Lt. Colonel Kirk S. Marlowe  
Deputy Superintendent

September 29, 2023

TO: The Honorable Glenn A. Youngkin  
Governor of the Commonwealth of Virginia

The Commonwealth of Virginia General Assembly

Pursuant to §19.2-388(E) of the Code of Virginia, I am respectfully submitting herewith a report concerning the Department's progress on the status of unapplied criminal history information.

Respectfully,

A handwritten signature in cursive script that reads "Gary T. Settle".

Superintendent

GTS/JRG

Enclosure

## **Preface**

In 2019, the General Assembly amended §19.2-388 of the Code of Virginia to require the Department of State Police (Department) to provide a report by November 1 of each year to the Governor and the General Assembly “on the status of unapplied criminal history information and any updates to fingerprinting policies and procedures.” As directed under this provision, the Department’s Criminal Justice Information Services Division (CJIS), Central Criminal Records Exchange (CCRE), has reviewed its current efforts to achieve better reporting of criminal history information. The current processes and projects associated with criminal history reporting are described in this report.

## **Executive Summary**

The Department, through the CCRE, receives and processes criminal court disposition information weekly. This information is transferred electronically through secure file transfers from the Supreme Court of Virginia, Fairfax County Circuit Court, and Alexandria Circuit Court.<sup>1</sup> Once received, this information is validated to identify errors or omissions that require human intervention to resolve before applying dispositions to criminal history records. Disposition information that is free from errors and contains a corresponding fingerprint-based arrest booking on the criminal history record automatically applies to the criminal history records. Dispositions that do not have a related fingerprint-based arrest booking on the criminal history record are stored in the Computerized Criminal History (CCH) hold file until the matching fingerprint-based arrest booking is received and applied to the criminal history record.

Pursuant to Chapter 783 of the 2019 Acts of the Assembly, the Department has undertaken efforts to increase the reporting of criminal history information to the CCRE and to improve the quality of the data received. Examples contained in this report include notifications to criminal justice agencies related to unapplied criminal history information, ongoing outreach efforts with the courts to improve disposition data quality submitted to the CCRE, internal progress on resolving unapplied criminal history information, and continued CCH system functionality development. This report will outline the strategies that are currently underway in an effort to resolve unapplied criminal history information.

## **Background**

As previously mentioned, the Department receives criminal court disposition data weekly through a secure electronic file transfer. Once the information is received a validation process takes place to ensure the criminal court disposition data elements are present and free of exceptions. Disposition information that contains exceptions are moved to a disposition work queue for review, research, and correction by CCRE staff before being applied to the criminal history record. Criminal court dispositions that do not contain exceptions and have corresponding fingerprint-based arrest booking information on the criminal history record apply automatically to the record. If a disposition does not have a corresponding fingerprint-based arrest booking on a criminal history record, the disposition remains in the CCH hold file until the fingerprint-based arrest booking is

---

<sup>1</sup> See § 19.2-390 Code of Virginia.

received and applied to the criminal history record.<sup>2</sup> Since the inception of the criminal history system to July 1, 2021, the CCRE has received both mandatory and non-mandatory disposition information.<sup>3</sup> Over time, this information has been collected in the CCH hold file awaiting the corresponding fingerprint-based arrest booking information for application to the criminal history record.

### **Status of Unapplied Criminal History Information**

As part of this report, the Department must provide information on the status of dispositions in the disposition hold file. This status includes the total number of unapplied dispositions by year of the offense, the year the charge was filed, the number of dispositions submitted to the CCRE without fingerprints or positive identification, including the identity of the submitting law enforcement agency, and the number of offenses submitted to the CCRE with inconsistencies, errors, or omitted information, and the submitting jurisdiction. Currently, the total number of unapplied dispositions is 870,002. The involved offenses with unapplied dispositions due to errors or omissions occurred between 1981 and 2023, with arrest dates ranging from 1986 to 2023. A detailed breakdown of these numbers is listed in Appendix 1. This data is based on disposition information that was transmitted to the CCRE from the courts through August 29, 2023.

Additionally, this report provides criminal court disposition information received by the CCRE without a corresponding offense located on the criminal history record. Of the 870,002 total unapplied dispositions, 863,632 are attributable to missing fingerprint arrest booking information. This information is tabulated in Appendix 2. The remaining 6,370 offenses were submitted to the CCRE with omitted information, errors, or inconsistencies. Appendix 3 tabulates this data by submitting jurisdiction and status.

### **Local Community Corrections Reporting**

§ 9.1-176.1(A)(12) of the Code of Virginia, requires probation officers to review the offender's criminal history record at least 60 days before an offender is released from local community corrections supervision to verify that the offense for which the offender is being supervised appears on the criminal record, if such offense is required to be reported to the CCRE. If the offense does not appear on the criminal record, the probation officer is required to have the offender fingerprinted and photographed for each offense that is not reflected in the criminal history. The probation officer is required to make electronic or written notification to the CCRE of the offense that does not appear on the criminal record. In the same fashion, § 19.2-305.1(F)(7)(8) of the Code of Virginia, requires probation officers to submit conviction data to the CCRE when the conviction is not reported on the criminal history.

Probation officers notify the CCRE by completing a form that is provided by the Department. In 2019, the Department completed modifications to the CCH system to allow this data to be consumed and identified as "Delayed Booking" information. Once

---

<sup>2</sup> Virginia criminal history record information is fingerprint-based to ensure accurate identification of the correct criminal history record. See § 19.2-390, Code of Virginia.

<sup>3</sup> As of July 1, 2021, non-mandatory offense and corresponding disposition information was removed from the CCH hold file.

the Delayed Booking and corresponding offense information is posted in the CCH system, the information is displayed on the Virginia criminal history as a Delayed Booking entry along with a caveat indicating that the information was received in compliance with § 9.1-176.1(A)(12), § 53.1-145(13)(14), § 19.2-305.1 (F)(7)(8), or § 53.1-23(B) of the Code of Virginia.

To facilitate reporting, the Department developed the Notification of Missing Booking Information form (SP-331) for reporting. The offense, court case number, offense tracking number, probationer demographics, and probation officer information are compiled and reported using this form. In addition, the agency responsible for obtaining the missing booking fingerprints is indicated on the form. Once the fingerprint-based arrest booking information has been acquired it is forwarded to the CCRE along with the completed SP-331 for processing. The fingerprints are then routed to the Biometric Records Section (BRS) where they are researched, classified, and compared, and a State Identification Number (SID) is determined. Once the SID, which identifies a corresponding criminal history record, is specified, the delayed booking information and the associated offense(s) are posted to the criminal history record. Once the associated offense(s) have been applied, personnel in the CCH Hold File Special Processing and Analytical Support Section (SPASS) research corresponding criminal court dispositions that are located in the disposition hold file and apply them to the criminal history record. Through this process the SPASS personnel have applied 185 offenses and dispositions to Virginia's criminal history records.<sup>4</sup>

### **Department of Corrections & State Probation**

Under § 53.1-23(B) of the Code of Virginia, the Virginia Department of Corrections (DOC) shall review an offender's criminal history 60 days before release from custody to ensure that the offense information for which the offender is in custody is reflected on the criminal history. If the offense is not on the criminal history, the offender is to be fingerprinted and photographed for the missing offense. The missing information shall then be forwarded to the CCRE, through either electronic or written means.

In addition to this requirement, under § 53.1-145(13)(14) of the Code of Virginia, the same missing offense notifications are to be made to the CCRE by probation officers when the offender is under the supervision of DOC Probation and Parole. Through the use of an electronic form, the DOC provides the Department with a notification of missing fingerprint-based arrest booking information. Once received, CCRE staff research the information provided on this form for linkage to the DOC correctional booking information or probation booking information. This process includes an attempt by SPASS staff members to connect missing fingerprint information to offense information that has been submitted previously with correctional or probation booking information. In many cases, it can be a challenge to match an arrest record using correctional and probation information received, as the booking information does not always state the charge for the correctional or probation information that was submitted.

---

<sup>4</sup> The number of applied offenses reported have been manually applied by SPASS analysts. SP-331 forms that are received may contain offenses that were found to have already been applied to the criminal history.

After regular consultations with the DOC, the Department identified a better way to link missing fingerprint-based arrest booking information to criminal history records when the record contains a correctional booking without a literal description. Once an inmate or probationer is fingerprinted for a correctional booking, the BRS identifies the corresponding SID number, based on the fingerprints, and applies the correctional booking information to the criminal record. Through this process, the verified SID number is electronically returned to the DOC by the BRS. The DOC includes verified SID numbers within the Virginia Correctional Information System (CORIS) to link inmates or probationers with their corresponding criminal history record. These corresponding SID numbers from CORIS are listed on the electronic notification of missing booking information forms received from the DOC.

Using the aforementioned process, SPASS staff have been able to identify offenses as “Delayed Booking” and apply them to the criminal history along with the corresponding disposition. By using the SID provided by the DOC as a unique identifier, the criminal history can be updated with missing fingerprint-based arrest booking information when a correctional booking entry exists on the record. Once the arrest booking and corresponding offense information is posted in the CCH system, the information is displayed on the Virginia criminal history as a Delayed Booking entry along with a caveat indicating that the information was received in compliance with § 9.1-176.1(A)(12), § 53.1-145(13)(14), § 19.2-305.1(F)(7)(8), or § 53.1-23(B) of the Code of Virginia.

This process has been especially helpful in situations where the missing fingerprint-based arrest booking information is for probation violations. Prior to 2019, the reporting of probation violations by booking agencies was inconsistent. Once a corresponding correctional entry has been identified, the record can be updated by using the Transaction Control Number (TCN) to apply the missing fingerprint-based arrest booking information and corresponding disposition to the criminal history record as a “Delayed Booking.” Through this process, SPASS staff members have applied 2,025 offenses and dispositions to criminal history records.

The SPASS team, to promote continuous improvement and provide accurate criminal history data, is currently monitoring the quality of information that is received in the notifications of missing arrest forms. Between January 1, 2023, and August 28, 2023, the SPASS staff has found that 40% of the offenses received from the DOC via the electronic form have been unable to be resolved due to missing or duplicate information. These errors increase the processing time for the SPASS team to accurately update a criminal history. It is the intention of the team to identify incomplete, unnecessary, or poor-quality information and develop a strategy to increase the ability to resolve unapplied criminal history data in a timely manner.

### **CCRE Reporting**

§ 19.2-388(C) of the Code of Virginia requires the Department to provide quarterly reports to the Office of the Executive Secretary of the Supreme Court of Virginia (OES), the clerk of each circuit, general district, and juvenile court, as well as Attorneys for the Commonwealth. Contained within each report is a list of unapplied criminal history record

information that is relevant to each jurisdiction. Reports to the OES include offenses within the Commonwealth identified by jurisdiction and by the court. In addition, the Department is required to send out monthly reports to law-enforcement agencies listing unapplied criminal history record information that is relevant to their agency.

The SPASS staff continues to generate quarterly Unapplied Criminal History Report letters and mail them to the responsible courts and Commonwealth's Attorneys offices. In addition, Unapplied Criminal History Report letters are generated and mailed monthly to all law enforcement agencies. Between July 1, 2022, and June 30, 2023, 1,736 letters were mailed to the responsible agencies. During the third quarter of 2022, the SPASS supervisor began communications to determine a more efficient method to deliver the quarterly Unapplied Criminal History Report to the OES. In December of 2022, the SPASS staff began delivery of the report using a secure file delivery server. Between July 1, 2022, and June 30, 2023, the team generated and delivered 4 reports. One (1) report was mailed, and three (3) reports were transmitted via the secure file delivery service. As a result of responses from criminal justice agencies to the letters, SPASS analysts were able to correct and/or apply 3,356 records to the criminal history. During this evaluation period, 19% of the records requested were able to be included on the criminal history record, which is a 3% improvement from the previous year and a 6% improvement overall.

The SPASS continues to receive responses daily and works diligently to update criminal records in a timely manner. As a part of the team's regular evaluation of their process, they have identified some new methods and/or tools that will improve the quality of data received from the criminal justice agencies in response to the letters. The SPASS team collaborated to develop an insert, "Best Practices for the Resolution of the Unapplied Criminal History Report," to be included with the report letters when generated. This insert will give criminal justice agencies guidance in responding with better quality information that will enable analysts to resolve more errors and accurately update criminal history records. The new insert is expected to be deployed in the fourth quarter of 2023. In addition, the SPASS has improved avenues of communication with criminal justice agencies that have questions or concerns by implementing the use of an Unapplied Criminal History Questions email address. Analysts are now able to communicate more efficiently with these agencies as well as with other in-house customers and provide visual guidance if required.

### **CCRE Orphan Disposition File**

On December 9, 2021, the Department, along with the Virginia Criminal Information Network (VCIN) vendor, Computer Projects of Illinois (CPI), released into production, the Orphan Disposition File (ODF). The ODF, which is housed within a hot file<sup>5</sup>, contains disposition information that was received by the CCRE that has not been applied to a criminal history record. Information in this file contains dispositions that do not have corresponding fingerprint-based arrest booking information on the criminal history record. In addition, disposition information included in the ODF that is a disqualifier for the purchase of a firearm is electronically reported to the Federal Bureau of Investigation and the National Instant Criminal Background Check System (NICS) for

---

<sup>5</sup> A hot file is a database that can be queried through the VCIN system.

inclusion in the NICS Indices of persons ineligible to purchase or possess firearms.<sup>6</sup> This process will ensure that firearm purchase disqualification information is made accessible for background checks for firearms purchases nationwide.

During this reporting period, the Department continued to monitor the ODF and adjust as required to ensure the data is reported accurately and in a timely manner. As of July 26, 2023, the ODF contained 380,936 active dispositions. Of those dispositions, 136,524 have been reported to NICS to be included in the NICS Indices. Any dispositions that were resolved by SPASS and CCRE personnel and applied to the criminal history record, as well as dispositions that were automatically applied after the receipt of the fingerprint-based arrest booking information on the criminal history record, were updated and removed from the ODF. In addition, the ODF is updated daily, and any additional dispositions to be added or removed are completed at that time.

### **Additional Measures to Improve Criminal History Reporting**

The Department continues to employ two contractors that are supported by grant funding through the United States Department of Justice. Dispositions received from incoming mail, the expungement section, the Civil and Applicant Records Exchange (CARE) and the Sex Offender Registry (SOR) are researched in the disposition hold file for corresponding unapplied dispositions that are found to have errors. The contracted staff then resolves and applies the information to an applicable criminal history record. From the beginning of this project, January 1, 2019, to June 30, 2023, the assigned contractors have applied 21,507 criminal court dispositions to criminal history records.

CCRE Staff reviews daily, any dispositions in the CCH Hold File that contain errors or are missing information. Through diligent research and continued communications with court and law enforcement agencies, every effort is made to resolve issues and apply the dispositions to the criminal history record. 131,462 dispositions that were transmitted with errors or were missing fingerprint-based arrest bookings were reviewed by CCRE staff between January 1, 2019, and June 30, 2023. Of those dispositions, 50,190 were applied to the criminal history record, 14,724 were marked as already on a criminal history record, 1,770 were given a status of never apply<sup>7</sup> and 48,668 records were identified as reviewed but unable to be applied due to the absence of corresponding fingerprint-based arrest booking information.

On July 5, 2022, the Department contracted with a vendor to develop and implement the Criminal and Rap Back Information System (CRIS). The new CRIS will provide a state-of-the-art criminal history repository as well as integrated Rap Back, civil commitment order, and civil background check capabilities.<sup>8</sup> In addition, the CRIS will provide the ability for the courts to review court disposition information in an electronic dashboard that has been submitted to the Department, make corrections if necessary,

---

<sup>6</sup> Based on dissemination requirements under § 19.2-389.3(A) of the Code of Virginia, sealed criminal history information is not reported to NICS.

<sup>7</sup> Dispositions that do not meet criteria for reporting which includes but is not limited to non-reportable offenses.

<sup>8</sup> Rap Back provides a notification to subscribers when an employee has criminal information applied to their criminal history record or when a criminal history record is established. This is a fee-based criminal history monitoring system.

and re-submit the corrected disposition information and update the criminal history record. Furthermore, the courts will have the ability to also view the dashboard disposition information that has not been applied to the criminal history record due to missing fingerprint-based arrest booking information. The court can then use this information to attempt to resolve the missing fingerprint-based arrest booking information.

In the same manner, the CRIS will have an electronic dashboard that will be accessible by booking agencies, that will identify unapplied criminal history information that has been submitted by the booking agency. The booking agency will be able to review the information and identify the reason why the data was not applied to the criminal history record. The booking agency will be able to correct the information that is in error and resubmit the fingerprint-based booking information to the Department. In addition, the booking agency will be able to view disposition information that is not applied to the criminal history record due to the booking agency not submitting the corresponding fingerprint-based booking information. By providing this information, it is anticipated that booking agencies will improve the data quality of fingerprint-based arrest booking information and missing fingerprint-based arrest booking information.

Currently, the CRIS project is progressing with business requirement refinements with the CRIS vendor. In addition, meetings have been held to identify and review required criminal history related reports and electronic interfaces between the CRIS and internal and external criminal justice programs. Each of the working meetings with the CRIS vendor has included all stakeholders that are involved with receiving and/or submitting data to the CRIS. Overall, it is anticipated that the new CRIS will aid in resolving unapplied criminal history information.

During this reporting period, the Department continued to work with the Supreme Court of Virginia, Office of the Executive Secretary (OES) to review and discuss court disposition data quality. The meetings consisted of three separate small teams that focused on disposition errors, deferred dispositions and continuances, and juvenile arrest and disposition matching. The groups worked toward developing recommendations on current and future changes that could be implemented to improve the quality of the disposition data that is submitted to the CCRE to be included on the criminal history record. In total, approximately 12 recommendations were developed and documented for current or future action. Examples of these recommendations range from providing on-site training to court personnel in order to align all parties with the processes needed to acquire better quality data, to implementing technical improvements to the interfaces and communication tools used by the Department and the courts.

The Department successfully executed a contract with NEC America, Inc., on May 6, 2022, to replace the current Automated Fingerprint Identification System (AFIS). The new Multi-modal Biometric Identification System (MBIS) will be a Cloud Solution that will remove on-site based server dependencies and will allow agencies to remotely connect to the system. This more versatile platform will allow for automatic system updates to take place in a timely manner, which will allow for continuous improved fingerprint matching capabilities over the life of the system. Currently, the Department is conducting on-site MBIS testing with the vendor. If the MBIS testing goes well and system defects are

resolved in the timely manner, it is anticipated that the new system will be deployed in October 2023.

On June 7, 2023, the Department released a Request for Proposal (RFP) to identify a livescan vendor to replace the current, over 15-years old, livescan software and hardware. Livescan software and hardware is used to electronically obtain fingerprint and identifying information and transmit the information to the Department for processing. Currently, there are approximately 800 livescan units located throughout the Commonwealth of Virginia. The new livescan solution will be a "best-in-class" and will provide many improvements. For example, the new livescans: (1) will support continuous improvement as business needs and technology needs change; (2) will be designed so that hardware and software problems can be fixed quickly to minimize downtime; (3) will be highly integrated with court, local agency, and VSP systems to reduce data entry and improve data accuracy.

The Department plans to deploy additional livescan units to law enforcement agencies and court locations within the Commonwealth. Furthermore, in consultation with the Supreme Court of Virginia, OES, the Department acquired federal grant funding from the Office of Justice Programs, NICS Act Record Improvement Program (NARIP) to purchase and install 30 live scan units. The livescan units will be installed in courts located throughout the Commonwealth of Virginia in an effort to obtain fingerprint-based arrest booking information when a criminal court case has been finalized. The criminal court live scan units will be especially useful in obtaining fingerprint-based arrest booking information when an individual has been arrested and released on a summons and the finalized criminal court case requires a fingerprint-based arrest booking to be submitted to the CCRE.

### **Conclusion**

As documented throughout this report, the Department continues to make strides in the resolution of issues that cause unapplied criminal history information, as well as the acquisition of fingerprint-based booking information. Furthermore, the Department continues to involve the primary stakeholders in discussions on identifying and implementing strategies to improve criminal history data quality and obtaining missing criminal history information. In addition, the Department has leveraged the use of technology to support the reduction of unapplied and missing criminal history information. The Department is committed to providing timely and accurate criminal history information for local, state and national consumers.

## **Appendices**

1. Number of offenses that contain unapplied criminal history information due to errors or omissions by year of offense and year of arrest.
2. Number of offenses without fingerprints or positive identification and the submitting law enforcement agencies.
3. Number of offenses with errors or omissions and the submitting jurisdiction.

Appendix #1

CCH system disposition hold file number of offenses that contain corresponding unapplied criminal history information by year of offense and year of arrest. The information below is based on what was transmitted to the CCRE from the courts, which includes omitted or irregular year of offense or year of arrest that was provided by the court.

<b>Year of Offense</b>	<b>Year of Arrest</b>	<b>Total</b>
