The Honorable Patrick A. Hope
Chair, Courts of Justice Committee
Virginia House of Delegates
P.O. Box 3148
Arlington, VA 22203

Dear Chairs Surovell and Hope:

Va. Code §17.1-106 requires the Office of the Executive Secretary (OES) to distribute evaluation forms for retired recalled circuit court judges during the final year of the three-year period following their qualification by the House and Senate Courts of Justice Committees. In addition, Item 31, Paragraph O of the 2024 Appropriation Act, Chapter 2, Special Session I, requires the Office of the Executive Secretary to collect information regarding the numbers and types of cases referred to retired circuit court judges. This letter serves to report the results of these activities to the House and Senate Courts of Justice Committees. This process is not part of the Judicial Performance Evaluation (JPE) Program, which is established in Virginia Code § 17.1-100 and the Rules of the Supreme Court of Virginia.

On October 1, 2024, OES distributed a survey to evaluate a group of 60 retired recalled circuit court judges in their final year of the three-year period following their qualification and to collect information about the number and types of cases referred to retired recalled circuit court judges. This survey was designed in Survey Monkey, an online survey tool. A survey announcement was sent via email to all active members of the Virginia State Bar (VSB). Attorneys who appeared before or observed any retired circuit court judge in the past 12 months were asked to complete the anonymous 5-minute survey using the survey link provided in the email. Attorneys who were ineligible (i.e., had not appeared before or observed a retired judge in

the past 12 months) were to disregard the survey. A follow-up survey announcement was sent to all active members of the VSB on October 15. The survey closed on October 31.

The survey measured the frequency (i.e., rarely/never, about half the time, frequently/always) of various attributes of the judges observed over a twelve-month period, including timeliness, respect, attentiveness, communication, and knowledgeability. Upon completion of the survey, attorneys certified that they had not completed more than one survey response for a particular judge and that the responses were based on their personal experience with the judge. Also included on the survey was a question asking the case type(s) in which the attorney appeared before or observed the retired recalled judge. Attorneys who responded that they had not appeared before one of the 60 listed retired recalled circuit judges but had appeared before any retired recalled circuit judge during the past 12 months also answered this question.

In total, 2,248 respondents completed the survey – 1,484 respondents for 59 of the 60 retired recalled judges being evaluated and 764 respondents who appeared before or observed any retired judge.¹ Of the 764 respondents who indicated that they appeared before or observed any retired recalled circuit court judge, 328 did not indicate the types of cases in which they appeared before or observed the judge. A completed survey is one in which the respondent clicked “Done” on the last page of the survey.

Of surveys completed for the specific retired recalled circuit judges, 8.6% of 1,484 respondents indicated that they had appeared before or observed a particular judge more than 5 times. Overall, “frequently/always” was entered for 84%-91% of responses across all the evaluation questions. The results indicate that the retired recalled circuit court judges evaluated are convening court without undue delay, using courtroom time efficiently, and are prompt in rendering clear decisions frequently or always. Across all evaluation areas, the judges evaluated exhibited the assessed characteristics “rarely/never” in 2%-4% of responses. Individual survey results for each retired recalled circuit court judge are attached in alphabetical order by last name.

Results of surveys identifying the case type(s) in which the attorney appeared before or observed any retired circuit court judge indicate that 60% of the cases identified in response to the survey were civil in nature. Civil case types included on the survey were domestic relations, tort, contract, and other civil. Criminal case type was a stand-alone selection and counted for 40% of the cases identified in response to the survey in which the survey respondents appeared before or observed retired recalled circuit court judges. A report detailing case type responses is attached.

Statistically, case filings and types are not tracked for retired judges, and we are not able to quantify the number of cases heard by retired recalled circuit judges. Retired recalled circuit judges served for 3,421 days over the 12-month period, September 1, 2023-August 31, 2024.

¹ There were no surveys completed for the Hon. Ray W. Grubbs

If you have any questions regarding this report, please do not hesitate to contact me.

With best wishes, I am

Very truly yours,

Karl R. Hade
