Dear Sirs and Madams:

In Item 139C.13 of the 2013 Appropriation Act, the Virginia General Assembly created a competitive school security equipment grant program for school divisions and regional programs. The legislation and appropriation act provision authorized \$6.0 million per year in grant funding through five-year equipment notes issued by the Virginia Public School Authority, with the debt service paid from the Literary Fund. \$12.0 million in funding was continued by the General Assembly for the 2023-2024 school year, the tenth year of the program. The Department of Education consolidates information from applying and awarded school divisions and submits an annual report to the Chairs of the Senate Finance and Appropriations and Education and Health Committees, as well as to the House Education and Appropriations Committees.

If you have any questions or require additional information relative to this report, please do not hesitate to contact the Director of the Office of Support Services, Vijay Ramnarain at Vijay.Ramnarain@doe.virginia.gov , or at (804) 750-8125.

Sincerely,

2023-2024 SCHOOL SECURITY EQUIPMENT GRANT PROGRAM

Legislation enacted by the 2013 General Assembly, HB 2343 and Item 139 C.13. of the 2013 Appropriation Act, created a school security equipment grant program for school divisions and regional programs. The legislation and appropriation act provision authorized \$6.0 million per year in funding for the school security equipment grants through five-year equipment notes issued by the Virginia Public School Authority, with the debt service paid from the Literary Fund. In subsequent years, program funding was increased to \$12.0 million per year. \$12.0 million in funding was continued by the General Assembly for the 2023-2024 school year, the 11th year of the program.

The purpose of the Public School Security Equipment Grant Act of 2013 is to help school divisions purchase and install security equipment inside their school buildings, including non-structural building modifications for erecting security vestibules, security-related devices located outside of the school building on school property, and security-related devices installed inside school buses to improve and ensure the safety of students attending public schools in Virginia.

School divisions and regional programs apply annually for grants for their individual schools and facilities. School divisions must identify the security equipment for which grant funds are being requested from the approved list found in the application, as well as the estimated costs to purchase and install the security equipment. Applications are evaluated and funding awards made based on competitive criteria developed by the VDOE in collaboration with the Virginia Department of Criminal Justice Services.

School Security Grant Criteria

The grants were awarded on a competitive basis using the following criteria:

- School divisions, including regional programs, were eligible to apply for and receive grant awards up to \$250,000.
- School divisions were notified of the grant availability on June 29, 2023.
- Applications had to be submitted to the Department of Education by August 1, 2023.
- School divisions were notified on November 20, 2023, of their grant award.
- School divisions had to commit to purchase the funded security equipment within six months of being notified of their grant award.
- Eligible schools had to be scheduled to remain open for at least five more years.
- No planned renovations/additions could be scheduled in the awarded school for the next five years which would cause the security equipment being requested to become obsolete.
- A local match of 25 percent of the state grant amount is required. The Superintendent of Public Instruction is authorized to reduce the local match for school divisions with a composite index of less than 0.2000. The Virginia School for the Deaf and the Blind is exempt from the local match requirement.
