Dear Chair Lucas, Chair Torian, Secretary Anderson and Director Maul:

Pursuant to the language in the General Assembly's 2025 Chapter 725 Appropriations Act, please find attached the Virginia Department of Corrections' report on health care service provision. Chapter 725 required that the Virginia Department of Corrections remit data to the Director of the Department of Planning and Budget and the Chairmen of the House of Appropriations and Senate Finance Committees regarding medical treatment provided to offenders at each facility.

Specifically, the data was to include as a proportion the level of average daily population (ADP) at each facility who were treated as out-patient, in-patient, prescription drug administration, and other discrete services. For this report, other discrete services were defined by the Virginia Department of Corrections to reflect the level of average daily population at each facility who received on-site telemedicine services, on-site dentistry services, and on-site dialysis services. Please note, all data reported reflects the most robust information available for Fiscal Year 2025.

Due to the lack of an electronic health record (EHR) system for health management of offenders across the Department of Corrections' facilities, the data reported is reliant upon third party administrator billing claims information and more rudimentary collection techniques, such as tabulating occurrences by hand each month. This significantly limits the ability of VADOC to report more robust information to inform all parties. The Department has made great strides in the development and implementation of an EHR system. The EHR system, DOCHHealth, went active statewide for all VADOC facilities in September 2025. An additional note: only out-patient and in-patient measures could be reported as a true proportion of ADP. All other measures are provided as observable counts with calculations that reflect the count as a ratio to offender.

Please contact me if you have questions.

Sincerely,

Table Notes¹ Out-Patient count defined as number of unique inmate who have seen a physician as recorded in Anthem billing data. Calculation reflects the proportion of unique inmates divided by ADP.² In-Patient count defined as number of inpatient stays reported by a DOC institution to HSU to obtain check for Medicaid coverage. Calculation reflects number of stays per person based on ADP, but reflected as a proportion as requested.³ Prescriptions Filled defined as number of individual prescriptions that were filled. This may include refills of the same prescription for the same inmate, therefore, calculation based off number of prescriptions filled per person based on ADP.⁴ Prescription Pills Administered defined as number of individual doses provided across all offenders at that facility. Calculation reflects number of doses administered per person based on ADP. Issuing a monthly supply counts as one administration.⁵ Telemedicine defined as number of telemedicine clinic visits performed at the specified facility across all offenders at that facility. Calculation reflects number of visits per person based on ADP, but reflected as a proportion as requested.⁶ On-Site Dentistry defined as number of visits performed by *dental personnel* at a facility across all offenders at that facility. Calculation reflects number of visits per person based on ADP, but reflected as a proportion as requested.⁷ On-Site Dentistry is managed through clusters of institutions throughout the state. Inmates may be transported to another facility to receive dental care.⁸ On-Site Dialysis defined as census of inmates receiving dialysis at the specified facility. Calculation reflects census as a proportion of ADP at that facility.⁹ All General Population (GP) inmates have been moved to Beaumont Correctional Center. Remaining inmates are infirmary patients only (State Farm Infirmary).¹⁰ Facility is no longer in operation.
