AND GENERAL ASSEMBLY**

**THE IMPLEMENTATION AND
ADMINISTRATION OF THE
ELECTRIC VEHICLE REBATE
PROGRAM
2022 Report**

Submitted by the Virginia Department of Energy

To: The Governor and the General Assembly
From: Virginia Department of Energy
RE: Implementation and Administration of the EV Rebate Program

The [Code of Virginia - § 45.2-1732](#) requires an annual report on the implementation and administration of the Electric Vehicle Rebate Program, including recommendations of the Department of Energy or the Electric Vehicle Rebate Program Advisory Council, and an assessment of the rebate and enhanced rebate, a recommendation on whether the Fund allocation set forth in subsection B of Code of Virginia § 45.2-1731 should be adjusted, and a recommendation on whether an income cap should be established to determine the eligibility of purchasers for a rebate.

In 2022, the EV rebate program has not been active as the program has not received funding and the agency has no recommendations at this time.
