

Date: October 30, 2025

To: Chairs of the Senate Committee on Education and Health and the House Committee on Education

From: Dr. Kevin Newman, Superintendent *KN*

Subject: HB 2278

To Whom It May Concern:

To the best of our understanding and knowledge, Manassas City Public Schools (MCPS) complies with applicable federal and state accessibility requirements. We remain firmly committed to ensuring that all students, staff, families, and community members have equal access to MCPS facilities, programs, and services.

MCPS regularly monitors our buildings and grounds for accessibility, assesses access to programs and supports, and undertakes corrective actions or improvements as needed. This work is integrated into our routine facilities inspections, capital planning, and operational processes.

In alignment with HB 2278, MCPS has recently issued a request for proposals (RFP) to select a third-party vendor to, in part, assess our facilities. We are currently evaluating the proposals, which further demonstrate our commitment to ensuring that our buildings remain accessible for all stakeholders.

Cc: Samantha Hollins, Associate Superintendent for Special Population and Board Operations
