Dear Delegate Rasoul and Senator Hashmi:

Lee County Public Schools conducted on-site evaluations of handicap accessibility at each of its twelve (12) locations. Following these evaluations, we noted the following:

- Eleven out of twelve schools contain elevators and ramps to ensure access to all areas of the campuses.
- All schools provide adequate handicap parking.
- All schools have handicap accessible restrooms.
- One school does not have an elevator to enable students/visitors access to the second floor of the building. In addition, the same location has two outdoor building with stairs to the entry and not handicap accessible.
- All campuses have a minimum of two (2) handicap accessible entries; however, three (3) locations do not have handicap accessibility at the main office entry.
- Additional signage could be utilized at all campuses.
- Playgrounds could be upgraded with secure barriers at the elementary levels.
- Eleven out of twelve schools have no barriers to classrooms, cafeterias, gymnasiums, etc.

Please note that Lee County Public Schools is constantly evaluating school campuses to meet ADA compliance and improve all facilities. Should you have additional questions, please do not hesitate to contact me.

Sincerely,

Brian Dean
Division Superintendent
