The Honorable Janet D. Howell, Chair Senate Finance & Appropriations Committee 900 East Main Street Pocahontas Building, 14<sup>th</sup> Floor Richmond, VA 23219

Dear Chairman Knight and Chairwoman Howell:

As required by Chapter 2, Item 212, 2022 Acts of Assembly, Special Session I, I respectively submit the following annual report on the Virginia Community College System allocation of all new general fund and nongeneral funds in the Educational and General (E&G) program and any cost recovery plans between the individual community colleges and the system office. The FY 2023 anticipated allotments for each of the colleges and the System Office and changes from FY 2022 are shown on the attached table.

The table below shows the changes in funding from FY 2022 to FY 2023. The general fund amounts are from the Appropriation Act, and the nongeneral fund allocation is based on college revenue estimates.

## Changes in E&G Funding

<u>General Fund:</u> The general fund appropriation for FY 2023 reflects an increase of 16.7 percent from prior year due to new initiatives, including investments of \$8.1 million supporting initiatives including the hiring to hire 45 new academic advisors system-wide and improvements to our cyber-security infrastructure, \$37.5 million prior-year adjustments to the base annualizing general fund support for compensation and benefit increases and tuition moderation funding, and \$24.1 million in additional tuition moderation funding allowing the VCCS to hold the line on tuition increases for a fifth year in a row.

<u>Nongeneral Fund:</u> VCCS community colleges anticipate overall non-general fund revenues may decrease approximately 4.8 percent, however improving enrollment projections could mitigate this impact at select colleges.

<u>Total E&G Funding</u>: With these adjustments, total base E&G funding for the VCCS in FY 2023 is projected to increase by approximately \$47.2 million. As a result, total funding per student FTE in FY 2023 could increase from \$9,516 to \$10,761.

## Cost Recovery Plans

Cost recoveries between the System Office and the colleges include expenses for equipment, delivery of shared technology services and initiatives purchased on behalf of all colleges at a system level.

## Funding Distributions for Each College

E&G general fund appropriation for the VCCS (80 percent) is allocated to the colleges using a resource allocation model based on the state base budget adequacy funding methodology. A portion of the E&G state funding (20 percent) is allocated through an Outcomes-Based Distribution Model adopted by the presidents in April 2015. The outcomes-based allocation places more focus on student progression and completion.

The attached table shows anticipated funding allocation for each college and the system office. The amounts shown for each college include the distribution of funding initially held in a central account for specific appropriations for programs at the colleges, and by allocations calculated by methods other than the general resource allocation models. All methodologies are reviewed and approved by the college presidents and the Chancellor.
