**Re: February 2025 Sports Betting Report**

Dear Governor Youngkin:

I am pleased to provide our report of legal sports betting activity for the month of February 2025, as required in Virginia Code § 58.1-4031 (2020).

During the month of February, eligible players wagered over \$556 million on sports activities across fourteen mobile sports betting operators and three land-based casinos. January handle represented a 2.2% increase from February 2024; last year, February had one more day of wagering activity due to leap year.

Sports betting activity is taxed based on a permit holder's adjusted gross revenue. Adjusted gross revenue is calculated as wagers **minus** cash winnings, eligible noncash winnings during an operator's first twelve months of operation, voided and cancelled wagers, Federal excise taxes, and certain allowable adjustments. The adjusted gross revenue for operators may be negative for a month, and if so, that negative balance may be carried forward to the following month, for up to one year. These calculations adhere to the statutory provisions in Virginia Code §58.1-4030 et seq., as enacted by the General Assembly in the 2020 Regular Session, and the language included in the 2024 Appropriation Act (Chapter 2, 2024 Special Session I Virginia Acts of Assembly).

Virginia aggregate numbers:

	February Activity	FY25 YTD Total
Total wagers	\$556,836,876.90	\$4,901,345,163.17
