RICHMOND, VA 23218-212

Office: (804) 225-2057
Fax: (804) 371-2099

January 7, 2025

The Honorable L. Louise Lucas
Chair, Senate Finance and Appropriations Committee
General Assembly Building, Room 1404
P. O. Box 396
Richmond, VA 23218

The Honorable Luke E. Torian
Chair, House Appropriations Committee
General Assembly Building, Room 1223
201 North 9th Street
Richmond, VA 23219

The Honorable Ghazala F. Hashmi
Chair, Senate Education and Health Committee
General Assembly Building, Room 616
PO Box 396
Richmond, VA 23218

The Honorable Sam Rasoul
Chair, House Education Committee
General Assembly Building, Room 910
201 North 9th Street
Richmond, VA 23219

Dear Delegates Torian and Rasoul, Senators Lucas and Hashmi:

I am pleased to submit the enclosed report that summarizes the Virginia Preschool Initiative's (VPI) and Virginia Early Childhood Foundation's Mixed-Delivery Preschool Initiative's enrollment and funding for 2024-2025 as of October 2024. This report is submitted in response to the following language in House Bill 6001 Chapter 2 Item 125.10.D.9:

1.) The Department of Education shall collect information from local Virginia Preschool Initiative programs and from providers participating in the Virginia Early Childhood Foundation's Mixed-Delivery Preschool Initiative as needed to compile a comprehensive report on the usage of state funds detailing, but not limited to the number of calculated slots and funding allocated to each local program or provider, and the number of such slots that have been filled.

2.) Such comprehensive report shall be aggregated in a manner to identify: (i) funding and the number of slots used to serve a student in a public school and non-public school

setting, (ii) the number of three-year olds served, (iii) waitlist slots requested, offered, and provided, (iv) the number of students served whose families are at or below 130 percent poverty, above 130 percent but at or below 200 percent of poverty, above 200 percent but at or below 350 percent of poverty, and above 350 percent of poverty.

3.) Such comprehensive report shall describe the Virginia Preschool Initiative programs' progress towards the target inclusion rate, such that 10 percent of all children enrolled in each program are children with disabilities, defined as those with an Individualized Education Plan. Virginia Preschool Initiative programs shall report the share of children with Individualized Education Plans in inclusive classrooms annually starting with the 2020-2021 school year. If the program's current inclusion rate falls below 10 percent, the program shall provide reasons a 10 percent inclusion rate was not achieved in the given school year and what actions the program could implement to increase its rate of inclusion in the next year.

4.) The Department shall submit such comprehensive report to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees no later than December 31 each year.

The following report includes the information described above. Please note that while the VPI and Virginia Early Childhood Foundation Mixed Delivery enrollment data reflect current 2024-2025 reports, the VPI inclusion data is calculated based on end of year totals. Therefore, the VPI inclusion report included here reflects school year 2023-2024. Additionally, it should be noted that both VPI and Virginia Early Childhood Foundation Mixed Delivery Grants will continue limited late enrollment through December 31, 2024, per Appropriation Act language. These final enrollment numbers will be known by January 28, 2025. For information on final enrollments reflecting late enrollment, please contact Tiffanie Meehling, Associate Director of PreK programs, at Tiffanie.Meehling@doe.virginia.gov.

Please direct any questions to Jenna Conway, Deputy Superintendent of Early Childhood Care and Education, at jenna.conway@doe.virginia.gov.

Sincerely,

Lisa Coons

VPI Inclusion Report FY24

VDOE will support school divisions with inclusion in one of three ways based on their reported plan to increase inclusion:

- 1.Connect with regional TTAC for additional training and technical support for staff related to increased inclusion
- 2.Provided technical assistance for administrators from VDOE staff related to Child Find efforts, development of IEPs, blending funding, and program structure
- 3.Provided technical assistance for data personnel from VDOE staff related to data reporting and coding of students

Division Number	Division	FY24 Total IEP Students	FY24 All Students in VPI Classrooms (Total Denominator)	FY24 Inclusion Percentage	FY25 VPI Fall Verification Responses
119	Norton City	1	38	2.63%	We continue to evaluate students as they enter our schools and provide inclusion opportunities as identified needs are recognized.
106	Colonial Heights City	3	83	3.61%	Our Director of Support Services and the VPI Coordinator work together to determine the best placement for students with disabilities. This can be either in our VPI classes or with our division partnership with Wesley Child Development Center. The students placed at Wesley are in classes staffed by Colonial Heights Special Education teachers. This year we began the screening process earlier to ensure that we have screened all of the VPI students that their parents indicated may have a developmental or speech concern.
121	Portsmouth City	17	442	3.85%	Action Steps #1: Conduct monthly meetings to monitor action steps and progress as well as compare data. Action Steps #2: VPI & ECSE staff will ensure all 4 yo SpEd students are registered for the VPI program until slots are filled. Action Steps #3: Check the rosters to determine registration status of any new SpEd student(s) in PowerSchool. Action Steps #4: Create an Inclusion Classroom at the other 2 preschool centers next school year. Action Steps #5: Provide Inclusive Practices PD Sessions for all staff. Action Steps #6: Regularly meet to investigate and explore increasing Inclusive hours of Self-Contained students who are ready for some/more time in the GenEd setting. Action Steps #7: Consult with the VDOE ECSE & VPI program staff for additional suggestions and support, and/or Consult with VDOE s TTAC for additional suggestions and support.
120	Petersburg City	11	270	4.07%	PCPS will conduct 4 Child Find events beginning August 2024 - May 2025. On-going Child Find will take place at the preschool and the PCPS SPED office. The FSA will assist with educating families on the CDC developmental milestones and process for concerns. During the VPI application process, families complete an information sheet that asks about different concerns which will be reviewed by the FSA. If the information sheet or the Virginia Health form (physical) indicates concerns, this information is sent to the child find office to meet with the family prior to the start of school and monitored by the FSA. The Ages and Stages questionnaire will be monitored by the FSA and the data will be used to determine next steps toward Child Find. Hearing, Vision, Speech, Social Emotional, and cognitive development will be screen with the first 60 days. PD sessions will be provided to support GE teachers interventions in the inclusive classroom.
91	Sussex County	2	45	4.44%	Child Study team meetings are held to discuss students with cognitive or behavioral deficits to determine eligibility for student services to satisfy their requirements.
87	Southampton County	5	104	4.81%	This year we do have a minimum of 10% entering our VPI Pre-K classes with an IEP.
4	Amelia County	3	54	5.56%	We use our screening process as part of the Child Find process.
50	King William County	2	36	5.56%	This year, we are piloting a reverse inclusion program aimed at meeting the General Assembly Inclusion Target of 10%. In this model, three students with Individualized Education Programs (IEPs) are integrated with three peer role models, fostering an inclusive learning environment that supports both social and academic development. The program is designed to enhance interaction, collaboration, and understanding between students with diverse needs and their peers. By creating a balanced and supportive setting, we anticipate improved inclusion outcomes, positively impacting all students involved. This initiative reflects our commitment to providing inclusive opportunities that not only meet the target but also enrich the school experience for every student.
44	Henry County	14	243	5.76%	One self-contained ECSE classroom was changed to a full inclusion 50/50 classroom with a dually-endorsed teacher. The goal is to increase the number of similar classrooms next school year. The number of students with IEPs and enrolled in VPI classrooms increased this school year to expand inclusion opportunities.
114	Hopewell City	9	143	6.29%	During the intake process, specific steps were implemented to assess students for eligibility in the VPI program. Currently, preschool-aged children requiring inclusive services are enrolled in Hopewell's VPI and Head Start programs. Both programs, along with one Early Childhood Special Education classroom, are all located under one roof at Woodlawn Learning Center.
117	Newport News City	51	798	6.39%	The VPI Coordinator and ECSE Supervisor partnered early in the application and registration planning process to ensure all families of currently identified ECSE students are made aware of VPI as an option for their child and provided support submitting an application. Self-contained teachers will continue to work to build awareness of the inclusion classrooms. All school offices and departments will continue to share information and communication with families regarding the evaluation process. Open preschool slots will continue to be prioritized for students with special needs. The VPI Coordinator and ECSE Supervisor sought support from other NNPS stakeholders, community partners, and TTAC-ODU to identify additional strategies for achieving the Target of 10% and worked closely with the division s student information system (SIS) data team to ensure every student is coded accurately and accounted for.
6	Appomattox County	3	45	6.67%	To meet the General Assembly's 10% Inclusion Target, our division has joined IPOP (Inclusionary Practices in Preschool) and developed a strategic plan to increase inclusion in ECSE, VPI, and Head Start programs. Key milestones include: November 8, 2024: Initial IPOP Leadership Team meeting to assess practices and set goals. December 2024 - January 2025: School division visit to observe a reverse inclusion model. Late April/Early May 2025: Final selection of an inclusion model for implementation. May - August 2025: Staff training and preparation for the 2025-26 school year. This plan provides a structured approach to increase our inclusion percentage and ensure progress toward meeting the target.
112	Hampton City	40	600	6.67%	Hampton City Schools is committed to Every Child, Every Day, Whatever it Takes. As a district, the Early Childhood Department and the Early Childhood Special Education Department are collaborating to establish a systems-driven decision-making model to identify our 3-year-old ECSE students ready to move into a less restrictive environment. Part of the system will include VPI and ECSE leaders collaborating to ensure a viable age-appropriate curriculum continuum from age two through pre-kindergarten to support and scaffold learning for our special needs students. We are also collaborating to potentially have screening days during the summer to identify students before school starts. Together we are also working with TTAC to identify new strategies for collaboration and identification.
58	Mecklenburg County	14	197	7.11%	This year we ensured all PK students were coded correctly in our Student Information System. We utilized a new checklist for ECSE and PK teachers to use to determine which students could be mainstreamed into PK. We also partner with IPOP to provide training and support to our ECSE and PK staff to increase the number of inclusion students. ECSE and PK staff are planning together to ensure the smooth transition of inclusion students as well.
27	Dinwiddie County	8	106	7.55%	7.55 % of students enrolled in VPI classrooms for the 2023-2024 year possessed an IEP. Currently, four students with IEPs are enrolled full-time in VPI classrooms and five VPI students are in the Student Success Team Process with suspected disabilities. Four additional VPI students possess an outside diagnosis. During the application process, parents are interviewed and referred to the ECSE department if concerns are shared. Sixteen total students were noted with concerns, outside diagnosis, or IEPs during the recruitment period. Collaboration between VPI, Head Start, and ECSE will continue to occur and center on opportunities for dual enrollment. Two ECSE students are currently being closely monitored with transition to a VPI inclusive classroom by midyear.
40	Greensville County	6	77	7.79%	A laser focus will be placed on conducting more Childfinds with a direct emphasis on locating and securing students and families alike who are in need of special services.
135	Franklin City	5	53	9.43%	Franklin City Public Schools has implemented a Child Find process, an outreach effort to inform the community, healthcare providers, and other stakeholders about the importance of early identification.

74	Prince George County	13	137	9.49%	The VPI coordinator works very closely with the Early Childhood Special Education coordinator to ensure that students with disabilities are included in the VPI program not only to reach the 10% targeted rate, but to identify the best setting for each student with a disability. The ECSE coordinator alerts the VPI coordinator about two and three year old students who have been in the ECSE program, but are aging up to qualify for the VPI program. At the time of application, parents are asked to answer questions from the ASQ-III instrument to gain a better understanding of potentially unidentified children. Based on the answers to those questions and a conversation with the parent, the VPI coordinator completes a Child Find Referral with the parent to notify the Student Services department of a possible needed screening. District speech, physical and occupational therapists supply there walk in preschoolers with VPI applications.
127	Suffolk City	46	463	9.94%	For the 2024-2025 school year, SPS has introduced an itinerant special education model within VPI classrooms, allowing special education teachers to support students across the district. This model fosters a more inclusive environment within the VPI program. During the summer VPI screening process, the Special Education Department partnered with the screening team to participate in student assessments, facilitating the identification and referral of students with disabilities. This early identification guided the placement of students with disabilities in our VPI program
