly reduced the amount of unapplied criminal history information reported.

Local Community Corrections Reporting

§ 9.1-176.1(A)(12) of the Code of Virginia, requires probation officers to review the offender's criminal history record at least 60 days before an offender is released from local community corrections supervision to verify that the offense for which the offender is being supervised appears on the criminal record, if such offense is required to be reported to the CCRE. If the offense does not appear on the criminal record, the probation officer is required to have the offender fingerprinted and photographed for each offense that is not reflected in the criminal history. The probation officer is required to make electronic or written notification to the CCRE of the offense that does not appear on the criminal record. In the same fashion, § 19.2-305.1(F)(7)(8) of the Code of Virginia, requires probation officers to submit conviction data to the CCRE when the conviction is not reported on the criminal history.

Probation officers notify the CCRE by completing a form that is provided by the Department. In 2019, the Department completed modifications to the CCH system to allow this data to be consumed and identified as "Delayed Booking" information. Once the Delayed Booking and corresponding offense information is posted in the CCH system, the information is displayed on the Virginia criminal history as a Delayed Booking entry along with a caveat indicating that the information was received in compliance with § 9.1-176.1(A)(12), § 53.1-145(13)(14), § 19.2-305.1 (F)(7)(8), or § 53.1-23(B) of the Code of Virginia.

To facilitate reporting, the Department developed the Notification of Missing Booking Information form (SP-331) for reporting. The offense, court case number, offense tracking number, probationer demographics and probation officer information are compiled and reported using this form. In addition, the agency responsible for obtaining the missing booking fingerprints is indicated on the form. Once the fingerprint-based arrest booking information has been acquired it is forwarded to the CCRE along with the completed SP-331 for processing. The fingerprints are then routed to the Biometric Records Section (BRS) where they are researched, classified and compared and a State Identification Number is determined. Once the SID, which identifies a corresponding criminal history record, is specified, the delayed booking information and the associated offense(s) are posted to the criminal history record. Once the associated offense(s) have been applied, personnel in the CCH Hold File Special Processing and Analytical Support Section (SPASS) research corresponding criminal court dispositions that are located in the disposition hold file and apply them to the criminal history record. Through this process the SPASS personnel have applied 160 offenses and dispositions to Virginia's criminal history records.⁴

⁴ The number of applied offenses reported have been manually applied by SPASS analysts. SP-331 forms that are received may contain offenses that were found to have already been applied to the criminal history.

Department of Corrections & State Probation

Under § 53.1-23(B) of the Code of Virginia, the Virginia Department of Corrections (DOC) shall review an offender's criminal history 60 days before release from custody to ensure that the offense information for which the offender is in custody is reflected on the criminal history. If the offense is not on the criminal history, the offender is to be fingerprinted and photographed for the missing offense. The missing information shall then be forwarded to the CCRE, through either electronic or written means.

In addition to this requirement, under § 53.1-145(13)(14) of the Code of Virginia, the same missing offense notifications are to be made to the CCRE by probation officers when the offender is under the supervision of DOC Probation and Parole. Through the use of an electronic form, the DOC provides the Department with a notification of missing fingerprint-based arrest booking information. Once received, CCRE staff research the information provided on this form for linkage to the DOC correctional booking information or probation booking information. This process includes an attempt by SPASS staff members to connect missing fingerprint information to offense information that has been submitted previously with correctional or probation booking information. In many cases, it can be a challenge to match an arrest record using correctional and probation information received, as the booking information does not always state the charge for the correctional or probation information that was submitted.

After regular consultations with the DOC, the Department identified a better way to link missing fingerprint-based arrest booking information to criminal history records when the record contains a correctional booking without a literal description. Once an inmate or probationer is fingerprinted for a correctional booking, the BRS identifies the corresponding SID number, based on the fingerprints, and applies the correctional booking information to the criminal record. Through this process, the verified SID number is electronically returned to the DOC by the BRS. The DOC includes verified SID numbers within the Virginia Correctional Information System (CORIS) to link inmates or probationers with their corresponding criminal history record. These corresponding SID numbers from CORIS are listed on the electronic notification of missing booking information forms received from the DOC.

Using the aforementioned process, SPASS staff have been able to identify offenses as "Delayed Booking" and apply them to the criminal history along with the corresponding disposition. By using the SID provided by the DOC as a unique identifier, the criminal history can be updated with missing fingerprint-based arrest booking information when a correctional booking entry exists on the record. Once the arrest booking and corresponding offense information is posted in the CCH system, the information is displayed on the Virginia criminal history as a Delayed Booking entry along with a caveat indicating that the information was received in compliance with § 9.1-176.1(A)(12), § 53.1-145(13)(14), § 19.2-305.1(F)(7)(8), or § 53.1-23(B) of the Code of Virginia.

This process has been especially helpful in situations where the missing fingerprint-based arrest booking information is for probation violations. Prior to 2019, the reporting of probation violations by booking agencies was inconsistent. By using the Transaction Control Number (TCN) from the existing correctional booking entry, SPASS staff have the capability of updating records where the missing fingerprint-based arrest booking information is a probation violation as Delayed Booking and adding the corresponding disposition information. Through this process, SPASS staff members have entered 1,686 Delayed Booking offenses and applied the corresponding dispositions to criminal history records.

CCRE Reporting

§ 19.2-388(C) of the Code of Virginia requires the Department to provide quarterly reports to the Office of the Executive Secretary of the Supreme Court of Virginia (OES), the clerk of each circuit, district and juvenile court, as well as Attorneys for the Commonwealth. Contained within each report is a list of unapplied criminal history record information that is relevant to each jurisdiction. Reports to the OES include offenses within the Commonwealth identified by jurisdiction and by the court. In addition, the Department is required to send out monthly reports to law-enforcement agencies listing unapplied criminal history record information that is relevant to their agency.

The SPASS staff continues to generate quarterly Unapplied Criminal History Report letters and mail them to the responsible agencies. Between July 1, 2021 and June 30, 2022 the SPASS staff generated and mailed 4 report letters to the OES. In addition, SPASS and CCRE staff generated and mailed Unapplied Criminal History Report letters quarterly to the courts and Attorneys for the Commonwealth, as well as monthly letters to all law enforcement agencies. 3,217 letters were mailed to these agencies between July 1, 2021 and June 30, 2022. Responses from criminal justice agencies to the Unapplied Criminal History Report letters resulted in SPASS analysts correcting and/or applying 5,950 records to the criminal history. 16% of the records requested, via the aforementioned letters, were able to be included on the criminal history record during this evaluation period, which is an improvement from the previous year that was 13%.

The SPASS continues to receive responses daily and works diligently to update criminal records in a timely manner. The team regularly evaluates their process for risks and collaborates often to identify new methods that will promote continuous improvement in the ability to reduce the amount of unapplied criminal history information in the CCH system.

CCRE Orphan Disposition File

In 2021, the Department, along with the Virginia Criminal Information Network (VCIN) vendor Computer Projects of Illinois (CPI), continued testing the functionality of the Orphan Disposition File (ODF). The ODF, which is housed within a hot file⁵, contains

⁵ A hot file is a database that can be queried through the VCIN system.

disposition information that was received by the CCRE that has not been applied to a criminal history record. Information in this file contains dispositions that do not have corresponding fingerprint-based arrest booking information on the criminal history record. In addition, disposition information included in the ODF that is a disqualifier for the purchase of a firearm is electronically reported to the Federal Bureau of Investigation and the National Instant Criminal Background Check System (NICS) for inclusion in the NICS Indices of persons ineligible to purchase or possess firearms.⁶ This process will ensure that firearm purchase disqualification information is made accessible for background checks for firearms purchases nationwide.

During this reporting period, the Department and CPI concluded both quality assurance and user acceptance testing within their test environments. On December 9, 2021 the ODF was implemented into production. The Department and CPI maintained ongoing communication to identify and resolve any issues that presented after the release. This support continued through early April 2022.

The Department continues to monitor the ODF and make adjustments as required to ensure the data is reported accurately and in a timely manner. The ODF is updated daily, and any additions or removals of dispositions are completed at that time. These updates include the removal of any dispositions that were resolved by SPASS and CCRE personnel and applied to the criminal history record as well as dispositions that were automatically applied as a result of the receipt of the fingerprint-based arrest booking information on the criminal history record. As of July 13, 2022, the ODF contained 366,687 active dispositions. Of those dispositions, 130,841 have been reported to NICS to be included in the NICS Indices.

Additional Measures to Improve Criminal History Reporting

The Department continues to employ two contractors to research and apply unapplied court dispositions. These contractors are supported by grant funding through the United States Department of Justice. The contracted staff researches dispositions received from incoming mail, the expungement section, the Civil and Applicant Records Exchange (CARE) and the Sex Offender Registry (SOR). In this process, the disposition hold file is checked for corresponding unapplied dispositions. Dispositions found to have errors are resolved and applied to the criminal history. The contractors assigned to this project have applied 15,739 criminal court dispositions to criminal history records between January 1, 2019 and June 30, 2022.

Dispositions in the CCH Hold File that contain errors or are missing information are reviewed daily by CCRE Staff. Every effort is made to resolve issues and apply the dispositions to the criminal history record. Between January 1, 2019 and June 30, 2022 CCRE staff reviewed 97,136 dispositions that were transmitted with errors or were missing fingerprint-based arrest bookings. Of those dispositions, 40,684 were applied to the criminal history record by CCRE staff. 12,585 were marked as already on a criminal

⁶ Based on dissemination requirements under § 19.2-389.3(A) of the Code of Virginia, sealed criminal history information is not reported to NICS.

history record, as well as 1,592 that were given a status of never apply⁷. 42,275 records were identified as reviewed but unable to be applied due to the absence of corresponding fingerprint-based arrest booking information.

In addition, the CCRE staff has continued to make a dedicated effort to resolve disposition errors with felony convictions, as well as a focus on misdemeanor convictions. During these efforts, two-member teams were assigned to solely target felony guilty dispositions and misdemeanor guilty dispositions that contained errors. Between August 15, 2020 and June 30, 2022 6,661 dispositions with felony convictions were resolved. The focus on misdemeanor convictions provided resolution to 11,889 offenses that were contained in the CCH Hold File. Moreover, the Department also continues to approve overtime hours for the CCRE staff responsible for conducting this review. CCRE staff has worked 5,348 hours of overtime from the beginning of the assignment in October of 2018 through June 30, 2022. During these allotted hours, approximately 210,745 dispositions were processed.

The SPASS continues to process responses from requests for missing fingerprint-based booking information, which includes applying criminal court dispositions to the criminal history record once the missing fingerprint-based arrest booking and offense information is received, maintaining and/or processing delayed booking information and serving as a point of contact for agencies needing assistance with requests for fingerprint-based arrest booking and offense information. With the implementation of the Orphan Disposition File in December 2021, the SPASS analysts have observed an increase in the volume of inquiries regarding unapplied criminal history information. The SPASS analysts, using the increased inquiries from agencies as a resource, are currently compiling a list of frequently asked questions and tips to aid agencies in resolving unapplied criminal history errors that are reported on the quarterly and monthly Unapplied Criminal History Reports. In addition, the SPASS analysts continue to identify areas within current resolution processes that can be improved to create a more accurate and efficient manner of updating criminal history records.

In August 2021, the Department published a Request for Information (RFI) for the implementation of a new CCH system to be known as the Criminal History and Rap Back Information System (CRIS). This RFI document allowed vendors to review our mid-level requirements, pose questions as needed, and submit system development proposals. The CRIS project will provide a state-of-the-art criminal history repository, as well as integrated Rap Back, civil commitment order and civil background check capabilities.⁸

In October 2021, a team consisting of Department leadership, subject matter experts and CJIS Division stakeholders reviewed proposed solutions and fielded additional questions from prospective vendors in reference to the aforementioned business requirements. In addition, the vendors were given the opportunity to provide a

⁷ Dispositions that do not meet criteria for reporting which includes but is not limited to non-reportable offenses.

⁸ Rap Back provides a notification to subscribers when an employee has criminal information applied to their criminal history record or when a criminal history record is established. This is a fee based criminal history monitoring system.

demonstration of their proposed solution to the CRIS team. In early 2022, the Department began negotiations with the selected vendor. Communications continued throughout the first half of 2022 where more detailed business requirements were identified and a Statement of Work (SOW) was developed. On July 5, 2022, the Department successfully executed a contract with the vendor to develop and implement the new CRIS system.

In addition to a state-of-the-art criminal history repository, the CRIS will provide a great deal of value in reducing unapplied criminal history information. The CRIS will provide the courts the ability to view disposition information transmitted to the Department that contains errors or does not have a corresponding fingerprint-based arrest booking on the criminal history record. Through this interface with the courts, clerks will be able to make corrections to the disposition information and resubmit the disposition to the Department for re-evaluation and electronic application to the criminal history record. This will replace the current method of mailing corrections to the Department on a hard copy disposition reporting form, which requires the CCRE staff to make modifications to the criminal history record manually.

CRIS will also provide an interface with booking agencies, allowing fingerprint-based arrest booking information received by the Department to be viewed, corrected and resubmitted. Booking agencies will also have access to view missing fingerprint-based booking information when disposition information that cannot be applied to the criminal history record is identified. This expedited manner of reporting discrepancies will allow booking agencies to take the appropriate measures to obtain a fingerprint-based arrest booking for the missing offense and submit the information to the CCRE to be included in the criminal history record. The CRIS project kickoff took place in August 2022 with a series of system demonstrations and workshops with the vendor and the CRIS team.

In late 2020, the Department began working with the OES to improve the quality of data that is electronically transmitted to the CCRE for inclusion on the criminal history record. As a part of this project, the CCH team developed reports that included data exception examples for the OES to analyze and return their findings. In 2021, the CCH team and CJIS Division Stakeholders held a series of meetings with the OES to review the findings and discuss recommendations for future corrective actions. As a result of these meetings, the OES, CCH team, and CJIS Division stakeholders identified three main areas of focus. From these areas of focus, three small teams were created to discuss, research and develop strategies for disposition data quality improvements. Each small team is comprised of 5 to 7 individuals who are subject matter experts from the OES, the CCH team, and the CCRE. The small teams began meeting in June of 2022 with updates provided to the entire group on a monthly basis. It is anticipated that these small team meetings, along with a continued partnership with the OES will help to improve the quality of court data received electronically, therefore reducing the need for manual intervention and resolution of exceptions.

On May 6, 2022, the Department and the Automated Fingerprint Identification System (AFIS) vendor, NEC America, Inc., successfully executed a contract to replace

the current AFIS system. AFIS is a mission critical system comprised of numerous software and hardware components and includes a security infrastructure that complies with Federal Bureau of Investigation and the Department requirements. Given the complexity of the AFIS and the need to be operational 24 hours a day, 7 days a week, upgrading the Department's traditional on-site computing architecture could prove to be difficult and costly. The new AFIS Cloud Solution, the Multi-modal Biometric Identification System (MBIS), will remove on-site server dependencies by migrating to a Cloud environment, allowing agencies remote connectivity. This remote connectivity will allow quicker responses from MBIS, as well as access to automatic updates. The AFIS Cloud Project will improve functionality such as fingerprint matching capabilities, aid in reducing server failures, and provide continuous application updates. The new MBIS is projected to be operational in the second quarter of 2023.

Conclusion

Continued efforts are made to keep an open dialog with key stakeholders in exploring ways to improve the reporting of criminal history information. The CCRE staff continues to provide dedicated research and analysis efforts to resolve disposition information received with court and arrest booking errors, and to apply this information to criminal history records. As illustrated in the initiatives listed in this document, the Department continues to make progress in resolving unapplied criminal history information. Furthermore, new technology, as well as a continued effort to target the quality of data transmitted to the CCRE, will improve the Department's ability to provide timely and accurate criminal history record information to criminal justice and non-criminal justice agencies throughout the Commonwealth and at the national level.

Appendices

1. Number of offenses that contain unapplied criminal history information due to errors or omissions by year of offense and year of arrest.
2. Number of offenses without fingerprints or positive identification and the submitting law enforcement agencies.
3. Number of offenses with errors or omissions and the submitting jurisdiction.

Appendix #1

CCH system disposition hold file number of offenses that contain corresponding unapplied criminal history information by year of offense and year of arrest. The information below is based on what was transmitted to the CCRE from the courts, which includes omitted or irregular year of offense or year of arrest that was provided by the court.
