MEMORANDUM

TO: The Honorable L. Louise Lucas
Chair, Senate Finance Committee

The Honorable Luke E. Torian
Chair, House Appropriations Committee

The Honorable Betsy B. Carr
Vice Chair, House Appropriations Committee

FROM: Dr. Cameron Webb
State Health Commissioner, Virginia Department of Health

SUBJECT: Virginia Drinking Water State Revolving Fund Program Report

This report is submitted in compliance with the Virginia Acts of the Assembly – House Bill 1600 (Chapter 725), Item 280, which states:

The Department shall report to the Chairs of the Senate Finance and Appropriations and House Appropriations Committees on the number of applications received for grants, the total grants and grant amounts awarded, the localities to which grants will be awarded, and the description of drinking water infrastructure projects for which the grants will be used no later than December 1, 2025.

Should you have any questions or need additional information, please feel free to contact me at (804) 864-7002.

VIRGINIA DRINKING WATER STATE REVOLVING FUND PROGRAM REPORT

REPORT TO THE GENERAL ASSEMBLY

2025

VIRGINIA DEPARTMENT OF HEALTH

PREFACE

Virginia General Assembly approved House Bill 1600 (Chapter 725), Item 280, which directed \$25 million for one-time grants to localities to upgrade or replace existing drinking water infrastructure. The report is being sent to the chairs of the Senate Finance and Appropriations Committee and the House Appropriations Committee and is due December 1, 2025.

EXECUTIVE SUMMARY

In 2025, the Virginia General Assembly approved House Bill 1600 (Chapter 725), Item 280, hereinafter titled HB 1600, which directed \$25 million for one-time grants to localities to upgrade or replace existing drinking water infrastructure. To receive a grant, the awarded locality must provide proof of at least 25% match for the cost of the project. No grant to a locality can fully fund the drinking water project. The legislation prioritized projects with the Town of Bowling Green and Greene County, both of which demonstrated outstanding critical drinking water needs. Critical drinking water needs included the occurrence of boil water advisories, systems failures, or contaminants in the drinking water. Further actions implemented by ODW are listed below.

FURTHER ACTIONS

The Virginia Department of Health (VDH) developed guidelines for grant eligibility, conditions for the grants, and grant distribution priorities. VDH posted a Virginia Regulatory Town Hall notice, addressing all three requirements utilizing the existing Drinking Water State Revolving Fund (DWSRF) procedures. No public comments were received related to HB 1600 funding.

VDH conducted one round of evaluations of applications including considering construction applications received during the past DWSRF funding cycle. VDH received a total of 31 applications including 13 new applications and 18 rollover applications.

VDH utilized the existing DWSRF scoring sheet in Appendix C, following the Program Design Manual linked [here](#), to score and rank the applications. The results were sorted for highest ranking score, with projects in the town of Bowling Green and Greene County receiving priority in accordance with HB 1600. Fauquier County was the third priority from the scoring.

INTRODUCTION

STUDY MANDATE

The 2025 Budget Bill provided \$25 million for one-time grants for public water system owners (also known as waterworks) to upgrade or replace existing drinking water infrastructure (Appendix A). The Virginia Department of Health (VDH), Office of Drinking Water (ODW) developed guidelines and criteria for grant eligibility, conditions for grant funding, and the grant distribution priorities. ODW considered the financial condition of the locality and the locality's effort to access additional funding from other sources as part of the application and review process. Localities provided evidence of critical drinking water needs and proof of at least a 25% match for the cost of the project. ODW gave priority consideration to Greene County and the Town of Bowling Green as directed by the Budget Bill.

STUDY ACTIVITIES

VDH posted a Virginia Regulatory Town Hall notice on July 1, 2025, that addressed requirements in the Budget Bill (Appendix B). ODW used the Drinking Water State Revolving Fund (DWSRF) procedures in the DWSRF Program Design Manual as a baseline for decision-making and review of applications. ODW used its existing scoring criteria (Appendix C), historical application, and other existing standard operating procedures for the DWSRF program to implement requirements of the Budget Bill. ODW removed unnecessary requirements. ODW announced VDH's intent to use existing DWSRF processes during the public comment period to review applications pursuant to the Budget Bill. The public had the option to submit comments on the proposed process from July 1, 2025, through August 1, 2025. ODW did not receive any public comment on the proposed process to implement the Budget Bill.

The public notice allowed applications through September 1, 2025. VDH also reviewed applications from the most recent DWSRF funding cycle, on or prior to May 2, 2025, if any applicant submitted a request. Owners of community waterworks and nonprofit non-community waterworks were eligible to apply for the funding. In the public notice, VDH communicated plans to make selections based on criteria described in the DWSRF Program Design Manual, such as existing public health problems, noncompliance with the Waterworks Regulations, affordability, regionalization, the availability of matching funds, occurrences of boil water advisories, system failures, evidence of contaminants, and readiness to proceed. The application review also included the financial condition of the requesting locality.

From September through October, ODW reviewed the applications submitted, ranked them in priority order, and sent offer letters. ODW received 31 applications for the \$25 million of funding. Applicants requested \$174,869,489. Ultimately, three localities were approved – Town of Bowling Green, County of Greene, and Fauquier County. Two localities – Town of Bowling Green and Fauquier County – needed funding to address contaminants in drinking water. Greene County sought funding to address water quantity needs.

REPORT OUTLINE

The rest of the report outlines DWSRF program details and describes how the funding from HB 1600 was implemented, and the following appendices:

- Appendix A: 2025 Budget Bill and Authorization of Funding
- Appendix B: Virginia Town Hall Notice and Funding Solicitation
- Appendix C: Scoring Criteria
- Appendix D: List of Funding Applicants and Funding Offers

DWSRF PROGRAM DETAILS

The DWSRF program was created by the 1996 Amendments to the Safe Drinking Water Act, Section 1452. The program provides financing in the form of low interest or subsidized loans and grants to community and not-for-profit non-community waterworks. The DWSRF program is administered by ODW in partnership with the Virginia Resource Authority (VRA). Priority is provided for projects addressing public health or compliance problems. Funding comes from the Environmental Protection Agency (EPA) as an annual DWSRF Capitalization Grant. Additional funding comes from the required 20% state match, as well as any overmatch of state funds, and repayments and interest from previous funds already provided to waterworks for drinking water construction projects in past years. Virginia's DWSRF program has closed funding/financing agreements for 574 projects totaling \$617,943,291, as outlined below:

Year	State Fiscal Year	# of Binding Commitments	Amount
1	1998	1	\$ 4,000,000
2	1999	3	\$ 8,000,000
3	2000	15	\$ 15,114,517
4	2001	20	\$ 24,584,781
5	2002	30	\$ 33,827,968
6	2003	19	\$ 19,875,065
7	2004	16	\$ 11,667,041
8	2005	17	\$ 10,654,508
9	2006	17	\$ 16,833,000
10	2007	15	\$ 12,124,046
11	2008	12	\$ 6,193,126
12	2009	18	\$ 13,707,176
13	2010	17	\$ 13,503,089
13	2010 (ARRA)	17	\$ 20,138,170
14	2011	16	\$ 15,496,322
15	2012	16	\$ 18,330,972
16	2013	15	\$ 26,077,006
17	2014	19	\$ 28,182,614
18	2015	20	\$ 16,262,052
19	2016	24	\$ 16,912,070
20	2017	20	\$ 17,435,147
21	2018	23	\$ 26,938,449
22	2019	34	\$ 19,256,987
23	2020	20	\$ 12,142,839
24	2021	16	\$ 87,052,223
25	2022	12	\$10,960,861
26	2023	14	\$20,584,189
27	2024	25	\$22,018,981
28	2025	83	\$70,070,019
	Grand Total	574	\$617,943,291

Figure 1: Funding and Financing Agreements

ODW offers many services to help waterworks, including operator and management training, and professional development seminars for waterworks. Virginia has reduced the number of waterworks with a health violation to less than 2.7% of all the systems across the Commonwealth, which can be attributed to ODW's proactive work and the financial support provided by the DWSRF program and other ODW program initiatives. ODW developed the following goals for the DWSRF program and the HB 1600 funding:

- Protect the public health and welfare.
- Ensure funding benefits Virginians.
- Comply with federal and state regulations.
- Improve sustainable infrastructure (managerial, technical, and financial capability).

- Protect source water.
- Educate waterworks owners with effective outreach programs.
- Allocate funding so Virginians realize a prompt benefit.
- Promote consolidation and regionalization to improve economy of scale and reduce costs.

IMPLEMENTING HB 1600 FUNDING

VDH received no public comments to the Virginia Regulatory Town Hall notice (Appendix B) posted on July 1, 2025 and concluded on August 1, 2025. ODW evaluated applications received by September 1, 2025. ODW completed its review of application by November 10, 2025. VDH's DWSRF Program Design Manual details the process used for this funding. The existing score sheet can be found in the Program Design Manual. ODW eliminated the following federal requirements, which were not necessary for the \$25 million of funding: Build America Buy America; American Iron and Steel; Davis Bacon Wage Rates; MBE/ WBE; Single Audit requirements. More details on these federal requirements are found in the DWSRF Program Manual.

Additionally, projects with a primary purpose of economic development, which are not eligible for DWSRF funding, were eligible under HB 1600. ODW scored and ranked applications using the DWSRF program manual and scoring criteria found in Appendix C. See Appendix D for a complete list of scores and rankings.

Although Greene County's Raw Water Line and Intake/Pump Station Project ranked 26th out of 31 applicants on the project priority list, this project also received priority in accordance with HB 1600. Three funding offers were made following the detailed evaluation of the 31 applications.

- Town of Bowling Green's Gross Alpha Treatment and Well Replacements: \$6,206,250 (75% of project with the Town responsible for \$2,068,750).
- Greene County's Raw Water Line and Intake/Pump Station: \$12,000,000 = (75% of project with the County responsible for \$4,000,000.)
- Fauquier County Water and Sanitation's New Baltimore Water System Interconnect: \$6,793,750 (26% of project but all of remaining HB 1600 Funding available, with the County responsible for \$19,526,250).

Offer letters were drafted and sent to the three applicants by December 1, 2025. Additionally, emails were sent to the unsuccessful applicants for HB 1600 funding. The three awarded applicants must complete subrecipient agreements following required procurement procedures.

APPENDIX A – CHAPTER 725 OF THE 2025 ACTS OF ASSEMBLY

2025 Session

Budget Bill - HB1600 (Chapter 725)

Department of Health

Item 280	First Year - FY2025	Second Year - FY2026
Drinking Water Improvement (50800)	<i>\$164,436,004</i>	<i>\$140,739,602</i>
Drinking Water Regulation (50801)	\$15,521,324	\$17,324,922
Drinking Water Construction Financing (50802)	<i>\$147,918,859</i>	\$122,918,859
Public Health Toxicology (50805)	\$995,821	\$495,821
Fund Sources:		
General	<i>\$42,419,071</i>	<i>\$18,722,669</i>
Special	\$6,941,130	\$6,941,130
Dedicated Special Revenue	\$19,864,132	\$19,864,132
Federal Trust	\$95,211,671	\$95,211,671

Authority: §§ [32.1-163](#) through [32.1-176.7](#), [32.1-246](#), [32.1-246.1](#), and [62.1-44.18](#) through [62.1-44.19:9](#), Code of Virginia; and P.L. 92-500, P.L. 93-523 and P.L. 95-217, Federal Code.

A. It is the intent of the General Assembly that the Virginia Department of Health be the agency designated to receive and manage general and nongeneral funds appropriated pursuant to the federal Safe Drinking Water Act of 1996.

B. The fee schedule for charges to community waterworks shall be adjusted to the level necessary to cover the cost of operating the Waterworks Technical Assistance Program, consistent with § [32.1-171.1](#), Code of Virginia, and shall not exceed \$3.00 per connection to all community waterworks.

C. Any positions necessary for the Office of Drinking Water to perform regulatory functions in dispersing federal State and Local Recovery Funds (SLRF) pursuant to the American Rescue Plan Act of 2021 (ARPA) for drinking water infrastructure shall be restricted positions and shall expire at the end of the grant period.

D. Out of this appropriation, \$1,500,000 the first year and \$1,500,000 the second year from the general fund shall be provided to the Virginia Department of Health to implement a Water Sampling Verification Program. The program shall ensure sampling is valid and representative

of the actual water quality and conditions at the waterworks.

E. Out of this appropriation, \$6,464,800 the first year and \$6,464,800 the second year from the general fund is provided as state match for additional federal awards for the Drinking Water State Revolving Fund from the Infrastructure Investment and Jobs Act (P.L. 117-58).

F. Out of this appropriation, \$3,624,600 the first year and \$3,624,600 the second year from the general fund is provided as state match for additional federal awards for the Drinking Water State Revolving Fund from the Safe Drinking Water Act.

G. Out of this appropriation, \$500,000 the first year from the general fund shall be provided for the Virginia Department of Health to conduct a cost analysis of implementing pending federal Per- and Polyfluorinated Substances (PFAS) regulations for Virginia local water systems and to implement pending federal Environmental Protection Agency Copper Rules for water system lead service lines. The report shall include the results of the cost analysis, possible funding models, and identify federal funding that may be available. The department shall submit the report to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by December 1, 2024.

H. Out of this appropriation, \$1,803,598 the second year from the general fund shall be provided to ensure compliance with the Safe Drinking Water Act, National Primary Drinking Water Regulations, Virginia Public Water Supplies Law, Virginia Waterworks Regulations, and to support Office of Drinking Water programs. The Office of Drinking Water shall provide a report to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by October 1, 2025, describing actions taken to maintain compliance with federal and state regulations.

I.1. Out of this appropriation, \$25,000,000 the first year from the general fund shall be provided for the Virginia Department of Health to provide one-time grants to localities to upgrade or replace existing drinking water infrastructure. The Department shall develop guidelines establishing: (i) criteria for grant eligibility; (ii) conditions to be included in the grants; and (iii) grant distribution priorities. Among the factors that shall be included in criteria for grant eligibility and in the grant distribution priorities shall be the financial condition of the locality wherein a grant is sought and a locality's effort to access additional funding for the proposed drinking water infrastructure project from other sources. Localities must be able to provide evidence of critical drinking water needs, such as occurrences of boil advisories, systems failures, or evidence of contaminants, such as polyfluoroalkyl substances (PFAS) and gross alpha reactivity, in the drinking water.

2. To receive a grant, localities must provide proof of at least a 25.0 percent match for the cost of a project. No grant to a locality shall fully fund a drinking water project.

3. The Department shall report to the Chairs of the Senate Finance and Appropriations and House Appropriations Committees on the number of applications received for grants, the total grants and grant amounts awarded, the localities to which grants will be awarded, and the

description of drinking water infrastructure projects for which the grants will be used no later than December 1, 2025.

4. The Department shall give priority consideration for grants to Greene County and the Town of Bowling Green, as both localities have demonstrated outstanding critical drinking water needs.

5. The Department may use up to \$250,000 of the funds in paragraph I.1. for administration costs of providing drinking water infrastructure grants to localities.

6. Any unexpended balances in paragraph I.1. at the close of business on June 30, 2025, shall not revert to the general fund but shall be carried forward and reappropriated for this purpose.

APPENDIX B – VIRGINIA TOWN HALL NOTICE AND FUNDING SOLICITATION

General Notice

Public Comment Notice: Drinking Water General Assembly Funding

Date Posted: 7/1/2025

Expiration Date: 8/9/2025

Submitted to Registrar for publication: YES

[31 Day Comment Forum](#) is underway. Began on 7/1/2025 and will end on 8/1/2025

Drinking Water GA Funding established by HB1600 (Chapter 725) Item 280

The Virginia Department of Health (VDH) is pleased to announce a new opportunity for funding drinking water infrastructure. This funding was established by the 2025 General Assembly (GA) Session HB1600 (Chapter 725) Item 280 which can be found at the following link: [Item 280 \(VDH\) Drinking Water Improvement. HB1600 - Chapter 725](#)

Pursuant to this budget bill, the VDH plans to utilize the existing Drinking Water State Revolving Fund (DWSRF) Program Design Manual, Scoring Criteria, application process, and standard operating procedures to implement this funding.

HB1600 (Chapter 725) Item 280 provides \$25,000,000 to provide one-time grants to localities to upgrade or replace existing drinking water infrastructure.

To receive a grant, localities must provide proof of at least 25 percent match for the cost of the project. No grant to a locality shall fully fund a drinking water project.

VDH will receive public comments between July 1, 2025, and August 1, 2025, on the proposed implementation of this funding.

VDH plans to conduct one round of evaluations of applications with a deadline for applications of September 1, 2025. VDH will also consider construction applications received this past DWSRF funding cycle, on or prior to May 2, 2025, if the applicant sends us a letter requesting this.

Owners of community waterworks and nonprofit non-community waterworks are eligible to apply for construction funds. VDH plans to make selections based on criteria described in the Drinking Water State Revolving Fund Program Design Manual, such as existing public health problems, noncompliance, affordability, regionalization, and the availability of matching funds, occurrences of boil water advisories, system failures, evidence of contaminants, and readiness to proceed. This will also include a review of the financial condition of the locality wherein the grant is sought and the locality's effort to access additional funding for the proposed drinking water infrastructure project from other sources.

The VDH's DWSRF Program Design Manual describes the features of the above opportunity for funding. The existing score sheet for this funding can be found in this Program Design Manual on page 16 at the following location:

www.vdh.virginia.gov/content/uploads/sites/14/2025/02/Program-Design-Manual_2025-02-25.pdf

The Drinking Water GA Funding established by HB1600 (Chapter 725) Item 280 will differ from the DWSRF funding by eliminating the following requirements of federal funding, unless federal co-funding exists:

- Build America Buy America
- American Iron and Steel
- Davis Bacon Wage Rates
- Minority Business Enterprises (MBE)/Women-owned Business Enterprises (WBE)
- Single Audit requirements

Additionally, projects with a primary purpose of economic development, which are not eligible for DWSRF funding, will be eligible for this GA HB1600 (Chapter 725) Item 280 funding.

After receiving public input, VDH will update the DWSRF application review process to address public comments and use that process to prioritize the applications. VDH plans to provide funding offers by mid-September 2025.

As indicated in HB1600 (Chapter 725) Item 280, VDH shall give priority consideration for grants to Greene County and the Town of Bowling Green, as both localities have demonstrated outstanding critical drinking water needs.

Applications, Program Design Manuals, and additional information materials are available at <https://www.vdh.virginia.gov/drinking-water/fcap/drinking-water-funding-program/>.

APPENDIX C – SCORING CRITERIA

Project Selection Scorecard DWSRF and BIL**APPLICANT NAME:****REVIEWER:****PROJECT NAME:****FY:**

Points can only be awarded if the project addresses a documented need. In situations where the waterworks wants to do a project but have no documented need, points should not be awarded. Documentation would include NOV's, enforcement actions/letters, sanitary survey requirements, documented leaks, documented break data, documented problems, etc.

Project Category (Indicate Health or Other)	
Is applicant eligible for funding? (Indicate Yes or No)	
Are all required attachments provided? (Indicate Yes or No)	
Has the owner submitted multiple applications this funding year? (Indicate Yes or No)	
If multiple applications, does one project depend upon obtaining funding for the other? (Indicate Yes or No) If yes, please identify the other project(s)	

Section I - SDWA Compliance (Maximum Possible Score = 3,960 points)	Points Available	Points Awarded
Acute Health Priority - Formal Enforcement Actions or Commissioner's Letter	550	
SWTR Violations/GUDI	510	
Persistent TCR, Nitrate	510	
Continuing Boil Water Notice	510	
Chronic Health Priority - Formal Enforcement Actions or Commissioner's Letter	500	
Persistent PMCL Violations (VOC, SOC, IOC, RAD, etc.)	460	
Pb & Cu Action Levels	460	
Priority System (i.e., ETT score ≥ 11)	460	
Section II - Public Health Projects (Maximum Possible Score = 3,830 points)		
A Infrastructure Improvement for Cross Connection Reduction and Public Health Improvement		
Reduce Water Loss and increase accountability. Leakage noted as percent ranges, leak rate must be documented, project must be addressing the water loss to award these points: (water loss points are not additive, boil water notice and meter points ARE additive)		
0% to $\leq 10\%$ Loss	0	
Didn't provide leakage data but provided maintenance records of leaks repaired	110	
>10% to $\leq 30\%$	110	
>30% to $\leq 50\%$	200	
>50% loss and above	300	
Precautionary Boil Water Notice for Pressure Loss	150	
Adding 1 st time meters to system	150	
Provide adequate storage capacity or tank repair/rehab	300	
Replacing waterline with lead joints	110	
Replacing asbestos cement waterline	110	
Add a generator for backup power	200	

APPENDIX D – LIST OF FUNDING APPLICANTS AND FUNDING OFFERS

General Assembly		House Bill 1600 Funding Applications			
Applicant	City or County	Project Name	Field Office	Amount Requested	
1 Fauquier County Water & Sanitation	Fauquier County	FCWSA Groundwater PFAS Treatment	CFO	\$26,320,000	
2 Bowling Green, Town of	Caroline County	Gross Alpha Treatment & Well Replacements	RFO	\$8,275,000	
3 Fauquier County Water & Sanitation	Fauquier Co	17/66 WTP PFAS Treatment and Compliance Project	CFO	\$3,154,000
