COMMONWEALTH of VIRGINIA

SCOTT L. ADAMS, CPA
COMPTROLLER

Office of the Comptroller

P. O. BOX 1971
RICHMOND, VIRGINIA 23218-1971

December 13, 2024

The Honorable Glenn Youngkin, Governor
Members of the Virginia General Assembly
Citizens of Virginia

It is my pleasure to present the Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2024, in accordance with Section 2.2-813 of the *Code of Virginia*. This report consists of management's representations concerning the Commonwealth of Virginia's finances. Management assumes full responsibility for the completeness and reliability of all information presented. This report reflects my commitment to you, to the citizens of the Commonwealth, and to the financial community to maintain our financial statements in conformance with accounting principles generally accepted in the United States of America (GAAP) as established by the Governmental Accounting Standards Board (GASB). Data presented in this report is believed to be accurate in all material respects, and all disclosures that are necessary to enable the reader to obtain a thorough understanding of the Commonwealth's financial activities have been included.

The 2024 ACFR is presented in three sections. The Introductory Section includes this transmittal letter and organization charts for state government. The Financial Section includes the State Auditor's Report, management's discussion and analysis (MD&A), audited government-wide and fund financial statements and notes thereto, required supplementary information other than MD&A, and the underlying combining and individual fund financial statements and supporting schedules. The Statistical Section sets forth selected unaudited economic, financial trend, and demographic information for the Commonwealth on a multi-year basis.

The Commonwealth's management is responsible for the establishment and maintenance of internal accounting controls that ensure assets are safeguarded and financial transactions are properly recorded and adequately documented. To ensure that the costs of controls do not exceed the benefits obtained, management is required to use cost estimates and judgments to attain reasonable assurance as to the adequacy of such controls. The Commonwealth's established internal controls fulfill these requirements and provide reasonable, but not absolute assurance, that the accompanying financial statements are free of material misstatement.

In accordance with Section 30-133 of the *Code of Virginia*, the Auditor of Public Accounts has audited the Commonwealth's financial statements for the year ended June 30, 2024. The audit was conducted in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards issued by the Comptroller General of the United States. The auditor's opinion is included in the Financial Section of this report. Audit testing for compliance with the U. S. Office of Management and Budget Compliance Supplement and the related Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, is performed at the statewide level. The Commonwealth's Single Audit Report will be issued at a later date. I would like to acknowledge the Auditor of Public Accounts' staff for their many contributions to the preparation of this report.

GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. In addition to the financial analysis addressing the Commonwealth's governmental and business-type activities, the MD&A focuses on the Commonwealth's major funds: General, Commonwealth Transportation Special Revenue, Federal Trust Special Revenue, Literary Special Revenue, Virginia Lottery, Virginia College Savings Plan, and Unemployment Compensation. The Commonwealth's MD&A can be found on page 27 immediately following the independent auditor's report.

PROFILE OF THE GOVERNMENT

Reporting Entity

For financial reporting purposes, the Commonwealth's reporting entity consists of (1) the primary government, (2) component unit organizations for which the primary government is financially accountable or for which the resources of the component unit primarily benefit the primary government (blended component units), and (3) other component unit organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete (discrete component units). The funds and accounts of all agencies, boards, commissions, foundations, and authorities that have been identified as part of the primary government or a component unit have been included. Further information can be found in Note 1.B. to the Financial Statements.

Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards* describes the criteria for determining which organizations, functions, and activities should be considered part of the Commonwealth for financial reporting purposes. The basic criteria include appointing a voting majority of an organization's governing body, as well as the Commonwealth's ability to impose its will on that organization, or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Commonwealth. The Commonwealth's discretely presented major component units are the Virginia Housing Development Authority, Virginia Public School Authority, Virginia Resources Authority, and Virginia College Building Authority.

The Commonwealth and its component units provide a wide range of services and funding to its citizens, including elementary, secondary and higher education; health and human services; economic development; environmental and natural resources; public safety, corrections, and regulation; transportation; agriculture; and general government services. The financial activities associated with these services are reflected in both summary and detail throughout the ACFR.

Budgetary Control

In addition to the internal controls previously discussed, the Commonwealth maintains budgetary controls to ensure compliance with the legal provisions of the Commonwealth's Appropriation Act, which reflects the General Assembly's approval of a biennial budget. The financial transaction process begins with development and approval of the budget, after which budgetary control is maintained through a formal appropriation and allotment system. The budgeted amounts reflected in the accompanying financial statements represent summaries of agency budgets.

The Commonwealth's budget is prepared principally on a cash basis and represents appropriations as authorized by the General Assembly on a biennial basis at the program level. The Commonwealth monitors spending activity to ensure the expenditures do not exceed the appropriated amounts at the agency level. The State Comptroller maintains a central general ledger that records total appropriations and related expenditures for all agencies and institutions included in the approved budget. Systemic controls are in place to prevent disbursements that exceed authorized appropriations. Additional information regarding the Commonwealth's budgetary process can be found in Note 1.E. to the Financial Statements.

ECONOMIC REVIEW

Local Economy

Introduction

This overview of the economy of the Commonwealth of Virginia was prepared by the Weldon Cooper Center for Public Service at the University of Virginia. In fiscal year 2024, Virginia's economy expanded for the third consecutive year after the pandemic. The Federal Reserve raised the benchmark federal funds rate to 5.3-5.5 percent at the beginning of the fiscal year and held it at that level to combat post-pandemic inflation. The inflation rate drifted towards the Fed's 2.0 percent target during the fiscal year and national employment growth slowed. Virginia employment growth slowed from the previous fiscal year, while personal income growth increased. The state unemployment rate did not change. Other state economic activity measures, such as real taxable sales and residential building permits, decreased. High mortgage interest rates chilled Virginia home sales and building activity. However, limited housing inventory continued to support rising home prices. The Federal Reserve hinted towards the end of the fiscal year that it could ease monetary policy in the near future, as the 2.0 percent inflationary target came into view and labor market activity weakened. Evidence suggests that the economy was headed towards a "soft landing" in the next fiscal year, whereby the economy would slow before resuming a more sustainable pace of growth without high inflation.

Employment

Virginia non-farm employment grew at a rate of 1.8 percent in fiscal year 2024 (**Figure 1**). This represented a gradual slowdown from the rapid 3.4 percent rate of growth in fiscal year 2022 and 2.9 percent in fiscal year 2023 following the pandemic. The state deceleration paralleled the national trend. The national rate of employment growth slowed from 4.7 percent in fiscal year 2022 to 3.2 percent in fiscal year 2023 and 1.9 percent in fiscal year 2024.

Figure 1
Annual Percentage Change in Nonfarm Payroll Employment
 Fiscal Years 2019 – 2024

Source: U. S. Bureau of Labor Statistics

Virginia gained 74,100 jobs in fiscal year 2024, which brought total employment to over 4.2 million, another all-time high. Although this increase was smaller than the previous two fiscal years, it was still high by the standards of recent history, outpacing the average of approximately 44.7 thousand jobs created over the fiscal years 2012 through 2020 period.

Figure 2 illustrates changes in Virginia’s nonfarm employment by industry for fiscal years 2019 through 2024, along with the employment change between fiscal years 2023 and 2024 for Virginia and the U.S. The largest employment gain occurred in education and health services (26,100). The leisure and hospitality sector saw an increase of 12,200 jobs. This represented a slowing of the rapid growth during the previous two fiscal years but resulted in the sector recovering above its pre-pandemic level. Other growing sectors included local and state government (8,100 and 5,400 respectively), construction (6,100), other services (5,800), federal government (3,200), transportation and utilities (3,100), financial activities (2,100), manufacturing (2,000), wholesale trade (1,300) and professional and business services (400). Mining and logging employment held steady between fiscal year 2023 and 2024, while two sectors experienced job losses, including information (-800) and retail trade (-900). Virginia’s changes generally followed those of the U.S. However, U.S. sectoral growth was realized in some sectors such as mining and logging and retail trade where Virginia remained constant or shrank, while Virginia’s transportation and utilities sector employment grew while it declined nationwide.

(1) North American Industry Classification System (NAICS)

*Some prior year numbers were revised to reflect the incorporation of newly available and revised source data.

Figure 3 shows the annual percentage change in nonfarm employment for 10 of the 11 Metropolitan Statistical Areas (MSAs) in Virginia. The Kingsport-Bristol MSA is not included in this table because most of it is located in Tennessee, and data for this indicator are not reported separately for the Virginia portion of the MSA. All 10 of the remaining Virginia metropolitan areas saw employment growth during the fiscal year, a pattern that has been repeated each of the previous two years. The largest percentage increases occurred in the Blacksburg-Christiansburg-Radford MSA (3.9 percent) followed by the Charlottesville (3.1 percent), Winchester (2.3 percent), Harrisonburg (2.2 percent), and Roanoke and Virginia Beach-Norfolk-Newport News (2.0 percent) MSAs. The remaining metropolitan areas experienced growth rates below the Virginia average of 1.8 percent, including the Richmond (1.7 percent), Northern Virginia (1.5 percent), Lynchburg (1.3 percent), and Staunton-Waynesboro (0.8 percent) MSAs. The Blacksburg-Christiansburg-Radford, Charlottesville, and Lynchburg MSAs grew faster in fiscal year 2024 than the previous year.

Figure 3
Annual Percentage Change in Nonfarm Payroll Employment in Virginia’s MSAs

Source: U. S. Bureau of Labor Statistics

*Some prior year numbers were revised to reflect the incorporation of newly available and revised source data.

(a) Excludes Kingsport-Bristol MSA, and TN-VA, most of which is located in Tennessee

(b) Includes portion in North Carolina

(c) Includes portion in West Virginia

Personal Income

Personal income provides another important gauge of the health of Virginia’s economy. It is also a key determinant of consumer spending, which accounts for approximately 70.0 percent of GDP at the national level. Furthermore, changes in personal income are also strongly correlated with state government revenues such as income tax and retail sales tax collections. As shown in **Figure 4**, state real personal income increased by 3.0 percent in fiscal year 2024. This follows a 1.6 percent increase in fiscal year 2023. In comparison, real personal income grew at the national level by 2.7 percent in fiscal year 2024. Real wages and salaries, which make up most of total personal income, grew 3.9 percent in fiscal year 2024, significantly faster than the average 2.1 percent growth rate during the previous five fiscal years (2019-2023). The next largest component is dividends, interest, and rent, which increased by 3.8 percent. Among other components, supplements to wages and salaries (which includes employer contributions to employee pensions, health insurance, social security/Medicare and other benefits) grew by 5.1 percent, while proprietors’ income increased by just 1.7 percent.

Figure 4
Annual Percentage Change in Real Personal Income
 Fiscal Years 2019 – 2024

Source: U.S. Bureau of Economic Analysis, Billions of Chained 2017 Dollars

Unemployment

Virginia's unemployment rate remained the same in fiscal year 2024 as the year before. **Figure 5** shows that the state unemployment rate was 2.8 percent, the lowest since fiscal year 2001's unemployment rate of 2.4 percent. The state unemployment rate was lower than the national rate (3.8 percent), with the latter increasing slightly from 3.6 percent the year before. This largely reflects the fact that labor market slackness represented by the number of unemployed persons increased more in the U.S. (8.6 percent increase) than in Virginia (0.5 percent).

Figure 5
Civilian Unemployment Rate
 Fiscal Years 2019 – 2024

Source: U.S. Bureau of Labor Statistics

Figure 6 shows unemployment rates for Virginia’s metropolitan and non-metropolitan regions. Unemployment rates remained steady in both metropolitan and non-metropolitan areas. Three metropolitan areas had unemployment rates above the statewide average, including the Lynchburg (3.4 percent), Kingsport-Bristol, Virginia Beach-Norfolk-Newport News, and Richmond (each with 3.0 percent), and Harrisonburg (2.9 percent) metropolitan areas. All of the metro areas experienced steady or slightly decreasing unemployment rates from fiscal year 2023 to fiscal year 2024 except the Winchester MSA, which increased from 2.5 percent to 2.6 percent in 2024.

Figure 6
Civilian Unemployment Rate for Virginia’s MSAs
 Fiscal Years 2019 – 2024

Area	2019	2020	2021	2022	2023	2024

Source: U.S. Bureau of Labor Statistics; some prior year numbers were revised to reflect the incorporation of newly available and revised source data

Figures 7a and 7b show changes in the spatial pattern of unemployment rates in Virginia during the last two fiscal years using locality-level data. The maps show that spatial patterns were similar between fiscal years 2023 and 2024. Fourteen localities had unemployment rates above 4.0 percent in fiscal year 2024 compared to fifteen in fiscal year 2023. Reflecting long-standing trends, unemployment rates were generally higher in the Southside and Southwestern regions. The state’s highest unemployment rates continued to be found in several independent cities, including Petersburg (5.4 percent), Danville and Emporia (4.7 percent), Martinsville (4.6 percent), and Hopewell and Lexington (4.3 percent each). Forty-four localities experienced unemployment rate increases in fiscal year 2024, although the increases were quite small. The largest increase was in Essex County (3.5 percent in fiscal year 2023 to 3.8 percent in fiscal year 2024).

Taxable Sales

Changes in state retail sales are represented here using information on real taxable sales. This measure is a useful proxy for retail sales, but omits some goods (e.g., motor vehicles, motor fuel sales) that appear in the comparable national measure and includes some services (e.g., restaurant sales, lodging sales) not included in that measure. **Figure 8** shows that the real taxable sales decreased by 1.0 percent during fiscal year 2024 compared to a 0.5 percent rate of decrease the previous fiscal year. This decrease is consistent with the national pattern of declining real retail sales. National Real Retail and Food Services Sales, which covers many of the same types of sales as the taxable sales measure, decreased 0.3 percent in fiscal year 2024. These decreases likely reflect the continued shift of consumer purchases from goods to services as a result of post-pandemic spending pattern changes and a weakening in sales to lower income consumers due to inflationary pressures.

Figure 8
Annual Percentage Change in Real Taxable Sales in Virginia
Fiscal Years 2019 - 2024

Source: Virginia Department of Taxation.

Taxable sales are adjusted for inflation using the Bureau of Labor Statistics Consumer Price Index for All Urban Consumers, All Items.

Housing Market

Virginia's housing market activity continued to weaken during fiscal year 2024 but the rate of decline slowed. Sales of existing homes and residential building permit issuance decreased. According to data available from the Virginia Association of Realtors, sales of single-family homes, townhomes, and condos decreased from 107,571 units in fiscal year 2023 to 98,702 units in fiscal year 2024. This represents a 8.2 percent rate of decrease compared to a 26.3 percent rate of decrease in fiscal year 2023. Building permit data show the number of new privately-owned housing units authorized for construction in Virginia decreased by 4.6 percent in fiscal year 2024 (**Figure 9**). This follows a steeper decrease of 7.9 percent in fiscal year 2023. The drop in Virginia building permits was relatively larger than the national 0.9 percent decline in fiscal year 2024.

Data from the Federal Housing Finance Agency show that housing prices continued to outpace inflation. **Figure 10** shows the percentage change in housing prices for Virginia and the nation. Virginia housing prices increased 7.0 percent in fiscal year 2024, down only slightly from 7.6 percent in fiscal year 2023. This rate was higher than the 6.2 percent national growth rate in fiscal year 2024. Housing demand was dampened by continued high mortgage rates and a cooling labor market during the fiscal year. However, inventories of homes remained below normal levels.

Conclusion

Virginia's economy expanded for the third year in a row in fiscal year 2024. Employment grew 1.8 percent compared to 2.9 percent the year before, indicating a gradual cooling in the labor market. On the other hand, real personal incomes increased by 3.0 percent compared to 1.6 percent in fiscal year 2023 showing that the economy retained some buoyancy. Some other economic metrics were not as positive. Real taxable sales decreased by 1.0 percent, perhaps reflecting a combination of continued post-pandemic consumer spending shifts towards services and a weakening in spending by lower income consumers. Virginia housing market activity adjusted somewhat to higher mortgage interest rates. Existing home sales, and residential building permit issuance decreased, albeit at a slower pace than the year before. The rate of housing price appreciation also slowed a bit, but limited housing inventories continued to put pressure on housing prices.

Inflation began to ease during fiscal year 2024 as a result of the Federal Reserve's continued restrictive monetary policy. The Fed had begun raising its benchmark federal funds interest rate in March 2022, with the last quarter percentage point increase occurring in July 2023. Towards the end of fiscal year 2024, inflationary gauges such as the Personal Consumption Expenditures (PCE) Price Index and Consumer Price Index (CPI) were approaching the Fed target of two percent. This progress was achieved by slowing employment growth but not tipping the economy into recession. The success in taming inflation opened the possibility that the Fed would lower interest rates in the next fiscal year, creating conditions that are favorable for the economy to experience a "soft landing." Continued Fed monetary easing could support economic growth in the next fiscal year.

MAJOR INITIATIVES

The ACFR has received unmodified audit opinions from fiscal year 1986 through fiscal year 2023. During this period, the Commonwealth has also received the Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting. While we are very proud of these unmodified audit opinions and awards, we must be mindful of the fact that they are not automatic. The successes of the State Comptroller's office are directly attributable to not only the professionalism, experience and integrity of the State Comptroller's technical and accounting personnel, but also to the professionalism, experience and integrity of the financial and accounting personnel throughout the Commonwealth. These major initiatives will support efforts to continue our legacy of quality financial management.

Long-term Financial Planning

In 1992, an amendment to the Constitution of Virginia required the establishment of a Revenue Stabilization Fund. Annually, revenue collections are evaluated to determine whether deposits are required to the Fund. Withdrawals can only occur if the general fund revenues appropriated exceed the revised general fund revenue forecast by more than 2.0 percent of the certified tax revenues collected in the most recently ended fiscal year. Additionally, a withdrawal from the Fund cannot compensate for more than one-half of the difference between the general fund appropriations and revised estimate nor can it exceed more than one-half of the Fund balance. Further, pursuant to the constitutional amendment of Article X, Section 8, effective January 1, 2011, the amount on deposit cannot exceed 15.0 percent of the Commonwealth's average annual tax revenues derived from taxes on income and retail sales for the preceding three fiscal years.

During fiscal year 2018, the Code of Virginia established the Revenue Reserve Fund to mitigate certain anticipated revenue shortfalls when appropriations based on previous revenue forecasts exceed expected revenues in subsequent forecasts. Annually, revenue collections are evaluated to determine whether deposits are required to the Fund. Generally, withdrawals can only occur if a revised general fund revenue forecast is less than appropriated general fund revenues and the decrease is 2.0 percent or less of general fund revenues collected in the most recently ended fiscal year. Additionally, a withdrawal from the Fund may not exceed more than one-half of the Fund balance. The combined balance of the Revenue Reserve Fund and Revenue Stabilization Fund cannot exceed 20.0 percent of the Commonwealth's average annual tax revenues derived from taxes on income and retail sales for the preceding three fiscal years.

A deposit of \$289.6 million was made during fiscal year 2024. This amount represents the fiscal year 2023 revenue collected in excess of the estimate reduced by the statutory deposit to the Water Quality Fund for excess revenues. Additionally, there was a withdrawal of \$498.7 million for the advance reservation to the Revenue Stabilization Fund per Chapter 1, 2022 Acts of Assembly Special Session I, for the fiscal year 2024 mandatory deposit.

Enterprise Application Project

The Cardinal Project represents a shared vision between the offices of the Secretary of Transportation, Secretary of Finance, Secretary of Administration, and the Virginia Information Technologies Agency to replace aging statewide enterprise applications. This effort began with the effort to replace the Commonwealth's financial system (CARS) and the Virginia Department of Transportation's (VDOT) financial system with a modern, enterprise-wide financial system (base financial system). The base financial system provides a solid foundation for the Commonwealth to expand system functionality and facilitates better integration of key administrative systems across the state. This foundation enables the Commonwealth to re-engineer activities to include taking advantage of shared services, increasing functionality for better fiscal management, and reducing redundant agency financial systems and related cost. Effective July 1, 2016 (fiscal year 2017), Cardinal Financials became the official general ledger accounting system for the Commonwealth, and CARS was retired. VDOT implemented broader system functionality, and the

Commonwealth intended to expand to other Commonwealth agencies. However, functional roll-out to other agencies was paused in order to focus attention to payroll and benefits. As a result, many agencies use non-Cardinal transactional applications to interface their data into Cardinal Financials.

The most recent phase of this project involved a partnership between the Department of Accounts (DOA) and the Department of Human Resource Management (DHRM) to replace the existing statewide payroll system (CIPPS), along with the Commonwealth's statewide Personnel Management Information System (PMIS) and Benefits Eligibility System (BES), by integrating the required functions into Cardinal. As a result, the Human Capital Management System (Cardinal HCM) was implemented in three phases from October 2021 through October 2022. Effective October 3, 2022, Cardinal HCM became the official payroll, benefits, human resource, and time and absence management system for the Commonwealth.

A Cardinal Governance Committee (Committee), co-chaired by me as the State Comptroller, and Janet Lawson as head of the DHRM has been formed. Through coordination with the Committee and Secretaries of Finance and Administration, the Department of Accounts is leading the effort to identify the business needs of our agencies to evaluate the potential to decommission agency-based systems and expand Cardinal Financials functionality. Conclusion of this analysis and recommendations regarding future actions will be provided in fiscal year 2025.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the Commonwealth for its ACFR for the fiscal year ended June 30, 2023. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports. To be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized annual comprehensive financial report that conforms to program standards. Such reports must satisfy both accounting principles generally accepted in the United States of America and all applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. The Commonwealth has received a Certificate of Achievement for the last 38 consecutive years (fiscal years 1986-2023). I believe that this year's report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

This report could not have been prepared without the full cooperation of all state agencies within the Executive Branch, the Legislature, the Judiciary, the Component Units, and especially the dedication and professionalism of the financial reporting staff in the Department of Accounts.

Respectfully submitted,

Scott L. Adams
Comptroller of the Commonwealth of Virginia

INDEPENDENT AUDITOR'S REPORT

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Commonwealth of Virginia, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Commonwealth's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Commonwealth of Virginia as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of certain blended and discretely presented component units of the Commonwealth, which are discussed at Note 1.B. These component units account for the following percentages of total assets and deferred outflows of resources; revenues, additions, and other financing sources; and net position/fund balance of the opinion units affected as of June 30, 2024.

Opinion Unit	Total Assets and Deferred Outflows	Net Position/Fund Balance	Revenues, Additions, and Other Financing Sources
Governmental Activities	2.09 %	3.74 %	0.48 %
Aggregate Remaining Fund Information	1.18 %	1.26 %	0.77 %
Aggregate Discretely Presented Component Units	31.39 %	24.22 %	12.52 %

Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for certain blended and discretely presented component units of the Commonwealth, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Commonwealth of Virginia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

www.apa.virginia.gov | (804) 225-3350 | reports@apa.virginia.gov

The financial statements of Danville Science Center Inc., Library of Virginia Foundation, Science Museum of Virginia Foundation, and Virginia Museum of Fine Arts Foundation, which were audited by other auditors upon whose reports we are relying, were not audited in accordance with Government Auditing Standards.

Emphasis of Matters

Change in Accounting Principle

As discussed in Note 2 of the accompanying financial statements, the Commonwealth of Virginia implemented Governmental Accounting Standards Board (GASB) Statement No. 100, Accounting Changes and Error Corrections, and GASB Implementation Guide No. 2021-1 Question 5.1, relating to capitalizing groups of assets. Our opinions are not modified with respect to these matters.

Correction of 2023 Financial Statements

As discussed in Note 2 of the accompanying financial statements, the fiscal year 2023 governmental activities, business-type activities, nonmajor enterprise fund, and the component unit financial statements have been restated to correct misstatements. Our opinions are not modified with respect to this matter.

Investments with Values that are not Readily Determined

As discussed in Note 7, the Virginia College Savings Plan major fund includes investments valued at \$1.8 billion (57.5 percent and 28.0 percent of the major fund and business-type activity total assets, respectively) and \$323.2 million for the private purpose trust fund (3.4 percent of the aggregate remaining fund information's total assets), whose fair values have been estimated by management in the absence of readily determinable values. Management's estimates are based on information provided by the fund managers or the general partners. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commonwealth of Virginia's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commonwealth of Virginia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgement, there are conditions or events considered in the aggregate that raise substantial doubt about the Commonwealth of Virginia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the following be presented to supplement the basic financial statements: Management's Discussion and Analysis on pages 27 through 37; Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - General and Major Special Revenue Funds; Schedule of Changes in Employer's Net Pension Liability; Schedule of Employer Contributions - Pension Plans; Schedule of Changes in Employers' Net Other Postemployment Benefit Liability (Asset); Schedule of the Commonwealth's Proportionate Share of the Net Other Postemployment Benefit Liability; Schedule of Employer Contributions - Other Postemployment Benefit Plans; Schedule of Changes in Employers' Total Other Postemployment Benefit Liability; Claims Development Information - Risk Management; Claims Development Information - Health Care; Claims Development Information - Line of Duty; and Notes to the Required Supplementary Information schedules on pages 201 through 244. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commonwealth of Virginia's basic financial statements. The Combining and Individual Fund Statements and Schedules are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Statements and Schedules are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, our report dated December 13, 2024, on our consideration of the Commonwealth of Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters is issued in the Commonwealth of Virginia Single Audit Report. We anticipate releasing that report on or before February 11, 2025. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Commonwealth of Virginia's internal control over financial reporting and compliance.

Staci A. Henshaw

AUDITOR OF PUBLIC ACCOUNTS

Management's Discussion and Analysis (Unaudited)

The following is a discussion and analysis of the Commonwealth of Virginia's (the Commonwealth) financial performance, including an overview and analysis of the financial activities of the Commonwealth for the fiscal year ended June 30, 2024. Readers should consider this information in conjunction with the transmittal letter, which is located in the Introductory Section of this report, and the Commonwealth's financial statements, including the notes to the financial statements, which are located after this analysis.

Financial Highlights

Government-wide Highlights

The primary government's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at June 30, 2024, by \$50.7 billion. Net position of governmental activities increased by \$4.9 billion and net position of business-type activities increased by \$152.4 million. Component units reported an increase in net position of \$4.5 billion from June 30, 2023.

Fund Highlights

At the end of the fiscal year, the Commonwealth's governmental funds reported a combined ending fund balance of \$25.6 billion, an increase of \$3.4 billion in comparison with the prior year. Of this total fund balance, \$757.0 million represents nonspendable fund balance, \$6.0 billion represents restricted fund balance, \$16.0 billion represents committed fund balance, and \$2.9 billion represents assigned fund balance. The Enterprise Funds reported net position at June 30, 2024, of \$3.5 billion, an increase of \$155.6 million during the year which is primarily attributable to increases for the Virginia College Savings Plan Fund (major). See page 33 for additional information regarding the Virginia College Savings Plan.

The General Fund recognized higher total fund assets, expenditures, and revenues as well as lower total fund liabilities, when compared to fiscal year 2023. See page 34 for additional information.

Long-term Debt

The Commonwealth's total debt rose during the fiscal year to \$57.5 billion, an increase of \$2.1 billion, or 3.8 percent. During the fiscal year, the Commonwealth issued new debt in the amount of \$1.4 billion and \$4.6 billion for the primary government and component units, respectively. Debt balances for the primary government increased to \$17.9 billion. Debt balances for the component units increased to \$39.6 billion.

Overview of the Financial Statements

This discussion and analysis is an introduction to the Commonwealth's basic financial statements, which include three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. The report also contains additional required supplementary information and other information.

Government-wide Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Commonwealth's finances in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the Commonwealth's financial position which helps readers determine whether the Commonwealth's financial position has improved or deteriorated during the fiscal year. These statements include all non-fiduciary financial activity on the full accrual basis of accounting. This means that all revenue and expenditures are reflected in the financial statements even if the related cash has not been received or paid as of June 30.

The Statement of Net Position (pages 40 and 41) presents information on all of the Commonwealth's assets and deferred outflows of resources, and liabilities and deferred inflows of resources; net position represents the difference between all other elements in a statement of financial position and is displayed in three components – net investment in capital assets; restricted; and unrestricted. Over time, increases or decreases in net position may indicate whether the financial position of the Commonwealth is improving or deteriorating.

The Statement of Activities (pages 42 through 44) presents information showing how the Commonwealth's net position changed during fiscal year 2024. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the Statement of Net Position and Statement of Activities report three separate activities. These activities are described as follows:

Governmental Activities – account for functions of the Commonwealth that are primarily supported by taxes and intergovernmental revenues. The majority of the Commonwealth’s basic services, such as education, individual and family services, transportation, resources and economic development, administration of justice, and general government, fall within this category.

Business-type Activities – account for functions that are intended to recover all or a significant portion of their costs through user fees and charges. The major business-type activities of the primary government include the Virginia Lottery, Virginia College Savings Plan, and Unemployment Compensation Fund.

Discretely Presented Component Units – account for functions of legally separate entities for which the Commonwealth is financially accountable. The Commonwealth has 25 non-higher education and 21 higher education component units that are reported as discretely presented component units. Information regarding the individual financial statements of the component units is presented in the notes to the financial statements.

This report includes two schedules (pages 48 and 52) that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities on the appropriate government-wide statements (full accrual accounting). The following indicates some of the reporting differences between the government-wide financial statements and the fund financial statements.

- Capital assets used in governmental activities are not reported on governmental fund statements.
- Long-term liabilities, unless due and payable, are not included in the fund financial statements. These liabilities are only included in the government-wide statements.
- Internal service funds are reported as governmental activities in the government-wide statements, but are reported as proprietary funds in the fund financial statements.
- Other long-term assets that are not available to pay for current period expenditures are deferred in the governmental fund statements, but not deferred in the government-wide statements.
- Capital outlay spending results in capital assets on the government-wide statements, but is reported as expenditures in the fund financial statements.
- Bond proceeds provide current financial resources on the fund financial statements, but are recorded as long-term liabilities in the government-wide financial statements.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commonwealth, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the Commonwealth’s funds can be divided into three categories: governmental, proprietary, and fiduciary. Each of these categories uses different accounting approaches. Fund financial statements begin on page 46 and provide detailed information about the major individual funds.

- **Governmental funds** – Most of the basic services provided by the Commonwealth are reported in the governmental funds. These statements provide a detailed, short-term view of the functions reported as governmental activities in the government-wide financial statements. The government-wide financial statements are reported using the full accrual basis of accounting, but the governmental fund financial statements are reported using the modified accrual basis of accounting. This allows the reader to focus on assets that can be readily converted to cash and determine whether there are adequate resources to meet the Commonwealth’s current needs.

Because the focus of governmental funds is more limited than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This comparison can help readers better understand the long-term impact of the Commonwealth’s near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The Commonwealth reports 15 individual governmental funds. Information is presented separately in the governmental fund statements for the General, Commonwealth Transportation, Federal Trust, and Literary funds, which are all considered major funds. Data from the other 11 governmental funds are aggregated into a single column on the fund statements. Individual fund data for these nonmajor governmental funds is provided in the combining financial statements immediately following the required supplementary information.

- **Proprietary funds** – The Commonwealth maintains two different types of proprietary funds: enterprise and internal service. These funds report activities that operate more like those of private-sector business and use the full accrual basis of accounting.

Enterprise funds report activities that charge fees for supplies or services to the general public like the Virginia Lottery. Enterprise funds are reported as business-type activities on the government-wide financial statements. The enterprise funds use the full accrual basis of accounting and the only differences between amounts reported on the government-wide statements and the enterprise fund statements are due to internal service fund activity (see reconciliations on pages 54 and 56).

Internal service funds report activities that charge fees for supplies and services to other Commonwealth agencies, like Fleet Management. Internal service funds are reported as governmental activities in the government-wide statements because these types of services predominantly benefit governments rather than business-type functions.

The Commonwealth reports 26 individual proprietary funds. Information is presented separately in the proprietary fund statements for the Virginia Lottery, Virginia College Savings Plan, and Unemployment Compensation Funds, all of which are considered major funds. Data from the other enterprise funds is aggregated into a single column on the fund statements. All internal service funds are aggregated into a single column on the fund statements. Individual fund data for all nonmajor proprietary funds is provided in the combining financial statements immediately following the required supplementary information.

- **Fiduciary funds** – These funds are used to account for resources held for the benefit of parties outside the government and use the full accrual basis of accounting in accordance with GASB Statement No. 84, *Fiduciary Activities*. Fiduciary funds are excluded from the government-wide financial statements because the resources of these funds are restricted and cannot be used to finance the Commonwealth’s operations. The Commonwealth’s fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position beginning on page 64.

The Commonwealth’s fiduciary funds are the:

- Private Purpose Trusts, which reports the activities for four separate funds and accounts for transactions of trust arrangements in which the principal and income benefit individuals, private organizations, or other governments;
- Pension and Other Employee Benefit Trusts, which reports the activities of nine separate pension and other employment retirement plans for employees;
- Custodial Funds - External Investment Pool, which accounts for the activity of the external investment pool not meeting the GASB Statement No. 84 trust criteria; and,
- Custodial Funds - Other, which accounts for 10 separate funds similar to Private Purpose Trust Funds except they do not have a trust that meets GASB Statement No. 84 criteria.

Individual fund data for all fiduciary funds is provided in the combining financial statements immediately following the required supplementary information.

- **Component Units** – The government-wide financial statements report information for all component units aggregated in a single column. Information is provided separately in the component unit fund statements for the Virginia Housing Development Authority, Virginia Public School Authority, Virginia Resources Authority, and Virginia College Building Authority, all of which are considered major component units. Data from the other component units is aggregated into a single column on the fund statements. Individual fund data for all nonmajor component units is provided in the combining financial statements immediately following the required supplementary information.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the component unit fund financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section includes budgetary comparison schedules reconciling the statutory and generally accepted accounting principles fund balances at June 30. It also includes information concerning net pension liability, other postemployment benefit liability plans, and employer contributions for pension and other postemployment benefit plans, as well as trend information for Commonwealth-managed risk pools.

Other Information

The combining statements referred to earlier in connection with nonmajor funds and component units can be found beginning on page 248 of this report. The individual fund information is aggregated into a single total on the combining financial statements, which carries forward to the fund financial statements.

Government-wide Financial Analysis

The primary government's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$50.7 billion during the fiscal year. The net position of the governmental activities increased \$4.9 billion, or 11.7 percent, primarily due to increases in cash, cash equivalents, and investments related to General Fund (major) and Transportation Fund (major), receivables predominantly relating to Federal Trust Fund (major), and capital assets, which were offset by increases in long-term liabilities outstanding. Additionally, the change was due to GASB Implementation Guide 2021-1, Question 5.1 regarding group assets discussed further in Note 2. The General Fund is discussed further on page 34. Capital assets are discussed further on page 35, and long-term liabilities are discussed further on page 36. Business-type activities had an increase of \$152.4 million, or 4.5 percent, primarily due to increases in the Virginia College Savings Plan (major). See page 33 for additional information regarding the Virginia College Savings Plan. As discussed in Note 2, the government-wide beginning balance was restated for GASB Implementation Guide 2021-1, Question 5.1 regarding group assets and the correction of prior year errors to arrive at a restated beginning balance of \$45.8 billion. Fiscal year 2023 amounts in figures 11 and 12 do not include impacts for prior year adjustments made for restatements associated with changes in accounting principle or reporting entities.

Unrestricted	13,224,140	9,664,726	1,922,891	1,719,617	15,147,031	11,384,343
Total net position	\$ 47,183,073	\$ 42,249,483	\$ 3,507,842	\$ 3,355,417	\$ 50,690,915	\$ 45,604,900

The largest portion of the primary government's net position reflects its investment in capital assets (e.g., land, buildings, equipment, infrastructure, construction-in-progress, right-to-use intangible assets, and intangible assets including water rights, easements and software), less any related outstanding debt and deferred inflows of resources used to acquire those assets. These assets are recorded net of depreciation and amortization in the financial statements. The primary government uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Although the primary government's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities (**Figure 11**).

An additional portion of the primary government's net position represents restricted net position. These resources are subject to external restrictions or constitutional provisions specifying how they may be used. The remaining balance of \$15.1 billion is unrestricted net position (**Figure 11**). The significant increase in restricted net position is primarily due to the required constitutional deposit to the Revenue Stabilization Fund discussed in Note 5.

Approximately 49.4 percent of the primary government's total revenue came from taxes. While the primary government's expenses cover many services, the largest expenses are for individual and family services and education. General revenues normally fund governmental activities. For fiscal year 2024, program and general revenues exceeded governmental expenses by \$3.6 billion. Program and general revenues exceeded expenses from business-type activities by \$1.4 billion. The following condensed financial information (**Figure 12**) was derived from the Government-wide Statement of Activities and provides detail regarding the change in net position (see page 42).

Governmental Activities Revenues

Figure 13 is a graphical representation of the Statement of Activities revenues for governmental activities. Governmental activities revenues increased by \$4.9 billion, or 7.5 percent. The net increase is mainly attributable to increases in the General Fund (see page 34).

**Figure 13
Revenues by Source – Governmental Activities
Fiscal Year 2024**

Governmental Activities Expenses

Figure 14 is a graphical representation of the Statement of Activities expenses for governmental activities. Governmental activities expenses increased by \$3.1 billion, or 4.9 percent. While there were increases in multiple expense types, the largest increase was in Education. See pages 34 and 35 for additional information.

**Figure 14
Expenses by Type – Governmental Activities
Fiscal Year 2024**

Net Position of Business-type Activities

Net position of business-type activities increased by \$152.4 million during the fiscal year. As shown in **Figure 15**, highlights of the changes in net position for the major enterprise funds were as follows:

- Lottery sales were \$5.5 billion, an increase of \$909.0 million over the prior year. Income before transfers was \$956.6 million, an increase of \$74.0 million (8.4 percent) from fiscal year 2023. Sales of scratch games increased by \$32.4 million (2.5 percent) and non-scratch game sales increased by \$876.7 million (26.3 percent). Total expenses also increased by \$840.3 million (22.5 percent), primarily attributable to the cost of prizes.
- Virginia College Savings Plan’s net position increased by \$160.8 million (9.7 percent) during the fiscal year as a result of total revenues exceeding incurred expenses. While Prepaid529 is closed to new participants, existing customers are still being serviced. Additionally, the Tuition Track Portfolio activity grew during fiscal year 2024 and is expected to continue growing in future years. However, the current year change was not significant to the total fund change. During the fiscal year, the majority of the net position increase is attributed to the long-term investment gains as compared to the previous year.
- Unemployment Compensation Fund net position decreased by \$33.7 million during fiscal year 2024, as a result of benefits paid exceeding operating revenues.

Over the one-year period from July 1, 2023, to June 30, 2024, the unemployment rate average was 2.9 percent. The amount of overall individuals receiving unemployment claims increased by 35,665 and the average benefit duration increased from 10.1 weeks to 12.2 weeks. Additionally, there was an increase in the average weekly benefit amounts from approximately \$344.74 to \$345.85 in fiscal year 2024. These multiple influences led to an increase in the total benefit payments of \$84.0 million over the prior year.

Business-type Activities
Program Revenues and Expenses
Fiscal Year 2024
(Dollars in Thousands)**

Fund Statements Financial Analysis

As of the end of the fiscal year, the primary government's governmental funds reported combined ending fund balances of \$25.6 billion. The fund balance includes nonspendable, restricted, committed, or assigned to indicate that it is not available for new spending.

General Fund Highlights

At the end of the fiscal year, the General Fund reported a combined ending fund balance of \$14.9 billion, an increase of \$2.4 billion in comparison with the prior year. Of this total fund balance, \$151.0 million represents nonspendable fund balance, \$2.9 billion represents restricted fund balance, \$9.0 billion represents committed fund balance, and \$2.8 billion represents assigned fund balance.

Fiscal year 2024 General Fund revenues were 15.7 percent, or \$4.5 billion, higher than fiscal year 2023 revenues. This revenue change was due primarily to an overall increase in taxes collected of \$3.8 billion, which was primarily attributable to a growth in employment and wages paired with a decrease in refunds due to policy changes within individual and fiduciary income taxes. This was coupled with an increase in interest, dividends, and rents of \$705.3 million which was due to overall market interest rates.

Fiscal year 2024 expenditures increased by 9.4 percent, or \$2.7 billion, when compared to fiscal year 2023. While most expenditures categories increased during fiscal year 2024, the largest increases were primarily attributable to education and individual and family services expenditures of \$994.8 million and \$1.2 billion, respectively. Net other financing sources and uses decreased by \$257.2 million, which is primarily due to higher transfers out to other funds offset by an increased transfers in from other funds coupled with an increase in issuance of long-term subscription-based information technology arrangements (SBITAs).

Budget Highlights

The General Fund began the year with an original revenue budget that was \$2.5 billion, or 9.3 percent, higher than the final fiscal year 2023 revenue budget. Additionally, the final revenue budget was higher (\$984.3 million) than the original budget. The change between the original and final budget was primarily attributable to increases in the final budget for interest, dividends, and rents (\$565.2 million) and corporation income (\$423.2 million). Total actual General Fund revenues were higher than final budgeted revenues by \$1.4 billion primarily due to individual and fiduciary income taxes (\$1.2 billion), interest, dividends, and rents (\$290.8 million), and sales use taxes (\$216.9 million) which were offset by decreases in corporation income (\$306.4 million).

Total final budget expenditures were higher than original budget expenditures by \$4.7 billion, or 15.3 percent. This change between the original and final budget was primarily attributable to increases of budgeted expenditures for education of \$1.9 billion, resources and economic development of \$1.1 billion, capital outlay of \$898.3 million, general government of \$533.4 million, and administration of justice of \$352.7 million. This was offset by decreases for individual and family services of \$147.9 million.

The Commonwealth spent less than planned so actual expenditures were \$4.0 billion, or 11.4 percent, lower than final budget expenditures. This was primarily attributable to capital outlay (\$1.2 billion), resources and economic development (\$978.5 million), education (\$876.1 million), general government (\$398.2 million), and individual and family services (\$224.6 million).

Budget Outlook

For the third straight year, Virginia experienced economic growth in its recovery from the effects of the COVID-19 pandemic. Employment rates continued to rise, albeit at a slower rate, and real personal income increased during the fiscal year. The state's unemployment rate remained steady in both metropolitan and non-metropolitan areas. Some state economic activity measures, such as real taxable sales and residential building permits, continued to decline, however. Housing prices continued to outpace inflation, as available home inventories remained below normal levels. During fiscal year 2024, the two General Fund revenue sources that are most closely tied to current economic activity are individual income taxes and retail sales taxes. Individual income taxes increased by \$1.3 billion, which was offset by retail sales taxes, decreasing by \$24.9 million. The individual income tax collections were more than the estimated revenue by \$1.2 billion (6.5 percent), and the retail sales taxes were more than the estimated revenue by \$193.9 million (4.3 percent).

The fiscal year 2024 revenue collections exceeded the fiscal year 2024 collections estimate and increased from the fiscal year 2023 collections. Based on the most recent General Fund revenue estimate, the fiscal year 2025 revenue is projected to decrease by 3.0 percent when compared to the fiscal year 2024 revenue collections. This projected planned decrease is primarily a result of the economic uncertainty that is associated with leading economic indicators suggesting continued growth, albeit at a moderated pace. The Governor will release his amendments to the 2024-2025 biennial budget on December 18, 2024.

Major Special Revenue Fund Highlights

The Commonwealth Transportation Fund ended the fiscal year with a fund balance of \$5.8 billion. Approximately \$5.4 billion is contractually committed for various highways, public transportation, and rail preservation projects; \$1.8 billion for individual contracts awarded with a contract value of \$1.0 million or more for operational and tolling services, facilities, and other non-highway construction-type contracts (see Note 21). Additionally, revenues increased \$275.1 million, or 3.2 percent, and expenditures increased \$680.1 million, or 9.1 percent. The revenue increase was primarily due to increases in interest income of \$150.2 million, or 111.6 percent, increases in receipts from localities of \$142.5 million, or 30.0 percent, and tax collections of \$134.1 million, or 2.4 percent, offset by a decrease in federal support of \$236.4 million, or 16.8 percent. Expenditures increased mainly for highway maintenance, acquisition, and construction for \$630.2 million and capital outlay for \$41.0 million.

The Federal Trust Fund balance increased by \$15.2 million, or 7.3 percent during the current year. The change is primarily due to an increase in non-reimbursement based grants relating to low-income home energy assistance and an increase in donated vaccines from the U.S Department of Health. The change in Federal Grants and Contracts (\$245.8 million) is mainly attributed to decreases in funding received from the federal government for Medicaid and COVID-19. The Other revenue (\$167.8 million) decrease is associated with timing of Medicaid Rebate collections. Expenditures decreased (\$597.6 million) primarily due to Medicaid spending. Net other financing sources and uses experienced a decrease of \$24.5 million, or 97.7 percent, primarily attributable to the reduction in long term Subscription-Based Information Technology Arrangements issued which decreased by \$26.9 million or 84.2 percent. This was offset by higher transfers out to other funds.

The Literary Fund ending balance increased by \$231.9 million, or 70.2 percent. The change is primarily due to transfers from unclaimed property and lottery for \$220.5 million. Revenue exceeded expenditures by \$11.4 million in fiscal year 2024, which is \$24.9 million more than fiscal year 2023. Additionally, loans of \$195.3 million owed to the Virginia Public School Authority (major component unit) increased by \$3.6 million, or 1.9 percent.

Capital Asset and Long-term Debt

Capital Assets. The primary government's investment in capital assets for its governmental and business-type activities as of June 30, 2024, amounts to \$42.0 billion (net of accumulated depreciation and amortization totaling \$21.2 billion). This investment in capital assets includes land, buildings, improvements, equipment, infrastructure, construction-in-progress, and intangible assets including water rights, easements, and software, as well as intangible right-to-use assets. Infrastructure assets are items that are normally immovable such as roads, bridges, drainage systems, and other similar assets. The increase in the primary government's net investment in capital assets was primarily attributable to the addition of infrastructure of \$1.2 billion. The primary government reports equipment with a value of \$50,000 or greater (individually or in aggregate) and an expected useful life of two or more years. The primary government capitalizes all land, buildings, infrastructure, and non right-to-use intangible assets that have a cost or value greater than \$100,000, and an expected useful life of two or more years. In addition, the primary government reports right-to-use intangible assets of equipment, land, and buildings with a present value of \$50,000 or greater, subscription-based information technology arrangements with a present value of \$5,000 or greater and an expected useful life of greater than one year. Additional information on the primary government's capital assets can be found in Note 13, Capital Assets.

Total	<u>\$ 41,430,290</u>	<u>\$ 521,188</u>	<u>\$ 41,951,478</u>

Long-term Debt. The Commonwealth is prohibited from issuing general obligation bonds for operating purposes. At the end of the current fiscal year, the Commonwealth had total debt outstanding of \$57.5 billion, including total tax-supported debt of \$23.2 billion and total debt not supported by taxes of \$34.3 billion. Bonds backed by the full faith and credit of the government and tax-supported total \$1.1 billion. Debt is considered tax-supported if Commonwealth tax revenues are used or pledged for debt service payments. An additional \$918.0 million is considered moral obligation debt which is not tax-supported. The Commonwealth has no direct or indirect pledge of tax revenues to fund reserve deficiencies. However, in some cases, the Commonwealth has made a moral obligation pledge to consider funding deficiencies in debt service reserves that may occur. The remainder of the Commonwealth's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

During fiscal year 2024, the Commonwealth issued \$6.0 billion of new debt for various projects. Of this new debt, \$1.4 billion was for the primary government and \$4.6 billion for the component units. Additional information on the Commonwealth's outstanding debt can be found in Note 27, Long-Term Liabilities, as well as in the Debt Schedules beginning on page 314. The Commonwealth maintains a "triple A" bond rating for general obligation debt from the three rating agencies: Moody's Investors Service, S & P Global Ratings, and Fitch Ratings.

State statutes limit the amount of general obligation debt the Commonwealth may issue for each specific type of debt. The 9(a) bonds, which may be issued to fund the defense of the Commonwealth, to meet casual deficits in revenue or in anticipation of the collection of revenues, or to redeem previous debt obligations, are limited to 30.0 percent of 1.15 times the annual tax revenues for fiscal year 2024. The 9(b) bonds, which have been authorized by the citizens of Virginia through bond referenda to finance capital projects, are limited to 1.15 times the average of selected tax revenues for fiscal years 2022, 2023, and 2024. The 9(c) bonds, which have been issued to finance capital projects that will generate revenue upon their completion, are limited to 1.15 times the average of selected tax revenues for fiscal years 2022, 2023, and 2024. The current debt limitation for the Commonwealth is shown below for the 9(a), 9(b), and 9(c) general obligation bond issues. These limits significantly exceed the Commonwealth's outstanding general obligation debt.

Economic Factors and Review

Virginia's economy continued its path of employment growth in fiscal year 2024, although the rate of increase at 1.8 percent represented a slowing from the 2.9 percent the year before. Real personal incomes increased by 3.0 percent, due in large part to the role of the increase in real wages and salaries. Other economic metrics were not as favorable. Real taxable sales decreased by 1.0 percent, perhaps due to continued trends in post-pandemic consumer spending. Virginia housing market activity adjusted slightly to the effects of rising mortgage interest rates. Existing home sales and residential building permit issuance decreased at a slower rate than the prior year. Although housing price appreciation slowed, limited inventory continued to affect housing prices. Inflation began to ease some by the end of fiscal year 2024. Continued restrictive monetary policies by the Federal Reserve helped slow inflation during fiscal year 2024.

Requests for Information

This financial report is designed to provide a general overview of the Commonwealth's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the State Comptroller's Office, Commonwealth of Virginia, P. O. Box 1971, Richmond, Virginia 23218. This report is also available for download at www.doa.virginia.gov.

The Commonwealth's component units issue their own separate financial statements. Contact information regarding each component unit is provided in Note 1.B.

Governmental Funds

General Fund

The General Fund accounts for transactions related to resources received and used for those services traditionally provided by a state government, which are not accounted for in any other fund.

Special Revenue Funds

Special Revenue Funds account for specific revenue sources that are restricted or committed to finance particular functions and activities of the Commonwealth.

The Commonwealth Transportation Fund accounts for the revenues and expenditures associated with highway operations, maintenance, construction, and other transportation related activities. Funding for these programs is provided from highway user taxes, fees, and funds received from the federal government.

The Federal Trust Fund accounts for all federal dollars, including the COVID-19 funding, received by the Commonwealth except those received by the Commonwealth Transportation Fund, the Unemployment Compensation Fund, certain Medicaid reimbursements recorded in the

General Fund, the Grant Anticipation Revenue Notes and Build America Bond Subsidies reported in the Debt Service Fund, and institutions of higher education. The entire fund is restricted pursuant to federal regulations.

The Literary Fund accounts for revenues from fines, forfeitures, and proceeds from unclaimed property used primarily to support public education in the Commonwealth. This fund provides low interest loans to school divisions for construction, renovations, and expansion of school buildings. The entire fund is constitutionally restricted for public schools.

Nonmajor Governmental Funds include those Special Revenue, Debt Service, Capital Projects, and Permanent Funds listed on page 247 in the Combining and Individual Fund Statements and Schedules section of this report.

Reconciliation of the Balance Sheet – Governmental Funds to the Government-wide Statement of Net Position

June 30, 2024

(Dollars in Thousands)

Total fund balances - governmental funds (see Balance Sheet - Governmental Funds) \$ 25,612,922

When the amount employers have paid into an other post-employment benefit (OPEB) plan combined with the plan's assets exceeds the amount that is required to pay the actuarially determined future benefits, the cost of employer contributions are reported as expenditures in the governmental funds. However, the Statement of Net Position includes the Net OPEB asset among the assets of the primary government as a whole. 183,826

When capital assets (land, buildings, equipment, construction-in-progress, intangible assets, right-to-use intangible assets, and/or infrastructure) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the Statement of Net Position includes those capital assets among the assets of the primary government as a whole.

Nondepreciable Capital Assets 12,225,908

Other Capital Assets 28,682,874

Assets to be received for Long-term Debt Service requirements are not reported in the fund statements. 22,581

Deferred outflows associated with pension and other postemployment benefit related costs are long-term in nature and, therefore, not reported in the funds. 1,744,190

Deferred outflows associated with loss on debt refundings are long-term in nature and, therefore, not reported in the funds. 16,161

Long-term liabilities applicable to the primary government's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the Statement of Net Position.

Net Pension Liability (3,703,078)

Net OPEB Liability (760,505)

Total OPEB Liability (188,106)

Long-term Leases (65,647)

Long-term SBITAs (190,990)

Installment Purchases (56,329)

Compensated Absences (374,931)

Uninsured Employer's Fund (23,569)

Bonds (9,962,749)

Accrued Interest Payable (74,916)

Pollution Remediation Liability (4,115)

Internal service funds are used by the primary government to charge costs to individual funds. The assets and deferred outflows, and liabilities and deferred inflows of internal service funds are included in governmental activities in the Statement of Net Position. 201,048

Other long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds. (1,683,819)

Deferred inflows are not available to pay for current period expenditures and, therefore, are not reported in the funds. 2,631,301

Deferred inflows associated with Service Concession Arrangements capital assets are long-term in nature and, therefore, not reported in the funds. (5,805,518)

Deferred inflows associated with pension and other postemployment benefit related costs are long-term in nature and, therefore, not reported in the funds. (1,183,829)

Deferred inflows associated with gain on debt refundings are long-term in nature and, therefore, not reported in the funds. (59,637)

Net position of governmental activities (see Government-wide Statement of Net Position) \$ 47,183,073

The accompanying notes are an integral part of this financial statement.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds to the Government-wide Statement of Activities

For the Fiscal Year Ended June 30, 2024

(Dollars in Thousands)

Net Change in fund balances - total government funds (See Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds) \$ 3,424,606

When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net position decreases by the amount of depreciation and amortization expense charged for the year.

Nondepreciable Capital Assets Constructed/Acquired	2,277,271
Nondepreciable Capital Assets Disposed	(61,810)
Other Capital Assets Acquired	1,079,981
Other Capital Assets Disposed	(7,092)
Depreciation and Amortization Expense	(1,676,448)

Debt proceeds provide current financial resources to governmental funds by issuing debt, which increases long-term debt in the Statement of Net Position.

Debt Issuance	(502,483)
Long-term Lease Proceeds	(4,277)
Long-term SBITA Proceeds	(129,962)
Bond Premiums	(108,642)
Refunding Bonds Issued	(590,295)
Installment Purchase Proceeds	(2,887)

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term debt in the Statement of Net Position. 556,129

In-substance debt defeasance 6,425

Payment to Refunded Bond Escrow Agent is an expenditure in the governmental funds, but the refunding reduces long-term debt in the Statement of Net Position. 662,089

Some revenues in the Statement of Activities do not provide current financial resources and, therefore, are deferred inflows of resources in the funds. Also, revenues related to prior periods that became available during the current period are reported in the funds but are eliminated in the Statement of Activities. This amount is the net adjustment. (157,467)

Increases/decreases of expenses reported in the Statement of Activities that do not require the use of, or provide, current financial resources and, therefore, are not reported in the governmental funds.

Increase (Decrease) in Net OPEB Asset	15,485
(Increase) Decrease in Net Pension Liability	221,240
(Increase) Decrease in Net OPEB Liability	(10,859)
(Increase) Decrease in Total OPEB Liability	117,981
(Increase) Decrease in Other Long-term Liabilities	32,133
(Increase) Decrease in Compensated Absences	(12,912)
(Increase) Decrease in Interest Expense, Amortization of Long-term Debt premium and discounts, and Accrued Interest Liability	91,850
(Increase) Decrease in Other Liabilities	(59,970)

Net (increase) decrease in Due to Component Units for capital and other projects resulting from appropriation reductions or amounts which are not reported as expenditures in the fund statements. (327,491)

Net revenue (expenses) of certain activities of internal service funds is reported within governmental activities. (116,350)

Deferred inflows and outflows associated with pension and OPEB costs are not included in the funds. (43,143)

Amortization of deferred inflows and/or outflows associated with Service Concession Arrangements capital assets are not included in the funds. 109,730

Change in net position of governmental activities (See Government-wide Statement of Activities) \$ 4,782,832

The accompanying notes are an integral part of this financial statement.

Proprietary Funds

The Proprietary Funds account for operations that are financed and operated in a manner similar to private business enterprises. It is the intent that the cost of providing such goods or services will be recovered through user charges.

Major Enterprise Funds

The Virginia Lottery accounts for receipts and expenses from the operations of the Virginia Lottery, excluding activity related to the regulation and compliance monitoring of casinos and sports betting.

The Virginia College Savings Plan administers the Defined Benefit 529 Program, which consists of two savings options: Prepaid529 and Tuition Track Portfolio. Prepaid529 services contracts that provide for full future tuition and mandatory fee payments at Virginia's higher education institutions and

differing payouts at private or out-of-state institutions using actuarially determined amounts. Prepaid529 is closed to new contracts. The Tuition Track Portfolio allows for the purchase of units to be redeemed for future tuition costs. The value of a unit is tied to the average tuition inflation rate of Virginia four year institutions.

The Unemployment Compensation Fund administers the temporary partial income replacement payments to unemployed covered workers.

Nonmajor Enterprise Funds include those operations of state agencies which are listed on page 259 in the Combining and Individual Fund Statements and Schedules section of this report.

Internal Service Funds include those operations of state agencies which are listed on page 275 in the Combining and Individual Fund Statements and Schedules section of this report.

Fiduciary Funds

Private Purpose Trust Funds

Private Purpose Trust Funds reflect funds that benefit individuals, organizations, and other governments; have a trust that meets GASB Statement No. 84, Fiduciary Activities, criteria; and are not required to be reported in another fiduciary fund type.

Pension and Other Employee Benefit Trust Funds

Pension and Other Employee Benefit Trust Funds reflect activities of the pension, other postemployment, and employee benefit plans with trusts that meet GASB Statement No. 84 criteria, and are administered by the Virginia Retirement System.

Custodial Funds - External Investment Pool

Custodial Funds - External Investment Pool reflects the external portion of the Local Government Investment Pool sponsored by the Commonwealth. This fund does not have a trust that meets GASB Statement No. 84 criteria.

Custodial Funds - Other

Custodial Funds - Other reflect funds that are similar to Private Purpose Trust Funds, except they do not have a trust that meets GASB Statement No. 84 criteria.

A listing of all Fiduciary Funds is located on pages 284-285 in the Combining and Individual Fund Statements and Schedules section of this report. Combining financial statements for all Fiduciary Funds begin on page 286.

Component Units

Component Units are organizations that are legally separate from the primary government. Each discrete component unit serves or benefits those outside of the primary government.

The Virginia Housing Development Authority provides financing for the acquisition, construction and rehabilitation of affordable housing for home ownership or occupancy by low or moderate income Virginians.

The Virginia Public School Authority provides financing to cities and counties for capital construction of primary and secondary schools.

The Virginia Resources Authority provides financing for the construction of local water supply and wastewater treatment facilities and other local infrastructure projects.

The Virginia College Building Authority provides financing of capital projects and equipment purchases by state-supported colleges and universities.

Nonmajor Component Units include those listed on pages 300-301 in the Combining and Individual Fund Statements and Schedules section of this report.

Notes to the Financial Statements

June 30, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements have been prepared in conformance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB).

B. Reporting Entity

For financial reporting purposes, the Commonwealth of Virginia's (the Commonwealth's) reporting entity consists of (1) the primary government, (2) component unit organizations for which the primary government is financially accountable or for which the resources of the component unit primarily benefit the primary government (blended component units), and (3) other component unit organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading, and they are financially accountable to the primary government (discrete component units). The funds of all agencies, boards, commissions, foundations, and authorities that have been identified as part of the primary government or a component unit have been included. GASB standards require the inclusion of numerous organizations that raise and hold funds for the direct benefit of the primary government.

Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards* (GASB Codification) describes the criteria for determining which organizations, functions, and activities should be considered part of the Commonwealth for financial reporting purposes. The basic criteria include appointing a voting majority of an organization's governing body, and the Commonwealth's ability to impose its will on that organization or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Commonwealth. Additionally, in instances where the voting majority is not appointed, the above benefit/burden criteria apply. If the organization's assets are also held for, or can be accessed by, the Commonwealth, the organization is considered part of the reporting entity.

(1) Primary Government – A primary government consists of all the organizations that make up its legal entity. All funds, organizations, institutions, agencies, and departments are, for financial reporting purposes, part of the primary government.

(2) Blended Component Units – Though legally separate entities, these component units are, in substance, part of the primary government's operations. The blended component units serve or benefit the primary government almost exclusively. Financial information from these units is combined with that of the primary government. The Commonwealth's blended component units are:

Virginia Public Building Authority (nonmajor governmental fund) – The Authority was created as a body politic and corporate and is fiscally independent. A government instrumentality, the Authority finances the acquisition and construction of buildings for the use of the Commonwealth and other approved purposes. The Governor appoints the 7-member board, and the primary government is able to impose its will on the Authority. The Auditor of Public Accounts (APA) audits the Authority, and a separate report is issued from the Department of the Treasury, Post Office Box 1879, Richmond, Virginia 23218-1879.

Hampton Roads Transportation Accountability Commission (nonmajor governmental fund) – The Commission is a political subdivision of the Commonwealth of Virginia, created by the Hampton Roads Transportation Accountability Commission Act. The Commission has a 23-member board comprised primarily of representatives from participating localities in Planning District 23. Its primary function is determining how the Hampton Roads Transportation Fund regional sales and use tax and fuel tax monies will be invested in new construction projects to provide the greatest impact on reducing congestion for the greatest number of citizens residing within Planning District 23. Based on the projects that the Commission is presently funding, the majority of capital assets funded by the Commission are reported as Commonwealth assets by the Virginia Department of Transportation (VDOT) (part of primary government). Accordingly, while the Commonwealth is not obligated to pay the Commission's debt, it would be misleading to exclude the Commission from the Commonwealth's financial statements. The administrative offices of the Commission are located at 723 Woodlake Drive, Chesapeake, Virginia 23320. The Commission is audited by PBMares, LLP.

Virginia Alcoholic Beverage Control Authority (nonmajor enterprise fund) – The Authority was created as an independent political subdivision of the Commonwealth, exclusive of the legislative, executive, or judicial branches of state government. A government instrumentality,

the Authority controls the possession, sale, transportation, distribution, and delivery of alcoholic beverages in the Commonwealth. The Governor appoints the 5-member board, and while an independent entity, the Authority works in concert with all branches of the government. Additionally, all net profits of the Authority are transferred to the General Fund of the Commonwealth after required disbursements are made in accordance with the Appropriations Act. The administrative offices of the Authority are located at 7450 Freight Way, Mechanicsville, Virginia 23116. The Auditor of Public Accounts (APA) audits the Authority, and a separate report is issued.

- (3) **Discrete Component Units** – Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the primary government. They are financially accountable to the primary government, or have relationships with the primary government such that exclusion would cause the reporting entity's financial statements to be misleading. These discrete component units serve or benefit those outside of the primary government.

GASB statements generally require any organization that raises and holds economic resources for the direct benefit of the reporting entity to be reported as a component unit, even if the reporting entity is not financially accountable for the organization. The entities are included in the Commonwealth's reporting entity as nonprofit charitable organizations and exist solely to support the Commonwealth's higher education institutions and certain state agencies. The higher education institution nonprofit organizations are included in the applicable higher education institution's column in the accompanying financial statements. In all instances where separate disclosure of these nonprofit organizations is required in the accompanying footnotes, the entities' totals are aggregated and disclosed as "foundations".

The criteria for reporting certain component units as major component units focuses on the nature and significance of the component unit's relationship to the primary government versus other component units.

Discretely presented component units are:

Virginia Housing Development Authority (major) – The Authority was created as a political subdivision and instrumentality of the Commonwealth and is granted both political and corporate powers by the *Code of Virginia*. The Governor appoints a majority of the Authority's board members and the remaining board members are ex-officio. The Commonwealth may make grants to the Authority including, but not limited to, reserve funds, which is a potential financial benefit/burden to the primary

government. The Commonwealth is not legally obligated by the debt of the Authority. The Authority was created in the public interest to provide the financing for the acquisition, construction, and rehabilitation of affordable housing for home ownership or occupancy by low or moderate income Virginians. The administrative offices of the Authority are located at 601 South Belvidere Street, Richmond, Virginia 23220. CliftonLarsonAllen, LLP audits the Authority, and a separate report is issued.

Virginia Public School Authority (major) – The Authority was created as a public body corporate, and an agency and instrumentality of the Commonwealth to finance capital projects of city and county school boards. The Governor appoints the board members, who serve at his pleasure. Therefore, the primary government is able to impose its will on the Authority. The Auditor of Public Accounts (APA) audits the Authority, and a separate report is issued from the Department of the Treasury, Post Office Box 1879, Richmond, Virginia 23218-1879.

Virginia Resources Authority (major) – The Authority was created as a public body corporate and a political subdivision of the Commonwealth to provide financing of infrastructure projects for water supply, wastewater, storm water, solid waste treatment, airports, public safety, brownfields remediation and redevelopment, and other infrastructure projects. The Governor appoints the 11-member board and the Executive Director of the Authority. The primary government is able to impose its will on the Authority, and there is a financial benefit/burden to the primary government. The Commonwealth does not guarantee any bonds issued by the Authority, however, the Authority has outstanding bonds that are backed by the moral obligation of the Commonwealth. The administrative offices of the Authority are located at 1111 East Main Street, Suite 1920, Richmond, Virginia 23219. CliftonLarsonAllen, LLP audits the Authority, and a separate report is issued.

The Authority issued bonds through the Virginia Green Communities Program (VGCP), which uses the Commonwealth's allocation of Qualified Energy Conservation Bonds to provide subsidized financing for energy efficiency, renewable energy, alternative fueling, and other qualified conservation purposes. The Authority is a conduit issuer for public borrowers with a third-party funding source providing financing for eligible projects. The terms of the VGCP bonds stipulate that the Authority does not guarantee repayment of principal and interest to the bondholders. In accordance with GASB Statement 91, conduit debt liabilities and the associated loan assets are not recorded on the Statement of Net Position.

Virginia College Building Authority (major) – The Authority was created as a public body corporate, a political subdivision, and an agency

and instrumentality of the Commonwealth. The Governor appoints a majority of the board and members serve at his pleasure. Therefore, the primary government is able to impose its will on the Authority. The Authority finances certain capital projects and equipment purchases of state-supported colleges and universities. The Auditor of Public Accounts (APA) audits the Authority, and a separate report is issued from the Department of the Treasury, Post Office Box 1879, Richmond, Virginia 23218-1879.

Only the activity of the Authority that relates to the financing of capital projects and equipment purchases by state-supported colleges and universities is included in the accompanying financial statements. The state-supported colleges and universities reported revenue from the Authority of \$464.0 million as Program Revenue Capital Grants and Contributions for the 21st Century Program and \$103.0 million as Program Revenue Operating Grants and Contributions for equipment. The Authority reported Operating Appropriations from Primary Government of approximately \$562.9 million. In addition, the Authority reported approximately \$31.5 million in payments from the state-supported colleges and universities for 21st Century and Equipment Program debt service costs and approximately \$3.9 million in interest on Build America Bonds. Eliminations have been made related to the Pooled Bond program to prevent the overstatement of assets and liabilities since higher education institutions also report assets and liabilities related to this program.

The Authority assists private institutions of higher education in the financing and refinancing of a broad range of facilities. The Authority is authorized to issue obligations and lend the proceeds to private institutions; however, such financings or refinancings are not obligations of the primary government nor the Authority, but are payable solely from the revenues pledged by the respective private institution. This indebtedness, totaling \$592.2 million, is not included in the accompanying financial statements.

Higher Education Institutions (nonmajor) – The Commonwealth's higher education institutions are granted broad corporate powers by state statutes. The Governor appoints the members of each institution's board of trustees. In addition to the annual appropriations to support the institutions' operations, the Commonwealth provides funding for, and construction of, major academic plant facilities for the institutions. Institutions reported Operating Appropriations from the Primary Government of approximately \$3.2 billion and Program Revenue Capital Grants and Contributions of approximately \$578.1 million. Therefore, there is a financial benefit/burden to the primary government. The higher education institutions are: the University of Virginia,

including the University of Virginia Medical Center and the University of Virginia's College at Wise; Virginia Polytechnic Institute and State University; Virginia Commonwealth University, including the Virginia Commonwealth University Health System Authority; the College of William & Mary, including Richard Bland College and the Virginia Institute of Marine Science; Virginia Military Institute; Virginia State University; Norfolk State University; University of Mary Washington; James Madison University; Radford University; Old Dominion University; George Mason University; Virginia Community College System; Christopher Newport University; and Longwood University. The Southwest Virginia Higher Education Center, Roanoke Higher Education Authority, Institute for Advanced Learning and Research, Southern Virginia Higher Education Center, and New College Institute are also included as higher education institutions. The colleges and universities are funded through state appropriations, tuition, federal grants, and private donations and grants. As previously noted, certain foundations are considered component units of the higher education institutions, and are included in the accompanying financial statements as well as the higher education institutions' separately issued financial statements. The Auditor of Public Accounts (APA) does not audit the Roanoke Higher Education Authority, the Institute for Advanced Learning and Research, and the component units of the higher education institutions, including foundations, but relies on the reports issued by other auditors to render their opinion.

The APA audits the colleges and universities, and individual reports are issued under separate cover. Complete financial statements for each institution may be obtained from their respective administrative offices. The addresses for these institutions may be obtained from the Department of Accounts, 101 North 14th Street, Richmond, Virginia 23219-3638.

Virginia Innovation Partnership Authority (nonmajor) - The Authority provides a collaborative, consistent, and consolidated approach that assists the Commonwealth in identifying its entrepreneurial strengths, including the identification of talents and resources that make Virginia a unique place to grow and attract technology-based business. The Governor and Joint Rules Committee appoint the 11-member board, and the primary government can impose its will on the Authority. The Authority's combined financial statements include the accounts of the Virginia Innovation Partnership Corporation (VIPC) after elimination of all significant intercompany balances and transactions. VIPC is a non-stock, not-for-profit corporation, which acts as the operating arm of the Authority. The address for the administrative offices of the Authority is 2214 Rock Hill Road, Suite 600, Herndon, Virginia 20170. The Auditor of Public

Accounts (APA) audits the Authority, and a separate report is issued.

Virginia Economic Development Partnership (nonmajor) – The Partnership was created as a body corporate and operates to encourage, stimulate, and support the development and expansion of both domestic and international commerce in the Commonwealth. The Governor and the General Assembly appoint the 17-member board, and there is a financial benefit/burden to the primary government. The administrative offices are located at 901 East Cary Street, Suite 900, Richmond, Virginia 23219. The Auditor of Public Accounts (APA) audits the Partnership, and a separate report is issued.

Virginia Outdoors Foundation (nonmajor) – The Foundation was created as a body politic and is administratively assigned to the Department of Conservation and Recreation (part of primary government) and charged with promoting preservation through the acceptance of donated conservation easements and raising funds for the purchase of preservation land. The Governor appoints the 7-member board of trustees, and the primary government can impose its will on the Foundation. The administrative offices of the Foundation are located at 39 Garrett Street, Suite 200, Warrenton, Virginia 20186. Hicok, Brown & Company CPAs audits the Foundation, and a separate report is issued.

Virginia Port Authority (nonmajor) – The Authority was established as a political subdivision of the Commonwealth of Virginia and operates to serve the citizens and promote, develop and increase commerce at the ports of Virginia and other port related industries in the Commonwealth. The Governor appoints a majority of the 13-member board, and the primary government is able to impose its will on the Authority. There is also a financial benefit/burden to the primary government. The administrative offices of the Authority are located at 600 World Trade Center, Norfolk, Virginia 23510. PBMares, LLP, audits the Authority, and a separate report is issued.

Virginia Passenger Rail Authority (nonmajor) - The Authority is responsible for promoting, sustaining, and expanding the availability of passenger and commuter rail service including the administration of the capital expansion, infrastructure, and land acquisitions related to the Commonwealth's Transforming Rail in Virginia initiative. The Governor appoints the majority of the board, and the primary government is able to impose its will on the Authority. The address for the administrative offices of the Authority is 919 East Main Street, Suite 2400, Richmond, Virginia 23219. PBMares, LLP audits the Authority, and a separate report is issued.

Virginia Tourism Authority (nonmajor) – The Authority was created as a public body corporate and as a political subdivision of the Commonwealth. The Authority encourages, stimulates, and promotes tourism and film production industries of the Commonwealth. The Governor appoints all of the board members, and there is a financial benefit/burden to the primary government. The administrative offices are located at 901 East Cary Street, Suite 900, Richmond, Virginia 23219. The Auditor of Public Accounts (APA) audits the Authority.

Virginia Foundation for Healthy Youth (nonmajor) – The Foundation was created as a body corporate and as a political subdivision of the Commonwealth. The Foundation was established to determine the appropriate recipients of monies in the Virginia Tobacco Settlement Fund and to distribute monies in this fund for such efforts as reducing and preventing the use of tobacco and substance products by minors and to promote healthy lifestyles. The Governor appoints the majority of the Board of Trustees, and there is a financial benefit/burden to the primary government. The administrative offices are located at 701 East Franklin Street, Suite 500, Richmond, Virginia 23219. The Auditor of Public Accounts (APA) audits the Foundation.

Tobacco Region Revitalization Commission (nonmajor) – The Commission was created as a body corporate and as a political subdivision of the Commonwealth. The Commission was established to determine the appropriate recipients of the monies in the Tobacco Indemnification and Community Revitalization Fund. This fund provides monies to revitalize tobacco dependent communities. The Governor appoints the majority of the board, and there is a financial benefit/burden to the primary government. The administrative offices are located at 701 East Franklin Street, Suite 501, Richmond, Virginia 23219. The Auditor of Public Accounts (APA) audits the Commission.

Hampton Roads Sanitation District Commission (nonmajor) – The Commission was established as a political subdivision of the Commonwealth and a government instrumentality. The Commission, which is the governing board of the district, was granted corporate powers by the *Code of Virginia*. The Governor appoints the Commission members, who serve at his pleasure. Therefore, the primary government is able to impose its will on the Commission. The Commonwealth is not obligated by the debt of the Commission. The Commission was established to benefit the inhabitants of the district and operates a wastewater treatment system for 20 localities in the Chesapeake Bay area. The address for the administrative offices of the Commission is 1434 Air Rail Avenue, Virginia Beach, Virginia 23455.

Cherry Bekaert, LLP, audits the Commission, and a separate report is issued.

Virginia Biotechnology Research Partnership Authority (nonmajor) – The Authority is a legally separate, political subdivision of the Commonwealth created by the General Assembly to assist in the development of a biotechnology research park. The Governor appoints the board members of the Authority, and there is a potential financial benefit/burden to the primary government. The administrative offices of the Authority are located at 800 East Leigh Street, Richmond, Virginia 23219. The Auditor of Public Accounts (APA) audits the Authority, and a separate report is issued.

The Authority issued Series 2002 revenue bonds for specific customers. The Series 2002 revenue bonds were for a facility built specifically for the United Network for Organ Sharing. This bond is secured by a letter of credit and is payable solely from the payments made by the borrower under the loan agreement. None of these bonds constitutes a debt or pledge of the Authority or the Commonwealth. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

Virginia Small Business Financing Authority (nonmajor) – Section 2.2-2280 of the *Code of Virginia* established the Authority as a public body corporate and a political subdivision of the Commonwealth. The Governor appoints the 11-member board, and the primary government is able to impose its will on the Authority. The Authority was created to assist small businesses in the Commonwealth in obtaining financing for new businesses or the expansion of existing businesses. The Authority provides financial assistance to small businesses by providing loans, guarantees, insurance, and other assistance, thereby assisting small businesses in the Commonwealth with access to financing. The Authority provides direct loans to small businesses as defined by the *Code of Virginia* and to local governments for economic development purposes. The Authority also guarantees loans and provides credit support for loans made to small businesses by banks. The administrative offices of the Authority are located at 101 North 14th Street, 11th Floor, Richmond, Virginia 23218-0446. The Auditor of Public Accounts (APA) audits the Authority.

The Authority issues tax-exempt and taxable private activity bonds to provide financial assistance to private sector entities for the acquisition, construction, and expansion of capital projects deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Neither the Authority nor the Commonwealth is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported

as liabilities on the accompanying financial statements.

Virginia School for the Deaf and Blind Foundation (nonmajor) – The Foundation operates as a nonprofit educational and fundraising organization solely in connection with, and exclusively for the benefit of, the Virginia School for the Deaf and Blind (part of primary government). The Foundation uses a December 31 calendar year-end. The administrative offices are located at Post Office Box 2069, Staunton, Virginia 24402. Didawick & Company, P.C. audits the Foundation and a separate report is issued.

Science Museum of Virginia Foundation (nonmajor) – The Foundation is a non-stock, nonprofit corporation established to implement and fund programs, projects, and operations that are authorized and approved by the trustees of the Science Museum of Virginia (part of primary government). There is a financial benefit/burden relationship to the primary government, and the economic resources of the Foundation are entirely for the direct benefit of the Commonwealth and its citizens. The administrative offices of the Foundation are located at 2500 West Broad Street, Richmond, Virginia, 23220. Keiter, CPAs, audits the Foundation, and a separate report is issued.

Virginia Commercial Space Flight Authority (nonmajor) – The Authority is a legally separate political subdivision of the Commonwealth created by the General Assembly to facilitate and coordinate scientific and technological research and development and to promote the industrial and economic development of the Commonwealth. The Governor appoints the 9-member board, and there is a potential financial benefit/burden to the primary government. The Commonwealth plans to transfer 1.0 percent of the Transportation Trust Fund revenue to the Authority annually. The administrative offices of the Authority are located at 101 W Main Street, Suite 602, Norfolk, VA 23510. Brown Edwards & Company, LLP, audits the Authority, and a separate report is issued.

Danville Science Center, Inc. (nonmajor) – The Center is a nonprofit corporation formed in 1994, for the purpose of implementing and funding those programs, projects and operations which are authorized and approved by the trustees of the Science Museum of Virginia (part of primary government). There is a financial benefit/burden to the primary government, and the economic resources of the Center are entirely for the direct benefit of the Commonwealth and its citizens. The administrative offices of the Center are located at 677 Craghead Street, Danville, Virginia 24541. Harris, Harvey, Neal & Company, LLP, audits the Organization, and a separate report is issued.

Virginia Museum of Fine Arts Foundation (nonmajor) – The Foundation operates as a nonprofit corporation under the laws of Virginia to fund exhibitions, programs, and capital asset expansion to ensure that the Virginia Museum of Fine Arts (part of primary government) has the space and resources for art to help improve the quality of life for many. There is a financial benefit/burden to the primary government, and the economic resources of the Foundation are entirely for the direct benefit of the Commonwealth and its citizens. The administrative offices of the Foundation are located at 200 N. Arthur Ashe Boulevard, Richmond, Virginia 23220. Forvis Mazars, LLP audits the Foundation, and a separate report is issued.

A. L. Philpott Manufacturing Extension Partnership (nonmajor) – The Partnership (operating as GENEDGE Alliance) has the mission to foster economic growth by enhancing the competitiveness of Virginia's manufacturers. GENEDGE provides manufacturing firms with fee-based technology consulting services, access to business modernization resources, and support for interfirm collaboration. Further, GENEDGE provides direct assistance to increase sales, decrease costs, and improve quality, productivity, and competitiveness. GENEDGE has a 24-member board of trustees, of which 21 are currently serving. The board consists of the presidents of two public four-year institutions of higher education; three community college presidents; one president of a private four-year institution of higher education; the director of the Virginia Innovation Partnership Corporation; two members of the Governor's cabinet; and 15 citizen members, representing manufacturing industries, appointed by the Governor. There is also a financial benefit/burden to the primary government. The administrative office is located at 32 Bridge Street South, Suite 200B, Martinsville, Virginia 24112-6216. The Joachim Group CPAs & Consultants, LLC audits GENEDGE and a separate report is issued.

Fort Monroe Authority (nonmajor) – The Authority is a legally separate, political subdivision of the Commonwealth created by the General Assembly to assist in implementing a reuse plan for Fort Monroe. The Governor appoints a majority of the 14-member board, and there is a potential financial benefit/burden to the primary government. The administrative offices of the Authority are located at 20 Ingalls Road, Fort Monroe, Virginia 23651. CliftonLarsonAllen LLP audits the Authority, and a separate report is issued.

Assistive Technology Loan Fund Authority (nonmajor) – The Authority was created as a political subdivision and public body corporate by the *Code of Virginia*. The Governor appoints the board of directors as directed by the *Code*, and

the primary government is able to impose its will on the Authority. The Authority manages a fund to provide loans to Virginians with disabilities to acquire assistive technology, other equipment, or other authorized purposes designed to help these individuals become more independent. The administrative offices are located at 1602 Rolling Hills Drive, Suite 107, Richmond, Virginia 23229. The Auditor of Public Accounts (APA) audits the Authority.

Virginia Land Conservation Foundation (nonmajor) – The Foundation was created as a body politic and corporate to serve the Department of Conservation and Recreation (DCR) (part of primary government) by acquiring interests in preservation land and providing grants to other entities to acquire interests in preservation land. The Governor appoints the 19-member board, and the primary government can impose its will on the Foundation. The administrative offices of the Foundation are located at 600 East Main Street, 24th Floor, Richmond, Virginia 23219. The Auditor of Public Accounts (APA) audits the Foundation as part of DCR.

Library of Virginia Foundation (nonmajor) – The Foundation was created as a private, nonprofit 501(c)(3) corporation supporting the Library of Virginia (part of primary government). The articles of incorporation stipulate that the Foundation shall at all times be operated solely in connection with, and exclusively for the benefit of, the Library of Virginia. The Foundation is governed by a separate board of directors, and promotes and supports the Library of Virginia in all activities. The administrative offices of the Foundation are located at 800 East Broad Street, Richmond, Virginia 23219. Frank Barcalow CPA, PLLC, audits the Foundation, and a separate report is issued.

Virginia Health Workforce Development Authority (nonmajor) – The Authority is a legally separate public body corporate and a political subdivision of the Commonwealth created by the General Assembly. The Authority facilitates the development of statewide health professions pathways. The Governor appoints a majority of the board members, and the primary government is able to impose its will on the Authority. The administrative offices of the Authority are located at 313 East Broad Street, Suite 314, Richmond, Virginia 23219. The Auditor of Public Accounts (APA) audits the Authority.

(4) Related Organizations – Organizations for which the primary government appoints a majority of the board, but is not financially accountable, are related organizations. Related organizations are:

Tobacco Settlement Financing Corporation – The Corporation was created by the Tobacco Settlement Financing Corporation Act, Chapters 482 and 488 of the Acts of the General Assembly

during the 2002 General Assembly Session. The Corporation is a public body corporate entity and an independent instrumentality of the Commonwealth, managed by a 6-member board, including the State Treasurer. The Corporation purchased all of the future tobacco settlement revenue allocated to the Tobacco Region Revitalization Commission (nonmajor component unit). Neither the Commonwealth's nor the Virginia Foundation for Healthy Youth's (nonmajor component unit) tobacco revenue was securitized. The administrative offices of the Corporation are located at 101 North 14th Street, 3rd Floor, Post Office Box 1879, Richmond, Virginia 23218-1879. CliftonLarsonAllen, LLP, audits the Corporation, and a separate report is issued.

Jamestown-Yorktown Educational Trust – The Trust was created as a nonprofit corporation by the *Code of Virginia* to assist the Jamestown-Yorktown Foundation (Foundation). The Trust board consists of no more than six members selected by the Foundation's board of trustees. Several Commonwealth officials serve as ex-officio members of the Foundation's board, and the Governor appoints 12 members. The Trust operates the Jamestown Settlement and American Revolution Museum at Yorktown gift shops and café. The address for the administrative offices of the Trust is Post Office Box 3605, Williamsburg, Virginia 23187. Keiter, CPAs audits the Trust, and a separate report is issued.

Virginia Birth-Related Neurological Injury Compensation Program – The Program was created to provide a no-fault alternative for birth-related neurological injuries. The Governor appoints the 9-member board. The administrative offices of the Program are located at 7501 Boulders View Drive, Suite 210, Richmond, Virginia 23225. Yount, Hyde & Barbour, PC, audits the Program, and a separate report is issued.

Chesapeake Bay Bridge and Tunnel Commission – The Commission was created to establish policy and administer operations of the Chesapeake Bay Bridge Tunnel District. Any of the 11 members of the Commission appointed or reappointed on or after July 1, 1998, shall be appointed by the Governor, subject to confirmation by each house of the General Assembly. The administrative offices of the Commission are located at 32386 Lankford Highway, Cape Charles, Virginia 23310. Cherry Bekaert, LLP audits the Commission, and a separate report is issued.

C. Government-wide and Fund Financial Statements

The government-wide financial statements, the Statement of Net Position and the Statement of Activities, report information on all nonfiduciary activities of the primary government and component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Also, the primary government activity is reported separately from the legally separate component units for which the Commonwealth is financially accountable.

The Statement of Activities demonstrates the degree to which direct expenses of a specific function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment, or component unit. In addition, to the extent that indirect costs are allocated to the various functions, the program expenses will include both direct and indirect costs. Program revenues include charges to customers who purchase, use, or directly benefit from goods or services provided by a given function, segment, or component unit, as well as investment income generated by operations. Program revenues also include grants, contributions, and investment income that are restricted to meeting the operational or capital requirements of a particular function, segment, or component unit. Taxes and other items properly excluded from program revenues are reported as general revenues.

Fund equity is restricted when constraints are placed on them that are imposed by external parties or constitutional provisions. When both restricted and unrestricted resources are available for use, the Commonwealth's policy is to use the restricted resources first. Some component units may follow a different policy. When committed, assigned, and unassigned resources are available for use, the Commonwealth's policy is to use the committed resources first, assigned resources next, and unassigned resources last.

Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds, and component units. However, fiduciary funds are not included in the government-wide statements. Major governmental funds, enterprise funds, and component units are reported in separate columns in the fund financial statements, with nonmajor funds being aggregated into a single column.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the primary government considers revenues to be available if they are collected within 60 days of the end of the current fiscal year (or one year for Medicaid). Significant revenues subject to accrual include federal grants and income and sales taxes. Income tax revenues for tax underpayments are only recognized to the extent of the primary government's estimated refunds for tax overpayments received. Revenues that the primary government earns by incurring obligations are recognized in the same period as when the obligations are recognized.

Expenditures generally are recorded when a liability is incurred, as under full accrual accounting. However, expenditures related to debt service, compensated absences, and claims and judgments are recorded only when the payment is due.

The primary government reports the following major governmental funds:

General Fund – Accounts for the transactions related to resources received and used for those services traditionally provided by a state government, and which are not accounted for in any other fund. These services include general government, legislative and judicial activities, public safety, health and behavioral health programs, resources and economic development, licensing and regulation, and primary and secondary education.

Commonwealth Transportation Special Revenue Fund – Accounts for the revenues and expenditures associated with highway operations, maintenance, construction, and other transportation related activities. Funding for these programs is received from highway user taxes, fees, and funds received from the federal government.

Federal Trust Special Revenue Fund – Accounts for all federal dollars, including COVID-19 funding, received by the Commonwealth except those received by the

Commonwealth Transportation Fund, the Unemployment Compensation Fund, certain Medicaid reimbursements recorded in the General Fund, the Grant Anticipation Revenue Notes and Build America Bond Subsidies reported in the Debt Service Fund, and component units.

Literary Fund Special Revenue Fund – Accounts for revenues from fines, forfeitures, and proceeds from unclaimed property used primarily to support public education in the Commonwealth. This fund provides low interest loans to school divisions for construction, renovations, and expansion of school buildings.

Proprietary Funds, Fiduciary Funds, and Component Units Financial Statements – The financial statements of the proprietary funds, fiduciary funds, and component units are reported using the economic resources measurement focus and the full accrual basis of accounting. As with the government-wide statements, revenues are recorded when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating.

Foundations' (component units) financial statements are prepared using the economic resources measurement focus and the full accrual basis of accounting. The financial statements are prepared under FASB rather than GASB standards. In some instances, activities of the foundations (component units) are reported separately within the footnotes because of the different reporting standards. Also, some foundations (component units) have an August 31st, December 31st, or March 31st year-end rather than a fiscal year-end. Foundations (component units) with different year-ends are included in these financial statements for the year ending August 31, 2023, December 31, 2023, or March 31, 2024. Significant intrafund activity/balances between each higher education institution and their foundations have been eliminated.

The following amounts could not be eliminated due to the differing year-ends:

- University of Virginia (nonmajor component unit):
 - institution revenue of \$13.5 million
 - foundation assets of \$1.5 million
 - foundation liabilities of \$1.9 million
 - foundation expenses of \$30.3 million

- Old Dominion University (nonmajor component unit):
 - institution liabilities of \$36.2 million
 - foundation assets of \$30.6 million
- George Mason University (nonmajor component unit):
 - foundation revenue of \$47.7 million
 - foundation expenses of \$24.6 million
- Longwood University (nonmajor component unit):
 - foundation assets of \$33.1 million
 - institution liabilities of \$20.7 million

The primary government reports the following major enterprise funds:

Virginia Lottery Fund – Accounts for all receipts and expenses of the Virginia Lottery, excluding activity related to the regulation and compliance monitoring of casinos and sports betting.

Virginia College Savings Plan Fund – Administers the Defined Benefit 529 Program.

Unemployment Compensation Fund – Accounts for receipts from employers and expenses incurred to provide benefits to eligible unemployed workers.

Additionally, the primary government reports the following fund types:

Governmental Fund Types:

Special Revenue Funds – Account for transactions related to resources received and used for restricted, committed, or specific purposes.

Debt Service Funds – Account for transactions related to resources retained and used for the payment of interest and principal on bonds. Additionally, this fund includes the activity of the Hampton Roads Transportation Accountability Commission (blended component unit).

Capital Project Funds – Account for transactions related to resources received and used for the acquisition, construction, or improvement of capital facilities not reported in the other governmental or proprietary funds with the exception of certain Virginia Public Building Authority (blended component unit) disbursements. The primary resource for these funds is the proceeds of bond issues and energy performance contracts. Principal uses are for construction and improvement of state office buildings, correctional and behavioral health facilities, and parks. Additionally, this fund includes the activity of the Hampton Roads Transportation Accountability Commission (blended component unit) for construction projects related to new or existing highways,

bridges or tunnels in the localities comprising Planning District 23.

Permanent Funds – Account for transactions of the Commonwealth Health Research Fund and the Behavioral Health Endowment Funds whose principal must remain intact and whose income is used to benefit the Commonwealth’s citizens and behavioral health patients.

Proprietary Fund Types:

Enterprise Funds – Account for transactions related to resources received and used for financing self-supporting activities of the primary government that offer products and services on a user-charge basis to external users.

Internal Service Funds – Account for transactions related to the financing and sale of goods or services provided by the agencies of the primary government to other agencies and institutions of the Commonwealth. Activities include the provision of information technology, manufacturing activities, insurance programs, fleet services, facilities and property management, engineering and payroll services.

Fiduciary Fund Types:

Private Purpose Trust Funds – Account for transactions that benefit individuals, organizations, and other governments; have a trust that meets GASB Statement No. 84, *Fiduciary Activities* criteria; and are not required to be reported in another fiduciary fund type. These trusts include those for the Commonwealth-sponsored educational savings plan and other purposes.

Pension and Other Employee Benefit Trust Funds – Account for transactions of the Virginia Retirement System administered pension plans, other postemployment and employee benefit plans with trusts that meet GASB Statement No. 84 criteria.

Custodial Funds - External Investment Pool – Accounts for the external portion of the Local Government Investment Pool (LGIP) that is sponsored by the Commonwealth and does not have a trust that meets GASB Statement No. 84 criteria.

Custodial Funds - Other - Accounts for transactions similar to Private Purpose Trust Funds except they do not have a trust that meets GASB Statement No. 84 criteria. These funds include collection of sales tax and fees imposed by and distributed to localities, deposits of insurance carriers, child support collections, and other miscellaneous accounts.

E. Budgetary Process

Budgetary amounts shown in the Required Supplementary Information and Combining and Individual Fund Statements and Schedules sections represent the total of the original budgeted amounts and all supplemental appropriations. The Commonwealth's budget is prepared principally on a cash basis and represents appropriations as authorized by the General Assembly. Unexpended appropriations at the end of the fiscal year generally lapse. However, they may be reappropriated for expenditure in the following fiscal year. The Governor, as required by the *Code of Virginia*, submits a budget composed of all proposed expenditures for the Commonwealth, and of estimated revenues and borrowing for a biennium, to the General Assembly. Budgets are adopted for the General and Special Revenue Funds, except for the Literary (major special revenue) and Unclaimed Property (nonmajor special revenue) Funds. Formal budgetary integration is not employed for the Capital Projects (nonmajor governmental), Debt Service (nonmajor governmental), Permanent (nonmajor governmental), Literary (major special revenue) and Unclaimed Property (nonmajor special revenue) Funds because effective budgetary control is alternatively achieved through the General Fund and the remaining special revenue funds.

The budget is prepared on a biennial basis; however, the budgets of the General and Special Revenue Funds contain separate appropriations for each year within the biennial budget, as approved by the General Assembly and signed into law by the Governor. For management control purposes, the lowest level of budgetary control is the program level. The Governor may transfer an appropriation within a state agency or from one state agency to another, provided that total fund appropriations, as contained within the budget, are not exceeded without further General Assembly action. Additionally, the Governor may reduce appropriations up to 15.0 percent without further General Assembly action. Increases in General Fund appropriations must be approved by the General Assembly.

Appropriations for programs funded from Special Revenue Funds may allow expenditures in excess of the original appropriations to the extent that revenues of the funds exceed original budget estimates and such additional expenditures are approved by the Governor through supplemental appropriations.

F. Cash, Cash Equivalents, Investments and Derivative Instruments

Cash

In order to maximize the Commonwealth's earning potential, the majority of the primary government's cash balances are pooled together in the general account for investment purposes. The amounts

required for operations are liquidated as needed. Since all amounts not required for operations are held in investment securities, it is possible that the cash balances could be negative due to timing differences in liquidating the investments.

As of June 30, 2024, the General Fund had a negative cash balance of \$14.5 billion. In order to properly reflect the general account position, this negative cash balance has been eliminated in the accompanying statements and offset against the primary government's cash equivalents and investments (see Note 7).

Cash Equivalents

Cash equivalents are investments with an original maturity of 90 days or less.

Investments

Investments are principally comprised of monies held by component units, the Virginia Retirement System (the System), and monies held by the State Treasurer in both the general account and other fiduciary accounts. The System aggregates all funds that the Board of Trustees is responsible for investing and commingles these amounts for investing purposes. The System's pooled investments represent all cash and investment amounts reported in the Pension and Other Employee Benefit Trust Funds, the VRS Investment Portfolio and Volunteer Firefighters Rescue Squad Workers (custodial funds - other), the Commonwealth Health Research Board (permanent), and Federal Special Revenue (major).

The primary government's policy for managing interest rate risk, with the exception of the Virginia College Savings Plan (Virginia529) and the System, uses the segmented time distribution method.

Virginia529, for its investment portfolio reported as Defined Benefit 529 Program (major enterprise fund) and Defined Contribution 529 Program (private purpose trust fund), and the System, for the System's pooled investments, manage the interest rate risk using the effective duration methodology. To be consistent with management practices for each portfolio, the Commonwealth has elected to disclose the interest rate risk exposures, using the segmented time distribution for the primary government (excluding Defined Benefit 529, Defined Contribution 529, and the System's pooled investments) and the effective duration method for Defined Benefit 529, Defined Contribution 529, and the System's pooled investments. The Commonwealth discloses the component unit's interest rate risk using the segmented time distribution method (see Note 7).

Governmental and proprietary funds, both primary government and component units, report investments in money market and in the Commonwealth sponsored investment pools at amortized cost which approximates fair value. All other investments, including investments in the Commonwealth sponsored Extended Maturity portfolio, are reported

at fair value, in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, as amended by GASB Statement No. 72, *Fair Value Measurement and Application*. GASB Statement No. 72 provides guidance for determining fair value measurements using the level of fair value hierarchy and valuation techniques (see Note 7).

Investments administered by the System are reported at fair value, except for certain cash equivalents and other short-term, highly liquid investments which are reported at amortized cost. The cost of investments sold is the average cost of the aggregate holding of the specific investment sold. For investments in limited partnerships, the System's share of the partnership's earnings or losses for the period are included in investment income.

Derivative Instruments

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates, or financial indexes (see Note 15).

G. Assets Held Pending Distribution

Assets held pending distribution include various assets that have been placed in safekeeping until final disposition has been determined.

H. Receivables

Receivables in the governmental funds consist primarily of the accrual of taxes and amounts relating to the Opioid Settlement, as well as receivables of the primary government's Medicaid program and up-front amounts to be received for a Service Concession Arrangement. Additionally, receivables include amounts to be received for debt service payments related to certain bonds. Receivables in the proprietary funds consist primarily of educational contribution receivables and unemployment compensation. Receivables of fiduciary funds are primarily the accrual of security transactions in the Pension and Other Employee Benefit Trust Funds. Receivables of the component units consist primarily of mortgage receivables, loans receivable, patient receivables, student receivables, and lease receivables, for further details see the individually published financial statements. Receivables are recorded net of allowances for doubtful accounts (see Note 8). Restricted receivables due within one year with no long-term portion are included in receivables rather than Restricted Assets (Note 12) due to their liquidity.

I. Contributions Receivable, Net

Contributions Receivable reported by the foundations (component units) represents pledges or unconditional promises to give that have been discounted (see Note 9).

J. Internal Balances

Interfund receivables and payables have been eliminated from the Statement of Net Position, except for the residual amounts due between governmental and business-type activities (see Note 10).

K. Inventory

Inventories consist of materials and supplies and are reported as expenditures when consumed. These assets are classified as nonspendable fund balance. Inventories exceeding \$1.0 million of the General and the Special Revenue Funds are maintained at cost using the first-in, first-out (FIFO) methodology, except for the following:

- Department of Emergency Management (VDEM)
- Virginia Department of Health (VDH)
- Department of State Police (VSP)
- Virginia Department of Transportation (VDOT)

VDEM supply inventories are recorded in the Federal Trust Fund (major special revenue) using the average cost methodology and maintained at average cost. VDH supply inventories are recorded in the General (major), Federal Trust (major special revenue), and Health and Social Services (nonmajor special revenue) Funds using the FIFO methodology and are maintained at either cost or current market cost. VSP inventories are recorded in the General (major) and Other (nonmajor special revenue) Funds using the FIFO and average cost methodology and are maintained at cost. VDOT inventories are recorded in the Commonwealth Transportation Fund (major special revenue) using the FIFO and average cost methodologies and are maintained at either cost or average cost.

In addition to inventories maintained as stated above, the following agencies reported donated inventory balances on hand as of June 30, 2024:

- Department of Agriculture and Consumer Services (VDACS)
- Department of Behavioral Health and Developmental Services (DBHDS)
- Department of Health (VDH)
- Department of Juvenile Justice (DJJ)
- Virginia Department of Transportation (VDOT)

Inventories maintained by the Virginia Lottery (major enterprise fund) are stated at cost using the average cost methodology.

Inventories maintained by the Virginia Museum of Fine Arts and the Consolidated Laboratory (nonmajor enterprise funds) are stated at cost using FIFO.

Inventories maintained by the Science Museum of Virginia (nonmajor enterprise fund) are stated at cost using LIFO.

Inventories maintained by the Alcoholic Beverage Control (nonmajor enterprise fund) are stated at average cost using the weighted average method.

Inventories maintained by the Virginia Industries for the Blind (nonmajor enterprise fund) are stated at average cost using the lower of cost or market methodology.

Inventories maintained by Virginia Correctional Enterprises (internal service fund) are stated at the lower of cost or market using FIFO. Inventories maintained by the internal service funds except for Virginia Correctional Enterprises are stated at cost using FIFO.

Institutions of higher education (nonmajor component units) use several methods for inventory valuations, including cost using FIFO, the lower of cost or market using FIFO, or weighted average methods. Inventories maintained by the Virginia Port Authority and the Danville Science Center (nonmajor component units) are reported using the moving average unit cost methodology. Inventories at the gift shop run by the Library of Virginia Foundation and at the Hampton Roads Sanitation District Commission (nonmajor component units) are stated at lower of cost or market using the average cost methodology.

L. Prepaid Items

Prepaid assets for rent, insurance, and similar items are recognized when purchased and expensed when used.

M. Loans Receivable/Payable

Loans Receivable/Payable represents working capital advances between the primary government and component units (see Note 10).

N. Other Assets

Other Assets include those balances of a miscellaneous nature that are not specifically classified elsewhere. Additionally, this account includes the Virginia Sickness and Disability Program Net Other Postemployment Benefit Plan Asset applicable to the proprietary funds (see Note 11).

O. Capital Assets

Capital assets of governmental funds are recorded as expenditures at the time of purchase and capitalized in the governmental activities column of the Government-wide Statement of Net Position. Capital assets of the other funds and component units are capitalized in the fund in which they are utilized. All other capital assets are depreciated/amortized on the straight-line basis over their useful lives (see Note 13).

Capital assets are stated at historical cost or, in some instances, estimated historical cost. Assets received pursuant to service concession arrangements and donated capital assets from entities external to the

reporting entity are stated at acquisition value when they are placed in service or at the time of donation, respectively. Asset transfers or donations from within the reporting entity are recorded at the carrying value of the transferring entity as required by GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*. The primary government capitalizes all equipment that has a cost or value greater than \$50,000 (individually or in aggregate) and expected useful life of greater than two years. The primary government capitalizes all land, water rights/easements, buildings, infrastructure, and software that have a cost or value greater than \$100,000 and an expected useful life of greater than two years. In addition, the primary government reports right-to-use intangible assets of equipment, land, and buildings with a present value of \$50,000 or greater and subscription-based information technology arrangements with a present value of \$5,000 or greater, all of which have an expected useful life of more than one year. Selected agencies, business-type entities, and component units utilize a capitalization limit lower or higher than the primary government's established thresholds for various reasons. Accordingly, reported capital assets may include some items that cost less than those thresholds. Infrastructure, including highways, bridges, and rights-of-way, is capitalized using the historical approach and includes any assets acquired prior to fiscal year 1980.

The amortization of long-term lease and SBITA contracts related to right-to-use intangible assets are reported separately from other capital assets as required by GASB Statement No. 87, *Leases* and GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*.

Intangible right-to-use lease assets are amortized over the shorter of the lease term or the useful life of the underlying asset. Land leases are amortized over the lease term. Leases with purchase options that are reasonably certain to be exercised are amortized over the useful life of the underlying asset. In circumstances where the underlying asset is nondepreciable, such as land, the lease asset is not amortized.

Intangible right-to-use subscription assets are amortized over the shorter of the subscription term or the useful life of the underlying IT asset.

The primary government's capitalization policy regarding works of art/historical treasures is that capitalization is encouraged, but not required, for works of art/historical treasures that meet the following conditions:

- The collection is held for public exhibition, education, or research in furtherance of public service, rather than financial gain;
- The collection is protected, kept unencumbered, cared for and preserved; and,

- The collection is subject to an organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for the collection.

The primary government capitalizes construction-in-progress when project expenditures, including construction of intangible assets, exceed \$100,000.

Expenditures are classified as construction-in-progress if:

- (1) They extend the asset life, improve productivity, or improve the quality of service; and,
- (2) They fall into the planning, acquisition, construction, improvement, renovation, repair, replacement, relocation, or demolition phase of the asset life.

The estimated lives of capital assets are as follows:

	<u>Years</u>
Buildings	10–75
Equipment	2–50
Infrastructure	5–50
Software	5–25
Right-to-Use Lease Assets	See Above
Right to-Use Subscription Assets	See Above

Selected agencies, business-type entities, and component units may utilize estimated lives and policies that differ from the above for various reasons.

P. Deferred Outflows of Resources

Deferred outflows of resources are a consumption of net assets by the government that is applicable to a future reporting period. Deferred outflows have a natural debit balance and, therefore increase net position similar to assets (see Notes 14, 16, and 18).

Q. Accounts Payable

Accounts payable represent amounts, including salaries and wages, owed for goods and services received prior to year-end. In accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, accounts payable also includes payments for nonexchange transactions that met eligibility requirements prior to fiscal year-end (see Note 25).

R. Unearned Revenue

Unearned revenue represents monies received or revenues accrued but not earned as of June 30, 2024.

In the special revenue funds, unearned revenue is composed primarily of prepaid toll revenue, contributions from localities and private sectors for highway construction projects, multi-year vehicle

registrations recorded in the Commonwealth Transportation Fund (major); federal grants (including COVID-19 funding) in the Federal Trust Fund (major); and multi-year motor vehicle safety inspections, emission inspections, mining permits, and casino, hunting, fishing and trapping licenses, and annual registration fees recorded in the Other and Health and Social Services Funds (nonmajor).

In the enterprise funds, a majority of unearned revenue represents online ticket monies received by the Virginia Lottery (major) for which corresponding drawings have not been held; test kits and certifications from Consolidated Labs (nonmajor) which are paid for prior to shipping and certification being performed; and online sales of product where customers prepay before picking up and gift cards in the Alcoholic Beverage Control (nonmajor).

Unearned revenue in the internal service funds primarily represents unearned premiums in the Risk Management Fund; advanced customer receipts in the Technology and Data Services Fund; and prepaid rent and work orders in the Property Management Fund.

Unearned revenue reported by higher education institutions (nonmajor component units) is primarily composed of revenue for student tuition accrued in advance of the semester and advance payments on grants and contracts. Unearned revenues in the other component units consist primarily of prepaid fees related to various future activities.

S. Unearned Taxes

Unearned taxes represent income taxes related to the period January through June 2024. This amount is the estimate to be refunded (overpayments by taxpayers) reduced by the estimate to be received (underpayments from taxpayers) that will be finalized when income tax returns are filed in subsequent years. Individual income tax estimated overpayments total \$1.1 billion and estimated underpayments total \$1.8 billion. When underpayments exceed overpayments, revenue on the fund statements is only recognized to the extent of estimated overpayments. Since underpayments exceed overpayments for the individual income taxes, the unearned tax amount is zero for the fiscal year.

Corporate income tax estimated overpayments total \$91.8 million and estimated underpayments total \$165.1 million. When underpayments exceed overpayments, revenue on the fund statements is only recognized to the extent of estimated overpayments. Since underpayments exceed overpayments for the corporate income taxes, the unearned tax amount is zero for the fiscal year.

T. Obligations Under Securities Lending Program

In accordance with GASB Statement No. 28, *Accounting and Financial Reporting for Securities Lending Transactions*, liabilities resulting from these

transactions have been recorded as obligations under securities lending transactions.

U. Due to Claimants, Participants, Escrows and Providers

Due to claimants, participants, escrows and providers represent monies that the Commonwealth is holding on behalf of third parties as of June 30, 2024. In governmental funds, the majority of the amount represents unemployment benefit claims and estimated unclaimed and escheat property that the Commonwealth is holding until claimed by the rightful owner.

In the enterprise funds, the amounts represent payments due to benefit claimants and employers for tax overpayments in the Unemployment Compensation Fund (major) and to participants of the Defined Benefit 529 Program in the Virginia College Savings Plan (major).

In the private purpose trust funds, the amounts represent payments due to participants in the Defined Contribution 529 Program offered by the Virginia College Savings Plan.

In the Custodial Funds - Other, the amounts represent accounts of inmates of the Commonwealth's correctional facilities.

V. Other Liabilities

Other liabilities represent amounts owed for various governmental and proprietary activities. Some of these amounts will be paid shortly after fiscal year-end (see Note 26).

W. Insurance Claims Payable

Insurance claims payable, reported in the proprietary funds of the primary government, represent both health and liability insurance claims payable as of June 30, 2024. This includes both actual claims submitted, as well as actuarially determined claims incurred but not reported. Claims relating to the primary government's liability insurance programs are reported in the Risk Management - internal service fund and the Risk Management - nonmajor enterprise fund. Also, health insurance claims are reported in the Health Care - internal service fund, the Local Choice Health Care - nonmajor enterprise fund and Line of Duty - internal service fund and nonmajor enterprise fund (see Notes 24.A. and 24.B.). Claims payable reported by the Virginia Commonwealth University Health System Authority (a blended component unit of the Virginia Commonwealth University - nonmajor component unit) represents estimated malpractice, workers' compensation, and other insurance coverages claims payable amounts.

X. Long-term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities column. The governmental fund statements reflect the portion of

long-term liabilities that will be paid from expendable resources that represent payments to employees for separations that occurred prior to June 30, 2024. The proprietary fund statements and discrete component unit statements reflect total long-term liabilities and distinguish between those portions payable within one year and those payable in future years (see Note 27).

Bond premiums and discounts are amortized over the life of the bond. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs, excluding prepaid insurance, are expensed.

Expenditures for principal and interest payments for governmental fund general obligation bonds and revenue bonds are recognized in the Debt Service Fund (nonmajor) when due. In the General Fund (major) and special revenue funds, expenditures for principal and interest payments are recognized for long-term leases, long-term SBITAs and installment purchases. In the fund statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures (see Note 27).

Y. Deferred Inflows of Resources

Deferred inflows of resources are an acquisition of net assets by the government that is applicable to a future reporting period. Deferred inflows have a natural credit balance and, therefore decrease net position similar to liabilities (see Notes 14, 15, 16, 18 and 38).

Z. Nonspendable Fund Balances

Nonspendable fund balances indicate the portion of fund balance that cannot be spent because it is either not in spendable form or is legally or contractually required to be maintained intact.

AA. Restricted Fund Balances

Restricted fund balances are amounts that have constraints placed on the use of resources that are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

BB. Committed Fund Balances

Committed fund balance includes amounts that must be spent for specific purposes that have been legislatively mandated by the Governor and General Assembly. Further action by the Governor and the General Assembly would be required to modify these commitments.

CC. Assigned Fund Balances

Assigned fund balances are amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. Assignments are identified by Commonwealth management pursuant to the delegation of authority granted by the General Assembly and Governor specified in the Appropriation Act.

DD. Unassigned Fund Balances

Unassigned fund balance is the amount of fund balance that has not been assigned to other funds and has not been restricted, committed or assigned to specific purposes within the General Fund (major). The General Fund is the only fund that could potentially report a positive unassigned fund balance amount. For fiscal year 2024, there are no unassigned balances in the governmental funds.

EE. Cash Management Improvement Act

Included in Amounts Due to Other Governments is the Commonwealth's Cash Management Improvement Act (CMIA) interest liability to the federal government, which is calculated in accordance with the interest calculation and exchange provisions of the Federal Cash Management Improvement Act of 1990. The Commonwealth's interest liability is subject to review and final confirmation by the Bureau of the Fiscal Service (BFS) of the U.S. Treasury. If required, the payment is to be made on March 31 of the following year. Payment will be made from a sum sufficient appropriation authorized for this purpose by the Appropriation Act. The CMIA interest rate of exchange is based by law on the average of the bond equivalent rates of 13-week Treasury Bills auctioned during the annual reporting period as calculated by BFS.

FF. Investment Income

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, all investment income reported in the accompanying financial statements includes changes in the fair value of investments and the amount reported may be negative. Additionally, the Commonwealth's policy is to record all unrealized gains or losses for the State Treasurer's Portfolio in the General Fund. For Pension and Other Employee Benefit Trust Funds, the Interest, Dividends, and Other Investment Income includes Net Appreciation/Depreciation at Fair Value of Investments.

GG. Intrafund Eliminations

Eliminations have been incorporated into the report to eliminate intrafund transactions within the related fund type. These eliminations prevent overstatement of financial activity.

HH. Interfund Activity

Generally, the effect of interfund activity has been eliminated from the government-wide statements, with the exception of interfund services provided and used between functions. Elimination of these activities would distort the direct costs and program revenues for the functions.

In the fund financial statements, transfers represent the movement of resources or the accrual to move resources between funds. For example, transfers are recorded when a fund receives revenue and subsequently disburses the resources to another fund for expenditure.

2. RESTATEMENT OF BEGINNING BALANCES

The beginning balance restatements resulted from the following:

Government-wide Activities

Governmental Activities

- The Right-to-Use Subscription-Based Information Technology Arrangements (SBITAs) were overstated by \$8.7 million for the Governmental Activities due to error corrections predominately by the Department of Social Services, the Virginia Department of Transportation, and the Department of Human Resource Management. The Construction in Progress for SBITAs was understated by \$8.8 million for the Governmental Activities due to error corrections predominately by the Virginia Department of Transportation, the State Corporation Commission, and the Department of Small Business and Supplier Diversity.
- Capital Asset balances were understated by \$282.6 million. Nondepreciable Capital Assets were overstated by \$7.3 million and depreciable capital assets were understated by \$289.9 million. The restatements were predominantly a result of \$150.8 million of restatements relating to GASB Implementation Guide 2021-1, Question 5.1 regarding group assets, and \$131.8 million of errors predominately by the Department of Transportation, Department of State Police, and the Department of General Services. In addition, there was a reclassification between depreciable and non-depreciable infrastructure of \$2.6 billion for the Virginia Department of Transportation.

Business-Type Activities

The government-wide and fund statements were restated for the following:

- The Virginia College Savings Plan (major) has been restated for GASB Implementation Guide 2021-1, Question 5.1 regarding group assets. The following line items were understated: Other Capital Assets, Net \$585,637 and Net Position-Net Investment in Capital Assets \$585,637.
- The eVA Procurement System (nonmajor) has a restated beginning balance due to a SBITA duplication. The following line items were overstated: Nondepreciable Capital Assets \$15.1 million and Net

Position - Net Investment in Capital Assets \$15.1 million.

Fund Statements

- The Virginia College Savings Plan (major enterprise) has been restated by \$585,637 as previously discussed.
- The eVA Procurement System (nonmajor enterprise) has been restated by \$15.1 million as previously discussed.

Component Units

The government-wide and fund statements were restated for GASB Implementation Guide 2021-1, Question 5.1 regarding group assets resulting in a change in accounting principle for the following:

- Higher education institutions (nonmajor component units) restatements total \$150.5 million and the following line items were understated: Other Capital Assets, Net \$150.5 million, Nondepreciable Capital Assets \$434,000, and Net Position-Net Investment in Capital Assets \$150.5 million.

New College Institute (nonmajor component unit) had a restatement for a change in reporting entity because the New College Foundation (formerly a discrete component unit of New College Institute) no longer exists. The effect of this restatement is shown in the Beginning Net Position/Beginning Fund Balance table.

The following higher education institutions (nonmajor component units) have restatements for error corrections that total \$69.5 million:

- University of Virginia - The following line items were understated: Other Capital Assets, Net, \$3.0 million, Net Position-Net Investment In Capital Assets \$3.0 million, Net Position-Restricted for Expendable-Higher Education \$3.1 million, and Net Position-Unrestricted \$42.1 million. In addition, the following line items were overstated: Investments \$14.2 million, Accounts Payable \$22.9 million, Long-Term Liabilities-Due Within One Year \$11.8 million, and Long-Term Liabilities-Due in More Than One Year \$24.7 million. These restatements are primarily related to errors regarding accounting for accrued leave, accounts payable, a funding liability, and an investment in an affiliate.
- Virginia Commonwealth University - The following line items were understated: Prepaid Items \$527,078, Nondepreciable Capital Assets

\$5.3 million, Other Capital Assets, Net \$4.9 million, Long-Term Liabilities-Due in More Than One Year \$1.4 million, Net Position-Unrestricted \$527,078, and Net Position-Net Investment in Capital Assets \$9.3 million. In addition, the following line item was overstated: Long-Term Liabilities-Due Within One Year \$481,883. These restatements are primarily related to errors regarding accounting for leases, subscription-based information technology arrangements, and capital assets.

- Old Dominion University - The following line items were understated: Other Assets \$278,396, Net Position-Unrestricted \$20.2 million. In addition, the following line items were overstated: Receivables, Net \$2.3 million, Nondepreciable Capital Assets \$274,204, Other Capital Assets, Net \$12.5 million, Accounts Payable \$18.6 million, Unearned Revenue \$2.7 million, Other Liabilities \$1.0 million, Long-Term Liabilities-Due in More Than One Year \$12.4 million, and Net Position-Net Investment in Capital Assets \$334,834. These restatements are primarily related to errors regarding accounting for subscription-based information technology arrangements, capital assets, unearned revenue, accounts payable, and other items.
- George Mason University - The following line items were overstated: Prepaid Items \$4.0 million, Receivables, Net \$1.3 million, and Net Position-Unrestricted \$5.3 million. These restatements are primarily related to errors regarding accounting for prepaid items and receivables.
- Virginia Community College System - The following line items were overstated: Prepaid Items \$9.5 million, Net Position-Unrestricted \$10.8 million. In addition, the following line item was understated: Other Liabilities \$1.3 million. These restatements are primarily related to errors regarding accounting for prepaid items.
- Longwood University - The following line items were understated: Receivables, Net \$7.8 million, Other Liabilities \$200,887, and Net Position-Unrestricted \$7.6 million. These restatements are primarily related to errors regarding eliminations between the University and foundations that have a calendar year-end.

Beginning Net Position/Fund Balance Restatement

(Dollars in Thousands)

3. NET POSITION/FUND BALANCE CLASSIFICATIONS

Fund Balance

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, improved the reporting of fund balance so that classifications are more easily understood and can be applied consistently between information reported in the government-wide financial statements and the governmental fund financial statements. The governmental fund balance classifications defined in GASB Statement No. 54 are: Nonspendable, Restricted, Committed, Assigned, and Unassigned.

Nonspendable fund balance includes inventories, prepaid items, and the principal of a permanent fund. These funds are not available for expenditure in the current or following period.

Restricted fund balance includes amounts that have constraints placed on the use of resources by the Constitution of Virginia or a party external to the Commonwealth.

Committed fund balance includes amounts that must be spent for specific purposes that have been legislatively mandated by the Governor and General Assembly.

Assigned fund balance represents amounts that the Commonwealth has identified for planned purposes but for which the intended use is not legislatively mandated. The assignments are identified by Commonwealth management pursuant to the delegation of authority granted by the General Assembly and Governor specified in the Appropriation Act. The following schedule includes committed and assigned amounts that share the same purpose and title. The distinction between these classifications results from whether there is a statutory restriction on certain amounts contained within the fund.

Unassigned fund balance for the General Fund represents the residual classification. As of June 30, no unassigned fund balance is reported for the General Fund (major). Additionally, a negative amount indicates that restricted and committed amounts exceed the available modified accrual basis fund balance. For fiscal year 2024, there are no unassigned balances in the governmental funds.

The governmental fund balance classifications and amounts as of June 30, 2024, are shown in the following table.

Governmental Fund Balance Classifications

(Dollars in Thousands)

	General Fund	Commonwealth Transportation	Federal Trust	Literary	Nonmajor Governmental	Total
Nonspendable						
Inventory	\$ 46,824	\$ 118,636	\$ 101,428	\$ —	\$ 6,516	\$ 273,404
Prepaid Items	104,159	156,928	6,793	—	166,830	434,710
Permanent Funds	—	—	—	—	48,843	48,843

4. DEFICIT FUND BALANCES/NET POSITION

The Virginia Lottery (major enterprise fund), the Department of General Services' Consolidated Laboratory Services Fund, the Department of Environmental Quality's Title V Air Pollution Permit Fund, the Virginia Museum of Fine Arts Gift Shop (nonmajor enterprise funds), and the Payroll Service Bureau (internal service funds) ended the year with deficit net positions of \$21.7 million, \$1.3 million, \$7.7 million, \$1.4 million, and \$1.4 million, respectively. This was solely attributable to the net pension liability resulting from GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, and the other postemployment benefits (OPEB) obligation resulting from GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

The Enterprise Application Fund (internal service fund) ended the year with a deficit net position balance of \$7.7 million. The deficit was a result of working capital advances for the Human Capital Management System and noncurrent liabilities related to net pension liabilities and other postemployment benefit obligations.

The Property Management Fund (internal service fund) ended the year with a deficit net position balance of \$57.2 million. The deficit was a result of long-term lease liabilities exceeding the amortized lease assets. Further, there are noncurrent liabilities related to net pension liabilities and other postemployment benefit obligations.

The Risk Management Fund (internal service fund) ended the year with a deficit net position balance of \$190.0 million. The deficit was the result of the Worker's Compensation Program having estimated insurance claims payable exceeding the available equity in the fund. Claims are paid on a pay-as-you-go basis. To the extent that claims exceed current resources, they will ultimately become a liability of the fund from which the claim originated. Further, there are noncurrent liabilities related to net pension liabilities and other postemployment benefit obligations.

The Virginia College Building Authority (major component unit) ended the year with a deficit net position balance of \$5.4 billion. This deficit occurs because the Authority issued bonds for the 21st Century College and Equipment programs subject to future appropriations from the General Fund of the Commonwealth without any other security. These future appropriations are not included as assets of the Authority. The General Assembly has never failed to appropriate funds to the Authority for payment of debt service on the Authority's bonds.

The Southern Virginia Higher Education Center (nonmajor component unit) ended the year with a deficit net position balance of \$1.1 million. This deficit is solely attributable to net pension liability and other postemployment benefit obligations.

The Virginia Economic Development Partnership (nonmajor component unit) ended the year with a deficit net position balance of \$2.4 million. This deficit is solely

attributable to net pension liability and other postemployment benefit obligations.

5. REVENUE STABILIZATION FUND

In accordance with Article X, Section 8 of the Constitution of Virginia, the amount estimated as required for deposit to the Revenue Stabilization Fund must be appropriated for that purpose by the General Assembly.

Under the provisions of Article X, Section 8 of the Constitution of Virginia, no deposit is required during fiscal year 2025 based on fiscal year 2023 revenue collections. Also, no deposit is required during fiscal year 2026 based on fiscal year 2024 revenue collections. A deposit of \$904.7 million was made during fiscal year 2024, which includes the advance reservation of \$498.7 million from the Revenue Reserve Fund provided in Chapter 1, 2022 Acts of Assembly Special Session I, for the fiscal year 2024 mandatory deposit.

Section 2.2-1829(b) of the *Code of Virginia* requires an additional deposit into the Fund when specific criteria have been met. No such deposit is required since the specified criteria were not met for fiscal year 2024.

The Revenue Stabilization Fund has principal and interest on deposit of \$2.8 billion restricted as a part of the General Fund balance. Pursuant to the constitutional amendment of Article X, Section 8, effective January 1, 2011, the amount on deposit cannot exceed 15.0 percent of the Commonwealth's average annual tax revenues derived from taxes on income and retail sales for the preceding three fiscal years. As of June 30, 2024, the constitutional maximum is \$4.1 billion.

6. REVENUE RESERVE FUND

Section 2.2-1831.2 of the *Code of Virginia* established the Revenue Reserve Fund. As of June 30, 2024, the fund has principal and interest on deposit of \$1.9 billion committed as part of the General Fund balance. This amount is set aside to mitigate certain anticipated revenue shortfalls when appropriations based on previous revenue forecasts exceed expected revenues in subsequent forecasts.

A deposit of \$289.6 million was made during fiscal year 2024. This amount represents the fiscal year 2023 revenue collected in excess of the estimate reduced by the statutory deposit to the Water Quality Fund for excess revenues. Additionally, there was a withdrawal of \$498.7 million for the advance reservation to the Revenue Stabilization Fund per Chapter 1, 2022 Acts of Assembly Special Session I, for the fiscal year 2024 mandatory deposit.

Sections 2.2-1831.3 of the *Code of Virginia* specifies the required deposits to the fund. Whenever there is a fiscal year in which there is not a mandatory deposit to the Revenue Stabilization Fund, a deposit is required if the general fund revenue exceeds the official estimate. The amount to be deposited shall not exceed one percent of the general fund revenues collected in the prior fiscal year. The Department of Planning and Budget has

identified a deposit of \$294.5 million to be made during fiscal year 2025. This amount represents the fiscal year 2024 revenue collected in excess of the estimate reduced by the amounts appropriated in Chapter 1, 2024 Acts of Assembly Special Session I, for the I-81 Corridor Improvement Program and Water Quality Improvement Fund Matching Grants, as well as the statutory deposit to the Water Quality Fund for excess revenues.

Additionally, the combined balance of the Revenue Reserve Fund and the Revenue Stabilization Fund cannot exceed 20.0 percent of the total Commonwealth's average annual tax revenues derived from taxes on income and retail sales for the preceding three fiscal years. As of June 30, 2024, the constitutional maximum is \$5.4 billion.

7. CASH, CASH EQUIVALENTS, AND INVESTMENTS

As of June 30, 2024, the carrying amount of cash for the primary government (including the Virginia Retirement System Pooled Investments) was \$13.4 billion and the bank balance was \$655.6 million. The carrying amount of cash for component units was \$3.2 billion and the bank balance was \$1.4 billion. Differences between carrying amounts and bank balances are primarily due to timing differences, including, but not limited to, outstanding checks, deposits in transit, and bank service charges. Cash equivalents are investments with an original maturity of 90 days or less. Cash and cash equivalents for foundations (component units) totaled \$759.0 million as of year-end. A portion of this amount and some balances during the year exceeded Federal Deposit Insurance Corporation (FDIC) insurance coverage. Foundation investments are disclosed in the Interest Rate Risk section of this note. Note 7 includes investment derivatives for the primary government and excludes derivatives for the component units. For additional information concerning derivative instruments, see Note 15.

For purposes of this note, primary government includes governmental, business-type activities, and fiduciary funds. The majority of deposits of the primary government and the component units, excluding foundations (component units), are secured in accordance with the provisions of the Virginia Security for Public Deposits Act, Section 2.2-4400 et seq. of the *Code of Virginia*. The act requires any public depository that receives or holds public deposits to pledge collateral to the Treasury Board to cover public deposits in excess of Federal deposit insurance. The required collateral percentage is determined by the Treasury Board and ranges from 50.0 percent to 100.0 percent for financial institutions choosing the pooled method of collateralization, and from 105.0 percent to 130.0 percent for financial institutions choosing the dedicated method of collateralization. As stated in Note 1.FF, unrealized gains or losses for the State Treasurer's Portfolio are recorded in the General Fund. Public Depositors are required to secure their deposits pursuant to several applicable provisions of the law.

The Local Government Investment Pool Act, Section 2.2-4600 of the *Code of Virginia*, created the Local

Government Investment Pool (Pool) program for the benefit of public entities of the Commonwealth. The Treasury Board of Virginia is granted administration of the Local Government Investment Pool (LGIP) and Local Government Investment Pool – Extended Maturity (LGIP EM) on behalf of the participating public entities of the Commonwealth. Participation in this pool is voluntary. Both LGIP and LGIP EM offer two professionally managed investment portfolios in accordance with the Investment of Public Funds Act. The LGIP portfolio is a diversified portfolio structured to provide public entities an investment alternative that seeks to minimize the risk of principal loss while offering daily liquidity, a stable Net Asset Value (NAV), and a competitive rate of return. The LGIP is not registered with the Securities Exchange Commission (SEC) as an investment company. The LGIP EM portfolio is a diversified portfolio with fluctuating NAV structured to provide an investment alternative to public entities who wish to invest monies not needed for daily liquidity. The fair value of the Commonwealth's position in the Pool is the same as the value of the Pool shares for all except for the LGIP EM whose shares fluctuate with changes in the fair value of the portfolio.

Certain deposits are held by trustees in accordance with the Trust Subsidiary Act, Section 6.2-1057 of the *Code of Virginia*. The act requires that cash held by trustees while awaiting investment or distribution is not to be used by an affiliate bank of the trustee in the conduct of its business unless the affiliate bank delivers securities to the trust department as collateral that is at least equal to the fair value of the trust funds held on deposit in excess of amounts insured by the FDIC.

The Commonwealth is authorized, in accordance with the guidelines set forth in Section 2.2-4500 et seq. of the *Code of Virginia*, to invest public funds in the following:

- U.S. Treasury and agency securities
- Corporate debt securities
- Asset-backed securities
- Mortgage-backed securities
- Municipal securities
- AAA rated obligations of foreign governments
- Bankers' acceptances and bank notes
- Commercial Paper
- Negotiable certificates of deposit
- Repurchase agreements
- Money market funds

Permitted investments include agency mortgage-backed securities, corporate or private label mortgage-backed securities, and asset-backed securities, which by definition usually expose the investor to prepayment risk. Prepayment risk, or the prepayment option granted the borrower, can create uncertainty concerning cash flows, can affect the price of the security causing negative convexity, and can expose the investor to reinvestment risk. Similarly, many agency and corporate securities are callable after some predetermined date at a predetermined price. The call options in regular agency debentures and some corporate securities can be open ended and may significantly impact cash flows, security pricing, and reinvestment risks of these securities.

As of June 30, 2024, the State Treasurer held no security that was in default as to principal or interest. In addition, the State Treasurer held no significant securities that were out of compliance with guidelines.

Public funds held by the Commonwealth, public officers, municipal corporations, political subdivisions, and any other public body of the Commonwealth shall be held in trust for the citizens of the Commonwealth. Any investment of such funds shall be made solely in the interest of the citizens of the Commonwealth and with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.

Certain investments held in trust by the State Treasurer in accordance with bond indentures and resolutions may have more restrictive investment policies. Investment policies of component units are established by the entity's governing boards.

The information presented for the external investment pool was obtained from audited financial statements. Copies of the LGIP report may be obtained from the Department of the Treasury website at www.trs.virginia.gov.

The Board of Trustees (the Board) of the Virginia Retirement System (the System) (part of primary government) has full power to invest and reinvest the trust funds in accordance with Section 51.1-124.30 of the *Code of Virginia*, as amended. This section requires the Board to discharge its duties solely in the interests of members, retirees, and beneficiaries. It also requires the Board to invest the assets with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. The Board must also diversify such investments so as to minimize the risk of large losses, unless under the circumstances, it is clearly prudent not to do so. The Board does not have investment policies that place specific restrictions on investments related to custodial risk, interest rate risk, credit risk, or foreign currency risk. The System's investment portfolio is intended to be managed through diversification and prudent judgment, rather than through specific policy restrictions.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a depository bank failure, the Commonwealth may not be able to recover deposits or collateral securities that are in the possession of an outside party. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Commonwealth may not be able to recover the value of its investment or collateral securities that are in the possession of an outside party.

Policies related to custodial credit risk pertaining to the Commonwealth's securities lending program are found in the securities lending section of this note.

As of June 30, 2024, the primary government (excluding the System's pooled investments) had \$13.3 million in bank balances that were uninsured and uncollateralized. There is no deposit policy that addresses custodial credit risk.

As of June 30, 2024, investment securities for the System (excluding cash equivalents and repurchase agreements held as securities lending collateral) were registered and held in the name of the System for the benefit of the System's trust and custodial funds and were not exposed to custodial credit risk. It is the standard practice and policy of the System, through the relevant provisions in its contracts and agreements with third parties, to minimize all known and reasonably foreseeable custodial credit risks.

As of June 30, 2024, component units had \$82.0 million in bank balances that were uninsured and uncollateralized, and \$6.4 million in bank balances that were uninsured and collateralized with securities held by the pledging financial institution. In addition, the Virginia Housing Development Authority (major) held \$98.4 million of investments, primarily Commercial Paper, that were uninsured and held by the counterparty as of June 30, 2024.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. As discussed in Note 1.F., the Commonwealth discloses the risk for its debt investments using the segmented time distribution method for the primary government (excluding the Virginia College Savings Plan's Defined Benefit 529 and Defined Contribution 529 programs and the Virginia Retirement System Pooled Investments) and component units and the effective duration method for Virginia College Savings Plan (Defined Benefit 529 and Defined Contribution 529 programs) and the System (Virginia Retirement System Pooled Investments).

The State Treasurer's guidelines limit the following maximum durations for any single security of the following investment types:

<u>Security Type</u>	<u>Maximum Duration</u>
Corporate Security	15 years
Asset-Backed Securities	5 years
Sovereign Government Obligations (excluding U.S.)	5 years
Negotiable Certificates of Deposit and Negotiable Bank Notes	5 years

The State Treasurer's guidelines further describe target durations for the overall general account portfolio of 1.7 years.

The Virginia College Savings Plan (Virginia529) manages the risk for fixed income investment securities held in its Defined Benefit 529 and Defined Contribution 529 programs using the effective duration methodology. Virginia529's Statements of Investment Policy and Guidelines do not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Although not an explicit requirement, duration of fixed income portfolios, if

applicable, is expected to be within 20.0 percent of each portfolio's designated benchmark.

The System also manages the risk within its portfolio using the effective duration methodology. It is widely used in the management of fixed income portfolios in that it quantifies, to a much greater degree, the risk of interest rate changes. The methodology takes into account optionality on bonds and scales the risk of price changes on bonds depending on the degree of change in rates and the slope of the yield curve.

As of June 30, 2024, the System's investments included \$2.8 billion, primarily in U.S. Treasury and agency securities, corporate bonds and notes, municipal and agency unsecured bonds and notes, and supranational and non-U.S. government bonds and notes, which are highly sensitive to interest rate fluctuations in that they have an option adjusted duration of greater than ten years. The resulting reduction in expected total cash flows affects the fair value of these securities.

As of June 30, 2024, the Commonwealth's investments subject to interest rate risk had the following maturities and weighted average effective durations.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The State Treasurer places emphasis on securities of high credit quality and marketability. At the time of purchase, the following limitations are in place:

- Bankers acceptances: At least two ratings of P-1/A-1/F1 by Moody's Investors Service (Moody's), Standard & Poor's (S&P), or Fitch
- Negotiable CDs and bank notes:
 - maturities of one year or less: At least two ratings of P-1/A-1/F1 by Moody's, S&P, or Fitch
 - maturities over one year: At least two ratings of Aa/AA/AA by Moody's, S&P, or Fitch
- Commercial paper: At least two ratings of P-1/A-1/F1 by Moody's, S&P, or Fitch
- Corporate Notes and Bonds: At least two ratings of A-3/A-/A- by Moody's, S&P, or Fitch. However, each external investment manager may invest up to 15.0 percent of their portfolio in Baa2/BBB rated bonds which, must be rated by two rating agencies and one of the two qualifying ratings shall be at least Baa2/BBB/BBB by Moody's, S&P, or Fitch.
- Municipal Bonds: A-3/A- or equivalent by two nationally recognized rating agencies, one of which must be Moody's or S&P
- Asset-backed securities: One of the two qualifying ratings shall be at least Aaa/AAA/AAA by Moody's, S&P, or Fitch

- Dollar denominated obligations of sovereign governments: Must be rated by two rating agencies with two qualifying ratings of at least Aaa/AAA/AAA by Moody's, S&P, or Fitch
- Commercial Mortgage-Backed Securities (CMBS) and Collateralized Mortgage Obligations (CMOs): Must be rated at least Aaa or AAA by two rating agencies. One of the two qualifying ratings shall be at least Aaa/AAA/AAA by Moody's, S&P, or Fitch.

The System's policy for credit risk is based on the concept of a risk budget rather than specific limitations related to the rating of an individual security. The System's risk budget is allocated among the different investment strategies, which are managed to a relevant benchmark. The System's policy requires performance returns to remain within an allowable range from the relevant benchmarks.

Credit risk for derivative instruments held by the Commonwealth results from counterparty risk assumed by the Commonwealth. This is essentially the risk that the borrower will be unable to meet its obligation. Information regarding the Commonwealth's credit risk related to derivatives is found in Note 15.

Policies related to credit risk pertaining to the Commonwealth's securities lending program are found in the Securities Lending section of this note.

The following tables present the credit ratings for the investments of the primary government (excluding the Virginia Retirement System Pooled Investments), the System (Virginia Retirement System Pooled Investments), and component units as of June 30, 2024. The ratings presented are using Moody's, S&P, and Fitch rating scales. They are displayed from short-term to long-term.

Concentration of Credit Risk

Primary Government

Concentration of credit risk is related to the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. The State Treasury and the System have individual investment policies limiting the amounts that may be invested in any single issuer.

It is the State Treasurer's policy that each portfolio will be diversified with no more than 4.0 percent of the value of the fund invested in the securities of any single issuer. This limitation shall not apply to the U.S. Government, or agency thereof, or U.S. Government sponsored corporation securities and fully insured and/or collateralized certificates of deposit. Certain portfolios are limited to amounts less than 4.0 percent of the value of the fund invested in the securities of any single issuer. As of June 30, 2024, more than 5.0 percent of the Commonwealth's investments were in the Federal Farm Credit Bank, which totaled \$1.9 billion. Since these securities are exempted from the State Treasury investment policies, all investments are compliant with investment policies.

Other than U.S. government securities, which are not subject to the GASB 40 disclosure requirements, the System has no investments in any single issuer whose fair value equals 5.0 percent or more of the System's fiduciary net position or total investments.

Foreign Currency Risk

Primary Government

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. All primary government investments exposed to foreign currency risk were part of the System, the Virginia College Savings Plan's (Virginia529) Defined Benefit 529 Program (major enterprise fund), and Defined Contribution 529 Program (fiduciary fund), and the Unclaimed Property (nonmajor special revenue fund) portfolios as of June 30, 2024. There is no investment policy related to foreign currency risk for the Unclaimed Property portfolio.

Virginia529 has direct exposure to foreign currency risk through several investment mandates. Investment managers use currency forward contracts to hedge risks associated with currency fluctuations. Foreign currency gains and losses are recorded in net investment income in the financial statements.

The System's foreign currency risk exposures, or exchange rate risk, primarily exist in the international and global equity investment holdings. The net realized gains and losses resulting from the settlement of foreign currency transactions and unrealized gains and losses associated with unsettled transactions are recorded in Investment Income in the Statement of Changes in Fiduciary Net Position. The Commonwealth's exposure to foreign currency risk as of June 30, 2024 is highlighted in the following tables.

Component Units

All nonmajor component unit investments exposed to foreign currency risk were part of James Madison University, the Virginia Economic Development Partnership, and the Virginia School for the Deaf and Blind Foundation as of June 30, 2024. None of these entities have investment policies related to foreign currency risk.

Fair Value Measurements

Primary Government

GASB Statement No. 72, *Fair Value Measurement and Application*, requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The fair value hierarchy is based on the valuation inputs used to measure the fair value of assets.

- Level 1 inputs are quoted prices in active markets for identical assets;
- Level 2 inputs are significant other observable inputs and may include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, or model-driven valuations;
- Level 3 inputs are derived using valuation techniques that have significant unobservable inputs.

Investments that do not have a readily determinable fair value are excluded from the fair value hierarchy and instead are valued by using the net asset value (NAV) per share (or its equivalent). In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant in the valuation.

The following tables summarize recurring fair value measurements for the cash equivalents and investments reported by the primary government (excluding Virginia Retirement System Pooled Investments) and the System (Virginia Retirement System Pooled Investments) as of June 30, 2024.

Fair Value Measurements - Primary Government (Excluding Virginia Retirement System Pooled Investments) (Dollars in Thousands)

	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total Fair Value	<u>\$ 39,895,960</u>			

- (1) Debt securities are classified as follows:
- Level 1 - valued using unadjusted quoted prices in active markets for those securities.
 - Level 2 - valued using a matrix pricing model and observable prices using dealer quotes for similar securities traded in active markets.
- (2) Equity securities are classified as follows:
- Level 1 - valued using unadjusted quoted prices in active markets for those securities.
 - Level 2 - valued using dealer quotes for similar securities traded in active markets.
 - Level 3 - valued using independent appraisals.
- (3) Investments reported at fair value established using the NAV were all part of the Virginia College Savings Plan's (Virginia529) Defined Benefit 529 and Defined Contribution 529 programs. The following tables (dollars in thousands) summarizes Defined Benefit 529 and Defined Contribution 529's investments measured at the NAV and related disclosures as of June 30, 2024. In some cases, the actual NAV has not been determined by the external fund or investment managers as of the fiscal year end and must be projected using a roll-forward process. The projected NAV is generally the value at the end of the prior quarter, adjusted for any contributions or distributions. There is no adjustment for realized and unrealized gains and losses. Additional information, including investment strategies, is available in the Virginia529 individually published financial statements, which may be obtained at www.virginia529.com.

Description of Defined Benefit 529 Investments Measured at the NAV:

Investments Measured at NAV	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Equity Index and Pooled Funds	\$ 371,531	\$ —	Daily	5 Days
Real Estate	239,261	67,720	Quarterly	None, 90 Days
Other Equity Securities - Private Equity	553,523	189,898	Monthly	None, 10 Days
Fixed Income and Commingled Funds	660,430	72,351	Monthly - Quarterly	None, 10 - 60 Days
Total Investments Measured at the NAV	\$ 1,824,745			

- **Equity Index and Pooled Funds** – This investment type includes one index fund. The fair value of investments in this type have been determined using the NAV per share of the investments.
- **Real Estate** – This investment type includes five limited partnerships and one limited liability company. For Morgan Stanley, capital representing approximately 31.6 percent of the fair value in this investment type is generally contributed up front and can be redeemed as requested according to the redemption frequency. For the remaining investments in this type, capital is generally expected to be called during the initial four to five years of the investment period and is expected to be returned through liquidations of underlying fund investments during the 3rd through 15th years. As distributions from the funds in this asset type are received through income as well as the liquidation of the underlying assets of the fund, there are limitations on the timing of withdrawals which can be taken. The fair values of investments in this type have been determined using the NAV per share of the investments.
- **Other Equity Securities** – This investment type includes private equity funds of funds managed by 12 managers and several different funds. These investments cannot be redeemed from the fund. With the exception of Sands, capital representing 93.6 percent of the fair value in this investment type is generally expected to be called during the initial four to five years and is expected to be returned through liquidations of underlying fund investments during the 3rd through 15th years. Secondary funds of funds may have an accelerated capital call and return of capital profile. Capital representing approximately 6.4 percent of the fair value in this investment type invested with Sands can be redeemed subject to the 10 business day redemption term. Virginia529 invests in multiple funds with 12 of its private equity investment managers and is also diversified by vintage year with respect to these investments. The fair values of investments in this type have generally been determined using the March 31, 2024 NAV of Virginia529's ownership of the partnership, adjusted for cash flows (capital calls and distributions) through June 30, 2024.
- **Fixed Income and Commingled Funds** – This investment type includes seven limited partnerships and two investments in collective trusts. The fair values of investments in this type have been determined using the NAV per share of the investments. For Ares Global, Brigade and Wellington, capital representing approximately 71.3 percent of the fair value in this investment type can be redeemed subject to the fund redemption terms shown in the ranges in the table above. The remaining 28.7 percent of the fair value of this asset class is generally expected to be called during the initial four to five years and is expected to be returned through liquidations of underlying fund investments during the 3rd through 15th years.

Description of Defined Contribution 529 Investments Measured at the NAV:

<u>Investments Measured at NAV</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if Currently Eligible)</u>	<u>Redemption Notice Period</u>
Equity Index and Pooled Funds	\$ 247,626	\$ —	Daily	N/A
Real Estate	75,543	—	Quarterly	60 - 90 Days
Total Investments Measured at the NAV	<u>\$ 323,169</u>			

- **Equity Index and Pooled Funds** – This investment type includes one common trust fund. The Wellington Management Co., LLP invests in developed markets' international equities through the Wellington International Contrarian Value Fund. The fair value of investments in this type have been determined using the NAV per share of the investments.
- **Real Estate** – This investment type includes two limited partnerships. The UBS Trumbull Property Fund's investment strategy is to invest primarily through direct equity-owned real estate assets and represents approximately 25.7 percent of the fair value in this investment type. The fund also has flexibility to invest in joint venture and debt investments. Investments are generally acquired on an all-cash basis, however, debt may be used where UBS determines leverage is prudent and is expected to enhance total return without undue risk. Blackstone Property Partners, which represents approximately 74.3 percent of the fair value in this investment type, is an open ended commingled fund seeking core plus real estate investments in the U.S. and Canada. As distributions from the funds in this asset type are received through income as well as liquidation of the underlying assets of the funds, there are limitations on the timing of withdrawals which can be taken. The fair values of investments in this type have been determined using the NAV per share of Virginia529's ownership of the partnership.

Total Fair Value	<u>\$ 114,698,939</u>			

(1) Debt securities are classified as follows:

- Level 1 - valued using unadjusted quoted prices in active markets for those securities.
- Level 2 - valued using bid evaluations or matrix pricing techniques. Inputs to the valuation techniques may include market participants' assumptions, quoted prices for similar assets, benchmark yield curves, market corroborated inputs, and other data inputs.
- Level 3 - valued using proprietary information.

(2) Equity securities are classified as follows:

- Level 1 - valued using unadjusted quoted prices in active markets for those securities.
- Level 2 - valued using quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; or model-driven valuations in which all significant inputs are observable.
- Level 3 - valued using proprietary information or single source pricing. When observable inputs are not available, this results in using one or more valuation techniques, such as the market approach, the income approach, and/or the cost approach, for which sufficient and reliable data is available. Within this level, the use of the market approach generally consists of using comparable market transactions or other data, while the use of the income approach generally consists of the net present value of estimated future cash flows. The cost approach is often based on the amount that would currently be required to replace an asset with one of comparable utility.

(3) The following table (dollars in thousands) summarizes the System's investments measured at the NAV per share (or its equivalent) and as a practical expedient are not classified in the fair value hierarchy. Cash equivalents and certain other short-term, highly liquid investments that are measured at amortized cost are also not classified in the fair value hierarchy. In some cases, the actual NAV has not been determined by the external fund or investment managers as of the System's fiscal year end and must be projected using a roll-forward process. The projected NAV is the value at the end of the prior quarter, adjusted for any contributions or distributions and an estimate of income and management fees. There is no adjustment for realized or unrealized gains and losses.

Description of Investments Measured at the NAV:

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period

Total investments measured at the NAV	<u>\$ 66,007,318</u>	<u>\$ 17,765,580</u>		

- Equity Long/Short Hedge Funds** – This type included investments in eleven hedge funds at June 30, 2024, which invest in global long and short equity positions. Management of each hedge fund has the ability to invest from value to growth strategies, from small to large capitalization stocks and may vary net exposure considerably. The fair values of the investments in this type have been determined using the NAV per share of the investments. Investments representing approximately 26.0 percent of the value of the investments in this type of fund cannot be redeemed because the investments include restrictions that do not allow redemption in the first 12 months after acquisition. The remaining restriction period for these investments was less than 12 months at June 30, 2024.
- Equity Long-Only Hedge Funds** – This type included an investment in two hedge funds at June 30, 2024, which invest in global long-only equity positions. These hedge funds are generally fully invested and only very occasionally may take short positions for hedging purposes. The fair value of the investment in this type has been determined using the NAV per share of the investments. Investments representing approximately 19.0 percent of the value of the investments in this type of fund cannot be redeemed because the investments include restrictions that do not allow redemption in the first 12 months after acquisition. The remaining restriction period for these investments was less than 12 months at June 30, 2024.
- Multi-Strategy Hedge Funds** – This type included investments in thirteen hedge funds at June 30, 2024, which invest in multiple asset classes, combining exposure to balance risks. Such exposure can include traditional and alternative investments. The fair values of the investments in this type have been determined using the NAV per share of the investments. Investments representing approximately 3.0 percent of the value of the investments in this type of fund cannot be redeemed because the investments include restrictions that do not allow redemption in the first 12 months after acquisition. The remaining restriction period for these investments was less than 12 months at June 30, 2024.
- Credit Strategies Funds** – This type consists of many fund categories, including Asset Backed, Bank Loan and Direct Lending funds, Distressed Debt funds, Diversified Private Credit, Mezzanine Debt funds, Multi-strategy funds and Opportunistic funds. The fair value of the investments in these funds have been determined using the NAV per share of the investments. The nature of the investments in this type is that distributions are received through the liquidation of the underlying assets in the fund. It is expected that hold periods for the underlying fund assets will range from three to eight years.

- **Private Equity Funds** – This type consists of many fund categories including Venture Capital, Buyout, Subordinated Debt, Growth Capital, Turnaround, Energy and Special Situations. The fair value of the investments in these funds have been determined using the NAV per share of the investments. The nature of the investments involves receiving distributions through liquidation of the underlying fund assets. It is expected that hold periods for the underlying fund assets will range from three to eight years.
- **Equity International Commingled Funds** – This type included an investment in one institutional investment fund at June 30, 2024, which invests in international equities. This fund employs a long/short investment strategy in global developed and emerging markets. The fund is regulated by the Securities and Exchange Commission. The fair value of the investment in this fund has been determined using the NAV per share of the investment. Redemptions can be made from this fund semi-monthly with six days notice.
- **Real Asset Funds** – This type includes investments in many fund categories including Private Investment Real Estate, Private Real Estate Investment Trusts, Infrastructure and Natural Resources. The fair value of the investments in these funds have been determined using the NAV per share of the investments. The nature of the investments in this type is that distributions are received through income as well as the liquidation of the underlying assets in the fund. If these investments were held, it is expected that the underlying assets of the funds would be liquidated over one to fourteen years.

Component Units

The following table summarizes fair value measurements for the cash equivalents and investments reported by the component units as of June 30, 2024. The table excludes cash equivalents and investments measured at fair value by the foundations that follow FASB standards.

Fair Value Measurements - Component Units (Dollars in Thousands)

Total Fair Value Established Using the NAV	2,111,532			
Total Fair Value	\$ 6,892,964			

(1) Debt securities are classified as follows:

- Level 1 - valued using unadjusted quoted prices in active markets for those securities.
- Level 2 - valued based on quoted prices for similar securities in active markets or quoted prices for identical or similar securities in markets that are not active.

(2) Equity securities are classified as follows:

- Level 1 - valued using unadjusted quoted prices in active markets for those securities.
- Level 2 - valued using significant other observable inputs.
- Level 3 - valued using unobservable inputs and may include assumptions of management.

(3) The following nonmajor component units reported investments at fair value established using the NAV: Old Dominion University, Virginia Commonwealth University (VCU), Virginia Commonwealth University Health System Authority (blended component unit of VCU), College of William and Mary, Virginia Military Institute, Virginia State University, Hampton Roads Sanitation District Commission, Virginia Biotechnology Research Partnership Authority, Virginia Outdoors Foundation, and Virginia Polytechnic Institute and State University. Additional information is available in the separately issued financial statements.

Securities Lending

The State Treasury's securities lending program is managed by Mitsubishi UFJ Banking and Trust Corporation (Mitsubishi), under a contract dated May 31, 2023. The enabling legislation for the securities lending program is Section 2.2-4506 of the *Code of Virginia*. No violations of legal or contractual provisions were noted during the year. The general account participated in a securities lending program for the entire fiscal year. Prior to the transition to Mitsubishi which occurred on October 1, 2023, the State Treasury's securities lending program was managed by Deutsche Bank AG, New York (Deutsche Bank), under a contract dated March 28, 2014, amended February 22, 2022.

All securities lending loans are on an open-ended or one-day basis and may be terminated by the State Treasury with a 24-hour notice or are term loans with the right of substitution. While all securities may be recalled on a daily basis, securities are often on loan for much longer periods. Generally, cash reinvestments security maturities do not match the maturities of loans. Per the contract with Mitsubishi, all cash collateral reinvestment securities attributable to loans made on the Commonwealth's behalf shall be maintained by Mitsubishi, and the State Treasury cannot pledge or sell such collateral absent a default.

The State Treasury's contract with Mitsubishi provides for loss indemnification against insolvency default with respect to lending transactions and in the case of reverse transactions (Repurchase Agreements) as defined in the applicable Agency Securities Lending and Repurchase Agreement. Additionally, Mitsubishi is liable for any losses experienced from reinvestment of cash collateral in investments not authorized by the provisions of the investment guidelines for the Commonwealth of Virginia agreed upon by both parties and made a part of the Agency Securities Lending and Repurchase Agreement. There were no realized losses resulting from default during this reporting period.

When securities are loaned, the collateral received is at least 100.0 percent of fair value of the securities loaned and must be maintained at 100.0 percent or greater. There are no stated restrictions on the amount of securities that may be loaned, but the basic composition of the general account portfolio effectively restricts the maximum percentage of the portfolio that may be loaned. Between July 1, 2023 through September 30, 2023, approximately 9.4 percent of the general account securities were on loan and between October 1, 2023 through June 30, 2024, approximately 9.2 percent of the general account securities were on loan.

During the past year, a combination of U.S. Treasury, agency, agency mortgage and corporate securities have been loaned, with the majority of the loaned securities being U.S. Treasury and agency securities. As of June 30, 2024, all collateral received was in the form of cash.

Securities loaned for the State Treasurer's cash collateral reinvestment pool, which consisted of 96.9 percent general account funds and 3.1 percent Virginia Lottery funds as of June 30, 2024, had a carrying value of \$3.61 billion and a fair value of \$3.53 billion. The fair value of the collateral received was \$3.56 billion providing for coverage of 100.9 percent. At year-end, the State Treasury's securities lending program had no credit risk exposure to borrowers because the amounts it owed the borrowers exceeded the amounts the borrowers owed Treasury's securities lending program. All securities are marked to market daily. The carrying value of the cash collateral reinvestment pool received was \$3.56 billion and the cost of the investments purchased with the cash collateral was \$3.56 billion. As of June 30, 2024, the State Treasurer's cash collateral reinvestment pool had an unrealized loss of \$0.8 million, which is recorded in the General Fund as stated in Note 1.FF. This amount is included in the total State Treasurer's Portfolio discussed earlier in this note.

Cash collateral reinvestment guidelines were amended effective April 16, 2014. Approved investment instruments include Indemnified Repurchase Agreements marked to market daily and preapproved Government Money Market Funds. Term repurchase agreements are limited to 93 days. As of June 30, 2024, 99.2 percent of cash collateral reinvestments were in indemnified repurchase agreements and 0.8 percent were in Invesco Government and Agency Portfolio Money Market fund.

As of June 30, 2024, the cash collateral reinvestment portfolio had a weighted average maturity to reset date of 0.5 days. Using the expected maturity date, the weighted average maturity was 25 days and using the final maturity date, which assumes no pay downs on any asset-backed or mortgage-backed securities, the weighted average maturity was 26 days.

As of June 30, 2024, the cash collateral reinvestment portfolio was in compliance with the State Treasury's current cash collateral reinvestment guidelines.

Under authorization of the Board, the System lends its fixed income and equity securities to various broker-dealers on a temporary basis. This program is administered through an agreement with the System's custodial agent bank. All security loan agreements are collateralized by cash, securities, or an irrevocable letter of credit issued by a major bank, and have a fair value equal to at least 102.0 percent of the fair value for domestic securities and 105.0 percent for international securities. Securities received as collateral cannot be pledged or sold by the System unless the borrower defaults. Contracts require the lending agents to indemnify the System if the borrowers fail to return the

securities lent and related distributions and if the collateral is inadequate to replace the securities lent. All securities loans can be terminated on demand by either the System or the borrowers. The majority of loans are open loans, meaning the rebate is set daily. This results in a maturity of one or two days on average, although securities are often on loan for longer periods. The maturity of loans generally does not match the maturity of collateral investments, which averages 12.1 days. At year-end, the System had no credit risk exposure to borrowers because the amounts it owes the borrowers exceeded the amounts the borrowers owe the System. All securities are marked to market daily and carried at fair value. The fair value of securities on loan as of June 30, 2024, was \$9.6 billion. The June 30, 2024, balance was composed of U.S. Government and agency securities of \$5.7 billion, corporate and other bonds of \$1.1 billion, common and preferred stocks of \$2.7 billion and supranational and non-U.S. Government bonds of \$48.0 million. The value of collateral (cash and non-cash) as of June 30, 2024, was \$10.3 billion.

As of June 30, 2024, the invested cash collateral had a fair value of \$4.3 billion and was composed of negotiable certificates of deposit of \$1.4 billion, commercial paper of \$1.5 billion, time deposits of \$238.9 million, corporate bonds of \$58.3 million, other debt securities of \$200.0 million, and repurchase agreements of \$962.8 million.

As of June 30, 2024, the System's custodial agent bank released \$200.0 million in cash from the invested securities lending collateral pool to the System. The cash released is used to provide liquidity for other investment strategies of the System. The securities lending collateral liability is fully collateralized when the cash released is combined with the invested securities lending collateral.

8. RECEIVABLES

The following schedule (dollars in thousands) details the accounts, loans, interest, taxes, educational contributions, security transactions, service concession arrangement upfront payments, and other receivables presented in the major funds, aggregated nonmajor funds by type, internal service funds, fiduciary funds, major component units, and aggregated nonmajor component units, as of June 30, 2024.

	Accounts Receivable	Loans / Mortgage Receivable	Interest Receivable	Taxes Receivable
Primary Government:				
General (1)	\$ 1,459,627	\$ 140	\$ 959,286	\$ 3,819,045
Major Special Revenue Funds:				
Commonwealth Transportation (2)	285,379	259,181	3,800	503,034

Total Component Units	<u>\$ 3,454,495</u>	<u>\$ 457,720</u>	<u>\$ 176,705</u>	<u>\$ 5,840</u>

Note (1): The General Fund (major) reports pending investment transactions of \$4.8 million as Other Receivables.

Note (2): The loans receivable in the Commonwealth Transportation Fund (major) includes \$218.7 million from the Virginia Transportation Infrastructure Bank as discussed in Note 21.E. In the nonmajor governmental funds, it represents the amounts to be received for current debt service requirements. The amount to be received for long-term debt service requirements of \$22.6 million is included in the government-wide statements but excluded from the above amounts.

Note (3): Nonmajor governmental funds includes \$501.2 million in account receivables, which includes \$464.3 million that will be received greater than one year. This receivable represents the Commonwealth's share of the National Opioid Settlement that will assist with the abatement of the opioid epidemic.

Note (4): In the Pension and Other Employee Benefit Trust Funds and Custodial Funds - Other, Interest Receivable of \$321,850 (dollars in thousands) also includes dividends receivable. Additionally, of the total reported as Other Receivables, \$64,265 (dollars in thousands) are made up of \$30,197 (dollars in thousands) in pending investment transactions, which includes \$7,408 (dollars in thousands) in external investment manager receivable, \$11,701 (dollars in thousands) in foreign exchange receivable, \$8,728 (dollars in thousands) in real assets, \$2,360 (dollars in thousands) in securities lending; and \$34,068 (dollars in thousands) in other receivables.

Note (5): Fiduciary net receivables in the amount of \$5,110,922 (dollars in thousands) are not included in the Government-wide Statement of Net Position.

Note (6): Other Receivables of the nonmajor component units are primarily comprised of the following (dollars in thousands): pledges receivable of \$58,118 reported by the University of Virginia; third-party settlements and non-patient receivables of \$163,443 reported by Virginia Commonwealth University Health System Authority (blended component unit of Virginia Commonwealth University-VCUHSA); \$76,331 reported by foundations of the higher education institutions representing FASB reporting entities defined in Note 1.B which includes lease receivables of \$30,656 under FASB standards; \$66,187 reported by the Virginia Port Authority (VPA) which includes lease receivables of \$51,564, \$15,292 of lease receivables reported by Fort Monroe Authority (FMA), and \$697 reported by the Virginia Museum of Fine Arts Foundation. Other receivables also include lease receivables of \$101,183 reported by various higher education institutions, excluding foundations.

9. CONTRIBUTIONS RECEIVABLE, NET

The following schedule details the contributions receivable for foundations⁽¹⁾ included with the nonmajor component units, as of June 30, 2024. The major component units reported no contributions receivable for fiscal year 2024.

(Dollars in Thousands)

	Due in Less Than One Year	Due Between One and Five Years	Due in More Than Five Years	Subtotal	Present Value Discount (2)	Allowance for Doubtful Accounts	Contributions Receivable, Net
Discrete Component Units:							
Nonmajor Component Units	\$ 225,028	\$ 379,600	\$ 107,079	\$ 711,707	\$ (74,394)	\$ (26,745)	\$ 610,568
Total Component Units	<u>\$ 225,028</u>	<u>\$ 379,600</u>	<u>\$ 107,079</u>	<u>\$ 711,707</u>	<u>\$ (74,394)</u>	<u>\$ (26,745)</u>	<u>\$ 610,568</u>

Note (1): Foundations represent FASB reporting entities defined in Note 1.B.

Note (2): The discount rate used to determine present value ranges from 0.1 percent to 8.5 percent.

10. INTERFUND AND INTER-ENTITY ASSETS / LIABILITIES

Due from/to Other Funds

Due from Other Funds are amounts to be received from one fund by another fund for goods sold or services rendered. Due to Other Funds are amounts owed by one fund to another fund for goods purchased or services obtained.

The following line items are included in the category "Due from Other Funds":

- Due from Other Funds
- Due from Internal Parties (Governmental Funds and Business-type Activities)
- Due from External Parties (Fiduciary Funds)

The following line items are included in the category "Due to Other Funds":

- Due to Other Funds
- Due to Internal Parties (Governmental Funds and Business-type Activities)
- Due to External Parties (Fiduciary Funds)

The following schedule shows the Due from/to Other Funds as of June 30, 2024.

Total Primary Government	<u>\$ 341,343</u>	Total Primary Government	<u>\$ 341,343</u>

Due from/to Primary Government and Component Units

Included in this category is activity between the Commonwealth and its component units, as well as activity between component units.

A due from primary government amount that is due from the Federal Trust Fund (major special revenue) to the Virginia College Building Authority (major component unit) of \$735,331 is for interest on Build America Bonds (BABs).

A due from primary government amount that is due from the Commonwealth Transportation Fund (major special revenue) to the Virginia Passenger Rail Authority (nonmajor component unit) of \$35.7 million is for Commonwealth Rail Funds.

A \$950.9 million due from primary government amount that is due from the General Fund (major governmental) to the higher education institutions (nonmajor component units) is for payments awaiting disbursements and appropriations available for capital projects and other programs. The General Fund reports \$45.7 million in the fund financial statements and an additional \$905.2 million in the government-wide financial statements.

A \$102,068 due from primary government amount represents an amount due from a nonmajor governmental fund related to the Department of Treasury's reimbursement programs to the Virginia Community College System (nonmajor component unit).

A due from primary government amount that is due from the Virginia Public Building Authority (capital projects fund - nonmajor governmental fund) to the Virginia Port Authority (nonmajor component unit) of \$1.1 million represents bond revenue to be used for capital projects.

A \$33,844 due to primary government amount from the Virginia Passenger Rail Authority (nonmajor component unit) to the Commonwealth Transportation Fund (major special revenue) is for reimbursement of capital project expenses.

A \$36.8 million due from component units in the Health Care Fund (internal service fund) represents amounts due from the nonmajor component units.

A \$2.0 million due from component units represents monies owed for administrative and project expenses from the Science Museum of Virginia Foundation (nonmajor component unit) to a nonmajor governmental fund. The entire nonmajor governmental amount is reported in the government-wide financial statements.

The \$83.9 million due from component units amount represents amounts due from the Virginia College Building Authority (major component unit) for the Department of the Treasury's reimbursement programs to higher education institutions (nonmajor component units).

Due from/to Component Units and Fiduciary Funds

A \$36.6 million due from component units in the Pension and Other Employee Benefit Trust Funds (fiduciary funds) represents amounts due from nonmajor component units.

Loans Receivable/Payable Between Primary Government and Component Units

The \$195.3 million in loans receivable from primary government represents loans from the Virginia Public School Authority (VPSA) (major component unit) to the Literary Special Revenue Fund (major governmental fund). The VPSA makes grants to local school divisions to finance the purchase of educational technology and security equipment. The VPSA makes these grants using the proceeds of notes issued for that purpose, which will be repaid from appropriations to be made by the Virginia General Assembly from the Literary Special Revenue Fund (major governmental fund).

11. OTHER ASSETS

The following table summarizes Other Assets as of June 30, 2024.

(Dollars in Thousands)

	Cash and Travel Advances	Net OPEB Asset (1)	Other Assets	Total Other Assets
Primary Government:				
General	\$ 942	\$ —	\$ 456	\$ 1,398
Major Special Revenue Funds:

Custodial Funds - Other (3)	—	—	11	11
Total Primary Government	<u>\$ 5,411</u>	<u>\$ 12,114</u>	<u>\$ 28,597</u>	<u>\$ 46,122</u>
Discrete Component Units:				
Virginia Housing Development Authority (4)	\$ —	\$ —	\$ 33,888	\$ 33,888
Virginia Resources Authority	—	—	610	610
Nonmajor Component Units (5)	418	—	253,554	253,972
Total Component Units	<u>\$ 418</u>	<u>\$ —</u>	<u>\$ 288,052</u>	<u>\$ 288,470</u>

Note (1): Other noncurrent assets in the proprietary funds represent the Virginia Sickness and Disability Program Net OPEB Asset applicable to the respective fund. The proprietary fund amounts are reclassified to Other Restricted Assets in the Government-wide Statement of Net Position.

Note (2): Of the \$28,095 (dollars in thousands) shown above, \$26,971 (dollars in thousands) and \$1,124 (dollars in thousands) represent Technology and Data Services and Virginia Correctional Enterprises, respectively, amounts due from various governmental funds that will not be received within 60 days. These amounts are reclassified to an internal balance on the Government-wide Statement of Net Position.

Note (3): Custodial Funds - Other amount of \$11,000 shown above is not included in the Government-wide Statement of Net Position.

Note (4): Other Assets of the Virginia Housing Development Authority are comprised primarily of mortgage servicing rights and other real estate owned.

Note (5): Other Assets of the nonmajor component units are primarily comprised of miscellaneous items spread among the higher education institutions and related foundations as well as the nonmajor component units as follows:

- University of Virginia includes primarily \$12.7 million of Licensing & Ventures Group (LVG) seed funds at cost; \$72.3 million for equity in affiliates that do not meet the investment definition; and
- Related foundations of Longwood University, Virginia Polytechnic Institute and State University, and the University of Virginia include \$21.1 million, \$45.7 million, and \$69.3 million, respectively, primarily for cash surrender value of life insurance policies, deferred tax assets, net investment in direct financing leases, intangibles, and right-to-use assets, and a derivative asset.

12. RESTRICTED ASSETS

Restricted Cash and Cash Equivalents, Restricted Investments, and Other Restricted Assets

Restricted assets represent monies or other resources that must be used for specific legal or contractual requirements. The governmental funds reported \$2.0 billion in restricted cash, cash equivalents, and investments primarily related to bond agreements. Of this amount, \$1.8 billion relates to transportation projects, \$161.1 million pertains to capital projects, and \$43.7 million pertains to debt service requirements. The governmental and business-type activities funds reported other restricted assets of \$187.1 million and \$8.9 million, respectively, for the Virginia Sickness and Disability Program Net OPEB Asset. See Note 11, Other Assets, for more information related to the Enterprise and Internal Service Funds.

The Virginia Housing Development Authority, the Virginia Public School Authority, and the Virginia College Building Authority (all major component units) reported restricted assets totaling \$2.6 billion, \$428.3 million, and \$657.2 million, respectively. These major component units' assets are restricted for debt service under a bond indenture or other agreement, or for construction and equipment.

The Virginia Resources Authority (major component unit) reported restricted assets of \$1.3 billion. Of this amount, \$1.3 billion is restricted for loans to local governments, bond indentures, or federal and state regulations for various revolving funds, and \$7.9 million is restricted for the Operating Reserve Fund for the Virginia Pooled Financing Program.

The Virginia Port Authority (nonmajor component unit) reported restricted assets of \$522.3 million primarily for debt service under bond agreements, construction and other project funds.

The Tobacco Region Revitalization Commission (nonmajor component unit) reported restricted assets of \$162.0 million to be used for financial aid to tobacco growers and to foster community economic growth. This includes Other Restricted Assets of \$49,846 for the Virginia Sickness and Disability Program Net OPEB asset.

The Hampton Roads Sanitation District Commission (nonmajor component unit) reported restricted assets of \$22.3 million to be used for debt service.

The Virginia Small Business Financing Authority (nonmajor component unit) reported restricted assets of \$86.1 million for gifts and grants. This includes Other Restricted Assets of \$52,380 for the Virginia Sickness and Disability Program Net OPEB asset.

The higher education institutions (nonmajor component units) reported restricted assets totaling approximately \$9.1 billion primarily for endowment and other contractual obligations. Included in this amount is approximately \$8.0 billion of foundations' restricted assets. This includes Other Restricted Assets of \$118.0 million for the Virginia Sickness and Disability Program Net OPEB asset. The Virginia Commonwealth University Health System Authority (Authority) (a blended component unit of Virginia Commonwealth University—nonmajor component unit) includes \$21.5 million for a beneficial trust and \$5.5 million for an equity interest in a foundation as Other Restricted Assets. These Authority assets are classified as Level 3 on the fair value hierarchy. For additional information, see the Authority's separately issued financial statements.

The two museum foundations, the Virginia Museum of Fine Arts Foundation (nonmajor component unit) and the Science Museum of Virginia Foundation (nonmajor component unit) had restricted assets of \$287.7 million and \$28.6 million, respectively, primarily for donor-imposed restricted endowments.

The remaining \$16.6 million is spread among the following nonmajor component units: the Virginia Outdoors Foundation, the Virginia Passenger Rail Authority, the Danville Science Center, the Fort Monroe Authority, the Virginia Biotechnology Research Partnership Authority, the Virginia Economic Development Partnership, the Virginia Innovation Partnership Authority, the Virginia Tourism Authority, the Virginia Foundation for Healthy Youth, and the Library of Virginia Foundation. Included in this amount is approximately \$2.0 million for the Virginia Sickness and Disability Program Net OPEB asset.

Restricted Receivables, Net

The following schedule (dollars in thousands) details the restricted receivables reported by component units as of June 30, 2024.

The restricted receivables are generally expected to be collected in greater than one year.

Restricted Receivables, Net

(Dollars in Thousands)

Note (1): Beginning balances have been restated by \$135.8 million predominately relating to GASB Implementation Guide 2021-1, Question 5.1 regarding group assets of \$150.5 million. In addition, beginning balances have been restated for error corrections by various higher education institutions (nonmajor) for negative \$14.7 million. There have also been reclassifications in the beginning balances of certain line items.

Note (2): Foundations represent FASB reporting entities defined in Note 1.B. Since foundations follow FASB rather than GASB reporting requirements, no amounts are reported in the software and other intangible assets categories for foundations.

14. DEFERRED OUTFLOWS AND DEFERRED INFLOWS OF RESOURCES

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, requires certain items to be classified as either deferred outflows or deferred inflows of resources. Additionally, deferred outflows or deferred inflows of resources are also required by other GASB statements. While all deferred outflows or deferred inflows of resources applicable to the Commonwealth are listed below, see Notes 15, 16, 18, and 38 for additional information regarding these items.

Deferred Outflows

Deferred outflows of resources are a consumption of net assets by the government that is applicable to a future reporting period.

Deferred Inflows

Deferred inflows of resources are an acquisition of net assets by the government that is applicable to a future reporting period.

The following tables summarize deferred outflows and deferred inflows of resources as of June 30, 2024.

15. DERIVATIVE INSTRUMENTS

GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, requires additional reporting and disclosures for derivative instruments.

Primary Government

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates or financial indexes. They include futures, forwards, options and swap contracts. Some traditional securities, such as structured notes, can have derivative-like characteristics. In this case, the return may be linked to one or more indexes and asset-backed securities, such as collateralized mortgage obligations (CMOs), which are sensitive to changes in interest rates and prepayments. Futures, forwards, options and swaps generally are not recorded on the financial statements, whereas structured notes and asset-backed investments generally are recorded.

Virginia College Savings Plan (Virginia529)

GASB Statement No. 53 defines stable value investment vehicles as synthetic guaranteed investment contracts. Stable value funds are invested in a high quality, diversified, intermediate term, fixed income portfolio that is protected against interest rate volatility by wrap or investment contracts from banks and insurance companies that guarantee the payment of benefits at book value (cost plus accrued interest), which enables the entire investment to be carried at its book value. The Virginia529 utilizes stable value investments in the Defined Contribution 529 and Access and Affordability Programs (Private Purpose Trust Fund). Virginia529's stable value investments meet the definition of fully benefit-responsive synthetic guaranteed investment contracts and are reported at contract value. As of June 30, 2024, Virginia529 had the following stable value investments outstanding (dollars in thousands) in the respective programs as shown in the table below.

Stable Value Investments							
Fund	Wrap Provider	Notional	Effective	Maturity Date	Credit	June 30, 2024	June 30, 2023
		Amount	Date		Rate	Fair Value	Fair Value
Private Purpose	American General Life	\$ 306,074	1/16/2014	Open ended	3.0 %	\$ 1,730,000	\$ 1,539,111
	Nationwide Life Insurance	310,447	1/29/2018	Open ended	3.7 %		
	Prudential Retirement Insurance & Annuity	306,345	1/30/2014	Open ended	3.1 %		
	RGA	306,056	8/28/2015	Open ended	3.0 %

	Voya Retirement And Annuity	306,157	10/5/2012	Open ended	3.1 %		

At June 30, 2024, the fair value of the underlying investments for the Private Purpose Trust Fund was less than the book value (notional amount) of the wrap contracts. The book value of the wrap contracts provides a guaranteed minimum value that program participants would receive upon liquidation, and therefore has a separate fair value only in the circumstance that the fair value of the associated underlying investment pool is below the book value of the wrap contracts. The fair value of the wrap contracts is the amount required to bring the total value of the stable value investments up to the book value of the wrap contracts. In the Private Purpose Trust Fund, the fair value of the wrapped stable value investments at June 30, 2024, was \$1.7 billion.

All derivative instruments held by VA529 are considered investments. The fair value of all derivative financial instruments is reported on a net basis on the Statement of Net Position and the Statement of Fiduciary Net Position. The derivative instruments are either subject to an enforceable master netting arrangement or similar agreement. The master netting arrangements allow VA529 to net applicable liabilities or prepayment obligations to counterparties to the derivative contracts against amounts owed to VA529 by the counterparties.

As of June 30, 2024, four separate account managers in the asset classes shown below, were permitted to use derivative instruments as shown in the tables that follow:

Fund	Manager	Asset Class
Enterprise	Acadian Asset Management, LLC	Developed Markets International Equity
Enterprise	Loomis, Sayles & Company, L.P.	Multi-Asset Credit
Private Purpose	Neuberger Berman	Emerging Markets Debt
Enterprise	Neuberger Berman	Core Bond Fixed Income
Private Purpose	PGIM Fixed Income	High-yield Fixed Income
Enterprise	PGIM Fixed Income	High-yield Fixed Income
Private Purpose	PGIM Fixed Income	Core Bond Fixed Income
Enterprise	PGIM Fixed Income	Core Bond Fixed Income

The summary of VA529's derivative instruments at June 30, 2024 are show in the table below (amounts expressed in thousands).

Derivative Instruments Summary					
Investment Derivative Instruments	Changes in Fair Value		Fair Value at June 30, 2024		
Enterprise Fund	Classification	Amount	Classification	Amount	Net Notional Amount
Credit Default Swaps	Revenue	\$ (2)	Investment	\$ 160	\$ 2,555
Futures Contracts	Revenue	221	Investment	221	86,411
Total Return Swaps	Revenue	(1,200)	Investment	(1,200)	25,968
Zero Coupon Swap	Revenue	(25)	Investment	184	35,907
Total		<u>\$ (1,006)</u>		<u>\$ (635)</u>	
Private Purpose Fund					
Credit Default Swaps	Revenue	\$ (540)	Investment	\$ 683	\$ 23,425
Futures Contracts	Revenue	571	Investment	571	96,916
Total Return Swaps	Revenue	273	Investment	273	8,599
Total		<u>\$ 304</u>		<u>\$ 1,527</u>	

Pursuant to their investment management agreements, PGIM High Yield Fixed Income, PGIM Core Bond Fixed Income, Loomis, Sayles & Company, Neuberger Berman Emerging Markets Debt and Neuberger Core Bond may invest in derivative instruments for hedging, cash management and / or duration management.

Each portfolio's exposure to derivative instruments, as measured on a net fair value basis, is limited to 10 percent of the fair value of the accounts, with the exception of futures contracts, which are excluded from the 10 percent limit.

Within the Enterprise Fund at June 30, 2024, the Neuberger Berman and PGIM Core Bond portfolios, as well as the PGIM High Yield Fixed Income accounts each held futures contracts. Future contracts are contracts to deliver or receive securities at a specified future date and at a specified price or yield. The PGIM Core Bond and High Yield Fixed Income accounts each held total return swaps and credit default swaps. The PGIM Core Bond account also held zero coupon swaps. Swaps are negotiated contracts between two counterparties for the exchange of payments at certain intervals over a predetermined timeframe. The payments are based on a notional principal amount and calculated using either fixed or floating interest rates or total returns from certain

instruments or indexes. Swaps are, therefore, sensitive to interest rate changes.

Within the Private Purpose Fund at June 30, 2024, the Neuberger Berman Emerging Markets Debt and PGIM High Yield accounts each held futures contracts and credit default swaps. The PGIM High Yield Fixed Income account also held total return swaps.

Future contracts are permissible to hedge duration while total return swaps help to gain exposure to assets with minimal cash outlay. Credit risk is mitigated with credit default swaps and zero coupon swaps as they are each centrally cleared derivative instruments.

Pursuant to their investment management agreements, Loomis, Sayles & Company, the PGIM High Yield Fixed Income and Core Bond accounts as well as Acadian may invest in foreign exchange forward contracts for hedging purposes or for efficient portfolio management within the Enterprise Fund. PGIM High Yield and Neuberger Berman Fixed Income accounts invest in foreign forward contracts for the same purposes within the Fiduciary Funds' investment portfolio. Each of these managers primarily uses forward foreign exchange contracts to hedge the value of investments denominated in non-U.S. dollar currencies. Credit risk of exchange traded currency contracts lies with the clearinghouse of the exchange at

which the contracts are traded, while credit risk of currency contracts traded over the counter lies with the counterparty. Counterparty risk exposure is generally equal to the unrealized gain on in-the-money contracts. The following table (dollars in thousands) contains a breakdown of these forward contracts by currency.

Enterprise Fund Foreign Currency Forwards				
Currency	Cost	Foreign Exchange Purchases	Foreign Exchange Sales	Fair Value
Brazil Real	\$ (1,367)	\$ —	\$ (1,326)	\$ (1,326)

Additional information is available in the Virginia529 separately issued financial statements, which may be obtained at www.virginia529.com.

Virginia Retirement System

All derivative instruments held by the Virginia Retirement System (the System) are considered investments. The fair value of all derivative financial instruments is reported on a net basis on the Statement of Fiduciary Net Position. The derivative instruments are either subject to an enforceable master netting arrangement or similar agreement. The master netting arrangements allow the System to net applicable liabilities or payment obligations to counterparties to the derivative instrument contracts against amounts owed to the System by the same counterparty.

The System holds investments in swaps and futures and enters into forward foreign currency exchange contracts. Swaps, futures, and currency forwards contracts provide the System with the opportunity to build passive benchmark positions, manage portfolio duration in relation to various benchmarks, adjust portfolio yield curve exposure and gain market exposure to various indexes in a more efficient way and at lower transaction costs. Derivative instruments that are exchange-traded are not subject to credit risk, but all over-the-counter derivative instruments, such as swaps and currency forwards, do expose the System to counterparty credit risk.

Counterparty credit risk for the System's investments in derivatives instruments (inclusive of foreign currency forwards) is summarized in the following table. Market risks arise from adverse changes in market prices, interest rates and foreign exchange rates. The System's level of exposure to interest rate risk through derivative instruments and the System's investments in derivative instruments as of June 30, 2024, are summarized in the tables below (dollars in thousands).

Derivative Instruments Summary				
Investment	Net Appreciation/ (Depreciation) in Fair Value for the Fiscal Year Ended June 30, 2024		Fair Value June 30, 2024	Notional (Dollars)

Futures Contracts

Futures contracts are contracts to deliver or receive securities at a specified future date and at a specified price or yield. Futures contracts are traded on organized exchanges (exchange-traded) and require an initial margin (collateral) in the form of cash or marketable securities. The net change in the futures contract value is settled daily, in cash, with the exchanges. The net gains or losses resulting from the daily settlements are included in the Statement of Changes in Fiduciary Net Position. Holders of futures contracts look to the exchange for performance under the contract and not to the entity holding the offsetting futures position. Accordingly, the amount at risk posed by nonperformance of counterparties to futures contracts is minimal. Information on the System's investments in fixed income, currency, and equity index futures as of June 30, 2024, is shown in the Summary table on page 131.

Currency Forwards

Currency forwards represent foreign exchange contracts and are used by the System to effect settlements and to protect the base currency (\$U.S.) value of portfolio assets denominated in foreign currencies against fluctuations in the exchange rates of those currencies. A forward foreign currency exchange contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated price. The credit risk of currency contracts that are exchange-traded lies with the clearinghouse of the exchange where the contracts are traded. The credit risk of currency contracts traded over the counter lies with the counterparty, and exposure usually is equal to the unrealized profit on in-the-money contracts. The market risk in foreign currency contracts is related to adverse movements in currency exchange rates. The net realized gains or losses arising from the differences between the original values of the foreign currency contracts and the closing values of such contracts are included in the net appreciation/depreciation in fair value of investments in the Statement of Changes in Fiduciary Net Position. Information on the currency forward contracts as of June 30, 2024, is shown in the following table and in the Summary table on page 131.

Currency Forwards

as of June 30

(Dollars in Thousands)

Options

Options may either be exchange-traded or negotiated directly between two counterparties over the counter. Options grant the holder the right, but not the obligation, to purchase (call) or sell (put) a financial instrument at a specified price and within a specified period of time from the writer of the option.

As a purchaser of options, the System typically pays a premium at the outset. This premium is reflected as an asset on the financial statements. The System then retains the right, but not the obligation, to exercise the options and purchase the underlying financial instrument. Should the option not be exercised, it expires worthless, and the premium is recorded as a loss.

A writer of options assumes the obligation to deliver or receive the underlying financial instrument on exercise of the option. Certain option contracts may involve cash settlements based on specified indexes such as stock indexes. As a writer of options, the System receives a premium at the outset. This premium is reflected as a liability on the financial statements, and the System bears the risk of an unfavorable change in the price of the financial instrument underlying the option. There were small investments in options on interest rate swaps (swaptions) and fixed income futures contracts as of June 30, 2023, however the System had no investments in options as of June 30, 2024, as shown in the Summary table on page 135.

Swap Agreements

Swaps are negotiated contracts between two counterparties for the exchange of payments at certain intervals over a predetermined timeframe. The payments are based on a notional principal amount and calculated using either fixed or floating interest rates or total returns from certain instruments or indexes. Swaps are used to manage risk and enhance returns. To reduce the risk of counterparty nonperformance, the System generally requires collateral on any material gains from these transactions. During fiscal year 2024, the System had investments in credit default and total return swaps. Gains and losses on swaps are determined based on fair values and are recorded in the Statement of Changes in Fiduciary Net Position. Information on the System's swap balances as of June 30, 2024, is shown in the Summary table on page 135, and the terms, fair values and notional values of the System's investments in swap agreements that are highly sensitive to interest rate changes are disclosed in the following tables (dollars in thousands).

Derivatives Instruments Highly Sensitive to Interest Rate Changes

Investment Type	Reference Rate	Fair Value June 30, 2024	Notional Amount

Derivative instruments are classified as Level 1 and Level 2 in the fair value hierarchy. Derivative instruments classified as Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. The derivative instruments in Level 1 consist of futures contracts on U.S. Treasury bonds and notes, non-U.S. government bonds, and U.S. equity indexes and on U.S. short-term interest rates. Derivative instruments classified as Level 2 are valued using a number of modeling approaches that take into account observable market levels, benchmark rates, and foreign exchange rates.

Additional information is available in the System's separately issued financial statements, which may be obtained from www.varetire.org.

Component Units

Investment Derivative Instruments

The Virginia Housing Development Authority (major component unit) enters into forward sales contracts for the delivery of GNMA and FNMA securities in order to lock in the sales price for the securitization of certain homeownership mortgage loans. The contracts offset changes in interest rates between the time of the loan reservations and the securitization of such loans into GNMA and FNMA securities. These contracts are considered investment derivative instruments, such that their change in fair value is reported as investment derivative instrument gains or losses in the accompanying financial statements. Fair values of the forwards are based on observable market prices for similar instruments traded on the secondary mortgage loan markets. The Authority's portfolio of investment derivative instruments are classified

as Level 2 in the fair value hierarchy. The outstanding forward contracts, summarized by counterparty rating as of June 30, 2024, were as follows:

Counterparty Rating	Par	Concentration	Notional Amount	Fair Value	Fair Value Asset (Liability)
A-1/A+	\$ 37,100,000	37.3 %	\$ 37,579,412	\$ 37,603,469	\$ (24,057)
A-1/A+	31,300,000	31.4 %	31,800,746	31,859,125	(58,379)
A-1/A+	16,500,000	16.5 %	16,789,355	16,789,375	(20)
A-1/A+	9,300,000	9.3 %	9,417,355	9,425,938	(8,583)
A-1/A+	5,500,000	5.5 %	5,570,000	5,583,672	(13,672)
	<u>\$ 99,700,000</u>	<u>100.0 %</u>	<u>\$101,156,868</u>	<u>\$101,261,579</u>	<u>\$ (104,711)</u>

Other Derivative Instruments – Ineffective Hedges

During fiscal year 2015, the University of Virginia (UVA) (nonmajor) refunded the Series 2003A bonds and the commercial paper associated with the fixed-payer interest rate swaps which terminated hedge accounting. The fixed-payer interest rate swaps were no longer effective hedges. As of June 30, 2024, the negative fair value of the swaps of \$9.4 million is included in other liabilities and the change in fair value of positive \$3.2 million was reported as miscellaneous revenue in the accompanying financial statements. Additional information regarding the institution's derivative instruments is available at www.virginia.edu.

Hedging Derivative Instruments

As of June 30, 2024, Virginia Commonwealth University Medical Center (VCUMC), which is a division of the Virginia Commonwealth University Health System Authority (a blended component unit of VCU - nonmajor), had two interest rate swap agreements with a notional amount of \$109.5 million. The swaps are used as cash

flow hedges by VCUMC in order to provide a hedge against changes in interest rates on variable rate Series 2024B bonds. As of June 30, 2024, the negative fair value of VCUMC's two swaps of \$9.9 million is included in other liabilities and the cumulative change in fair value of these swaps of \$1.2 million is included in deferred outflows of resources in the accompanying financial statements. The derivative instruments are classified as Level 2 in the fair value hierarchy. Additional information regarding the institution's derivative instruments is available at www.vcu.edu.

Various foundations of higher education institutions have derivative instruments. The foundations follow FASB rather than GASB reporting requirements. Disclosures for the foundations' derivative instruments can be found in the separately issued financial statements of the foundations.

16. RETIREMENT AND PENSION SYSTEMS

A separately issued financial report that includes financial statements and required supplementary information for each of the individual plans discussed below is publicly available. Copies may be obtained from the Virginia Retirement System website at www.varetire.org.

A. Administration

The Virginia Retirement System (the System) is an independent agency of the Commonwealth that administers pension plans, other employee benefit plans, and other funds for Commonwealth employees, teachers, political subdivision employees, and other qualifying employees. The Board of Trustees is responsible for the general administration and operation of the plans. The Board consists of five members appointed by the Governor and four members appointed by the Joint Rules Committee, all subject to confirmation by the General Assembly. The Board of Trustees appoints a director to serve as the chief administrative officer of the System and a chief investment officer to direct, manage, and administer the investment of the System's funds. The Board of Trustees has appointed BNY Mellon as the custodian of designated assets of the System.

The System administers four pension trust funds: the Virginia Retirement System (VRS); State Police Officers' Retirement System (SPORS); Virginia Law Officers' Retirement System (VaLORS); and the Judicial Retirement System (JRS). In addition to the pension plans, the System administers five Other Employee Benefit Plans: Group Life Insurance Fund; Retiree Health Insurance Credit Fund; the Virginia Sickness and Disability Program (VSDP); the Line of Duty Act Trust Fund; and the Virginia Local Disability Program (VLDP).

B. Summary of Significant Accounting Policies (Virginia Retirement System)

Basis of Accounting

The financial statements of the pension and other employee benefit trust funds are prepared using the flow of economic resources measurement focus and the accrual basis of accounting consistent with the plans. Employee and employer contributions are recognized when due, pursuant to formal commitments, as well as statutory or contractual requirements. Investment income is recognized as earned by the plans. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Method Used to Value Investments

Investments are reported at fair value as determined by the System's master custodian, BNY Mellon, from its Global Pricing System. This pricing system assigns a price source, based on asset type and the vendor pricing products to which the master custodian subscribes, for every security held immediately following its acquisition. Prices supplied by these sources are monitored on a daily basis by the master custodian.

When a pricing source is unable to provide a price, quotes are sought from major investment brokers and market-making dealers; or internal calculations are applied if feasible. As a last resort, the master custodian will contact investment managers for a price. The master custodian prices commingled funds, partnerships, and real estate assets from statements received from the funds, partnerships, or investment managers.

The pricing sources utilized by the master custodian provide daily prices for equity securities, corporate, government and mortgage-backed fixed income securities, private placement securities, futures and options on futures, open-ended funds, and foreign exchange rates. Depending on the vendor, collateralized mortgage obligations (CMOs), adjustable rate mortgages (ARMs) and asset-backed securities are priced daily, weekly or twice a month and at month-end. Municipal fixed income securities and options on Treasury/Government National Mortgage Association securities are priced at month-end.

The System's risk budget is allocated among the different investment strategies, which are each managed to a relevant benchmark. The benchmarks encompass option-adjusted duration, credit quality and issuer concentration limits that address interest rate risk, credit risk and concentration of credit risk. The System's policy requires performance returns to remain within an allowable range from the relevant benchmarks.

C. Plan Description

The Virginia Retirement System (VRS) is a qualified governmental retirement plan that administers three retirement benefit structures: Plan 1, Plan 2, and Hybrid Plan, for state employees, public school board employees, employees of participating political subdivisions, and other qualifying employees. VRS is a combination of mixed-agent and cost-sharing, multiple-employer retirement plans. Each plan's accumulated assets may legally be used to pay all the plan benefits provided to any of the plan's members, retirees, and beneficiaries of each respective plan. Contributions for fiscal year 2024 were \$4.4 billion with a reserve balance available for benefits of \$105.6 billion. As of June 30, 2024, VRS had 840 contributing employers.

The Commonwealth also administers the following single-employer retirement plans and benefit structures:

- State Police Officers' Retirement System (SPORS) – Plan 1 and Plan 2
- Virginia Law Officers' Retirement System (VaLORS) – Plan 1 and Plan 2
- Judicial Retirement System (JRS) – Plan 1, Plan 2, and Hybrid Plan

All full-time, salaried permanent employees of VRS participating employers are automatically covered under VRS, SPORS, VaLORS or JRS with the following exceptions: (1) certain full-time faculty and administrative staff of public colleges and universities; and (2) eligible classified employees of the two state teaching hospitals. These employees have the option to elect not to participate in the Virginia Retirement System. Benefit provisions and all other requirements are established by Title 51.1 of the *Code of Virginia*.

Benefits vest for all plans after five years of service credit. Vested VRS members in the VRS Plan 1 are eligible for an unreduced retirement benefit at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit as elected by the employer. Vested VRS members in the VRS Plan 2 and the Hybrid Plan are eligible for unreduced retirement benefits at normal social security retirement age with at least five years of service credit or when age and service credit equal 90. Vested SPORS and VaLORS members in both the VRS Plan 1 and the VRS Plan 2 are eligible for an unreduced benefit at age 60 with at least five years of hazardous duty service credit or age 50 with at least 25 years of total service credit.

Annual retirement benefits are payable monthly for life in an amount equal to 1.7 percent of eligible members' average final compensation (AFC) for each year of service credit. Under the VRS Plan 2, the multiplier for general employees was reduced to 1.65 percent beginning January 1, 2013. Under the Hybrid Plan, the multiplier for the defined benefit component is 1.0 percent. AFC is the average of the member's 36 consecutive months of highest creditable compensation for members under the VRS Plan 1.

Under the VRS Plan 2 and the Hybrid Plan, a member's AFC is the average of the member's 60 consecutive months of highest creditable compensation. The benefit for members of SPORS is calculated using a 1.85 percent multiplier. Members of SPORS also are eligible for a hazardous duty supplement, paid monthly, until they reach full Social Security retirement age.

Members of VaLORS hired before July 1, 2001, were allowed to make a one-time election to increase the multiplier from 1.7 to 2.0 percent instead of receiving a monthly hazardous duty supplement. VaLORS members who elected to retain the 1.7 percent multiplier are eligible for the supplement until age 65. Members of VaLORS hired after June 20, 2001, have their benefit computed using the 2.0 percent multiplier and are not eligible for the supplement.

Members of JRS receive weighted years of service credit for each year of actual service under JRS. VRS, SPORS, VaLORS, and JRS also provide death and disability benefits.

A cost-of-living allowance (COLA), based on changes in the Consumer Price Index and limited to 5.0 percent per year for VRS Plan 1 and 3.0 percent for VRS Plan 2 and Hybrid Plan, is granted on July 1 of the second calendar year after retirement and is effective each July 1 thereafter. Beginning January 2013, a member who retires with less than 20 years of service must receive an allowance for one full calendar year after reaching unreduced retirement age to be eligible for a COLA. Members within five years of eligibility for an unreduced benefit as of January 1, 2013 were grandfathered.

Benefits for all vested members are actuarially reduced if they retire before becoming eligible for an unreduced retirement benefit, provided they meet age requirements for a reduced retirement benefit.

As required by Title 51.1 of the *Code of Virginia*, members contribute 5.0 percent of their annual compensation to the retirement plans. If a member leaves covered employment, the accumulated contributions plus earned interest may be refunded to the member. Each participating employer is required by state statute to contribute the remaining amounts necessary to fund the retirement plans using the entry age normal actuarial cost method adopted by the Board of Trustees. Contributions for fiscal year 2024 were \$59.3 million, \$29.5 million, and \$117.8 million, and reserved balances available for benefits were \$1.2 billion, \$717.2 million, and \$2.1 billion, for SPORS, JRS, and VaLORS, respectively. State statute may be amended only by the General Assembly. To the extent that the employer's long-term obligation to provide pension benefits (total pension liability) is larger than the value of the assets available in the plan to pay these benefits (fiduciary net position), there is a net pension liability which is reported in the accompanying financial statements as a component of Long-term Liabilities Due in More than One Year.

The Hybrid Plan is the default benefit structure for new employees in the VRS and JRS plans. The Hybrid Plan benefit structure includes a defined benefit component and a defined contribution component. For Hybrid Plan members, 4.0 percent of the statutory member contribution of 5.0 percent is directed to the defined benefit component of the plan and 1.0 percent is directed to the mandatory defined contribution component of the plan. In addition, 1.0 percent of the total actuarially determined employer contribution is directed to the mandatory defined contribution component of the plan. The Hybrid Plan members may also elect to contribute an additional amount up to 4.0 percent to a voluntary defined contribution plan. The voluntary component also has a mandatory employer match of 0.5 to 2.5 percent that is deducted from the total actuarially determined employer contribution. For the fiscal year 2024, the mandatory and voluntary member contributions for the defined contribution component of the Hybrid Plan totaled \$269.0 million and related mandatory employer contributions totaled \$216.1 million. The statutory authority for the Hybrid plan is set out in the *Code of Virginia*, Section 51.1-169. This section also highlights the various plan provisions, including vesting and forfeiture. The total amount contributed by the employer shall vest to the employee's benefit according to the following schedule:

- a. Upon completion of two years of active participation, 50.0 percent.
- b. Upon completion of three years of active participation, 75.0 percent.
- c. Upon completion of four years of active participation, 100.0 percent.

If an employee ceases to be a member prior to achieving 100.0 percent vesting, contributions made by an employer on behalf of the employee under subdivision 2 that are not vested shall be forfeited. The Defined Contribution plan component of the Hybrid plan has a fixed employer contribution that is a percentage of covered payroll. There is no additional employer liability for this component at year end.

Further information about the benefits provided in these retirement plans and their different benefit structures can be found in the Virginia Retirement System's Annual Comprehensive Financial Report.

The following table provides participant information.

	VRS	SPORS	VaLORS	JRS	2024 Total
Retirees and Beneficiaries Receiving Benefits	62,719	1,460	5,960	522	70,661
Terminated Employees Entitled to Benefits but not Receiving Them	14,092	164	939	2	15,197
Total	76,811	1,624	6,899	524	85,858
Active Members:

Non-Vested	30,164	324	3,463	80	34,031
Total	81,977	1,877	7,254	469	91,577

D. Funding Policy

The funding policy of the retirement plans provides for periodic employer contributions at actuarially determined rates, which will remain relatively level over time as a percentage of payroll and will accumulate sufficient assets to meet the cost of all basic benefits when due. Contribution rates are developed using the entry age normal cost method for both normal cost and amortization of the unfunded actuarial accrued liability. Gains and losses are reflected in the unfunded actuarial accrued liability that is being amortized as a level percentage of payroll within 20 years or less.

The System's former actuary, Cavanaugh MacDonald Consulting, LLC, computed the amount of contributions to be provided by state agency employers, state police and other Virginia law employers. The Commonwealth approved contribution rates for fiscal year 2024 based on the actuary's valuation as of June 30, 2021. Employer contributions by the Commonwealth to VRS, SPORS, VaLORS, and JRS were 14.5 percent, 30.0 percent, 24.6 percent, and 30.7 percent, respectively.

In addition to determining contribution requirements, the actuarial computations present an estimate of the discounted present value of the prospective accrued liability contributions that employers will have to pay in the future so that such contributions, together with the assets on hand, the normal contributions to be made in the future by employers and members and the income earned by investing funds, will be sufficient to provide all benefits to be paid to present members in the future as well as the annuitants and their designated beneficiaries.

E. Changes in Net Pension Liability

The total pension liability was determined based on the actuarial valuation as of June 30, 2022, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023. The following tables (dollars in thousands) show the Commonwealth's total pension liability, plan fiduciary net position, and net pension liability in total and individually for the VRS, SPORS, JRS, and VaLORS for the current and prior year.

The amounts in the previous tables include governmental, business-type, and component unit activity for the Commonwealth's VRS State Plan. All component unit tables exclude the non-VRS State Plan net pension liability of \$38.6 million for all component units.

The 2022 actuarial valuations were prepared using the entry age normal cost method. The actuarial assumptions included (a) 6.8 percent investment rate of return, per year compounded annually; (b) projected salary increases ranging from 3.5 percent to 6.0 percent, including a 2.5 percent inflation component and (c) COLA of 2.5 percent for Plan 1 and 2.3 percent for Plan 2 and Hybrid. The actuarial

assumption for mortality rates was based on the Pub-2010 with modified MP-2020 Improvement Scale. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

For more detailed actuarial information, refer to the Virginia Retirement System's financial statements, including mortality rates shown in the "Actuarial Assumptions and Methods – Pension Plans" schedule.

F. Changes to and Sensitivity of Discount Rate

The discount rate used to measure the total pension liability was 6.8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be based on the actuarially determined rates based on the Board's funding policy, which certifies the required rates under Title 51.1 of the *Code of Virginia*. Beginning on July 1, 2018, all agencies are assumed to contribute 100.0 percent of the actuarially determined contribution rates. Based on those assumptions, the fiduciary net position was projected to be available to make all of the projected future benefit payments of current plan members.

Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of the projected benefit payments to determine the total pension liability. In accordance with GASB Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*, regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the table below presents the employers' net pension liability for each of the plans calculated using the discount rate of 6.8 percent, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is 1.0 percent lower (5.8 percent) or 1.0 percent higher (7.8 percent) than the current rate. The following table (dollars in thousands) shows the Commonwealth's changes in the discount rate.

Primary Government

VRS			SPORS		
Net Pension Liability			Net Pension Liability		
1.0% Decrease (5.8%)	Current Discount Rate (6.8%)	1.0% Increase (7.8%)	1.0% Decrease (5.8%)	Current Discount Rate (6.8%)	1.0% Increase (7.8%)
\$ 4,748,382	\$ 2,849,470	\$ 1,260,229	\$ 570,303	\$ 383,193	\$ 227,459

JRS			VaLORS		
Net Pension Liability			Net Pension Liability		
1.0% Decrease (5.8%)	Current Discount Rate (6.8%)	1.0% Increase (7.8%)	1.0% Decrease (5.8%)	Current Discount Rate (6.8%)	1.0% Increase (7.8%)
\$ 164,622	\$ 89,899	\$ 25,512	\$ 891,690	\$ 583,262	\$ 331,314

Component Units

VRS			VaLORS		
Net Pension Liability			Net Pension Liability		
1.0% Decrease (5.8%)	Current Discount Rate (6.8%)	1.0% Increase (7.8%)	1.0% Decrease (5.8%)	Current Discount Rate (6.8%)	1.0% Increase (7.8%)
\$ 3,683,145	\$ 2,210,231	\$ 977,513	\$ 97,317	\$ 63,657	\$ 36,159

The long-term expected rate of return on the System's investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The long-term target allocations are based on the Strategic Asset Allocation Implementation Schedule and Allowable Ranges document, which was approved by the VRS Board of Trustees on June 15, 2023. Best estimates of arithmetic real rates of return for each major asset class included in the System's long-term target asset allocation are summarized in the following table.

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	34.0 %	6.1 %	2.1 %
Fixed Income	15.0 %	2.6 %	0.4 %
Credit Strategies	14.0 %	5.6 %	0.8 %
Real Assets	14.0 %	5.0 %	0.7 %
Private Equity	16.0 %	9.2 %	1.5 %
MAPS - Multi-Asset			
Public Strategies	4.0 %	4.5 %	0.2 %
PIP-Private Investment			
Partnerships	2.0 %	7.2 %	0.1 %
Cash	1.0 %	1.2 %	— %
Total	<u>100.0 %</u>		<u>5.8 %</u>
	Inflation		<u>2.5 %</u>
	Expected arithmetic nominal return		<u>8.3 %</u>

The allocation in the previous table provides a one-year expected return of 8.3 percent. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.1 percent, including expected inflation of 2.5 percent. On June 15, 2023, the VRS Board of Trustees elected a long-term rate of return of 6.8 percent which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.1 percent, including expected inflation of 2.5 percent.

G. Pension Related Deferred Outflows and Deferred Inflows

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, requires certain pension related items to be reported as either deferred outflows or deferred inflows of resources. The following tables (dollars in thousands) summarize these amounts as of June 30, 2024, in total and by individual plan.

- (1) During fiscal year 2024, the Commonwealth recognized pension expense for the primary government and component units of \$413,585 (dollars in thousands) and \$186,665 (dollars in thousands), respectively. The recognized pension expense by plan for the primary government was as follows (dollars in thousands): VRS \$263,547, SPORS \$56,793, JRS \$20,857, and VaLORS \$72,388. The recognized pension expense by plan for component units was as follows (dollars in thousands): VRS \$173,864 and VaLORS \$12,801.
- (2) This table includes deferred outflows of resources and deferred inflows of resources of \$72,034 and \$57,110, respectively, for the Hampton Roads Transportation Accountability Commission (nonmajor governmental), not related to the VRS State Plan.
- (3) The component unit amounts exclude deferred outflows of resources and deferred inflows of resources of \$36,630 (dollars in thousands) and \$15,021 (dollars in thousands), respectively, not related to the VRS State Plan.

Deferred Amounts to be Recognized in Fiscal Years Following Reporting Date

The following tables (dollars in thousands) provide the net estimated amount of the deferred inflows and deferred outflows of resources that will be recognized in the Commonwealth’s pension expense for each of the next five fiscal years. These amounts exclude employer contributions made subsequent to the measurement date as those contributions will reduce the fiscal year 2025 net pension liability.

H. Defined Contribution Plan for Political Appointees

Officers appointed by the Governor, officers elected by popular vote or the General Assembly, and executive branch chief deputies and confidential assistants may participate in the deferred contribution plan for Political Appointees, rather than the VRS. This optional retirement plan is authorized by the *Code of Virginia* and offered through the MissionSquare. This is a defined contribution plan where the retirement benefits are based upon the Commonwealth's 12.3 percent and the employee's (5.0 percent) contributions, plus interest and dividends. The Commonwealth pays the required employee contributions. During the year ended June 30, 2024, the total contributions to this plan were \$2.4 million. As of June 30, 2024, the amount to be paid to participants upon retirement is \$31.9 million. The summary of significant accounting policies for the plan is in accordance with those discussed in Note 16.B.

I. Defined Contribution Plan for Public School Superintendents

The Public School Superintendent Plan is a defined contribution pension plan that provides optional postemployment benefits for school superintendents. This plan is authorized by the *Code of Virginia* and offered through the MissionSquare. School boards may elect to offer this plan as an option to the standard VRS plan that is available for school board members. Contributions are provided by the school board for credit to the member. As of June 30, 2024, there were four participant accounts in this plan. During the year ended June 30, 2024, the total contributions to this plan were \$78,908. As of June 30, 2024, the amount to be paid to participants upon retirement is \$436,959.

J. Virginia Supplemental Retirement Plan

The Public School Teacher Supplemental Retirement Plan is a defined contribution pension plan established by the Department of Education to provide an optional postemployment benefit plan for turnaround specialists in the public school system. This plan is utilized as an incentive to attract highly skilled teachers for participating public schools pursuant to Title 51.1-617 of the *Code of Virginia* and offered through the MissionSquare. School boards may elect to offer this plan as an option to the standard VRS plan that is available for school board members. Contributions are provided by the school boards for credit to the members. As of June 30, 2024, there were two participant accounts in this plan. There were no contributions to the plan for fiscal year 2024.

K. Higher Education (Nonmajor Component Units)

The Commonwealth's colleges and universities participate in the retirement plans administered by VRS. In addition, full-time faculty and certain administrative staff of the Commonwealth's colleges and universities may participate in optional retirement

plans as authorized by Section 51.1-126 of the *Code of Virginia* rather than the VRS retirement plans. These optional retirement plans are defined contribution plans offered through the Teachers Insurance and Annuity Association (TIAA) and VRS Defined Contribution Plans (DCP). There are two defined contribution plans. Plan 1 is for employees hired prior to July 1, 2010, and retirement benefits received are based upon the employer's 10.4 percent contributions, plus net investment gains. Plan 2 is for employees hired on or after July 1, 2010, and retirement benefits received are based upon the employer's contribution, not to exceed 8.9 percent, and the employee's 5.0 percent contribution, plus net investment gains. For Plan 2, the employer contributions for fiscal year 2024 were 8.5 percent except for the University of Virginia (nonmajor) which were 8.9 percent. Vesting is full and immediate for both employer and employee contributions, except UVA employees hired after July 1, 2014, are fully vested in the UVA contributions after two years of continuous employment. For fiscal year 2024, total pension expense recognized was \$205.0 million and contributions were calculated using the base salary amount of \$2.2 billion. As of June 30, 2024, the Commonwealth's colleges and universities had accrued \$12.2 million in employer liabilities related to these plans.

University of Virginia Medical Center (part of the University of Virginia – nonmajor) employees participate in the Medical Center's Optional Retirement Plan unless they previously participated in VRS Plan 1 or Plan 2. In addition, the UVA Community Health (UVACH - a blended component unit of University of Virginia) has a Section 457(b) Retirement Plan that is established to permit UVACH to provide additional retirement and death benefits for eligible employees. Certain UVACH facilities participate in a defined contribution plan sponsored by UVACH. Contributions are determined under various formulas. Effective July 1, 2021, as a result of the sale of Novant Health's ownership interest in UVACH, participation in this plan by employees of these UVACH facilities was continued under a benefits continuation agreement. Effective January 1, 2022, all UVACH employees were covered under the UVACH plan. For information regarding these plans, see the institution's separately issued financial statements.

Certain employees of Virginia Commonwealth University (nonmajor) are participating in The Select Plan, which is a 401(a) defined contribution plan. Participation is limited to executives by invitation. For information regarding this plan, see the University's website at www.vcu.edu.

Prior to July 1, 1997, certain employees of the Virginia Commonwealth University Health System Authority (Authority) (a blended component unit of Virginia Commonwealth University – nonmajor) were eligible to participate in the VRS defined benefit pension plan. Effective July 1, 1997, the Authority established the Virginia Commonwealth University Health System Authority Defined Contribution Plan

(VCUHS 401(a) Plan) and the Virginia Commonwealth University Health System Authority Health Care Providers Defined Contribution Plan (HCP Plan). The Authority and component units participate in the VCUHS 401(a) as well as sponsor the VCUHS Savings Plan (VCUHS 457(b) Plan). The Authority also provides an executive defined contribution plan and deferred compensation retirement benefits for select executives of the Health System. MCVAP and CMH Physicians sponsor 401(a) defined contribution plans and 403(b) salary deferral plans. For information regarding these plans, see the Authority's separately issued financial statements.

L. Other Component Units

Virginia Resources Authority (major) and the following nonmajor component units participate in the retirement plans administered by VRS: the Virginia Economic Development Partnership, the Virginia Small Business Financing Authority, the Hampton Roads Sanitation District Commission, the Virginia Biotechnology Research Partnership Authority, the Virginia Tourism Authority, the Tobacco Region Revitalization Commission, the Virginia Foundation for Healthy Youth, the Virginia Passenger Rail Authority, and the Fort Monroe Authority.

The Virginia Housing Development Authority (major) has three defined contribution plans. For additional information regarding these plans, see the Authority's website at www.vhda.com.

The Virginia Outdoors Foundation (nonmajor) maintains a 401(k) contribution plan and employees are eligible to participate in the retirement plan at six months for the first 4.0 percent (safe harbor match) and from 5.0 percent to 10.0 percent after a three year vesting period. For information regarding this plan, see the Foundation's website at www.vof.org.

The Virginia Commercial Space Flight Authority (nonmajor) maintains a 401(a) contribution plan and provides an employer contribution to all eligible employees of 11.0 percent of their base salary. For information regarding this plan, see the Authority's separately issued financial statements at www.vaspace.org.

The Virginia Port Authority (VPA) (nonmajor) maintains two defined benefit plans for its employees. Employees of record on July 1, 1997, had the option of continuing to maintain their benefit status as a State employee, and their benefits maintained under the VRS, or elect to be covered under a newly created pension plan (the VPA Defined Benefit Plan). The VPA Defined Benefit Plan covers all employees hired between July 1, 1997 and January 28, 2014. Employees hired after January 28, 2014, are eligible for a defined contribution plan only. On January 1, 2015, the plan was amended to add certain employees who transferred from the Virginia International Terminals (VIT) (referred to as "Legacy VIT Participants") to VPA. VIT (a blended component unit of VPA – nonmajor) has the Virginia International Terminals, LLC Pension Plan that is a single

employer, noncontributory defined benefit pension plan administered by VIT. A stand-alone financial report is issued and is available upon request from VPA's administrative offices. For information regarding these plans, see the Authority's website at www.portofvirginia.com.

Employees of the Virginia Museum of Fine Arts Foundation (nonmajor) who are age 21 or older are eligible to participate in the Employee's Savings Plan, a 401(k) defined contribution profit sharing plan. Also, the Foundation entered into a supplemental retirement agreement to pay a key employee of the Museum upon retirement the difference between the amount accrued under the VRS retirement plan, based on salary, and the amount based on the supplemental salary. For additional information regarding these plans, see the Foundation's separately issued financial statements.

The Science Museum of Virginia Foundation (nonmajor) has a 403(b) defined contribution pension plan through the TIAA-CREF Retirement Plan for employees meeting age and service requirements. For additional information regarding this plan, see the Foundation's separately issued financial statements.

17. OTHER EMPLOYMENT BENEFITS

In addition to the pension plans, the Commonwealth participates in two other employment benefit plans, Group Life Insurance and the Virginia Sickness and Disability Program, which are administered by the Virginia Retirement System (the System). The significant accounting policies are the same as those described in Note 16 for pension plans. A separately issued financial report that includes financial statements for the Group Life Insurance and Virginia Sickness and Disability Program is publicly available. Copies may be obtained from the Virginia Retirement System website at www.varetire.org.

Group Life Insurance

The Group Life Insurance Plan was established for Commonwealth employees, teachers, employees of political subdivisions participating in the VRS, state police officers, other state law enforcement and correctional officers, judges, and other qualifying employees. The program provides life insurance for natural death coverage equal to a member's annual compensation rounded to the next highest \$1,000 and then doubled. Accidental death coverage is double the natural death benefit. The program also provides coverage for accidental dismemberment and accidental blindness, a safety belt benefit, a repatriation benefit, a felonious assault benefit and an accelerated death benefit for terminal conditions. Approximately 356,900 active members participate in the program as of June 30, 2024.

Participating employers and their covered employees are required by Title 51.1 of the *Code of Virginia* to contribute to the cost of group life insurance benefits. Employers may assume the employees' contributions.

An optional Group Life Insurance Fund was established for members covered under the group life program as a supplement to that plan. Members may purchase optional life insurance coverage for themselves, their spouses and/or their dependent children. The optional program provides natural death coverage equal to one, two, three or four times the member's annual compensation rounded to the next highest \$1,000, up to a maximum of \$800,000. Spouse coverage is available for up to one-half of the member's optional insurance amount. Minor children who are at least 15 days old can be insured for \$10,000, \$20,000 or \$30,000, depending on the option chosen by the member. An additional accidental death and dismemberment benefit is payable for death or bodily injuries. Approximately 70,968 members were covered under this program as of June 30, 2024.

Optional group life insurance coverage ends for members when they retire or terminate their employment, or when their basic coverage ends. Optional life insurance amounts begin to reduce by 25.0 percent based on the retiree's age, beginning with the retiree's normal retirement age under his or her plan ending at age 80. Retirees may elect to continue coverage within 31 days of retirement. Spouse coverage terminates should a couple divorce or when the member leaves employment. Children's coverage ends with the termination of the member's coverage or when the child marries or turns 21 years of age (25 years of age for full-time college students).

Employers of members who elect optional life insurance coverage deduct the premiums from the members' paychecks, as required by Title 51.1 of the *Code of Virginia*. Premiums are based on the member's age and determined by the Board of Trustees. Because optional life insurance is an insured product, the carrier bills each employer directly, and the employer makes the contribution payments to the carrier. Any differences and adjustments are settled between the employer and the carrier.

Virginia Sickness and Disability Program

The System administers the Virginia Sickness and Disability Program (VSDP) to provide income protection in the event of a disability for eligible state employees hired on or after January 1, 1999. State agencies are required by Title 51.1 of the *Code of Virginia* to contribute to the cost of providing long-term disability benefits and administering the program.

VSDP benefits include sick, family and personal leave and short-term and long-term disability benefits. After a seven-calendar day waiting period following the first day of disability, eligible employees receive short-term disability benefits from 60.0 percent to 100.0 percent of their compensation. After 125 work days of short-term disability, eligible employees receive long-term disability benefits equal to 60.0 percent of their compensation. If the employee's condition becomes catastrophic, income replacement increases to 80.0 percent until the condition is no longer catastrophic. Long-term disability benefits continue until employees return to work, retire or reach age 65 (age 60 for state police officers and other state law enforcement and correctional officers) or die.

Full-time permanent salaried state employees, including state police officers and other Virginia law and correctional officers, are automatically enrolled in the VSDP. Part-time permanent salaried state employees who work at least 20 hours a week and accrue leave also are automatically enrolled. Teaching, administrative and research faculty of Virginia public colleges and universities who elect VRS as their retirement plan must make an irrevocable election to participate in either the VSDP or the institution's disability program. If there is no institution program, the faculty member is covered under VSDP.

Eligible state employees and state police officers employed before January 1, 1999, had the option to elect to participate in the VSDP or remain under the Commonwealth's existing sick leave program and retain their eligibility for disability retirement benefits under VRS and SPORS. (Members of VaLORS have been automatically enrolled in the VSDP since October 1, 1999, when VaLORS was created.) Eligible employees enrolled in the VSDP are not eligible for disability retirement benefits under VRS, SPORS, or VaLORS. Employees hired or rehired on or after July 1, 2009, must satisfy eligibility periods before becoming eligible for non-work related short-term disability coverage and certain income replacement levels. Approximately 84,868 members were covered under the program as of June 30, 2024.

18. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

A. Virginia Retirement System (System-administered) OPEB Plans

1) Administration and Significant Accounting Policies

The System-administered defined benefit OPEB plans mentioned below have a trust that meets the requirements in GASB Statement No. 75, *Accounting and Financial Reporting for Post Employment Benefits Other than Pensions*. In addition, the net OPEB liability for these plans have a measurement date of June 30, 2023. As previously mentioned, a separately issued financial report that includes financial statements, notes and required supplementary information for each of the System-administered plans discussed below is publicly available. Copies may be obtained from the Virginia Retirement System website at www.varetire.org.

The administration and significant accounting policies for the System-administered OPEB plans are the same as those described in Note 16 for pension plans.

2) Plan Descriptions

Retiree Health Insurance Credit Program

The Retiree Health Insurance Credit Program is composed of a single-employer plan for state employees; a cost-sharing multiple-employer plan for teachers; three cost-sharing, multiple-employer plans for constitutional officers, social

services employees and registrars; and an agent, multiple-employer plan for political subdivisions electing coverage. This note and the required supplementary information in this report is for the single-employer plan for state employees and also includes the state-funded noncontributing employer portion for constitutional officers, registrars, and their employees, as well as local social service employees.

The Retiree Health Insurance Credit (RHIC) for state employees provides benefits for retired state employees, state police officers, other state law enforcement, correctional officers, and judges who have at least 15 years of service credit under the retirement plans. Members of JRS receive weighted years of service credit for each year of actual service under JRS. VRS, SPORS, VaLORS, and JRS also provide death and disability benefits. The program provides a credit reimbursement of \$4 per month per year of service credit against the monthly health insurance premiums of eligible retirees. There is no cap on the credit. Certain eligible employees who retire on disability or go on long-term disability under the Virginia Sickness and Disability Program are eligible for a credit not to exceed \$120.

The following is the approximate number of employees covered by the RHIC plan for state employees on the measurement date of June 30, 2023:

	RHIC for State Employees
Inactive employees currently receiving benefit payments	55,755
Inactive employees entitled to but not yet receiving benefit payments	2,381
Active employees	124,372
Total	<u>182,508</u>

The health insurance credit plan for general registrars, constitutional officers, and their employees as well as local social service employees (RHIC Non-State) provides \$1.50 per month per year of service with a maximum monthly credit of \$45. The Commonwealth funds this credit. Benefit provisions and eligibility requirements are established by Title 51.1 of the *Code of Virginia*. The amount required to fund all credits is financed by the employers based on contribution rates determined by the System's actuary.

Virginia Sickness and Disability Program

The Virginia Sickness and Disability Program (VSDP) is a single-employer plan. It is also known as the Disability Insurance Trust Fund. The Commonwealth provides OPEB disability insurance benefits, in accordance with state

statutes, to eligible retired and terminated employees. Eligible employees include state employees hired before January 1, 1999, who elected to transfer to VSDP rather than retain their eligibility to be considered for VRS disability retirement and full-time and part-time, salaried state employees covered under VRS, SPORS, and VaLORS. State agencies are required by Title 51.1 of the *Code of Virginia* to contribute to the cost of providing long-term disability benefits and administering the program. The following is the approximate number of employees covered by this plan on the measurement date of June 30, 2023:

	VSDP
Inactive employees currently receiving benefit payments	6,004
Inactive employees entitled to but not yet receiving benefit payments	—
Active employees	75,692
Total	<u>81,696</u>

Group Life Insurance Program

The Group Life Insurance Program (GLI) is a cost-sharing, multiple employer plan. Members whose employers participate in the Group Life Insurance Program are covered automatically under the Basic Group Life Insurance Program upon employment. This program was established July 1, 1960, for state employees, teachers and employees of political subdivisions that elect the program, including certain employers that do not participate in VRS for retirement. At retirement or termination, accidental death benefits cease and natural death coverage reduces at a rate equal to 25.0 percent on January 1 of the first full calendar year following retirement or termination and on January 1 of each year thereafter, until it reaches 25.0 percent of its original value. These group life insurance benefit provisions and requirements are established by Title 51.1 of the *Code of Virginia*. Participating employers and covered employees are required to contribute to the cost of group life insurance benefits. Employers may assume employees' contributions. A portion of the premium contributions collected during members' active careers is placed in an advance premium deposit reserve. This reserve is to fund the claims for eligible retired and deferred members.

Line of Duty Act Program

The Line of Duty Act Program (LODA) is a cost-sharing, multiple employer plan. It provides a one-time death benefit and premium-free health insurance to eligible public safety officers and eligible family members including volunteers, covered by resolutions, who as a result of the performance of their duties are permanently disabled or killed in the line of duty. There is limited health insurance reimbursement made to eligible individuals who no longer qualify for

eligibility for employer subsidized coverage during the evaluation process. Benefit provisions and eligibility requirements are established by Title 9.1 of the *Code of Virginia*. The System is responsible for managing the assets of the program. Participating employers made contributions to the program beginning in fiscal year 2012. The employer contribution rate was determined by the System's actuary using the anticipated costs and the number of covered individuals associated with all participating employers. The Department of Human Resource Management administers the health benefits and payment of claims under this program. The System manages the death benefit payments.

3) Funding

The contribution requirements are governed by the *Code of Virginia*, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Employer contributions by the Commonwealth for the RHIC and VSDP were 1.1 percent and 0.6 percent, respectively, of covered employee compensation. In addition, the contributions by the Commonwealth for the RHIC: Non-State for general registrars, constitutional officers, and their employees, and local social service employees were approximately 0.4 percent.

The total contribution rate for the GLI was 1.3 percent allocated into an employee and an employer component using a 60/40 split. The employee component was 0.8 percent and the employer component was 0.5 percent. Each employer's contractually required employer contribution rate for the year ended June 30, 2024, was 0.5 percent of covered employee compensation. Each employer's contractually required employer contribution rate for the LODA for the year ended June 30, 2024, was \$830 per covered full-time-equivalent employee.

The Commonwealth approved rates based on the results of the actuarial valuation as of June 30, 2021 with some rates being approved at a value greater than the actuarial rate. For RHIC and GLI, the actuarially determined rate was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. For VSDP, the actuarially determined rate was expected to finance the costs of benefits payable during the year, with an adjustment to amortize the accrued OPEB assets. For the LODA, the rate represents a pay-as-you-go funding rate and not the full actuarial cost of benefits under the program. The actuarially determined pay-as-you-go rate was expected to finance the costs and related expenses of benefits payable during the year.

Employer contributions by the Commonwealth to the RHIC, VSDP, GLI, LODA, and the RHIC Non-State plans were \$155.0 million, \$34.7 million, \$42.3 million, \$8.8 million, and \$7.2 million, respectively, for the year ended June 30, 2024. These contributions include special one-time payments made by the Commonwealth in June 2024 of approximately \$52.8 million for RHIC and \$2.3 million for the RHIC Non-State plans, respectively. These special payments were authorized by Chapter 1 of the Acts of Assembly of 2024, Special Session I.

4) Changes in Net OPEB Liability and Proportionate Share of Net OPEB Liability

The total OPEB liability for each plan was determined based on the actuarial valuation as of June 30, 2022, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023. The following tables (dollars in thousands) show the Commonwealth's total OPEB liability, plan fiduciary net position, and net OPEB liability (asset) for the RHIC and VSDP for the current and prior year, and the Commonwealth's proportionate share of the net OPEB liability for GLI, LODA, and RHIC Non-State plans. Since the VSDP has a net OPEB asset rather than a net OPEB liability, the net OPEB asset amount is not included in the total balance amount. The Commonwealth's Proportion for the GLI, LODA, and RHIC Non-State plans of \$360.9 million, \$246.0 million and \$40.4 million, respectively, represents the portion of the Commonwealth's share of Net OPEB Liability amount compared to the Net OPEB Liability amount for all employers of \$1.2 billion, \$400.9 million, and \$40.4 million, respectively.

			Commonwealth's Proportion	Proportionate Share of Net OPEB Liability		
Group Life Insurance			15.5 %	\$ 186,131		
Line of Duty Act			2.9 %	11,520		
Balance at June 30, 2024				\$ 197,651		
Total balance at June 30, 2024: (excludes VSDP net OPEB asset) (1) (4)				\$ 676,526		

- (1) The VSDP net OPEB asset is included in Other Restricted Assets in the accompanying government-wide financial statements.
- (2) The primary government's aggregate OPEB liability is \$991,934 (dollars in thousands) as of June 30, 2024. This includes amounts for both the VRS-administered and DHRM-administered plans, as well as other OPEB plans.
- (3) The primary government's proportion for Group Life Insurance and Line of Duty changed by 0.1 percent and 1.9 percent, respectively, while the component units' proportion changed by -0.1 percent and 0.0 percent, respectively, when compared to the prior year. The Commonwealth's proportion of the Retiree Health Insurance Credit: Non-State for the primary government did not change from the prior year.
- (4) The component unit's aggregate OPEB liability is \$853,352 (dollars in thousands) as of June 30, 2024. This includes amounts for both the VRS-administered and DHRM-administered plans as well as other OPEB plans.

The amounts in the previous tables include governmental, business-type, and component unit activity for the Commonwealth's VRS OPEB plans. The table excludes other net OPEB liability amounts of \$9.1 million for all other component units.

The net OPEB liabilities were based on an actuarial valuation as of June 30, 2022, using the entry age normal actuarial cost method. The actuarial assumptions included the following: (a) investment rate of return, net of OPEB plan investment expenses, including inflation: 6.8 percent for RHIC, VSDP, and GLI, and 3.9 percent for LODA; and (b) projected salary increases, including a 2.5 percent inflation component, ranging from 3.5 percent to 6.0 percent for VRS state, JRS, SPORS, and VaLORS employees, and teachers and political subdivision employees. For these OPEB plans, the teachers and political subdivision employees are not Commonwealth employees and, therefore, are excluded from the accompanying tables.

For more detailed actuarial information, refer to the Virginia Retirement System's financial statements, including the "Actuarial Assumptions and Methods – Other Post-Employment Benefit Plan Funds" schedule.

5) Changes to and Sensitivity of Discount Rate

The discount rate used to measure the total OPEB liability was 6.8 percent for the prefunded plans. These include the Group Life Insurance Program, the Retiree Health Insurance Credit Program, and the Disability Insurance Program.

The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be based on the actuarially determined rates based on the Board's funding policy, which certifies the required rates under Title 51.1 of the *Code of Virginia*. Based on those assumptions, the fiduciary net position was projected to be available to make all of the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of the projected benefit payments to determine the total OPEB liability. In accordance with GASB Statement No. 75 regarding the disclosure of the sensitivity of the net OPEB liability to changes in the discount rate, the following table (dollars in thousands) presents the employers' net OPEB liability for each of the plans calculated using the discount rate of 6.8 percent, as well as what the employers' net OPEB liability would be if it were calculated using a discount rate that is 1.0 percent lower (5.8 percent) or 1.0 percent higher (7.8 percent) than the current rate.

The Line of Duty Act Program is funded on a pay-as-you-go basis. As a result, the liabilities are valued using a discount rate of 3.9 percent, which approximates the risk-free rate of return. This rate increased by 0.2 percent when compared to the prior year. The following table (dollars in thousands) shows the Commonwealth's changes in the discount rate and the healthcare trend rate.

(1) The VSDP net OPEB asset is included in Other Restricted Assets in the accompanying government-wide financial statements.

The long-term expected rate of return on the System's investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The long-term target allocations are based on the Strategic Asset Allocation Implementation Schedule and Allowable Ranges document, which was approved by the VRS Board of Trustees on June 15, 2023. Best estimates of arithmetic real rates of return for each major asset class included in the System's long-term target asset allocation are summarized in the following table.

<u>Asset Class (Strategy)</u>	<u>Long-Term Target Asset Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
Public Equity	34.0 %	6.1 %	2.1 %
Fixed Income	15.0 %	2.6 %	0.4 %
Credit Strategies	14.0 %	5.6 %	0.8 %
Real Assets	14.0 %	5.0 %	0.7 %
Private Equity	16.0 %	9.2 %	1.5 %
MAPS - Multi-Asset			
Public Strategies	4.0 %	4.5 %	0.2 %
PIP-Private Investment			
Partnerships	2.0 %	7.2 %	0.1 %
Cash	1.0 %	1.2 %	— %
Total	<u>100.0 %</u>		<u>5.8 %</u>
	Inflation		<u>2.5 %</u>
	Expected arithmetic nominal return		<u>8.3 %</u>

The allocation in the previous table provides a one-year expected return of 8.3 percent. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the pension system, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.1 percent, including expected inflation of 2.5 percent. On June 15, 2023, the VRS Board of Trustees elected a long-term rate of return of 6.8 percent which is roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.1 percent, including expected inflation of 2.5 percent.

The long-term expected rate of return on the LODA OPEB Program's investments was set at 3.9 percent for this valuation. Since LODA is funded on a current-disbursement basis, it is not able to use the VRS Pooled Investments 6.8 percent assumption. Instead, the assumed annual rate of return of 3.9 percent was used since it approximates the risk-free rate of return. This Single Equivalent Interest Rate (SEIR) is the applicable municipal bond index rate based on the Fidelity Fixed Income General Obligation 20-year Municipal Bond Index as of June 30, 2023.

6) OPEB Related Deferred Outflows and Deferred Inflows

GASB Statement No. 75 requires certain OPEB related items to be reported as either deferred outflows or deferred inflows of resources. The following tables (dollars in thousands) summarize these amounts as of June 30, 2024, in total and by individual plan.

- (1) These tables aggregate the deferred inflows of resources and deferred outflows of resources for both the VRS-administered and DHRM-administered plans. During fiscal year 2024, the Commonwealth made a payment of \$23,359 (dollars in thousands) to the System. This amount is reflected as deferred outflows of resources in the accompanying financial statements and excluded from the primary government amounts on the previous page.
- (2) The component unit amounts in the accompanying financial statements include deferred outflows of resources and deferred inflows of resources of \$18,286 (dollars in thousands) and \$21,119 (dollars in thousands), respectively, for other OPEB plans.
- (3) Additionally, during fiscal year 2024, the Commonwealth recognized OPEB expense for the primary government and component units of negative \$2,261 (dollars in thousands) and \$14,709 (dollars in thousands), respectively, for the VRS-administered OPEB plans and the DHRM-administered OPEB plans. The recognized OPEB expense by plan for the primary government for the VRS-administered OPEB plans was as follows (dollars in thousands): RHIC \$53,401; VSDP \$4,604; GLI \$7,032; LODA \$31,900; and RHIC: Non-State \$8,861. The recognized OPEB expense by plan for component units for the VRS-administered OPEB plans was as follows (dollars in thousands): RHIC \$76,498; VSDP \$2,886; GLI \$8,346; and LODA \$1,526. The Commonwealth recognized OPEB expense for the primary government and component units of negative \$108,059 (dollars in thousands) and negative \$74,547 (dollars in thousands) respectively, for the DHRM-administered OPEB plan.

Deferred Amounts to be Recognized in Fiscal Years Following Reporting Date

The following tables (dollars in thousands) provide the net estimated amount of the deferred inflows and deferred outflows of resources that will be recognized in the Commonwealth's OPEB expense for each of the next five fiscal years and thereafter. These amounts exclude employer contributions made subsequent to the measurement date as those contributions will reduce the fiscal year 2025 net OPEB liability (asset).

B. Department of Human Resource Management (DHRM-administered) OPEB Plan

1) Administration

The DHRM-administered defined benefit OPEB plan mentioned below does not have a trust that meets the requirements of GASB Statement No. 75. In addition, the total OPEB liability for this plan has a measurement date of June 30, 2023. A separately issued financial report for this DHRM-administered OPEB plan is not available.

2) Plan Description

The Commonwealth provides a Pre-Medicare Retiree Healthcare (PMRH) plan established by Title 2.2 of the *Code of Virginia* for retirees who are not yet eligible to participate in Medicare. It is the same health insurance program offered to active employees and managed by DHRM. After

retirement, the Commonwealth of Virginia no longer subsidizes the retiree's premium; however, since both active employees and retirees are included in the same pool for purposes of determining health insurance rates, retiree rates are effectively lower than what might otherwise be available outside of this benefit. Following are eligibility requirements for Virginia Retirement System (VRS) retirees:

- Retiring state employee who is eligible for a monthly retirement benefit from VRS;
- Start receiving (do not defer) retirement benefit immediately upon retirement;
- Last employer before retirement was the Commonwealth of Virginia;
- Eligible for (even if not enrolled) coverage as an active employee in the State Health Benefits Program until retirement date (not including Extended Coverage/COBRA); and
- Enroll no later than 31 days from retirement date.

Effective January 1, 2017, are the following eligibility requirements for Optional Retirement Plan (ORP) retirees:

- Terminating state employee who participates in one of the qualified Optional Retirement Plans;
- Last employer before termination was the Commonwealth of Virginia;
- Eligible for (even if not enrolled) coverage in the State Employee Health Benefits Program for active employees at the time of termination;
- Meet age and service requirements for an immediate retirement benefit under the non-ORP VRS plan that the retiree would have been eligible for on the date of hire had the retiree not elected the ORP; and
- Enroll in the State Retiree Health Benefits Program no later than 31 days from the date the retiree loses coverage (or loses eligibility for coverage) in the State Health Benefits Program for active employees due to termination of employment.

Eligibility for ORP retirees who terminated prior to January 1, 2017, would be based on the policy in place at the time of their termination.

This fund is reported as part of the Commonwealth's Health Care Internal Service Fund. Benefit payments are recognized when due and payable in accordance with the benefit terms. Pre-Medicare Retiree Healthcare is a single-employer defined benefit OPEB plan that is treated like a cost-sharing plan for financial reporting purposes, and is administered by the Department of Human Resource Management. There were approximately 3,551 retirees and

92,780 active employees in the program as of June 30, 2023. There are no inactive employees entitled to future benefits who are not currently receiving benefits. There are no assets accumulated in a trust to pay benefits.

3) Funding

The employer does not pay a portion of the retirees' healthcare premium; however, since both active employees and retirees are included in the same pool for purposes of determining health insurance rates, this generally results in a higher rate for active employees. Therefore, the employer effectively subsidizes the costs of the participating retirees' healthcare through payment of the employer's portion of the premiums for active employees.

4) Changes in Total OPEB Liability

The PMRH total OPEB liability of \$351.9 million as of June 30, 2024, was measured as of June 30, 2023, and was determined by an actuarial valuation as of June 30, 2023. The following tables (dollars in thousands) show the Commonwealth's total OPEB liability for the current and prior year:

Primary Government

	<u>PMRH</u>
	<u>Increase (Decrease)</u>
	<u>Total</u>
	<u>OPEB Liability</u>
Balances at June 30, 2023	\$ 207,438
Changes for the year	
Service cost	13,007
Interest cost	7,353
Changes of benefit terms	—
Differences between expected and actual experience	6,179
Changes of assumptions	(10,542)
Benefit payments	(24,090)
Net change	(8,093)
Balances at June 30, 2024	\$ 199,345

Component Units

	<u>PMRH</u>
	<u>Increase (Decrease)</u>
	<u>Total</u>
	<u>OPEB Liability</u>
Balances at June 30, 2023	\$ 155,978
Changes for the year	
Service cost	9,956
Interest cost	5,628
Changes of benefit terms	—
Differences between expected and actual experience	4,729
Changes of assumptions	(8,069)
Benefit payments	(15,647)
Net change	(3,403)
Balances at June 30, 2024	\$ 152,575

The amounts in the previous tables include governmental, business-type, and component unit activity for the DHRM-administered OPEB plan. The table excludes the non-DHRM OPEB plans' total OPEB liability of \$189,000 for the Hampton Roads Transportation Accountability Commission (nonmajor governmental) and the total OPEB liability of \$15.1 million for all other component units.

The PMRH total OPEB liability was based on an actuarial valuation with a valuation date of June 30, 2023. The Department of Human Resource Management selected the economic, demographic and healthcare claim cost assumptions. The actuary provided guidance with respect to these assumptions. Initial healthcare costs trend rates used were 7.8 percent for medical and pharmacy and 4.0 percent for dental. The ultimate trend rates used were 4.5 percent for medical and pharmacy and 4.0 percent for dental.

Actuarial Assumptions and Methods

Valuation Date of June 30, 2023

Measurement Date	June 30, 2023 (one year prior to the end of the fiscal year)
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level dollar, Closed
Effective Amortization Period	5.80 years
Discount Rate	3.7%
Projected Salary Increases	5.4% to 3.5% based on years of service from 1 year to 20 years or more
Medical Trend Under 65	Medical & Rx: 7.8% to 4.5% Dental: 4.0%
Year of Ultimate Trend	2033
Mortality	Mortality rates vary by participant status and gender
Pre-Retirement:	Pub-2010 Benefits Weighted General Employee Rates projected generationally with a Modified MP-2021 Improvement Scale; females set forward 2 years
Post-Retirement:	Pub-2010 Benefits Weighted General Healthy Retiree Rates projected generationally with a Modified MP-2021 Improvement Scale; 110% of rates for females
Post-Disablement:	Pub-2010 Benefits Weighted General Disabled Rates projected generationally with a Modified MP-2021 Improvement Scale; males and females set forward 3 years
Beneficiaries and Survivors:	Pub-2010 Benefits Weighted General Contingent Annuitant Rates projected generationally with a Modified MP-2021 Improvement Scale; 110% of rates for males and females

The discount rate was based on the Bond Buyers GO 20 Municipal Bond Index as of the measurement date which is June 30, 2023. The inflation rate used was 2.3 percent per year and there were no ad hoc postemployment benefit changes used to measure the total OPEB liability.

Changes of Assumptions

There were no changes in assumptions since the June 30, 2022 measurement date. The following remained constant since the prior measurement date:

- Spousal Coverage - rate remained at 20.0 percent
- Retiree participation - rate remained at 35.0 percent

Retiree participation was based on a blend of recent experience and the prior year assumptions. The trend rates were updated based on economic conditions as of June 30, 2023. Additionally, the discount rate was increased from 3.5 percent to 3.7 percent based on the Bond Buyers GO 20 Municipal Bond Index as of the measurement date of June 30, 2023. There were no plan changes in the valuation since the prior year.

5) Changes to and Sensitivity of Discount Rate

The following table (dollars in thousands) shows the Commonwealth's changes in discount rate and the healthcare cost trend rates.

Primary Government

Changes in Discount Rate		
PMRH		
Total OPEB Liability		
1.0% Decrease (2.7%)	Current Discount Rate (3.7%)	1.0% Increase (4.7%)
\$ 211,129	\$ 199,345	\$ 188,096
Changes in Healthcare Cost Trend Rates

6) OPEB Related Deferred Outflows and Deferred Inflows

The following tables (dollars in thousands) summarize the OPEB related items reported as deferred outflows or deferred inflows of resources:

Primary Government (2)

	PMRH	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 5,113	\$ 48,180
Changes of assumptions	—	122,035
Changes in proportion	28,593	37,547
Amounts associated with transactions subsequent to the Measurement Date	15,802	—
Total	\$ 49,508	\$ 207,762

Component Units (1) (2)

	PMRH	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,914	\$ 36,891
Changes of assumptions	—	93,439
Changes in proportion	19,058	10,104
Amounts associated with transactions subsequent to the Measurement Date	12,098	—
Total	\$ 35,070	\$ 140,434

- (1) The component unit amounts exclude deferred outflows of resources and deferred inflows of resources of \$1,836 and \$31,025 (dollars in thousands), respectively, for other OPEB plans.
- (2) Additionally, during fiscal year 2024, the Commonwealth recognized OPEB expense for the primary government and component units of negative \$108,059 (dollars in thousands) and negative \$74,547 (dollars in thousands), respectively, for the DHRM-administered OPEB plan.

Deferred Amounts to be Recognized in Fiscal Years Following Reporting Date

The following tables (dollars in thousands) provide the net estimated amount of the deferred inflows and deferred outflows of resources that will be recognized in the Commonwealth's OPEB expense for each of the next five fiscal years. These amounts exclude amounts associated with transactions subsequent to the measurement date as those will reduce the fiscal year 2024 total OPEB liability.

2027	(19,196)
2028	(9,374)
2029	(428)

7) Other OPEB Plans

Primary Government

The Hampton Roads Transportation Accountability Commission (nonmajor governmental) has a single-employer defined benefit healthcare plan administered by the Commission. The Commission reported a total OPEB liability of \$189,000 and reported no deferred outflows of resources or deferred inflows of resources related to this plan. Additional information regarding this plan can be found at the Commission's website at www.hrtac.org.

Higher Education

The University of Virginia (nonmajor component unit) has an Optional Retirement Life Insurance Plan that is offered to University faculty and Medical Center employees who participate in the Optional Retirement Plans. The University reported a total OPEB liability of \$14.3 million, deferred outflows of resources of \$1.8 million, and deferred inflows of resources of \$30.7 million as of June 30, 2024. Additional information on these plans can be found at the University's website at www.virginia.edu.

The Roanoke Higher Education Authority (nonmajor component unit) reported a net OPEB liability of \$63,204, deferred outflows of resources of \$25,882 and deferred inflows of resources of \$27,752 for

Group Life Insurance and Retiree Health Insurance Credit OPEB Plans. Additional information on these plans can be found at the Authority's website at www.education.edu/.

Other Component Units

The Virginia Housing Development Authority (major component unit) offers a medical, dental, and vision benefit plan, and reported deferred outflows of resources of \$7.6 million and deferred inflows of resources of \$8.5 million as of June 30, 2024. Additional information on these plans can be found at the Authority's website at www.virginiahousing.com.

The Virginia Resources Authority (major component unit) offers an optional Retirement Life Insurance Plan for those employees who choose to participate. The Authority reported a net OPEB liability of \$210,883, deferred outflows of resources of \$23,580, and deferred inflows of resources of \$21,793 as of June 30, 2024. Additional information on these plans can be found at the Authority's website at www.virginiareources.gov.

The Virginia Port Authority (nonmajor component unit) offers medical and dental benefits for retirees. The Authority reported a total OPEB Liability of \$760,812 a net OPEB Liability of \$826,000, deferred outflows of resources of \$433,829 and deferred inflows of resources of \$675,808 as of June 30, 2024. For additional information, please see the Authority's website at www.portofvirginia.com.

Hampton Roads Sanitation District (nonmajor component unit) offers a health and dental benefit plan for those employees who choose to participate. The District reported a net OPEB liability of \$8.0 million, deferred inflows of resources of \$12.2 million and deferred outflows of resources of \$10.2 million as of June 30, 2024. For additional information, please see the Authority's website at www.hrsd.com.

The Virginia Biotechnology Research Partnership Authority (nonmajor component unit) offers an Optional Retirement Life Insurance Plan for those employees who choose to participate. The Authority reported a net OPEB liability of \$43,003, deferred outflows of resources of \$23,343, and deferred inflows of resources of \$14,042 as of June 30, 2024.

19. DEFERRED COMPENSATION PLANS

The Commonwealth offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457(b). The Virginia Retirement System (the System) administers the deferred compensation plan, pursuant to the Government Employees Deferred Compensation Plan Act, Section 51.1 of the *Code of Virginia*. The System contracts with private corporations or institutions subject to the standards set forth in the Code to provide

investment products as well as any other goods and services related to the administration of the deferred compensation plan. The Department of Accounts is responsible for the accounting, reconciliation, payment to the plan through payroll deductions, and timely transfer of withheld funds to the trustee designated by the System for investment. The plan provides a number of investment options and is designed so that each participant retains investment control of his/her individual account. The plan, available to all state employees, permits them to defer a portion of their salary until future years. The deferred compensation is held in trust for the exclusive benefit of plan participants and their beneficiaries and is not available to employees until termination, retirement, death, unforeseeable emergency, or an in-service distribution at age 72 or later. Since the System has no fiduciary relationship with plan participants, plan assets as of June 30, 2024, of \$4.6 billion are not included in the accompanying financial statements.

In addition, the Commonwealth provides a cash match under Internal Revenue Code Section 401(a) for employees participating in the deferred compensation plan. The match amount for an employee was established at 50.0 percent of the voluntary contributions to the deferred compensation plan. During the current fiscal year, the maximum match was \$20 per pay period or \$40 per month. The fair value of assets in the cash match savings plan as of June 30, 2024, was \$656.5 million, which is also excluded from the accompanying financial statements. Employer contributions under this plan were approximately \$14.5 million for fiscal year 2024.

Most employees of the Commonwealth's colleges and universities may participate in the Commonwealth's deferred compensation plan in accordance with Internal Revenue Code Section 457(b) and/or the institution's deferred compensation plan in accordance with Internal Revenue Code Section 403(b). Under either plan, the institution's cash match under the Internal Revenue Code Section 401(a) during fiscal year 2024 was a maximum match of up to \$20 per pay period or \$40 per month. This employer match is for either plan but not both plans. Employer contributions under these plans were approximately \$13.2 million for fiscal year 2024.

The Matching Contribution Retirement Plan for Salaried Employees for the University of Virginia Medical Center (part of the University of Virginia – nonmajor component unit) employees hired on or after September 30, 2002, provides a discretionary employer matching contribution equal to 50.0 percent of the employee's contributions to the supplemental retirement program up to 4.0 percent. Employer contributions under this plan were approximately \$8.2 million for fiscal year 2024. The University of Virginia provides executive deferred compensation retirement benefits for certain officers and executives of the University and the University Medical Center. The University makes contributions on behalf of each participant each plan year as determined by the Board of Visitors. The University contributed \$1.6 million to these accounts for fiscal year 2024. In addition, the UVA Community Health (UVACH - a blended component unit of the University of Virginia) has a Section 457(f)

deferred compensation plan for certain officers, executives, and physicians. UVACH makes contributions on behalf of each participant and is subject to certain vesting requirements.

The Virginia Housing Development Authority (major component unit) has a deferred compensation plan available to all employees created in accordance with Internal Revenue Section 457(b). The plan permits participants to defer a portion of their salary or wages until future years. The deferred compensation is not available to employees until termination, retirement, or death. The assets of the plan are in an irrevocable trust with an external trustee and, accordingly, no assets or liabilities are reflected in the accompanying financial statements. For additional information, please see the Authority's website at www.virginiahousing.com.

The Virginia Port Authority (VPA) (nonmajor component unit) offers two deferred compensation plans and a matching savings plan under Internal Revenue Code Sections 457 and 401(a), respectively. For additional information, please see the Authority's website at www.portofvirginia.com.

The Assistive Technology Loan Fund Authority (nonmajor component unit) employees contribute an amount of their choosing into Deferred Compensation Plans administered by the Virginia Retirement System and into a qualified 403(b) plan. For additional information, please see the Authority's website at www.atlfa.org.

20. STATE NON-ARBITRAGE POOL

The Commonwealth sponsors the Virginia State Non-Arbitrage Program (SNAP) for use by the Commonwealth and local governments to invest bond proceeds. The Treasury Board is responsible for the oversight of SNAP, procuring the following services: investment management, program administration, arbitrage rebate and calculation, and custodial and depository services. The Commonwealth does not have fiduciary responsibility for SNAP.

The SNAP fund is a local government investment pool. PFM Asset Management LLC serves as the investment adviser of the SNAP fund. The SNAP individual investment portfolios are the responsibility of the SNAP investment manager and the governments investing proceeds in the portfolios. These investments are held solely in the SNAP participants' names. Since the Commonwealth has no fiduciary relationship with local governmental entities participating in the plan, these assets of \$4.3 billion are not included in the financial statements.

21. COMMITMENTS

A. Construction Projects

Primary Government

Highway Projects

As of June 30, 2024, the Department of Transportation had contractual commitments of approximately \$5.0 billion for construction of various

highway projects. Funding for these expenditures is expected to be provided as follows: (1) State funds - approximately 60.5 percent or \$3.0 billion; (2) Federal funds – approximately 22.0 percent or \$1.1 billion; and, (3) Proceeds from Bonds - approximately 17.5 percent or \$865.2 million.

Mass Transit Projects

As of June 30, 2024, the Department of Rail and Public Transportation had contractual commitments of approximately \$359.7 million for various public transportation and rail projects. Funding of the future expenditures is expected to be as follows: 1) State funds – approximately 90.9 percent or \$326.8 million, and 2) Federal funds – approximately 9.1 percent or \$32.9 million.

Wastewater Treatment Projects

As of June 30, 2024, the Department of Environmental Quality was committed to grant contracts with localities to reimburse a portion of construction costs for nutrient reduction facilities at wastewater treatment plants totaling \$121.3 million provided by bond proceeds and the Water Quality Improvement Fund.

Other Construction Projects

As of June 30, 2024, the Department of Forensic Science had commitments of approximately \$83.1 million for construction projects.

As of June 30, 2024, the Department of Corrections had contractual commitments of \$ 29.1 million for construction projects.

As of June 30, 2024, the Department of General Services had construction commitments of approximately \$416.0 million.

As of June 30, 2024, the Department of Behavioral Health and Developmental Services had construction contractual commitments of approximately \$20.2 million.

As of June 30, 2024, the Department of Conservation and Recreation had contractual commitments of \$12.2 million for construction projects.

As of June 30, 2024, the Virginia Museum of Fine Arts had contractual commitments of \$16.9 million for construction projects.

As of June 30, 2024, the Department of Veterans Services had contractual commitments of \$13.0 million and non-contractual commitments of \$8.9 million for construction projects.

As of June 30, 2024, the Department of Military Affairs had construction contractual commitments of approximately \$24.1 million.

Component Units

Port Projects

As of June 30, 2024, the Virginia Port Authority (nonmajor) was committed to construction contracts totaling \$519.1 million.

Wallops Island Project

As of June 30, 2024, the Virginia Commercial Space Flight Authority (nonmajor) was committed to construction programs totaling \$29.3 million, approximately \$8.4 million of which will be reimbursable under separate private and federal contract agreements and approximately \$16.9 million of which are funded by the Commonwealth.

Treatment Plant

As of June 30, 2024, the Hampton Roads Sanitation District Commission (nonmajor) was committed to construction contracts totaling \$1.6 billion.

Higher Education Institutions

Colleges and universities (nonmajor) had contractual commitments as of June 30, 2024, of approximately \$1.2 billion primarily for construction contracts. Higher education foundations' construction and other commitments total approximately \$6.2 million and \$6.5 million, respectively.

B. Long-term Leases

As of June 30, 2024, the Commonwealth has entered into long-term leases that have not yet commenced. Commitments for the primary government were \$26.7 million for lease payments due for governmental activities (including internal service funds). Business-type activities did not have lease commitments at June 30, 2024. Commitments for component units total \$1.1 million for higher education institutions, excluding foundations.

Lease agreements are for various terms and contain nonappropriation clauses indicating that continuation of the lease is subject to funding by the General Assembly.

C. Long-term Subscription-Based Information Technology Arrangements (SBITAs)

As of June 30, 2024, the Commonwealth has entered into long-term SBITAs that have not yet commenced. Commitments for the primary government were \$19.8 million for SBITA payments due for governmental activities (including internal service funds). Business-type activities did not have SBITA commitments at June 30, 2024. Commitments for component units total \$29.1 million for higher education institutions, excluding foundations.

D. Investment Commitments – Virginia Retirement System

The Virginia Retirement System extends investment commitments in the normal course of business, which, as of June 30, 2024, amounted to \$21.0 billion.

E. Virginia Transportation Infrastructure Bank

Section 33.2-1500 of the *Code of Virginia* states the Virginia Transportation Infrastructure Bank is intended to help alleviate a critical financing need for present and future highways within the Commonwealth. This includes toll facilities; mass transit; freight, passenger, and commuter rail; and port, airport and other transportation facilities.

As of June 30, 2024, \$218.7 million included as Loans Receivable in the accompanying statements represents loans to the City of Chesapeake for the Dominion Boulevard Project, Loudoun County for the Pacific Boulevard Project, the Chesapeake Bay Bridge and Tunnel District for the Parallel Thimble Shoal Tunnel, and the 95 Express Lanes LLC for the 395 Express Lanes Northern Extension. A \$49.0 million loan to Capital Beltway Express, LLC for the I-495 Express Lanes loan has been approved, but no disbursements were made as of June 30, 2024. Payments were made by the City of Chesapeake for \$12.6 million, Chesapeake Bay Bridge and Tunnel District for \$734,138, and the 95 Express Lanes LLC for \$830,923 in July 2024. Also, a loan of \$49.0 million was disbursed to Capital Beltway Express for the I-495 Express Lanes in July 2024. All loans are coordinated through the Virginia Resources Authority (major component unit).

F. Tobacco Grants

The Tobacco Region Revitalization Commission (nonmajor component unit) had \$85.5 million in grant award commitments not reflected in the accompanying financial statements since eligibility requirements were not met as of June 30, 2024, in accordance with GASB Statement No. 33.

G. Other Commitments

Primary Government

As of June 30, 2024, the Virginia Department of Transportation had contractual commitments of approximately \$1.8 billion for individual contracts awarded with a contract value of \$1.0 million or more for operational services, facilities, tolling services and other non-highway construction type contracts.

As of June 30, 2024, the Department of Corrections had contractual commitments of approximately \$7.7 million for technology services.

As of June 30, 2024, the Department of Behavioral Health and Developmental Services had contractual commitments of approximately \$35.5 million.

As of June 30, 2024, the Department of Conservation and Recreation had non-contractual commitments of approximately \$5.4 million.

As of June 30, 2024, the Department of Motor Vehicles had contractual commitments of approximately \$43.3 million for driver's licenses and technology services.

As of June 30, 2024, the Virginia Employment Commission had contractual commitments of approximately \$8.3 million for information systems modernization projects.

As of June 30, 2024, the Virginia Department of Health had commitments of approximately \$55.7 million to localities, trauma centers, regional councils, grants to rescue squads, and water supply assistance grants.

The Virginia College Savings Plan (major enterprise fund) administers the Defined Benefit 529 Program. As of June 30, 2024, the Program had \$330.0 million in private equity commitments.

The Virginia Wireless E-911 (nonmajor enterprise fund) had \$51.5 million in outstanding grants awarded but not yet disbursed to localities as of June 30, 2024, since all of the eligibility criteria have not been met in accordance with GASB Statement No. 33, and other contractual commitments of \$13.1 million.

Component Units

The Virginia Housing Development Authority (major) and Virginia Resources Authority (major) had \$1.1 billion and \$480.9 million, respectively, in commitments to fund new loans not reflected in the accompanying financial statements since eligibility requirements were not met as of June 30, 2024, in accordance with GASB Statement No. 33.

As of June 30, 2024, the Virginia Passenger Rail Authority (nonmajor) had capital grant commitments outstanding of \$222.6 million and other contractual commitments of \$93.3 million. The Authority also has \$10.9 million of funding committed to reimburse the Department of Rail and Public Transportation (part of primary government) for planned expenses related to grants managed by the Department.

The Virginia Small Business Financing Authority (nonmajor) had \$3.0 million in loan commitments to banks and borrowers not reflected in the accompanying financial statements since eligibility requirements were not met as of June 30, 2024, in accordance with GASB Statement No. 33.

22. ACCRUED LIABILITY FOR COMPENSATED ABSENCES

Employees accrue annual leave at a rate of four to nine hours semimonthly, depending on their length of service. The maximum leave accumulation is dependent upon years of service, but in no case may it exceed 432 hours at the end of the leave year. The maximum compensation for annual leave balances is also dependent upon years of service, but in no case may an employee be compensated for more than 336 hours upon separation.

All employees hired after January 1, 1999, are required to enroll in the Virginia Sickness and Disability Program (VSDP) (see Note 17). Under the VSDP, employees receive a specified number of sick and personal leave hours, depending on their length of service, and any balances at the end of the leave year revert. Individuals employed at January 1, 1999, had the option of converting to the VSDP or remaining in the traditional sick leave plan. If converting, the employee's sick leave balance could be used to purchase retirement credits or be converted to disability credits. If an employee opted to remain in the traditional sick leave program, sick leave accrues at a rate of five hours semimonthly. Employees who leave state service after a minimum of five years employment receive the lesser of 25.0 percent of the value of their disability credits or accumulated sick leave at their current earnings rate or \$5,000. All employees leaving state service are paid for accrued annual leave up to the maximum leave year limit at their current earnings rate.

In conformance with Section C60 of the GASB Codification, the monetary value of accumulated vacation, compensatory, overtime, recognition, and sick leave payable upon termination is included in the accompanying financial statements and is reported as Compensated Absences. In the government-wide statements, proprietary fund statements, and discrete component unit fund statements, compensated absence amounts are segregated into two components – the amount due within one year and the amount due in more than one year. Compensated absences due within one year consist of an estimate of the amount that will be used by active employees for paid time off and/or paid upon termination, plus the actual amount paid after June 30 for employees terminating on or before June 30. In the governmental fund statements, amounts to be paid from expendable resources are recognized as fund liabilities in the applicable governmental fund types as long-term liabilities and represent payments to employees for separations that occurred on or before June 30. Amounts not payable from expendable resources are reflected in the governmental activities column in the Government-wide Statement of Net Position (see Note 27). All amounts related to the fiduciary funds are recognized in those funds.

The liability as of June 30, 2024, was computed using salary rates effective at that date, and represents vacation, compensatory, overtime, recognition, and sick leave earned, or disability credits held by employees, up to the allowable ceilings.

23. POLLUTION REMEDIATION OBLIGATIONS

The Commonwealth has pollution remediation obligations of \$4.1 million, of which \$2.1 million is due within one year. With the exception of the Department of Environmental Quality (DEQ), agencies estimated future obligations based on professional consultant estimates and/or historical project expenses of similar projects; however, there is the potential for change in estimates due to price increases or reductions, technology, or applicable laws and regulations. Remediations for DEQ are not estimates, but contractual obligations between the Commonwealth and the U.S. Environmental Protection Agency (EPA), and any change due to a reconciliation of incurred costs requires mutual consent and contract amendment.

The estimated Commonwealth pollution remediation liability relates to the anticipated cost of cleanup relating to leakage of underground storage tanks, soil and groundwater contaminations, dump site cleanups, mold remediation and remediation relating to superfund state contracts.

Agencies involved in remediation include:

- Department of Conservation and Recreation (DCR)
- Department of Corrections (DOC)
- Department of Environmental Quality (DEQ)
- Department of Juvenile Justice (DJJ)
- Department of Transportation (VDOT)

A Facility Lead Agreement was signed between the EPA and VDOT to resolve an issue concerning the storage of lab wastewater in an outdoor lined surface impoundment that operated between 1979 and 1983 for which contamination is present in soil and groundwater. DOC was fined by the EPA in September/October 2003. DOC proposed to conduct a Supplemental Environmental Project (SEP) which included the formation of the Pollution Prevention Section of the Environmental Services Unit, disclosure of all environmental deficiencies to both the EPA and DEQ and corrections of those deficiencies.

The following pollution remediation outlay could not reasonably be estimated as of June 30, 2024:

- VDOT relating to groundwater contamination.

24. INSURANCE

A. Self-Insurance

The Commonwealth maintains three types of self-insurance plans. The first type of self-insurance is a health care plan administered by the Department of Human Resource Management (DHRM) for Commonwealth employees. The plan is accounted for in the Health Care Internal Service Fund. Interfund premiums are accounted for as internal activity receipts from other funds. As of June 30, 2024, \$126.1 million is reported as the estimated insurance claims payable for this fund, which is undiscounted as nearly all healthcare claims are current in nature. The estimated liability is based upon actual claims that have been submitted as well as actuarially determined claims incurred but not reported as described in Note 1.W. Changes in the balances of claims liabilities (dollars in thousands) during the current and prior fiscal years are as follows:

	Balance July 1,	Current Year Claims and Changes in Estimates	Insurance Claim Payments	Balance June 30, (1)
2023-2024	\$ 95,189	\$ 1,875,863	\$ (1,844,997)	\$ 126,055
2022-2023	\$ 117,657	\$ 1,602,583	\$ (1,625,051)	\$ 95,189

(1) The entire ending balance shown above is due within one year.

The second type of plan, Risk Management, is administered by the Department of the Treasury, Division of Risk Management and the Department of Human Resource Management, Worker's Compensation Program. These plans are accounted for in the Risk Management Internal Service Fund. The Department of the Treasury administers risk management programs providing property, general (tort) liability, medical malpractice, automobile and surety bond exposures for the Commonwealth of Virginia as provided in Sections 2.2-1834 through 1838 and Section 2.2-1840 of the *Code of Virginia*. Established subject to the approval of the Governor, risk management plans provide state agencies with protection through purchased insurance, self-insurance or a combination thereof. Interfund premiums for the fund are accounted for as internal activity receipts from other funds. The insurance claims payable is an estimated liability based upon actual claims that have been submitted as well as actuarially determined claims incurred but not reported. As of June 30, 2024, \$386.7 million is reported as the estimated insurance claims payable for the risk management plan. This amount is discounted to present value at rates of 4.0 percent for DHRM and 5.1 percent for Department of Treasury. Undiscounted insurance claims payable as of June 30, 2024, is \$571.0 million. The estimated losses are based upon actual claims that have been submitted, as well as claims incurred but not reported. Changes in the balances of claims liabilities (dollars in thousands) during the current and prior fiscal years are as follows:

	Balance July 1,	Current Year Claims and Changes in Estimates	Insurance Claim Payments	Balance June 30, (1)
2023-2024	\$ 393,576	\$ 77,994	\$ (84,898)	\$ 386,672
2022-2023	\$ 451,148	\$ (4,056)	\$ (53,516)	\$ 393,576

(1) Of the balance shown above, \$70.5 million is due within one year.

For workers' compensation, the Commonwealth assumes the full risk of claims filed. For tort and automobile, liability is assumed at a maximum of \$2.0 million per occurrence. Medical malpractice is assumed at the maximum per occurrence recovery limited as stated in Section 8.01-581.15 of the *Code of Virginia*. Risk Management purchases commercial insurance to protect state-owned property with deductibles as stated in the insurance policies.

The third type of plan, Line of Duty, is administered by the Department of Human Resource Management for Line of Duty recipients. Per the amended Line of Duty Act Section 9.1-401 of the *Code of Virginia*, the Department of Human Resource Management is responsible for administration of the premium-free health benefits provided to eligible Line of Duty recipients. The plan is accounted for in the Line of Duty Internal Service Fund. All eligible employees, former employees, and eligible family members will be covered under one program, the Line of Duty Health Benefit Plans. Participating or non-participating refers to whether the employer participates in the Line of Duty Death and Health Benefits Trust Fund, administered by VRS. All state agencies are participating employers, but localities can be either participating or non-participating. As of June 30, 2024, \$485,125 is reported as the insurance claims payable for the fund for state employees and participating localities, which is undiscounted as nearly all healthcare claims are current in nature. Changes in the balances of claims liabilities (dollars in thousands) during the current and prior fiscal years are as follows:

	Balance July 1,	Current Year Claims and Changes in Estimates	Claim Payments	Balance June 30, (1)
2023-2024	\$ 404	\$ 8,956	\$ (8,875)	\$ 485
2022-2023	\$ 407	\$ 9,173	\$ (9,176)	\$ 404

(1) The entire ending balance shown above is due within one year.

The Commonwealth has not had any insurance settlements exceed the coverage during the past three years.

University of Virginia (nonmajor component unit) employees have the option to participate in the University's self-funded, comprehensive medical care benefits program. The cost of medical care is paid out of employee and employer contributions. Claims and expenses are reported when it is probable that a loss has occurred, and the amount

of the loss can be reasonably estimated. Those losses include an estimate of claims that have been incurred but not reported and the future costs of handling claims. The estimated liability for outstanding claims on June 30, 2024 was \$14.7 million. The University has contracted with two third-party claims administrators: Aetna for its medical and pharmacy claims and United Concordia for its dental claims.

As of June 30, 2024, the Virginia Commonwealth University Health System Authority (Authority) (a blended component unit of the Virginia Commonwealth University – nonmajor component unit) reports the following insurance claims payable amounts: estimated workers' compensation claims of \$2.1 million and estimated losses on malpractice claims of \$3.9 million. Aries Insurance Captive (component unit of the Authority) reports insurance claims payable of \$24.7 million for estimated losses on malpractice claims, \$4.5 million for estimated workers' compensation claims, and \$5.7 million for other insurance coverages. Additional information on insurance claims payable can be found in the Authority's separately issued financial statements, which can be found at the University's website at www.vcu.edu.

Virginia International Terminals, LLC (VIT) (a blended component unit of the Virginia Port Authority – nonmajor) participates in a workers compensation insurance pool and shares risk with other members of the pool. VIT remains obligated under its former self-insured plan for future losses as a result of accidents that occurred prior to April 12, 1999. VIT bears some self-insurance risk for health/medical insurance claims cost in excess of employee premiums/contributions received. Pursuant to a joint arrangement with the Virginia Port Authority, (VPA) (nonmajor) the entity carries stop loss insurance to mitigate exposure to significant claims. The stop loss policy is on a calendar year basis, with renewals effective each January 1. During the calendar year 2024 and 2023, the individual claim cost limit (deductible) under the policy for the Authority was \$150,000. The aggregate deductible for VIT and VPA combined claims in excess of the individual limit was \$7.1 million for calendar year 2024 and \$7.2 million for calendar year 2023. For additional information, please see the Authority's website at www.portofvirginia.com.

B. Public Entity Risk Pools

The Commonwealth administers three types of public entity risk pools for the benefit of local governmental units: healthcare, risk management, and line of duty insurance. The Local Choice Health Care plan was established to make comprehensive healthcare insurance available to localities and political subdivisions at affordable rates and with stable premiums. During the fiscal year, there were 442 local government units participating in the pool. This includes 64 school

districts, 39 counties, 134 cities/towns, and 205 other subdivisions. This program is accounted for in the Local Choice Health Care Enterprise Fund (nonmajor).

The Department of Human Resource Management, under Section 2.2-1204 of the *Code of Virginia*, has the authority to design, set rates, and administer the Local Choice Health Care fund. The pool's standard contract period is one year. However, a member group may withdraw on the last day of any month with three month's written notice. Contributions are based on the current necessary contribution and the amortization of experience adjustments in the pool. As of June 30, 2024, \$50.4 million is reported as the actuarially determined estimated insurance claims payable for this fund based on claims incurred but not reported.

The actuarial liability is determined for the membership pool in total and then adjusted for each locality based on individual historic and demographic data. If the pool's assets were to be exhausted, the program participants would share the responsibility for any liabilities or deficits.

The Department of the Treasury, Division of Risk Management administers the VARisk and VARisk2 risk management programs for political subdivisions, constitutional officers and others in accordance with Section 2.2-1839 of the *Code of Virginia*. These pools were established to provide an economical, low-cost alternative to the commercial insurance market for the Commonwealth's political subdivisions. These risk programs are accounted for in the Risk Management Enterprise Fund (nonmajor). The pool is established subject to approval by the Governor. It may be insurance, self-insurance, or any combination thereof, and must provide protection and legal defense against liability. Participation is voluntary and open to those identified in Section 2.2-1839 of the *Code of Virginia*. As of June 30, 2024, there were 486 units of local government in the pool, including 13 towns and 23 counties. The remaining 450 units include a large variety of boards, commissions, authorities, and special districts.

The VARisk program is comprised of constitutional officers and regional jails, and participation is not mandated by the *Code of Virginia*. However, the Compensation Board (part of the primary government) requires participation by all constitutional officers.

The VARisk2 program is comprised of local governments and has a minimum membership period of one year. However, a member group can cancel membership and withdraw from the plan on their coverage anniversary date or at the end of the fiscal year with 30 days' notice.

No excess insurance or reinsurance is provided. The risk assumed by the VARisk and VARisk2 pool

for liability is \$1.0 million per occurrence, with the exception of sheriffs and their deputies, which is \$1.5 million per occurrence.

As of June 30, 2024, \$39.9 million and \$3.8 million are reported as estimated insurance claims payable for the VARisk and the VARisk2 programs, respectively. These figures are actuarially determined for the funds in total and are reported at gross. They are based on the estimated ultimate cost of settling the claims, including the effects of inflation and other societal and economic factors. They do not reflect possible reimbursements for insurance recoveries.

Per the amended Line of Duty Act Section 9.1-401 of the *Code of Virginia*, the Virginia Department of Human Resource Management (DHRM) is responsible for administration of the premium-free health benefits provided to eligible LODA recipients. All eligible employees, former employees, and eligible family members will be covered under one program, the LODA Health Benefits Plans. As of June 30, 2024, \$1.2 million is reported as the actuarially determined estimated insurance claims payable for the non-participating localities reported in this fund based on claims incurred but not reported.

The following schedule (dollars in thousands) shows the changes in claims liabilities for the past two fiscal years.

	Local Choice Health Care		Risk Management		Line of Duty	
	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023
Unpaid Claims and Claim						
Adjustment Expenses at Beginning of Fiscal Year	\$ 48,711	\$ 47,568	\$ 43,169	\$ 48,326	\$ 988	\$ 996
Incurred Claims and Claim Adjustment Expenses:						
Provision for Insured Events of the Current Fiscal Year	532,820	495,020	13,123	12,488	21,927	22,459
Changes in Provision for Insured Events of Prior Fiscal Years	—	—	(4,745)	(7,597)	—	—
Total Incurred Claims and Adjustment Expenses	532,820	495,020	8,378	4,891	21,927	22,459
Payments:						
Claims and Claim Adjustment Expenses Attributable to Insured Events of the Current Fiscal Year	531,138	493,877	1,090	1,628	21,728	22,467
Claims and Claim Adjustment Expenses Attributable to Insured Events of the Prior Fiscal Year	—	—	8,537	7,413	—	—
Total Payments	531,138	493,877	9,627	9,041	21,728	22,467
Change in Provision for Discounts	—	—	1,798	(1,007)	—	—
Total Unpaid Claims and Claim Adjustment Expenses at End of the Fiscal Year (Discounted) (1) (2) (3)	\$ 50,393	\$ 48,711	\$ 43,718	\$ 43,169	\$ 1,187	\$ 988
Total Unpaid Claims and Claim Adjustment Expenses at End of the Fiscal Year (Undiscounted)	\$ 50,393	\$ 48,711	\$ 49,018	\$ 48,750	\$ 1,187	\$ 988

Note (1): The entire balance for Local Choice Health Care, \$50,393 (dollars in thousands) is due within one year.

Note (2): Of the balance shown above for Risk Management, \$12,502 (dollars in thousands) is due within one year.

Note (3): The entire balance for Line of Duty, \$1,187 (dollars in thousands) is due within one year.

25. ACCOUNTS PAYABLE

The following table (dollars in thousands) summarizes Accounts Payable as of June 30, 2024.

	<u>Vendor</u>	<u>Salary / Wage</u>	<u>Retainage</u>	<u>Other</u>	<u>Foundations (1)</u>	<u>Total</u>
Primary Government:						
General	\$ 423,147	\$ 151,504	\$ 1,879	\$ —	\$ —	\$ 576,530
Major Special Revenue Funds:						
Commonwealth Transportation	526,330	45,465	1,732	—	—	573,527
Federal Trust	154,834	26,177	5,833	—	—	186,844
Nonmajor Governmental Funds	72,717	20,435	21,203	481	—	114,836

Custodial Funds - Other	2,818	—	—	153	—	2,971
Total Primary Government (4)	<u>\$ 1,467,496</u>	<u>\$ 264,255</u>	<u>\$ 30,647</u>	<u>\$ 71,130</u>	<u>\$ —</u>	<u>\$ 1,833,528</u>
Discrete Component Units:						
Virginia Housing Development Authority (5)	\$ 1,308	\$ 6,322	\$ —	\$ 30,757	\$ —	\$ 38,387
Virginia Public School Authority	188	—	—	—	—	188
Virginia Resources Authority	43	4	—	—	—	47
Nonmajor Component Units	890,995	594,066	117,771	430	148,491	1,751,753
Total Component Units	<u>\$ 892,534</u>	<u>\$ 600,392</u>	<u>\$ 117,771</u>	<u>\$ 31,187</u>	<u>\$ 148,491</u>	<u>\$ 1,790,375</u>

Note (1): Foundations represent FASB reporting entities defined in Note 1.B.

Note (2): Other Accounts Payable for the Virginia Lottery primarily represents unclaimed prizes attributable to multi-state games and player subscription wallets.

Note (3): Other Accounts Payable for the Pension and Other Employee Benefit Trust Fund consists of \$28,579 (dollars in thousands) in investment management fees and \$19,422 (dollars in thousands) in program benefit liabilities.

Note (4): Fiduciary liabilities of \$67,560 (dollars in thousands) are not included in the Government-wide Statement of Net Position. In addition, governmental fund liabilities of \$168,974 (dollars in thousands) are included in the Government-wide Statement of Net Position, but excluded from the above amounts.

Note (5): Other Accounts Payable for the Virginia Housing Development Authority (major) of \$4,671 (dollars in thousands) predominantly represents federal pass-through grant awards that have not been disbursed to the recipients as of June 30.

26. OTHER LIABILITIES

The following tables (dollars in thousands) summarize Other Liabilities as of June 30, 2024.

	Primary Government					
	General	Commonwealth Transportation	Federal Trust	Nonmajor Governmental Funds	Virginia Lottery	Virginia College Savings Plan (1)
Lottery Prizes Payable	\$ —	\$ —	\$ —	\$ —	\$ 120,833	\$ —
Medicaid Payable	651,760	—	2,114,222	350,299	—	—
Family Access to Medical Insurance Security Payable	25,664	—	49,472	—	—	—
Tax Refunds Payable	686,786	—	—	—	—	—
Accrued Interest Payable	—	—	—	29,645	141	84
Deposits Pending Distribution	15,453	5,464	26	32,703	—	—
Car Tax Payable	263,024	—	—	—	—	—
Other Liabilities	62	30,898	58	16,866	—	25,813
Total Other Liabilities	\$ 1,642,749	\$ 36,362	\$ 2,163,778	\$ 429,513	\$ 120,974	\$ 25,897

	Primary Government					
	Nonmajor Enterprise Funds	Internal Service Funds	Private Purpose Trust Funds	Pension and Other Employee Benefit Trust Funds (2)	Custodial Funds - Other	Total Primary Government (3)
Lottery Prizes Payable	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 120,833
Medicaid Payable	—	—	—	—	—	3,116,281
Family Access to Medical Insurance Security Payable	—	—	—	—	—	75,136
Tax Refunds Payable	—	—	—	—	—	686,786
Accrued Interest Payable	—	—	—	—	—	29,870
Deposits Pending Distribution	110	835	—	—	—	54,591
Car Tax Refund Payable	—	—	—	—	—	263,024
Other Liabilities	1	—	15	30,491	2,500	106,704
Total Other Liabilities	\$ 111	\$ 835	\$ 15	\$ 30,491	\$ 2,500	\$ 4,453,225

Note (1): Other Liabilities of \$25,813 (dollars in thousands) reported by the Virginia College Savings Plan (major) represent amounts associated with pending investment trades and program distributions payable.

Note (2): Other Liabilities of \$30,491 (dollars in thousands) reported in Pension and Other Employee Benefit Trust Funds are made up of \$3,102 (dollars in thousands) in other payables related to the System benefit plans; and \$27,389 (dollars in thousands) in pending investment transactions consisting of: \$9,255 (dollars in thousands) in net foreign exchange contracts payable; \$16,013 (dollars in thousands) in other miscellaneous payables; \$1,541 (dollars in thousands) in foreign taxes payable related to the System benefit plans; and \$580,000 in dividends payable related to the System benefit plans.

Note (3): Fiduciary liabilities of \$33,006 (dollars in thousands) are not included in the Government-wide Statement of Net Position. Governmental fund liabilities of \$75,011 (dollars in thousands) are included in the Government-wide Statement of Net Position, but excluded from the above amounts.

	Component Units					
	Virginia Housing Development Authority	Virginia Public School Authority	Virginia Resources Authority	Virginia College Building Authority	Nonmajor Component Units (4)	Total Component Units
Accrued Interest Payable	\$ 55,669	\$ 56,311	\$ 20,176	\$ 88,341	\$ 98,709	\$ 319,206
Deposits Pending Distribution	—	—	—	—	805,279	805,279
Short-term Debt	400,000	—	—	—	488,637	888,637
Grants Payable	—	—	—	—	9,069	9,069
Other Liabilities	37,106	—	4,400	41	162,926	204,473
Total Other Liabilities	\$ 492,775	\$ 56,311	\$ 24,576	\$ 88,382	\$ 1,564,620	\$ 2,226,664

Note (4): Other Liabilities of nonmajor component units are predominantly comprised of the following (dollars in thousands): Derivative instruments reported by University of Virginia of \$9,386, Virginia Commonwealth University Health System Authority (blended component unit of Virginia Commonwealth University) (VCUHSA) of \$9,910, and foundations of higher education institutions of \$2,537. Other Liabilities also includes third party settlements of \$50,073, and a city of Richmond Pilot Obligation of \$33,393 reported by VCUHSA.

Medicaid Payable

Medicaid Payable represents services rendered but not billed by providers and potential liability resulting from cost reports not settled as of year-end. Providers subject to cost settlement are paid in the interim based on established per diem or diagnosis related group rates for services.

The Department of Medical Assistance Services (DMAS) estimates, based on experience, the total amount of Medicaid claims that will be paid from the Medicaid program in the future which relate to services provided before year-end. As of June 30, 2024, the estimated liability related to Medicaid claims totaled \$3.1 billion in the fund financial statements. Of this amount, \$651.8 million is reflected in the General Fund (major governmental), \$2.1 billion in the Federal Trust Special Revenue Fund (major governmental), and \$350.3 million in the Health and Social Services Fund (nonmajor special revenue).

Family Access to Medical Insurance Security Payable

DMAS estimates the total amount of claims that will be paid from the Family Access to Medical Insurance Security program in the future which relate to services provided before year-end. As of June 30, 2024, the estimated liability related to claims totaled \$75.1 million. Of this amount, \$25.7 million is reflected in the General Fund (major governmental) and \$49.5 million in the Federal Trust Special Revenue Fund (major governmental).

Tax Refunds Payable

Tax refunds payable represent refunds due on individual tax returns filed for the calendar year ended on or before December 31, 2023, and on business tax returns filed for corporate fiscal years ending on or before June 30, 2024. The individual tax return filing deadline is May 1 of each year for the preceding calendar year. The corporate tax return filing deadline is the 15th day of the fourth month following the close of the corporate fiscal year.

Car Tax Refund Payable

During the year ended June 30, 1998, the General Assembly passed the Personal Property Tax Relief Act. Under the terms of this legislation, the Commonwealth assumed financial responsibility for a portion, ranging from 12.5 percent to 70.0 percent, of the personal property taxes assessed by localities.

During 2004, the General Assembly modified this legislation. Chapter 1 of Special Session 1 (2004) established a \$950.0 million limit on the amount the Commonwealth would appropriate for personal property tax relief, beginning in tax year 2006. It further established that each county, city, and town would receive a fixed percentage of the \$950.0 million, with payments to begin on or after July 1, 2006 (fiscal year 2007). The accrued liability amount of \$263.0 million reflects payments owed to localities as of June 30 and paid in July.

Termination Benefits

During the fiscal year, the Commonwealth had laid off 13 employees. The affected employees had the option of volunteering for enhanced retirement benefits or severance benefits. The enhanced retirement benefits option was elected by 1 employee, and the remaining 12 employees elected severance benefits. The severance benefits include salary payments based on years of service and insurance premium payments for health and life insurance. All severance benefits were initiated during fiscal year 2024 and will end no later than June 30, 2025. The benefit cost expended and the outstanding liability for governmental funds as of June 30, 2024, are \$396,180 and \$180,977 respectively. Since the severance benefits last for a maximum of 12 months, discounting of future cash flows is unnecessary. Additionally, the estimated payments are calculated using the Department of Human Resources' Termination Benefits Calculator and actual costs.

Short-term Debt

Short-term debt results from borrowings from anticipation notes, lines of credit, and similar loans with parties external to the primary government. The primary government's policy is to disclose activity related to short-term borrowings occurring during the fiscal year. For fiscal year 2024, the primary government's agencies did not participate in short-term borrowings with external parties.

GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, requires the disclosure of any unused lines of credit. The Virginia Department of Transportation (VDOT) (primary government) has unused lines of credit of \$82.6 million at June 30, 2024 for one federal Transportation Infrastructure Finance and Innovation Act (TIFIA) loan.

The Hampton Roads Transportation Accountability Commission (nonmajor governmental) has unused lines of credit of \$345.0 million at June 30, 2024 for various Transportation Infrastructure Finance and Innovation Act (TIFIA) loans.

The Virginia Housing Development Authority (major component unit) has a direct borrowing from a line of credit of \$400.0 million. Virginia Polytechnic Institute and State University (nonmajor component unit) has commercial paper of \$6.0 million primarily for capital projects. Various higher education institution foundations (nonmajor component units) have lines of credit of \$480.8 million primarily for liquidity in a long-term investment pool, construction, or property acquisition. The Virginia Museum of Fine Arts Foundation (nonmajor component unit) has borrowed \$1.9 million from a line of credit to purchase a building expected to be used by the Museum. Additionally, the Library of Virginia Foundation (nonmajor component unit) has a \$1,000 note with a related party. The balance of Other Liabilities is spread among various other funds.

The Virginia Housing Development Authority (major component unit) has an unused line of credit of \$250.0 million. The University of Virginia, Virginia Polytechnic Institute and State University, Virginia Commonwealth University Health System Authority (blended component unit of Virginia Commonwealth University), Christopher Newport University, and Institute for Advanced Learning and Research (nonmajor component units) have unused lines of credit of \$600.0 million, \$373.0 million, \$100.0 million, \$170,264, and \$1.8 million, respectively. The Hampton Roads Sanitation District Commission and the Virginia Port Authority (nonmajor component units) have unused lines of credit of \$200.0 million and \$1.0 million, respectively. For the University of Virginia, in the event of default under revolving credit agreements, any outstanding advances, interest, and the value of the promissory note would be due and payable to the various banking institutions.

27. LONG-TERM LIABILITIES

Commonwealth bonds are issued pursuant to Section 9 of Article X of the Constitution of Virginia. Section 9(a) bonds have been issued to redeem previous debt obligations. Section 9(b) bonds have been authorized by the citizens of Virginia through bond referenda to finance capital projects. These bonds are retired through the use of state appropriations. Section 9(c) bonds are issued to finance capital projects which, when completed, will generate revenue to repay the debt. Section 9(a), 9(b), and 9(c) bonds are tax-supported general obligation bonds and are backed by the full faith and credit of the Commonwealth. No other long-term debt obligations are backed by the full faith and credit of the Commonwealth.

Section 9(d) bonds are revenue bonds that are not backed by the full faith and credit of the Commonwealth. These bonds are not general obligation bonds and are not deemed to constitute a legal liability of the Commonwealth. However, this debt may be supported by state appropriations in whole or in part, such as certain debt of the Commonwealth Transportation Board (primary government) and the Virginia Port Authority (nonmajor component unit). Other 9(d) revenue bonds are payable from general revenues of the component units, or from revenues of specific revenue-producing capital projects, such as the teaching hospitals, dormitories, student centers, and dining halls at the various colleges and universities (nonmajor component units).

Certain 9(d) bonds are considered, along with 9(a), 9(b), and 9(c) bonds, to be tax-supported debt of the Commonwealth. Tax-supported debt includes all bonds and short-term debt for which debt service payments are made or are ultimately pledged to be made from tax revenues (net of sinking fund requirements).

Other 9(d) revenue bonds are considered debt not supported by taxes. For this debt, the Commonwealth has no direct or indirect pledge of tax revenues. In certain limited cases, the Commonwealth has made a moral obligation pledge. A government's moral obligation pledge provides a deficiency make-up for bondholders in the event pledged revenues prove to be insufficient. If a revenue deficiency exists, monies held in a debt service reserve fund are used to pay bondholders. The issuer then requests that the legislative body provide an appropriation to replenish the reserve fund before subsequent debt service is due. The legislative body may, but is not legally required to, replenish the reserve fund.

GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, requires disclosures related to unused lines of credit (see Note 26), direct borrowings and placement debt, and specific disclosures related to debt default. Direct borrowings and placements have terms with an investor or lender and are not offered for public sale.

The following schedule presents the total long-term liabilities of the Commonwealth, and the portion of these amounts which are due within one year, as reported on the Government-wide Statement of Net Position.

Total Long-term Liabilities

June 30, 2024

<i>(Dollars in Thousands)</i>	Balance At June 30	Amount Due Within One Year

- Pursuant to GASB Statement No. 34, governmental activities include internal service funds. Business-type activities are considered enterprise funds.
- Total general obligation debt of the Commonwealth is \$1.1 billion.
- Amounts are net of any unamortized discounts and premiums.
- This debt includes \$882.4 million that is not supported by taxes.
- This includes OPEB obligations that do not relate to the Department of Human Resource Management of \$189,073 from Hampton Roads Transportation Accountability Commission.
- This debt is not supported by taxes.
- This debt includes \$251.8 million for bonds that is not supported by taxes.
- This debt is not supported by taxes; however, \$918.0 million is considered moral obligation debt.
- Foundations represent FASB reporting entities defined in Note 1.B.
- This includes net pension liabilities that do not relate to the Virginia Retirement System's State Plan from the Hampton Roads Sanitation District Commission and Virginia Port Authority of \$28.6 million and \$10.0 million, respectively. This debt is not supported by taxes.
- This includes OPEB obligations that do not relate to the Virginia Retirement System's State Plan from the Hampton Roads Sanitation District Commission, Virginia Port Authority, Virginia Resources Authority, Roanoke Higher Education Authority, and Virginia Biotechnology Research Partnership Authority, of \$8.0 million, \$826,000, \$210,883, \$63,204, and \$43,003 respectively. This debt is not supported by taxes.
- This includes OPEB obligations that do not relate to the Department of Human Resource Management from the University of Virginia of \$14.3 million and Virginia Port Authority of \$760,812. This debt is not supported by taxes.
- This includes \$349.0 million for governmental activities and \$265.9 million for component units that are supported by taxes.
- This includes \$204.2 million for governmental activities and \$33.1 million for component units that are supported by taxes.
- These generally represent split-interest agreements that represent donor contributed assets with the requirement that an annual distribution be made to the donor or specified beneficiary. The annual distributions are usually for a fixed dollar amount or a fixed percentage of the trust's fair value. The present value of these commitments is reported as Trust and Annuity Obligations.

Primary Government

Transportation Facilities Debt

Transportation Facilities Bonds include \$3.5 billion of Transportation Facilities Section 9(d) debt. The Section 9(d) debt includes \$2.6 billion of Section 9(d) revenue bonds, \$768.3 million of Grant Anticipation Revenue Notes (GARVEES), and \$114.2 million of I-81 revenue bonds in addition to the outstanding Section 9(d) revenue bonds. There are no Section 9(c) bonds outstanding at June 30, 2024. Section 9(d) principal and interest requirements for the current year totaled \$372.2 million. The Section 9(d) Transportation Facilities Bonds were issued to fund the construction of State Route 28, U.S. Route 58, the Northern Virginia Transportation District Program, the Interstate 81 Improvement Program, and the costs of certain transportation projects throughout the Commonwealth. The interest rates for these bonds range from 1.8 percent to 5.0 percent and the issuance dates range from October 10, 2002 to June 17, 2024. The GARVEES were issued to finance various Federal Aid Transportation projects throughout the Commonwealth. The interest rates for these bonds range from 2.0 percent to 5.0 percent and the issuance dates range from November 9, 2016 to September 22, 2020.

The following schedule details the annual funding requirements necessary to amortize Transportation 9(d) debt. During fiscal year 2024, the Commonwealth Transportation Board of the Commonwealth of Virginia defeased the Build America Bonds (BABs) including the outstanding interest reimbursement subsidy balance of \$32.8 million for the bonds. As a result, VDOT does not have any outstanding Bonds under the American Recovery and Reinvestment Act to report in fiscal year 2024. Additionally, the Commonwealth will receive the amounts required to pay the debt service on outstanding Series 2002 and Series 2012 bonds from the Route 28 Transportation Improvement District, annually. The Commonwealth will also receive a portion of the debt service amount for the Northern Virginia Transportation District from the localities where the projects are located, annually.

Public Facilities Bonds

Section 9(b) general obligation bonds consist of Public Facilities Bonds, Series 2015B Refunding, Series 2016B Refunding, Series 2019C Refunding, and Series 2024B Refunding. Bonds were issued to fund construction projects for higher educational institutions, behavioral health, and/or park facilities. The Series 2015B bonds were issued to advance refund certain maturities of outstanding Series 2007B, Series 2008A, and Series 2008B bonds. The Series 2016B bonds were issued to advance refund certain maturities of outstanding Series 2009A bonds. The Series 2019C bonds were issued to advance refund outstanding 2009E bonds. The Series 2024B bonds were issued to advance refund outstanding 2013B bonds. Principal and interest requirements for the current year totaled \$50.9 million. The interest rates for all bonds range from 2.0 percent to 5.0 percent and the issuance dates range from May 6, 2015, to March 6, 2024. The following schedule details the annual funding requirements necessary to repay these bonds.

Virginia Public Building Authority

Virginia Public Building Authority Section 9(d) bonds consist of 2010B-2 (Taxable Build America Bonds), 2012A Refunding, 2013A, 2013B Refunding, 2014A, 2014B (Taxable), 2014C Refunding, 2015A, 2015B Refunding, 2016A, 2016B Refunding, 2016C (AMT), 2016D (Taxable), 2017A Refunding, 2018A, 2018B

(Taxable), 2019A, 2019B (AMT), 2019C (Taxable), 2020A, 2020B Refunding, 2020C (Taxable), 2021A, 2021B Refunding (Taxable), 2022A, 2022B (Taxable), 2024A, 2024B Refunding, and 2024C (Taxable). All bonds were issued for the purpose of constructing, improving, furnishing, maintaining, and acquiring public buildings for the use of the Commonwealth and also to reimburse localities, regional jail authorities or other combinations of localities under the Regional Jail Financing Program. The Series 2012A bonds were issued to advance refund outstanding series 2004B and 2005C Revenue bonds. The Series 2013B bonds were issued to advance refund 2006A and 2006B revenue bonds. The Series 2014C bonds were issued to advance refund outstanding Series 2004A Refunding, 2004B, 2004C Refunding, and 2004D Refunding bonds, and certain maturities of the 2005C, 2006A, 2006B, and 2007A bonds. The Series 2015B bonds were issued to advance refund outstanding series 2005A Refunding, 2005B Refunding, and 2006A bonds and certain maturities of the series 2008B bonds. The Series 2016B bonds were issued to advance refund certain maturities of the series 2009B and 2011A bonds. The Series 2017A bonds were issued to advance refund certain maturities of the 2011A, 2013A, and 2014A bonds. The Series 2020B bonds were issued to advance refund outstanding Series 2005D, Series 2009D Refunding and 2010A bonds. The Series 2021B bonds were issued to advance refund outstanding Series 2011B bonds. The Series 2024B bonds were issued to advance refund certain outstanding Series 2014A and Series 2014C bonds. The interest rates range from 0.5 percent to 5.9 percent and the issuance dates range from November 23, 2010, to June 12, 2024.

Current year principal and interest requirements for all VPBA bonds totaled \$356.0 million. The following schedule details the annual funding requirements necessary to repay these bonds. Pursuant to the American Recovery and Reinvestment Act, the Commonwealth expects to receive an interest subsidy to reimburse interest payments of \$8.1 million for Build America Bonds (BABs) issued. The BABs are applicable to Series 2010 Revenue Bonds.

Component Units

Higher Education Institution Bonds

Higher Education Institution Bonds are comprised of both 9(c) general obligation bonds and 9(d) revenue bonds. Section 9(d) bonds are from several sources as shown on the following schedule (dollars in thousands).

College and university bonds backed by pledge of general revenue or revenue from specific revenue-producing capital projects	\$ 3,856,909
College and university debt backed exclusively by pledged revenues of an institution	<u>631,934</u>
Total Higher Education Institution 9(d) debt	<u>\$ 4,488,843</u>

The interest rates for these bonds range from 0.7 percent to 5.3 percent and the issuance dates range from April 15, 2009, to April 18, 2024. The Virginia Commonwealth University Health System Authority (a blended component unit of the Virginia Commonwealth University – nonmajor) Series 2024B bonds are variable rate bonds and the rates are reset weekly by the remarketing agent.

The following schedules detail the annual funding requirements necessary to amortize Higher Education Institution 9(c) and 9(d) bonds. Pursuant to the American Recovery and Reinvestment Act, the Commonwealth expects to receive an interest subsidy to reimburse interest payments of \$145.8 million for Build America Bonds (BABs) issued. The BABs are applicable to General Obligation Series 2010A Bonds, Series 2010B 21st Century Virginia College Building Authority Education Facilities Bonds, and the University of Virginia's Series 2009 and 2010 General Revenue Bonds. Virginia Commonwealth University (nonmajor component unit) and Virginia Commonwealth University Health System Authority (blended component unit of Virginia Commonwealth University - nonmajor component unit) (VCUHSA) have Direct Placement Bond Series. The VCUHSA bonds include event of default provisions that could change the timing of repayment of the outstanding amounts to become immediately due.

Virginia Public School Authority

The Virginia Public School Authority (major) issued Section 9(d) revenue bonds. The interest rates for these bonds range from 0.0 percent to 5.5 percent, and the issuance dates range from November 13, 2009, to May 14, 2024. The following schedules detail the annual funding requirements necessary to amortize these bonds. Pursuant to the American Recovery and Reinvestment Act, the Commonwealth expects to receive an interest subsidy to reimburse interest payments of \$65.3 million for Qualified School Construction Bonds (QSCBs) issued. The QSCBs are applicable to Series 2010-1, 2011-1, 2011-2, and 2012-1 Revenue Bonds. VPSA's 2014-1 QZAB Bond Series shall bear interest at the default rate, payable on demand by the owner of the Bonds.

*Net increase/decrease is shown.

Note (1): Pursuant to GASB Statement No. 34, governmental activities include internal service funds. Business-type activities are considered enterprise funds.

Note (2): Payments on bonded debt that pertain to the Commonwealth's governmental activities are made through the debt service funds. Payments for installment purchases, compensated absences, long-term leases, long-term SBITAs, pension, other post-employment benefits, and other obligations that pertain to the Commonwealth's governmental activities are made through the general and all special revenue funds, excluding the Literary Fund (major). Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for these funds are included as part of the total for governmental activities. Enterprise funds, or business-type activities, are self-supporting funds. Accordingly, long-term liabilities are paid from each respective fund.

Note (3): Component Unit Long-term Lease Liabilities has been restated because of an understatement of \$2.9 million and an overstatement of \$10.8 million that was offset by an overstatement of a lease asset for \$10.8 as a result of prior year corrections.

Note (4): Component Unit Compensated Absences, Long-term Subscription-Based Information Technology Arrangements, and Other have been restated because of overstatements in the amounts of \$11.8 million, \$14.4 million, and \$24.7 million as a result of prior year corrections.

Note (5): Foundations represent FASB reporting entities defined in Note 1.B.

Note (6): The Net OPEB Liability amount reported as due within one year pertains to the Commonwealth's Line of Duty (LODA) OPEB plan because the ending fiduciary net position is less than the benefit payments expected to be paid within one year. The Total OPEB Liability amount reported as due within one year represents the benefit payments expected to be paid within one year from the Pre-Medicare Retiree Healthcare (PMRH) OPEB plan. This plan does not have a trust.

Note (7): Amounts are net of any unamortized discounts and premiums.

Bond and Note Defeasance

GASB Statement No. 7, *Advance Refundings Resulting in Defeasance of Debt*, provides that refunded debt and assets placed in escrow for the payment of related debt service be excluded from the financial statements. As of June 30, 2024, there were \$175.6 million in bonds from the primary government that have been refunded and defeased in-substance from the governmental activities column by placing existing assets and the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments. In addition, there were \$948.1 million in bonds and notes outstanding considered defeased from the component units.

Primary Government

In October 2023, the Commonwealth Transportation Board of the Commonwealth of Virginia did an in-substance full defeasance of \$6.4 million of the Route 28 Project Transportation Contract Revenue Refunding Bonds, Series 2012 along with \$1.4 million of unamortized bond premium. VDOT used current resources for the defeasance and no new debt was issued. VDOT recognized economic gain of \$67,241 on the defeasance. None of the defeased bonds are outstanding at year end.

In March 2024, the Commonwealth issued \$118.1 million of General Obligation Refunding Bonds, Series 2024B, pursuant to Sections 9(c) of Article X of the Constitution of Virginia, with a true interest cost (TIC) of 2.6 percent to refund \$126.4 million of certain outstanding bonds. The bonds that were refunded include Series 2013A, 2013B, and 2014A. The net proceeds from the sale of the Refunding Bonds of \$127.3 million (after payment of underwriter's fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide for all future debt

service and redemption premiums on the Refunded Bonds. The debt defeasance resulted in an accounting gain of \$5.9 million. It will reduce total debt service payments over the next 11 years by \$4.9 million resulting in an economic gain of \$4.4 million discounted at the rate of 2.9 percent.

In March 2024, the Commonwealth Transportation Board of the Commonwealth of Virginia issued \$414.8 million in Commonwealth of Virginia Transportation Capital Projects Revenue Refunding Bonds Series 2024 with interest rate of 5.0 percent to refund the outstanding Commonwealth of Virginia Transportation Capital Projects Revenue Bonds Series 2010A and Series 2014. The net proceeds from the sale of the Refunding Bonds of \$476.2 million (after payment of underwriter's fees and other issuance costs) were deposited to an irrevocable trust with an escrow agent to provide future debt service payments on the Refunded Bonds and to pay the costs related to issuance and refunding. As a result, the Refunded Bonds are considered to be defeased and the liability has been removed from the governmental activities column of the Statement of Net Position. The net carrying value of the old debt exceeded the reacquisition price by \$8.1 million. The Capital Projects debt defeasance resulted in an accounting gain of \$8.1 million. Total debt service requirements were reduced by \$36.4 million, resulting in an economic gain of \$31.2 million.

In June 2024, the Virginia Public Building Authority (VPBA) issued \$136.0 million of Series 2024B Public Facilities Revenue Refunding Bonds with a true interest cost (TIC) of 3.2 percent to refund \$143.4 million of outstanding Commonwealth of Virginia Public Facilities Revenue Bonds, Series, 2014A and 2014C. The net proceeds from the sale of the Refunding Bonds of \$144.9 million (after payment of underwriter's

fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide for all future debt service and redemption premiums on the Refunded Bonds. The debt defeasance resulted in an accounting gain of \$7.3 million. It will also reduce total debt service payments over the next 11 years by \$4.3 million resulting in an economic gain of \$3.8 million discounted at the rate of 3.3 percent.

Component Units

In April 2024, Virginia Commonwealth University Health System Authority (a blended component unit of the VCU- nonmajor) issued \$110.3 million of General Revenue Refunding Bonds, Series 2024B. These bonds were used to refund \$109.7 million of General Revenue Refunding Bonds, Series 2013B in June 2024. This was a current refunding. For additional information, see the University's separately issued financial statements, which can be found at the University's website at www.vcu.edu.

In May 2023, the Virginia Port Authority (VPA) (nonmajor) issued \$52.7 million of Commonwealth Port Fund Revenue Refunding Bonds, Series 2023B (Non-AMT) to advance refund \$59.3 million in principal amount of the Authority's Commonwealth Port Fund Revenue Bonds, Series 2018 (Taxable) issued in the original par amounts of \$60.3 million. The net proceeds from the issuance, along with other funds available from the Authority, were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the bonds are to be called. At June 30, 2024, \$59.0 million of these defeased bonds are still outstanding. For additional information, please see the Authority's website at www.portofvirginia.com.

In May 2024, the Virginia Public School Authority (VPSA) (major) issued \$54.6 million of Series 2024A School Financing and Refunding Bonds: \$39.7 million of which was issued to refund \$43.2 million of its 2014C bonds. The net proceeds from the sale of the refunding bonds of \$43.6 million was deposited in an irrevocable trust with an escrow agent to provide for all future debt service on the defeased bonds. This defeasance resulted in an accounting gain of \$152,200. Total debt service payments over the next 12 years will be reduced by \$1.8 million resulting in a present value savings of \$1.5 million discounted at the rate of 3 percent.

In July 2023, the College of William and Mary (nonmajor) used proceeds from a PPP agreement to defease \$1.5 million of the outstanding Virginia College Building Authority (VCBA) (major) Educational Facilities Revenue Refunding Bonds, Series 2014B and 2016B.

Arbitrage Rebate

The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt calculate and rebate arbitrage earnings to the Federal government. The U.S. Treasury has issued regulations on calculating the rebate amount and complying with the provisions of the Tax Reform Act of 1986. Governmental issuers must comply with the rebate regulations in order for their bonds to maintain tax-exempt status. The regulations require earnings on investments purchased with bond

proceeds in excess of the amount that would have been earned if the proceeds were invested at a rate equal to the bond yield, be subject to rebate to the Federal government. Income earned on excess earnings is also subject to rebate. Rebate liability, if any, must be paid every five years over the life of the bonds. Governmental issuers may at the time of issuance elect to pay a penalty in lieu of rebate. Bonds may be exempt from the rebate requirements if they qualify for certain exceptions under the regulations. If the issuer meets one of the exceptions, the issuer retains any arbitrage earnings. Rebate and penalty payments are calculated and paid as required by law on bond issues that do not qualify for an exception.

Rebate liability on bonds issued by the Commonwealth Transportation Board (Primary Government) is payable from earnings on related bond funds and from the Transportation Trust Fund. During fiscal year 2024, an arbitrage rebate calculation for Commonwealth Transportation Board, Commonwealth of Virginia Federal Transportation Grant Anticipation Revenue Notes, Series 2018 identified a yield reduction payment of \$11,841 due to the Federal government as of the first installment computation period ending September 15, 2023. The liability was paid in fiscal year 2024, by the Commonwealth Transportation Board from the related earnings of the Series 2018 bond proceeds.

Rebate liability on bonds of the Virginia Public Building Authority (nonmajor governmental fund) issued under its Public Facilities Revenue Bond Program is payable from earnings on related bond funds and funds of the Commonwealth. During fiscal year 2024, an arbitrage rebate calculation for the Virginia Public Building Authority's Public Facilities Revenue Bonds, Series 2022A identified that an arbitrage rebate liability had accrued and that a payment of \$9.3 million was due to the Federal government in fiscal year 2024. The liability was paid in fiscal year 2024 by the Virginia Public Building Authority from the related earnings of the Series 2022A bond proceeds.

Rebate liability on bonds of the VPSA (major component unit) issued under its Pooled Bond Programs is payable from earnings on related bond funds and from local issuers whose local school bonds were purchased by the VPSA. During fiscal year 2024, no rebate payments were owed on VPSA bonds issued under its Pooled Bonds Programs. Rebate liability on notes of the VPSA issued under its School Technology and Security Notes Program is payable from earnings on related note funds and funds of the Commonwealth. During fiscal year 2024, a final arbitrage rebate calculation for VPSA's School Technology and Security Notes, Series VII identified an arbitrage rebate liability payment of \$315,261 due to the Federal government in fiscal year 2024. The liability was paid in fiscal year 2024 by the VPSA. The Virginia Department of Education reimbursed the VPSA in fiscal year 2024.

Rebatable arbitrage need only be calculated for tax purposes every fifth year that debt is outstanding. Consistent with the modified accrual basis of accounting, it is not recognized as a liability in governmental funds until amounts actually become due

and payable; however, a liability is recognized in accrual basis government-wide statements as soon as the underlying event has occurred. Accordingly, as of June 30, 2024, the Virginia Resources Authority (Major component unit) has recognized a liability of \$2.7 million.

Amounts remitted to the Federal government for rebate liability are generally paid from earnings derived from the issue. However, if all proceeds have been expended and depending on the type of issue, it may be necessary to use project revenues or general or non-general fund appropriations to satisfy any rebate liability. During fiscal year 2024, no rebate payments were owed on the Commonwealth's Virginia College Building Authority 21st Century or Pooled Bond Programs or the bonds of the Virginia Port Authority.

Long-term Leases

The Commonwealth leases buildings, equipment, and land under various agreements that are accounted for as long-term leases under GASB Statement No. 87, *Leases*. The lease agreements are for various terms and all leases contain nonappropriation clauses indicating that continuation of the lease is subject to funding by the General Assembly. The Commonwealth has recorded \$26.8 million of variable payments for leases. These amounts are recognized as an expense in the period in which the obligation for those payments is incurred.

Presented in the following tables are repayment schedules for long-term lease liabilities as of June 30, 2024.

Long-term Lease Liabilities			
Governmental Funds			
June 30, 2024

Long-term Subscription-Based Information Technology Arrangements

The Commonwealth has entered into contractual agreements with various vendors that convey control of the right-to-use another entity's IT asset, alone, or in conjunction with a tangible capital asset in an exchange or exchange-like transaction under GASB Statement No. 96, *Subscription-Based Information Technology Arrangements* (SBITAs). The Commonwealth has a variety of variable payment clauses within its SBITAs, including variable payments based on future performance, usage of the underlying asset, number of software licenses, or hours of access necessary. Such amounts are recognized as an expense in the period in which the obligation for those payments is incurred. During the year, the Commonwealth recorded \$18.8 million for variable payments related to a SBITA.

Presented in the following tables are repayment schedules for long-term SBITA liabilities as of June 30, 2024.

Notes Payable

Notes Payable consist of several items as shown in the following schedule (dollars in thousands):

Primary Government

Installment Notes from Direct Borrowings	\$ 89,457
Total Primary Government	89,457

Component Units

Virginia Public School Authority	195,335
Nonmajor Component Units	1,529,896
Nonmajor Component Units from Direct Borrowings	128,668
Installment Notes from Direct Borrowings	220,229
Subtotal (excluding Foundations)	2,074,128
Foundations:	
Notes Payable	263,270
Subtotal - Foundations	263,270
Total Component Units	2,337,398
Total Notes Payable	\$ 2,426,855

The Virginia Public School Authority (major component unit) notes of \$195.3 million are for the School Technology and Security Notes Program. The note proceeds were used to finance technology equipment purchases and to make grants to school divisions for the purchase of security equipment. The notes will be repaid from appropriations to be made by the Virginia General Assembly from the Literary Fund (major special revenue).

An additional amount of \$1.5 billion is comprised primarily of higher education institutions' (nonmajor component units) promissory notes with the Virginia College Building Authority (VCBA) (major component unit) to finance the construction of various higher education facilities pursuant to the Pooled Bond Program. Interest rates range from 0.5 percent to 5.6 percent and shall be paid semi-annually and the planned interest payments total \$376.6 million. Additionally, in accordance with the American Recovery and Reinvestment Act, the Commonwealth expects to receive a Build America Bonds (BABs) interest subsidy to reimburse interest payments of \$11.6 million. The final principal payment is due in fiscal year 2054.

University of Virginia (nonmajor), Virginia Commonwealth University Health System Authority (Authority) (a blended component unit of the Virginia Commonwealth University – nonmajor component unit), and George Mason University (nonmajor) reported notes payable of \$599,050, \$60.1 million, and \$68.0 million, respectively. For additional information pertaining to these direct borrowings, refer to the separately issued financial statements. In addition, the Hampton Roads Sanitation District Commission (nonmajor component unit) reported notes payable of \$100.0 million.

Various foundations (nonmajor component units) have notes outstanding as of year-end. The purpose of a majority of these notes is for property acquisition, working capital, and construction. Future principal payments as of June 30, 2024, are shown in the following table (dollars in thousands).

Foundations' Notes Payable (Component Units) (1)	
Maturity	Principal
2025	\$ 32,870
2026	19,776
2027	12,164
2028	15,833
2029	15,369
Thereafter	167,258
Total	\$ 263,270

Installment purchase obligations have been entered into by agencies and institutions of the Commonwealth. These agreements, other than those in the component units and certain institutions of higher education, contain nonappropriation clauses indicating that continuation of the installment purchase obligations is subject to funding by the General Assembly. Installment purchase obligations represent \$309.7 million of the total outstanding debt of the Commonwealth. Presented in the

following tables are repayment schedules for installment purchase obligations as of June 30, 2024.

2026	(240,556)	10,401,839	10,161,283
2027	4,660,123	10,447,025	15,107,148
2028	5,240,062	10,435,163	15,675,225
2029	4,881,800	10,410,308	15,292,108
2030-2034	11,502,878	52,383,061	63,885,939
2035-2039	(5,718,238)	54,362,131	48,643,893
2040-2044	(2,058,257)	56,421,371	54,363,114
2045-2049	6,700,642	56,123,888	62,824,530
2050-2054	22,763,866	52,000,944	74,764,810
2055-2059	46,974,521	42,037,314	89,011,835
2060-2064	82,579,224	23,394,517	105,973,741
2065-2069	34,053,379	1,620,513	35,673,892
Total	<u>\$220,229,362</u>	<u>\$390,389,102</u>	<u>\$610,618,464</u>

The foundations (nonmajor component units) had no installment purchase obligations as of June 30, 2024.

On May 23, 2016, the Virginia Department of Transportation (VDOT) (primary government) and Chesterfield County (County) signed a memorandum of understanding concerning payment of interest relating to the County's contribution to VDOT for the construction of the Powhite Parkway Extension Project. The parties agreed that the interest to be paid by VDOT on the County's contribution to the construction of the Powhite Parkway Extension is \$18.5 million. The interest requirement paid during fiscal year 2024 totaled \$99,185. There is no interest payable outstanding at June 30, 2024.

Lottery Prizes Payable

Lottery prizes are paid in 20, 25, 26, or 30 installments. The first installment is paid on the day the prize is claimed. The subsequent annual payments are funded with U.S. Treasury STRIPS purchased by the Virginia Lottery. For Life prizes payable represent estimated prizes payable monthly, quarterly or annually for the life of the winner based on life expectancy tables from the Virginia Bureau of Insurance, and funded with a pool of U.S. Treasury STRIPS.

Lottery prizes payable represent the future annual prize payments valued at cost plus accrued interest (current value of securities held to maturity) of the assets funding the payments.

Lottery prizes payable for the fiscal year ended June 30, 2024, are shown in the following table:

	Jackpot	Win For Life	Total
Due within one year	\$ 7,144,263	\$ 5,964,629	\$ 13,108,892
Due in subsequent years	<u>104,489,794</u>	<u>75,122,929</u>	<u>179,612,723</u>
Total (current value)	111,634,057	81,087,558	192,721,615
Add: Interest to Maturity	<u>75,613,942</u>	<u>31,257,442</u>	<u>106,871,384</u>
Lottery Prizes Payable at Maturity	<u>\$ 187,247,999</u>	<u>\$ 112,345,000</u>	<u>\$ 299,592,999</u>

Educational Benefits Payable

The Virginia College Savings Plan administers the Defined Benefit 529 Program, which consists of two savings options: Prepaid529 and Tuition Track Portfolio. Prepaid529 services contracts that provide for full future tuition and mandatory fee payments at Virginia's higher education institutions and differing payouts at private or out-of-state institutions using actuarially determined amounts. Prepaid529 is closed to new contracts. The Tuition Track Portfolio allows for the purchase of units to be redeemed for future tuition costs. The value of a unit is tied to the average tuition inflation rate of Virginia four year institutions.

As of June 30, 2024, educational benefits payable of \$1.3 billion have been recorded for the Defined Benefit 529 program on the statement of net position for the actuarially determined present value of future obligations anticipated for payment of benefits and administrative expenses for the Defined Benefit 529 program. In addition, a receivable in the amount of \$52.7 million has been recorded to reflect the actuarially determined present value of future payments anticipated from contract holders.

28. OTHER REVENUE

The following table (dollars in thousands) summarizes Other Revenue for the fiscal year ended June 30, 2024.

	Assessments and Receipts for Support of Special Services	Fines, Forfeitures, Court Fees, Penalties, and Escheats	Receipts from Cities, Counties, and Towns	Private Gifts, Grants, and Contracts	Sales of Property
Primary Government:

Total Primary Government	<u>\$ 50,822</u>	<u>\$ 4,393</u>	<u>\$ 1,542,176</u>	<u>\$ 3,231,223</u>

Note (1): \$77,745 (dollars in thousands) and \$404,776 (dollars in thousands) are related to prior year expenditures refunded in the current fiscal year for the General Fund and Federal Trust (major special revenue), respectively, and \$27,120 (dollars in thousands) is related to localities' share of capital funding for the Washington Metropolitan Area Transit Authority in the Commonwealth Transportation Fund (major special revenue). \$236,127 (dollars in thousands) is related to proceeds from unclaimed property in the Unclaimed Property Fund (nonmajor governmental), \$185,542 (dollars in thousands) is related to consumer victim restitution settlement, indirect costs, reimbursable employee benefits, proceeds from sale of surplus property, law enforcement services and court collection fees in the Other Special Revenue Fund, \$123,980 (dollars in thousands) and \$70,657 (dollars in thousands) are related to opioid abatement settlement, welfare activity receipts and prior year expenditures refunded in the current fiscal year for the Health and Social Services Special Revenue Fund, and the remaining \$132,461 (dollars in thousands) is related to other miscellaneous activities in the nonmajor governmental funds.

29. TAX ABATEMENTS

GASB Statement No. 77, *Tax Abatements*, requires disclosures to be made for tax abatements. These arise from agreements between the Commonwealth and taxpayers and result in reduced tax revenue when the taxpayer promises to provide economic benefits to the Commonwealth. As of June 30, 2024, the Commonwealth participates in the following tax abatement programs in excess of \$1.0 million. There are no provisions for recapturing abated taxes since the requirements must be met prior to receiving the abatement.

- The Retail Sales and Use Tax Data Center Exemptions are intended to attract data centers to the Commonwealth pursuant to Section 58.1-609.3(18) of the *Code of Virginia*. Qualifying entities may purchase or lease certain computer equipment, enabling software and other enabling hardware for use in the data center exempt from the retail sales and use tax. Each recipient's retail sales and use taxes are reduced by being able to purchase qualifying items for use in the data center without having to pay the retail sales and use tax on the purchase price. The amount of the abatement for each recipient is determined by multiplying the purchase price of the qualifying computer equipment, enabling software and other enabling hardware purchased by the recipient by the rate of the retail sales and use tax that would be imposed on the purchase if the exemption was not available. The rate of the retail sales and use tax is 6.0 percent in the Northern Virginia, Hampton Roads, and Central Virginia regions; 7.0 percent in the Historic Triangle region; 6.3 percent in the city of Danville and the counties of Charlotte, Gloucester, Halifax, Henry, Northampton, Patrick, and Pittsylvania; and 5.3 percent in the remainder of the state. The exemption is available for data centers that (i) are located in a Virginia locality; (ii) result in a new capital investment on or after January 1, 2009, of at least \$150.0 million; and (iii) result in the creation on or after July 1, 2009, of at least 50 new jobs by the data center operator and the tenants of the data center, collectively, associated with the operation or maintenance of the data center provided that such jobs pay at least one and one-half times the prevailing average wage in that locality. The requirement of at least 50 new jobs is reduced to 10 new jobs if the data center is located in a distressed locality at the time of the execution of a memorandum of understanding with the Virginia Economic Development Partnership Authority (nonmajor component unit). Additionally, the requirement of a \$150.0 million capital investment is reduced to \$70.0 million for data centers that qualify for the reduced jobs requirement. Effective July 1, 2012, the exemption was extended to purchases and leases made by tenants of a data center that meets the requirements of the data center exemption.

In order to qualify for the exemption, the data center operator must enter into a memorandum of

understanding with the Virginia Economic Development Partnership Authority. The exemption is scheduled to sunset June 30, 2035. The amount of abated taxes for fiscal year 2024 is estimated to be \$732.8 million.

- The Motion Picture Production Tax Credit is intended to encourage the filming of motion picture productions in the Commonwealth. Pursuant to Section 58.1-439.12:03 of the *Code of Virginia*, a motion picture production company with qualifying expenses of at least \$250,000 may abate its individual income tax or corporate income tax liability by the amount of the Motion Picture Production Tax Credit. The amount of the tax credit is equal to (i) 15.0 percent of the production company's qualifying expenses or (ii) 20.0 percent of such expenses if the production is filmed in an economically distressed area of the Commonwealth. In addition to the credit for the qualifying expenses incurred by a motion picture production company, such company may receive an Additional Virginia Resident Credit and an Additional Virginia Resident First-Time Industry Employee Credit. The Additional Virginia Resident Credit equals (i) 10.0 percent of the total aggregate payroll for Virginia residents employed in connection with the production of a film in Virginia when total production costs in Virginia are at least \$250,000, but not more than \$1.0 million or (ii) 20.0 percent of the total aggregate payroll of such residents when total production costs in Virginia exceed \$1.0 million. The Additional Virginia Resident First-Time Industry Employee Credit is equal to 10.0 percent of the total aggregate payroll for Virginia residents employed for the first time as actors or members of a production crew in connection with the production of a film in Virginia.

The Motion Picture Production Tax Credit is a refundable tax credit. Therefore, if the amount of credit that a company is allowed to claim exceeds the company's tax liability for the taxable year, the excess amount of credit will be refunded to the company. Companies must have a memorandum of understanding with the Virginia Tourism Authority (nonmajor component unit) in order to participate in this program.

The credit is scheduled to sunset January 1, 2027. The annual cap on the amount of credits granted for a fiscal year is \$6.5 million, and this amount is expected to be claimed annually. While a motion picture production company may receive approval within a given year, the credits may not be claimed by the taxpayer until at the earliest, the filing of a return. The filing of a return often occurs in a fiscal year subsequent to the year during which a credit is granted. In addition, the Virginia Tourism Authority is allowed to issue credits and a taxpayer can claim credits in future fiscal years subject to certain conditions. Because of these timing differences between when tax credits are granted and when they are claimed, the credits claimed in a fiscal year may fluctuate compared to the \$6.5

million annual cap. For fiscal year 2024, \$15.0 million of income tax was abated.

- The Retail Sales and Use Tax Entitlement to Tax Revenues from Tourism Projects is intended to encourage the development of certain tourism projects by assisting the developer in (i) obtaining gap financing needed to meet a shortfall in project funding between the expected costs of the project and the debt and equity capital provided by the developer and (ii) making payments of principal and interest on the gap financing.

If the project qualifies for the entitlement, the developer is entitled to an amount equivalent to a one percent state sales tax on transactions taking place on the premises of the tourism project. The entitled sales tax revenues must be applied to payments of principal and interest on the gap financing. The entitlement continues until the gap financing is paid in full.

Section 58.1-3851.1 of the *Code of Virginia* imposes requirements on both the local government and the developer in order for the project to qualify for the entitlement. The locality must have (i) established a tourism zone pursuant to Section 58.1-3851 of the *Code of Virginia*; (ii) established a tourism plan under the guidelines of the Virginia Tourism Authority; (iii) authorized a tourism project that meets a deficiency identified in the tourism plan; and (iv) dedicated an amount equivalent to a one percent sales tax on transactions taking place on the premises of the tourism project to the payment of principal and interest on the gap financing. The developer must have (i) secured a minimum of 70.0 percent of funding for the project in place through debt or equity; and (ii) entered into a performance agreement with the local economic development authority to pay an access fee equivalent to a one percent sales tax on transactions taking place on the premises of the tourism project to the payment of principal and interest on the gap financing. In order for the project to qualify for the entitlement, the project must be certified by the State Comptroller. The amount of abated taxes for fiscal year 2024 was \$1.3 million.

30. PRIZES AND CLAIMS

The following table summarizes Prizes and Claims Expense for the fiscal year ended June 30, 2024.

(Dollars in Thousands)

	Insurance Claims	Lottery Prize Expense	Total Prizes and Claims
Proprietary Funds:			
Major Enterprise Funds:			
Virginia Lottery	\$ —	\$ 4,225,206	\$ 4,225,206
Unemployment Compensation	275,429	—	275,429
Nonmajor Enterprise Funds	553,270	—	553,270
Total Enterprise Funds	<u>\$ 828,699</u>	<u>\$ 4,225,206</u>	<u>\$ 5,053,905</u>
Internal Service Funds	<u>\$ 2,016,592</u>	<u>\$ —</u>	<u>\$ 2,016,592</u>

31. DEPRECIATION AND AMORTIZATION

The following table summarizes Depreciation and Amortization Expense as of June 30, 2024.

(Dollars in Thousands)

	Depreciation	Amortization	Total Depreciation and Amortization
Proprietary Funds:			
Major Enterprise Funds:			
Virginia Lottery	\$ 4,628	\$ 5,838	\$ 10,466
Virginia College Savings Plan	133	1,686	1,819
Nonmajor Enterprise Funds	13,616	39,447	53,063
Total Enterprise Funds	<u>\$ 18,377</u>	<u>\$ 46,971</u>	<u>\$ 65,348</u>
Internal Service Funds	<u>\$ 28,339</u>	<u>\$ 75,902</u>	<u>\$ 104,241</u>

32. OTHER EXPENSES

The following table summarizes Other Expenses for the fiscal year ended June 30, 2024.

(Dollars in Thousands)

	Grants and Distributions To Localities	Expendable Equipment/ Improvements	Other (1)	Total Other Expenses
Proprietary Funds:				
Major Enterprise Funds:				
Virginia College Savings Plan	\$ —	\$ 330	\$ 2,926	\$ 3,256
Nonmajor Enterprise Funds	59	1,454	3,192	4,705
Total Enterprise Funds	<u>\$ 59</u>	<u>\$ 1,784</u>	<u>\$ 6,118</u>	<u>\$ 7,961</u>
Internal Service Funds	<u>\$ 2,040</u>	<u>\$ 2,195</u>	<u>\$ 27,846</u>	<u>\$ 32,081</u>
Fiduciary Funds:				
Pension and Other Employee Benefit Trust Funds (2)	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 3,904</u>	<u>\$ 3,904</u>

Note (1): \$2,926 (dollars in thousands) can be attributed to the Defined Benefit 529 Program for the SOAR scholarship program, Access and Affordability program, and other promotional scholarships. \$26,700 (dollars in thousands) can be attributed to expenses related to insurance program expenses in the Risk Management internal service fund.

Note (2): Fiduciary expenses of \$3,904 (dollars in thousands) are not included in the Government-wide Statement of Activities.

33. OTHER NON-OPERATING REVENUE/EXPENSES

The following table summarizes Other Non-Operating Revenue/Expenses for the fiscal year ended June 30, 2024.

(Dollars in Thousands)

	Gain/(Loss) on Sale of Capital Assets	Securities Lending	Interest Expense	Other (1)	Total Other Non- Operating Revenue/ (Expenses)
Proprietary Funds:					
Major Enterprise Funds:					
Virginia Lottery	\$ 35	\$ (42)	\$ (463)	\$ 993	\$ 523
Virginia College Savings Plan	(50)	(47)	(113)	217	7
Unemployment Compensation	—	—	—	1,119	1,119
Nonmajor Enterprise Funds	(27)	(1,809)	(15,214)	10,776	(6,274)
Total Enterprise Funds	<u>\$ (42)</u>	<u>\$ (1,898)</u>	<u>\$ (15,790)</u>	<u>\$ 13,105</u>	<u>\$ (4,625)</u>
Internal Service Funds	<u>\$ 2,721</u>	<u>\$ (3,857)</u>	<u>\$ (35,361)</u>	<u>\$ 1,031</u>	<u>\$ (35,466)</u>

Note (1): Other Non-Operating Revenue/Expenses of the nonmajor enterprise funds are primarily comprised of amounts reported by Alcoholic Beverage Control.

34. TRANSFERS

The following table summarizes Transfers In and Transfers Out for the fiscal year ended June 30, 2024 (dollars in thousands).

Transfers In (Reported In):									
Transfers Out (Reported In):	General	Commonwealth Transportation	Federal Trust	Literary	Nonmajor Governmental Funds	Virginia Lottery	Nonmajor Enterprise Funds	Internal Service Funds	Total Primary Government
Primary Government									
General	\$ —	\$ 327,724	\$ —	\$ —	\$ 478,361	\$ —	\$ —	\$ —	\$ 806,085
Major Special Revenue Funds:									
Commonwealth Transportation	28,745	—	—	—	539,460	—	—	388	568,593
Federal Trust	—	6,431	—	—	3,956	—	676	—	11,063
Nonmajor Governmental Funds	54,769	130	3,091	200,000	81,913	139	—	—	340,042
Major Enterprise Funds:									
Virginia Lottery	934,099	—	—	20,538	370	—	—	—	955,007
Virginia College Savings Plan	292	—	—	—	—	—	—	—	292
Unemployment Compensation	—	—	3,402	—	—	—	—	—	3,402
Nonmajor Enterprise Funds	253,047	—	—	—	15,212	—	—	—	268,259
Internal Service Funds	1,000	—	—	—	16,864	—	—	—	17,864
Total Primary Government	<u>\$ 1,271,952</u>	<u>\$ 334,285</u>	<u>\$ 6,493</u>	<u>\$ 220,538</u>	<u>\$ 1,136,136</u>	<u>\$ 139</u>	<u>\$ 676</u>	<u>\$ 388</u>	<u>\$ 2,970,607</u>

Transfers are used to (1) move revenues from the fund that the *Code of Virginia* or budget requires to collect them to the fund that the *Code of Virginia* or budget requires to expend them; (2) move receipts restricted for debt service from the funds holding the resources to the debt service fund as principal and interest payments become due; and (3) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

As of June 30, 2024, the transfers executed pursuant to statutory or budgetary requirements are predominantly comprised of transfers of \$934.1 million from Virginia Lottery (major enterprise) to the General Fund, a transfer of \$252.5 million from the Alcoholic Beverage Control Fund (nonmajor enterprise) to the General Fund, and a transfer of \$200.0 million from the Unclaimed Property Fund (nonmajor governmental) to the Literary Fund (major special revenue).

As discussed previously, transfers to move receipts restricted for debt service included a transfer from the General Fund of \$404.0 million, a transfer from the Commonwealth Transportation Fund (major special revenue) of \$228.4 million, and a transfer from a Capital Project Fund (nonmajor governmental) of \$79.4 million.

Transfers for transportation related activities include transfers from the General Fund of \$327.7 million to the Commonwealth Transportation Fund (major special revenue) and a transfer from the Commonwealth Transportation Fund to the Capital Project Fund (nonmajor governmental) of \$293.1 million.

35. ENDOWMENTS

Donor-restricted endowments reside primarily within the higher education institutions. The net appreciation available for expenditure is \$2.3 billion as of June 30, 2024. Of this amount, \$3.0 million is reported as unrestricted net position and the remainder is reported as restricted net position. The *Code of Virginia*

authorizes acceptance of donations. The governing boards of these entities and the donor agreements determine whether net appreciation can be spent and the accepted spending rate. These policies are entity specific and vary with each institution.

36. CASH FLOWS – ADDITIONAL DETAILED INFORMATION

The following table (dollars in thousands) summarizes specific cash flows for the fiscal year ended June 30, 2024.

	Virginia Lottery	Virginia College Savings Plan	Unemployment Compensation	Nonmajor Enterprise Funds	Total Enterprise Funds	Internal Service Funds
Cash Flows Resulting from:						
Payments for Prizes, Claims, and Loss Control:						
Lottery Prizes	\$ (4,246,664)	\$ —	\$ —	\$ —	\$ (4,246,664)	\$ —
Claims and Loss Control	—	—	(264,100)	(562,202)	(826,302)	(1,928,873)
Total	<u>\$ (4,246,664)</u>	<u>\$ —</u>	<u>\$ (264,100)</u>	<u>\$ (562,202)</u>	<u>\$ (5,072,966)</u>	<u>\$ (1,928,873)</u>
Other Operating Revenue:						
Other Operating Revenue	\$ —	\$ 4	\$ —	\$ 8,894	\$ 8,898	\$ 82
Total	<u>\$ —</u>	<u>\$ 4</u>	<u>\$ —</u>	<u>\$ 8,894</u>	<u>\$ 8,898</u>	<u>\$ 82</u>
Other Operating Expense:						
Other Operating Expenses (1)	\$ —	\$ (2,926)	\$ —	\$ (36,812)	\$ (39,738)	\$ (31,631)
Total	<u>\$ —</u>	<u>\$ (2,926)</u>	<u>\$ —</u>	<u>\$ (36,812)</u>	<u>\$ (39,738)</u>	<u>\$ (31,631)</u>
Other Noncapital Financing Receipt Activities:						
Advances/Contributions from the Commonwealth	\$ —	\$ 2,000	\$ —	\$ 54,755	\$ 56,755	\$ 1,668
Receipts from Taxes	—	—	—	352,967	352,967	—

Games of Skill Proceeds, Retail Applications, and Rents	994	—	—	—	994	—
Interest	—	—	—	—	—	—
Total	<u>\$ 994</u>	<u>\$ 2,000</u>	<u>\$ 1,119</u>	<u>\$ 407,722</u>	<u>\$ 411,835</u>	<u>\$ 1,668</u>
Other Noncapital Financing Disbursement Activities:						
Repayments of Advances/Contributions from the Commonwealth	\$ —	\$ —	\$ —	\$ (58,007)	\$ (58,007)	\$ (25,173)
Other Noncapital Financing Disbursement Activities	—	—	—	(340)	(340)	(400)
Total	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ (58,347)</u>	<u>\$ (58,347)</u>	<u>\$ (25,573)</u>
Other Capital and Related Financing Receipt Activities:						
Interest	\$ —	\$ —	\$ —	\$ 1,587	\$ 1,587	\$ —
Total	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 1,587</u>	<u>\$ 1,587</u>	<u>\$ —</u>

Note (1): \$2,926 (dollars in thousands) can be attributed to SOAR scholarship expenses, Access and Affordability program, and other scholarships and awards. Also, \$28,653 (dollars in thousands) can be attributed to expenses related to insurance program expenses in the Risk Management internal service fund and \$2,038 (dollars in thousands) can be attributed to payments in lieu of taxes in the Property Management internal service fund.

37. TOBACCO SETTLEMENT AND SECURITIZATION

On November 23, 1998, 46 states' Attorneys General and the major tobacco companies signed a proposed settlement that reimburses states for smoking-related medical expenses paid through Medicaid and other healthcare programs. At the time of the settlement, it was estimated that the Commonwealth could receive approximately \$4.1 billion over the duration of the settlement. The settlement was approved in a Consent Decree in December 1998. On March 29, 1999, the General Assembly enacted a law approving the establishment of the Tobacco Region Revitalization Commission (Commission) (nonmajor component unit), in compliance with the Consent Decree, to help communities in Virginia hurt by the decline of tobacco.

The Commission was established for the purposes of determining the appropriate recipients of monies in the Tobacco Indemnification and Community Revitalization Fund. The monies are to be used to provide payments to tobacco farmers as compensation for the tobacco equipment and barns and lost tobacco production opportunities associated with a decline in quota. The monies are also to be used to revitalize tobacco dependent communities.

The General Assembly also created the Virginia Foundation for Healthy Youth (Foundation) (nonmajor component unit). The purpose of the Foundation is to determine the appropriate recipients of monies in the Virginia Tobacco Settlement Fund. The Foundation will also be responsible for distributing monies for the purposes provided in the legislation. Disbursements can be made to assist in financing efforts to restrict the use of tobacco products by minors, through educational and awareness programs describing the health effects of tobacco use on minors, and laws restricting the distribution of tobacco products to minors. Monies from the fund can also be used to assist in financing efforts to reduce childhood obesity through such means as educational and awareness programs, implementing evidence based practices, and assisting schools and communities with policies and programs.

Additionally, the General Assembly created two special non-reverting funds. The Tobacco Settlement monies were accounted for in these funds and in the General Fund. Of the Settlement monies, 50.0 percent was deposited into the Tobacco Indemnification and Community Revitalization Fund at the Commission and 8.5 percent is deposited into the Virginia Tobacco Settlement Fund at the Foundation. The remaining 41.5 percent is reported in the General Fund.

Pursuant to Purchase and Sale Agreements executed in 2005 and 2007, the Commonwealth, acting as an agent on behalf of the Commission, sold the Commission's future right, title and interest in the Tobacco Settlement Revenues (TSRs) to the Tobacco Settlement Financing Corporation (Corporation) (related organization).

Consideration paid by the Corporation to the Commission for TSRs consisted of a cash amount deposited into an endowment to fund the long-term

spending plan approved by the Commission. Bonds issued by the Corporation to finance the purchase price are asset-backed instruments secured solely by the Corporation's right to receive TSRs. At the time of issuance these revenues were expected to produce sufficient funds to repay the bond obligations issued by the Corporation.

The Commission is a nonmajor component unit of the Commonwealth, and the Corporation is disclosed as a related organization.

38. PUBLIC-PRIVATE AND PUBLIC-PUBLIC PARTNERSHIP ARRANGEMENTS (PPPs)

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, supersedes GASB Statement No. 60, *Service Concession Arrangements*, and describes a PPP as an arrangement in which a government contracts with an operator to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset for a period of time in an exchange or exchange-like transaction.

SERVICE CONCESSION ARRANGEMENTS (SCAs)

GASB Statement No. 94 describes the criteria for when an arrangement is classified as an SCA. The basic criteria are as follows: the operator of the capital asset owned by the transferor has the right to provide services in exchange for significant consideration; the operator's revenue must come from a third party; the transferor has the ability to modify or approve which services the operator is to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; the transferor is entitled to significant residual interest in the service utility of the underlying asset at the end of the arrangement.

Primary Government

The Commonwealth of Virginia has five SCAs as of June 30, 2024: Pocahontas 895, the 495 Express Lanes, Elizabeth River – Midtown Tunnel, the 95 Express Lanes, and the I-66 Outside the Beltway Express Lanes. They are all related to highway construction and operation and were established per the Public-Private Transportation Act (PPTA) of 1995, as amended. PPTA project goals are to provide highway projects to the public in a timely and cost-effective manner with private funding and support.

Pocahontas 895

On June 21, 2006, the Pocahontas Parkway Association (Association) which was previously reported as a blended component unit of the Virginia Department of Transportation (VDOT) signed an agreement transferring all assets and rights of the Association to Transurban 895 LLC (Transurban). In exchange for the existing toll road and other assets, Transurban transferred sufficient funds and securities to

pay or defease all outstanding bonds of the Association and pay all other outstanding obligations owed to VDOT. Additionally, Transurban agreed to construct an enhancement to the original toll road, and this enhancement was completed in 2011.

During fiscal year 2014, Transurban transferred its debt and equity interest in Pocahontas 895 to Macquarie Capital Bank. In December 2016, Macquarie Capital Bank closed on the sale of the tolling rights to Globalvia. Globalvia acquired the company that had at that time, the agreement with VDOT to develop, finance, operate, manage the tolls, and maintain Route 895-Pocahontas Parkway. The concession agreement period will end in 2105. Capital assets of \$337.2 million and deferred inflows of \$466.2 million are included in the government-wide financial statements. During the 99-year agreement term, VDOT will have fee title or good and valid interest in the asset. VDOT retains the right of inspection of the asset and has outlined maximum toll charges and increases in the terms of the agreement. The revenue source for the concessionaire will be toll collections which will be used for maintenance, operating and return on investment for constructing the project. At the end of the term, the asset must be returned in new condition and control of and rights to operate the facilities will revert back to VDOT. No contractual liabilities exist for this arrangement as of June 30.

495 Express Lanes

On December 19, 2007, VDOT signed an 80-year public-private partnership agreement with Capital Beltway Express LLC to build new express lanes to provide users with a faster and more reliable travel option. The construction of the express lanes was completed in November 2012. Capital assets of \$641.5 million and deferred inflows of \$897.2 million are included in the government-wide financial statements.

During the 80-year agreement, VDOT maintains regulatory control and jurisdiction of the express lanes. VDOT will have fee title or good and valid interest in the express lanes. The revenue source for the concessionaire will be toll collections which will be used for maintenance, operating and return on investment for constructing the project. No contractual liabilities exist for this arrangement as of June 30.

On September 30, 2021, the agreement was amended and restated to add the scope of project work related to the northern extension of the 495 Express Lanes (495 NEXT), which is an approximately 2-mile extension of the existing express lanes. As of June 2024, 495 NEXT is undergoing construction.

Elizabeth River – Midtown Tunnel

On December 5, 2011, VDOT signed a 58-year public-private partnership agreement with Elizabeth River Crossings OPCO, LLC to design, build, finance, operate, and maintain a new Midtown Tunnel, provide improvements to the existing Midtown Tunnel and the Downtown Tunnel, and to provide various extensions and improvements of the Martin Luther King Jr. (MLK) Freeway and I-264. All project components reached

substantial completion in September 2017. Capital assets of \$832.9 million and deferred inflows of \$796.6 million are included in the government-wide financial statements. During the agreement, Elizabeth River Crossings OPCO, LLC will operate and maintain the road. The revenue source for the concessionaire will be toll collections, excluding the MLK Freeway, which will be used for maintenance, operating and return on investment for constructing the project. At the end of the 58-year term, the tunnel must be returned in new condition and control of and rights to operate the facilities will revert back to VDOT.

In July 2017, VDOT issued a Department Project Enhancement directive for Elizabeth River Crossings OPCO LLC, to design and build noise barrier walls on I-264. After the Preliminary Field Inspection Plans were developed, VDOT agreed to complete the project due to lower costs. The current funds allocated to the project equal \$33.5 million. In addition to these project enhancements, the Federal Highway Administration (FHWA) has also required an annual traffic study for the Value Pricing Pilot Program (VPPP) to monitor driver behavior, traffic volume, transit ridership, air quality, and availability of funds for transportation programs. VDOT has completed Years one to eight of the ten year VPPP study.

95 Express Lanes

On July 31, 2012, VDOT signed a 73-year public-private partnership agreement with 95 Express Lanes LLC to build approximately 29 miles of Express Lanes on I-95 in Northern Virginia and add capacity to the existing high occupancy vehicle (HOV) lanes. The construction of the express lanes was completed in December 2014. During fiscal year 2016, the Commonwealth Transportation Board awarded a contract to design and construct an approximately 2.5-mile reversible extension of the 95 Express Lanes at the southern terminus in Stafford County. The construction was completed in October 2017 and resulted in an increased value of \$25.7 million to the 95 Express Lanes. Capital assets of \$448.3 million and deferred inflows of \$547.6 million are included in the government-wide financial statements.

During the agreement, 95 Express Lanes LLC will operate and maintain the road. The revenue source for the concessionaire will be toll collections which will be used for maintenance, operating and return on investment for constructing the project. At the end of the 73-year term, control of and the rights to operate the facilities will revert back to VDOT. The lanes will remain open for the public as long as the applicable tolls are paid. No contractual liabilities exist for this arrangement as of June 30.

On June 8, 2017, the agreement was amended and restated to include the scope of the project work for the I-395 northern extension, which is approximately 8-miles. The construction was completed in November 2019. In consideration for the rights granted by VDOT to 95 Express Lanes LLC, solely in respect of the I-395 Project, 95 Express Lanes LLC made an up-front payment to VDOT of \$15.0 million on the I-395 Project Service Commencement date. Deferred inflows of

\$14.0 million relating to the up-front payment are included in the fund financial statements. Additionally, VDOT will receive an annual transit investment payment that escalates at a rate of 2.5 percent per annum. Accordingly, accounts receivable of \$960.0 million and deferred inflows of \$960.0 million relating to the present value of the annual installment payments discounted at 2.5 percent are included in the fund financial statements. Capital assets of \$248.9 million and deferred inflows of \$280.3 million are included in the government-wide financial statements. No contractual liabilities exist for this arrangement as of June 30.

On April 18, 2019, an amended and restated Comprehensive Agreement was signed between VDOT and 95 Express Lanes LLC to add the scope of the project work for the Fredericksburg Extension. The Comprehensive Agreement was updated to include payments to VDOT. Two reversible high-occupancy toll lanes opened to traffic in August 2023 and all new access points opened in December 2023. At financial close on April 30, 2019, 95 Express Lanes LLC made a \$45.0 million Initial Permit Fee Buyout Payment. The Concessionaire also provided a right of way cost deposit of \$2.5 million and \$4.0 million for southbound Rappahannock River Crossing work overlap funding. Deferred inflows of \$47.4 million are included in the fund financial statements. VDOT received an additional \$65.9 million from 95 Express Lanes LLC at the additional financial close in July 2019, which is a sum of \$11.5 million Private Activity Bonds (PABs) payment and \$54.4 million design-build price protection benefits. Deferred inflows of \$61.0 million are included in the fund financial statements. The concessionaire will make \$232.0 million Final Permit Fee Buyout Payments in installments as set forth in the Amended and Restated Comprehensive Agreement. Accounts Receivable of \$212.0 million and deferred inflows of \$214.3 million are included in the fund financial statements. Capital assets of \$484.7 million and deferred inflows of \$496.8 million are included in the government-wide financial statements. No contractual liabilities exist for this arrangement as of June 30.

The total amounts reported for the 95 Express Lanes agreement are capital assets of \$1.2 billion, deferred inflows of \$2.6 billion, payments of \$132.4 million, and accounts receivables of \$1.2 billion.

I-66 Outside the Beltway Express Lanes

On December 8, 2016, VDOT signed a 50-year public-private partnership agreement (Agreement) with I-66 Express Mobility Partners LLC (EMP) to build 22.5 miles of new express lanes alongside three regular lanes from I-495 to University Boulevard in Gainesville, Virginia. The project also includes new and improved bus service and transit routes, new and improved park and ride lots, and interchange improvements to enhance safety and reduce congestion. Nine miles of the express lanes opened September 2022, and the remaining 13 miles opened November 2022.

EMP is required to pay VDOT a permit fee that consists of support for corridor improvements, revenue sharing, and transit funding payments. The support for corridor

improvements is to be paid as indicated in the Agreement. Amounts to be paid are contingent on actual toll revenues. At the end of the Agreement, any unpaid balance of these payments is to be forgiven or cancelled. The revenue sharing payments are calculated based on actual cumulative net present value of gross revenue at the end of each year of the agreement. The percentage of gross revenue to be paid increases in accordance with a five-tier revenue sharing scale. Revenue sharing payments do not have to be made if transit funding payments or support for corridor improvements are past due or unpaid. The transit funding payments will be payable in accordance with the schedule in the Agreement. If funds are insufficient to make scheduled transit funding payments at the time due, such payments will remain due and payable without interest charges. Accordingly, accounts receivable of \$468.9 million and deferred inflows of \$468.9 million, relating to the present value of the annual installment payments discounted at 4.9 percent are included in the fund financial statements.

EMP provided \$578.9 million during fiscal 2018, as an up-front concession payment to VDOT. In both fiscal years 2021 and 2022, VDOT received up-front payments of \$21.3 million to be used for transit investments, and deferred inflows of \$541.8 million are included in the fund financial statements. Capital assets of \$2.4 billion and deferred inflows of \$2.3 billion are included in the government-wide financial statements. During the 50-year Agreement, VDOT maintains regulatory control and jurisdiction of the express lanes. VDOT will have fee title or good and valid interest in the express lanes. The revenue source for the concessionaire will be toll collections which will be used for maintenance, operating and return on investment for constructing the project. At the end of the term, the asset must be returned in new condition and control of and rights to operate the facilities will revert back to VDOT. No contractual liabilities exist for this arrangement as of June 30.

The total amounts reported for the I-66 Outside the Beltway Express Lanes agreement are capital assets of \$2.4 billion, deferred inflows of \$3.3 billion, payments of \$621.5 million and accounts receivables of \$468.9 million.

Component Units

Aramark – Dining Services

During the year ended June 30, 2015, the University of Virginia (nonmajor) entered into an agreement with Aramark Educational Services, LLC (Aramark) for Aramark to provide dining services to the University. In return for use of University facilities, Aramark is required to make certain payments to the University and the University is required to provide certain repair and maintenance services related to the facilities during the term of the agreement. The University also receives a yearly minimum guarantee on dining and vending commissions and has a minimum guaranteed profit split on residential and athletics services regardless of gross sales. As of June 30, 2024, the University has accrued \$83.3 million in current and noncurrent receivables and

a \$139.4 million deferred inflow of resources related to the service concession arrangement.

The College of William & Mary (nonmajor) entered into an agreement with Aramark on July 1, 2023 for Aramark to provide dining services to the College. In return for use of College facilities, Aramark made an upfront payment to the College of \$10.0 million and the College is required to provide certain repair and maintenance services related to the dining facilities. The College also receives a profit split on all retail sales. As of June 30, 2024, the College recorded \$3.3 million in receivables and a \$13.3 million deferred inflow of resources related to the service concession arrangement.

OTHER PPPs

Other PPPs that do not meet the criteria to be reported as a SCA or a lease are discussed in this section.

The University of Virginia (nonmajor component unit) is a party to a limited number of other PPPs which primarily consists of the PPP to operate the John Paul Jones Arena for concerts and sporting events. Variable payments and other inflows of resources under PPPs are not included in the measurement of the related assets and deferred inflows of resources. Variable inflows amount to \$7.0 million for the period ended June 30, 2024. Radford University (nonmajor component unit) has PPPs for dining services and bookstore services. As of June 30, 2024, the University recorded \$1.3 million in noncurrent receivables and \$677,760 in deferred inflow of resources. George Mason University (nonmajor component unit) has a PPP for arena management services. As of June 30, 2024, the University recorded \$313,045 in current receivables and \$302,935 in deferred inflow of resources. Additional information regarding PPPs can be found in the separately issued financial statements of the institutions.

On July 1, 2023, the College of William & Mary (nonmajor) entered into a PPP agreement with Provident Group-Williamsburg Properties LLC to construct university housing and a dining facility. The project is in construction and is estimated to be completed in August 2025. As of June 30, 2024, the College recognized \$7.8 million in deferred inflow of resources to defease debt in relation to this agreement.

39. INFORMATION TECHNOLOGY INFRASTRUCTURE

With the exception of NTT DATA (NTT), the Commonwealth is into its sixth or seventh contract year, depending on when services commenced, with all of its current IT infrastructure service providers. This includes SAIC for Multi-Services Integrator (MSI) services, Atos for managed security services, Xerox for managed print services, Iron Bow for end-user computing services, Unisys for server and data center services, and Verizon for voice and data network services. During fiscal year 2024, the Commonwealth recompeted and entered into a new contract for mainframe services with Peraton. With a multi-services integrator (MSI) model in effect,

the Commonwealth will continuously pursue new and additional IT service providers to ensure that the Commonwealth has a competitive portfolio of IT suppliers that deliver modern cost-effective technology services. VITA is in the process of recompeting managed security services, with the intent of in-sourcing certain functions. Subsequent recompetes include end user computing, server storage and data center services, and lastly the multi-services integrator contracts. The contract terms range from three years to six years, with additional renewal options on each. Lastly, VITA anticipates to increase the portfolio of enterprise services provided to support the Commonwealth.

Expenses in fiscal year 2024 associated with the service providers were \$223.0 million, exclusive of amounts reported as lease payments and interest expense related to GASB Statement No. 87, *Leases* and GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. The Commonwealth expects to spend an additional \$363.4 million over the remaining life of these contracts with the current portfolio of suppliers, exclusive of long-term lease and long-term SBITA liabilities related to GASB Statements No. 87 and No. 96. The remaining life calculation does not include any unexecuted renewals that are listed in the contract.

40. CONTINGENCIES

A. Grants and Contracts

The Commonwealth has received federal grants for specific purposes that are subject to review and audit by the grantor agencies or their auditors. Claims against these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a federal audit may become a liability of the Commonwealth. The increased federal funding related to the COVID-19 pandemic could impact future liabilities.

Institutions of higher education (component units) and other state agencies are required to comply with various federal regulations issued by the Office of Management and Budget, if such agencies are recipients of federal grants, contracts, or other sponsored agreements. Failure to comply with certain requirements of these regulations may result in questions concerning the allowability of related direct and indirect charges pursuant to such agreements. It is believed that the ultimate disallowance pertaining to these regulations, if any, will be immaterial to the overall financial condition of the Commonwealth.

The U.S. Department of Health and Human Services (DHHS) Office of the Inspector General conducted a review and indicated that the Commonwealth's Statewide Indirect Cost Allocation Plan rates have allowed over-recoveries and

transfers in the internal service funds and portions of selected rebates. The Commonwealth computed a liability of \$56.7 million in fiscal year 2024 which is based on fiscal years 2023, 2022, and 2021 representing the amounts owed to the federal government for internal service fund over-recoveries and transfers, as well as the federal share of various rebates received. This amount has been reflected in the accompanying government-wide financial statements.

The Virginia Tourism Authority (nonmajor component unit) had unclaimed awards totaling \$2.6 million payable to awardees upon submission of proper claims for reimbursement for the Marketing Leverage Program, the DMO Marketing Program and the Special Events & Festivals Program. Additionally, property at the Virginia/Maryland border to be used for the Gateway Welcome Center was donated to the Authority in July 2008. The deed to the property includes a covenant requiring any or all land to revert to the U.S. Government should it become needed for national defense. The net book value of the property as of June 30, 2024 was \$806,600.

B. Litigation

The Commonwealth is named as a party in legal proceedings and investigations that occur in the normal course of governmental operations, some involving substantial amounts. It is not possible at the present time to estimate the ultimate outcome or liability, if any, of the Commonwealth in respect to the various proceedings; however, it is believed that any ultimate liability resulting from these suits or investigations will not have a material, adverse effect on the financial condition, fund activity, or cash flows of the Commonwealth.

C. Subject to Appropriation

Both the primary government and the discretely presented component units enter into agreements and issue debt secured solely by future appropriations from the General Fund of the Commonwealth. The primary government has leases and other agreements of such debt of \$4.1 billion. The discretely presented component units have such debt of \$5.9 billion.

D. Bailment Inventory

The Virginia Alcoholic Beverage Control Authority (ABC) houses and controls bailment inventory in the warehouse and is therefore responsible for the exercise of reasonable care to preserve the inventory until it is purchased by ABC or returned to the supplier. ABC uses the bailment system for payment of merchandise for resale. ABC initiates payments to the vendors based on shipments from the ABC warehouse to the retail stores, rather than receipt of invoice from the vendor. As of June 30,

2024, the bailment inventory was valued at \$88.7 million.

E. Loan Guarantees

The Virginia Small Business Financing Authority (VSBFA) (nonmajor component unit) has a loan guaranty program which provides guarantees up to the lesser of \$1.0 million, or 75.0 percent, of a bank loan for lines of credit and short-term working capital loans for small businesses as defined by Section 2.2-2285 of the *Code of Virginia*. The relationship of the Commonwealth to the issuer or issuers of the obligations are private banks that contact VSBFA to obtain guarantees if they deem it necessary to approve the loan. The VSBFA staff underwrites the request for guarantees and approves applications of \$1.0 million or less with subsequent ratification by the Board of Directors. The Board of Directors approves applications in excess of \$1.0 million. The maximum term of support for guarantees is up to five years for lines of credit and seven years for term loans. In the event the small business borrower fails to repay a loan guaranteed through the program, the originating bank lender exercises its rights against the collateral and the guarantors of the loan and proceeds from the sale of the collateral are applied to the loan. In the event the originating bank lender incurs a deficiency principal balance, the bank submits a claim to VSBFA under the program. If a claim payment is subsequently paid under the program, VSBFA retains the right to pursue collection from the borrower or the guarantor to the extent possible and provided that neither the borrower nor the guarantor has been adjudicated bankrupt. VSBFA submits collections to the Office of the Attorney General, Division of Debt Collection for legal action and collection of debt. As of June 30, 2024, the loan guaranty program has guarantees outstanding of \$7.8 million. There are no additional pending commitments to guarantees as of June 30, 2024.

GASB Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*, requires that certain information be disclosed regarding selected nonexchange financial guarantees. As of June 30, 2024, the VSBFA recognized a nonexchange financial guarantee liability of \$155,209. This is an increase of \$66,068 from the beginning balance of \$89,141. There were no required payments made during fiscal year 2024. Additionally, there have been no cumulative amounts paid on these outstanding loan guarantees nor are there any expected recoveries.

F. Regional Wet Weather Management Plan

Hampton Roads Sanitation District (HRSD) (nonmajor component unit) is party to a federal consent decree with the federal and state governments (the Consent Decree), which requires the HRSD to evaluate the wet weather capacity of the regional sewer system, including collection

systems owned by 14 of the localities which the HRSD serves in the Hampton Roads area. Based upon that evaluation, the HRSD, in consultation with the localities, is required to develop a regional wet weather management plan (RWWMP) for submittal to the federal and state environmental agencies for their approval.

The HRSD and the localities believe that addressing wet weather capacity issues from a regional perspective will result in the most affordable and cost-effective approach for rate payers throughout the region. Toward that end, the HRSD and the localities entered into a legally binding Memorandum of Agreement in 2014 (the MOA). The MOA commits HRSD to (1) develop the RWWMP in consultation with the localities, (2) fund the approved plan through a regional rate imposed on all regional ratepayers, (3) design and construct the necessary improvements, and (4) assume responsibility for wet weather capacity throughout the region in each area once the RWWMP is implemented. In exchange, the localities have agreed to (1) cooperate with the HRSD, (2) facilitate the construction of and accept ownership of any improvements which the HRSD may need to construct in the localities' systems, and (3) maintain the integrity of their systems to industry standards.

The Consent Decree and MOA also contemplate that the localities' obligation to maintain the integrity of their sewer systems to industry standards was embodied in a State administrative order. While the HRSD is preparing the RWWMP, the Consent Decree also requires the HRSD to implement approximately \$200.0 million in high priority capital system upgrade projects over the 10-year period between 2020 and 2030, and then another \$200.0 million in high priority sewer overflow control projects between 2030 and 2040, which are included in the capital improvement and expansion program. These two sets of projects reflect further priority system improvements that HRSD is to implement along with the SWIFT project. The Amended Consent Decree gives HRSD until 2032 to invest \$1.1 billion in the SWIFT program. Finally, the Amended Consent Decree provides that if HRSD will not make the full \$1.1 billion investment in the SWIFT Project by 2032 then EPA can require HRSD to accelerate some or all of the second group (\$200.0 million worth) of high priority sewer overflow control projects to offset the avoided investment in the SWIFT program. The HRSD is on schedule to complete these projects.

The HRSD has a major capital improvement and expansion program funded through the issuance of debt and its own resources. As of June 30, 2024, the HRSD has outstanding commitments for contracts in progress of approximately \$1.6 billion.

41. SUBSEQUENT EVENTS

Primary Government

Debt

On October 16, 2024, the Commonwealth Transportation Board issued \$119.6 million of its Commonwealth of Virginia Federal Transportation Grant Anticipation Revenue Notes (GARVEEs), Series 2024 to provide for the payment of certain transportation projects.

On October 22, 2024, the Hampton Roads Transportation Accountability Commission (nonmajor governmental fund) issued Series 2024A Senior Lien Revenue Bonds in the amount of \$151.4 million.

Component Units

Debt

On July 23, 2024, the Hampton Roads Sanitation District (HRSD) (nonmajor) conducted a sale of the Wastewater Revenue Bonds, Series 2024B, raising \$268.0 million to fund capital projects, including HRSD's Sustainable Water Infrastructure for Tomorrow (SWIFT) projects.

On August 1, 2024, the Virginia Housing Development Authority (VHDA) (major) issued Rental Housing Bond 2024 Series D Non-AMT in the amount of \$50.9 million.

On November 19, 2024, the Virginia Resources Authority (VRA) (major) issued revenue bonds in the amount of \$54.4 million through the Virginia Pooled Financing Program. Interest rates range from 4.0 percent to 5.0 percent with a final maturity date of November 1, 2054.

On August 26, 2024, the VHDA entered into a lease agreement for office space commencing on April 1, 2025. The new lease has a sixty-three-month term requiring monthly payments. The total estimated future minimum lease payments for this agreement are approximately \$410,809 over the lease term.

On September 17, 2024, the VHDA issued Commonwealth Mortgage Bond 2023 Series E, E-3 Non-AMT in the amount of \$40.0 million.

On September 18, 2024, the VHDA issued Commonwealth Mortgage Bond 2023 Series E, E-4 Non-AMT in the amount of \$40.0 million.

On September 18, 2024, the VHDA redeemed Commonwealth Mortgage Bond 2023 Series E, E-1 in the amount of \$5,000.

On September 19, 2024, the VHDA issued Commonwealth Mortgage Bond 2024 Series C Taxable in the amount of \$160.0 million.

On September 24, 2024, the Virginia Public School Authority (VPSA) (major) issued its \$73.2 million Special Obligation School Financing Bonds, Hanover

County, Series 2024 to purchase certain general obligation local school bonds to finance capital projects for schools.

On September 30, 2024, the HRSD entered into a new Multi-Factor Authentication (MFA) with the Water Infrastructure Finance and Innovation Act (WIFIA) program and closed on Tranche 3 for \$268.0 million.

In October 2024, the Virginia Commonwealth University (nonmajor) executed a ten-year lease, with two five-year renewal options, for approximately 7,500 square feet in Biotech Building 8. The base rent is \$28.85 per square foot annually with a 2.9% annual escalation. Upfit costs are estimated at \$7.0 million, to be primarily funded by a gift from the Barbara Brunckhorst Foundation. The University anticipates recognizing right-of-use assets and corresponding lease liabilities for this agreement when the University has access to the facilities. The associated leasehold improvements will be capitalized as the space is upfitted for its intended use. The total estimated future minimum lease payments for this agreement are approximately \$5.8 million over the lease term. These amounts represent base rent only and do not include additional costs such as operating expenses or taxes, which may be required under the triple net lease arrangements.

On October 10, 2024, the VHDA issued Rental Housing Bonds 2024 Series E Non-AMT in the amount of \$89.8 million.

On October 15, 2024, the VHDA redeemed Rental Housing Bonds 2023 Series Non-AMT in the amount of \$850,000.

On October 30, 2024, the VPSA issued its \$83.4 million School Financing Bonds (1997 Resolution), Series 2024B to purchase certain general obligation local school bonds to finance capital projects for schools.

On October 31, 2024, the VHDA issued Rental Housing Bonds 2024 Series F-Taxable in the amount of \$106.0 million.

On October 31, 2024, the VPSA issued its \$133.9 million Special Obligation School Financing Bonds, Prince William County, Series 2024 to purchase certain general obligation local school bonds to finance capital projects for schools.

On November 7, 2024, the VHDA issued Rental Housing Bonds 2024 Series G Non-AMT in the amount of \$34.3 million.

On December 10, 2024, the VPSA issued its \$44.9 million Special Obligation School Financing Bonds, Stafford County, Series 2024 to purchase certain general obligation local school bonds to finance capital projects for schools.

Other

On July 1, 2024, the Virginia College Savings Plan was renamed to Commonwealth Savers Plan.

On July 1, 2024, the merger of the Old Dominion University (nonmajor) and Eastern Virginia Medical School (EVMS) was finalized and all EVMS assets and liabilities, totaling \$601.2 million and \$79.4 million, respectively, were transferred to the University at EVMS' book value. EVMS currently has affiliated relationships with the EVMS Foundation, a nonprofit organization established to provide financial support to EVMS, and the EVMS Medical Group, a nonprofit physician group supporting EVMS. Separate affiliation agreements are being developed between the University and these EVMS affiliates to allow for the continued relationships.

In July 2024, the Virginia Commonwealth University (nonmajor) entered into a contract with the Hourigan Construction Corporation for the construction of the Arts and Innovation Academic building. In no case shall the total compensation to the construction manager (Hourigan Construction Corporation) exceed the guaranteed maximum price of \$191.9 million. Of this agreement, \$10.1 million was committed prior to fiscal year end and is reflected in the commitments footnote.

In August 2024, the Virginia Commercial Space Flight Authority (nonmajor) approved the purchase of a building to be used as a launch team maintenance facility complex. This purchase totaling approximately \$2.4 million is in the due diligence period and is expected to close February 2025.

On August 29, 2024, the Virginia Passenger Rail Authority (nonmajor) executed an agreement with Norfolk Southern Railway Company (NSR) to purchase certain railroad property rights, easements, and stations within the Commonwealth of Virginia for \$357.0 million.

In September 2024, the Radford University (nonmajor) opened the Center for Adaptive Innovation and Creativity. This multi-year construction project represents a large portion of the University's nondepreciable capital assets in the accompanying financial statements and will be placed in service in fiscal year 2025.

On September 24, 2024, the Virginia Museum of Fine Arts Foundation (nonmajor) entered into a purchase and sale agreement with a third party to acquire land and improvements for approximately \$1.5 million. The sale was closed on November 8, 2024.

**Notes for Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual –
General and Major Special Revenue Funds**

1. Basis of Budgeting vs. Modified Accrual Basis Fund Balance (1)

Since the presentation of financial data on the basis of budgeting differs from that presented under accounting principles generally accepted in the United States of America, a schedule reconciling the fund balance on a budgetary basis at June 30, 2024, to the fund balance on a modified accrual basis follows.

**Fund Balance Comparison
Budgetary Basis to GAAP Basis**

(Dollars in Thousands)

	General Fund	Commonwealth Transportation Fund	Federal Trust Fund
Fund Balance, Basis of Budgeting	\$ 15,561,899	\$ 6,708,840	\$ —
Adjustments from Budget to Modified Accrual:			
Net Accrued Revenues:			
Taxes	1,744,227	417,543	—
Tax Refunds	(686,786)	—	—
Other Revenue/Other Sources	(197,396)	149,400	2,332,608
Medicaid Payable	(651,760)	—	(2,114,222)
Net Accrued Expenditures/Other Uses	(882,844)	(770,768)	5,334
Fund Reclassification - Budget to Modified Accrual	—	(675,112)	—
Fund Balance, Modified Accrual Basis	<u>\$ 14,887,340</u>	<u>\$ 5,829,903</u>	<u>\$ 223,720</u>

1. As discussed in Note 1.E., the Literary Fund has no approved budget.

2. Appropriations

The amounts presented in the Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual – General and Major Special Revenue Funds are principally on a cash basis and represent the original budget adopted by the General Assembly and all supplemental appropriations and transfers. The following schedule reconciles original appropriations to the final adjusted expenditure appropriations for the General Fund and Major Special Revenue Funds, at June 30, 2024, except the Literary Fund which has no approved budget.

<i>(Dollars in Thousands)</i>	General Fund (8)	Commonwealth Transportation Fund	Federal Trust Fund (9)
Appropriations (1)	\$ 30,697,515	\$ 9,789,790	\$ 17,559,385
Supplemental Appropriations:			
Reappropriations (2)	3,171,083	139,906	267,982
Subsequent Executive (3)	825,031	89,145	4,831,481
Subsequent Legislative (4)	3,171,985	20,000	1,545,286
Capital Outlay and Operating Reversions (5)	(1,658)	(1,671)	(1,372)
Transfers (6)	(733,370)	318,521	(19,356)
Capital Outlay Adjustment (7)	(1,736,563)	(131,106)	(321,785)
Appropriations, as adjusted	<u>\$ 35,394,023</u>	<u>\$ 10,224,585</u>	<u>\$ 23,861,621</u>

1. Represents the budget appropriated through Chapter 769, 2023 Virginia Acts of Assembly Reconvened Session as amended by Chapter 1, 2024 Special Session I Virginia Acts of Assembly.
2. Actions taken to reappropriate any prior year unexpended balances per authority of the language in the Appropriation Act.
3. Actions taken by the Governor to carry forward any prior year unexpended balances, sum sufficient authority, and year 2 to year 1 reductions (General Fund) and actions taken to appropriate any additional revenues collected so that they can be legally spent (Special Revenue Funds).
4. Actions taken by the Governor and the General Assembly to adjust the budget.
5. Represents reversions of unexpended capital outlay and operating balances.
6. Represents transfers required by the Appropriation Act. Transfers out are reduced by approximately \$2.8 billion (General Fund) and \$56.6 million (Commonwealth Transportation Fund) for transfers to component units and fiduciary funds that have been reclassified as expenditures in accordance with GASB Statement No. 34.
7. Capital outlay appropriations cover the projects' lives and usually extend beyond the current fiscal year. These amounts have been adjusted to report the amount authorized for expenditure during the current fiscal year.
8. Budgetary reductions totaling \$362.7 million are excluded since they were not available for disbursement during the current fiscal year.
9. Appropriations do not include food stamp issuances of \$1.9 billion since this is a noncash item; however, this amount is included in actual expenditures.

Schedule of Changes in Employers' Net Pension Liability (1) (2)

Fiscal Year Ended June 30, 2024

** Compounded annually.

Actuarial assumptions and methods were based on an analysis of plan experience for the four-year period July 1, 2016, through June 30, 2020, and were used for the June 30, 2022, valuation. The mortality rates used are based on the PUB2010 table projected with a modified mortality improvement scale MP-2020.

As discussed in Note 16, visit the Virginia Retirement System's website at www.varetire.org to obtain a copy of the separately issued financial statements.

- (1) The Group Life Insurance and the Line of Duty Trust Fund (Line of Duty Act) are cost-sharing plans and amounts in this schedule are only for the Commonwealth and does not include other employers.
- (2) Covered employee payroll is provided since the contributions are not based on a measure of pay. Ten years of data is not available for this plan.
- (3) Although the Retiree Health Insurance Credit program for constitutional officers, social services employees, and registrars existed prior to fiscal year 2016, the program was funded in a different manner and the results do not provide comparability with the current presentations. Since the Commonwealth is considered the governmental nonemployer contributing entity, the column regarding covered payroll is not applicable.

See notes on page 234 in this section.

Year of Ultimate Trend Rate (Ages 65 and Older)	N/A	N/A	N/A	2023

(1) Includes inflation rate of 2.5 percent.

(2) Projected salary increases for the Retiree Health Insurance Credit Fund are used in the application of the actuarial cost method. Projected salary increase factors are not applicable to the Line of Duty Act Program since neither the benefit nor the cost is salary-based.

Actuarial assumptions and methods were based on an analysis of plan experience for the four-year period July 1, 2016, through June 30, 2020, and were used for the June 30, 2022, valuation. The mortality rates used are based on the PUB2010 table projected with a modified mortality improvement scale MP-2020.

As discussed in Note 18, visit the Virginia Retirement System's website at www.varetire.org to obtain a copy of the separately issued financial statements.

Schedule of Changes in Employers' Total Other Postemployment Benefit Liability (1) (2)

Fiscal Year Ended June 30, 2024

(Dollars in Thousands)

Change in the Total OPEB Liability	PMRH				
	2024	2023	2022	2021	2020
Total OPEB liability:					
Service cost	\$ 22,963	\$ 31,325	\$ 44,141	\$ 47,963	\$ 72,737
Interest cost	12,981	10,020	13,139	25,009	40,941
Changes of benefit terms	—	—	—	—	—
Difference between expected and actual experience	10,908	(24,105)	(20,887)	(24,121)	(216,886)
Changes of assumptions	(18,611)	(69,896)	(119,285)	(130,004)	(182,206)
Benefit payments	(39,737)	(32,820)	(37,040)	(28,903)	(41,346)
Net change in total OPEB liability	(11,496)	(85,476)	(119,932)	(110,056)	(326,760)
Total OPEB liability - beginning	363,416	448,892	568,824	678,880	1,005,640
Total OPEB liability - ending (a)	\$ 351,920	\$ 363,416	\$ 448,892	\$ 568,824	\$ 678,880
Covered employee payroll (b)	\$ 6,981,590	\$ 6,429,512	\$ 5,904,674	\$ 5,842,440	\$ 5,616,229
Total OPEB liability as a percentage of covered employee payroll (a/b)	5.0 %	5.7 %	7.6 %	9.7 %	12.1 %

- (1) The Commonwealth implemented GASB Statement No. 75, *Accounting and Financial Reporting for Other Postemployment Benefits*, as amended by GASB Statement No. 85, *Omnibus 2017*, effective for fiscal year 2018, therefore, ten years of data is unavailable.
- (2) The Commonwealth's fiscal year 2024 total OPEB liability measurement date is June 30, 2023, as reported in Note 18. There are no assets accumulated in a trust to pay related benefits.

Changes of benefit terms – There have been no changes to the benefit provisions since the prior actuarial valuation.

Changes of assumptions – There were not any changes in assumptions since the June 30, 2022, measurement date. The following remained constant since the prior measurement date:

- Spousal Coverage - rate remained at 20.0 percent
- Retiree Participation - rate remained at 35.0 percent

Retiree participation was based on a blend of recent experience and the prior year assumptions. The trend rates were updated based on economic conditions as of June 30, 2023. Additionally, the discount rate was increased from 3.5 percent to 3.7 percent based on the Bond Buyers GO 20 Municipal Bond Index as of the measurement date of June 30, 2023.

Notes for Claims Development Information Tables

The tables on the previous pages illustrate how the Risk Management, Health Care, and Line of Duty Claims Funds earned revenues (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the funds as of the end of each of the past several years. The rows of the tables are defined as follows:

1. This line shows the total of each fiscal year's gross earned contribution revenue and investment revenue, contribution revenue ceded to reinsurers, and net earned contribution revenue and reported investment revenue.
2. This line shows each fiscal year's other operating costs of the funds, including overhead and claims expense not allocable to individual claims.
3. This line shows the funds' gross incurred claims and allocated claim adjustment expenses, claims assumed by reinsurers, and net incurred claims and adjustment expenses (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year).
4. This section of rows shows the cumulative net amounts paid as of the end of successive years for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each accident year.
6. This section of rows shows how each policy year's net incurred claims increased or decreased as of the end of successive years. (This annual reestimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known.)
7. This line compares the latest reestimated net incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of net claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of net incurred claims currently recognized in less mature policy years.

The columns of the tables show data for successive policy years.

Notes:

- (a) During fiscal year 1997, the Commonwealth implemented GASB Statement No. 30, *Risk Financing Omnibus*. The Commonwealth has no reinsurers; therefore, the ceded amounts on lines 1, 3, and 5 are zero.

Combining and Individual Fund Statements and Schedules

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds account for specific revenue sources that are restricted or committed to finance particular functions and activities of the Commonwealth.

The Health and Social Services Special Revenue Fund accounts for revenues and expenditures related to local health care assistance.

The accompanying financial statements reflect an estimate of the amount that will be paid to claimants as required by governmental accounting standards.

The Unclaimed Property Fund accounts for unclaimed and escheat property that the Commonwealth holds for its rightful owner. Due to the nature of these transactions, the Commonwealth incurs a liability upon receipt of the assets.

The Other Special Revenue Fund accounts for revenues and expenditures related to business and agricultural activities, and miscellaneous activities throughout the Commonwealth.

Debt Service Funds

The Debt Service Funds account for transactions related to resources retained and used for the payment of interest and principal on long-term obligations recorded in the Governmental Activities column on the Government-wide Statement of Net Position. Resources include transfers in from other governmental funds and Federal revenue solely to be used for debt service payments.

Primary Government accounts for the payment of principal and interest on bonds used to acquire, construct, or improve parks, highways, and correctional, behavioral health, and parking facilities owned by the Commonwealth.

The Hampton Roads Transportation Accountability Commission accounts for the payment of principal and interest on bonds used for construction projects related to new or existing highways, bridges or tunnels in the localities comprising Planning District 23.

The Virginia Public Building Authority accounts for the payment of principal and interest on bonds used to acquire, construct, and operate public buildings used by the Commonwealth and its political subdivisions.

Capital Project Funds

The Capital Project Funds are maintained to account for resources received and used for the acquisition, construction, or improvement of capital facilities not reported in the other governmental or proprietary funds, with the exception of certain Virginia Public Building Authority disbursements.

Primary Government accounts for the financial resources acquired through the issuance of General Obligation Bonds and Energy Performance Contracts. The resources are used to acquire, construct, or improve land, public buildings, and parking facilities owned by the Commonwealth.

Resources are also used to finance or refinance reimbursements to localities or governmental entities for the Commonwealth's share of the capital costs for certain authorized projects.

The Virginia Public Building Authority accounts for financial resources acquired through the issuance of section 9(d) bonds. These resources are used to acquire, construct, finance, refinance and operate public buildings used by the Commonwealth and any of its political subdivisions.

Hampton Roads Transportation Accountability Commission accounts for financial resources acquired through the sales and use and motor fuels taxes designated for Planning District 23. These resources will be used for construction projects related to new or existing highways, bridges or tunnels in the localities comprising Planning District 23.

Permanent Funds

Permanent Funds are funds whose principal must remain intact.

Commonwealth Health Research Fund provides financial grants for human health research benefiting the Commonwealth's citizens. The entire fund balance is restricted for use as such as a condition of a legal settlement.

Behavioral Health Endowment Funds provide funds for the welfare of patients in behavioral health facilities. The entire fund balance is restricted for use as such.

Notes for Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – Nonmajor Special Revenue Funds

1. Basis of Budgeting vs. Modified Accrual Basis Fund Balance (1)

Since the presentation of financial data on the basis of budgeting differs from that presented under accounting principles generally accepted in the United States of America, a schedule reconciling the fund balance on a budgetary basis at June 30, 2024, to the fund balance on a modified accrual basis follows.

<i>(Dollars in Thousands)</i>	Health and Social Services	Other
Fund Balance, Basis of Budgeting	\$ 643,236	\$ 1,593,790
Adjustments from Budget to Modified Accrual:		
Net Accrued Revenues:		
Taxes	136,969	19,662
Other Revenue/Other Sources	36,792	(24,628)
Medicaid Payable	(350,299)	—
Net Accrued Expenditures/Other Uses	34,540	(53,045)
Fund Reclassification - Budget to Modified Accrual	(2,566)	(2,728)
Fund Balance, Modified Accrual Basis	<u>\$ 498,672</u>	<u>\$ 1,533,051</u>

1. As discussed in Note 1.E., the Unclaimed Property Fund has no approved budget.

2. Appropriations

The amounts presented in the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – Nonmajor Special Revenue Funds are principally on a cash basis and represent the original budget adopted by the General Assembly and all supplemental appropriations and transfers. The following schedule reconciles original appropriations to the final adjusted expenditure appropriations for the Nonmajor Special Revenue Funds, at June 30, 2024, except for the Unclaimed Property Fund, which has no approved budget.

<i>(Dollars in Thousands)</i>	Health and Social Services	Other
Appropriations (1)	\$ 1,634,343	\$ 1,096,892
Supplemental Appropriations:		
Reappropriations (2)	1,396	110,524
Subsequent Executive (3)	524,556	216,115
Subsequent Legislative (4)	494,689	8,422
Capital Outlay Reversions (5)	—	(6,611)
Transfers (6)	(1,071)	46,103
Capital Outlay Adjustment (7)	(1,396)	(105,315)
Appropriations, as adjusted	<u>\$ 2,652,517</u>	<u>\$ 1,366,130</u>

1. Represents the budget appropriated through Chapter 769, 2023 Acts of Assembly Reconvened Session as amended by Chapter 1, 2024 Special Session I Acts of Assembly.
2. Actions taken to reappropriate any prior year unexpended balances per authority of the language in the Appropriation Act.
3. Actions taken by the Governor to appropriate any additional revenues collected so that they can be legally spent.
4. Actions taken by the Governor and the General Assembly to adjust the budget.
5. Represents reversions of unexpended capital outlay balances.
6. Represents transfers required by the Appropriation Act.
7. Capital outlay appropriations cover the projects' lives and usually extend beyond the current fiscal year. These amounts have been adjusted to report the amount authorized for expenditure during the current fiscal year.

Nonmajor Enterprise Funds

The Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises. It is the intent that the cost of providing such goods or services will be recovered through user charges.

Alcoholic Beverage Control operates facilities for the distribution and sale of distilled spirits and wine, as well as enforcement and management of liquor licenses.

Risk Management accounts for pooled resources received and used by the Department of the Treasury for financing local government insurance programs. This includes Local Entities Bond Insurance, Public Officials Insurance and Law Enforcement Insurance.

Local Choice Health Care administers a health care plan for the employees of participating local governments.

Line of Duty accounts for the disability, death, and health benefits provided to eligible local government employees and their family members.

Advantage Vanpool Self Insurance accounts for pooled resources to provide liability, uninsured motorist, and physical damage protection for commuter vanpools. The basis for estimating the liabilities for unpaid claims and claim adjustment expenses is the actuarial analysis performed by the Commonwealth's actuary for Risk Management.

Virginia Industries for the Blind manufactures products for sale to governments, certain private organizations, and the general public.

Consolidated Laboratory provides water testing services and a newborn screening program.

eVA Procurement System accounts for the statewide electronic procurement system.

Department of Environmental Quality accounts for the Title V program that offers services to the general public.

Wireless E-911 Service Board assists in the establishment of wireless E-911 service in Virginia localities.

Virginia Museum of Fine Arts accounts for gift shop and food service activities.

Science Museum of Virginia accounts for gift shop activities.

Behavioral Health Local Funds account for the canteen store and work activity programs.

Internal Service Funds

Internal Service Funds account for the operations of state agencies that render services to other state agencies, institutions, or other governmental units of the Commonwealth on a cost-reimbursement basis.

Technology and Data Services accounts for the installation and maintenance of the state government's telephone system; the development, use and maintenance of the Commonwealth's data processing systems; the development of automated systems, and the activities of the Chief Data Officer to create a Commonwealth data inventory, enterprise data dictionary, and catalog.

Enterprise Application accounts for the development and operation of the Commonwealth's Performance Budgeting System, Cardinal Financial System, and Human Capital Management System. Funding is derived from charges to agencies for the ongoing costs of the Commonwealth's enterprise applications, including recovery of the development and implementation costs initially funded through working capital advances.

Virginia Correctional Enterprises accounts for the manufacturing activities of the Commonwealth's correctional facilities.

Health Care accounts for the health insurance programs provided to state employees and for retirees who are not yet eligible to participate in Medicare.

Line of Duty accounts for the disability, death, and health benefits provided to eligible state employees and their family members.

Fleet Management accounts for the Commonwealth's motor vehicle pool.

Property Management accounts for real estate services, non-routine facility maintenance, and the disposal of state-owned property.

Risk Management accounts for the insurance programs provided to state agencies and institutions.

General Services accounts for a variety of services, including the purchase of supplies, the sale of surplus property, water testing, graphic design and engineering.

Payroll Service Bureau accounts for the payroll and leave accounting services provided to state agencies and institutions.

Fiduciary Funds

Private Purpose Trust Funds

Private Purpose Trust Funds reflect funds that benefit individuals, organizations, and other governments; have a trust that meets GASB Statement No. 84, Fiduciary Activities, criteria; and are not required to be reported in another fiduciary fund type.

Defined Contribution 529 Program accounts for program activities offered by the Virginia College Savings Plan (Virginia529). The program is a defined contribution college savings program in which participants can save for qualified higher education expenses by making contributions and investments into portfolios of their choice.

Legal Settlement accounts for receipts from court judgments that are deposited and subsequently distributed to the appropriate injured parties.

Gas and Oil Board Escrow Account accounts for the funds held in escrow awaiting disbursement to the validated owner of property containing gas and oil interest.

Miscellaneous Trust accounts for perpetual trusts created through donations to the state. Earnings are used for the benefit of donor-specified local entities.

Pension and Other Employee Benefit Trust Funds

Pension and Other Employee Benefit Trust Funds reflect activities of the pension, other postemployment, and employee benefit plans with trusts that meet GASB Statement No. 84 criteria. All plans are administered by the Virginia Retirement System.

The Virginia Retirement System provides retirement benefits to Commonwealth employees, teachers, political subdivision employees, and other qualifying employees.

The State Police Officers' Retirement System provides retirement benefits to Virginia state police officers.

The Judicial Retirement System provides retirement benefits to the Commonwealth's judiciary.

The Virginia Law Officers' Retirement System provides retirement benefits to correctional officers, capital police officers, university police officers, and game wardens.

Other Postemployment Retiree Health Insurance Credit accounts for the health insurance credits provided by the Commonwealth which offset a portion of the retirees' monthly insurance premiums.

Other Employment Group Life provides life insurance coverage to members of the retirement systems.

Other Postemployment Disability Insurance Trust provides income protection to Commonwealth employees for absences caused by sickness or disability.

Other Postemployment Line of Duty Death and Disability provides death and health benefits to beneficiaries of certain law enforcement and rescue personnel disabled or killed in the line of duty.

Virginia Local Disability Program provides long-term disability benefits to local government employees of participating localities.

Custodial Funds - External Investment Pool

Custodial Funds - External Investment Pool reflects the external portion of the Local Government Investment Pool sponsored by the Commonwealth. This fund does not have a trust that meets GASB Statement No. 84 criteria.

Local Government Investment Pool (LGIP) helps local governmental entities maximize their rate of return by commingling their resources for investment purposes.

Custodial Funds - Other

Custodial Funds - Other reflect funds that are similar to Private Purpose Trust Funds, except they do not have a trust that meets GASB Statement No. 84 criteria.

Collection of Taxes and Fees account for taxes and fees imposed by localities and collected by the Commonwealth on behalf of the localities to be distributed to localities.

Deposits of Insurance Carriers accounts for security deposits of insurance carriers as protection to the policyholders of the Commonwealth.

Inmate and Ward accounts for the savings of inmates and wards of the Departments of Corrections and Juvenile Justice.

Child Support Collection accounts for court-ordered child support payments that flow through the Department of Social Services.

Behavioral Health Patient accounts for the savings of patients in the Commonwealth's behavioral health facilities including amounts for patient burial.

Wilson Workforce and Rehabilitation Center accounts for student funds held by the center.

Third Party Administrator accounts for funds held in custody for assets of the Virginia Railway Express commuter rail liability insurance plan.

Virginia Veterans' Care Center Resident accounts for the savings of residents of the Virginia Veterans Care Centers.

Volunteer Firefighters and Rescue Squad Workers accounts for the Volunteer Firefighters' and Rescue Squad Workers' Service Award Program.

VRS Investment Portfolio accounts for the investment option for the VRS administered Defined Contribution Plans that is the VRS Investment Portfolio (VRSIP).

Nonmajor Component Units

Component Units are organizations that are legally separate from the Commonwealth of Virginia. Each discrete component unit serves or benefits those outside of the primary government.

The Higher Education Institutions account for the resources received and used in the operation of the Commonwealth's institutions of higher education and medical teaching hospitals.

Higher Education Institutions included in this section are:

- University of Virginia, including the University of Virginia Medical Center and the University of Virginia's College at Wise
- Virginia Polytechnic Institute and State University
- Virginia Commonwealth University, including the Virginia Commonwealth University Health System Authority
- The College of William & Mary, including Richard Bland College and the Virginia Institute of Marine Science
- Virginia Military Institute
- Virginia State University
- Norfolk State University
- University of Mary Washington
- James Madison University
- Radford University
- Old Dominion University
- George Mason University
- Virginia Community College System
- Christopher Newport University
- Longwood University
- Southwest Virginia Higher Education Center
- Roanoke Higher Education Authority
- Institute for Advanced Learning and Research
- Southern Virginia Higher Education Center
- New College Institute

The Virginia Innovation Partnership Authority supports the life cycle of innovation, including research, development, and commercialization, as well as related investment and seed-stage funding, in the Commonwealth.

The Virginia Economic Development Partnership works to enhance and increase the Commonwealth's commerce and trade, both domestically and internationally.

The Virginia Outdoors Foundation promotes preservation and fundraising for the purchase of preservation land.

The Virginia Port Authority is empowered to maintain and operate Virginia's ports.

The Virginia Passenger Rail Authority promotes, sustains, and expands the availability of passenger and commuter rail service in the Commonwealth.

The Virginia Tourism Authority promotes tourism and film production industries of the Commonwealth.

The Virginia Foundation for Healthy Youth determines the appropriate recipients of monies in the Virginia Tobacco Settlement Fund.

The Tobacco Region Revitalization Commission determines the appropriate recipients of monies in the Tobacco Indemnification and Community Revitalization Fund.

The Hampton Roads Sanitation District Commission operates a wastewater treatment system for 20 localities in the Chesapeake Bay Area.

The Virginia Biotechnology Research Partnership Authority assists in the development of a biotechnology research park.

The Virginia Small Business Financing Authority assists small businesses in the Commonwealth in obtaining financing for new businesses or the expansion of existing businesses.

The Virginia School for the Deaf and Blind Foundation operates exclusively for the benefit of the Virginia School for the Deaf and Blind.

The Science Museum of Virginia Foundation operates to implement and fund projects and operations of the Science Museum of Virginia.

The Virginia Commercial Space Flight Authority disseminates knowledge pertaining to scientific and technological research and development among public and private entities including, but not limited to, knowledge in the area of commercial space flight, and to promote industrial and economic development.

The Danville Science Center, Inc. promotes programs, projects, and operations to inspire visitors to enrich their lives through science.

The Virginia Museum of Fine Arts Foundation implements and funds programs, projects, and operations of the Virginia Museum of Fine Arts.

The A. L. Philpott Manufacturing Extension Partnership promotes industrial expansion by providing consulting services to manufacturers.

The Fort Monroe Authority assists in implementing a reuse plan for Commonwealth-owned property at the former army installation at Fort Monroe. The Authority works to preserve and protect the historic resources, provide public access to and stewardship of the natural resources at Fort Monroe.

The Assistive Technology Loan Fund Authority provides assistance with loans for the purchase of assistive technology or other equipment to enable Virginians with disabilities to become more independent.

The Virginia Land Conservation Foundation acquires interests in preservation land and provides grants to other entities to acquire interests in preservation land.

The Library of Virginia Foundation promotes and supports the Library of Virginia.

The Virginia Health Workforce Development Authority leads statewide policy and programmatic efforts that recruit, train, and retain Virginia's health care workforce.

STATISTICAL SECTION

The financial presentations included in this section present detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Commonwealth's overall financial health.

Statistical schedules related to property taxes are not presented since the Commonwealth does not assess property taxes.

Contents

Financial Trends	331
These schedules contain trend information to help the reader understand how the Commonwealth's financial performance and well-being have changed over time.	
Ten-Year Schedule of Revenues and Expenditures – Modified Accrual Basis – General Governmental Revenues by Source and Expenditures by Function	
Net Position by Component – Accrual Basis of Accounting	
Changes in Net Position – Accrual Basis of Accounting	
Fund Balance, Governmental Funds – Modified Accrual Basis of Accounting	
Changes in Fund Balance, Governmental Funds – Modified Accrual Basis of Accounting	
Comparison of General Fund Balance	
Revenue Capacity	345
These schedules contain information to help the reader assess the factors affecting the Commonwealth's ability to generate its income taxes.	
Personal Income Tax Rates	
Effective Tax Rates	
Personal Income Tax Filers and Liability by Income Level	
Personal Income by Industry	
Taxable Sales by Business Class	
Sales Tax Revenue by Business Class	
Debt Capacity	353
These schedules present information to help the reader assess the affordability of the Commonwealth's current levels of outstanding debt and the Commonwealth's ability to issue debt in the future.	
Ratios of Outstanding Debt by Type	
Ratios of General Obligation Bonded Debt Outstanding	
Computation of Legal Debt Limit and Margin	
Schedule of Pledged Revenue Bond Coverage – Primary Government 9(d) General Long-term Debt	
Demographic and Economic Information	359
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Commonwealth's financial activities take place and to help make comparisons over time and with other governments.	
Schedule of Demographic and Economic Statistics	
Principal Employers	
Operating Information	361
These schedules contain information about the Commonwealth's operations and resources to help the reader understand how the Commonwealth's financial information relates to the services the Commonwealth provides and the activities it performs.	
State Employees by Function	
Operating Indicators by Function	
Capital Asset Statistics by Function	
Employees of the Department of Accounts	370
Sources:	Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Ratios of General Obligation Bonded Debt Outstanding

Last Ten Fiscal Years
(Amounts in Thousands except Per Capita)

For the Fiscal Year Ended June 30,	General Bonded Debt Outstanding [1] [2]				Percentage of Tax Revenues [6]	Amount Per Capita [7]
	Governmental		Higher Education [5]			
	9(b) [3]	9(c) [4]	9(c)	Total		
2024	\$ 120,065	\$ 3,582	\$ 929,445	\$ 1,053,092	5.18%	\$ 121
2023	173,122	4,646	940,849	1,118,617	5.58%	129
2022	225,600	5,664	912,817	1,144,081	5.91%	132
2021	278,221	6,640	955,729	1,240,590	7.17%	145
2020	330,934	10,666	886,837	1,228,437	8.00%	143
2019	401,873	14,628	893,106	1,309,607	8.85%	153
2018	457,764	18,764	836,874	1,313,402	9.31%	155
2017	515,468	22,743	897,018	1,435,229	11.00%	169
2016	571,915	29,717	877,118	1,478,750	11.78%	176
2015	642,181	33,190	936,857	1,612,228	13.08%	192

[1] Amounts are net of unamortized premiums and discounts.

[2] There are currently no Section 9(a) bonds outstanding.

[3] Section 9(b) bonds have been authorized by the citizens of Virginia through bond referenda to finance capital projects. These bonds are retired through the use of state appropriations.

[4] Section 9(c) bonds are issued to finance capital projects which, when completed, will generate revenue to repay the debt.

[5] While these bonds are issued for and allocated to institutions, they are backed by the full faith and credit of the Commonwealth.

[6] Individual and fiduciary Income tax collections were used for this calculation.

[7] Population statistics used in this calculation are provided by the Department of Taxation and the Weldon Cooper Center for Public Service at the University of Virginia. Fiscal year 2024 population was estimated.

New Unemployment Benefit Claims	126,850	168,398	301,095

- (1) Information for fiscal year 2024 is not yet available.
- (2) This agency is structured to provide services primarily in a community setting. The funding level for FY 2024 was \$738.2 million for community programs and \$670.1 million for inpatient facilities. DBHDS is committed to providing care in the most appropriate setting and will continue to fund and develop community based treatment options. There is some growth in the inpatient census due to the number of civil commitments attributable to forensic patients (those who come from the corrections system).
- (3) Pick 5 began during fiscal year 2023; therefore, information for fiscal year 2022 and prior is not available.
- (4) Win for Life and Decades for Dollars ended during fiscal year 2015; therefore, information for fiscal year 2016 and thereafter is not available.
- (5) Bank A Million began during fiscal year 2016; therefore, information for fiscal year 2015 and prior years is not available.
- (6) Money Ball ended during fiscal year 2016; therefore, information for fiscal year 2017 and thereafter is not available.
- (7) Fast Play Bingo was renamed Print 'n Play during fiscal year 2017.
- (8) iLottery Instants, formerly called Digital E-games, are available through the Lottery Mobile App and began during fiscal year 2019; therefore, information for fiscal year 2018 and prior is not available.
- (9) Keno is a new game that began during fiscal year 2021; therefore, information for fiscal year 2020 and prior is not available.
- (10) iLottery Raffle and Cash Pop are new games that began during fiscal year 2022; therefore information for fiscal year 2021 and prior is not available.
- (11) Tuition Track Portfolio is a new portfolio option in fiscal year 2021; therefore, information for fiscal year 2020 and prior is not available.
- (12) Prior year amount has been adjusted based on revised information from the Virginia Employment Commission.
