REPORTING REQUIREMENT

Item 125.B.28, Chapter 725, 2025 Acts of Assembly

“Each school division shall report each year to the Department of Education the individual uses for the prior year of the following funds prescribed by this item: (i) At-Risk Add-On and (ii) Early Reading Intervention. The Department shall prescribe the format and timeline required for the reporting of such information, which shall include, permitted categories of spending, personnel, both state and local contributions, and to the extent possible, the individual schools which these funds were expended. The Department shall compile and submit this information to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees no later than the first day of the General Assembly session.”

ALLOWABLE USES OF AT-RISK FUNDS

1. At-Risk Add-On Program

Chapter 725, Item 125.C.9.c:

c. These funds may be used for the purposes established in general law, including supporting programs and services for students who are educationally at risk, including prevention, intervention, or remediation activities required pursuant to Standard 1 (§ 22.1-253.13:1); teacher recruitment programs and incentives; targeted compensation adjustments to assist in recruiting and retaining experienced teachers in high poverty schools; Dropout Prevention; community and school-based truancy officer programs; Advancement Via Individual Determination (AVID); Project Discovery; programs for English language learners; the hiring of additional school counselors, testing coordinators, and licensed behavior analysts; programs relating to increasing the success of disadvantaged students in completing a high school degree and providing opportunities to encourage further education and training; and programs designed to reduce chronic absenteeism

2. Early Reading Intervention Program

Chapter 725, Item 125.C.16.c:

c. These payments are available to any school division that certifies to the Department of Education that an intervention program will be offered to such students and that each student who receives an intervention will be assessed again at the end of that school year. At the beginning of the school year, local school divisions shall partner with the parents of those third-grade students in the division who demonstrate reading deficiencies, discussing with them a developed plan for remediation and retesting. Such intervention programs, at the discretion of the local school division, may include, but not be limited to, the use of: special reading teachers; trained aides; full-time early literacy tutors; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; or extended instructional time in the school day or year for these students. Localities receiving these payments are required to match these funds based on the composite index of local ability-to-pay.

DATA TABLES

The following data tables are updated as of December 10, 2025. The tables show spending amounts by school division of the At-Risk Add-on and Early Reading Intervention programs, by eligible spending category in FY2025. The tables also provide the state distributions and required local match amounts as references.

Also attached to this report is a supplemental report that indicates the “other” uses of funds by school divisions, which cannot be characterized by the spending categories in the data tables.

The attached data are reported to the Virginia Department of Education in the Annual School Report. The data is reported to the Department at the division level. School-level spending amounts are not available.

As of December 10, 2025, the Virginia Department of Education has not received certified FY2025 Annual School Reports from Essex County and Northumberland County.

Essex County submitted their Annual School Report data to the Department on December 19, 2025; however, the Department has not been able to validate the data for inclusion in the final report in an effort to meet the General Assembly reporting deadlines.
