

November 26, 2024

The Honorable Glenn Youngkin  
Governor of Virginia  
Patrick Henry Building, 3<sup>rd</sup> Floor  
Richmond, Virginia 23219

The General Assembly of Virginia  
Commonwealth of Virginia  
201 North 9<sup>th</sup> Street  
Richmond, Virginia 23219

Dear Governor Youngkin and Members of the General Assembly:

I am pleased to present the annual report of the Virginia Resources Authority (“VRA” or “Authority”). This report and its accompanying Annual Comprehensive Financial Report (“Annual Report”) for the year ended June 30, 2024 is submitted pursuant to the requirements set forth in §62.1-222 of the Code of Virginia, as amended.

VRA’s attached 2024 Annual Report provides the Authority's complete operating and financial statements during the fiscal year. As required, an independent certified public accountant has performed an audit of the books and accounts of the Authority and has issued an unmodified opinion with no audit findings. The Annual Report also includes supplemental information relating to the Water Facilities (§62.1-227), Water Supply (§62.1-236), Airports (§5.1-30.9), Dam Safety (§10.1-603.23), Brownfields Restoration and Economic Redevelopment Assistance (§10.1-1237), Tobacco Region (§3.2-3120), Community Flood Preparedness (§10.1-603.27), and Resilient Virginia (§10.1-603.31) revolving funds.

In Fiscal Year 2024, VRA provided 250 loans and grants to 200 different entities totaling \$369.9 million of capital improvement investment in Virginia communities. A list of the financial assistance recipients is included as Attachment A to this submittal. VRA continues to deliver value to local governments to support essential infrastructure that improves the health, safety, and general welfare of communities in the Commonwealth.

Sincerely,

A handwritten signature in blue ink that reads "Shawn B. Crumlish". The signature is written in a cursive style.

Shawn B. Crumlish  
Executive Director

## **INTRODUCTORY SECTION**

September 10, 2024

Board of Directors  
Virginia Resources Authority  
1111 East Main Street, Suite 1920  
Richmond, VA 23219

Dear Board Members:

In accordance with the requirements set forth in Section 62.1-222 of the Code of Virginia, as amended, I am pleased to present the fiscal year 2024 financial statements of the Virginia Resources Authority (“VRA”, “Authority”). The statute requires the Authority to publish, at the close of each fiscal year, a complete set of financial statements presented in conformance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with Government Auditing Standards generally accepted in the United States of America.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, which is based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatements.

The fiscal year ended June 30, 2024 was audited by CliftonLarsonAllen LLP, a licensed certified public accounting firm. I am pleased to report that as a result of an audit of the Authority’s financial records and transactions of all funds, CliftonLarsonAllen has issued an unmodified opinion on the Authority’s financial statements for the year ended June 30, 2024.

GAAP requires management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

### **VRA Profile**

VRA was established in 1984 as a public body corporate and as a political subdivision of the Commonwealth of Virginia pursuant to the Virginia Resources Authority Act (Chapter 21 of Title 62.1 of the Code of Virginia, as amended). VRA is governed by an eleven-member Board of Directors, appointed by the Governor. Members include four state agency representatives, including the State Treasurer. VRA’s Executive Director, also appointed by the Governor, administers, manages, and directs the affairs of the Authority, subject to the policies, control, and direction of its Board of Directors.

VRA was established to provide an additional source of funding for local infrastructure projects. Initially providing financing for local water and wastewater projects, projects eligible for VRA financing have increased over the years to 20 distinct project types. These project areas reflect the capital improvement priorities of local governments and priority areas identified by Virginia’s Governors and General Assembly to improve the health, safety, and general welfare of Virginia’s counties, cities and towns.

### **VRA Financing Programs**

VRA’s Virginia Pooled Financing Program (VPFP) is available to Virginia counties, cities, towns, and other political subdivisions requiring financing for any one of the designated project areas eligible for VRA financing. Authorized project areas include water, sewer, transportation, public safety, local government buildings, parks and recreational facilities, and a variety of other capital improvement projects. VPFP

borrowers realize savings from VRA's unique state credit enhancements based in part on the Commonwealth's moral obligation, shared expenses, and a straightforward and customer-friendly loan process. VRA's high credit rating, a "AAA" for the senior bonds and "AA" for the subordinate bonds, results in favorable access to the capital markets for Virginia localities.

In addition to the VPFP, the Authority currently serves as co-manager of state capitalized loan/grant funds: Virginia Water Facilities Revolving Fund (VWFRF), Virginia Water Supply Revolving Fund (VWSRF), the Virginia Airports Revolving Fund (VARF), Virginia Dam Safety and Flood Prevention and Protection Fund (VDSFPPF), Virginia Brownfields Restoration and Economic Redevelopment Assistance Fund (VBAF), Virginia Tobacco Region Revolving Fund (VTRRF), Virginia Tobacco Community and Business Lending Program (VTCBLP) and the Community Flood Prevention Fund (CFPF).

Two funds, the VWFRF and the VWSRF, receive capitalization grants each year from the U.S. Environmental Protection Agency, which includes a state match requirement from the Commonwealth. These funds are operated and known as the Clean Water Revolving Loan Fund (VWFRF) and the Drinking Water State Revolving Loan Fund (VWSRF). The VARF, VDSFPPF, and VBAF are solely capitalized by appropriations from the Commonwealth. The VWFRF, VWSRF, VARF, and VDSFP operate as revolving loan funds with the initial capitalization monies invested and, along with the investment earnings and loan repayments, are then loaned to qualified borrowers for eligible projects. The VBAF solely issues grants for eligible projects.

The Virginia Transportation Infrastructure Bank (VTIB) was created in 2011 to finance the design and construction of roads and highways, including toll facilities, mass transit, freight, passenger and commuter rail, including rolling stock, port, airport and other transportation facilities. VRA is the manager of VTIB and performs certain duties under an agreement with the Commonwealth Transportation Board and the Secretary of Finance.

### **Economic Information**

The Commonwealth of Virginia's general fund revenues exceeded the fiscal year 2024 forecast by \$1.2 billion. For the full fiscal year, overall general fund revenues were \$1.7 billion higher than the December 2023 forecast. Higher than expected revenue collections are primarily attributable to increased net individual income taxes and higher than projected sales and use taxes, partially offset by lower than forecasted corporate income taxes.

### **FY2024 Accomplishments**

VRA team efforts along with those of state agency and private sector partners resulted in many successes during FY2024. The Authority took full advantage of market conditions to deliver cost-effective financing to all regions of the Commonwealth. With the support and guidance of the Board of Directors and Executive Director, the Authority delivered value to local government borrowers through its Virginia Pooled Financing Program (VPFP) and through other loan programs it administers for state agencies.

Accomplishments for the Authority during FY2024 include:

- Maintaining outstanding credit ratings – VRA has consistently maintained high investment grade credit ratings for each of its rated financial programs
- Reached the 20-year milestone of the VPFP (166 Borrowers with 560 Loans for \$5.6 billion)
- Monitoring borrowers exhibiting financial stress and concerns
- Financing investments of 250 new loans and grants totaling \$369.9 million for 200 different entities through VRA programs
- Assisting state agency partners in successfully managing their loan and grant programs
  - Department of Environmental Quality – \$122.9 million for 93 projects
  - Department of Health – \$22.0 million for 25 projects
  - Department of Conservation & Recreation – \$8.0 million for 86 grants
  - Virginia Economic Development Partnership – \$2.5 million for 27 grants
- Transferring approximately \$3.0 million to reserves
- Maintaining qualified staff through professional and career development training initiatives
- Attained 16<sup>th</sup> consecutive year of Government Finance Officers Association recognition for excellence in financial reporting for the FY2023 Annual Comprehensive Financial Report

### **FY2024 Financial Results**

VRA ended the fiscal year with assets and deferred outflows of \$5.9 billion, a 5.3% increase over the prior year. With assets and deferred outflows exceeding liabilities and deferred inflows by \$2.6 billion, VRA's net position increased 15.5%. Approximately 98.7% of total net position is restricted for making loans and grants through the various loan programs administered by VRA.

Operating revenues (\$158.3 million) increased 23.1% while operating expenses (\$137.8 million) increased 17.9%, primarily because of interest earnings on investments and loan disbursement and repayment activity. Overall, VRA's financial position remains strong at the conclusion of fiscal year 2024.

### **Long-term Financial Planning**

VRA works with its agency partners to project program demand. For the Virginia Water Facilities Revolving Fund and Virginia Water Supply Revolving Fund, VRA utilizes a long-term financial model to determine lending capacity under various scenarios. The models are updated at least annually. Ongoing communications with agency partners helps ensure effective planning.

VRA also completes a five-year budget projection using certain assumptions for growth and project volume. Each year the assumptions are updated and the projection is revised accordingly.

**Acknowledgments**

Finally, completion of the Authority's fiscal year 2024 ACFR would not have been possible without the Authority's knowledgeable and dedicated team of professionals. A special note of gratitude goes to the Authority's personnel who assisted in this effort. I would also like to extend our thanks to the Authority's Board of Directors for their continuing support in planning and conducting the financial operations of the Virginia Resources Authority in a responsible manner.

Sincerely,

A handwritten signature in blue ink that reads "Shawn B. Crumlish". The signature is written in a cursive style with a large, prominent 'S' at the beginning.

## INDEPENDENT AUDITORS' REPORT

The Honorable Members of the Board of Directors  
Virginia Resources Authority  
Richmond, Virginia

### Report on the Audit of the Financial Statements

#### ***Opinions***

We have audited the accompanying financial statements of Virginia Resources Authority (the Authority), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Authority, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the *Specifications for Audits for Authorities, Boards and Commissions* (the Specifications), issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards* and the Specifications will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, *Government Auditing Standards* and the Specifications, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The combining fund financial schedules and the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining fund financial schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

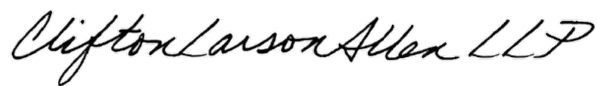

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

The Honorable Members of the Board of Directors  
Virginia Resources Authority

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated September 6, 2024, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Authority's internal control over financial reporting and compliance.

September 6, 2024

**Virginia Resources Authority**  
**Management's Discussion and Analysis**  
**June 30, 2024**

This section presents management's discussion and analysis of the financial performance of the Virginia Resources Authority ("Authority") during the fiscal year ended June 30, 2024. This section should be read in conjunction with the transmittal letter in the introductory section of this report and the Authority's basic financial statements, which immediately follow this section.

**Financial Highlights**

Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources at the close of the fiscal year by \$2.6 billion (net position), an increase of \$342.6 million or 15.5%. The increase in net position is primarily due to lending and repayment activity during the fiscal year and investment earnings.

Operating revenues of \$158.3 million increased 23.1% primarily due to higher investment earnings. Operating expenses of \$137.8 million increased 17.9% primarily due to a higher volume of grant and principal forgiveness financing.

**Overview of the Financial Statements**

The financial section of this report consists of management's discussion and analysis (this section), the basic financial statements, the notes to the financial statements, required supplementary information and supplementary information.

The discussion and analysis provided here are intended to serve as an introduction to the Authority's basic financial statements. The financial statements provide both long-term and short-term information about the Authority's overall financial status. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information and a section of other statistical information that further explains and supports the information in the financial statements.

The Authority's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units on an accrual basis. Under this basis of accounting, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, and depreciation of assets is recognized in the Statement of Revenues, Expenses, and Changes in Net Position. All assets, liabilities, and net position associated with the operation of the Authority are included in the Statement of Net Position. Net position – the difference between assets plus deferred outflows minus deferred inflows plus liabilities – is one way to measure the Authority's financial health or position.

The current fiscal year revenues and expenses of the Authority are accounted for in the Statement of Revenues, Expenses and Changes in Net Position which measures whether the Authority successfully recovered its costs through interest on loans, investment earnings, fees, and contributions from other governments. The Statement of Cash Flows provides information on the Authority's cash receipts, payments, and net changes in cash while providing insight into the source, use, and change in cash for the reporting period. Notes to the financial statements provide additional information that is essential to understanding data in the financial statements.

This report also includes other information, in addition to the basic financial statements and accompanying notes to the financial statements. Required supplementary information concerning the Authority's progress in funding its obligation to provide pension and OPEB benefits to employees is separately presented. Supplementary information that further explains and supports information in the basic financial statements immediately follows the notes. Combining schedules provide information for the Authority's separate programs.

The compliance section is required under provisions of Title 2 of the U.S. Code of Federal Regulations (CFR), Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for

**Virginia Resources Authority**  
**Management's Discussion and Analysis**

<b>Liabilities</b>				
Bonds and loans payable - current	219,766,822	226,501,782	(6,734,960)	-3.0%
Accrued interest	20,176,105	20,819,556	(643,451)	-3.1%
Other current liabilities	5,118,593	8,626,094	(3,507,501)	-40.7%
Bonds and loans payable - noncurrent	3,029,947,980	3,066,001,771	(36,053,791)	-1.2%
Noncurrent liabilities	<u>3,344,849</u>	<u>1,218,783</u>	<u>2,126,066</u>	174.4%
Total liabilities	<u>3,278,354,349</u>	<u>3,323,167,986</u>	<u>(44,813,637)</u>	-1.3%
Deferred inflows of resources	<u>24,858,136</u>	<u>28,443,901</u>	<u>(3,585,765)</u>	-12.6%
<b>Net position (deficit)</b>				
Investment in capital assets	(39,713)	837	(40,550)	-4844.7%
Restricted	2,525,277,841	2,186,138,480	339,139,361	15.5%
Unrestricted	<u>33,014,691</u>	<u>29,468,479</u>	<u>3,546,212</u>	12.0%
Total net position	<u>2,558,252,819</u>	<u>2,215,607,796</u>	<u>342,645,023</u>	15.5%
Total liabilities, deferred inflows of resources, and net position	<u>\$ 5,861,465,304</u>	<u>\$ 5,567,219,683</u>	<u>\$ 294,245,621</u>	5.3%

Total assets increased primarily due to an increase in cash and cash equivalents and investments as a result of lending and repayment activity and contributions into the Community Flood Prevention Program and Resilient Virginia program during the fiscal year. The decrease in total liabilities was driven by a decrease to bonds payable due to repayment activity.

Gain on early extinguishment of bonds	1,950,544	-	1,950,544	0.0%
Other income	-	64,854	(64,854)	-100.0%
Total operating revenues	<u>158,263,262</u>	<u>128,616,173</u>	<u>29,647,089</u>	23.1%
<b>Operating Expenses</b>				
Interest on bonds and loans	92,408,667	95,303,759	(2,895,092)	-3.0%
Bond issuance costs	3,415,434	2,146,856	1,268,578	59.1%
Grants to local governments	22,729,952	5,835,056	16,894,896	289.5%
Principal forgiveness loans to local governments	13,736,210	9,055,519	4,680,691	51.7%
Loss on early extinguishment of loans	654,662	-	654,662	0.0%
Personnel services	1,937,604	1,899,980	37,624	2.0%
General operating	870,593	848,333	22,260	2.6%
Contractual services	1,801,536	1,570,425	231,111	14.7%
Depreciation expense and amortization	220,931	221,863	(932)	-0.4%
Total operating expenses	<u>137,775,589</u>	<u>116,881,791</u>	<u>20,893,798</u>	17.9%
Operating income	<u>20,487,673</u>	<u>11,734,382</u>	<u>8,753,291</u>	-74.6%
<b>Nonoperating revenues</b>				
Contributions from other governments	322,450,776	200,499,124	121,951,652	60.8%
Federal interest subsidy	949,807	1,026,979	(77,172)	-7.5%
Total nonoperating revenue	<u>323,400,583</u>	<u>201,526,103</u>	<u>121,874,480</u>	60.5%
<b>Nonoperating expenses</b>				
Contributions to other governments	320,358	-	320,358	0.0%
Federal interest subsidy passthrough	922,875	1,000,047	(77,172)	-7.7%
Total nonoperating expense	<u>1,243,233</u>	<u>1,000,047</u>	<u>243,186</u>	24.3%
Change in net position	342,645,023	212,260,438	130,384,585	61.4%
Beginning net position	<u>2,215,607,796</u>	<u>2,003,347,358</u>	<u>212,260,438</u>	10.6%
Ending net position	<u>\$ 2,558,252,819</u>	<u>\$ 2,215,607,796</u>	<u>\$ 342,645,023</u>	15.5%

At the end of fiscal year 2024, net position increased 15.5% to \$2.6 billion. Operating revenues increased primarily due to investment earnings during fiscal year 2024. Operating expenses increased primarily due to additional grant disbursements in the Clean Water Combined Sewer Overflow Program (\$14.1 million in fiscal year 2024 vs. \$1 million in fiscal year 2023).

**Virginia Resources Authority**  
**Management's Discussion and Analysis**  
**June 30, 2024**

**Debt Administration**

As a financing entity, the Authority's purpose and objective is to issue and administer debt on behalf of other entities. The Authority issues bonds to finance infrastructure projects approved by the local governing bodies of counties, cities, towns, and service authorities of the Commonwealth of Virginia. Depending upon the program, all of the Authority's bonds are secured by either: (a) a pledge of the full faith and credit of the municipality, (b) a pledge of certain revenues of the municipality and funds and accounts established under the applicable bond resolution or indenture, and/or (c) a lease.

The Authority obtains bond ratings from one or more of the following: Moody's Investor Service (Moody's), Standard & Poor's (S&P), and Fitch Ratings (Fitch). The Authority, to date, has achieved an investment grade of "AA" or better on all bond issues. All Virginia Water Facilities Revolving Fund (VWFRF) leveraged issues have obtained a AAA rating from all three agencies. Under the senior/subordinate structure in the Virginia Pooled Financing Program, the senior portion of the structure (70%) has been rated "AAA" and the subordinate portion (30%) has been rated "AA." Ratings were affirmed on subsequent issues and ratings surveillances conducted in the last fiscal year.

See Note 6 for additional information on bonds payable.

**Requests for Information**

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Finance and Administration, Virginia Resources Authority, 1111 E. Main Street, Suite 1920, Richmond, VA 23219, or telephone (804) 644-3100. Additional information is also available on the Authority's website at [www.virginiaresources.org](http://www.virginiaresources.org)

*The accompanying notes to the financial statements are an integral part of this financial statement.*

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Note 1 – Organization and Nature of Activities**

The Virginia Resources Authority (Authority or VRA) was created in 1984 by an Act of the General Assembly of the Commonwealth of Virginia. The Authority encourages the investment of both public and private funds and is authorized to make loans and grants available to local governments to finance such projects as water, sewer, storm drainage, solid waste disposal, federal facilities, public safety, aviation, brownfield remediation, transportation, Chesapeake Bay cleanup, dam safety, land conservation and preservation, local government buildings, energy, parks and recreation facilities, and broadband. Subsequent General Assembly legislation added projects for administrative and operations systems and site acquisition and development for economic and community development. The Authority's enabling legislation states that the bonds issued by the Authority do not constitute a debt or pledge of the full faith and credit of the Commonwealth of Virginia (Commonwealth) or any political subdivision thereof, other than the Authority. The bonds are payable solely from the revenue, money, or property of the Authority pledged thereon. The Authority is, however, empowered to issue bonds secured by the moral obligation of the Commonwealth, of which a maximum of \$1.5 billion may be outstanding at any time.

The Authority is governed by a Board of Directors consisting of eleven members. Seven members are appointed to four-year terms by the Governor, subject to confirmation by the General Assembly. Other members consist of the State Treasurer, the State Health Commissioner, the Director of the Department of Environmental Quality, and the Director of the Department of Aviation. The Governor appoints the Chairman of the Board. The Governor also appoints the Executive Director of the Authority, who reports to but is not a member of the Board of Directors. The Executive Director serves as the ex-officio secretary of the Board of Directors and administers, manages and directs the affairs and activities of the Authority, in accordance with the policies and under the control and direction of the Board of Directors.

For financial reporting purposes, the Authority is a component unit of the Commonwealth. The accounts of the Authority, along with other similar types of funds, are included as a discretely presented component unit of the Commonwealth. The financial statements of the Authority include the activities of the Authority's pooled bond program, the Virginia Water Facilities Revolving Fund, the Virginia Water Supply Revolving Fund, the Virginia Airports Revolving Fund, the Virginia Dam Safety and Flood Prevention Fund, the Virginia Transportation Infrastructure Bank, the Virginia Brownfield Restoration and Economic Development Assistance Fund, the Virginia SAVES Green Community Program, the Virginia Tobacco Region Revolving Fund, and the Community Flood Preparedness Fund, which are described in more detail below.

The Authority's pooled bond program serves to provide cost-effective and efficient access to the bond markets to local government borrowers throughout Virginia by issuing bonds used to fund loans to local borrowers. The program is structured so that the maturities of principal and interest payments are matched, virtually eliminating interest rate risk within the portfolio. Yields on the loans to local borrowers are designed to slightly exceed the yields on the bonds issued to fund the program, in order to support administrative and other costs related to the program.

The Virginia Water Facilities Revolving Fund (VWFRF) was created in 1986 and received its first state appropriation on July 1, 1987. The VWFRF's purpose is to make discounted interest rate loans to municipalities under the Environmental Protection Agency's (EPA) Capitalization Grants for State Revolving Funds. The VWFRF's enabling legislation provides that the Authority and the Commonwealth's Department of Environmental Quality (DEQ) jointly administer the program. The accounts of the VWFRF are in these financial statements, except for certain administrative expenses incurred by the DEQ for the VWFRF and the associated reimbursement of the federal share of these expenses is included in the financial statements of the DEQ.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

Until 1999, the sole source of financial assistance to localities for wastewater projects under the VWFRF was the Direct Loan program. The available resources for the Direct Loan program, however, were determined to be insufficient to meet the demand for financial assistance from municipalities. In response, the Authority and DEQ, with the concurrence of the EPA, decided to leverage the VWFRF through the issuance of bonds.

The Authority is authorized to transfer assets of the VWFRF to funds and accounts pledged to collateralize bonds issued by the Authority. Such assets consist of federal capitalization grants, Commonwealth Matching Share funds, and any other monies appropriated or otherwise deposited by the Commonwealth to the VWFRF, including amounts repaid by municipalities to the VWFRF from loans represented by the local bonds, and earnings on the investment of any of the foregoing. The Authority and DEQ still make Direct Loans from the VWFRF, but by leveraging the VWFRF, the Authority can provide financing for more projects than before.

During 1999, the General Assembly expanded the scope of the VWFRF by allowing the State Water Control Board to loan money for the construction of facilities or structures supporting environmental goals of agricultural best management practices, commonly referred to as Agriculture Best Management Practices (AgBMP) loans. The program provides below-market rate loans to incent implementation of AgBMPs that results in reduced agricultural nonpoint source pollution of Virginia waters. To date, \$25 million has been set aside from the VWFRF to fund the program. The accounts of this program are combined with those of the VWFRF in the Authority's financial statements.

The Virginia Water Supply Revolving Fund (VWSRF) was created in 1987 and received its first state appropriation on July 1, 1988. In 1997, the VWSRF was updated to align with the Safe Drinking Water Act Amendments of 1996, which allowed the establishment of a drinking water state revolving loan fund. The VWSRF's purpose is to make discounted interest rate loans to local governments to finance water supply facilities and certain non-construction activities under the EPA's Capitalization Grants for State Revolving Funds. The VWSRF's enabling legislation provides that the Authority and the Commonwealth of Virginia Department of Health (VDH) jointly administer the program. The accounts of the VWSRF are in these financial statements, except for certain administrative expenses incurred by the VDH for the VWSRF and the associated reimbursement of these expenses, which are included in the financial statements of the VDH.

In 2000, the Virginia Airports Revolving Fund (VARF) was funded with \$25 million. The VARF finances local government-owned aviation projects at discounted rates for general aviation, reliever, and commercial airports across Virginia. In February 2001, the first bonds were issued by the Authority, which leveraged the VARF to provide funds for loans to three of Virginia's airports. In June 2002, \$2 million was returned to the Commonwealth to be used for other purposes. The VARF can also make direct loans out of current balances, released bond proceeds, and newly appropriated funds.

The Virginia Dam Safety and Flood Prevention Fund (VDSFPF) was created in 2006 and received its first appropriation from existing State funds on July 1, 2006. The VDSFPF's purpose is to make grants or loans to local governments for the development and implementation of flood prevention or protection projects, or for flood prevention or protection studies. In addition, the VDSFPF can be used to make grants or loans to local governments owning dams and to make loans to private entities for the design, repair and the safety modifications of qualifying dams, and to make grants for the mapping and digitization of dam break inundation zones. The VDSFPF's enabling legislation provides that the Authority and the Virginia Department of Conservation and Recreation (VDCR) jointly administer the program.

The Virginia Transportation Infrastructure Bank (VTIB) was created during the 2010 General Assembly Session to finance the design and construction of roads and highways, including toll facilities, mass transit, freight, passenger and commuter rail, including rolling stock, port, airport and other transportation facilities.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

The Authority is the manager of VTIB and performs certain duties under an agreement with the Commonwealth Transportation Board and the Secretary of Finance. VTIB is capitalized with appropriations by the General Assembly. VTIB is a sub-fund of the Transportation Trust Fund and only reimbursement and expenses incurred are reflected in the Authority's financial statements.

The Virginia Brownfields Restoration and Economic Redevelopment Assistance Fund (VBAF) was created in 2002 for the purposes of promoting the restoration and redevelopment of brownfield sites and to address environmental problems or obstacles to reuse so that these sites can be effectively marketed to new economic development prospects. Funds were generally not available in the VBAF until 2012. The Virginia Economic Development Partnership, DEQ, and the Authority jointly administer the VBAF.

The Virginia SAVES Green Community Program (VGCP) was established in 2015 to provide lower financing costs for energy efficiency, renewable energy generation and alternative fuel projects. The program was initially capitalized with \$20 million in Qualified Energy Conservation Bonds (QECBs), allocated under the Governor of Virginia's Executive Order 36, with the ability to provide more QECB allocations as needed from additional QECBs available to the Commonwealth. The program is sponsored by Virginia Department of Mines Minerals and Energy, and administered jointly by CleanSource Capital and Abundant Power. The Virginia Small Business Financing Authority and the Authority serve as conduit issuers for the program.

The Virginia Tobacco Region Revolving Fund (VTRRF) was established in 2016 to create a long-term mechanism to fund revenue-generating economic revitalization projects in the tobacco region, and to recycle loan repayments to assist future projects. Funds were generally not available in the VTRRF until 2017. The Virginia Tobacco Region Revitalization Commission selects projects to be sent to VRA for credit analysis prior to a potential loan offer. VRA is the manager of the Virginia Tobacco Community and Business Lending Program (VTCBLP) and performs certain duties under an agreement with the Virginia Tobacco Region Revitalization Commission.

The Community Flood Preparedness Fund (CFPF), established in the 2020 General Assembly session, assists localities and their residents affected by recurrent flooding, sea level rise, and flooding from severe weather events through a grant and loan program. The CFPF enabling legislation provides that the Authority and the Virginia Department of Conservation and Recreation jointly administer the program.

**Note 2 – Summary of Significant Accounting Policies**

**Measurement Focus and Basis of Accounting**

The funds of the Authority are reported using the economic resources measurement focus and the accrual basis of accounting, where revenues are recognized when earned and expenses are recognized when incurred in accordance with accounting principles generally accepted in the United States of America (GAAP).

The accounts of the Authority are organized on the basis of programs and activities, each of which is considered a separate accounting entity. The operations of each program are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, operating revenues, operating expenses and other non-operating revenue and expenses. All of the Authority's programs and activities are reported as a single reporting entity conforming to GAAP.

The preparation of financial statements, in conformity with GAAP, requires management of the Authority to make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosures of contingencies at the date of the financial statements and revenues and expenses recognized during the reporting period. Actual results could differ from those estimates.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Assets, Liabilities, Deferred Outflow/Inflows of Resources, and Net Position**

*Cash equivalents* – For purposes of the Statement of Cash Flows, cash equivalents are restricted to investments with original remaining maturities when purchased of three months or less.

*Fair value measurements* – The Authority categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

*Investments* – Investments, principally U.S. government obligations, corporate obligations, asset-backed securities, negotiable certificates of deposits, and municipal bonds, are carried at fair value with the change in fair value recognized as a component of interest on investments. The Authority also participates in the Commonwealth of Virginia Local Government Investment Pool (LGIP), a non-SEC registered external pool rated AAf/S1 by S&P Global Ratings (S&P). The LGIP is managed in a manner consistent with Securities and Exchange Commission Rule 2a-7 money market fund requirements and the fair value of the position in the LGIP is the same as the value of the pool shares. Pursuant to Sections 2.2-4600 through 2.2-4606 of the *Code of Virginia*, the Treasury Board of the Commonwealth of Virginia is authorized to administer the LGIP program. As permitted by law, the Treasury Board has delegated administrative aspects of managing the LGIP program to the State Treasurer, subject to the regulations and guidelines established by the Treasury Board.

*Loans receivable, discounts, and premiums* – Loans receivable are reported at the unpaid principal balances, net of an allowance for loan losses, if any. The Authority receives fees relating to the origination of loans. Certain of these fees are received at the origination of a loan and other fees are received over the life of the related loans. The fees received at the origination of a loan are recorded as loan origination revenue while fees received over the life of the related loan are recorded as loan administration fees and bond administration fees in the Statement of Revenues, Expenses, and Changes in Net Position. Loan discounts and premiums are amortized over the lives of the related loans using the effective interest method.

*Allowance for loan losses* – The allowance for loan losses is maintained to cover possible losses inherent in the loan portfolio based on management’s evaluation of the loan portfolio, giving consideration to various factors, including collateral value, past loan loss experience, current facts, and economic conditions. The allowance is based on management’s estimates, and ultimate losses may vary from current estimates. An annual review is performed on a risk-based sample of borrowers in VRA’s loan portfolio. The review includes performing various liquidity ratios and reviewing rate covenant calculations on existing loans to identify any potential issues with loan repayments. In addition to an annual review, the Authority actively monitors borrower information for any potential impacts to loan repayments throughout the year.

*Capital assets* – Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$5,000 and a useful life greater than one year. Such assets are recorded at historical cost and are depreciated over the useful life of the asset using the straight-line method. The Authority follows the Commonwealth’s Accounting Policies and Procedures Manual (CAPP) for assigning estimated useful lives to its capital assets. The CAPP assigns an estimated useful life of 5 years to office furniture, fixtures, and equipment.

*Right to use assets* – The Authority has recorded right to use lease assets as a result of implementing GASB 87. The right to use assets are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The right to use assets are amortized on a straight-line basis over the life of the related lease.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

*Deferred outflows of resources* – In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial element represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources until then. The Authority has three items that qualify for reporting in this category: accounting loss on debt refunding, deferred outflows of resources related to pensions, and deferred outflows of resources related to OPEB. Deferred losses on refundings are recognized as a component of interest expense over the shorter of the life of the old debt or new debt. Deferred outflows of resources related to pensions are amortized and recognized in pension expense over various predetermined closed periods. Deferred outflows of resources related to OPEB are amortized and recognized in OPEB expense over various predetermined closed periods.

*Bond discounts and premiums* – Bond discounts and premiums are amortized over the lives of the related issues using the effective interest method.

*Arbitrage rebate liability* – The amount of interest on investments of tax-exempt bond proceeds the Authority may earn is limited by certain federal legislation. Earnings in excess of the allowable amount must be rebated to the U.S. Department of the Treasury. These excess earnings are determined through arbitrage rebate calculations, with the arbitrage rebate liability separately reported on the Authority's financial statements. The Authority treats the estimated rebate payable as a reduction of available resources in the program that earned the arbitrage profit. Accordingly, interest earnings are reduced by the amount with a corresponding arbitrage rebate liability separately reported. The Authority contracts with arbitrage rebate specialists to perform the arbitrage rebate calculations as required.

*Compensated absences* – The Authority provides for accumulation of paid time off (PTO) leave with a maximum accumulation of up to 520 hours of unused PTO leave. Employees are paid for unused, earned PTO upon separation of employment, with a maximum payout of 240 hours. Individuals employed by the Authority prior to August 1, 2010 are subject to a higher maximum payout cap of 340 hours.

*Pensions* – The Authority participates in the Virginia Retirement System (VRS), a multi-employer, agent plan. For purposes of measuring the net pension liability, deferred outflows of resources and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Authority's retirement plan and the additions to/deductions from the Authority's retirement plan's net fiduciary position have been determined on the same basis as they were reported by the VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Other Post-Employment Benefits, Group Life Insurance Program* – The Authority participates in the VRS Group Life Insurance Program, a multiple-employer, cost-sharing plan. The Group Life Insurance Program was established pursuant to §51.1-500 of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The Group Life Insurance Program is a defined benefit plan that provides a basic group life insurance benefit for employees of participating employers. For purposes of measuring the net Group Life Insurance Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Group Life Insurance Program, and Group Life Insurance Program OPEB expense, information about the fiduciary net position of the Group Life Insurance Program OPEB and the additions to/deductions from the Group Life Insurance Program OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Other Post-Employment Benefits, Virginia Local Disability Program* – The Authority participates in the VRS Political Subdivision Employee Virginia Local Disability Program (VLDP), a multiple-employer,

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

cost-sharing plan. For purposes of measuring the net VLDP OPEB liability, deferred outflows of resources and deferred inflows of resources related to the VLDP OPEB, and the VLDP OPEB expense, information about the fiduciary net position of the VLDP OPEB and the additions to/deductions from the VLDP OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Other Post-Employment Benefits, Health Insurance* – The Authority provides post-employment health care benefits for qualifying retirees through a single-employer defined benefit plan. The plan is governed by the Authority's Board of Directors and can be amended at its discretion. The Authority has estimated the cost of providing this benefit using the alternative measurement method in place of an actuarial valuation. The alternative measurement method is an approach that includes the same broad measurement steps as an actuarial valuation (projecting benefit payments, discounting projected benefit payments to a present value, and attributing the present value of projected benefit payments to periods using an actuarial cost method). However, it permits simplification of certain assumptions.

*Deferred inflows of resources* – In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial element represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources until that time. The Authority has three items that qualify for reporting in this category: deferred gains on debt refundings, deferred inflows of resources related to pensions, and deferred inflows related to OPEB. Deferred gains on refundings are recognized as a component of interest expense over the shorter of the life of the old debt or new debt. Deferred inflows of resources related to pensions are amortized and recognized in pension expense over various predetermined closed periods. Deferred inflows of resources related to OPEB are amortized and recognized in OPEB expense over various predetermined closed periods.

*Net position* – Components of net position include the following:

- Investment in capital assets amounts are those associated with non-liquid, capital assets, less any associated outstanding debt
- Restricted amounts represent the portion of total net position restricted for the purpose of making loans to local governments or by the requirements of the various bond indentures or federal and state regulations for the various revolving funds
- Unrestricted amounts are those currently available at the discretion of the Authority's Board for use in the Authority's operations

### **Revenues and Expenses**

*Pass-through grants* – The Authority accounts for grants or other financial assistance that is transferred to a secondary recipient as revenues and expenses.

*Operating and non-operating revenues and expenses* – The Authority's policy is to report all revenues and expenses resulting from providing services in connection with the Authority's ongoing operations, including interest revenues from loans and investments as well as interest expense on bonds payable, as operating revenues and expenses since such revenues and expenses are integral to the operations of the Authority. All revenues and expenses not meeting the above criteria are reported as non-operating revenues and expenses.

### **Cash Flow Reporting**

All cash flows related to bond issuance and administration are included in cash flows from non-capital financing activities on the Statement of Cash Flows. All cash flows related to investment activity are included in cash flows from investing activities on the Statement of Cash Flows.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Note 3 – Cash, Cash Equivalents, and Investments**

Cash is held in accounts that are insured by the Federal Deposit Insurance Corporation or are collateralized under provisions of the Commonwealth of Virginia Security for Public Deposits Act, Sec. 2.2-4400 et. seq. of the *Code of Virginia*. There were no amounts that were uninsured or uncollateralized at June 30, 2024.

**Fair Value of Investments**

The Authority measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs.

At June 30, 2024, the Authority had the following recurring fair value measurements:

<u>Investments by Fair Value</u>	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Agency Mortgage Backed	\$ 8,787,846	\$ -	\$ 8,787,846	\$ -
Asset Backed Securities	106,718,481	-	106,718,481	-
Corporate Bonds and Notes	122,891,002	-	122,891,002	-
Municipal Securities	2,699,917	-	2,699,917	-
Negotiable Certificates of Deposit	11,089,755	-	11,089,755	-
Supranationals	232,556	-	232,556	-
U.S. Agency Securities	89,828	-	89,828	-
U.S. Treasury Securities	191,388,937	-	191,388,937	-
	<u>\$ 443,898,322</u>	<u>\$ -</u>	<u>\$ 443,898,322</u>	<u>\$ -</u>

**Investments Using Other Measurements**

Guaranteed Investment Contracts	16,232,429
LGIP	778,512,440
Money Market Funds – Government	5,105,523
U.S. Treasury SLGS	92,701,919
	<u>892,552,311</u>
 Total investments	 <u>\$1,336,450,633</u>

**Reconciliation to Statement of Net Position**

Cash equivalents	\$ 783,617,960
Investments – current	23,295,802
Investments – noncurrent	529,536,871
	<u>\$1,336,450,633</u>

Debt securities classified in Level 1 are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Commercial and residential mortgage-backed securities classified in Level 3 are valued using discounted cash flow techniques. Guaranteed investment contracts are measured on a cost-basis. Investments in the Local Government Investment Pool (LGIP) are measured at the net asset value per share. Money market funds are measured using amortized cost. U.S. Treasury SLGS are reported at historical cost.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Investment Policy**

In accordance with the *Code of Virginia* (1950), as amended, and other applicable laws and regulations, the Authority's investment policy (Policy) permits investments in U.S. Government or Agency obligations, Supranationals, obligations of the Commonwealth of Virginia or political subdivisions thereof, negotiable certificates of deposit, negotiable bank deposit notes, repurchase agreements, bankers' acceptances, prime quality commercial paper, corporate notes of domestic corporations, mortgage or asset backed securities, money market funds, guaranteed investment contracts (GICs), and the State Treasurer's LGIP portfolio.

As of June 30, 2024, the Authority had the following cash equivalents and investments:

Investment Type	Fair Value	Investment Maturities			
		Less than 1 Year	1-5 Years	6-10 Years	Over 10 Years
Agency Mortgage Backed	\$ 8,787,846	\$ -	\$ 8,787,190	\$ 656	\$ -
Asset Backed Securities	106,718,481	-	106,718,481	-	-
Corporate Bonds and Notes	122,891,002	4,219,873	118,671,129	-	-
Guaranteed Investment Contracts	16,232,429	2,816,863	11,653,198	1,762,368	-
LGIP	778,512,440	778,512,440	-	-	-
Money Market Funds – Govt.	5,105,523	5,105,523	-	-	-
Municipal Securities	2,699,917	2,610,231	89,686	-	-
Negotiable Certificates of Deposit	11,089,755	-	11,089,755	-	-
Supranationals	232,556	-	232,556	-	-
U.S. Agency Securities	89,828	89,828	-	-	-
U.S. Treasury Securities	191,388,937	1,100,425	182,621,072	1,069,022	6,598,418
U.S. Treasury SLGS	92,701,919	9,010,011	17,963,855	16,648,950	49,079,103
	<u>\$1,336,450,633</u>	<u>\$803,465,194</u>	<u>\$457,826,922</u>	<u>\$19,480,996</u>	<u>\$55,677,521</u>

**Reconciliation to Statement of Net Position**

Cash equivalents	\$783,617,960
Investments – current	23,295,802
Investments – noncurrent	529,536,871
	<u>\$1,336,450,633</u>

**Credit Risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority places emphasis on securities of high credit quality and marketability.

The Policy requires that bankers' acceptances maturing within one year have a rating of no less than "P-1" by Moody's Investors Service (Moody's) and "A-1" by S&P Global Ratings (S&P). Negotiable certificates of deposit and negotiable bank notes maturing within one year must have at least two of the following ratings: "P-1" by Moody's, "A-1" by S&P, and "F-1" by Fitch Ratings Inc. (Fitch). Negotiable certificates of deposit and negotiable bank notes with maturities over one year but less than five years must have at least two of the following ratings: "Aa" by Moody's, "AA" by S&P, and "AA" by Fitch. Commercial paper must have a short-term debt rating of "P-1", "A-1" or "F-1" from at least two nationally recognized rating agencies, which can only include Moody's, S&P, or Fitch. Municipal obligations, must have no less than a "Aa" rating by Moody's and "AA" by S&P. For corporate notes and bonds maturing in less than five years, each issuer must receive two ratings of at least "A" by Moody's, S&P, or Fitch.

Asset backed securities and Supranationals maturing in less than five years must have a "AAA" rating by at least two nationally recognized rating agencies, which can only include Moody's, S&P, or Fitch. GICs must be held with financial institutions with long-term credit ratings of at least "Aa" by Moody's or "AA"

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

by S&P. The various bond indentures require that bond fund investments, or any collateralizing securities, have no less than an “AA” rating by at least one nationally recognized rating agency.

Although Virginia statute does not impose credit standards on repurchase agreements or money market mutual funds, the Authority has established stringent credit standards for these investments to minimize portfolio risk.

At June 30, 2024, the Authority had the following cash equivalent and investments:

<u>Investment Type</u>	<u>Fair Value</u>	<u>S&amp;P Rating</u>	<u>Moody's Rating</u>	<u>Percent of Portfolio</u>
Agency Mortgage Backed	\$ 8,787,846	AA+	Aaa	0.7%
Asset Backed Securities	106,718,481	AAA	Aaa	8.0%
Corporate Bonds and Notes (AA)	15,925,401	AA+ to AA-	Aaa to A1	1.2%
Corporate Bonds and Notes (A)	97,400,864	A+ to A-	Aa1 to A3	7.3%
Corporate Bonds and Notes (BBB)	9,564,737	BBB+	A1 to A3	0.7%
Guaranteed Investment Contracts	16,232,429	AA+	Aa3	1.2%
LGIP	778,512,440	AAAm	-	58.1%
Money Market Funds - Government	5,105,523	AAAm	-	0.4%
Municipal Securities	2,699,917	AA-	Aa1 to Aa2	0.2%
Negotiable Certificates of Deposit	11,089,755	AA-/A+	Aa2 to Aa3	0.8%
Supranationals	232,556	AAA	Aaa	0.1%
U.S. Agency Securities	89,828	AA+	Aaa	0.1%
U.S. Treasury Securities	191,388,937	AA+	Aaa	14.3%
U.S. Treasury SLGS	92,701,919	AA+	Aaa	6.9%
	<u>\$ 1,336,450,633</u>			<u>100.0%</u>

The guaranteed investment contracts (GICs) were entered into based upon the credit rating of the GIC provider. The Moody's ratings of the GIC providers are as follows:

<u>Provider</u>	<u>Fair Value</u>	<u>Moody's Rating</u>	<u>Percent of Portfolio</u>
Mass Mutual	\$ 16,232,429	Aa3*	1.2%

\*The entire GIC balance is collateralized with US Treasury and Agency securities.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Concentration of Credit Risk**

Concentration of credit risk is related to the risk of loss that may be attributed to the magnitude of a government’s investment in a single source.

The Policy establishes limitations on portfolio composition to control the concentration of credit risk. The maximum percentage of the portfolio permitted in each security (by fund type) is as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Percentage of Portfolio</u>	<u>Maximum</u>
Agency mortgage backed	\$ 8,787,846	0.7%	25%
Asset backed securities	106,718,481	8.7%	25%
Corporate bonds and notes	122,891,002	10.1%	25%
LGIP	778,512,440	63.7%	100%
Money market funds – Government	1,593,666	0.1%	100%
Municipal securities	2,699,917	0.2%	25%
Negotiable certificates of deposit	11,089,755	0.9%	25%
Supranationals	232,556	0.1%	10%
U.S. Agency securities	89,828	0.1%	100%
U.S. Treasury securities	182,338,948	14.9%	100%
U.S. Treasury SLGS	6,408,512	0.5%	100%
	<u>\$1,221,362,951</u>	<u>100.0%</u>	

**Reconciliation to Total Cash Equivalents and Investments**

General and Program Funds	\$1,221,362,951
Bond Funds*	115,087,682
	<u>\$1,336,450,633</u>

\*Proceeds from and deposits related to the issuance of VRA bonds (Bond Funds) are held in trust by the various trustee banks under a separate Indenture of Trust and, under certain circumstances, a Supplemental Indenture of Trust (collectively, “Indentures”) for each bond issue. The Policy does not establish limitations on the portfolio composition in the Bond Funds. However, the investment of Bond Funds must be diversified in such a manner to ensure the preservation of principal.

Bond Fund investments are governed by Indentures authorizing the Authority or its trustee to invest generally in obligations of the U.S. Government, the Commonwealth of Virginia, or its political subdivisions (except the Farm Credit System for all bond series issued in 1985 and 1986) and Virginia SNAP. The Indentures authorize the Authority to enter into repurchase agreements with any bank, as principal and not as an agent, having a combined capital, surplus and undivided profits of not less than \$50 million. In addition, the collateralizing securities must have a fair market value equal to at least 100% of the amount of the repurchase obligation plus accrued interest.

The Policy also establishes limitations on portfolio composition by issuer in order to further control concentration of credit risk. No more than 4% of the Authority’s portfolio will be invested in the securities of any one issuer with the exception of: (1) the U.S. Government or Agencies thereof, (2) the LGIP, (3) fully insured/collateralized certificates of deposit or repurchase agreements that are collateralized by the U.S. Government or Agencies thereof, and (4) mutual funds whereby the portfolio is limited to U.S. Government or Agency Securities.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Interest Rate Risk**

Interest rate risk is the risk that changes in the interest rate environment will adversely affect the fair value of a fixed rate investment. The Authority has selected the Segmented Time Distribution method of disclosure. As a means of limiting exposure to fair value losses arising from rising interest rates, the Policy limits individual investments to a stated maturity of no more than five years from the date of settlement, except for mortgage and asset backed securities which are limited to a final maturity of not exceeding ten years. The average maturity of the portfolio may not exceed three years.

Proceeds from the sale of bonds must be invested in compliance with specific requirements of the bond covenants and may be invested in securities with longer maturities.

As of June 30, 2024, the Authority had the following investments and maturities:

**General and Program Funds**

Investment Type	Fair Value	Investment Maturities			
		Less than 1 Year	1-5 Years	6-10 Years	Over 10 Years
Agency mortgage backed	\$ 8,787,846	\$ -	\$ 8,787,190	\$ 656	\$ -

Average maturity of investments 9.96 years

**Custodial Credit Risk**

For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, the reporting entity may not recover its deposits. The Authority's deposits at June 30, 2024 are insured by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act. Under the Act, banks holding public deposits in excess of the amounts insured by the Federal Deposit

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

Insurance Corporation must pledge collateral in the amount of 50% of the excess deposits to a collateral pool in the name of the State Treasury Board. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying governments of compliance by banks. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance. If any member financial institution fails, the entire assets of the collateral pool become available to satisfy the claims of governmental entities. If the value of the pool's collateral is inadequate to cover a loss, additional amounts would be assessed on a pro-rata basis to the members of the pool.

For investments, custodial risk is the risk that, in the event of the failure of the counterparty, the reporting entity will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Policy requires that all investments or collateral securities purchased for the Authority be held by the Authority's designated custodian where the securities must be in the Authority's name and identifiable on the custodian's books as belonging to the Authority and the custodian must be a third party, not a counterparty to the investment transaction. As of June 30, 2024, all of the Authority's investments were held by the Authority's custodial bank in the Authority's name.

**Note 4 – Loans Receivable**

The Authority has outstanding loans to various localities and other governmental entities in the Commonwealth of Virginia. Certain of these loans are secured by a pledge of the revenues from the lease, system-appropriate revenues, and certain other funds and assets of the entities. Other loans are secured by the full faith and credit of the borrowing entity. A summary of loans receivable as of June 30, 2024:

Loan receivables related to bond issues:	
VFPF	\$ 2,588,633,525
VWFRF – Pledged	939,463,671
VWSRF – Pledged	81,651,789
Unamortized discounts/premiums, net	137,059,881
	<u>3,746,808,866</u>
Loan receivables related to revolving loan funds:	
VWFRF	496,980,116
VWFRF – AgBMP	8,715,631
VARF	23,213,631
VWSRF	150,772,080
VTRRF	1,493,798
Direct Loan Program	517,000
	<u>681,692,256</u>
Total loans receivable	4,428,501,122
Less: allowance for loan losses	(409,936)
Total loans receivable, net of allowance	<u>\$ 4,428,091,186</u>
Loans receivable – current	\$ 390,369,630
Loans receivable – noncurrent	4,037,721,556
Total loans receivable, net of allowance	<u>\$ 4,428,091,186</u>

Bonds secured by the Commonwealth's moral obligation all have bond indentures that require either the Authority or the borrower to deposit with the trustee an amount of funds, known as capital reserve funds,

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

relating to the annual principal and interest payments required on the bonds. These capital reserve funds are available for use by the Authority to pay debt service on the bonds if the borrower defaults on any interest or principal payment on the loans. Capital reserve funds are included as investments in the accompanying Statement of Net Position.

If the Authority is required to use any of these capital reserve funds, the Governor of the Commonwealth of Virginia is required to include in the budget presented to the General Assembly, as an agency request for informational purposes only, the amount necessary to replenish the capital reserve fund to the required level. The General Assembly is under no obligation to pass the budget as presented by the Governor. Any amounts so replenished must be repaid by the Authority to the Commonwealth of Virginia, without interest, from excess operating revenues, as defined, of the Authority, to the extent available.

Loans that are outstanding related to bond issuances have rates that range from 0.187% to 6.29% and final maturities that range from FY2025 to FY2055.

The Authority also has outstanding loans to various localities and other governmental entities in the Commonwealth of Virginia from the VWFRF, VWSRF, VARF, and VTRRF. These loans range in final maturity from FY2024 to FY2055 and accrue interest at various rates ranging from 0% to 4.87%.

As of June 30, 2024, the Authority is also obligated under outstanding commitment letters and undisbursed loans and grants to disburse approximately:

<b>Program</b>	<b>Committed (loan or grant closed)</b>	<b>Commitment letter (loan or grant not closed)</b>	<b>Total</b>
VWFRF	\$ 245,801,120	\$ 55,702,470	\$ 301,503,590
VWSRF	20,629,432	71,648,387	92,277,819
VARF	7,319,937	-	7,319,937
VTIB	49,000,000	-	49,000,000
VBAF	100,000	-	100,000
VTRRF	29,049	-	29,049
VTCBLP	1,893,363	-	1,893,363
Direct Loan Program	248,280	-	248,280
CFPF	24,421,049	-	24,421,049
DSFP	4,106,422	-	4,106,422
<b>Total</b>	<b>\$ 353,548,652</b>	<b>\$ 127,350,857</b>	<b>\$ 480,899,509</b>

As of June 30, 2024, the AgBMP loans, included within the VWFRF accounts, were determined to have a need for an allowance for loan losses for \$189,916. The VWSRF was determined to have a need for an allowance for loan losses for \$220,020. Loan loss expense is included as a general operating expense in the Statement of Revenues, Expenses, and Changes in Net Position.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Note 5 – Capital Assets**

Capital asset activity for the year ending June 30, 2024 was as follows:

	<b><u>June 30, 2023</u></b>	<b><u>Additions</u></b>	<b><u>Disposals</u></b>	<b><u>June 30, 2024</u></b>
Office equipment	\$ 338,503	\$ 5,833	\$ (12,937)	\$ 331,399
Leased office space	1,467,168	-	-	1,467,168
Total capital assets	<u>\$ 1,805,671</u>	<u>\$ 5,833</u>	<u>\$ (12,937)</u>	<u>\$ 1,798,567</u>
Less accumulated depreciation	(252,634)	(37,535)	12,937	(277,232)
Less accumulated amortization	<u>(366,792)</u>	<u>(183,396)</u>	<u>-</u>	<u>(550,188)</u>
Total accumulated depreciation and amortization	<u>\$ (619,426)</u>	<u>\$ (220,931)</u>	<u>\$ 12,937</u>	<u>\$ (827,420)</u>
Total capital assets, net	<u>\$ 1,186,245</u>	<u>\$ (215,098)</u>	<u>\$ -</u>	<u>\$ 971,147</u>

Depreciation expense of \$37,535 and amortization expense of \$183,396 for the year ended June 30, 2024 are included in the Statement of Revenue, Expenses, and Changes in Net Position.

Changes in long-term debt for the year ended June 30, 2024 are as follows:

	<b>June 30, 2023</b>	<b>Increases</b>	<b>Decreases</b>	<b>June 30, 2024</b>	<b>Due within One Year</b>
Bonds outstanding	\$3,005,263,183	\$208,850,000	\$(232,884,658)	\$2,981,228,525	\$190,845,000
Unamortized discounts and premiums on bonds	189,240,370	18,129,158	(28,883,251)	178,486,277	25,401,822
Direct placements	98,000,000	-	(8,000,000)	90,000,000	3,520,000
	<u>\$3,292,503,553</u>	<u>\$226,979,158</u>	<u>\$(269,767,909)</u>	<u>\$3,249,714,802</u>	<u>\$219,766,822</u>

All bonds and direct placements are limited obligations of the Authority payable solely from and secured by a pledge of the principal and interest payments required to be made by certain local and other governmental entities on loans made by the Authority and a pledge of all funds and accounts established by the various bond indentures. The Authority has the option to redeem various bonds. The redemptions generally cannot be exercised until the bonds have been outstanding for ten years or more, as fully described in the various bond indentures.

At June 30, 2024, \$917,953,525 of the outstanding bonds were secured by the moral obligation of the Commonwealth.

At June 30, 2024, the Series 2002 Revenue Bonds include capital appreciation bonds with unaccreted values of \$1,931,475.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Conduit Debt**

The Authority issued bonds through the Virginia Green Communities Program (VGCP), which uses the Commonwealth’s allocation of Qualified Energy Conservation Bonds to provide subsidized financing for energy efficiency, renewable energy, alternative fueling, and other qualified conservation purposes. The Authority is a conduit issuer for public borrowers with a third-party funding source providing financing for eligible projects. The terms of the VGCP bonds stipulate that the Authority does not guarantee repayment of principal and interest to the bondholders. As of June 30, 2024, the total outstanding principal amount of conduit debt obligations in the VGCP was \$22,889,652.

The Authority issued bonds through the VirginiaHELPS Conduit Borrower Program (VAHELPS). The Authority is a conduit issuer for public borrowers with a third-party funding source providing financing for eligible projects. The terms of the VAHELPS bonds stipulate that the Authority does not guarantee repayment of principal and interest to the bondholders. As of June 30, 2024, the total outstanding principal amount of conduit debt obligations in VAHELPS was \$15,735,249.

In accordance with GASB 91, conduit debt liabilities and the associated loan assets are not recorded on the Statement of Net Position.

**Refundings**

During the fiscal year, the Authority issued Virginia Pooled Financing Program Revenue Bonds, Series 2023B and 2024A, from which a portion of proceeds were used to provide resources to place in trust for the purpose of making future debt service payments for certain maturities.

As a result, the refunded bonds below are defeased and the liability has been removed from the Statement of Net Position:

<u>Issue</u>	<u>Principal Defeased</u>	<u>Difference between Previous and New Debt Services</u>	<u>Economic Gain as a Result of the Refunding</u>
2013B Series	\$ 2,990,000	\$ 189,730	\$ 140,065

The amount outstanding at June 30, 2024 for bonds that have been in-substance defeased was \$195,705,000. In addition to the refundings noted above, this includes bonds that were in-substance defeased during prior years: Series 2002, Series 2009A, Series 2010C, Series 2011A, Series 2011B, Series 2012B, Series 2012C, Series 2013A, Series 2013B, Series 2013C, Series 2014A, Series 2014B, Series 2014C, Series 2015A, Series 2015B, Series 2015D, Series 2016B, and Series 2016C.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Debt Service Requirements**

Debt service requirements at June 30, 2024 are as follows:

<b>June 30,</b>	<b>Bonds</b>			<b>Direct Borrowings</b>		
	<b>Principal</b>	<b>Interest</b>	<b>Total</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>

**Note 7 – Restricted Net Position – Loan Programs**

Restricted net position represents the portion of total net position restricted for the purpose of making loans to local governments or by the requirements of various bond indentures or federal and state regulations for the various revolving funds. Restricted net position includes Revolving Loan Fund Accounts, Airport Revolving Fund Accounts, Bond Accounts, and the Operating Reserve Fund. Such loans or grants are generally made at the direction of the state agencies overseeing the related programs. All assets and liabilities included in the Authority’s General Accounts are non-restricted in nature; however, the General Account has pledged assets to establish an Operating Reserve Fund for the VFPF. The Operating Reserve Fund serves as security on the Authority’s Infrastructure Revenue Bonds (senior lien) and is classified as restricted. At June 30, 2024 the cash, cash equivalents, and investments restricted for use related to the Operating Reserve Fund amounted to \$7,958,704.

**Note 8 – Accounts Payable and Accrued Liabilities**

Accounts payable and accrued liabilities at June 30, 2024 consisted of:

	<b>Current</b>	<b>Noncurrent</b>	<b>Total</b>
Accounts payable and other liabilities	\$ 79,052	\$ -	\$ 79,052
Arbitrage rebate liability	366,974	2,306,435	2,673,409
Compensated absences	121,864	-	121,864
Loan payments received prior to due date	1,471,262	-	1,471,262
Lease liability	183,328	827,531	1,010,859
	<u>\$ 2,222,480</u>	<u>\$ 3,133,966</u>	<u>\$ 5,356,446</u>

**Note 9 – Contributions from Other Governments**

During the fiscal year, the Authority received \$67,309,139 from the EPA under the Capitalization Grants for State Revolving Funds. Contributions from the EPA are disbursed as loans to municipalities. The Authority also received \$13,254,152 from the Commonwealth as part of the required state match of federal funds.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

In addition, the Authority received the following funds from the Commonwealth: \$14,129,290 for VWFRF's combined sewer overflow projects; \$1,488,052 for VDSFPF; \$2,250,000 for VBAF; \$124,020,143 for CFPF; and \$100,000,000 for Resilient VA.

**Note 10 – Employee Pension Plans**

**Plan Description**

All full-time, salaried permanent employees of the Authority are automatically covered by the VRS Retirement Plan upon employment. This plan is administered by the Virginia Retirement System ("System") along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer are pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria a defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out below:

**VRS Plan 1**

*Overview* – Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.

*Eligibility* – Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013, and they have not taken a refund.

*Hybrid Opt-In Election* – VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014. The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014. If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan. Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.

*Retirement Contributions* – Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.

*Creditable Service* – Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.

*Vesting* – Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

balance if they leave employment and request a refund. Members are always 100% vested in the contributions that they make.

*Calculating the Benefit* – The Basic Benefit is calculated based on a formula using the member’s average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement. An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.

*Average Final Compensation* – A member’s average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.

*Service Retirement Multiplier* – The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.7%.

*Normal Retirement Age* – Age 65.

*Earliest Unreduced Retirement Eligibility* – Age 65 with at least five years (60 months) of creditable service or at age 50 with at least 30 years of creditable service.

*Earliest Reduced Retirement Eligibility* – Age 55 with at least five years (60 months) of creditable service or age 50 with at least 10 years of creditable service.

*Cost-of-Living Adjustment (COLA) in Retirement* – The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%. For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of creditable service, the COLA will go into effect on July 1 after one full calendar year from the retirement date. For members who retire with a reduced benefit and who have less than 20 years of creditable service, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.

The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:

- The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013.
- The member retires on disability.
- The member retires directly from short-term or long-term disability under the Virginia Sickness and Disability Program (VSDP).
- The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.
- The member dies in service and the member’s survivor or beneficiary is eligible for a monthly death-in-service benefit. The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins.

*Disability Coverage* – Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.7% on all service, regardless of when it was earned, purchased or granted. VSDP members are subject to a one-year waiting period before becoming eligible for non-work-related disability benefits.

*Purchase of Prior Service* – Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.

VRS Plan 2

*Overview* – Plan 2 is a defined benefit plan. The retirement benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula.

*Eligible Members* – Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.

*Hybrid Opt-In Election* – Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014. The Hybrid Retirement Plan’s effective date for eligible Plan 2 members who opted in was July 1, 2014. If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan. Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.

*Retirement Contributions* – Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction.

*Creditable Service* – Same as Plan 1.

*Vesting* – Same as Plan 1.

*Calculating the Benefit* – See definition under Plan 1.

*Average Final Compensation* – A member’s average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.

*Service Retirement Multiplier* – Same as Plan 1 for service earned, purchased or granted prior to January 1, 2013. For non-hazardous duty members the retirement multiplier is 1.65% for creditable service earned, purchased or granted on or after January 1, 2013.

*Normal Retirement Age* – Normal Social Security retirement age.

*Earliest Unreduced Retirement Eligibility* – Normal Social Security retirement age with at least five years (60 months) of creditable service or when their age and service equal 90.

*Earliest Reduced Retirement Eligibility* – Age 60 with at least five years (60 months) of creditable service.

*Cost-of-Living Adjustment (COLA) in Retirement* – The Cost-of-Living Adjustment (COLA) matches the first 2% increase in the CPI-U and half of any additional increase (up to 2%), for a maximum COLA of 3%. Eligibility and exceptions to COLA effective dates are the same as VRS Plan 1.

*Disability Coverage* – Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted. VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

*Purchase of Prior Service* – Same as Plan 1.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

VRS Hybrid Retirement Plan

*Overview* – The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window (see “Eligible Members”). The defined benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.

*Eligible Members* – Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes political subdivision employees and members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan’s effective date for opt-in members was July 1, 2014. Some employees are not eligible to participate in the Hybrid Retirement Plan. They include political subdivision employees who are covered by enhanced benefits for hazardous duty employees. Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.

*Retirement Contributions* – A member’s retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee’s creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

*Creditable Service, Defined Benefit Component* – Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member’s total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.

*Creditable Service, Defined Contributions Component* – Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.

*Vesting, Defined Benefit Component* – Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. Plan 1 or Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.

*Vesting, Defined Contributions Component* – Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan. Members are always 100% vested in the contributions that they make. Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service:

- After two years, a member is 50% vested and may withdraw 50% of employer contributions
- After three years, a member is 75% vested and may withdraw 75% of employer contributions

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

- After four or more years, a member is 100% vested and may withdraw 100% of employer contributions

Distribution is not required by law until age 70½.

*Calculating the Benefit, Defined Benefit Component* – See definition under Plan 1.

*Calculating the Benefit, Defined Contribution Component* – The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.

*Average Final Compensation* – Same as Plan 2. It is used in the retirement formula for the defined benefit component of the plan.

*Service Retirement Multiplier* – The retirement multiplier for the defined benefit component is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

*Normal Retirement Age, Defined Benefit Component* – Same as Plan 2.

*Normal Retirement Age, Defined Contribution Component* – Members are eligible to receive distributions upon leaving employment, subject to restrictions.

*Earliest Unreduced Retirement Eligibility, Defined Benefit Component* – Normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

*Earliest Unreduced Retirement Eligibility, Defined Contribution Component* – Members are eligible to receive distributions upon leaving employment, subject to restrictions.

*Earliest Reduced Retirement Eligibility, Defined Benefit Component* – Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.

*Earliest Reduced Retirement Eligibility, Defined Contribution Component* – Members are eligible to receive distributions upon leaving employment, subject to restrictions.

*Cost-of-Living Adjustment (COLA) in Retirement, Defined Benefit Component* – Same as Plan 2. Eligibility and exceptions to COLA effective dates are the same as Plan 1 and Plan 2.

*Cost-of-Living Adjustment (COLA) in Retirement, Defined Contribution Component* – Not applicable.

*Disability Coverage* – Employees of political subdivisions (including Plan 1 and Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members. Hybrid members (including Plan 1 and Plan 2 opt-ins) covered under VLDP are subject to a one-year waiting period before becoming eligible for non-work-related disability benefits.

*Purchase of Prior Service, Defined Benefit Component* – Same as Plan 1, with the following exceptions: Hybrid Retirement Plan members are ineligible for ported service.

*Purchase of Prior Service, Defined Contribution Component* – Not applicable.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Employees Covered by Benefit Terms**

As of the June 30, 2022 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

Inactive members or their beneficiaries currently receiving benefits	5
Inactive members:	
Vested inactive members	5
Non-vested inactive members	6
Inactive members elsewhere in VRS	8
Total inactive members	24
Active members	13
Total covered employees	37

**Contributions**

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The Authority’s contractually required contribution rate for the year ended June 30, 2024 was 4.80% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Authority were \$76,240 and \$71,221 for the years ended June 30, 2024 and June 30, 2023, respectively.

**Net Pension Liability**

The Authority’s net pension liability was measured as of June 30, 2023. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2021, rolled forward to the measurement date of June 30, 2023.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Actuarial Methods and Assumptions**

The total pension liability for the Authority was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023.

Inflation	2.5%
Salary increases, including inflation	3.5-5.35%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

Mortality rates: 15% of deaths are assumed to be service related

- Pre-Retirement: Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years
- Post-Retirement: Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years
- Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years
- Beneficiaries and Survivors: Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years
- Mortality Improvement: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020. Changes to the actuarial assumptions are as follows:

- Mortality rates: update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
- Retirement rates: adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
- Withdrawal rates: adjusted rates to better fit experience at each year age and service through 9 years of service
- Disability rates: no change
- Salary scale: no change
- Line of Duty Disability: no change

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Long-Term Expected Rate of Return**

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
Public Equity	34.00%	6.14%	2.09%
Fixed Income	15.00%	2.56%	0.38%
Credit Strategies	14.00%	5.60%	0.78%
Real Assets	14.00%	5.02%	0.70%
Private Equity	16.00%	9.17%	1.47%
Multi-Asset Public Strategies	4.00%	4.50%	0.18%
Private Investment Partnership	2.00%	7.18%	0.14%
Cash	1.00%	1.20%	0.01%
<b>Total</b>	<b>100.00%</b>		<b>5.75%</b>
Inflation			<u>2.50%</u>
Expected arithmetic nominal return*			<u>8.25%</u>

\*The above allocation provides a one-year expected return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%. On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

**Discount Rate**

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate.

Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions, political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2023, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2021, actuarial valuations, whichever was greater. From July 1, 2022, on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

**Changes in Net Pension Liability**

	<b>Increase (Decrease)</b>		
	<b>Total Pension Liability (a)</b>	<b>Plan Fiduciary Net Position (b)</b>	<b>Net Pension Liability (Asset) (a)-(b)</b>
Balance at June 30, 2022	\$ 2,675,555	\$ 3,152,307	\$ (476,752)
Changes for the year:			
Service cost	131,625	-	131,625
Interest	187,813	-	187,813
Difference between expected and actual experience	(109,755)	-	(109,755)
Contributions – employer	-	63,616	(63,616)
Contributions – employee	-	71,405	(71,405)
Net investment income	-	209,596	(209,596)
Benefit payments, including refunds	(49,543)	(49,543)	-
Administrative expenses	-	(1,962)	1,962
Other changes	-	86	(86)
Net change	160,140	293,198	(133,058)
Balance at June 30, 2023	<u>\$ 2,835,695</u>	<u>\$ 3,445,505</u>	<u>\$ (609,810)</u>

**Sensitivity of the Net Pension Liability to Changes in the Discount Rate**

The following presents the Authority’s net pension liability using the current discount rate, as well as what the Authority’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	<u>1% Decrease</u>	<u>Current Rate</u>	<u>1% Increase</u>
Net pension liability (asset)	\$ (23,409)	\$ (609,810)	\$ (998,901)

**Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions**

For the year ended June 30, 2024, the Authority recognized pension expense of \$(137,782).

At June 30, 2024, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 7,319	\$ 122,121
Changes of assumptions	-	549
Net difference between projected and actual earnings on plan investments	-	40,420
Employer contributions subsequent to the measurement date	62,960	-
	<u>\$ 70,279</u>	<u>\$ 163,090</u>

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

Deferred outflows of resources of \$62,960 resulting from the Authority’s contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources related to pensions and amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2025	\$ (110,379)
2026	(90,984)
2027	44,389
2028	1,203
2029	-
Thereafter	-
	\$ (155,771)

**Pension Plan Data**

Information about the VRS Plan is also available in the separately issued VRS Annual Report at <http://www.varetire.org/Publications>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**Note 11 – Other Post-Employment Benefits – Group Life Insurance Program**

**Plan Description**

All full-time, salaried permanent employees of the Authority are automatically covered by the VRS Group Life Insurance Program upon employment. This plan is administered by the Virginia Retirement System (“System”) along with pensions and other OPEB plans for public employer groups in the Commonwealth of Virginia.

In addition to the Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members’ paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the Group Life Insurance Program OPEB.

The specific information for Group Life Insurance Program OPEB, including eligibility, coverage, and benefits is set out below:

Eligible Employees

The Group Life Insurance Program was established July 1, 1960 for state employees, teachers and employees of political subdivisions that elect the program. Basic group life insurance is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their member contribution and accrued interest.

Benefit Amounts

The benefits payable under the Group Life Insurance Program have several components:

- Natural Death Benefit: Equal to the employee’s covered compensation rounded to the next highest thousand, then doubled.
- Accidental Death Benefit: Double the natural death benefit.
- Other Benefit Provisions: In addition to the natural and accidental death benefits, the program provides additional benefits under specific circumstances, including the accidental dismember

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

benefit, safety belt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option.

**Reduction in Benefit Amounts**

The benefit amounts provided to members covered under the Group Life Insurance Program are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value.

**Minimum Benefit Amount and Cost-of-Living Adjustment (COLA)**

For covered members with at least 30 years of creditable service, there is a minimum benefit payable under the Group Life Insurance Program. The minimum benefit was set at \$8,000 by Statute. The amount is increased annually based on the VRS Plan 2 cost-of-living adjustment and was \$9,254 as of June 30, 2024.

**Contributions**

The contribution requirements for the Group Life Insurance Program are governed by §51.1-506 and §51.1-508 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. The total rate for the Group Life Insurance Program was 1.34% of covered employee compensation; this was allocated into an employee and employer component using a 60/40 split, resulting in the employee component of 0.80% and the employer component of 0.54%. Employers may elect to pay all or part of the employee contribution, however the employer must pay all of the employer contribution.

Each employer’s contractually required employer contribution rate for the year ended June 30, 2024 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the Group Life Insurance Program for the Authority were \$8,513 and \$7,984 for the years ended June 30, 2024 and June 30, 2023, respectively.

In June 2023, the Commonwealth made a special contribution of approximately \$10.1 million to the Group Life Insurance plan. This special payment was authorized by a Budget Amendment included in Chapter 1 of the 2022 Appropriation Act.

**Net OPEB Liability**

The net OPEB liability (NOL) for the Group Life Insurance Program represents the program’s total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2023, NOL amounts for the Group Life Insurance Program is as follows (in thousands):

Total OPEB liability	\$ 3,907,052
Less Plan Fiduciary Net Positon	(2,707,739)
Employers’ Net OPEB Liability	<u>\$ 1,199,313</u>

Plan Fiduciary Net Positon as a percentage of the Total OPEB liability            69.30 %

The total OPEB liability is calculated by the System’s actuary, and the plan’s fiduciary net position is reported in the System’s financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System’s notes to the financial statements and required supplementary information.

At June 30, 2024, the Authority reported a liability of \$75,797 for its proportionate share of the NOL. The NOL was measured as of June 30, 2023 and the total Group Life Insurance OPEB liability used to calculate

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

the NOL was determined by an actuarial valuation performed as of June 30, 2022, and rolled forward to the measurement date of June 30, 2023. The Authority's proportion of the NOL was based on the Authority's actuarially determined employer contributions to the Group Life Insurance Program for the year ended June 30, 2023 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2023 and June 30, 2022, the Authority's proportion was 0.00632% and 0.00674%, respectively.

**Actuarial Assumptions**

The total Group Life insurance OPEB liability was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023.

Inflation	2.5%
Salary increases, including inflation	
General state employees	3.5-5.35%
Teachers	3.5-5.95%
SPORS employees	3.5-4.75%
VaLORS employees	3.5-4.75%
JRS employees	4.0%
Locality – General employees	3.5-5.35%
Locality – Hazardous Duty employees	3.5-4.75%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

Mortality rates – General State Employees

- Pre-Retirement: Pub-2010 Amount Weighted General Employee Rates projected generationally; females set forward 2 years
- Post-Retirement: Pub-2010 Amount Weighted General Healthy Retiree Rates projected generationally; 110% of rates for females
- Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally; males and females set forward 3 years
- Beneficiaries and Survivors: Pub-2010 Amount Weighted General Contingent Annuitant Rates projected generationally; 110% of rates for males and females
- Mortality Improvement Scale: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate (based on VRS Board action effective July 1, 2021). Changes to the actuarial assumptions are as follows:

- Mortality rates: Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Retirement rates: Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
- Withdrawal rates: adjusted rates to better fit experience at each year age and service through 9 years of service
- Disability rates: no change
- Salary scale: no change
- Line of Duty disability: no change

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

- Discount rate: decreased from no change

Mortality rates – Teachers

- Pre-Retirement: Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males
- Post-Retirement: Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females
- Post-Disablement: Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females
- Beneficiaries and Survivors: Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally
- Mortality Improvement Scale: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate (based on VRS Board action effective July 1, 2021). Changes to the actuarial assumptions are as follows:

- Mortality rates: update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Retirement rates: adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
- Withdrawal rates: adjusted rates to better fit experience at each age and service decrement through 9 years of service
- Disability rates: no change
- Salary scale: no change
- Discount rate: no change

Mortality rates – SPORS Employees

- Pre-Retirement: Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years.
- Post-Retirement: Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years
- Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years
- Beneficiaries and Survivors: Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years
- Mortality Improvement Scale: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate (based on VRS Board action effective July 1, 2021). Changes to the actuarial assumptions are as follows:

- Mortality rates: update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Retirement rates: increased rates for ages 55 to 61, 63, and 64 with 26 or more years of service; changed final retirement age from 65 to 70

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

- Withdrawal rates: decreased rate for 0 years of service and increased rates for 1 to 6 years of service
- Disability rates: no change
- Salary scale: no change
- Discount rate: no change
- Line of Duty Disability: no change

Mortality rates – VaLORS Employees

- Pre-Retirement: Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 year
- Post-Retirement: Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years
- Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years
- Beneficiaries and Survivors: Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years
- Mortality Improvement Scale: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate (based on VRS Board action effective July 1, 2021). Changes to the actuarial assumptions are as follows:

- Mortality rates: update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Retirement rates: increased rates at some younger ages, decreased at age 62, and changed final retirement age from 65 to 70
- Withdrawal rates: adjusted rates to better fit experience at each year age and service through 9 years of service
- Disability rates: no change
- Salary scale: no change
- Discount rate: no change
- Line of Duty Disability: no change

Mortality rates – JRS Employees

- Pre-Retirement: Pub-2010 Amount Weighted General Employee Rates projected generationally; males set forward 2 years
- Post-Retirement: Pub-2010 Amount Weighted General Healthy Retiree Rates projected generationally; 95% of rates for males and females set back 2 years
- Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally
- Beneficiaries and Survivors: Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally
- Mortality Improvement Scale: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

The actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate (based on VRS Board action effective July 1, 2021). Changes to the actuarial assumptions are as follows:

- Mortality rates: review separately from State employees because exhibit fewer deaths. Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Retirement rates: decreased rates for ages 60-66 and 70-72
- Withdrawal rates: no change
- Disability rates: no change
- Salary scale: reduce increases across all ages by 0.50%
- Discount rate: no change

Mortality rates – Largest Ten Locality Employers – General Employees

- Pre-Retirement: Pub-2010 Amount Weighted Safety Employee Rates projected generationally; males set forward 2 years; 105% of rates for females set forward 3 years.
- Post-Retirement: Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 95% of rates for males set forward 2 years; 95% of rates for females set forward 1 year.
- Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally; 110% of rates for males set forward 3 years; 110% of rates for females set forward 2 years.
- Beneficiaries and Survivors: Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally.
- Mortality Improvement Scale: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate (based on VRS Board action effective July 1, 2021). Changes to the actuarial assumptions are as follows:

- Mortality rates: update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Retirement rates: adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
- Withdrawal rates: adjusted rates to better fit experience at each age and service decrement through 9 years of service
- Disability rates: no change
- Salary scale: no change
- Discount rate: no change
- Line of Duty disability: no change

Mortality rates – Non-Largest Ten Locality Employers – General Employees

- Pre-Retirement: Pub-2010 Amount Weighted Safety Employee Rates projected generationally; males set forward 2 years; 105% of rates for females set forward 3 years.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Long-Term Expected Rate of Return**

The long-term expected rate of return on the System’s investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System’s investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
Public Equity	34.00%	6.14%	2.09%
Fixed Income	15.00%	2.56%	0.38%
Credit Strategies	14.00%	5.60%	0.78%
Real Assets	14.00%	5.02%	0.70%
Private Equity	16.00%	9.17%	1.47%
Multi-Asset Public Strategies	4.00%	4.50%	0.18%
Private Investment Partnership	2.00%	7.18%	0.14%
Cash	1.00%	1.20%	0.01%
<b>Total</b>	<b>100.00%</b>		<b>5.75%</b>
Inflation			2.50%
Expected arithmetic nominal return*			8.25%

\*The above allocation provides a one-year expected return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%. On June 15 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

**Discount Rate**

The discount rate used to measure the total Group Life Insurance OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2023, the rate contributed by the Authority for the Group Life Insurance OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 113% of the actuarially determined contribution rate. From July 1, 2023 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the Group Life Insurance OPEB’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total Group Life Insurance OPEB liability.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Sensitivity of the Authority's Proportionate Share of the Net Group Life Insurance OPEB Liability to Changes in the Discount Rate**

The following presents the Authority's proportionate share of the net Group Life Insurance OPEB liability using the current discount rate, as well as what the Authority's proportionate share of the net Group Life Insurance OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	<b>1% Decrease</b>	<b>Current Rate</b>	<b>1% Increase</b>
Proportionate share of the net Group Life Insurance OPEB liability	\$ 112,354	\$ 75,797	\$ 46,240

**Group Life Insurance OPEB Expense and Deferred Outflows/Inflows of Resources Related to the Group Life Insurance Program**

For the year ended June 30, 2024, the Authority recognized total OPEB expense of \$(1,301), of which (\$8,140) was related to the Group Life Insurance OPEB. Since there was a change in proportionate share between measurement dates, a portion of the Group Life Insurance OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2024, the Authority reported deferred outflows of resources and deferred inflows of resources related to the Group Life Insurance OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 7,570	\$ 2,301
Net difference between projected and actual earnings on plan investments	-	3,046
Change in assumptions	1,620	5,251
Changes in proportion	2,030	11,195
Employer contributions subsequent to the measurement date	8,513	-
	\$ 19,773	\$ 21,793

Deferred outflows of resources of \$8,513 resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the Net Group Life Insurance OPEB Liability in the year ended June 30, 2025.

Amounts reported as deferred inflows of resources related to the Group Life Insurance OPEB will be recognized in the Group Life Insurance OPEB expense as follows:

<b>Year Ended June 30,</b>	
2025	\$ (3,777)
2026	(22,999)
2027	9,479
2028	1,185
2029	5,539
Thereafter	-
	\$ (10,573)

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Group Life Insurance Plan Data**

Information about the Group Life Insurance Program's Fiduciary Net Position is available in the separately issued VRS Annual Report at <http://www.varetire.org/Publications>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**Note 12 – Other Post-Employment Benefits – Virginia Local Disability Program**

**Plan Description**

All full-time, salaried permanent employees of the Authority who are in the VRS Hybrid Retirement Plan benefit structure are automatically covered by the VRS Political Subdivision Employee Virginia Local Disability Program ("VLDP") upon employment. This plan is administered by the Virginia Retirement System ("System") along with pensions and other OPEB plans for public employer groups in the Commonwealth of Virginia. Political subdivisions are required by Title 51.1 of the *Code of Virginia*, as amended, to provide short-term and long-term disability benefits for their Hybrid employees either through a local plan or through the VLDP.

**Eligible Employees**

The VLDP was implemented January 1, 2014 to provide short-term and long-term disability benefits for non-work-related and work-related disabilities for employees with Hybrid retirement benefits. Eligible employees are enrolled automatically upon employment.

**Benefit Amounts**

- Short-term disability
  - Beginning after a seven-calendar day waiting period from the first day of disability. Employees become eligible for non-work-related short-term disability coverage after one year of continuous participation in VLDP with their current employer.
  - During the first five years of continuous participation in VLDP with their current employer, employees are eligible for 60% of their pre-disability income if they go out on non-work related or work-related disability.
  - Once the eligibility period is satisfied, employees are eligible for higher income replacement levels.
- Long-term disability
  - Beginning after 125 workdays of short-term disability. Members are eligible if they are unable to work at all or are working fewer than 20 hours per week.
  - Members approved for long-term disability will receive 60% of their pre-disability income. If approved for work-related long-term disability, the VLDP benefit will be offset by the workers' compensation benefit. Members will not receive a VLDP benefit if their workers' compensation benefit is greater than the VLDP benefit.

**VLDP Program Notes**

Members approved for short-term or long-term disability at age 60 or older will be eligible for a benefit, provided they remain medically eligible.

VLDP Long-Term Care Plan is a self-funded program that assists with the cost of covered long-term care services.

**Contributions**

The contribution requirements for the active Hybrid employees is governed by §51.1-1178(C) of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Each political subdivision's contractually required employer contribution rate for the year ended June 30, 2024 was 0.85% of covered employee compensation

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

for employees in the VLDP. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the Authority to the VLDP were \$3,847 and \$2,367 for the years ended June 30, 2024 and June 30, 2023, respectively.

**Net OPEB Liability**

The net OPEB liability (NOL) for the VLDP represents the program’s total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2023, NOL amounts for the VLDP is as follows (in thousands):

Total OPEB liability	\$ 9,525
Less Plan Fiduciary Net Position	(11,134)
Net OPEB Liability (asset)	\$ (1,609)

Plan Fiduciary Net Position as a percentage of the Total OPEB liability 116.89%

The total OPEB liability is calculated by the System’s actuary, and the plan’s fiduciary net position is reported in the System’s financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System’s notes to the financial statements and required supplementary information.

At June 30, 2024, the Authority reported an asset of \$732 for its proportionate share of the NOL. The NOL was measured as of June 30, 2023 and the total OPEB liability used to calculate the NOL was determined by an actuarial valuation as of June 30, 2022, and rolled forward to the measurement date. The Authority’s proportion of the NOL was based on the Authority’s actuarially determined employer contributions to the VLDP for the year ended June 30, 2023 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2023 and June 30, 2022 the Authority’s proportion was 0.045% and 0.045% respectively.

**Actuarial Assumptions**

The total VLDP OPEB liability was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023.

Inflation	2.5%
Salary increases, including inflation	3.5-5.35%
Investment rate of return	6.75%, including inflation*

Mortality rates – Non-Largest Ten Locality Employers – General and Non-Hazardous Duty Employees

- Pre-Retirement: Pub-2010 Amount Weighted General Employee Rates projected generationally; males set forward 2 years; 105% of rates for females set forward 3 years
- Post-Retirement: Pub-2010 Amount Weighted General Healthy Retiree Rates projected generationally; 95% of rates for males set forward 2 years; 95% of rates for females set forward 1 year
- Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally; 110% of rates for males set forward 3 years; 110% of rates for females set forward 2 years
- Beneficiaries and Survivors: Pub-2010 Amount Weighted General Contingent Annuitant Rates projected generationally

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

- Mortality Improvement Scale: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate (based on VRS Board action effective July 1, 2021). Changes to the actuarial assumptions are as follows:

- Mortality rates: update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Retirement rates: adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
- Withdrawal rates: adjusted rates to better fit experience at each year age and service decrement through 9 years of service
- Disability rates: no change
- Salary scale: no change
- Line of Duty Disability: no change
- Discount rate: no change

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Long-Term Expected Rate of Return**

The long-term expected rate of return on the System’s investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System’s investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
Public Equity	34.00%	6.14%	2.09%
Fixed Income	15.00%	2.56%	0.38%
Credit Strategies	14.00%	5.60%	0.78%
Real Assets	14.00%	5.02%	0.70%
Private Equity	16.00%	9.17%	1.47%
Multi-Asset Public Strategies	4.00%	4.50%	0.18%
Private Investment Partnership	2.00%	7.18%	0.14%
Cash	1.00%	1.20%	0.01%
<b>Total</b>	<u>100.00%</u>		<u>5.75%</u>
Inflation			<u>2.50%</u>
Expected arithmetic nominal return*			<u>8.25%</u>

\*The above allocation provides a one-year expected return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%. On June 15 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

**Discount Rate**

The discount rate used to measure the total VLDP OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2023, the rate contributed by the Authority for the VLDP OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2023 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the VLDP OPEB’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total VLDP OPEB liability.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**VLDP OPEB Expense and Deferred Outflows/Inflows of Resources Related to the VLDP**

For the year ended June 30, 2024, the Authority recognized total OPEB expense of (\$1,301), of which (\$1,948) was related to the VLDP OPEB.

At June 30, 2024, the Authority reported deferred outflows of resources and deferred inflows of resources related to the VLDP OPEB from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ -	\$ -
Net difference between projected and actual earnings on plan investments	-	-
Change in assumptions	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-
Employer contributions subsequent to the measurement date	3,847	-
	\$ 3,847	\$ -

Deferred outflows of resources of \$3,847 resulting from the Authority’s contributions subsequent to the measurement date will be recognized as a reduction of the Net VLDP OPEB Liability in the year ended June 30, 2025.

**VLDP OPEB Plan Data**

Information about the VLDP’s Fiduciary Net Position is available in the separately issued VRS Annual Financial Comprehensive Report at <http://www.varetire.org/Publications>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**Note 13 – Other Post-Employment Benefits – Retiree Healthcare Plan**

**Plan Description**

Effective July 1, 2018, the Authority began administering a single-employer defined benefit healthcare plan (the “Plan” or “Retiree Healthcare”), which provides post-employment healthcare benefits to retirees of the Authority. The Plan may be modified or discontinued at any time by the Authority’s Board of Directors.

Retirees are eligible to participate in the Plan upon retiring at 50 years old with ten years of service with the Authority or 55 years old with five years of service with the Authority. Upon reaching Medicare age, participating retirees are required to join a Medicare-supplement plan.

A separate report is not issued for the Plan.

**Employees Covered by Benefit Terms**

As of the June 30, 2024 actuarial valuation, the following employees were covered by the benefit terms of the Plan:

Inactive employees currently receiving benefits	-
Inactive employees entitled but not receiving benefits	-
Active employees	15
Total	15

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Funding Policy**

Participating retirees must pay the full cost of these benefits, which results in an implicit rate subsidy for the Authority. Benefits are paid on a pay-as-you-go basis and there are no plan assets set aside in trust. This funding policy may be modified at any time by the Authority's Board of Directors.

**Total OPEB Liability and OPEB Expense**

For the year ended June 30, 2024, the Authority recognized total OPEB expense of (\$1,301), of which \$8,787 was related to the Retiree Healthcare OPEB.

For the year ending June 30, 2024, the Authority reported a total Retiree Healthcare OPEB liability of \$135,818.

**Changes in Net OPEB Liability**

	<b>Increase (Decrease)</b>		
	<b>Total OPEB Liability (a)</b>	<b>Plan Fiduciary Net Position (b)</b>	<b>Net OPEB Liability (a)-(b)</b>
Balance at June 30, 2023	\$ 127,031	\$ -	\$ 127,031
Changes for the year:			
Service cost	8,801	-	8,801
Interest	4,958	-	4,958

Contributions – employee	-	-	-
Benefit payments, including refunds	-	-	-
Administrative expenses	-	-	-
Other changes	-	-	-
Net change	<u>8,787</u>	<u>-</u>	<u>8,787</u>
Balance at June 30, 2024	<u>\$ 135,818</u>	<u>\$ -</u>	<u>\$ 135,818</u>

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Actuarial Assumptions**

The total OPEB liability was based on an actuarial valuation as of June 30, 2024, using the alternative measurement method and the following assumptions:

Actuarial cost method:	Entry Age Normal
Amortization method:	Level Percentage of Payroll
Healthcare cost trend rates:	From 4.7% in the current year to 4.2% in future years, consistent with the Getzen model promulgated by the Society of Actuaries for use in long-term trend projection
Payroll growth assumption:	average annual percentage change in the Consumer Price Index – Urban Wage Earners and Clerical Workers CPI-W from 2013 to 2023.
Amortization period:	20 years
Mortality table:	Pub-2010 Public Retirement Plans Mortality Tables, with mortality improvements projected for 10 years
Turnover assumption:	Derived from data maintained by the US Office of Personnel Management regarding the most recent experience of the employee group covered by the Federal Employees Retirement System

**Sensitivity of the Plan’s Total OPEB Liability to Changes in the Healthcare Cost Trend Rate**

The following presents the Plan’s total OPEB liability using healthcare trend rates 1% greater than and 1% less than the baseline trends are shown in the table below:

	<u>Baseline Trend -1%</u>	<u>Baseline Trend</u>	<u>Baseline Trend +1%</u>
Total OPEB liability	\$ 113,117	\$ 135,818	\$ 163,383

**Discount Rate and Sensitivity of the Plan’s Total OPEB Liability to Changes in the Discount Rate**

The discount rate used to measure the total OPEB liability was 3.93%. This rate reflects the Bond Buyer 20-Bond GO index as of the measurement date.

The following presents the Plan’s total OPEB liability using the discount rate as well as what the total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	<u>Current Rate -1%</u>	<u>Current Rate</u>	<u>Current Rate +1%</u>
Total OPEB liability	\$ 158,251	\$ 135,818	\$ 117,015

**Note 14 – Contingencies**

The Authority participates in the Capitalization Grants for State Revolving Funds. Although the Authority’s administration of the program has been audited in accordance with Title 2 of the U.S. Code of Federal Regulations (CFR), Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards through June 30, 2024, this program is still subject to federal financial and compliance audits. The amount of expenses, which may be disallowed by the granting agency, cannot be determined at this time, although the Authority expects such amounts, if any, to be immaterial.

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

The Authority issued Build America Bonds, a form of direct-pay bonds where issuers receive subsidy payments from the Treasury equal to 35% of their interest costs, in 2009 and 2010. As an issuer of Build America Bonds, the Authority is subject to reductions in the subsidy payments pursuant to the spending cut requirements (the “sequester”) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. Certain automatic reductions, in the amount of 5.7%, went into effect October 1, 2020 and the reduction rate will be applied until September 30, 2030 or intervening Congressional action, at which time the sequestration rate is subject to change. The amount of any reduction to future subsidy payments of the Authority cannot be determined at this time, although the Authority expects such amounts, if any, to be immaterial.

The Authority issued Qualified Energy Conservation Bonds, a form of direct-pay bonds where issuers receive subsidy payments from the Treasury equal to 70% of the related Qualified Tax Credit Bond Rate, 2016 and 2017. As an issuer of Qualified Energy Conservation Bonds, the Authority is subject to reductions in the subsidy payments pursuant to the spending cut requirements (the “sequester”) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. Certain automatic reductions, in the amount of 5.7%, went into effect October 1, 2020 and the reduction rate will be applied until September 30, 2030 or intervening Congressional action, at which time the sequestration rate is subject to change. The amount of any reduction to future subsidy payments of the Authority cannot be determined at this time, although the Authority expects such amounts, if any, to be immaterial.

**Note 15 – Leases**

The Authority has entered into an agreement to lease its office space. The lease agreement qualifies as other than short-term leases under GASB 87 and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of its inception.

The agreement was executed on November 9, 2020, to lease office space and requires 90 monthly payments increasing over the life of the lease from \$15,918 to \$18,918. There are no variable payment components of the lease. The lease liability is measured at a discount rate of 2.14%, which is the Authority’s incremental borrowing rate. As a result of the lease, the Authority has recorded a right to use asset with a net book value of \$916,980 at June 30, 2024.

Lease liability activity for the year ending June 30, 2024 was as follows:

	<u>June 30, 2023</u>	<u>Increases</u>	<u>Decreases</u>	<u>June 30, 2024</u>
Office lease	\$ 1,185,409	\$ -	\$ (174,550)	\$ 1,010,859

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2024 are as follows:

<u>Year Ended June 30,</u>	<u>Principal Payments</u>	<u>Interest Payments</u>	<u>Total</u>
2025	\$ 183,328	\$ 19,855	\$ 203,183
2026	192,423	15,843	208,266
2027	201,842	11,633	213,475
2028	211,590	7,219	218,809
2029	221,676	2,593	224,269
	<u>\$ 1,010,859</u>	<u>\$ 57,143</u>	<u>\$ 1,068,002</u>

**Virginia Resources Authority**  
**Notes to the Financial Statements**  
**June 30, 2024**

**Note 16 – Risk Management**

The Authority carries commercial insurance for various risks of loss including property, workers' compensation, theft, general liability, errors and omissions, employee health and accident, cyber, and public officials' liability. There have been no claims exceeding the amount insured resulting from these risks during the three years ended June 30, 2024 and there was no reduction in insurance coverage during the fiscal year.

**Note 17 – Subsequent Events**

On August 7, 2024, the Authority issued revenue bonds in the amount of \$175,105,000 through the VFPF. Interest rates range from 4.0% to 5.0% with a final maturity date of November 1, 2054.

**Notes to Schedule of Changes in Net Pension Liability and Related Ratios and Schedule of Pension Contributions**

*Changes of benefit terms* – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

*Changes of assumptions* – The actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions are as follows:

- Mortality rates: update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
- Retirement rates: adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
- Withdrawal rates: adjusted rates to better fit experience at each year age and service through 9 years of service
- Disability rates: no change
- Salary scale: no change
- Line of Duty Disability: no change

**Notes to Schedule of Employer’s Share of Net OPEB Liability and Schedule of Employer OPEB Contributions – Virginia Local Disability Program**

*Changes of benefit terms* – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

*Changes of assumptions* – The actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate (based on VRS Board action effective as of July 1, 2021). Changes to the actuarial assumptions are as follows:

**Largest Ten Locality Employers – General and Non-Hazardous Duty Employees**

- Mortality rates: update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Retirement rates: adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
- Withdrawal rates: adjusted rates to better fit experience at each year age and service decrement through 9 years of service
- Disability rates: no change
- Salary scale: no change
- Line of Duty Disability: no change
- Discount rate: no change

## **STATISTICAL SECTION**

**Virginia Resources Authority**  
**Statistical Section**  
**June 30, 2024**

The statistical section presents detailed information as a context for understanding what the information in the basic financial statements, note disclosures, and required supplementary information indicate about the Authority's financial health over an extended period of time.

**Financial Trends**

These tables contain trend information to help the reader understand how the Authority's financial performance and well-being changed over time.

Table 1	Net Position by Component
Table 2	Change in Net Position
Table 3	Operating Revenues
Table 4	Operating Expenses

**Revenue Capacity**

This table contains information to help the reader assess the Authority's significant operating revenues.

Table 5	Outstanding Loans Receivable
---------	------------------------------

**Debt Capacity**

These tables present information to help the reader assess the affordability of the Authority's current levels of outstanding debt and the Authority's ability to issue additional debt in the future.

Table 6	Outstanding Debt
---------	------------------

**Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Authority's financial activities take place.

Table 7	Virginia Principal Employers
Table 8	Virginia Demographic and Economic Statistics

**Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the Authority's financial report relates to the services the Authority provides and the activities it performs.

Table 9	Operating Indicators
Table 10	Employees by Identifiable Activity

**Sources:** Unless otherwise noted, information in these tables is derived from the Authority's Annual Financial Comprehensive Report for the relevant year.

## **COMPLIANCE SECTION**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Honorable Members of the Board of Directors  
Virginia Resources Authority  
Richmond, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the *Specifications for Audits of Authorities, Boards and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the Virginia Resources Authority, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Virginia Resources Authority's basic financial statements, and have issued our report thereon dated September 6, 2024.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Virginia Resources Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Virginia Resources Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Virginia Resources Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

The Honorable Members of the Board of Directors  
Virginia Resources Authority

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Virginia Resources Authority’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

***Purpose of This Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

The Honorable Members of the Board of Directors  
Virginia Resources Authority  
Richmond, Virginia

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Virginia Resources Authority's (the Authority) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Virginia Resources Authority's major federal programs for the year ended June 30, 2024. Virginia Resources Authority's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Virginia Resources Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Virginia Resources Authority and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Virginia Resources Authority's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Virginia Resources Authority's federal programs.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Virginia Resources Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Virginia Resources Authority's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Virginia Resources Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Virginia Resources Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Virginia Resources Authority's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The Honorable Members of the Board of Directors  
Virginia Resources Authority

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See notes to the Schedule of Expenditures of Federal Awards

**Virginia Resources Authority**  
**Notes to Schedule of Expenditures of Federal Awards**  
**June 30, 2024**

**Note 1 – General**

The accompanying Schedule of Expenditures of Federal Awards (Schedule) presents the activity of the federal award programs of the Authority. All federal awards received directly from federal agencies, as well as federal awards passed through from other government agencies are included.

**Note 2 – Basis of Accounting**

The accompanying Schedule is presented on the accrual basis of accounting, which is more fully described in Note 1 of the Authority’s basic financial statements.

**Note 3 – Loan and Grant Commitments**

The Authority is obligated under outstanding commitments for undisbursed loans and grants to disburse approximately \$301,503,590 from the VWFRF and \$92,277,819 from the VWSRF as of June 30, 2024.

**Note 4 – Relationship to Federal Financial Reports**

Amounts reported in the accompanying Schedule agree with the amounts reported to the Commonwealth of Virginia Department of Environmental Quality (DEQ) and the Commonwealth of Virginia Department of Health (VDH), the grantees for the federal programs. The DEQ and VDH consolidate amounts reported by the Authority with their own expenditures for federal financial reporting purposes.

**Note 5 – Relationship to the Authority’s Basic Financial Statements**

The federal awards in the accompanying schedule are reported as revenue (contributions from other governments) in the Authority’s basic financial statements as follows:

	<u>VWFRF</u>	<u>VWSRF</u>	<u>Other</u>	<u>Total</u>
Revenue per Financial Statements:				
Contributions from other Governments	\$ 80,726,479	\$13,966,102	\$227,758,195	\$322,450,776
Total Governmental Revenues				
Less amounts not related to federal financial assistances	<u>(25,780,949)</u>	<u>(1,602,493)</u>	<u>(227,758,195)</u>	<u>(255,141,638)</u>
Schedule of Expenditures of Federal Awards	<u>\$ 54,945,530</u>	<u>\$ 12,363,609</u>	<u>\$ -</u>	<u>\$ 67,309,139</u>

**Note 6 – Indirect Cost Rate**

The Authority did not elect to use the 10% de minimis indirect cost rate.
